H. R. 6

To ensure jobs for our future with secure, affordable, and reliable energy.

IN THE HOUSE OF REPRESENTATIVES

APRIL 18, 2005

Mr. Barton of Texas (for himself, Mr. Pombo, and Mr. Thomas) introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committees on Education and the Workforce, Financial Services, Agriculture, Resources, Science, Ways and Means, and Transportation and Infrastructure, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

A BILL

To ensure jobs for our future with secure, affordable, and reliable energy.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Energy Policy Act of 2005”.

(b) TABLE OF CONTENTS.—The table of contents for the bill is as follows:

Sec. 1. Short title; table of contents.

TITLE I—ENERGY EFFICIENCY
Subtitle A—Federal Programs

Sec. 102. Energy management requirements.
Sec. 103. Energy use measurement and accountability.
Sec. 104. Procurement of energy efficient products.
Sec. 107. Voluntary commitments to reduce industrial energy intensity.
Sec. 108. Advanced Building Efficiency Testbed.
Sec. 111. Daylight savings.

Subtitle B—Energy Assistance and State Programs

Sec. 121. Low Income Home Energy Assistance Program.
Sec. 122. Weatherization assistance.
Sec. 123. State energy programs.
Sec. 124. Energy efficient appliance rebate programs.
Sec. 125. Energy efficient public buildings.
Sec. 126. Low income community energy efficiency pilot program.

Subtitle C—Energy Efficient Products

Sec. 131. Energy Star Program.
Sec. 132. HVAC maintenance consumer education program.
Sec. 133. Energy conservation standards for additional products.
Sec. 134. Energy labeling.
Sec. 135. Preemption.
Sec. 136. State consumer product energy efficiency standards.

Subtitle D—Public Housing

Sec. 141. Capacity building for energy-efficient, affordable housing.
Sec. 142. Increase of cdbg public services cap for energy conservation and efficiency activities.
Sec. 143. FHA mortgage insurance incentives for energy efficient housing.
Sec. 144. Public housing capital fund.
Sec. 145. Grants for energy-conserving improvements for assisted housing.
Sec. 147. Energy-efficient appliances.
Sec. 148. Energy efficiency standards.
Sec. 149. Energy strategy for HUD.

TITLE II—RENEWABLE ENERGY

Subtitle A—General Provisions

Sec. 201. Assessment of renewable energy resources.
Sec. 202. Renewable energy production incentive.
Sec. 203. Federal purchase requirement.
Sec. 204. Insular areas energy security.
Sec. 205. Use of photovoltaic energy in public buildings.
Sec. 206. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, petroleum-based product substitutes, and other commercial purposes.
Sec. 207. Biobased products.
Sec. 208. Renewable energy security.

Subtitle C—Hydroelectric
PART I—ALTERNATIVE CONDITIONS

Sec. 231. Alternative conditions and fishways.

PART II—ADDITIONAL HYDROPOWER

Sec. 241. Hydroelectric production incentives.
Sec. 242. Hydroelectric efficiency improvement.
Sec. 243. Small hydroelectric power projects.
Sec. 244. Increased hydroelectric generation at existing Federal facilities.
Sec. 245. Shift of project loads to off-peak periods.

TITLE III—OIL AND GAS—COMMERCE

Subtitle A—Petroleum Reserve and Home Heating Oil

Sec. 301. Permanent authority to operate the Strategic Petroleum Reserve and other energy programs.
Sec. 303. Site selection.
Sec. 304. Suspension of Strategic Petroleum Reserve deliveries.

Subtitle B—Production Incentives

Sec. 320. Liquefaction or gasification natural gas terminals.
Sec. 327. Hydraulic fracturing.
Sec. 328. Oil and gas exploration and production defined.
Sec. 329. Outer Continental Shelf provisions.
Sec. 330. Appeals relating to pipeline construction or offshore mineral development projects.
Sec. 333. Natural gas market transparency.

Subtitle C—Access to Federal Land

Sec. 344. Consultation regarding oil and gas leasing on public land.
Sec. 346. Compliance with executive order 13211; actions concerning regulations that significantly affect energy supply, distribution, or use.
Sec. 355. Encouraging Great Lakes oil and gas drilling ban.
Sec. 358. Federal coalbed methane regulation.

Subtitle D—Refining Revitalization

Sec. 371. Short title.
Sec. 372. Findings.
Sec. 373. Purpose.
Sec. 374. Designation of Refinery Revitalization Zones.
Sec. 375. Memorandum of understanding.
Sec. 376. State environmental permitting assistance.
Sec. 377. Coordination and expeditions review of permitting process.
Sec. 378. Compliance with all environmental regulations required.
Sec. 379. Definitions.

TITLE IV—COAL

Subtitle A—Clean Coal Power Initiative

Sec. 401. Authorization of appropriations.
Sec. 402. Project criteria.
Sec. 403. Report.
Sec. 404. Clean Coal Centers of Excellence.

Subtitle B—Clean Power Projects

Sec. 411. Coal technology loan.
Sec. 412. Coal gasification.
Sec. 414. Petroleum coke gasification.
Sec. 416. Electron scrubbing demonstration.

Subtitle D—Coal and Related Programs

Sec. 441. Clean air coal program.

TITLE V—INDIAN ENERGY

Sec. 501. Short title.
Sec. 502. Office of Indian Energy Policy and Programs.
Sec. 503. Indian energy.
Sec. 504. Consultation with Indian tribes.
Sec. 505. Four Corners transmission line project.

TITLE VI—NUCLEAR MATTERS

Subtitle A—Price-Anderson Act Amendments

Sec. 601. Short title.
Sec. 602. Extension of indemnification authority.
Sec. 603. Maximum assessment.
Sec. 604. Department of Energy liability limit.
Sec. 605. Incidents outside the United States.
Sec. 606. Reports.
Sec. 607. Inflation adjustment.
Sec. 608. Treatment of modular reactors.
Sec. 609. Applicability.
Sec. 610. Prohibition on assumption by United States Government of liability for certain foreign incidents.
Sec. 611. Civil penalties.
Sec. 612. Financial accountability.

Subtitle B—General Nuclear Matters

Sec. 621. Licenses.
Sec. 622. NRC training program.
Sec. 623. Cost recovery from government agencies.
Sec. 624. Elimination of pension offset.
Sec. 625. Antitrust review.
Sec. 626. Decommissioning.
Sec. 627. Limitation on legal fee reimbursement.
Sec. 629. Report on feasibility of developing commercial nuclear energy generation facilities at existing Department of Energy sites.
Sec. 630. Uranium sales.
Sec. 631. Cooperative research and development and special demonstration projects for the uranium mining industry.
Sec. 632. Whistleblower protection.
Sec. 633. Medical isotope production.
Sec. 634. Fernald byproduct material.
Sec. 635. Safe disposal of greater-than-class C radioactive waste.
Sec. 636. Prohibition on nuclear exports to countries that sponsor terrorism.
Sec. 638. National uranium stockpile.
Sec. 639. Nuclear Regulatory Commission meetings.
Sec. 640. Employee benefits.

Subtitle C—Additional Hydrogen Production Provisions
Sec. 651. Hydrogen production programs.
Sec. 652. Definitions.

Subtitle D—Nuclear Security
Sec. 661. Nuclear facility threats.
Sec. 662. Fingerprinting for criminal history record checks.
Sec. 663. Use of firearms by security personnel of licensees and certificate holders of the Commission.
Sec. 664. Unauthorized introduction of dangerous weapons.
Sec. 665. Sabotage of nuclear facilities or fuel.
Sec. 666. Secure transfer of nuclear materials.
Sec. 668. Authorization of appropriations.

TITLE VII—VEHICLES AND FUELS

Subtitle A—Existing Programs
Sec. 701. Use of alternative fuels by dual-fueled vehicles.
Sec. 704. Incremental cost allocation.
Sec. 705. Lease condensates.
Sec. 707. Report concerning compliance with alternative fueled vehicle purchasing requirements.

Subtitle B—Hybrid Vehicles, Advanced Vehicles, and Fuel Cell Buses
PART 1—HYBRID VEHICLES
Sec. 711. Hybrid vehicles.
Sec. 712. Hybrid retrofit and electric conversion program.

PART 2—ADVANCED VEHICLES
Sec. 721. Definitions.
Sec. 722. Pilot program.
Sec. 723. Reports to Congress.
Sec. 724. Authorization of appropriations.

PART 3—FUEL CELL BUSES
Sec. 731. Fuel cell transit bus demonstration.

Subtitle C—Clean School Buses
Sec. 741. Definitions.
Sec. 742. Program for replacement of certain school buses with clean school buses.
Sec. 743. Diesel retrofit program.
Sec. 744. Fuel cell school buses.
Subtitle D—Miscellaneous

Sec. 751. Railroad efficiency.
Sec. 752. Mobile emission reductions trading and crediting.
Sec. 753. Aviation fuel conservation and emissions.
Sec. 754. Diesel fueled vehicles.
Sec. 756. Reduction of engine idling of heavy-duty vehicles.
Sec. 757. Biodiesel engine testing program.
Sec. 758. High occupancy vehicle exception.
Sec. 759. Ultra-efficient engine technology for aircraft.

Subtitle E—Automobile Efficiency

Sec. 771. Authorization of appropriations for implementation and enforcement of fuel economy standards.
Sec. 772. Revised considerations for decisions on maximum feasible average fuel economy.
Sec. 773. Extension of maximum fuel economy increase for alternative fueled vehicles.
Sec. 774. Study of feasibility and effects of reducing use of fuel for automobiles.

TITLE VIII—HYDROGEN

Sec. 801. Definitions.
Sec. 802. Plan.
Sec. 803. Programs.
Sec. 804. Interagency task force.
Sec. 805. Advisory Committee.
Sec. 806. External review.
Sec. 807. Miscellaneous provisions.
Sec. 808. Savings clause.
Sec. 809. Authorization of appropriations.
Sec. 810. Solar and wind technologies.

TITLE IX—RESEARCH AND DEVELOPMENT

Sec. 900. Short title; definitions.

Subtitle A—Science Programs

Sec. 901. Office of Science programs.
Sec. 902. Systems biology program.
Sec. 903. Catalysis Research and Development Program.
Sec. 904. Hydrogen.
Sec. 905. Advanced scientific computing research.
Sec. 906. Fusion Energy Sciences program.
Sec. 907. Science and Technology Scholarship Program.
Sec. 908. Office of Scientific and Technical Information.
Sec. 909. Science and engineering pilot program.
Sec. 910. Authorization of appropriations.

Subtitle B—Research Administration and Operations

Sec. 911. Cost Sharing.
Sec. 912. Reprogramming.
Sec. 913. Merit-based competition.
Sec. 914. External technical review of departmental programs.
Sec. 915. Competitive award of management contracts.
Sec. 916. National Laboratory designation.
Sec. 917. Report on equal employment opportunity practices.
Sec. 918. User facility best practices plan.
Sec. 919. Support for science and energy infrastructure and facilities.
Sec. 920. Coordination plan.
Sec. 921. Availability of funds.

Subtitle C—Energy Efficiency

CHAPTER 1—VEHICLES, BUILDINGS, AND INDUSTRIES

Sec. 922. Programs.
Sec. 923. Vehicles.
Sec. 924. Buildings.
Sec. 925. Industries.
Sec. 926. Demonstration and commercial application.
Sec. 927. Secondary electric vehicle battery use program.
Sec. 928. Next generation lighting initiative.
Sec. 929. Definitions.
Sec. 930. Authorization of appropriations.
Sec. 931. Limitation on use of funds.

CHAPTER 2—DISTRIBUTED ENERGY AND ELECTRIC ENERGY SYSTEMS

Sec. 932. Distributed energy.
Sec. 933. Electricity transmission and distribution and energy assurance.
Sec. 933A. Advanced portable power devices.
Sec. 934. Authorization of appropriations.

Subtitle D—Renewable energy

Sec. 935. Findings.
Sec. 936. Definitions.
Sec. 937. Programs.
Sec. 938. Solar.
Sec. 939. Bioenergy programs.
Sec. 940. Wind.
Sec. 941. Geothermal.
Sec. 942. Photovoltaic demonstration program.
Sec. 943. Additional programs.
Sec. 944. Analysis and evaluation.
Sec. 945. Authorization of appropriations.

Subtitle E—Nuclear Energy Programs

CHAPTER 1—NUCLEAR ENERGY RESEARCH PROGRAMS

Sec. 946. Definition.
Sec. 947. Programs.

Sec. 948. Advanced fuel recycling program.
Sec. 949. University nuclear science and engineering support.
Sec. 950. University-National Laboratory interactions.
Sec. 951. Nuclear Power 2010 Program.
Sec. 953. Civilian infrastructure and facilities.
Sec. 954. Nuclear energy research and development infrastructure plan.
Sec. 955. Idaho National Laboratory facilities plan.
Sec. 956. Authorization of appropriations.

CHAPTER 2—NEXT GENERATION NUCLEAR PLANT PROGRAM

Sec. 957. Definitions.
Sec. 958. Next generation nuclear power plant.
Sec. 959. Advisory committee.
Sec. 960. Program requirements.
Sec. 961. Authorization of appropriations.

Subtitle F—Fossil Energy

CHAPTER 1—RESEARCH PROGRAMS

Sec. 962. Enhanced fossil energy research and development programs.
Sec. 963. Fossil research and development.
Sec. 964. Oil and gas research and development.
Sec. 965. Transportation fuels.
Sec. 966. Fuel cells.
Sec. 967. Carbon dioxide capture research and development.
Sec. 968. Authorization of appropriations.

CHAPTER 2—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES

Sec. 969. Program authority.
Sec. 970. Ultra-deepwater and unconventional onshore natural gas and other petroleum research and development program.
Sec. 971. Additional requirements for awards.
Sec. 972. Advisory committees.
Sec. 973. Limits on participation.
Sec. 974. Sunset.
Sec. 975. Definitions.
Sec. 976. Funding.

Subtitle G—Improved coordination and management of civilian science and technology programs

Sec. 978. Improved coordination and management of civilian science and technology programs.

TITLE X—DEPARTMENT OF ENERGY MANAGEMENT

Sec. 1002. Other transactions authority.
Sec. 1003. University collaboration.
Sec. 1004. Sense of Congress.

TITLE XII—ELECTRICITY

Sec. 1201. Short title.

Subtitle A—Reliability Standards

Sec. 1211. Electric reliability standards.

Subtitle B—Transmission Infrastructure Modernization

Sec. 1221. Siting of interstate electric transmission facilities.
Sec. 1222. Third-party finance.
Sec. 1223. Transmission system monitoring.
Sec. 1224. Advanced transmission technologies.
Sec. 1225. Electric transmission and distribution programs.
Sec. 1226. Advanced Power System Technology Incentive Program.
Sec. 1227. Office of Electric Transmission and Distribution.

Subtitle C—Transmission Operation Improvements

Sec. 1231. Open nondiscriminatory access.
Sec. 1232. Sense of Congress on Regional Transmission Organizations.
Sec. 1233. Regional Transmission Organization applications progress report.
Sec. 1234. Federal utility participation in Regional Transmission Organizations.
Sec. 1235. Standard market design.
Sec. 1236. Native load service obligation.
Sec. 1237. Study on the benefits of economic dispatch.

Subtitle D—Transmission Rate Reform

Sec. 1241. Transmission infrastructure investment.

Subtitle E—Amendments to PURPA

Sec. 1251. Net metering and additional standards.
Sec. 1252. Smart metering.
Sec. 1253. Cogeneration and small power production purchase and sale requirements.
Sec. 1254. Interconnection.

Subtitle F—Repeal of PUHCA

Sec. 1261. Short title.
Sec. 1262. Definitions.
Sec. 1263. Repeal of the Public Utility Holding Company Act of 1935.
Sec. 1264. Federal access to books and records.
Sec. 1265. State access to books and records.
Sec. 1266. Exemption authority.
Sec. 1267. Affiliate transactions.
Sec. 1268. Applicability.
Sec. 1269. Effect on other regulations.
Sec. 1270. Enforcement.
Sec. 1271. Savings provisions.
Sec. 1272. Implementation.
Sec. 1273. Transfer of resources.
Sec. 1274. Effective date.
Sec. 1275. Service allocation.
Sec. 1276. Authorization of appropriations.

Subtitle G—Market Transparency, Enforcement, and Consumer Protection

Sec. 1281. Market transparency rules.
Sec. 1282. Market manipulation.
Sec. 1283. Enforcement.
Sec. 1284. Refund effective date.
Sec. 1285. Refund authority.
Sec. 1286. Sanctity of contract.
Sec. 1287. Consumer privacy and unfair trade practices.

Subtitle II—Merger Reform

Sec. 1291. Merger review reform and accountability.
Sec. 1292. Electric utility mergers.

Subtitle I—Definitions

Sec. 1295. Definitions.

Subtitle J—Technical and Conforming Amendments

Sec. 1297. Conforming amendments.

Subtitle K—Economic Dispatch

Sec. 1298. Economic dispatch.

TITLE XIII—ENERGY TAX INCENTIVES

Sec. 1300. Short title; etc.

Subtitle A—Energy Infrastructure Tax Incentives

Sec. 1301. Natural gas gathering lines treated as 7-year property.
Sec. 1302. Natural gas distribution lines treated as 15-year property.
Sec. 1303. Electric transmission property treated as 15-year property.
Sec. 1304. Expansion of amortization for certain atmospheric pollution control facilities in connection with plants first placed in service after 1975.
Sec. 1305. Modification of credit for producing fuel from a noneconventional source.
Sec. 1306. Modifications to special rules for nuclear decommissioning costs.
Sec. 1307. Arbitrage rules not to apply to prepayments for natural gas.
Sec. 1308. Determination of small refiner exception to oil depletion deduction.

Subtitle B—Miscellaneous Energy Tax Incentives

Sec. 1311. Credit for residential energy efficient property.
Sec. 1312. Credit for business installation of qualified fuel cells.
Sec. 1313. Reduced motor fuel excise tax on certain mixtures of diesel fuel.
Sec. 1314. Amortization of delay rental payments.
Sec. 1315. Amortization of geological and geophysical expenditures.
Sec. 1316. Advanced lean burn technology motor vehicle credit.
Sec. 1317. Credit for energy efficiency improvements to existing homes.

Subtitle C—Alternative minimum tax relief

Sec. 1321. New nonrefundable personal credits allowed against regular and minimum taxes.
Sec. 1322. Certain business energy credits allowed against regular and minimum taxes.

TITLE XIV—MISCELLANEOUS

Subtitle C—Other Provisions

Sec. 1441. Continuation of transmission security order.
Sec. 1442. Review of agency determinations.
Sec. 1443. Attainment dates for downwind ozone nonattainment areas.
Sec. 1444. Energy production incentives.
Sec. 1446. Regulation of certain oil used in transformers.
Sec. 1447. Risk assessments.
Sec. 1448. Oxygen-fuel.
Sec. 1449. Petrochemical and oil refinery facility health assessment.
Sec. 1450. United States-Israel cooperation.
Sec. 1451. Carbon-based fuel cell development.

TITLE XV—ETHANOL AND MOTOR FUELS

Subtitle A—General Provisions

Sec. 1501. Renewable content of motor vehicle fuel.
Sec. 1502. Fuels safe harbor.
Sec. 1503. Findings and MTBE transition assistance.
Sec. 1504. Use of MTBE.
Sec. 1505. National Academy of Sciences review and presidential determination.
Sec. 1506. Elimination of oxygen content requirement for reformulated gasoline.
Sec. 1507. Analyses of motor vehicle fuel changes.
Sec. 1508. Data collection.
Sec. 1509. Reducing the proliferation of State fuel controls.
Sec. 1510. Fuel system requirements harmonization study.
Sec. 1511. Commercial byproducts from municipal solid waste and cellulosic biomass loan guarantee program.
Sec. 1512. Cellulosic biomass and waste-derived ethanol conversion assistance.
Sec. 1513. Blending of compliant reformulated gasolines.

Subtitle B—Underground Storage Tank Compliance

Sec. 1521. Short title.
Sec. 1522. Leaking underground storage tanks.
Sec. 1523. Inspection of underground storage tanks.
Sec. 1524. Operator training.
Sec. 1525. Remediation from oxygenated fuel additives.
Sec. 1526. Release prevention, compliance, and enforcement.
Sec. 1527. Delivery prohibition.
Sec. 1528. Federal facilities.
Sec. 1529. Tanks on Tribal lands.
Sec. 1530. Additional measures to protect groundwater.
Sec. 1531. Authorization of appropriations.
Sec. 1532. Conforming amendments.
Sec. 1533. Technical amendments.

Subtitle C—Boutique Fuels

Sec. 1541. Reducing the proliferation of boutique fuels.

TITLE XVI—STUDIES

Sec. 1601. Study on inventory of petroleum and natural gas storage.
Sec. 1605. Study of energy efficiency standards.
Sec. 1606. Telecommuting study.
Sec. 1607. LIHEAP report.
Sec. 1608. Oil bypass filtration technology.
Sec. 1609. Total integrated thermal systems.
Sec. 1610. University collaboration.
Sec. 1611. Reliability and consumer protection assessment.
Sec. 1612. Report on energy integration with Latin America.
Sec. 1613. Low-volume gas reservoir study.

TITLE XVII—RENEWABLE ENERGY

Sec. 1701. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, petroleum-based product substitutes, and other commercial purposes.
Sec. 1702. Environmental review for renewable energy projects.
Sec. 1703. Sense of Congress regarding generation capacity of electricity from renewable energy resources on public lands.

TITLE XVIII—GEOTHERMAL ENERGY

Sec. 1801. Short title.
Sec. 1802. Competitive lease sale requirements.
Sec. 1803. Direct use.
Sec. 1804. Royalties and near-term production incentives.
Sec. 1805. Expediting administrative action for geothermal leasing.
Sec. 1806. Coordination of geothermal leasing and permitting on Federal lands.
Sec. 1807. Review and report to Congress.
Sec. 1808. Reimbursement for costs of NEPA analyses, documentation, and studies.
Sec. 1809. Assessment of geothermal energy potential.
Sec. 1810. Cooperative or unit plans.
Sec. 1811. Royalty on byproducts.
Sec. 1812. Repeal of authorities of Secretary to readjust terms, conditions, rentals, and royalties.
Sec. 1813. Crediting of rental toward royalty.
Sec. 1814. Lease duration and work commitment requirements.
Sec. 1815. Advanced royalties required for suspension of production.
Sec. 1816. Annual rental.
Sec. 1817. Deposit and use of geothermal lease revenues for 5 fiscal years.
Sec. 1818. Repeal of acreage limitations.
Sec. 1819. Technical amendments.
Sec. 1820. Intermountain West Geothermal Consortium.

TITLE XIX—HYDROPOWER

Sec. 1901. Increased hydroelectric generation at existing Federal facilities.
Sec. 1902. Shift of project loads to off-peak periods.
Sec. 1903. Report identifying and describing the status of potential hydropower facilities.

TITLE XX—OIL AND GAS—RESOURCES

Subtitle A—Production incentives

Sec. 2001. Definition of Secretary.
Sec. 2002. Program on oil and gas royalties in-kind.
Sec. 2006. Alaska offshore royalty suspension.
Sec. 2007. Oil and gas leasing in the National Petroleum Reserve in Alaska.
Sec. 2008. Orphaned, abandoned, or idled wells on Federal land.
Sec. 2009. Combined hydrocarbon leasing.
Sec. 2010. Alternate energy-related uses on the outer Continental Shelf.
Sec. 2011. Preservation of geological and geophysical data.
Sec. 2012. Oil and gas lease acreage limitations.
Sec. 2013. Deadline for decision on appeals of consistency determination under the Coastal Zone Management Act of 1972.
Sec. 2014. Reimbursement for costs of NEPA analyses, documentation, and studies.
Sec. 2015. Gas hydrate production incentive.
Sec. 2016. Onshore deep gas production incentive.
Sec. 2017. Enhanced oil and natural gas production incentive.
Sec. 2018. Oil shale.
Sec. 2019. Use of information about oil and gas public challenges.

Subtitle B—Access to Federal land

Sec. 2022. Federal onshore oil and gas leasing and permitting practices.
Sec. 2024. Consultation regarding oil and gas leasing on public land.
Sec. 2025. Estimates of oil and gas resources underlying onshore Federal land.
Sec. 2026. Compliance with executive order 13211; actions concerning regulations that significantly affect energy supply, distribution, or use.
Sec. 2027. Pilot project to improve Federal permit coordination.
Sec. 2028. Deadline for consideration of applications for permits.
Sec. 2029. Clarification of fair market rental value determinations for public land and Forest Service rights-of-way.
Sec. 2031. Consultation regarding energy rights-of-way on public land.
Sec. 2032. Electricity transmission line right-of-way, Cleveland National Forest and adjacent public land, California.
Sec. 2033. Sense of Congress regarding development of minerals under Padre Island National Seashore.
Sec. 2034. Livingston Parish mineral rights transfer.

Subtitle C—Naval Petroleum Reserves

Sec. 2041. Transfer of administrative jurisdiction and environmental remediation, Naval Petroleum Reserve Numbered 2, Kern County, California.
Sec. 2042. Land conveyance, portion of Naval Petroleum Reserve Numbered 2, to City of Taft, California.
Sec. 2043. Revocation of land withdrawal.
Sec. 2044. Effect of transfer and conveyance.

Subtitle D—Miscellaneous Provisions

Sec. 2051. Split-estate Federal oil and gas leasing and development practices.
Sec. 2052. Royalty payments under leases under the Outer Continental Shelf Lands Act.
Sec. 2053. Domestic offshore energy reinvestment.
Sec. 2054. Repurchase of leases that are not allowed to be explored or developed.

TITLE XXI—COAL

Sec. 2101. Short title.
Sec. 2102. Lease modifications for contiguous coal lands or coal deposits.
Sec. 2103. Approval of logical mining units.
Sec. 2104. Payment of advance royalties under coal leases.
Sec. 2105. Elimination of deadline for submission of coal lease operation and reclamation plan.
Sec. 2106. Amendment relating to financial assurances with respect to bonus bids.
Sec. 2107. Inventory requirement.
Sec. 2108. Application of amendments.

TITLE XXII—ARCTIC COASTAL PLAIN DOMESTIC ENERGY

Sec. 2201. Short title.
Sec. 2202. Definitions.
Sec. 2203. Leasing program for lands within the coastal plain.
Sec. 2204. Lease sales.
Sec. 2205. Grant of leases by the Secretary.
Sec. 2206. Lease terms and conditions.
Sec. 2207. Coastal Plain environmental protection.
Sec. 2208. Expedited judicial review.
Sec. 2209. Federal and State distribution of revenues.
Sec. 2210. Rights-of-way across the Coastal Plain.
Sec. 2211. Conveyance.
Sec. 2212. Local government impact aid and community service assistance.

TITLE XXIII—SET AMERICA FREE (SAFE)

Sec. 2301. Short title.
Sec. 2302. Findings.
Sec. 2303. Purpose.
Sec. 2305. North American energy freedom policy.

TITLE XXV—GRAND CANYON HYDROGEN-POWERED TRANSPORTATION DEMONSTRATION

Sec. 2501. Short title.
Sec. 2502. Definitions.
Sec. 2503. Findings.
Sec. 2504. Research, development, and demonstration program.
Sec. 2505. Reports to Congress.
Sec. 2506. Authorization of appropriations.

TITLE XXVI—ADDITIONAL PROVISIONS

Sec. 2601. Limitation on required review under NEPA.
Sec. 2602. Enhancing energy efficiency in management of Federal lands.
TITLE I—ENERGY EFFICIENCY
Subtitle A—Federal Programs

SEC. 101. ENERGY AND WATER SAVING MEASURES IN CONGRESSIONAL BUILDINGS.

(a) In General.—Part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.) is amended by adding at the end the following:

"SEC. 552. ENERGY AND WATER SAVINGS MEASURES IN CONGRESSIONAL BUILDINGS.

"(a) In General.—The Architect of the Capitol—

"(1) shall develop, update, and implement a cost-effective energy conservation and management plan (referred to in this section as the ‘plan’) for all facilities administered by Congress (referred to in this section as ‘congressional buildings’) to meet the energy performance requirements for Federal buildings established under section 543(a)(1); and

"(2) shall submit the plan to Congress, not later than 180 days after the date of enactment of this section.

"(b) Plan Requirements.—The plan shall include—

"(1) a description of the life cycle cost analysis used to determine the cost-effectiveness of proposed energy efficiency projects;

HR 6 IH
“(2) a schedule of energy surveys to ensure complete surveys of all congressional buildings every 5 years to determine the cost and payback period of energy and water conservation measures;

“(3) a strategy for installation of life cycle cost-effective energy and water conservation measures;

“(4) the results of a study of the costs and benefits of installation of submetering in congressional buildings; and

“(5) information packages and ‘how-to’ guides for each Member and employing authority of Congress that detail simple, cost-effective methods to save energy and taxpayer dollars in the workplace.

“(c) ANNUAL REPORT.—The Architect of the Capitol shall submit to Congress annually a report on congressional energy management and conservation programs required under this section that describes in detail—

“(1) energy expenditures and savings estimates for each facility;

“(2) energy management and conservation projects; and

“(3) future priorities to ensure compliance with this section.”.

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the National Energy Conservation Policy
Act is amended by adding at the end of the items relating
to part 3 of title V the following new item:

“Sec. 552. Energy and water savings measures in congressional buildings.”.

(c) REPEAL.—Section 310 of the Legislative Branch Appropriations Act, 1999 (2 U.S.C. 1815), is repealed.

(d) ENERGY INFRASTRUCTURE.—The Architect of
the Capitol, building on the Master Plan Study completed
in July 2000, shall commission a study to evaluate the
energy infrastructure of the Capital Complex to determine
how the infrastructure could be augmented to become
more energy efficient, using unconventional and renewable
energy resources, in a way that would enable the Complex
to have reliable utility service in the event of power fluc-
tuations, shortages, or outages.

(e) AUTHORIZATION OF APPROPRIATIONS.—There
are authorized to be appropriated to the Architect of the
Capitol to carry out subsection (d), $2,000,000 for each
of fiscal years 2006 through 2010.

SEC. 102. ENERGY MANAGEMENT REQUIREMENTS.

(a) ENERGY REDUCTION GOALS.—

(1) AMENDMENT.—Section 543(a)(1) of the
National Energy Conservation Policy Act (42 U.S.C.
8253(a)(1)) is amended by striking “its Federal
buildings so that” and all that follows through the
end and inserting “the Federal buildings of the
agency (including each industrial or laboratory facil-
ity) so that the energy consumption per gross square foot of the Federal buildings of the agency in fiscal years 2006 through 2015 is reduced, as compared with the energy consumption per gross square foot of the Federal buildings of the agency in fiscal year 2003, by the percentage specified in the following table:

<table>

(2) REPORTING BASELINE.—The energy reduction goals and baseline established in paragraph (1) of section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)(1)), as amended by this subsection, supersede all previous goals and baselines under such paragraph, and related reporting requirements.

(b) REVIEW AND REVISION OF ENERGY PERFORMANCE REQUIREMENT.—Section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)) is further amended by adding at the end the following:

“(3) Not later than December 31, 2014, the Secretary shall review the results of the implementation of
the energy performance requirement established under paragraph (1) and submit to Congress recommendations concerning energy performance requirements for fiscal years 2016 through 2025.”.

(c) EXCLUSIONS.—Section 543(c)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(1)) is amended by striking “An agency may exclude” and all that follows through the end and inserting “(A) An agency may exclude, from the energy performance requirement for a fiscal year established under subsection (a) and the energy management requirement established under subsection (b), any Federal building or collection of Federal buildings, if the head of the agency finds that—

“(i) compliance with those requirements would be impracticable;

“(ii) the agency has completed and submitted all federally required energy management reports;

“(iii) the agency has achieved compliance with the energy efficiency requirements of this Act, the Energy Policy Act of 1992, Executive orders, and other Federal law; and

“(iv) the agency has implemented all practicable, life cycle cost-effective projects with respect to the Federal building or collection of Federal buildings to be excluded.
“(B) A finding of impracticability under subparagraph (A)(i) shall be based on—

“(i) the energy intensiveness of activities carried out in the Federal building or collection of Federal buildings; or

“(ii) the fact that the Federal building or collection of Federal buildings is used in the performance of a national security function.”.

(d) Review by Secretary.—Section 543(c)(2) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(2)) is amended—

(1) by striking “impracticability standards” and inserting “standards for exclusion”;

(2) by striking “a finding of impracticability” and inserting “the exclusion”; and

(3) by striking “energy consumption requirements” and inserting “requirements of subsections (a) and (b)(1)”.

(e) Criteria.—Section 543(c) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)) is further amended by adding at the end the following:

“(3) Not later than 180 days after the date of enactment of this paragraph, the Secretary shall issue guidelines that establish criteria for exclusions under paragraph (1).”.

•HR 6 IH
(f) RETENTION OF ENERGY AND WATER SAVINGS.—
Section 546 of the National Energy Conservation Policy Act (42 U.S.C. 8256) is amended by adding at the end the following new subsection:

“(e) RETENTION OF ENERGY AND WATER SAVINGS.—An agency may retain any funds appropriated to that agency for energy expenditures, water expenditures, or wastewater treatment expenditures, at buildings subject to the requirements of section 543(a) and (b), that are not made because of energy savings or water savings. Except as otherwise provided by law, such funds may be used only for energy efficiency, water conservation, or unconventional and renewable energy resources projects.”.

(g) REPORTS.—Section 548(b) of the National Energy Conservation Policy Act (42 U.S.C. 8258(b)) is amended—

(1) in the subsection heading, by inserting “THE PRESIDENT AND” before “CONGRESS”; and

(2) by inserting “President and” before “Congress”.

(h) CONFORMING AMENDMENT.—Section 550(d) of the National Energy Conservation Policy Act (42 U.S.C. 8258b(d)) is amended in the second sentence by striking “the 20 percent reduction goal established under section 543(a) of the National Energy Conservation Policy Act
(42 U.S.C. 8253(a)).” and inserting “each of the energy reduction goals established under section 543(a).”.

SEC. 103. ENERGY USE MEASUREMENT AND ACCOUNTABILITY.

Section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) is further amended by adding at the end the following:

“(e) METERING OF ENERGY USE.—

“(1) DEADLINE.—By October 1, 2012, in accordance with guidelines established by the Secretary under paragraph (2), all Federal buildings shall, for the purposes of efficient use of energy and reduction in the cost of electricity used in such buildings, be metered or submetered. Each agency shall use, to the maximum extent practicable, advanced meters or advanced metering devices that provide data at least daily and that measure at least hourly consumption of electricity in the Federal buildings of the agency. Such data shall be incorporated into existing Federal energy tracking systems and made available to Federal facility energy managers.

“(2) GUIDELINES.—

“(A) IN GENERAL.—Not later than 180 days after the date of enactment of this sub-
section, the Secretary, in consultation with the
Department of Defense, the General Services
Administration, representatives from the meter-
ing industry, utility industry, energy services in-
dustry, energy efficiency industry, energy effi-
ciency advocacy organizations, national labora-
tories, universities, and Federal facility energy
managers, shall establish guidelines for agencies
to carry out paragraph (1).

“(B) REQUIREMENTS FOR GUIDELINES.—
The guidelines shall—

“(i) take into consideration—

“(I) the cost of metering and
submetering and the reduced cost of
operation and maintenance expected
to result from metering and sub-
metering;

“(II) the extent to which meter-
ing and submetering are expected to
result in increased potential for en-
ergy management, increased potential
for energy savings and energy effi-
ciency improvement, and cost and en-
ergy savings due to utility contract
aggregation; and
“(III) the measurement and verification protocols of the Department of Energy;

“(ii) include recommendations concerning the amount of funds and the number of trained personnel necessary to gather and use the metering information to track and reduce energy use;

“(iii) establish priorities for types and locations of buildings to be metered and submetered based on cost-effectiveness and a schedule of 1 or more dates, not later than 1 year after the date of issuance of the guidelines, on which the requirements specified in paragraph (1) shall take effect; and

“(iv) establish exclusions from the requirements specified in paragraph (1) based on the de minimis quantity of energy use of a Federal building, industrial process, or structure.

“(3) PLAN.—Not later than 6 months after the date guidelines are established under paragraph (2), in a report submitted by the agency under section 548(a), each agency shall submit to the Secretary a
plan describing how the agency will implement the requirements of paragraph (1), including (A) how the agency will designate personnel primarily responsible for achieving the requirements and (B) demonstration by the agency, complete with documentation, of any finding that advanced meters or advanced metering devices, as defined in paragraph (1), are not practicable.”.

SEC. 104. PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

(a) REQUIREMENTS.—Part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.), as amended by section 101, is amended by adding at the end the following:

“SEC. 553. FEDERAL PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

“(a) DEFINITIONS.—In this section:

“(1) AGENCY.—The term ‘agency’ has the meaning given that term in section 7902(a) of title 5, United States Code.

“(2) ENERGY STAR PRODUCT.—The term ‘Energy Star product’ means a product that is rated for energy efficiency under an Energy Star program.

“(3) ENERGY STAR PROGRAM.—The term ‘Energy Star program’ means the program established...

“(4) FEMP DESIGNATED PRODUCT.—The term ‘FEMP designated product’ means a product that is designated under the Federal Energy Management Program of the Department of Energy as being among the highest 25 percent of equivalent products for energy efficiency.

“(b) PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.—

“(1) REQUIREMENT.—To meet the requirements of an agency for an energy consuming product, the head of the agency shall, except as provided in paragraph (2), procure—

“(A) an Energy Star product; or

“(B) a FEMP designated product.

“(2) EXCEPTIONS.—The head of an agency is not required to procure an Energy Star product or FEMP designated product under paragraph (1) if the head of the agency finds in writing that—

“(A) an Energy Star product or FEMP designated product is not cost-effective over the life of the product taking energy cost savings into account; or
“(B) no Energy Star product or FEMP designated product is reasonably available that meets the functional requirements of the agency.

“(3) PROCUREMENT PLANNING.—The head of an agency shall incorporate into the specifications for all procurements involving energy consuming products and systems, including guide specifications, project specifications, and construction, renovation, and services contracts that include provision of energy consuming products and systems, and into the factors for the evaluation of offers received for the procurement, criteria for energy efficiency that are consistent with the criteria used for rating Energy Star products and for rating FEMP designated products.

“(c) LISTING OF ENERGY EFFICIENT PRODUCTS IN FEDERAL CATALOGS.—Energy Star products and FEMP designated products shall be clearly identified and prominently displayed in any inventory or listing of products by the General Services Administration or the Defense Logistics Agency. The General Services Administration or the Defense Logistics Agency shall supply only Energy Star products or FEMP designated products for all product categories covered by the Energy Star program or the
Federal Energy Management Program, except in cases where the agency ordering a product specifies in writing that no Energy Star product or FEMP designated product is available to meet the buyer’s functional requirements, or that no Energy Star product or FEMP designated product is cost-effective for the intended application over the life of the product, taking energy cost savings into account.

“(d) SPECIFIC PRODUCTS.—(1) In the case of electric motors of 1 to 500 horsepower, agencies shall select only premium efficient motors that meet a standard designated by the Secretary. The Secretary shall designate such a standard not later than 120 days after the date of the enactment of this section, after considering the recommendations of associated electric motor manufacturers and energy efficiency groups.

“(2) All Federal agencies are encouraged to take actions to maximize the efficiency of air conditioning and refrigeration equipment, including appropriate cleaning and maintenance, including the use of any system treatment or additive that will reduce the electricity consumed by air conditioning and refrigeration equipment. Any such treatment or additive must be—

“(A) determined by the Secretary to be effective in increasing the efficiency of air conditioning and
refrigeration equipment without having an adverse impact on air conditioning performance (including cooling capacity) or equipment useful life;

“(B) determined by the Administrator of the Environmental Protection Agency to be environmentally safe; and

“(C) shown to increase seasonal energy efficiency ratio (SEER) or energy efficiency ratio (EER) when tested by the National Institute of Standards and Technology according to Department of Energy test procedures without causing any adverse impact on the system, system components, the refrigerant or lubricant, or other materials in the system.

Results of testing described in subparagraph (C) shall be published in the Federal Register for public review and comment. For purposes of this section, a hardware device or primary refrigerant shall not be considered an additive.

“(e) REGULATIONS.—Not later than 180 days after the date of the enactment of this section, the Secretary shall issue guidelines to carry out this section.”.

(b) CONFORMING AMENDMENT.—The table of contents of the National Energy Conservation Policy Act is further amended by inserting after the item relating to section 552 the following new item:

“Sec. 553. Federal procurement of energy efficient products.”.
SEC. 105. ENERGY SAVINGS PERFORMANCE CONTRACTS.

(a) LIMITATIONS.—

(1) IN GENERAL.—Section 801(a) of the National Energy Conservation Policy Act (42 U.S.C. 8287(a)) is amended by adding at the end the following subparagraph:

“(E) All Federal agencies combined may not, after the date of enactment of the Energy Policy Act of 2005, enter into more than a total of 100 contracts under this title. Payments made by the Federal Government under all contracts permitted by this subparagraph combined shall not exceed a total of $500,000,000. Each Federal agency shall appoint a coordinator for Energy Savings Performance Contracts with the responsibility to monitor the number of such contracts for that Federal agency and the investment value of each contract. The coordinators for each Federal agency shall meet monthly to ensure that the limits specified in this subparagraph on the number of contracts and the payments made for the contracts are not exceeded.”.

(2) DEFINITION.—Section 804(1) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(1)) is amended to read as follows:

“(1) The term ‘Federal agency’ means the Department of Defense, the Department of Veterans Affairs, and the Department of Energy. ”.
(3) VALIDITY OF CONTRACTS.—The amendments made by this subsection shall not affect the validity of contracts entered into under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.) before the date of enactment of this Act, or of contracts described in subsection (h).

(b) PERMANENT EXTENSION.—Effective October 1, 2006, section 801(c) of the National Energy Conservation Policy Act (42 U.S.C. 8287(c)) is repealed.

(c) PAYMENT OF COSTS.—Section 802 of the National Energy Conservation Policy Act (42 U.S.C. 8287a) is amended by inserting “, water, or wastewater treatment” after “payment of energy”.

(d) ENERGY SAVINGS.—Section 804(2) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(2)) is amended to read as follows:

“(2) The term ‘energy savings’ means a reduction in the cost of energy, water, or wastewater treatment, from a base cost established through a methodology set forth in the contract, used in an existing federally owned building or buildings or other federally owned facilities as a result of—
“(A) the lease or purchase of operating equipment, improvements, altered operation and maintenance, or technical services;

“(B) the increased efficient use of existing energy sources by cogeneration or heat recovery, excluding any cogeneration process for other than a federally owned building or buildings or other federally owned facilities; or

“(C) the increased efficient use of existing water sources in either interior or exterior applications.”.

(c) ENERGY SAVINGS CONTRACT.—Section 804(3) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(3)) is amended to read as follows:

“(3) The terms ‘energy savings contract’ and ‘energy savings performance contract’ mean a contract that provides for the performance of services for the design, acquisition, installation, testing, and, where appropriate, operation, maintenance, and repair, of an identified energy or water conservation measure or series of measures at 1 or more locations. Such contracts shall, with respect to an agency facility that is a public building (as such term is defined in section 3301 of title 40, United States Code), be in compliance with the prospectus require-
ments and procedures of section 3307 of title 40, United States Code.”.

(f) **Energy or Water Conservation Measure.**—

Section 804(4) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(4)) is amended to read as follows:

“(4) The term ‘energy or water conservation measure’ means—

“(A) an energy conservation measure, as defined in section 551; or

“(B) a water conservation measure that improves the efficiency of water use, is life-cycle cost-effective, and involves water conservation, water recycling or reuse, more efficient treatment of wastewater or stormwater, improvements in operation or maintenance efficiencies, retrofit activities, or other related activities, not at a Federal hydroelectric facility.”.

(g) **Review.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Energy shall complete a review of the Energy Savings Performance Contract program to identify statutory, regulatory, and administrative obstacles that prevent Federal agencies from fully utilizing the program. In addition, this review shall identify all areas for increasing program flexibility.
and effectiveness, including audit and measurement verification requirements, accounting for energy use in determining savings, contracting requirements, including the identification of additional qualified contractors, and energy efficiency services covered. The Secretary shall report these findings to Congress and shall implement identified administrative and regulatory changes to increase program flexibility and effectiveness to the extent that such changes are consistent with statutory authority.

(h) EXTENSION OF AUTHORITY.—Any energy savings performance contract entered into under section 801 of the National Energy Conservation Policy Act (42 U.S.C. 8287) after October 1, 2006, and before the date of enactment of this Act, shall be deemed to have been entered into pursuant to such section 801 as amended by subsection (a) of this section.

SEC. 107. VOLUNTARY COMMITMENTS TO REDUCE INDUSTRIAL ENERGY INTENSITY.

(a) VOLUNTARY AGREEMENTS.—The Secretary of Energy is authorized to enter into voluntary agreements with 1 or more persons in industrial sectors that consume significant amounts of primary energy per unit of physical output to reduce the energy intensity of their production activities by a significant amount relative to improvements in each sector in recent years.
(b) RECOGNITION.—The Secretary of Energy, in cooperation with the Administrator of the Environmental Protection Agency and other appropriate Federal agencies, shall recognize and publicize the achievements of participants in voluntary agreements under this section.

c) DEFINITION.—In this section, the term “energy intensity” means the primary energy consumed per unit of physical output in an industrial process.

SEC. 108. ADVANCED BUILDING EFFICIENCY TESTBED.

(a) ESTABLISHMENT.—The Secretary of Energy, in consultation with the Administrator of General Services, shall establish an Advanced Building Efficiency Testbed program for the development, testing, and demonstration of advanced engineering systems, components, and materials to enable innovations in building technologies. The program shall evaluate efficiency concepts for government and industry buildings, and demonstrate the ability of next generation buildings to support individual and organizational productivity and health (including by improving indoor air quality) as well as flexibility and technological change to improve environmental sustainability. Such program shall complement and not duplicate existing national programs.

(b) PARTICIPANTS.—The program established under subsection (a) shall be led by a university with the ability
to combine the expertise from numerous academic fields including, at a minimum, intelligent workplaces and advanced building systems and engineering, electrical and computer engineering, computer science, architecture, urban design, and environmental and mechanical engineering. Such university shall partner with other universities and entities who have established programs and the capability of advancing innovative building efficiency technologies.

(c) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of Energy to carry out this section $6,000,000 for each of the fiscal years 2006 through 2008, to remain available until expended. For any fiscal year in which funds are expended under this section, the Secretary shall provide $\frac{1}{3}$ of the total amount to the lead university described in subsection (b), and provide the remaining $\frac{2}{3}$ to the other participants referred to in subsection (b) on an equal basis.

SEC. 109. FEDERAL BUILDING PERFORMANCE STANDARDS.

Section 305(a) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)) is amended—

(1) in paragraph (2)(A), by striking “CABO Model Energy Code, 1992” and inserting “the 2003 International Energy Conservation Code”; and

(2) by adding at the end the following:
“(3) Revised Federal Building Energy Efficiency Performance Standards.—

“(A) In general.—Not later than 1 year after the date of enactment of this paragraph, the Secretary of Energy shall establish, by rule, revised Federal building energy efficiency performance standards that require that—

“(i) if life-cycle cost-effective, for new Federal buildings—

“(I) such buildings be designed so as to achieve energy consumption levels at least 30 percent below those of the version current as of the date of enactment of this paragraph of the ASHRAE Standard or the International Energy Conservation Code, as appropriate; and

“(II) sustainable design principles are applied to the siting, design, and construction of all new and replacement buildings; and

“(ii) where water is used to achieve energy efficiency, water conservation technologies shall be applied to the extent they are life-cycle cost effective.
“(B) ADDITIONAL REVISIONS.—Not later than 1 year after the date of approval of each subsequent revision of the ASHRAE Standard or the International Energy Conservation Code, as appropriate, the Secretary of Energy shall determine, based on the cost-effectiveness of the requirements under the amendments, whether the revised standards established under this paragraph should be updated to reflect the amendments.

“(C) STATEMENT ON COMPLIANCE OF NEW BUILDINGS.—In the budget request of the Federal agency for each fiscal year and each report submitted by the Federal agency under section 548(a) of the National Energy Conservation Policy Act (42 U.S.C. 8258(a)), the head of each Federal agency shall include—

“(i) a list of all new Federal buildings owned, operated, or controlled by the Federal agency; and

“(ii) a statement concerning whether the Federal buildings meet or exceed the revised standards established under this paragraph.”.

SEC. 111. DAYLIGHT SAVINGS.

(a) REPEAL.—Section 3(a) of the Uniform Time Act of 1966 (15 U.S.C. 260a(a)) is amended—
(1) by striking “April” and inserting “March”;

and

(2) by striking “October” and inserting “November”.

(b) Report to Congress.—Not later than 9 months after the date of enactment of this Act, the Secretary of Energy shall report to Congress on the impact this section on energy consumption in the United States.

Subtitle B—Energy Assistance and State Programs

SEC. 121. LOW INCOME HOME ENERGY ASSISTANCE PROGRAM.

(a) Authorization of Appropriations.—Section 2602(b) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621(b)) is amended by striking “and $2,000,000,000 for each of fiscal years 2002 through 2004” and inserting “and $5,100,000,000 for each of fiscal years 2005 through 2007”.

(b) Renewable Fuels.—The Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.) is amended by adding at the end the following new section:

“RENEWABLE FUELS

“Sec. 2612. In providing assistance pursuant to this title, a State, or any other person with which the State makes arrangements to carry out the purposes of this title, may purchase renewable fuels, including biomass.”.
(c) **REPORT TO CONGRESS.**—The Secretary of Energy shall report to Congress on the use of renewable fuels in providing assistance under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.).

**SEC. 122. WEATHERIZATION ASSISTANCE.**

(a) **AUTHORIZATION OF APPROPRIATIONS.**—Section 422 of the Energy Conservation and Production Act (42 U.S.C. 6872) is amended by striking “for fiscal years 1999 through 2003 such sums as may be necessary” and inserting “$500,000,000 for fiscal year 2006, $600,000,000 for fiscal year 2007, and $700,000,000 for fiscal year 2008”.

(b) **ELIGIBILITY.**—Section 412(7) of the Energy Conservation and Production Act (42 U.S.C. 6862(7)) is amended by striking “125 percent” both places it appears and inserting “150 percent”.

**SEC. 123. STATE ENERGY PROGRAMS.**

(a) **STATE ENERGY CONSERVATION PLANS.**—Section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322) is amended by inserting at the end the following new subsection:

“(g) The Secretary shall, at least once every 3 years, invite the Governor of each State to review and, if necessary, revise the energy conservation plan of such State submitted under subsection (b) or (e). Such reviews should
consider the energy conservation plans of other States within the region, and identify opportunities and actions carried out in pursuit of common energy conservation goals.”.

(b) **STATE ENERGY EFFICIENCY GOALS.**—Section 364 of the Energy Policy and Conservation Act (42 U.S.C. 6324) is amended to read as follows:

> “STATE ENERGY EFFICIENCY GOALS

> “Sec. 364. Each State energy conservation plan with respect to which assistance is made available under this part on or after the date of enactment of the Energy Policy Act of 2005 shall contain a goal, consisting of an improvement of 25 percent or more in the efficiency of use of energy in the State concerned in calendar year 2012 as compared to calendar year 1990, and may contain interim goals.”.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—Section 365(f) of the Energy Policy and Conservation Act (42 U.S.C. 6325(f)) is amended by striking “for fiscal years 1999 through 2003 such sums as may be necessary” and inserting “$100,000,000 for each of the fiscal years 2006 and 2007 and $125,000,000 for fiscal year 2008”.

SEC. 124. **ENERGY EFFICIENT APPLIANCE REBATE PROGRAMS.**

(a) **DEFINITIONS.**—In this section:
(1) **Eligible State.**—The term “eligible State” means a State that meets the requirements of subsection (b).

(2) **Energy Star program.**—The term “Energy Star program” means the program established by section 324A of the Energy Policy and Conservation Act.

(3) **Residential Energy Star product.**—The term “residential Energy Star product” means a product for a residence that is rated for energy efficiency under the Energy Star program.

(4) **Secretary.**—The term “Secretary” means the Secretary of Energy.

(5) **State energy office.**—The term “State energy office” means the State agency responsible for developing State energy conservation plans under section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322).

(6) **State program.**—The term “State program” means a State energy efficient appliance rebate program described in subsection (b)(1).

(b) **Eligible States.**—A State shall be eligible to receive an allocation under subsection (c) if the State—

(1) establishes (or has established) a State energy efficient appliance rebate program to provide
rebates to residential consumers for the purchase of residential Energy Star products to replace used appliances of the same type;

(2) submits an application for the allocation at such time, in such form, and containing such information as the Secretary may require; and

(3) provides assurances satisfactory to the Secretary that the State will use the allocation to supplement, but not supplant, funds made available to carry out the State program.

(c) Amount of Allocations.—

(1) In general.—Subject to paragraph (2), for each fiscal year, the Secretary shall allocate to the State energy office of each eligible State to carry out subsection (d) an amount equal to the product obtained by multiplying the amount made available under subsection (f) for the fiscal year by the ratio that the population of the State in the most recent calendar year for which data are available bears to the total population of all eligible States in that calendar year.

(2) Minimum Allocations.—For each fiscal year, the amounts allocated under this subsection shall be adjusted proportionately so that no eligible
State is allocated a sum that is less than an amount
determined by the Secretary.

(d) Use of Allocated Funds.—The allocation to
a State energy office under subsection (e) may be used
to pay up to 50 percent of the cost of establishing and
carrying out a State program.

(e) Issuance of Rebates.—Rebates may be pro-
vided to residential consumers that meet the requirements
of the State program. The amount of a rebate shall be
determined by the State energy office, taking into consid-
eration—

(1) the amount of the allocation to the State
energy office under subsection (e);

(2) the amount of any Federal or State tax in-
centive available for the purchase of the residential
Energy Star product; and

(3) the difference between the cost of the resi-
dential Energy Star product and the cost of an ap-
pliance that is not a residential Energy Star prod-
uct, but is of the same type as, and is the nearest
capacity, performance, and other relevant character-
istics (as determined by the State energy office) to,
the residential Energy Star product.

(f) Authorization of Appropriations.—There
are authorized to be appropriated to the Secretary to carry
out this section $50,000,000 for each of the fiscal years 2006 through 2010.

3 SEC. 125. ENERGY EFFICIENT PUBLIC BUILDINGS.

4 (a) GRANTS.—The Secretary of Energy may make grants to the State agency responsible for developing State energy conservation plans under section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322), or, if no such agency exists, a State agency designated by the Governor of the State, to assist units of local government in the State in improving the energy efficiency of public buildings and facilities—

5 (1) through construction of new energy efficient public buildings that use at least 30 percent less energy than a comparable public building constructed in compliance with standards prescribed in the most recent version of the International Energy Conservation Code, or a similar State code intended to achieve substantially equivalent efficiency levels; or

6 (2) through renovation of existing public buildings to achieve reductions in energy use of at least 30 percent as compared to the baseline energy use in such buildings prior to renovation, assuming a 3-year, weather-normalized average for calculating such baseline.
(b) Administration.—State energy offices receiving grants under this section shall—

(1) maintain such records and evidence of compliance as the Secretary may require; and

(2) develop and distribute information and materials and conduct programs to provide technical services and assistance to encourage planning, financing, and design of energy efficient public buildings by units of local government.

(c) Authorization of Appropriations.—For the purposes of this section, there are authorized to be appropriated to the Secretary of Energy $30,000,000 for each of fiscal years 2006 through 2010. Not more than 10 percent of appropriated funds shall be used for administration.

SEC. 126. LOW INCOME COMMUNITY ENERGY EFFICIENCY PILOT PROGRAM.

(a) Grants.—The Secretary of Energy is authorized to make grants to units of local government, private, non-profit community development organizations, and Indian tribe economic development entities to improve energy efficiency; identify and develop alternative, renewable, and distributed energy supplies; and increase energy conservation in low income rural and urban communities.
(b) PURPOSE OF GRANTS.—The Secretary may make
grants on a competitive basis for—

(1) investments that develop alternative, renewable, and distributed energy supplies;

(2) energy efficiency projects and energy conservation programs;

(3) studies and other activities that improve energy efficiency in low income rural and urban communities;

(4) planning and development assistance for increasing the energy efficiency of buildings and facilities; and

(5) technical and financial assistance to local government and private entities on developing new renewable and distributed sources of power or combined heat and power generation.

(c) DEFINITION.—For purposes of this section, the term “Indian tribe” means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.
(d) AUTHORIZATION OF APPROPRIATIONS.—For the purposes of this section there are authorized to be appropriated to the Secretary of Energy $20,000,000 for each of fiscal years 2006 through 2008.

Subtitle C—Energy Efficient Products

SEC. 131. ENERGY STAR PROGRAM.

(a) AMENDMENT.—The Energy Policy and Conservation Act (42 U.S.C. 6201 et seq.) is amended by inserting the following after section 324:

"SEC. 324A. ENERGY STAR PROGRAM.

"There is established at the Department of Energy and the Environmental Protection Agency a voluntary program to identify and promote energy-efficient products and buildings in order to reduce energy consumption, improve energy security, and reduce pollution through voluntary labeling of or other forms of communication about products and buildings that meet the highest energy efficiency standards. Responsibilities under the program shall be divided between the Department of Energy and the Environmental Protection Agency consistent with the terms of agreements between the 2 agencies. The Administrator and the Secretary shall—

"(1) promote Energy Star compliant technologies as the preferred technologies in the market-
place for achieving energy efficiency and to reduce pollution;

“(2) work to enhance public awareness of the Energy Star label, including special outreach to small businesses;

“(3) preserve the integrity of the Energy Star label;

“(4) solicit comments from interested parties prior to establishing or revising an Energy Star product category, specification, or criterion (or effective dates for any of the foregoing);

“(5) upon adoption of a new or revised product category, specification, or criterion, provide reasonable notice to interested parties of any changes (including effective dates) in product categories, specifications, or criteria along with an explanation of such changes and, where appropriate, responses to comments submitted by interested parties; and

“(6) provide appropriate lead time (which shall be 9 months, unless the Agency or Department determines otherwise) prior to the effective date for a new or a significant revision to a product category, specification, or criterion, taking into account the timing requirements of the manufacturing, product
marketing, and distribution process for the specific
product addressed.”.

(b) TABLE OF CONTENTS AMENDMENT.—The table
of contents of the Energy Policy and Conservation Act is
amended by inserting after the item relating to section
324 the following new item:

“Sec. 324A. Energy Star program.”.

SEC. 132. HVAC MAINTENANCE CONSUMER EDUCATION
PROGRAM.

Section 337 of the Energy Policy and Conservation
Act (42 U.S.C. 6307) is amended by adding at the end
the following:

“(c) HVAC MAINTENANCE.—For the purpose of en-
suring that installed air conditioning and heating systems
operate at their maximum rated efficiency levels, the Sec-
retary shall, not later than 180 days after the date of en-
actment of this subsection, carry out a program to educate
homeowners and small business owners concerning the en-
ergy savings resulting from properly conducted mainte-
nance of air conditioning, heating, and ventilating sys-
tems. The Secretary shall carry out the program in a cost-
shared manner in cooperation with the Administrator of
the Environmental Protection Agency and such other enti-
ties as the Secretary considers appropriate, including in-
dustry trade associations, industry members, and energy
efficiency organizations.
“(d) SMALL BUSINESS EDUCATION AND ASSISTANCE.—The Administrator of the Small Business Administration, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall develop and coordinate a Government-wide program, building on the existing Energy Star for Small Business Program, to assist small businesses to become more energy efficient, understand the cost savings obtainable through efficiencies, and identify financing options for energy efficiency upgrades. The Secretary and the Administrator of the Small Business Administration shall make the program information available directly to small businesses and through other Federal agencies, including the Federal Emergency Management Program and the Department of Agriculture.”.

SEC. 133. ENERGY CONSERVATION STANDARDS FOR ADDITIONAL PRODUCTS.

(a) DEFINITIONS.—Section 321 of the Energy Policy and Conservation Act (42 U.S.C. 6291) is amended—

(1) in paragraph (30)(S), by striking the period and adding at the end the following: “but does not include any lamp specifically designed to be used for special purpose applications and that is unlikely to be used in general purpose applications such as those described in subparagraph (D), and also does
not include any lamp not described in subparagraph (D) that is excluded by the Secretary, by rule, because the lamp is designed for special applications and is unlikely to be used in general purpose applications.”; and

(2) by adding at the end the following:

“(32) The term ‘battery charger’ means a device that charges batteries for consumer products and includes battery chargers embedded in other consumer products.

“(33) The term ‘commercial refrigerators, freezers, and refrigerator-freezers’ means refrigerators, freezers, or refrigerator-freezers that—

“(A) are not consumer products regulated under this Act; and

“(B) incorporate most components involved in the vapor-compression cycle and the refrigerated compartment in a single package.

“(34) The term ‘external power supply’ means an external power supply circuit that is used to convert household electric current into either DC current or lower-voltage AC current to operate a consumer product.

“(35) The term ‘illuminated exit sign’ means a sign that—
“(A) is designed to be permanently fixed in place to identify an exit; and

“(B) consists of an electrically powered integral light source that illuminates the legend ‘EXIT’ and any directional indicators and provides contrast between the legend, any directional indicators, and the background.

“(36)(A) Except as provided in subparagraph (B), the term ‘distribution transformer’ means a transformer that—

“(i) has an input voltage of 34.5 kilovolts or less;

“(ii) has an output voltage of 600 volts or less; and

“(iii) is rated for operation at a frequency of 60 Hertz.

“(B) The term ‘distribution transformer’ does not include—

“(i) transformers with multiple voltage taps, with the highest voltage tap equaling at least 20 percent more than the lowest voltage tap;

“(ii) transformers, such as those commonly known as drive transformers, rectifier transformers, auto-transformers, Uninterruptible
Power System transformers, impedance transformers, regulating transformers, sealed and nonventilating transformers, machine tool transformers, welding transformers, grounding transformers, or testing transformers, that are designed to be used in a special purpose application and are unlikely to be used in general purpose applications; or

“(iii) any transformer not listed in clause (ii) that is excluded by the Secretary by rule because—

“(I) the transformer is designed for a special application;

“(II) the transformer is unlikely to be used in general purpose applications; and

“(III) the application of standards to the transformer would not result in significant energy savings.

“(37) The term ‘low-voltage dry-type distribution transformer’ means a distribution transformer that—

“(A) has an input voltage of 600 volts or less;

“(B) is air-cooled; and

“(C) does not use oil as a coolant.
“(38) The term ‘standby mode’ means the lowest power consumption mode that—

“(A) cannot be switched off or influenced by the user; and

“(B) may persist for an indefinite time when an appliance is connected to the main electricity supply and used in accordance with the manufacturer’s instructions, as defined on an individual product basis by the Secretary.

“(39) The term ‘torchiere’ means a portable electric lamp with a reflector bowl that directs light upward so as to give indirect illumination.

“(40) The term ‘traffic signal module’ means a standard 8-inch (200mm) or 12-inch (300mm) traffic signal indication, consisting of a light source, a lens, and all other parts necessary for operation, that communicates movement messages to drivers through red, amber, and green colors.

“(41) The term ‘transformer’ means a device consisting of 2 or more coils of insulated wire that transfers alternating current by electromagnetic induction from 1 coil to another to change the original voltage or current value.
“(42) The term ‘unit heater’ means a self-contained fan-type heater designed to be installed within the heated space, except that such term does not include a warm air furnace.

“(43) The term ‘ceiling fan’ means a non-portable device that is suspended from a ceiling for circulating air via the rotation of fan blades.

“(44) The term ‘ceiling fan light kit’ means equipment designed to provide light from a ceiling fan which can be—

“(A) integral, such that the equipment is attached to the ceiling fan prior to the time of retail sale; or

“(B) attachable, such that at the time of retail sale the equipment is not physically attached to the ceiling fan, but may be included inside the ceiling fan package at the time of sale or sold separately for subsequent attachment to the fan.”.

(b) TEST PROCEDURES.—Section 323 of the Energy Policy and Conservation Act (42 U.S.C. 6293) is amended—

(1) in subsection (b), by adding at the end the following:
“(9) Test procedures for illuminated exit signs shall be based on the test method used under Version 2.0 of the Energy Star program of the Environmental Protection Agency for illuminated exit signs.

“(10) Test procedures for distribution transformers and low voltage dry-type distribution transformers shall be based on the ‘Standard Test Method for Measuring the Energy Consumption of Distribution Transformers’ prescribed by the National Electrical Manufacturers Association (NEMA TP 2–1998). The Secretary may review and revise this test procedure. For purposes of section 346(a), this test procedure shall be deemed to be testing requirements prescribed by the Secretary under section 346(a)(1) for distribution transformers for which the Secretary makes a determination that energy conservation standards would be technologically feasible and economically justified, and would result in significant energy savings.

“(11) Test procedures for traffic signal modules shall be based on the test method used under the Energy Star program of the Environmental Protection Agency for traffic signal modules, as in effect on the date of enactment of this paragraph.

“(12) Test procedures for medium base compact fluorescent lamps shall be based on the test methods used under the August 9, 2001, version of the Energy Star pro-
gram of the Environmental Protection Agency and Department of Energy for compact fluorescent lamps. Covered products shall meet all test requirements for regulated parameters in section 325(bb). However, covered products may be marketed prior to completion of lamp life and lumen maintenance at 40 percent of rated life testing provided manufacturers document engineering predictions and analysis that support expected attainment of lumen maintenance at 40 percent rated life and lamp life time.

“(13) The Secretary shall, not later than 18 months after the date of enactment of this paragraph, prescribe testing requirements for ceiling fans and ceiling fan light kits.”; and

(2) by adding at the end the following:

“(f) ADDITIONAL CONSUMER AND COMMERCIAL PRODUCTS.—The Secretary shall, not later than 24 months after the date of enactment of this subsection, prescribe testing requirements for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, and commercial refrigerators, freezers, and refrigerator-freezers. Such testing requirements shall be based on existing test procedures used in industry to the extent practical and reasonable. In the case of suspended ceiling fans, such test procedures shall include efficiency at both max-
imum output and at an output no more than 50 percent of the maximum output.”.

(c) NEW STANDARDS.—Section 325 of the Energy Policy and Conservation Act (42 U.S.C. 6295) is amended by adding at the end the following:

“(u) BATTERY CHARGER AND EXTERNAL POWER SUPPLY ELECTRIC ENERGY CONSUMPTION.—

“(1) INITIAL RULEMAKING.—(A) The Secretary shall, within 18 months after the date of enactment of this subsection, prescribe by notice and comment, definitions and test procedures for the power use of battery chargers and external power supplies. In establishing these test procedures, the Secretary shall consider, among other factors, existing definitions and test procedures used for measuring energy consumption in standby mode and other modes and assess the current and projected future market for battery chargers and external power supplies. This assessment shall include estimates of the significance of potential energy savings from technical improvements to these products and suggested product classes for standards. Prior to the end of this time period, the Secretary shall hold a scoping workshop to discuss and receive comments on plans for devel-
oping energy conservation standards for energy use for these products.

“(B) The Secretary shall, within 3 years after the date of enactment of this subsection, issue a final rule that determines whether energy conservation standards shall be issued for battery chargers and external power supplies or classes thereof. For each product class, any such standards shall be set at the lowest level of energy use that—

“(i) meets the criteria and procedures of subsections (o), (p), (q), (r), (s), and (t); and

“(ii) will result in significant overall annual energy savings, considering both standby mode and other operating modes.

“(2) Review of standby energy use in covered products.—In determining pursuant to section 323 whether test procedures and energy conservation standards pursuant to this section should be revised, the Secretary shall consider, for covered products that are major sources of standby mode energy consumption, whether to incorporate standby mode into such test procedures and energy conservation standards, taking into account, among other relevant factors, standby mode power consumption compared to overall product energy consumption.
“(3) RULEMAKING.—The Secretary shall not propose a standard under this section unless the Secretary has issued applicable test procedures for each product pursuant to section 323.

“(4) EFFECTIVE DATE.—Any standard issued under this subsection shall be applicable to products manufactured or imported 3 years after the date of issuance.

“(5) VOLUNTARY PROGRAMS.—The Secretary and the Administrator shall collaborate and develop programs, including programs pursuant to section 324A (relating to Energy Star Programs) and other voluntary industry agreements or codes of conduct, that are designed to reduce standby mode energy use.

“(v) SUSPENDED CEILING FANS, VENDING MACHINES, AND COMMERCIAL REFRIGERATORS, FREEZERS, AND REFRIGERATOR-FREEZERS.—The Secretary shall not later than 36 months after the date on which testing requirements are prescribed by the Secretary pursuant to section 323(f), prescribe, by rule, energy conservation standards for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, and commercial refrigerators, freezers, and refrigerator-freezers. In establishing standards under this subsection, the Secretary
shall use the criteria and procedures contained in subsections (o) and (p). Any standard prescribed under this subsection shall apply to products manufactured 3 years after the date of publication of a final rule establishing such standard.

“(w) ILLUMINATED EXIT SIGNS.—Illuminated exit signs manufactured on or after January 1, 2006, shall meet the Version 2.0 Energy Star Program performance requirements for illuminated exit signs prescribed by the Environmental Protection Agency.

“(x) TORCHIERES.—Torcheres manufactured on or after January 1, 2006—

“(1) shall consume not more than 190 watts of power; and

“(2) shall not be capable of operating with lamps that total more than 190 watts.

“(y) LOW VOLTAGE DRY-TYPE DISTRIBUTION TRANSFORMERS.—The efficiency of low voltage dry-type distribution transformers manufactured on or after January 1, 2006, shall be the Class I Efficiency Levels for distribution transformers specified in Table 4–2 of the ‘Guide for Determining Energy Efficiency for Distribution Transformers’ published by the National Electrical Manufacturers Association (NEMA TP–1–2002).
“(z) Traffic Signal Modules.—Traffic signal modules manufactured on or after January 1, 2006, shall meet the performance requirements used under the Energy Star program of the Environmental Protection Agency for traffic signals, as in effect on the date of enactment of this subsection, and shall be installed with compatible, electrically connected signal control interface devices and conflict monitoring systems.

“(aa) Unit Heaters.—Unit heaters manufactured on or after the date that is 3 years after the date of enactment of this subsection shall be equipped with an intermittent ignition device and shall have either power venting or an automatic flue damper.

“(bb) Medium Base Compact Fluorescent Lamps.—Bare lamp and covered lamp (no reflector) medium base compact fluorescent lamps manufactured on or after January 1, 2006, shall meet the following requirements prescribed by the August 9, 2001, version of the Energy Star Program Requirements for Compact Fluorescent Lamps, Energy Star Eligibility Criteria, Energy-Efficiency Specification issued by the Environmental Protection Agency and Department of Energy: minimum initial efficacy; lumen maintenance at 1000 hours; lumen maintenance at 40 percent of rated life; rapid cycle stress test; and lamp life. The Secretary may, by rule, establish re-
quirements for color quality (CRI); power factor; oper-
ating frequency; and maximum allowable start time based
on the requirements prescribed by the August 9, 2001,
version of the Energy Star Program Requirements for
Compact Fluorescent Lamps. The Secretary may, by rule,
revise these requirements or establish other requirements
considering energy savings, cost effectiveness, and con-
sumer satisfaction.

“(cc) EFFECTIVE DATE.—Section 327 shall apply—
“(1) to products for which standards are to be
established under subsections (u) and (v) on the
date on which a final rule is issued by the Depart-
ment of Energy, except that any State or local
standards prescribed or enacted for any such prod-
uct prior to the date on which such final rule is
issued shall not be preempted until the standard es-
tablished under subsection (u) or (v) for that prod-
uct takes effect; and

“(2) to products for which standards are estab-
lished under subsections (w) through (bb) on the
date of enactment of those subsections, except that
any State or local standards prescribed or enacted
prior to the date of enactment of those subsections
shall not be preempted until the standards estab-
lished under subsections (w) through (bb) take effect.

“(dd) CEILING FANS.—

“(1) FEATURES.—All ceiling fans manufactured on or after January 1, 2006, shall have the following features:

“(A) Lighting controls operate independently from fan speed controls.

“(B) Adjustable speed controls (either more than 1 speed or variable speed).

“(C) The capability of reversible fan action, except for fans sold for industrial applications, outdoor applications, and where safety standards would be violated by the use of the reversible mode. The Secretary may promulgate regulations to define in greater detail the exceptions provided under this subparagraph but may not substantively expand the exceptions.

“(2) REVISED STANDARDS.—

“(A) IN GENERAL.—Notwithstanding any provision of this Act, if the requirements of subsections (o) and (p) are met, the Secretary may consider and prescribe energy efficiency or energy use standards for electricity used by ceiling fans to circulate air in a room.
“(B) SPECIAL CONSIDERATION.—If the Secretary sets such standards, the Secretary shall consider—

“(i) exempting or setting different standards for certain product classes for which the primary standards are not technically feasible or economically justified; and

“(ii) establishing separate exempted product classes for highly decorative fans for which air movement performance is a secondary design feature.

“(C) APPLICATION.—Any air movement standard prescribed under this subsection shall apply to products manufactured on or after the date that is 3 years after the date of publication of a final rule establishing the standard.”.

(d) RESIDENTIAL FURNACE FANS.—Section 325(f)(3) of the Energy Policy and Conservation Act (42 U.S.C. 6295(f)(3)) is amended by adding the following new subparagraph at the end:

“(D) Notwithstanding any provision of this Act, the Secretary may consider, and prescribe, if the requirements of subsection (o) of this section are met, energy efficiency
or energy use standards for electricity used for purposes of circulating air through duct work.”

SEC. 134. ENERGY LABELING.

(a) Rulemaking on Effectiveness of Consumer Product Labeling.—Section 324(a)(2) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)(2)) is amended by adding at the end the following:

“(F) Not later than 3 months after the date of enactment of this subparagraph, the Commission shall initiate a rulemaking to consider the effectiveness of the current consumer products labeling program in assisting consumers in making purchasing decisions and improving energy efficiency and to consider changes to the labeling rules that would improve the effectiveness of consumer product labels. Such rulemaking shall be completed not later than 2 years after the date of enactment of this subparagraph.

“(G)(i) Not later than 18 months after date of enactment of this subparagraph, the Commission shall prescribe by rule, pursuant to this section, labeling requirements for the electricity used by ceiling fans to circulate air in a room.

“(ii) The rule prescribed under clause (i) shall apply to products manufactured after the later of—

“(I) January 1, 2009; or
“(II) the date that is 60 days after the final rule is prescribed.”.

(b) Rulemaking on Labeling for Additional Products.—Section 324(a) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)) is further amended by adding at the end the following:

“(5) The Secretary or the Commission, as appropriate, may, for covered products referred to in subsections (u) through (aa) of section 325, prescribe, by rule, pursuant to this section, labeling requirements for such products after a test procedure has been set pursuant to section 323. In the case of products to which TP–1 standards under section 325(y) apply, labeling requirements shall be based on the ‘Standard for the Labeling of Distribution Transformer Efficiency’ prescribed by the National Electrical Manufacturers Association (NEMA TP–3) as in effect upon the date of enactment of this paragraph.”.

SEC. 135. PREEMPTION.

Section 327 of the Energy Policy and Conservation Act (42 U.S.C. 6297) is amended by adding at the end the following:

“(h) Ceiling Fans.—Effective on January 1, 2006, this section shall apply to and supersede all State and local
standards prescribed or enacted for ceiling fans and ceiling fan light kits.”.

**SEC. 136. STATE CONSUMER PRODUCT ENERGY EFFICIENCY STANDARDS.**

Section 327 of the Energy Policy and Conservation Act (42 U.S.C. 6297) is amended by adding at the end the following new subsection:

“(h) LIMITATION ON PREEMPTION.—Subsections (a) and (b) shall not apply with respect to State regulation of energy consumption or water use of any covered product during any period of time—

“(1) after the date which is 3 years after a Federal standard is required by law to be established or revised, but has not been established or revised; and

“(2) before the date on which such Federal standard is established or revised.”.

**Subtitle D—Public Housing**

**SEC. 141. CAPACITY BUILDING FOR ENERGY-EFFICIENT, AFFORDABLE HOUSING.**

Section 4(b) of the HUD Demonstration Act of 1993 (42 U.S.C. 9816 note) is amended—

(1) in paragraph (1), by inserting before the semicolon at the end the following: “, including capabilities regarding the provision of energy efficient,
affordable housing and residential energy conservation measures”; and

(2) in paragraph (2), by inserting before the semicolon the following: “, including such activities relating to the provision of energy efficient, affordable housing and residential energy conservation measures that benefit low-income families”.

SEC. 142. INCREASE OF CDBG PUBLIC SERVICES CAP FOR ENERGY CONSERVATION AND EFFICIENCY ACTIVITIES.

Section 105(a)(8) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(8)) is amended—

(1) by inserting “or efficiency” after “energy conservation”; 

(2) by striking “, and except that” and inserting “; except that”; and 

(3) by inserting before the semicolon at the end the following: “; and except that each percentage limitation under this paragraph on the amount of assistance provided under this title that may be used for the provision of public services is hereby increased by 10 percent, but such percentage increase may be used only for the provision of public services concerning energy conservation or efficiency”. 

•HR 6 IH
SEC. 143. FHA MORTGAGE INSURANCE INCENTIVES FOR
ENERGY EFFICIENT HOUSING.

(a) Single Family Housing Mortgage Insurance.—Section 203(b)(2) of the National Housing Act (12 U.S.C. 1709(b)(2)) is amended, in the first undesignated paragraph beginning after subparagraph (B)(ii)(IV) (relating to solar energy systems), by striking “20 percent” and inserting “30 percent”.

(b) Multifamily Housing Mortgage Insurance.—Section 207(c) of the National Housing Act (12 U.S.C. 1713(c)) is amended, in the last undesignated paragraph beginning after paragraph (3) (relating to solar energy systems and residential energy conservation measures), by striking “20 percent” and inserting “30 percent”.

(c) Cooperative Housing Mortgage Insurance.—Section 213(p) of the National Housing Act (12 U.S.C. 1715e(p)) is amended by striking “20 per centum” and inserting “30 percent”.

(1) by striking “with respect to rehabilitation projects involving not more than five family units,”;
(2) by striking “20 per centum” and inserting “30 percent”.

(c) **LOW-INCOME MULTIFAMILY HOUSING MORTGAGE INSURANCE.**—Section 221(k) of the National Housing Act (12 U.S.C. 1715l(k)) is amended by striking “20 per centum” and inserting “30 percent”.

(f) **ELDERLY HOUSING MORTGAGE INSURANCE.**—Section 231(c)(2)(C) of the National Housing Act (12 U.S.C. 1715v(c)(2)(C)) is amended by striking “20 per centum” and inserting “30 percent”.

(g) **CONDOMINIUM HOUSING MORTGAGE INSURANCE.**—Section 234(j) of the National Housing Act (12 U.S.C. 1715y(j)) is amended by striking “20 per centum” and inserting “30 percent”.

**SEC. 144. PUBLIC HOUSING CAPITAL FUND.**

Section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) is amended—

(1) in subsection (d)(1)—

(A) in subparagraph (I), by striking “and” at the end;

(B) in subparagraph (J), by striking the period at the end and inserting a semicolon;

and

(C) by adding at the end the following new subparagraphs:
“(K) improvement of energy and water-use efficiency by installing fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2–1998 and A112.18.1–2000, or any revision thereto, applicable at the time of installation, and by increasing energy efficiency and water conservation by such other means as the Secretary determines are appropriate; and

“(L) integrated utility management and capital planning to maximize energy conservation and efficiency measures.”; and

(2) in subsection (e)(2)(C)—

(A) by striking “The” and inserting the following:

“(i) IN GENERAL.—The”; and

(B) by adding at the end the following:

“(ii) THIRD PARTY CONTRACTS.—Contracts described in clause (i) may include contracts for equipment conversions to less costly utility sources, projects with resident-paid utilities, and adjustments to frozen base year consumption, including systems repaired to meet applicable build-
ing and safety codes and adjustments for
occupancy rates increased by rehabilita-
tion.

“(iii) TERM OF CONTRACT.—The total
term of a contract described in clause (i)
shall not exceed 20 years to allow longer
payback periods for retrofits, including
windows, heating system replacements,
wall insulation, site-based generation, ad-
vanced energy savings technologies, includ-
ing renewable energy generation, and other
such retrofits.”.

SEC. 145. GRANTS FOR ENERGY-CONSERVING IMPROVE-
MENTS FOR ASSISTED HOUSING.

Section 251(b)(1) of the National Energy Conserva-
tion Policy Act (42 U.S.C. 8231(1)) is amended—

(1) by striking “financed with loans” and in-
serting “assisted”;

(2) by inserting after “1959,” the following:

“which are eligible multifamily housing projects (as
such term is defined in section 512 of the Multi-
family Assisted Housing Reform and Affordability
Act of 1997 (42 U.S.C. 1437f note)) and are subject
to mortgage restructuring and rental assistance suf-
ficiency plans under such Act,”; and
(3) by inserting after the period at the end of the first sentence the following new sentence: “Such improvements may also include the installation of energy and water conserving fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2–1998 and A112.18.1–2000, or any revision thereto, applicable at the time of installation.”.

SEC. 147. ENERGY-EFFECTIVE APPLIANCES.

In purchasing appliances, a public housing agency shall purchase energy-efficient appliances that are Energy Star products or FEMP-designated products, as such terms are defined in section 553 of the National Energy Conservation Policy Act (as amended by this title), unless the purchase of energy-efficient appliances is not cost-effective to the agency.

SEC. 148. ENERGY EFFICIENCY STANDARDS.

Section 109 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12709) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking “1 year after the date of the enactment of the Energy Policy Act
of 1992” and inserting “September 30, 2006”;

(ii) in subparagraph (A), by striking “and” at the end;

(iii) in subparagraph (B), by striking the period at the end and inserting “; and”;

(iv) by adding at the end the following:

“(C) rehabilitation and new construction of public and assisted housing funded by HOPE VI revitalization grants under section 24 of the United States Housing Act of 1937 (42 U.S.C. 1437v), where such standards are determined to be cost effective by the Secretary of Housing and Urban Development.”; and

(B) in paragraph (2), by striking “Council of American” and all that follows through “90.1–1989’”) and inserting “2003 International Energy Conservation Code”;

(2) in subsection (b)—

(A) by striking “within 1 year after the date of the enactment of the Energy Policy Act of 1992” and inserting “by September 30, 2006”; and
(B) by striking “CABO” and all that follows through “1989” and inserting “the 2003 International Energy Conservation Code”; and

(3) in subsection (c)—

(A) in the heading, by striking “MODEL ENERGY CODE” and inserting “THE INTERNATIONAL ENERGY CONSERVATION CODE”; and

(B) by striking “CABO” and all that follows through “1989” and inserting “the 2003 International Energy Conservation Code”.

SEC. 149. ENERGY STRATEGY FOR HUD.

The Secretary of Housing and Urban Development shall develop and implement an integrated strategy to reduce utility expenses through cost-effective energy conservation and efficiency measures and energy efficient design and construction of public and assisted housing. The energy strategy shall include the development of energy reduction goals and incentives for public housing agencies. The Secretary shall submit a report to Congress, not later than 1 year after the date of the enactment of this Act, on the energy strategy and the actions taken by the Department of Housing and Urban Development to monitor the energy usage of public housing agencies and shall sub-
mit an update every 2 years thereafter on progress in im-
plementing the strategy.

**TITLE II—RENEWABLE ENERGY**

Subtitle A—General Provisions

**SEC. 201. ASSESSMENT OF RENEWABLE ENERGY RE-
SOURCES.**

(a) Resource Assessment.—Not later than 6 
months after the date of enactment of this Act, and each 
year thereafter, the Secretary of Energy shall review the 
available assessments of renewable energy resources with-
in the United States, including solar, wind, biomass, ocean 
(tidal, wave, current, and thermal), geothermal, and hy-
droelectric energy resources, and undertake new assess-
ments as necessary, taking into account changes in market 
conditions, available technologies, and other relevant fac-
tors.

(b) Contents of Reports.—Not later than 1 year 
after the date of enactment of this Act, and each year 
thereafter, the Secretary shall publish a report based on 
the assessment under subsection (a). The report shall con-
tain—

(1) a detailed inventory describing the available 
amount and characteristics of the renewable energy 
resources; and
(2) such other information as the Secretary believes would be useful in developing such renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource, together with an identification of any barriers to providing adequate transmission for remote sources of renewable energy resources to current and emerging markets, recommendations for removing or addressing such barriers, and ways to provide access to the grid that do not unfairly disadvantage renewable or other energy producers.

(c) Authorization of Appropriations.—For the purposes of this section, there are authorized to be appropriated to the Secretary of Energy $10,000,000 for each of fiscal years 2006 through 2010.

SEC. 202. RENEWABLE ENERGY PRODUCTION INCENTIVE.

(a) Incentive Payments.—Section 1212(a) of the Energy Policy Act of 1992 (42 U.S.C. 13317(a)) is amended by striking “and which satisfies” and all that follows through “Secretary shall establish.” and inserting “. If there are insufficient appropriations to make full payments for electric production from all qualified renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource, together with an identification of any barriers to providing adequate transmission for remote sources of renewable energy resources to current and emerging markets, recommendations for removing or addressing such barriers, and ways to provide access to the grid that do not unfairly disadvantage renewable or other energy producers.
energy facilities in any given year, the Secretary shall assign 60 percent of appropriated funds for that year to facilities that use solar, wind, geothermal, or closed-loop (dedicated energy crops) biomass technologies to generate electricity, and assign the remaining 40 percent to other projects. The Secretary may, after transmitting to Congress an explanation of the reasons therefor, alter the percentage requirements of the preceding sentence.

(b) Qualified Renewable Energy Facility.—Section 1212(b) of the Energy Policy Act of 1992 (42 U.S.C. 13317(b)) is amended—

(1) by striking “a State or any political” and all that follows through “nonprofit electrical cooperative” and inserting “a not-for-profit electric cooperative, a public utility described in section 115 of the Internal Revenue Code of 1986, a State, Commonwealth, territory, or possession of the United States or the District of Columbia, or a political subdivision thereof, or an Indian tribal government or subdivision thereof,”; and

(2) by inserting “landfill gas, livestock methane, ocean (tidal, wave, current, and thermal),” after “wind, biomass,”.

(c) Eligibility Window.—Section 1212(e) of the Energy Policy Act of 1992 (42 U.S.C. 13317(e)) is
amended by striking “during the 10-fiscal year period begin-
ning with the first full fiscal year occurring after the
enactment of this section” and inserting “after October 1, 2005, and before October 1, 2015”.

(d) AMOUNT OF PAYMENT.—Section 1212(e)(1) of
is amended by inserting “landfill gas, livestock methane, ocean (tidal, wave, current, and thermal),” after “wind, biomass,”.

(e) SUNSET.—Section 1212(f) of the Energy Policy
Act of 1992 (42 U.S.C. 13317(f)) is amended by striking “the expiration of” and all that follows through “of this section” and inserting “September 30, 2025”.

(f) AUTHORIZATION OF APPROPRIATIONS.—Section
1212(g) of the Energy Policy Act of 1992 (42 U.S.C.
13317(g)) is amended to read as follows:

“(g) AUTHORIZATION OF APPROPRIATIONS.—

“(1) IN GENERAL.—Subject to paragraph (2), there are authorized to be appropriated such sums as may be necessary to carry out this section for fiscal years 2005 through 2025.

“(2) AVAILABILITY OF FUNDS.—Funds made available under paragraph (1) shall remain available until expended.”.
SEC. 203. FEDERAL PURCHASE REQUIREMENT.

(a) REQUIREMENT.—The President, acting through the Secretary of Energy, shall seek to ensure that, to the extent economically feasible and technically practicable, of the total amount of electric energy the Federal Government consumes during any fiscal year, the following amounts shall be renewable energy:

(1) Not less than 3 percent in fiscal years 2007 through 2009.

(2) Not less than 5 percent in fiscal years 2010 through 2012.

(3) Not less than 7.5 percent in fiscal year 2013 and each fiscal year thereafter.

(b) DEFINITIONS.—In this section:

(1) BIOMASS.—The term “biomass” means any solid, nonhazardous, cellulosic material that is derived from—

(A) any of the following forest-related resources: mill residues, precommercial thinnings, slash, and brush, or nonmerchantable material;

(B) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal
solid waste (garbage), gas derived from the biodegradation of solid waste, or paper that is commonly recycled;

(C) agriculture wastes, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues, and livestock waste nutrients; or

(D) a plant that is grown exclusively as a fuel for the production of electricity.

(2) RENEWABLE ENERGY.—The term “renewable energy” means electric energy generated from solar, wind, biomass, landfill gas, ocean (tidal, wave, current, and thermal), geothermal, municipal solid waste, or new hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric project.

(c) CALCULATION.—For purposes of determining compliance with the requirement of this section, the amount of renewable energy shall be doubled if—

(1) the renewable energy is produced and used on-site at a Federal facility;

(2) the renewable energy is produced on Federal lands and used at a Federal facility; or

(3) the renewable energy is produced on Indian land as defined in title XXVI of the Energy Policy

(d) REPORT.—Not later than April 15, 2007, and every 2 years thereafter, the Secretary of Energy shall provide a report to Congress on the progress of the Federal Government in meeting the goals established by this section.

SEC. 204. INSULAR AREAS ENERGY SECURITY.

Section 604 of the Act entitled “An Act to authorize appropriations for certain insular areas of the United States, and for other purposes”, approved December 24, 1980 (48 U.S.C. 1492), is amended—

(1) in subsection (a)(4) by striking the period and inserting a semicolon;

(2) by adding at the end of subsection (a) the following new paragraphs:

“(5) electric power transmission and distribution lines in insular areas are inadequate to withstand damage caused by the hurricanes and typhoons which frequently occur in insular areas and such damage often costs millions of dollars to repair; and

“(6) the refinement of renewable energy technologies since the publication of the 1982 Territorial Energy Assessment prepared pursuant to subsection
(c) reveals the need to reassess the state of energy production, consumption, infrastructure, reliance on imported energy, opportunities for energy conservation and increased energy efficiency, and indigenous sources in regard to the insular areas.”;

(3) by amending subsection (e) to read as follows:

“(e)(1) The Secretary of the Interior, in consultation with the Secretary of Energy and the head of government of each insular area, shall update the plans required under subsection (c) by—

“(A) updating the contents required by subsection (c);

“(B) drafting long-term energy plans for such insular areas with the objective of reducing, to the extent feasible, their reliance on energy imports by the year 2012, increasing energy conservation and energy efficiency, and maximizing, to the extent feasible, use of indigenous energy sources; and

“(C) drafting long-term energy transmission line plans for such insular areas with the objective that the maximum percentage feasible of electric power transmission and distribution lines in each insular area be protected from damage caused by hurricanes and typhoons.
“(2) Not later than December 31, 2006, the Secretary of the Interior shall submit to Congress the updated plans for each insular area required by this subsection;”;

and

(4) by amending subsection (g)(4) to read as follows:

“(4) **Power Line Grants for Insular Areas.**—

“(A) **In General.**—The Secretary of the Interior is authorized to make grants to governments of insular areas of the United States to carry out eligible projects to protect electric power transmission and distribution lines in such insular areas from damage caused by hurricanes and typhoons.

“(B) **Eligible Projects.**—The Secretary may award grants under subparagraph (A) only to governments of insular areas of the United States that submit written project plans to the Secretary for projects that meet the following criteria:

“(i) The project is designed to protect electric power transmission and distribution lines located in 1 or more of the insu-
lar areas of the United States from damage caused by hurricanes and typhoons.

“(ii) The project is likely to substantially reduce the risk of future damage, hardship, loss, or suffering.

“(iii) The project addresses 1 or more problems that have been repetitive or that pose a significant risk to public health and safety.

“(iv) The project is not likely to cost more than the value of the reduction in direct damage and other negative impacts that the project is designed to prevent or mitigate. The cost benefit analysis required by this criterion shall be computed on a net present value basis.

“(v) The project design has taken into consideration long-term changes to the areas and persons it is designed to protect and has manageable future maintenance and modification requirements.

“(vi) The project plan includes an analysis of a range of options to address the problem it is designed to prevent or
mitigate and a justification for the selection of the project in light of that analysis.

“(vii) The applicant has demonstrated to the Secretary that the matching funds required by subparagraph (D) are available.

“(C) PRIORITY.—When making grants under this paragraph, the Secretary shall give priority to grants for projects which are likely to—

“(i) have the greatest impact on reducing future disaster losses; and

“(ii) best conform with plans that have been approved by the Federal Government or the government of the insular area where the project is to be carried out for development or hazard mitigation for that insular area.

“(D) MATCHING REQUIREMENT.—The Federal share of the cost for a project for which a grant is provided under this paragraph shall not exceed 75 percent of the total cost of that project. The non-Federal share of the cost may be provided in the form of cash or services.
“(E) Treatment of Funds for Certain Purposes.—Grants provided under this paragraph shall not be considered as income, a resource, or a duplicative program when determining eligibility or benefit levels for Federal major disaster and emergency assistance.

“(F) Authorization of Appropriations.—There are authorized to be appropriated to carry out this paragraph $5,000,000 for each fiscal year beginning after the date of the enactment of this paragraph.”.

SEC. 205. USE OF PHOTOVOLTAIC ENERGY IN PUBLIC BUILDINGS.

(a) In General.—Part 4 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8271 et seq.) is amended by adding at the end the following:

“SEC. 570. USE OF PHOTOVOLTAIC ENERGY IN PUBLIC BUILDINGS.

“(a) Photovoltaic Energy Commercialization Program.—

“(1) In General.—The Secretary may establish a photovoltaic energy commercialization program for the procurement and installation of photovoltaic solar electric systems for electric production in new and existing public buildings.
“(2) Purposes.—The purposes of the program shall be to accomplish the following:

“(A) To accelerate the growth of a commercially viable photovoltaic industry to make this energy system available to the general public as an option which can reduce the national consumption of fossil fuel.

“(B) To reduce the fossil fuel consumption and costs of the Federal Government.

“(C) To attain the goal of installing solar energy systems in 20,000 Federal buildings by 2010, as contained in the Federal Government’s Million Solar Roof Initiative of 1997.

“(D) To stimulate the general use within the Federal Government of life-cycle costing and innovative procurement methods.

“(E) To develop program performance data to support policy decisions on future incentive programs with respect to energy.

“(3) Acquisition of Photovoltaic Solar Electric Systems.—

“(A) In General.—The program shall provide for the acquisition of photovoltaic solar electric systems and associated storage capability for use in public buildings.
“(B) ACQUISITION LEVELS.—The acquisition of photovoltaic electric systems shall be at a level substantial enough to allow use of low-cost production techniques with at least 150 megawatts (peak) cumulative acquired during the 5 years of the program.

“(4) ADMINISTRATION.—The Secretary shall administer the program and shall—

“(A) issue such rules and regulations as may be appropriate to monitor and assess the performance and operation of photovoltaic solar electric systems installed pursuant to this subsection;

“(B) develop innovative procurement strategies for the acquisition of such systems; and

“(C) transmit to Congress an annual report on the results of the program.

“(b) PHOTOVOLTAIC SYSTEMS EVALUATION PROGRAM.—

“(1) IN GENERAL.—Not later than 60 days after the date of enactment of this section, the Secretary shall establish a photovoltaic solar energy systems evaluation program to evaluate such photovoltaic solar energy systems as are required in public buildings.
“(2) Program Requirement.—In evaluating photovoltaic solar energy systems under the program, the Secretary shall ensure that such systems reflect the most advanced technology.

“(c) Authorization of Appropriations.—

“(1) Photovoltaic Energy Commercialization Program.—There are authorized to be appropriated to carry out subsection (a) $50,000,000 for each of fiscal years 2006 through 2010. Such sums shall remain available until expended.

“(2) Photovoltaic Systems Evaluation Program.—There are authorized to be appropriated to carry out subsection (b) $10,000,000 for each of fiscal years 2006 through 2010. Such sums shall remain available until expended.”.

(b) Conforming Amendment.—The table of sections for the National Energy Conservation Policy Act is amended by inserting after the item relating to section 569 the following:

“Sec. 570. Use of photovoltaic energy in public buildings.”.

SEC. 206. GRANTS TO IMPROVE THE COMMERCIAL VALUE OF FOREST BIOMASS FOR ELECTRIC ENERGY, USEFUL HEAT, TRANSPORTATION FUELS, PETROLEUM-BASED PRODUCT SUBSTITUTES, AND OTHER COMMERCIAL PURPOSES.

(a) Findings.—Congress finds the following:
(1) Thousands of communities in the United States, many located near Federal lands, are at risk to wildfire. Approximately 190,000,000 acres of land managed by the Secretary of Agriculture and the Secretary of the Interior are at risk of catastrophic fire in the near future. The accumulation of heavy forest fuel loads continues to increase as a result of disease, insect infestations, and drought, further raising the risk of fire each year.

(2) In addition, more than 70,000,000 acres across all land ownerships are at risk to higher than normal mortality over the next 15 years from insect infestation and disease. High levels of tree mortality from insects and disease result in increased fire risk, loss of old growth, degraded watershed conditions, and changes in species diversity and productivity, as well as diminished fish and wildlife habitat and decreased timber values.

(3) Preventive treatments such as removing fuel loading, ladder fuels, and hazard trees, planting proper species mix and restoring and protecting early successional habitat, and other specific restoration treatments designed to reduce the susceptibility of forest land, woodland, and rangeland to insect outbreaks, disease, and catastrophic fire present the
greatest opportunity for long-term forest health by creating a mosaic of species-mix and age distribution. Such prevention treatments are widely acknowledged to be more successful and cost effective than suppression treatments in the case of insects, disease, and fire.

(4) The byproducts of preventive treatment (wood, brush, thinnings, chips, slash, and other hazardous fuels) removed from forest lands, woodlands and rangelands represent an abundant supply of biomass for biomass-to-energy facilities and raw material for business. There are currently few markets for the extraordinary volumes of byproducts being generated as a result of the necessary large-scale preventive treatment activities.

(5) The United States should—

(A) promote economic and entrepreneurial opportunities in using byproducts removed through preventive treatment activities related to hazardous fuels reduction, disease, and insect infestation; and

(B) develop and expand markets for traditionally underused wood and biomass as an outlet for byproducts of preventive treatment activities.
(b) DEFINITIONS.—In this section:

(1) BIOMASS.—The term “biomass” means trees and woody plants, including limbs, tops, needles, and other woody parts, and byproducts of preventive treatment, such as wood, brush, thinnings, chips, and slash, that are removed—

(A) to reduce hazardous fuels; or

(B) to reduce the risk of or to contain disease or insect infestation.

(2) INDIAN TRIBE.—The term “Indian tribe” has the meaning given the term in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)).

(3) PERSON.—The term “person” includes—

(A) an individual;

(B) a community (as determined by the Secretary concerned);

(C) an Indian tribe;

(D) a small business, micro-business, or a corporation that is incorporated in the United States; and

(E) a nonprofit organization.

(4) PREFERRED COMMUNITY.—The term “preferred community” means—
(A) any town, township, municipality, or other similar unit of local government (as determined by the Secretary concerned) that—

(i) has a population of not more than 50,000 individuals; and

(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation; or

(B) any county that—

(i) is not contained within a metropolitan statistical area; and

(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation.

(5) SECRETARY CONCERNED.—The term “Secretary concerned” means—
(A) the Secretary of Agriculture with respect to National Forest System lands; and

(B) the Secretary of the Interior with respect to Federal lands under the jurisdiction of the Secretary of the Interior and Indian lands.

(c) BIOMASS COMMERCIAL USE GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary concerned may make grants to any person that owns or operates a facility that uses biomass as a raw material to produce electric energy, sensible heat, transportation fuels, or substitutes for petroleum-based products to offset the costs incurred to purchase biomass for use by such facility.

(2) GRANT AMOUNTS.—A grant under this subsection may not exceed $20 per green ton of biomass delivered.

(3) MONITORING OF GRANT RECIPIENT ACTIVITIES.—As a condition of a grant under this subsection, the grant recipient shall keep such records as the Secretary concerned may require to fully and correctly disclose the use of the grant funds and all transactions involved in the purchase of biomass. Upon notice by a representative of the Secretary concerned, the grant recipient shall afford the representative reasonable access to the facility that pur-
chases or uses biomass and an opportunity to examine the inventory and records of the facility.

(d) IMPROVED BIOMASS USE GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary concerned may make grants to persons to offset the cost of projects to develop or research opportunities to improve the use of, or add value to, biomass. In making such grants, the Secretary concerned shall give preference to persons in preferred communities.

(2) SELECTION.—The Secretary concerned shall select a grant recipient under paragraph (1) after giving consideration to the anticipated public benefits of the project, including the potential to develop thermal or electric energy resources or affordable energy, opportunities for the creation or expansion of small businesses and micro-businesses, and the potential for new job creation.

(3) GRANT AMOUNT.—A grant under this subsection may not exceed $500,000.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $50,000,000 for each of the fiscal years 2006 through 2016 to carry out this section.

(f) REPORT.—Not later than October 1, 2012, the Secretary of Agriculture, in consultation with the Sec-
retary of the Interior, shall submit to the Committee on Energy and Natural Resources and the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Resources, the Committee on Energy and Commerce, and the Committee on Agriculture of the House of Representatives a report describing the results of the grant programs authorized by this section. The report shall include the following:

(1) An identification of the size, type, and the use of biomass by persons that receive grants under this section.

(2) The distance between the land from which the biomass was removed and the facility that used the biomass.

(3) The economic impacts, particularly new job creation, resulting from the grants to and operation of the eligible operations.

SEC. 207. BIOBASED PRODUCTS.

Section 9002(c)(1) of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8102(c)(1)) is amended by inserting “or such items that comply with the regulations issued under section 103 of Public Law 100–556 (42 U.S.C. 6914b–1)” after “practicable”.
SEC. 208. RENEWABLE ENERGY SECURITY.

(a) Weatherization Assistance.—Section 415(c) of the Energy Conservation and Production Act (42 U.S.C. 6865(c)) is amended—

(1) in paragraph (1), by striking “in paragraph (3)” and inserting “in paragraphs (3) and (4)”;

(2) in paragraph (3), by striking “$2,500 per dwelling unit average provided in paragraph (1)” and inserting “dwelling unit averages provided in paragraphs (1) and (4)”;

(3) by adding at the end the following new paragraphs:

“(4) The expenditure of financial assistance provided under this part for labor, weatherization materials, and related matters for a renewable energy system shall not exceed an average of $3,000 per dwelling unit.

“(5)(A) The Secretary shall by regulations—

“(i) establish the criteria which are to be used in prescribing performance and quality standards under paragraph (6)(A)(ii) or in specifying any form of renewable energy under paragraph (6)(A)(i)(I); and

“(ii) establish a procedure under which a manufacturer of an item may request the Secretary to certify that the item will be treated, for purposes of this paragraph, as a renewable energy system.
“(B) The Secretary shall make a final determination with respect to any request filed under subparagraph (A)(ii) within 1 year after the filing of the request, together with any information required to be filed with such request under subparagraph (A)(ii).

“(C) Each month the Secretary shall publish a report of any request under subparagraph (A)(ii) which has been denied during the preceding month and the reasons for the denial.

“(D) The Secretary shall not specify any form of renewable energy under paragraph (6)(A)(i)(I) unless the Secretary determines that—

“(i) there will be a reduction in oil or natural gas consumption as a result of such specification;

“(ii) such specification will not result in an increased use of any item which is known to be, or reasonably suspected to be, environmentally hazardous or a threat to public health or safety; and

“(iii) available Federal subsidies do not make such specification unnecessary or inappropriate (in the light of the most advantageous allocation of economic resources).

“(6) In this subsection—

“(A) the term ‘renewable energy system’ means a system which—
“(i) when installed in connection with a dwelling, transmits or uses—

“(I) solar energy, energy derived from the geothermal deposits, energy derived from biomass, or any other form of renewable energy which the Secretary specifies by regulations, for the purpose of heating or cooling such dwelling or providing hot water or electricity for use within such dwelling; or

“(II) wind energy for nonbusiness residential purposes;

“(ii) meets the performance and quality standards (if any) which have been prescribed by the Secretary by regulations;

“(iii) in the case of a combustion rated system, has a thermal efficiency rating of at least 75 percent; and

“(iv) in the case of a solar system, has a thermal efficiency rating of at least 15 percent; and

“(B) the term ‘biomass’ means any organic matter that is available on a renewable or recurring basis, including agricultural crops and trees, wood and wood wastes and residues, plants (including
aquatic plants), grasses, residues, fibers, and animal
wastes, municipal wastes, and other waste mate-
rials.”.

(b) DISTRICT HEATING AND COOLING PROGRAMS.—
13451 note) is amended—

(1) in subsection (a)—

(A) by striking “and” at the end of para-
graph (3);

(B) by striking the period at the end of
paragraph (4) and inserting “; and”; and

(C) by adding at the end the following new
paragraph:

“(5) evaluate the use of renewable energy sys-
tems (as such term is defined in section 415(c) of
the Energy Conservation and Production Act (42
U.S.C. 6865(c))) in residential buildings.”; and

(2) in subsection (b), by striking “this Act” and
inserting “the Energy Policy Act of 2005”.

(e) DEFINITION OF BIOMASS.—Section 203(2) of the
Biomass Energy and Alcohol Fuels Act of 1980 (42
U.S.C. 8802(2)) is amended to read as follows:

“(2) The term ‘biomass’ means any organic
matter that is available on a renewable or recurring
basis, including agricultural crops and trees, wood
and wood wastes and residues, plants (including aquatic plants), grasses, residues, fibers, and animal wastes, municipal wastes, and other waste materials.”.

(d) REBATE PROGRAM.—

(1) ESTABLISHMENT.—The Secretary of Energy shall establish a program providing rebates for consumers for expenditures made for the installation of a renewable energy system in connection with a dwelling unit or small business.

(2) AMOUNT OF REBATE.—Rebates provided under the program established under paragraph (1) shall be in an amount not to exceed the lesser of—

(A) 25 percent of the expenditures described in paragraph (1) made by the consumer; or

(B) $3,000.

(3) DEFINITION.—For purposes of this subsection, the term “renewable energy system” has the meaning given that term in section 415(c)(6)(A) of the Energy Conservation and Production Act (42 U.S.C. 6865(c)(6)(A)), as added by subsection (a)(3) of this section.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Sec-
Secretary of Energy for carrying out this subsection, to remain available until expended—

(A) $150,000,000 for fiscal year 2006;
(B) $150,000,000 for fiscal year 2007;
(C) $200,000,000 for fiscal year 2008;
(D) $250,000,000 for fiscal year 2009;
and
(E) $250,000,000 for fiscal year 2010.

(e) RENEWABLE FUEL INVENTORY.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall transmit to Congress a report containing—

(1) an inventory of renewable fuels available for consumers; and

(2) a projection of future inventories of renewable fuels based on the incentives provided in this section

Subtitle C—Hydroelectric

PART I—ALTERNATIVE CONDITIONS

SEC. 231. ALTERNATIVE CONDITIONS AND FISHWAYS.

(a) FEDERAL RESERVATIONS.—Section 4(e) of the Federal Power Act (16 U.S.C. 797(e)) is amended by inserting after “adequate protection and utilization of such reservation.” at the end of the first proviso the following: “The license applicant shall be entitled to a determination
on the record, after opportunity for an expedited agency trial-type hearing of any disputed issues of material fact, with respect to such conditions. Such hearing may be conducted in accordance with procedures established by agency regulation in consultation with the Federal Energy Regulatory Commission.”.

(b) FISHWAYS.—Section 18 of the Federal Power Act (16 U.S.C. 811) is amended by inserting after “and such fishways as may be prescribed by the Secretary of Commerce.” the following: “The license applicant shall be entitled to a determination on the record, after opportunity for an expedited agency trial-type hearing of any disputed issues of material fact, with respect to such fishways. Such hearing may be conducted in accordance with procedures established by agency regulation in consultation with the Federal Energy Regulatory Commission.”.

(c) ALTERNATIVE CONDITIONS AND PRESCRIPTIONS.—Part I of the Federal Power Act (16 U.S.C. 791a et seq.) is amended by adding the following new section at the end thereof:

“SEC. 33. ALTERNATIVE CONDITIONS AND PRESCRIPTIONS.

“(a) ALTERNATIVE CONDITIONS.—(1) Whenever any person applies for a license for any project works within any reservation of the United States, and the Secretary of the department under whose supervision such reserva-
tion falls (referred to in this subsection as ‘the Secretary’) deems a condition to such license to be necessary under the first proviso of section 4(e), the license applicant may propose an alternative condition.

“(2) Notwithstanding the first proviso of section 4(e), the Secretary shall accept the proposed alternative condition referred to in paragraph (1), and the Commission shall include in the license such alternative condition, if the Secretary determines, based on substantial evidence provided by the license applicant or otherwise available to the Secretary, that such alternative condition—

“(A) provides for the adequate protection and utilization of the reservation; and

“(B) will either—

“(i) cost less to implement; or

“(ii) result in improved operation of the project works for electricity production,

as compared to the condition initially deemed necessary by the Secretary.

“(3) The Secretary shall submit into the public record of the Commission proceeding with any condition under section 4(e) or alternative condition it accepts under this section, a written statement explaining the basis for such condition, and reason for not accepting any alternative condition under this section. The written statement
must demonstrate that the Secretary gave equal consider-
ation to the effects of the condition adopted and alter-
natives not accepted on energy supply, distribution, cost,
and use; flood control; navigation; water supply; and air
quality (in addition to the preservation of other aspects
of environmental quality); based on such information as
may be available to the Secretary, including information
voluntarily provided in a timely manner by the applicant
and others. The Secretary shall also submit, together with
the aforementioned written statement, all studies, data,
and other factual information available to the Secretary
and relevant to the Secretary’s decision.

“(4) Nothing in this section shall prohibit other inter-
ested parties from proposing alternative conditions.

“(5) If the Secretary does not accept an applicant’s
alternative condition under this section, and the Commis-
sion finds that the Secretary’s condition would be incon-
sistent with the purposes of this part, or other applicable
law, the Commission may refer the dispute to the Commis-
sion’s Dispute Resolution Service. The Dispute Resolution
Service shall consult with the Secretary and the Commis-
sion and issue a non-binding advisory within 90 days. The
Secretary may accept the Dispute Resolution Service advi-
sory unless the Secretary finds that the recommendation
will not provide for the adequate protection and utilization
of the reservation. The Secretary shall submit the advisory
and the Secretary’s final written determination into the
record of the Commission’s proceeding.

“(b) ALTERNATIVE PRESCRIPTIONS.—(1) Whenever
the Secretary of the Interior or the Secretary of Commerce
prescribes a fishway under section 18, the license appli-
cant or licensee may propose an alternative to such pre-
scription to construct, maintain, or operate a fishway.

“(2) Notwithstanding section 18, the Secretary of the
Interior or the Secretary of Commerce, as appropriate,
shall accept and prescribe, and the Commission shall re-
quire, the proposed alternative referred to in paragraph
(1), if the Secretary of the appropriate department deter-
mines, based on substantial evidence provided by the li-
censee or otherwise available to the Secretary, that such
alternative—

“(A) will be no less protective than the fishway
initially prescribed by the Secretary; and

“(B) will either—

“(i) cost less to implement; or

“(ii) result in improved operation of the
project works for electricity production,
as compared to the fishway initially deemed nec-
essary by the Secretary.
“(3) The Secretary concerned shall submit into the public record of the Commission proceeding with any prescription under section 18 or alternative prescription it accepts under this section, a written statement explaining the basis for such prescription, and reason for not accepting any alternative prescription under this section. The written statement must demonstrate that the Secretary gave equal consideration to the effects of the condition adopted and alternatives not accepted on energy supply, distribution, cost, and use; flood control; navigation; water supply; and air quality (in addition to the preservation of other aspects of environmental quality); based on such information as may be available to the Secretary, including information voluntarily provided in a timely manner by the applicant and others. The Secretary shall also submit, together with the aforementioned written statement, all studies, data, and other factual information available to the Secretary and relevant to the Secretary’s decision.

“(4) Nothing in this section shall prohibit other interested parties from proposing alternative prescriptions.

“(5) If the Secretary concerned does not accept an applicant’s alternative prescription under this section, and the Commission finds that the Secretary’s prescription would be inconsistent with the purposes of this part, or other applicable law, the Commission may refer the dis-
pute to the Commission’s Dispute Resolution Service. The Dispute Resolution Service shall consult with the Secretary and the Commission and issue a non-binding advisory within 90 days. The Secretary may accept the Dispute Resolution Service advisory unless the Secretary finds that the recommendation will be less protective than the fishway initially prescribed by the Secretary. The Secretary shall submit the advisory and the Secretary’s final written determination into the record of the Commission’s proceeding.”.

PART II—ADDITIONAL HYDROPOWER

SEC. 241. HYDROELECTRIC PRODUCTION INCENTIVES.

(a) INCENTIVE PAYMENTS.—For electric energy generated and sold by a qualified hydroelectric facility during the incentive period, the Secretary of Energy (referred to in this section as the “Secretary”) shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility. The amount of such payment made to any such owner or operator shall be as determined under subsection (e) of this section. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment and which satisfies such other requirements as the Secretary deems necessary. Such application shall be in such
form, and shall be submitted at such time, as the Sec-
retary shall establish.

(b) DEFINITIONS.—For purposes of this section:

(1) QUALIFIED HYDROELECTRIC FACILITY.—
The term “qualified hydroelectric facility” means a
turbine or other generating device owned or solely
operated by a non-Federal entity which generates
hydroelectric energy for sale and which is added to
an existing dam or conduit.

(2) EXISTING DAM OR CONDUIT.—The term
“existing dam or conduit” means any dam or con-
duit the construction of which was completed before
the date of the enactment of this section and which
does not require any construction or enlargement of
impoundment or diversion structures (other than re-
pair or reconstruction) in connection with the instal-
lation of a turbine or other generating device.

(3) CONDUIT.—The term “conduit” has the
same meaning as when used in section 30(a)(2) of
the Federal Power Act (16 U.S.C. 823a(a)(2)).

The terms defined in this subsection shall apply without
regard to the hydroelectric kilowatt capacity of the facility
concerned, without regard to whether the facility uses a
dam owned by a governmental or nongovernmental entity,
and without regard to whether the facility begins operation on or after the date of the enactment of this section.

(c) **Eligibility Window.**—Payments may be made under this section only for electric energy generated from a qualified hydroelectric facility which begins operation during the period of 10 fiscal years beginning with the first full fiscal year occurring after the date of enactment of this subtitle.

(d) **Incentive Period.**—A qualified hydroelectric facility may receive payments under this section for a period of 10 fiscal years (referred to in this section as the “incentive period”). Such period shall begin with the fiscal year in which electric energy generated from the facility is first eligible for such payments.

(e) **Amount of Payment.**—

(1) **In General.**—Payments made by the Secretary under this section to the owner or operator of a qualified hydroelectric facility shall be based on the number of kilowatt hours of hydroelectric energy generated by the facility during the incentive period. For any such facility, the amount of such payment shall be 1.8 cents per kilowatt hour (adjusted as provided in paragraph (2)), subject to the availability of appropriations under subsection (g), except
that no facility may receive more than $750,000 in
1 calendar year.

(2) ADJUSTMENTS.—The amount of the pay-
ment made to any person under this section as pro-
vided in paragraph (1) shall be adjusted for inflation
for each fiscal year beginning after calendar year
2005 in the same manner as provided in the provi-
sions of section 29(d)(2)(B) of the Internal Revenue
Code of 1986, except that in applying such provi-
sions the calendar year 2005 shall be substituted for
calendar year 1979.

(f) SUNSET.—No payment may be made under this
section to any qualified hydroelectric facility after the ex-
piration of the period of 20 fiscal years beginning with
the first full fiscal year occurring after the date of enact-
ment of this subtitle, and no payment may be made under
this section to any such facility after a payment has been
made with respect to such facility for a period of 10 fiscal
years.

(g) AUTHORIZATION OF APPROPRIATIONS.—There
are authorized to be appropriated to the Secretary to carry
out the purposes of this section $10,000,000 for each of
the fiscal years 2006 through 2015.
SEC. 242. HYDROELECTRIC EFFICIENCY IMPROVEMENT.

(a) INCENTIVE PAYMENTS.—The Secretary of Energy shall make incentive payments to the owners or operators of hydroelectric facilities at existing dams to be used to make capital improvements in the facilities that are directly related to improving the efficiency of such facilities by at least 3 percent.

(b) LIMITATIONS.—Incentive payments under this section shall not exceed 10 percent of the costs of the capital improvement concerned and not more than 1 payment may be made with respect to improvements at a single facility. No payment in excess of $750,000 may be made with respect to improvements at a single facility.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section not more than $10,000,000 for each of the fiscal years 2006 through 2015.

SEC. 243. SMALL HYDROELECTRIC POWER PROJECTS.

SEC. 244. INCREASED HYDROELECTRIC GENERATION AT EXISTING FEDERAL FACILITIES.

(a) IN GENERAL.—The Secretary of the Interior and the Secretary of Energy, in consultation with the Sec-
retary of the Army, shall jointly conduct a study of the
potential for increasing electric power production capa-
bility at federally owned or operated water regulation,
storage, and conveyance facilities.

(b) CONTENT.—The study under this section shall in-
clude identification and description in detail of each facili-
ty that is capable, with or without modification, of pro-
ducing additional hydroelectric power, including esti-
mation of the existing potential for the facility to generate
hydroelectric power.

(c) REPORT.—The Secretaries shall submit to the
Committees on Energy and Commerce, Resources, and
Transportation and Infrastructure of the House of Rep-
resentatives and the Committee on Energy and Natural
Resources of the Senate a report on the findings, conclu-
sions, and recommendations of the study under this sec-
tion by not later than 18 months after the date of the
enactment of this Act. The report shall include each of
the following:

(1) The identifications, descriptions, and esti-
mations referred to in subsection (b).

(2) A description of activities currently con-
ducted or considered, or that could be considered, to
produce additional hydroelectric power from each
identified facility.
(3) A summary of prior actions taken by the Secretaries to produce additional hydroelectric power from each identified facility.

(4) The costs to install, upgrade, or modify equipment or take other actions to produce additional hydroelectric power from each identified facility and the level of Federal power customer involvement in the determination of such costs.

(5) The benefits that would be achieved by such installation, upgrade, modification, or other action, including quantified estimates of any additional energy or capacity from each facility identified under subsection (b).

(6) A description of actions that are planned, underway, or might reasonably be considered to increase hydroelectric power production by replacing turbine runners, by performing generator upgrades or rewinds, or construction of pumped storage facilities.

(7) The impact of increased hydroelectric power production on irrigation, fish, wildlife, Indian tribes, river health, water quality, navigation, recreation, fishing, and flood control.

(8) Any additional recommendations to increase hydroelectric power production from, and reduce
costs and improve efficiency at, federally owned or
operated water regulation, storage, and conveyance
facilities.

SEC. 245. SHIFT OF PROJECT LOADS TO OFF-PEAK PERI-
ODS.

(a) In General.—The Secretary of the Interior
shall—

(1) review electric power consumption by Bu-
reau of Reclamation facilities for water pumping
purposes; and

(2) make such adjustments in such pumping as
possible to minimize the amount of electric power
consumed for such pumping during periods of peak
electric power consumption, including by performing
as much of such pumping as possible during off-
peak hours at night.

(b) Consent of Affected Irrigation Customers
Required.—The Secretary may not under this section
make any adjustment in pumping at a facility without the
consent of each person that has contracted with the
United States for delivery of water from the facility for
use for irrigation and that would be affected by such ad-
justment.

(c) Existing Obligations not Affected.—This
section shall not be construed to affect any existing obliga-
tion of the Secretary to provide electric power, water, or other benefits from Bureau of Reclamation facilities, including recreational releases.

**TITLE III—OIL AND GAS—COMMERC**

*Subtitle A—Petroleum Reserve and Home Heating Oil*

**SEC. 301. PERMANENT AUTHORITY TO OPERATE THE STRATEGIC PETROLEUM RESERVE AND OTHER ENERGY PROGRAMS.**

(a) Amendment to Title I of the Energy Policy and Conservation Act.—Title I of the Energy Policy and Conservation Act (42 U.S.C. 6211 et seq.) is amended—

(1) by striking section 166 (42 U.S.C. 6246) and inserting the following:

“AUTHORIZATION OF APPROPRIATIONS

“Sec. 166. There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this part and part D, to remain available until expended.”;

(2) by striking section 186 (42 U.S.C. 6250e);

and

(3) by striking part E (42 U.S.C. 6251; relating to the expiration of title I of the Act).
(b) Amendment to Title II of the Energy Policy and Conservation Act.—Title II of the Energy Policy and Conservation Act (42 U.S.C. 6271 et seq.) is amended—

(1) by inserting before section 273 (42 U.S.C. 6283) the following: "PART C—SUMMER FILL AND FUEL BUDGETING PROGRAMS";

(2) by striking section 273(e) (42 U.S.C. 6283(e); relating to the expiration of summer fill and fuel budgeting programs); and

(3) by striking part D (42 U.S.C. 6285; relating to the expiration of title II of the Act).

e) Technical Amendments.—The table of contents for the Energy Policy and Conservation Act is amended—

(1) by inserting after the items relating to part C of title I the following:

"PART D—NORTHEAST HOME HEATING OIL RESERVE"

"Sec. 181. Establishment.
"Sec. 182. Authority.
"Sec. 183. Conditions for release; plan.
"Sec. 185. Exemptions."

(2) by amending the items relating to part C of title II to read as follows:

"PART C—SUMMER FILL AND FUEL BUDGETING PROGRAMS"

"Sec. 273. Summer fill and fuel budgeting programs."
; and

(3) by striking the items relating to part D of title II.

(d) Amendment to the Energy Policy and Conservation Act.—Section 183(b)(1) of the Energy Policy and Conservation Act (42 U.S.C. 6250(b)(1)) is amended by striking all after “increases” through to “mid-October through March” and inserting “by more than 60 percent over its 5-year rolling average for the months of mid-October through March (considered as a heating season average)”.

(e) Fill Strategic Petroleum Reserve to Capacity.—The Secretary of Energy shall, as expeditiously as practicable, acquire petroleum in amounts sufficient to fill the Strategic Petroleum Reserve to the 1,000,000,000 barrel capacity authorized under section 154(a) of the Energy Policy and Conservation Act (42 U.S.C. 6234(a)), consistent with the provisions of sections 159 and 160 of such Act (42 U.S.C. 6239, 6240).

SEC. 302. NATIONAL OILHEAT RESEARCH ALLIANCE.

Section 713 of the Energy Act of 2000 (42 U.S.C. 6201 note) is amended by striking “4” and inserting “9”.

SEC. 303. SITE SELECTION.

Not later than 1 year after the date of enactment of this Act, the Secretary of Energy shall complete a pro-
ceeding to select, from sites that the Secretary has previously studied, sites necessary to enable acquisition by the Secretary of the full authorized volume of the Strategic Petroleum Reserve.

SEC. 304. SUSPENSION OF STRATEGIC PETROLEUM RESERVE DELIVERIES.

The Secretary of Energy shall suspend deliveries of royalty-in-kind oil to the Strategic Petroleum Reserve until the price of oil falls below $40 per barrel for 2 consecutive weeks on the New York Mercantile Exchange.

Subtitle B—Production Incentives

SEC. 320. LIQUEFACTION OR GASIFICATION NATURAL GAS TERMINALS.

(a) Scope of Natural Gas Act.—Section 1(b) of the Natural Gas Act (15 U.S.C. 717(b)) is amended by inserting “and to the importation or exportation of natural gas in foreign commerce and to persons engaged in such importation or exportation,” after “such transportation or sale,”.

(b) Definition.—Section 2 of the Natural Gas Act (15 U.S.C. 717a) is amended by adding at the end the following new paragraph:

“(11) ‘Liquefaction or gasification natural gas terminal’ includes all facilities located onshore or in State waters that are used to receive, unload, load,
store, transport, gasify, liquefy, or process natural
gas that is imported to the United States from a
foreign country, exported to a foreign country from
the United States, or transported in interstate com-
merce by waterborne tanker, but does not include—

“(A) waterborne tankers used to deliver
natural gas to or from any such facility; or

“(B) any pipeline or storage facility sub-
ject to the jurisdiction of the Commission under
section 7.”.

(c) AUTHORIZATION FOR CONSTRUCTION, EXPAN-
sion, OR OPERATION OF LIQUEFACTION OR GASIFI-
cATION NATURAL GAS TERMINALS.—(1) The title for sec-
tion 3 of the Natural Gas Act (15 U.S.C. 717b) is amend-
ed by inserting “; LIQUEFACTION OR GASIFICATION NAT-
URAL GAS TERMINALS” after “EXPORTATION OR IMPORTA-
tION OF NATURAL GAS”.

(2) Section 3 of the Natural Gas Act (15 U.S.C. 717b) is amended by adding at the end the following:

“(d) AUTHORIZATION FOR CONSTRUCTION, EXPAN-
sion, OR OPERATION OF LIQUEFACTION OR GASIFI-
cATION NATURAL GAS TERMINALS.—

“(1) COMMISSION AUTHORIZATION RE-
QUIRED.—No person shall construct, expand, or op-
erate a liquefaction or gasification natural gas ter-
minal without an order from the Commission au-

thorizing such person to do so.

“(2) AUTHORIZATION PROCEDURES.—

“(A) NOTICE AND HEARING.—Upon the

filing of any application to construct, expand,
or operate a liquefaction or gasification natural
gas terminal, the Commission shall—

“(i) set the matter for hearing;

“(ii) give reasonable notice of the

hearing to all interested persons, including

the State commission of the State in which

the liquefaction or gasification natural gas

terminal is located;

“(iii) decide the matter in accordance

with this subsection; and

“(iv) issue or deny the appropriate

order accordingly.

“(B) DESIGNATION AS LEAD AGENCY.—

“(i) IN GENERAL.—The Commission

shall act as the lead agency for the pur-

poses of coordinating all applicable Federal

authorizations and for the purposes of

complying with the National Environ-

mental Policy Act of 1969 (42 U.S.C.
4312 et seq.) for a liquefaction or gasification natural gas terminal.

“(ii) Other Agencies.—Each Federal agency considering an aspect of the construction, expansion, or operation of a liquefaction or gasification natural gas terminal shall cooperate with the Commission and comply with the deadlines established by the Commission.

“(C) Schedule.—

“(i) Commission Authority to Set Schedule.—The Commission shall establish a schedule for all Federal and State administrative proceedings required under authority of Federal law to construct, expand, or operate a liquefaction or gasification natural gas terminal. In establishing the schedule, the Commission shall—

“(I) ensure expeditious completion of all such proceedings; and

“(II) accommodate the applicable schedules established by Federal law for such proceedings.

“(ii) Failure to Meet Schedule.—

If a Federal or State administrative agency
does not complete a proceeding for an approval that is required before a person may construct, expand, or operate the liquefaction or gasification natural gas terminal, in accordance with the schedule established by the Commission under this subparagraph, and if—

“(I) a determination has been made by the Court pursuant to section 19(d) that such delay is unreasonable; and

“(II) the agency has failed to act on any remand by the Court within the deadline set by the Court, that approval may be conclusively presumed by the Commission.

“(D) EXCLUSIVE RECORD.—The Commission shall, with the cooperation of Federal and State administrative agencies and officials, maintain a complete consolidated record of all decisions made or actions taken by the Commission or by a Federal administrative agency or officer (or State administrative agency or officer acting under delegated Federal authority) with respect to the construction, expansion, or
operation of a liquefaction or gasification nat-
ural gas terminal. Such record shall be the ex-
clusive record for any Federal administrative
proceeding that is an appeal or review of any
such decision made or action taken.

“(E) STATE AND LOCAL SAFETY CONSID-
ERATIONS.—

“(i) IN GENERAL.—The Commission
shall consult with the State commission of
the State in which the liquefaction or gas-
ification natural gas terminal is located re-
garding State and local safety consider-
ations prior to issuing an order pursuant
to this subsection and consistent with the
schedule established under subparagraph
(C).

“(ii) STATE SAFETY INSPECTIONS.—
The State commission of the State in
which a liquefaction or gasification natural
gas terminal is located may, after the ter-
mal is operational, conduct safety inspec-
tions with respect to the liquefaction or
gasification natural gas terminal if—
“(I) the State commission provides written notice to the Commission of its intention to do so; and

“(II) the inspections will be carried out in conformance with Federal regulations and guidelines.

Enforcement of any safety violation discovered by a State commission pursuant to this clause shall be carried out by Federal officials. The Commission shall take appropriate action in response to a report of a violation not later than 90 days after receiving such report.

“(iii) State and local safety considerations.—For the purposes of this subparagraph, State and local safety considerations include—

“(I) the kind and use of the facility;

“(II) the existing and projected population and demographic characteristics of the location;

“(III) the existing and proposed land use near the location;
“(IV) the natural and physical aspects of the location;

“(V) the medical, law enforcement, and fire prevention capabilities near the location that can respond at the facility; and

“(VI) the feasibility of remote siting.

“(F) LIMITATION.—Subparagraph (C)(ii) shall not apply to any approval required to protect navigation, maritime safety, or maritime security.

“(3) ISSUANCE OF COMMISSION ORDER.—

“(A) IN GENERAL.—The Commission shall issue an order authorizing, in whole or in part, the construction, expansion, or operation covered by the application to any qualified applicant—

“(i) unless the Commission finds such actions or operations will not be consistent with the public interest; and

“(ii) if the Commission has found that the applicant is—
“(I) able and willing to carry out
the actions and operations proposed;
and

“(II) willing to conform to the
provisions of this Act and any require-
ments, rules, and regulations of the
Commission set forth under this Act.

“(B) TERMS AND CONDITIONS.—The Com-
mission may by its order grant an application,
in whole or in part, with such modification and
upon such terms and conditions as the Commis-

“(C) LIMITATIONS ON TERMS AND CONDI-
TIONS TO COMMISSION ORDER.—

“(i) IN GENERAL.—Any Commission
order issued pursuant to this subsection
before January 1, 2011, shall not be condi-
tioned on—

“(I) a requirement that the lique-
faction or gasification natural gas ter-

“(II) any regulation of the lique-
faction or gasification natural gas ter-
minal's rates, charges, terms, or conditions of service.

“(ii) INAPPLICABLE TO TERMINAL EXIT PIPELINE.—Clause (i) shall not apply to any pipeline subject to the jurisdiction of the Commission under section 7 exiting a liquefaction or gasification natural gas terminal.

“(iii) EXPANSION OF REGULATED TERMINAL.—An order issued under this paragraph that relates to an expansion of an existing liquefaction or gasification natural gas terminal, where any portion of the existing terminal continues to be subject to Commission regulation of rates, charges, terms, or conditions of service, may not result in—

“(I) subsidization of the expansion by regulated terminal users;

“(II) degradation of service to the regulated terminal users; or

“(III) undue discrimination against the regulated terminal users.
“(iv) EXPIRATION.—This subpara-
graph shall cease to have effect on Janu-
ary 1, 2021.

“(4) DEFINITION.—For the purposes of this
subsection, the term ‘Federal authorization’ means
any authorization required under Federal law in
order to construct, expand, or operate a liquefaction
or gasification natural gas terminal, including such
permits, special use authorizations, certifications,
opinions, or other approvals as may be required,
whether issued by a Federal or State agency.’’.

(d) JUDICIAL REVIEW.—Section 19 of the Natural
Gas Act (15 U.S.C. 717r) is amended by adding at the
end the following:

“(d) JUDICIAL REVIEW.—

“(1) IN GENERAL.—The United States Court of
Appeals for the District of Columbia Circuit shall
have original and exclusive jurisdiction over any civil
action—

“(A) for review of any order, action, or
failure to act of any Federal or State adminis-
trative agency to issue, condition, or deny any
permit, license, concurrence, or approval re-
quired under Federal law for the construction,
expansion, or operation of a liquefaction or gasification natural gas terminal;

“(B) alleging unreasonable delay, in meeting a schedule established under section 3(d)(2)(C) or otherwise, by any Federal or State administrative agency in entering an order or taking other action described in subparagraph (A); or

“(C) challenging any decision made or action taken by the Commission under section 3(d).

“(2) COMMISSION ACTION.—For any action described in this subsection, the Commission shall file with the Court the consolidated record maintained under section 3(d)(2)(D).

“(3) COURT ACTION.—If the Court finds under paragraph (1)(A) or (B) that an order, action, failure to act, or delay is inconsistent with applicable Federal law, and would prevent the construction, expansion, or operation of a liquefaction or gasification natural gas terminal, the order or action shall be deemed to have been issued or taken, subject to any conditions established by the Federal or State administrative agency upon remand from the Court, such conditions to be consistent with the order of
the Court. If the Court remands the order or action
to the Federal or State agency, the Court shall set
a reasonable deadline for the agency to act on re-
mand.

“(4) UNREASONABLE DELAY.—For the pur-
poses of paragraph (1)(B), the failure of an agency
to issue a permit, license, concurrence, or approval
within the later of—

“(A) 1 year after the date of filing of an
application for the permit, license, concurrence,
or approval; or

“(B) 60 days after the date of issuance of
the order under section 3(d),
shall be considered unreasonable delay unless the
Court, for good cause shown, determines otherwise.

“(5) EXPEDITED REVIEW.—The Court shall set
any action brought under this subsection for expe-
dited consideration.”.

SEC. 327. HYDRAULIC FRACTURING.

Paragraph (1) of section 1421(d) of the Safe Drink-
ing Water Act (42 U.S.C. 300h(d)) is amended to read
as follows:

“(1) UNDERGROUND INJECTION.—The term
‘underground injection’—
“(A) means the subsurface emplacement of fluids by well injection; and

“(B) excludes—

“(i) the underground injection of natural gas for purposes of storage; and

“(ii) the underground injection of fluids or propping agents pursuant to hydraulic fracturing operations related to oil or gas production activities.”.

SEC. 328. OIL AND GAS EXPLORATION AND PRODUCTION DEFINED.

Section 502 of the Federal Water Pollution Control Act (33 U.S.C. 1362) is amended by adding at the end the following:

“(24) OIL AND GAS EXPLORATION AND PRODUCTION.—The term ‘oil and gas exploration, production, processing, or treatment operations or transmission facilities’ means all field activities or operations associated with exploration, production, processing, or treatment operations, or transmission facilities, including activities necessary to prepare a site for drilling and for the movement and placement of drilling equipment, whether or not such field activities or operations may be considered to be construction activities.”.
SEC. 329. OUTER CONTINENTAL SHELF PROVISIONS.

(a) Storage on the Outer Continental Shelf.—Section 5(a)(5) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(5)) is amended by inserting “from any source” after “oil and gas”.

(b) Deepwater Projects.—Section 6 of the Deepwater Port Act of 1974 (33 U.S.C. 1505) is amended by adding at the end the following:

“(d) Reliance on Activities of Other Agencies.—In fulfilling the requirements of section 5(f)—

“(1) to the extent that other Federal agencies have prepared environmental impact statements, are conducting studies, or are monitoring the affected human, marine, or coastal environment, the Secretary may use the information derived from those activities in lieu of directly conducting such activities; and

“(2) the Secretary may use information obtained from any State or local government or from any person.”.

(c) Natural Gas Defined.—Section 3(13) of the Deepwater Port Act of 1974 (33 U.S.C. 1502(13)) is amended to read as follows:

“(13) natural gas means—

“(A) natural gas unmixed; or
“(B) any mixture of natural or artificial gas, including compressed or liquefied natural gas, natural gas liquids, liquefied petroleum gas, and condensate recovered from natural gas;”.

SEC. 330. APPEALS RELATING TO PIPELINE CONSTRUCTION OR OFFSHORE MINERAL DEVELOPMENT PROJECTS.

(a) AGENCY OF RECORD, PIPELINE CONSTRUCTION PROJECTS.—Any Federal administrative agency proceeding that is an appeal or review under section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465), as amended by this Act, related to Federal authority for an interstate natural gas pipeline construction project, including construction of natural gas storage and liquefied natural gas facilities, shall use as its exclusive record for all purposes the record compiled by the Federal Energy Regulatory Commission pursuant to the Commission’s proceeding under sections 3 and 7 of the Natural Gas Act (15 U.S.C. 717b, 717f).

(b) SENSE OF CONGRESS.—It is the sense of Congress that all Federal and State agencies with jurisdiction over interstate natural gas pipeline construction activities should coordinate their proceedings within the timeframes established by the Federal Energy Regulatory Commission.
when the Commission is acting under sections 3 and 7 of the Natural Gas Act (15 U.S.C. 717b, 717f) to determine whether a certificate of public convenience and necessity should be issued for a proposed interstate natural gas pipeline.

(c) AGENCY OF RECORD, OFFSHORE MINERAL DEVELOPMENT PROJECTS.—Any Federal administrative agency proceeding that is an appeal or review under section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465), as amended by this Act, related to Federal authority for the permitting, approval, or other authorization of energy projects, including projects to explore, develop, or produce mineral resources in or underlying the outer Continental Shelf shall use as its exclusive record for all purposes (except for the filing of pleadings) the record compiled by the relevant Federal permitting agency.

SEC. 333. NATURAL GAS MARKET TRANSPARENCY.

The Natural Gas Act (15 U.S.C 717 et seq.) is amended—

(1) by redesignating section 24 as section 25;

and

(2) by inserting after section 23 the following:
"SEC. 24. NATURAL GAS MARKET TRANSPARENCY.

(a) AUTHORIZATION.—(1) Not later than 180 days after the date of enactment of the Energy Policy Act of 2005, the Federal Energy Regulatory Commission shall issue rules directing all entities subject to the Commission’s jurisdiction as provided under this Act to timely report information about the availability and prices of natural gas sold at wholesale in interstate commerce to the Commission and price publishers.

(2) The Commission shall evaluate the data for adequate price transparency and accuracy.

(3) Rules issued under this subsection requiring the reporting of information to the Commission that may become publicly available shall be limited to aggregate data and transaction-specific data that are otherwise required by the Commission to be made public.

(4) In exercising its authority under this section, the Commission shall not—

(A) compete with, or displace from the market place, any price publisher; or

(B) regulate price publishers or impose any requirements on the publication of information.

(b) TIMELY ENFORCEMENT.—No person shall be subject to any penalty under this section with respect to a violation occurring more than 3 years before the date
on which the Federal Energy Regulatory Commission seeks to assess a penalty.

“(c) LIMITATION ON COMMISSION AUTHORITY.—(1) The Commission shall not condition access to interstate pipeline transportation upon the reporting requirements authorized under this section.

“(2) Natural gas sales by a producer that are attributable to volumes of natural gas produced by such producer shall not be subject to the rules issued pursuant to this section.

“(3) The Commission shall not require natural gas producers, processors, or users who have a de minimis market presence to participate in the reporting requirements provided in this section.”.

Subtitle C—Access to Federal Land

SEC. 344. CONSULTATION REGARDING OIL AND GAS LEASING ON PUBLIC LAND.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall enter into a memorandum of understanding regarding oil and gas leasing on—

(1) public lands under the jurisdiction of the Secretary of the Interior; and
(2) National Forest System lands under the jurisdiction of the Secretary of Agriculture.

(b) CONTENTS.—The memorandum of understanding shall include provisions that—

(1) establish administrative procedures and lines of authority that ensure timely processing of oil and gas lease applications, surface use plans of operation, and applications for permits to drill, including steps for processing surface use plans and applications for permits to drill consistent with the timelines established by the amendment made by section 348;

(2) eliminate duplication of effort by providing for coordination of planning and environmental compliance efforts; and

(3) ensure that lease stipulations are—

(A) applied consistently;

(B) coordinated between agencies; and

(C) only as restrictive as necessary to protect the resource for which the stipulations are applied.

(c) DATA RETRIEVAL SYSTEM.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall
establish a joint data retrieval system that is capable of—

(A) tracking applications and formal requests made in accordance with procedures of the Federal onshore oil and gas leasing program; and

(B) providing information regarding the status of the applications and requests within the Department of the Interior and the Department of Agriculture.

(2) Resource Mapping.—Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish a joint Geographic Information System mapping system for use in—

(A) tracking surface resource values to aid in resource management; and

(B) processing surface use plans of operation and applications for permits to drill.

SEC. 346. COMPLIANCE WITH EXECUTIVE ORDER 13211; ACTIONS CONCERNING REGULATIONS THAT SIGNIFICANTLY AFFECT ENERGY SUPPLY, DISTRIBUTION, OR USE.

(a) Requirement.—The head of each Federal agency shall require that before the Federal agency takes any
action that could have a significant adverse effect on the
supply of domestic energy resources from Federal public
land, the Federal agency taking the action shall comply
with Executive Order No. 13211 (42 U.S.C. 13201 note).
(b) GUIDANCE.—Not later than 180 days after the
date of enactment of this Act, the Secretary of Energy
shall publish guidance for purposes of this section describ-
ing what constitutes a significant adverse effect on the
supply of domestic energy resources under Executive
Order No. 13211 (42 U.S.C. 13201 note).
(c) MEMORANDUM OF UNDERSTANDING.—The Sec-
retary of the Interior and the Secretary of Agriculture
shall include in the memorandum of understanding under
section 344 provisions for implementing subsection (a) of
this section.
SEC. 355. ENCOURAGING GREAT LAKES OIL AND GAS
DRILLING BAN.
Congress encourages no Federal or State permit or
lease to be issued for new oil and gas slant, directional,
or offshore drilling in or under one or more of the Great
Lakes.
SEC. 358. FEDERAL COALBED METHANE REGULATION.
Any State currently on the list of Affected States es-
tablished under section 1339(b) of the Energy Policy Act
of 1992 (42 U.S.C. 13368(b)) shall be removed from the
list if, not later than 3 years after the date of enactment
of this Act, the State takes, or prior to the date of enact-
ment has taken, any of the actions required for removal
from the list under such section 1339(b).

Subtitle D—Refining Revitalization

SEC. 371. SHORT TITLE.

This subtitle may be cited as the “United States Re-
finery Revitalization Act of 2005”.

SEC. 372. FINDINGS.

Congress finds the following:

(1) It serves the national interest to increase
petroleum refining capacity for gasoline, heating oil,
diesel fuel, jet fuel, kerosene, and petrochemical
feedstocks wherever located within the United
States, to bring more supply to the markets for use
by the American people. Nearly 50 percent of the
petroleum in the United States is used for the pro-
duction of gasoline. Refined petroleum products have
a significant impact on interstate commerce.

(2) United States demand for refined petroleum
products currently exceeds the country’s petroleum
refining capacity to produce such products. By
2025, United States gasoline consumption is pro-
jected to rise from 8,900,000 barrels per day to
12,900,000 barrels per day. Diesel fuel and home
heating oil are becoming larger components of an increasing demand for refined petroleum supply. With the increase in air travel, jet fuel consumption is projected to be 789,000 barrels per day higher in 2025 than today.

(3) The petroleum refining industry is operating at 95 percent of capacity. The United States is currently importing 5 percent of its refined petroleum products and because of the stringent United States gasoline and diesel fuel specifications, few foreign refiners can produce the clean fuels required in the United States and the number of foreign suppliers that can produce United States quality gasoline is decreasing.

(4) Refiners are subject to significant environmental and other regulations and face several new Clean Air Act requirements over the next decade. New Clean Air Act requirements will benefit the environment but will also require substantial capital investment and additional government permits.

(5) No new refinery has been built in the United States since 1976 and many smaller domestic refineries have become idle since the removal of the Domestic Crude Oil Allocation Program and because of regulatory uncertainty and generally low re-
turns on capital employed. Today, the United States has 149 refineries, down from 324 in 1981. Restoration of recently idled refineries alone would amount to 483,570 barrels a day in additional capacity, or approximately 3.3 percent of the total operating capacity.

(6) Refiners have met growing demand by increasing the use of existing equipment and increasing the efficiency and capacity of existing plants. But refining capacity has begun to lag behind peak summer demand.

(7) Heavy industry and manufacturing jobs have closed or relocated due to barriers to investment, burdensome regulation, and high costs of operation, among other reasons.

(8) Because the production and disruption in supply of refined petroleum products has a significant impact on interstate commerce, it serves the national interest to increase the domestic refining operating capacity.

(10) More regulatory certainty for refinery owners is needed to stimulate investment in increased refinery capacity and required procedures for Federal, State, and local regulatory approvals need to be streamlined to ensure that increased refinery capaci-
ity can be developed and operated in a safe, timely, and cost-effective manner.

(11) The proposed Yuma Arizona Refinery, a grassroots refinery facility, which only recently received its Federal air quality permit after 5 years under the current regulatory process, and is just now beginning its environmental impact statement and local permitting process, serves as an example of the obstacles a refiner would have to overcome to reopen an idle refinery.

SEC. 373. PURPOSE.
The purpose of this subtitle is to encourage the expansion of the United States refining capacity by providing an accelerated review and approval process of all regulatory approvals for certain idle refineries and lending corresponding legal and technical assistance to States with resources that may be inadequate to meet such permit review demands.

SEC. 374. DESIGNATION OF REFINERY REVITALIZATION ZONES.
Not later than 90 days after the date of enactment of this Act, the Secretary shall designate as a Refinery Revitalization Zone any area—

(1) that—
(A) has experienced mass layoffs at manufacturing facilities, as determined by the Secretary of Labor; or

(B) contains an idle refinery; and

(2) that has an unemployment rate that exceeds the national average by at least 10 percent of the national average, as set by the Department of Labor, Bureau of Labor Statistics, at the time of the designation as a Refinery Revitalization Zone.

SEC. 375. MEMORANDUM OF UNDERSTANDING.

(a) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary shall enter into a memorandum of understanding with the Administrator for the purposes of this subtitle. The Secretary and the Administrator shall each designate a senior official responsible for, and dedicate sufficient other staff and resources to ensure, full implementation of the purposes of this subtitle and any regulations enacted pursuant to this subtitle.

(b) ADDITIONAL SIGNATORIES.—The Governor of any State, and the appropriate representative of any Indian Tribe, with jurisdiction over a Refinery Revitalization Zone, as designated by the Secretary pursuant to section 374, may be signatories to the memorandum of understanding under this section.
SEC. 376. STATE ENVIRONMENTAL PERMITTING ASSISTANCE.

Not later than 30 days after a Revitalization Program Qualifying State becomes a signatory to the memorandum of understanding under section 375(b)—

(1) the Secretary shall designate one or more employees of the Department with expertise relating to the siting and operation of refineries to provide legal and technical assistance to that Revitalization Program Qualifying State; and

(2) the Administrator shall designate, to provide legal and technical assistance for that Revitalization Program Qualifying State, one or more employees of the Environmental Protection Agency with expertise on regulatory issues, relating to the siting and operation of refineries, with respect to each of—

(A) the Clean Air Act (42 U.S.C. 7401 et seq.);

(B) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

(C) the Safe Drinking Water Act (42 U.S.C. 300f et seq.);

(D) the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).
(E) the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.);
(F) the Toxic Substances Control Act (15 U.S.C. 2601 et seq.);
(G) the National Historic Preservation Act (16 U.S.C. 470 et seq.); and
(H) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

SEC. 377. COORDINATION AND EXPEDITIOUS REVIEW OF PERMITTING PROCESS.

(a) DEPARTMENT OF ENERGY AS LEAD AGENCY.—
Upon written request of a prospective applicant for Federal authorization for a refinery facility in a Refinery Revitalization Zone, the Department shall act as the lead Federal agency for the purposes of coordinating all applicable Federal authorizations and environmental reviews of the refining facility. To the maximum extent practicable under applicable Federal law, the Secretary shall coordinate this Federal authorization and review process with any Indian Tribes and State and local agencies responsible for conducting any separate permitting and environmental reviews of the refining facility.

(b) SCHEDULE.—
(1) IN GENERAL.—The Secretary, in coordination with the agencies with authority over Federal
authorizations and, as appropriate, with Indian
Tribes and State and local agencies that are willing
to coordinate their separate permitting and environ-
mental reviews with the Federal authorizations and
environmental reviews, shall establish a schedule
with prompt and binding intermediate and ultimate
deadlines for the review of, and Federal authoriza-
tion decisions relating to, refinery facility siting and
operation.

(2) Preapplication process.—Prior to estab-
lishing the schedule, the Secretary shall provide an
expeditious preapplication mechanism for applicants
to confer with the agencies involved and to have
each agency communicate to the prospective appli-
cant within 60 days concerning—

(A) the likelihood of approval for a poten-
tial refinery facility; and

(B) key issues of concern to the agencies
and local community.

(3) Schedule.—The Secretary shall consider
the preapplication findings under paragraph (2) in
setting the schedule and shall ensure that once an
application has been submitted with such informa-
tion as the Secretary considers necessary, all permit
decisions and related environmental reviews under
all applicable Federal laws shall be completed within
6 months or, where circumstances require otherwise,
as soon as thereafter practicable.

(c) **CONSOLIDATED ENVIRONMENTAL REVIEW.**—

(1) **LEAD AGENCY.**—In carrying out its role as
the lead Federal agency for environmental review,
the Department shall coordinate all applicable Fed-
eral actions for complying with the National Envi-
seq.) and shall be responsible for preparing any envi-
ronmental impact statement required by section
102(2)(C) of that Act (42 U.S.C. 4332(2)(C)) or
such other form of environmental review as is re-
quired.

(2) **CONSOLIDATION OF STATEMENTS.**—In car-
rying out paragraph (1), if the Department deter-
mines an environmental impact statement is re-
quired, the Department shall prepare a single envi-
ronmental impact statement, which shall consolidate
the environmental reviews of all Federal agencies
considering any aspect of the project covered by the
environmental impact statement.

(d) **OTHER AGENCIES.**—Each Federal agency consid-
ering an aspect of the siting or operation of a refinery
facility in a Refinery Revitalization Zone shall cooperate
with the Department and comply with the deadlines established by the Department in the preparation of any environmental impact statement or such other form of review as is required.

(e) EXCLUSIVE RECORD.—The Department shall, with the cooperation of Federal and State administrative agencies and officials, maintain a complete consolidated record of all decisions made or actions taken by the Department or by a Federal administrative agency or officer (or State administrative agency or officer acting under delegated Federal authority) with respect to the siting or operation of a refinery facility in a Refinery Revitalization Zone. Such record shall be the exclusive record for any Federal administrative proceeding that is an appeal or review of any such decision made or action taken.

(f) APPEALS.—In the event any agency has denied a Federal authorization required for a refinery facility in a Refinery Revitalization Zone, or has failed to act by a deadline established by the Secretary pursuant to subsection (b) for deciding whether to issue the Federal authorization, the applicant or any State in which the refinery facility would be located may file an appeal with the Secretary. Based on the record maintained under subsection (e), and in consultation with the affected agency, the Secretary may then either issue the necessary Federal
authorization with appropriate conditions, or deny the appeal. The Secretary shall issue a decision within 60 days after the filing of the appeal. In making a decision under this subsection, the Secretary shall comply with applicable requirements of Federal law, including each of the laws referred to in section 376(2)(A) through (H). Any judicial appeal of the Secretary’s decision shall be to the United States Court of Appeals for the District of Columbia.

(g) CONFORMING REGULATIONS.—Not later than 6 months after the date of enactment of this Act, the Secretary shall issue any regulations necessary to implement this subtitle.

SEC. 378. COMPLIANCE WITH ALL ENVIRONMENTAL REGULATIONS REQUIRED.

Nothing in this subtitle shall be construed to waive the applicability of environmental laws and regulations to any refinery facility.

SEC. 379. DEFINITIONS.

For the purposes of this subtitle, the term—

(1) “Administrator” means the Administrator of the Environmental Protection Agency;

(2) “Department” means the Department of Energy;

(3) “Federal authorization” means any authorization required under Federal law (including the
Clean Air Act, the Federal Water Pollution Control Act, the Safe Drinking Water Act, the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, the Solid Waste Disposal Act, the Toxic Substances Control Act, the National Historic Preservation Act, and the National Environmental Policy Act of 1969) in order to site, construct, upgrade, or operate a refinery facility within a Refinery Revitalization Zone, including such permits, special use authorizations, certifications, opinions, or other approvals as may be required, whether issued by a Federal, State, or local agency;

(4) “idle refinery” means any real property site that has been used at any time for a refinery facility since December 31, 1979, that has not been in operation after April 1, 2005;

(5) “refinery facility” means any facility designed and operated to receive, unload, store, process and refine raw crude oil by any chemical or physical process, including distillation, fluid catalytic cracking, hydrocracking, coking, alkylation, etherification, polymerization, catalytic reforming, isomerization, hydrotreating, blending, and any combination thereof;
(6) “Revitalization Program Qualifying State” means a State or Indian Tribe that—

(A) has entered into the memorandum of understanding pursuant to section 375(b); and

(B) has established a refining infrastructure coordination office that the Secretary finds will facilitate Federal-State cooperation for the purposes of this subtitle; and

(7) “Secretary” means the Secretary of Energy.

TITLE IV—COAL
Subtitle A—Clean Coal Power Initiative

SEC. 401. AUTHORIZATION OF APPROPRIATIONS.

(a) Clean Coal Power Initiative.—There are authorized to be appropriated to the Secretary of Energy (referred to in this title as the “Secretary”) to carry out the activities authorized by this subtitle $200,000,000 for each of fiscal years 2006 through 2014, to remain available until expended.

(b) Report.—The Secretary shall submit to Congress the report required by this subsection not later than March 31, 2007. The report shall include, with respect to subsection (a), a 10-year plan containing—
(1) a detailed assessment of whether the aggregate funding levels provided under subsection (a) are the appropriate funding levels for that program;

(2) a detailed description of how proposals will be solicited and evaluated, including a list of all activities expected to be undertaken;

(3) a detailed list of technical milestones for each coal and related technology that will be pursued; and

(4) a detailed description of how the program will avoid problems enumerated in General Accounting Office reports on the Clean Coal Technology Program, including problems that have resulted in unspent funds and projects that failed either financially or scientifically.

SEC. 402. PROJECT CRITERIA.

(a) IN GENERAL.—The Secretary shall not provide funding under this subtitle for any project that does not advance efficiency, environmental performance, and cost competitiveness well beyond the level of technologies that are in commercial service or have been demonstrated on a scale that the Secretary determines is sufficient to demonstrate that commercial service is viable as of the date of enactment of this Act.
(b) TECHNICAL CRITERIA FOR CLEAN COAL POWER INITIATIVE.—

(1) GASIFICATION PROJECTS.—

(A) IN GENERAL.—In allocating the funds made available under section 401(a), the Secretary shall ensure that at least 60 percent of the funds are used only for projects on coal-based gasification technologies, including gasification combined cycle, gasification fuel cells, gasification coproduction, and hybrid gasification/combustion.

(B) TECHNICAL MILESTONES.—The Secretary shall periodically set technical milestones specifying the emission and thermal efficiency levels that coal gasification projects under this subtitle shall be designed, and reasonably expected, to achieve. The technical milestones shall become more restrictive during the life of the program. The Secretary shall set the periodic milestones so as to achieve by 2020 coal gasification projects able—

(i) to remove 99 percent of sulfur dioxide;

(ii) to emit not more than .05 lbs of NOx per million Btu;
(iii) to achieve substantial reductions in mercury emissions; and

(iv) to achieve a thermal efficiency of—

(I) 60 percent for coal of more than 9,000 Btu;

(II) 59 percent for coal of 7,000 to 9,000 Btu; and

(III) 50 percent for coal of less than 7,000 Btu.

(2) OTHER PROJECTS.—The Secretary shall periodically set technical milestones and ensure that up to 40 percent of the funds appropriated pursuant to section 401(a) are used for projects not described in paragraph (1). The milestones shall specify the emission and thermal efficiency levels that projects funded under this paragraph shall be designed to and reasonably expected to achieve. The technical milestones shall become more restrictive during the life of the program. The Secretary shall set the periodic milestones so as to achieve by 2010 projects able—

(A) to remove 97 percent of sulfur dioxide;

(B) to emit no more than .08 lbs of NO\textsubscript{x} per million Btu;
(C) to achieve substantial reductions in mercury emissions; and
(D) to achieve a thermal efficiency of—
   (i) 45 percent for coal of more than 9,000 Btu;
   (ii) 44 percent for coal of 7,000 to 9,000 Btu; and
   (iii) 40 percent for coal of less than 7,000 Btu.

(3) CONSULTATION.—Before setting the technical milestones under paragraphs (1)(B) and (2), the Secretary shall consult with the Administrator of the Environmental Protection Agency and interested entities, including coal producers, industries using coal, organizations to promote coal or advanced coal technologies, environmental organizations, and organizations representing workers.

(4) EXISTING UNITS.—In the case of projects at units in existence on the date of enactment of this Act, in lieu of the thermal efficiency requirements set forth in paragraph (1)(B)(iv) and (2)(D), the milestones shall be designed to achieve an overall thermal design efficiency improvement, compared to the efficiency of the unit as operated, of not less than—
(A) 7 percent for coal of more than 9,000 Btu;

(B) 6 percent for coal of 7,000 to 9,000 Btu; or

(C) 4 percent for coal of less than 7,000 Btu.

(5) PERMITTED USES.—In carrying out this subtitle, the Secretary may fund projects that include, as part of the project, the separation and capture of carbon dioxide. The thermal efficiency goals of paragraphs (1), (2), and (4) shall not apply for projects that separate and capture at least 50 percent of the facility’s potential emissions of carbon dioxide.

(c) FINANCIAL CRITERIA.—The Secretary shall not provide a funding award under this subtitle unless the recipient documents to the satisfaction of the Secretary that—

(1) the award recipient is financially viable without the receipt of additional Federal funding;

(2) the recipient will provide sufficient information to the Secretary to enable the Secretary to ensure that the award funds are spent efficiently and effectively; and
(3) a market exists for the technology being demonstrated or applied, as evidenced by statements of interest in writing from potential purchasers of the technology.

(d) FINANCIAL ASSISTANCE.—The Secretary shall provide financial assistance to projects that meet the requirements of subsections (a), (b), and (e) and are likely to—

(1) achieve overall cost reductions in the utilization of coal to generate useful forms of energy;

(2) improve the competitiveness of coal among various forms of energy in order to maintain a diversity of fuel choices in the United States to meet electricity generation requirements; and

(3) demonstrate methods and equipment that are applicable to 25 percent of the electricity generating facilities, using various types of coal, that use coal as the primary feedstock as of the date of enactment of this Act.

(e) FEDERAL SHARE.—The Federal share of the cost of a coal or related technology project funded by the Secretary under this subtitle shall not exceed 50 percent.

(f) APPLICABILITY.—No technology, or level of emission reduction, shall be treated as adequately demonstrated for purposes of section 111 of the Clean Air Act.
(42 U.S.C. 7411), achievable for purposes of section 169 of that Act (42 U.S.C. 7479), or achievable in practice for purposes of section 171 of that Act (42 U.S.C. 7501) solely by reason of the use of such technology, or the achievement of such emission reduction, by 1 or more facilities receiving assistance under this subtitle.

SEC. 403. REPORT.

Not later than 1 year after the date of enactment of this Act, and once every 2 years thereafter through 2014, the Secretary, in consultation with other appropriate Federal agencies, shall submit to Congress a report describing—

(1) the technical milestones set forth in section 402 and how those milestones ensure progress toward meeting the requirements of subsections (b)(1)(B) and (b)(2) of section 402; and

(2) the status of projects funded under this subtitle.

SEC. 404. CLEAN COAL CENTERS OF EXCELLENCE.

As part of the program authorized in section 401, the Secretary shall award competitive, merit-based grants to universities for the establishment of Centers of Excellence for Energy Systems of the Future. The Secretary shall provide grants to universities that show the greatest potential for advancing new clean coal technologies.
Subtitle B—Clean Power Projects

SEC. 411. COAL TECHNOLOGY LOAN.

There are authorized to be appropriated to the Secretary $125,000,000 to provide a loan to the owner of the experimental plant constructed under United States Department of Energy cooperative agreement number DE-FC-22-91PC90544 on such terms and conditions as the Secretary determines, including interest rates and upfront payments.

SEC. 412. COAL GASIFICATION.

The Secretary is authorized to provide loan guarantees for a project to produce energy from a plant using integrated gasification combined cycle technology of at least 400 megawatts in capacity that produces power at competitive rates in deregulated energy generation markets and that does not receive any subsidy (direct or indirect) from ratepayers.

SEC. 414. PETROLEUM COKE GASIFICATION.

The Secretary is authorized to provide loan guarantees for at least 5 petroleum coke gasification projects.

SEC. 416. ELECTRON SCRUBBING DEMONSTRATION.

The Secretary shall use $5,000,000 from amounts appropriated to initiate, through the Chicago Operations Office, a project to demonstrate the viability of high-en-
energy electron scrubbing technology on commercial-scale electrical generation using high-sulfur coal.

Subtitle D—Coal and Related Programs

SEC. 441. CLEAN AIR COAL PROGRAM.

(a) Amendment.—The Energy Policy Act of 1992 is amended by adding the following new title at the end thereof:

“TITLE XXXI—CLEAN AIR COAL PROGRAM

“SEC. 3101. FINDINGS; PURPOSES; DEFINITIONS.

“(a) FINDINGS.—The Congress finds that—

“(1) new environmental regulations present additional challenges for coal-fired electrical generation in the private marketplace; and

“(2) the Department of Energy, in cooperation with industry, has already fully developed and commercialized several new clean-coal technologies that will allow the clean use of coal.

“(b) PURPOSES.—The purposes of this title are to—

“(1) promote national energy policy and energy security, diversity, and economic competitiveness benefits that result from the increased use of coal;
“(2) mitigate financial risks, reduce the cost, and increase the marketplace acceptance of the new clean coal technologies; and

“(3) advance the deployment of pollution control equipment to meet the current and future obligations of coal-fired generation units regulated under the Clean Air Act (42 U.S.C. 7402 and following).

“SEC. 3102. AUTHORIZATION OF PROGRAM.

“The Secretary shall carry out a program to facilitate production and generation of coal-based power and the installation of pollution control equipment.

“SEC. 3103. AUTHORIZATION OF APPROPRIATIONS.

“(a) POLLUTION CONTROL PROJECTS.—There are authorized to be appropriated to the Secretary $300,000,000 for fiscal year 2006, $100,000,000 for fiscal year 2007, $40,000,000 for fiscal year 2008, $30,000,000 for fiscal year 2009, and $30,000,000 for fiscal year 2010, to remain available until expended, for carrying out the program for pollution control projects, which may include—

“(1) pollution control equipment and processes for the control of mercury air emissions;
“(2) pollution control equipment and processes for the control of nitrogen dioxide air emissions or sulfur dioxide emissions;

“(3) pollution control equipment and processes for the mitigation or collection of more than one pollutant;

“(4) advanced combustion technology for the control of at least two pollutants, including mercury, particulate matter, nitrogen oxides, and sulfur dioxide, which may also be designed to improve the energy efficiency of the unit; and

“(5) advanced pollution control equipment and processes designed to allow use of the waste byproducts or other byproducts of the equipment or an electrical generation unit designed to allow the use of byproducts.

Funds appropriated under this subsection which are not awarded before fiscal year 2012 may be applied to projects under subsection (b), in addition to amounts authorized under subsection (b).

“(b) GENERATION PROJECTS.—There are authorized to be appropriated to the Secretary $250,000,000 for fiscal year 2007, $350,000,000 for fiscal year 2008, $400,000,000 for fiscal year 2009, $400,000,000 for fiscal year 2010, $400,000,000 for fiscal year 2011,
$400,000,000 for fiscal year 2012, and $300,000,000 for fiscal year 2013, to remain available until expended, for generation projects and air pollution control projects. Such projects may include—

“(1) coal-based electrical generation equipment and processes, including gasification combined cycle or other coal-based generation equipment and processes;

“(2) associated environmental control equipment, that will be cost-effective and that is designed to meet anticipated regulatory requirements;

“(3) coal-based electrical generation equipment and processes, including gasification fuel cells, gasification coproduction, and hybrid gasification/combustion projects; and

“(4) advanced coal-based electrical generation equipment and processes, including oxidation combustion techniques, ultra-supercritical boilers, and chemical looping, which the Secretary determines will be cost-effective and could substantially contribute to meeting anticipated environmental or energy needs.

“(e) LIMITATION.—Funds placed at risk during any fiscal year for Federal loans or loan guarantees pursuant
to this title may not exceed 30 percent of the total funds obligated under this title.

“SEC. 3104. AIR POLLUTION CONTROL PROJECT CRITERIA.

“The Secretary shall pursuant to authorizations contained in section 3103 provide funding for air pollution control projects designed to facilitate compliance with Federal and State environmental regulations, including any regulation that may be established with respect to mercury.

“SEC. 3105. CRITERIA FOR GENERATION PROJECTS.

“(a) CRITERIA.—The Secretary shall establish criteria on which selection of individual projects described in section 3103(b) should be based. The Secretary may modify the criteria as appropriate to reflect improvements in equipment, except that the criteria shall not be modified to be less stringent. These selection criteria shall include—

“(1) prioritization of projects whose installation is likely to result in significant air quality improvements in nonattainment air quality areas;

“(2) prioritization of projects that result in the repowering or replacement of older, less efficient units;

“(3) documented broad interest in the procurement of the equipment and utilization of the proc-
esses used in the projects by electrical generator owners or operators;

“(4) equipment and processes beginning in 2006 through 2011 that are projected to achieve an thermal efficiency of—

“(A) 40 percent for coal of more than 9,000 Btu per pound based on higher heating values;

“(B) 38 percent for coal of 7,000 to 9,000 Btu per pound based on higher heating values; and

“(C) 36 percent for coal of less than 7,000 Btu per pound based on higher heating values, except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph; and

“(5) equipment and processes beginning in 2012 and 2013 that are projected to achieve an thermal efficiency of—

“(A) 45 percent for coal of more than 9,000 Btu per pound based on higher heating values;

“(B) 44 percent for coal of 7,000 to 9,000 Btu per pound based on higher heating values; and
“(C) 40 percent for coal of less than 7,000 Btu per pound based on higher heating values, except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph.

“(b) SELECTION.—(1) In selecting the projects, up to 25 percent of the projects selected may be either coproduction or cogeneration or other gasification projects, but at least 25 percent of the projects shall be for the sole purpose of electrical generation, and priority should be given to equipment and projects less than 600 MW to foster and promote standard designs.

“(2) The Secretary shall give priority to projects that have been developed and demonstrated that are not yet cost competitive, and for coal energy generation projects that advance efficiency, environmental performance, or cost competitiveness significantly beyond the level of pollution control equipment that is in operation on a full scale.

“SEC. 3106. FINANCIAL CRITERIA.

“(a) IN GENERAL.—The Secretary shall only provide financial assistance to projects that meet the requirements of sections 3103 and 3104 and are likely to—

“(1) achieve overall cost reductions in the utilization of coal to generate useful forms of energy; and
“(2) improve the competitiveness of coal in order to maintain a diversity of domestic fuel choices in the United States to meet electricity generation requirements.

“(b) CONDITIONS.—The Secretary shall not provide a funding award under this title unless—

“(1) the award recipient is financially viable without the receipt of additional Federal funding; and

“(2) the recipient provides sufficient information to the Secretary for the Secretary to ensure that the award funds are spent efficiently and effectively.

“(c) EQUAL ACCESS.—The Secretary shall, to the extent practical, utilize cooperative agreement, loan guarantee, and direct Federal loan mechanisms designed to ensure that all electrical generation owners have equal access to these technology deployment incentives. The Secretary shall develop and direct a competitive solicitation process for the selection of technologies and projects under this title.

“SEC. 3107. FEDERAL SHARE.

“The Federal share of the cost of a coal or related technology project funded by the Secretary under this title
shall not exceed 50 percent. For purposes of this title, Federal funding includes only appropriated funds.

"SEC. 3108. APPLICABILITY.

“No technology, or level of emission reduction, shall be treated as adequately demonstrated for purposes of section 111 of the Clean Air Act (42 U.S.C. 7411), achievable for purposes of section 169 of the Clean Air Act (42 U.S.C. 7479), or achievable in practice for purposes of section 171 of the Clean Air Act (42 U.S.C. 7501) solely by reason of the use of such technology, or the achievement of such emission reduction, by one or more facilities receiving assistance under this title.”

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy Act of 1992 is amended by adding at the end the following:

"TITLE XXXI—CLEAN AIR COAL PROGRAM"

"Sec. 3101. Findings; purposes; definitions.
"Sec. 3102. Authorization of program.
"Sec. 3103. Authorization of appropriations.
"Sec. 3104. Air pollution control project criteria.
"Sec. 3105. Criteria for generation projects.
"Sec. 3106. Financial criteria.
"Sec. 3107. Federal share.
"Sec. 3108. Applicability.

"TITLE V—INDIAN ENERGY"

SEC. 501. SHORT TITLE.

This title may be cited as the “Indian Tribal Energy Development and Self-Determination Act of 2005”.

•HR 6 IH
SEC. 502. OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS.

(a) IN GENERAL.—Title II of the Department of Energy Organization Act (42 U.S.C. 7131 et seq.) is amended by adding at the end the following:

''OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS

Sec. 217.

(a) ESTABLISHMENT.—There is established within the Department an Office of Indian Energy Policy and Programs (referred to in this section as the ‘Office’). The Office shall be headed by a Director, who shall be appointed by the Secretary and compensated at a rate equal to that of level IV of the Executive Schedule under section 5315 of title 5, United States Code.

(b) DUTIES OF DIRECTOR.—The Director, in accordance with Federal policies promoting Indian self-determination and the purposes of this Act, shall provide, direct, foster, coordinate, and implement energy planning, education, management, conservation, and delivery programs of the Department that—

(1) promote Indian tribal energy development, efficiency, and use;

(2) reduce or stabilize energy costs;

(3) enhance and strengthen Indian tribal energy and economic infrastructure relating to natural resource development and electrification; and
“(4) bring electrical power and service to Indian land and the homes of tribal members located on Indian lands or acquired, constructed, or improved (in whole or in part) with Federal funds.”.

(b) CONFORMING AMENDMENTS.—

(1) The table of contents of the Department of Energy Organization Act (42 U.S.C. prec. 7101) is amended—

(A) in the item relating to section 209, by striking “Section” and inserting “Sec.”; and

(B) by striking the items relating to sections 213 through 216 and inserting the following:

“Sec. 213. Establishment of policy for National Nuclear Security Administration.

“Sec. 214. Establishment of security, counterintelligence, and intelligence policies.

“Sec. 216. Office of Intelligence.

“Sec. 217. Office of Indian Energy Policy and Programs.”.

(2) Section 5315 of title 5, United States Code, is amended by inserting after the item related to the Inspector General, Department of Energy the following new item:

“Director, Office of Indian Energy Policy and Programs, Department of Energy.”.

•HR 6 IH
SEC. 503. INDIAN ENERGY.

(a) IN GENERAL.—Title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et seq.) is amended to read as follows:

“TITLE XXVI—INDIAN ENERGY RESOURCES

“SEC. 2601. DEFINITIONS.

“For purposes of this title:

“(1) The term ‘Director’ means the Director of the Office of Indian Energy Policy and Programs, Department of Energy.

“(2) The term ‘Indian land’ means—

“(A) any land located within the boundaries of an Indian reservation, pueblo, or rancheria; and

“(B) any land not located within the boundaries of an Indian reservation, pueblo, or rancheria, the title to which is held—

“(i) in trust by the United States for the benefit of an Indian tribe or an individual Indian;

“(ii) by an Indian tribe or an individual Indian, subject to restriction against alienation under laws of the United States; or
“(iii) by a dependent Indian community.

“(3) The term ‘Indian reservation’ includes—

“(A) an Indian reservation in existence in any State or States as of the date of enactment of this paragraph;

“(B) a public domain Indian allotment; and

“(C) a dependent Indian community located within the borders of the United States, regardless of whether the community is located—

“(i) on original or acquired territory of the community; or

“(ii) within or outside the boundaries of any particular State.

“(4) The term ‘Indian tribe’ has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), except that the term ‘Indian tribe’, for the purpose of paragraph (11) and sections 2603(b)(3) and 2604, shall not include any Native Corporation.

“(5) The term ‘integration of energy resources’ means any project or activity that promotes the location and operation of a facility (including any pipe-
line, gathering system, transportation system or fa-
cility, or electric transmission or distribution facility)
on or near Indian land to process, refine, generate
electricity from, or otherwise develop energy re-
sources on, Indian land.

“(6) The term ‘Native Corporation’ has the
meaning given the term in section 3 of the Alaska

“(7) The term ‘organization’ means a partner-
ship, joint venture, limited liability company, or
other unincorporated association or entity that is es-
tablished to develop Indian energy resources.

“(8) The term ‘Program’ means the Indian en-
ergy resource development program established
under section 2602(a).

“(9) The term ‘Secretary’ means the Secretary
of the Interior.

“(10) The term ‘tribal energy resource develop-
ment organization’ means an organization of 2 or
more entities, at least 1 of which is an Indian tribe,
that has the written consent of the governing bodies
of all Indian tribes participating in the organization
to apply for a grant, loan, or other assistance au-
thorized by section 2602.
“(11) The term ‘tribal land’ means any land or interests in land owned by any Indian tribe, title to which is held in trust by the United States or which is subject to a restriction against alienation under laws of the United States.

“SEC. 2602. INDIAN TRIBAL ENERGY RESOURCE DEVELOPMENT.

“(a) DEPARTMENT OF THE INTERIOR PROGRAM.—

“(1) To assist Indian tribes in the development of energy resources and further the goal of Indian self-determination, the Secretary shall establish and implement an Indian energy resource development program to assist consenting Indian tribes and tribal energy resource development organizations in achieving the purposes of this title.

“(2) In carrying out the Program, the Secretary shall—

“(A) provide development grants to Indian tribes and tribal energy resource development organizations for use in developing or obtaining the managerial and technical capacity needed to develop energy resources on Indian land, and to properly account for resulting energy production and revenues;
“(B) provide grants to Indian tribes and tribal energy resource development organizations for use in carrying out projects to promote the integration of energy resources, and to process, use, or develop those energy resources, on Indian land; and

“(C) provide low-interest loans to Indian tribes and tribal energy resource development organizations for use in the promotion of energy resource development on Indian land and integration of energy resources.

“(3) There are authorized to be appropriated to carry out this subsection such sums as are necessary for each of fiscal years 2006 through 2016.

“(b) DEPARTMENT OF ENERGY INDIAN ENERGY EDUCATION PLANNING AND MANAGEMENT ASSISTANCE PROGRAM.—

“(1) The Director shall establish programs to assist consenting Indian tribes in meeting energy education, research and development, planning, and management needs.

“(2) In carrying out this subsection, the Director may provide grants, on a competitive basis, to an Indian tribe or tribal energy resource development organization for use in carrying out—
“(A) energy, energy efficiency, and energy conservation programs;

“(B) studies and other activities supporting tribal acquisitions of energy supplies, services, and facilities;

“(C) planning, construction, development, operation, maintenance, and improvement of tribal electrical generation, transmission, and distribution facilities located on Indian land; and

“(D) development, construction, and interconnection of electric power transmission facilities located on Indian land with other electric transmission facilities.

“(3)(A) The Director may develop, in consultation with Indian tribes, a formula for providing grants under this subsection.

“(B) In providing a grant under this subsection, the Director shall give priority to an application received from an Indian tribe with inadequate electric service (as determined by the Director).

“(4) The Secretary of Energy may issue such regulations as necessary to carry out this subsection.
“(5) There are authorized to be appropriated to carry out this subsection such sums as are necessary for each of fiscal years 2006 through 2016.

“(c) Department of Energy Loan Guarantee Program.—

“(1) Subject to paragraph (3), the Secretary of Energy may provide loan guarantees (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) for not more than 90 percent of the unpaid principal and interest due on any loan made to any Indian tribe for energy development.

“(2) A loan guarantee under this subsection shall be made by—

“(A) a financial institution subject to examination by the Secretary of Energy; or

“(B) an Indian tribe, from funds of the Indian tribe.

“(3) The aggregate outstanding amount guaranteed by the Secretary of Energy at any time under this subsection shall not exceed $2,000,000,000.

“(4) The Secretary of Energy may issue such regulations as the Secretary of Energy determines are necessary to carry out this subsection.
“(5) There are authorized to be appropriated such sums as are necessary to carry out this subsection, to remain available until expended.

“(6) Not later than 1 year from the date of enactment of this section, the Secretary of Energy shall report to Congress on the financing requirements of Indian tribes for energy development on Indian land.

“(d) Federal Agencies-Indian Energy Preference.—

“(1) In purchasing electricity or any other energy product or by-product, a Federal agency or department may give preference to an energy and resource production enterprise, partnership, consortium, corporation, or other type of business organization the majority of the interest in which is owned and controlled by 1 or more Indian tribes.

“(2) In carrying out this subsection, a Federal agency or department shall not—

“(A) pay more than the prevailing market price for an energy product or by-product; or

“(B) obtain less than prevailing market terms and conditions.
“SEC. 2603. INDIAN TRIBAL ENERGY RESOURCE REGULATION.

“(a) GRANTS.—The Secretary may provide to Indian tribes, on an annual basis, grants for use in accordance with subsection (b).

“(b) USE OF FUNDS.—Funds from a grant provided under this section may be used—

“(1) by an Indian tribe for the development of a tribal energy resource inventory or tribal energy resource on Indian land;

“(2) by an Indian tribe for the development of a feasibility study or other report necessary to the development of energy resources on Indian land;

“(3) by an Indian tribe (other than an Indian Tribe in Alaska except the Metlakatla Indian Community) for the development and enforcement of tribal laws (including regulations) relating to tribal energy resource development and the development of technical infrastructure to protect the environment under applicable law;

“(4) by a Native Corporation for the development and implementation of corporate policies and the development of technical infrastructure related to energy development and environmental protection under applicable law; and
“(5) by an Indian tribe for the training of employees that—

“(A) are engaged in the development of energy resources on Indian land; or

“(B) are responsible for protecting the environment.

“(c) OTHER ASSISTANCE.—In carrying out the obligations of the United States under this title, the Secretary shall ensure, to the maximum extent practicable and to the extent of available resources, that upon the request of an Indian tribe, the Indian tribe shall have available scientific and technical information and expertise, for use in the Indian tribe’s regulation, development, and management of energy resources on Indian land. The Secretary may fulfill this responsibility either directly, through the use of Federal officials, or indirectly, by providing financial assistance to the Indian tribe to secure independent assistance.

“SEC. 2604. LEASES, BUSINESS AGREEMENTS, AND RIGHTS-OF-WAY INVOLVING ENERGY DEVELOPMENT OR TRANSMISSION.

“(a) LEASES AND BUSINESS AGREEMENTS.—Subject to the provisions of this section—

“(1) an Indian tribe may, at its discretion,

enter into a lease or business agreement for the pur-
pose of energy resource development on tribal land, including a lease or business agreement for—

“(A) exploration for, extraction of, processing of, or other development of the Indian tribe’s energy mineral resources located on tribal land; and

“(B) construction or operation of an electric generation, transmission, or distribution facility located on tribal land or a facility to process or refine energy resources developed on tribal land; and

“(2) such lease or business agreement described in paragraph (1) shall not require the approval of the Secretary under section 2103 of the Revised Statutes (25 U.S.C. 81) or any other provision of law, if—

“(A) the lease or business agreement is executed pursuant to a tribal energy resource agreement approved by the Secretary under subsection (e);

“(B) the term of the lease or business agreement does not exceed—

“(i) 30 years; or

“(ii) in the case of a lease for the production of oil resources, gas resources, or
both, 10 years and as long thereafter as oil
or gas is produced in paying quantities;
and
“(C) the Indian tribe has entered into a
tribal energy resource agreement with the Secre-
tary, as described in subsection (e), relating
to the development of energy resources on tribal
land (including the periodic review and evalua-
tion of the activities of the Indian tribe under
the agreement, to be conducted pursuant to the
provisions required by subsection (e)(2)(D)(i)).
“(b) RIGHTS-OF-WAY FOR PIPELINES OR ELECTRIC
TRANSMISSION OR DISTRIBUTION LINES.—An Indian
tribe may grant a right-of-way over tribal land for a pipe-
line or an electric transmission or distribution line without
approval by the Secretary if—
“(1) the right-of-way is executed in accordance
with a tribal energy resource agreement approved by
the Secretary under subsection (e);
“(2) the term of the right-of-way does not ex-
ceed 30 years;
“(3) the pipeline or electric transmission or dis-
tribution line serves—
“(A) an electric generation, transmission,
or distribution facility located on tribal land; or
“(B) a facility located on tribal land that processes or refines energy resources developed on tribal land; and
“(4) the Indian tribe has entered into a tribal energy resource agreement with the Secretary, as described in subsection (e), relating to the development of energy resources on tribal land (including the periodic review and evaluation of the Indian tribe’s activities under such agreement described in subparagraphs (D) and (E) of subsection (e)(2)).
“(c) RENEWALS.—A lease or business agreement entered into or a right-of-way granted by an Indian tribe under this section may be renewed at the discretion of the Indian tribe in accordance with this section.
“(d) VALIDITY.—No lease, business agreement, or right-of-way relating to the development of tribal energy resources pursuant to the provisions of this section shall be valid unless the lease, business agreement, or right-of-way is authorized by the provisions of a tribal energy resource agreement approved by the Secretary under subsection (e)(2).
“(e) TRIBAL ENERGY RESOURCE AGREEMENTS.—
“(1) On issuance of regulations under paragraph (8), an Indian tribe may submit to the Secretary for approval a tribal energy resource agree-
ment governing leases, business agreements, and rights-of-way under this section.

“(2)(A) Not later than 180 days after the date on which the Secretary receives a tribal energy re-
source agreement submitted by an Indian tribe under paragraph (1), or not later than 60 days after
the Secretary receives a revised tribal energy re-
source agreement submitted by an Indian tribe under paragraph (4)(C), (or such later date as may
be agreed to by the Secretary and the Indian tribe),
the Secretary shall approve or disapprove the tribal
energy resource agreement.

“(B) The Secretary shall approve a tribal en-
ergy resource agreement submitted under paragraph
(1) if—

“(i) the Secretary determines that the In-
dian tribe has demonstrated that the Indian
tribe has sufficient capacity to regulate the de-
velopment of energy resources of the Indian
tribe;

“(ii) the tribal energy resource agreement
includes provisions required under subpara-
graph (D); and

“(iii) the tribal energy resource agreement
includes provisions that, with respect to a lease,
business agreement, or right-of-way under this section—

“(I) ensure the acquisition of necessary information from the applicant for the lease, business agreement, or right-of-way;

“(II) address the term of the lease or business agreement or the term of conveyance of the right-of-way;

“(III) address amendments and renewals;

“(IV) address the economic return to the Indian tribe under leases, business agreements, and rights-of-way;

“(V) address technical or other relevant requirements;

“(VI) establish requirements for environmental review in accordance with subparagraph (C);

“(VII) ensure compliance with all applicable environmental laws;

“(VIII) identify final approval authority;

“(IX) provide for public notification of final approvals;
“(X) establish a process for consultation with any affected States concerning off-reservation impacts, if any, identified pursuant to the provisions required under subparagraph (C)(i);

“(XI) describe the remedies for breach of the lease, business agreement, or right-of-way;

“(XII) require each lease, business agreement, and right-of-way to include a statement that, in the event that any of its provisions violates an express term or requirement set forth in the tribal energy resource agreement pursuant to which it was executed—

“(aa) such provision shall be null and void; and

“(bb) if the Secretary determines such provision to be material, the Secretary shall have the authority to suspend or rescind the lease, business agreement, or right-of-way or take other appropriate action that the Secretary determines to be in the best interest of the Indian tribe;
“(XIII) require each lease, business agreement, and right-of-way to provide that it will become effective on the date on which a copy of the executed lease, business agreement, or right-of-way is delivered to the Secretary in accordance with regulations adopted pursuant to this subsection; and

“(XIV) include citations to tribal laws, regulations, or procedures, if any, that set out tribal remedies that must be exhausted before a petition may be submitted to the Secretary pursuant to paragraph (7)(B).

“(C) Tribal energy resource agreements submitted under paragraph (1) shall establish, and include provisions to ensure compliance with, an environmental review process that, with respect to a lease, business agreement, or right-of-way under this section, provides for—

“(i) the identification and evaluation of all significant environmental impacts (as compared with a no-action alternative), including effects on cultural resources;
“(ii) the identification of proposed mitigation;

“(iii) a process for ensuring that the public is informed of and has an opportunity to comment on the environmental impacts of the proposed action before tribal approval of the lease, business agreement, or right-of-way; and

“(iv) sufficient administrative support and technical capability to carry out the environmental review process.

“(D) A tribal energy resource agreement negotiated between the Secretary and an Indian tribe in accordance with this subsection shall include—

“(i) provisions requiring the Secretary to conduct a periodic review and evaluation to monitor the performance of the Indian tribe’s activities associated with the development of energy resources under the tribal energy resource agreement; and

“(ii) when such review and evaluation result in a finding by the Secretary of imminent jeopardy to a physical trust asset arising from a violation of the tribal energy resource agreement or applicable Federal laws, provisions authorizing the Secretary to take appropriate ac-
tions determined by the Secretary to be nec-

essary to protect such asset, which actions may

include reassumption of responsibility for activi-

ties associated with the development of energy

resources on tribal land until the violation and

conditions that gave rise to such jeopardy have

been corrected.

“(E) The periodic review and evaluation de-

dcribed in subparagraph (D) shall be conducted on

an annual basis, except that, after the third such an-
nual review and evaluation, the Secretary and the

Indian tribe may mutually agree to amend the tribal

energy resource agreement to authorize the review

and evaluation required by subparagraph (D) to be

conducted once every 2 years.

“(3) The Secretary shall provide notice and op-

portunity for public comment on tribal energy re-

source agreements submitted for approval under

paragraph (1). The Secretary’s review of a tribal en-

ergy resource agreement under the National Envi-

seq.) shall be limited to the direct effects of that ap-

proval.

“(4) If the Secretary disapproves a tribal en-

ergy resource agreement submitted by an Indian
tribe under paragraph (1), the Secretary shall, not later than 10 days after the date of disapproval—

“(A) notify the Indian tribe in writing of the basis for the disapproval;

“(B) identify what changes or other actions are required to address the concerns of the Secretary; and

“(C) provide the Indian tribe with an opportunity to revise and resubmit the tribal energy resource agreement.

“(5) If an Indian tribe executes a lease or business agreement or grants a right-of-way in accordance with a tribal energy resource agreement approved under this subsection, the Indian tribe shall, in accordance with the process and requirements set forth in the Secretary’s regulations adopted pursuant to paragraph (8), provide to the Secretary—

“(A) a copy of the lease, business agreement, or right-of-way document (including all amendments to and renewals of the document); and

“(B) in the case of a tribal energy resource agreement or a lease, business agreement, or right-of-way that permits payments to be made directly to the Indian tribe, information and
documentation of those payments sufficient to enable the Secretary to discharge the trust responsibility of the United States to enforce the terms of, and protect the Indian tribe’s rights under, the lease, business agreement, or right-of-way.

“(6)(A) For purposes of the activities to be undertaken by the Secretary pursuant to this section, the Secretary shall—

“(i) carry out such activities in a manner consistent with the trust responsibility of the United States relating to mineral and other trust resources; and

“(ii) act in good faith and in the best interests of the Indian tribes.

“(B) Subject to the provisions of subsections (a)(2), (b), and (c) waiving the requirement of Secretarial approval of leases, business agreements, and rights-of-way executed pursuant to tribal energy resource agreements approved under this section, and the provisions of subparagraph (D), nothing in this section shall absolve the United States from any responsibility to Indians or Indian tribes, including, but not limited to, those which derive from the trust relationship or from any treaties, statutes, and other
laws of the United States, Executive Orders, or agreements between the United States and any Indian tribe.

“(C) The Secretary shall continue to have a trust obligation to ensure that the rights and interests of an Indian tribe are protected in the event that—

“(i) any other party to any such lease, business agreement, or right-of-way violates any applicable provision of Federal law or the terms of any lease, business agreement, or right-of-way under this section; or

“(ii) any provision in such lease, business agreement, or right-of-way violates any express provision or requirement set forth in the tribal energy resource agreement pursuant to which the lease, business agreement, or right-of-way was executed.

“(D) Notwithstanding subparagraph (B), the United States shall not be liable to any party (including any Indian tribe) for any of the negotiated terms of, or any losses resulting from the negotiated terms of, a lease, business agreement, or right-of-way executed pursuant to and in accordance with a tribal energy resource agreement approved by the...
Secretary under paragraph (2). For the purpose of this subparagraph, the term ‘negotiated terms’ means any terms or provisions that are negotiated by an Indian tribe and any other party or parties to a lease, business agreement, or right-of-way entered into pursuant to an approved tribal energy resource agreement.

“(7)(A) In this paragraph, the term ‘interested party’ means any person or entity the interests of which have sustained or will sustain a significant adverse environmental impact as a result of the failure of an Indian tribe to comply with a tribal energy resource agreement of the Indian tribe approved by the Secretary under paragraph (2).

“(B) After exhaustion of tribal remedies, and in accordance with the process and requirements set forth in regulations adopted by the Secretary pursuant to paragraph (8), an interested party may submit to the Secretary a petition to review compliance of an Indian tribe with a tribal energy resource agreement of the Indian tribe approved by the Secretary under paragraph (2).

“(C)(i) Not later than 120 days after the date on which the Secretary receives a petition under subparagraph (B), the Secretary shall determine wheth-
er the Indian tribe is not in compliance with the tribal energy resource agreement, as alleged in the petition.

“(ii) The Secretary may adopt procedures under paragraph (8) authorizing an extension of time, not to exceed 120 days, for making the determination under clause (i) in any case in which the Secretary determines that additional time is necessary to evaluate the allegations of the petition.

“(iii) Subject to subparagraph (D), if the Secretary determines that the Indian tribe is not in compliance with the tribal energy resource agreement as alleged in the petition, the Secretary shall take such action as is necessary to ensure compliance with the provisions of the tribal energy resource agreement, which action may include—

“(I) temporarily suspending some or all activities under a lease, business agreement, or right-of-way under this section until the Indian tribe or such activities are in compliance with the provisions of the approved tribal energy resource agreement; or

“(II) rescinding approval of all or part of the tribal energy resource agreement, and if all of such agreement is rescinded, reassuming the
responsibility for approval of any future leases, business agreements, or rights-of-way described in subsections (a) and (b).

“(D) Prior to seeking to ensure compliance with the provisions of the tribal energy resource agreement of an Indian tribe under subparagraph (C)(iii), the Secretary shall—

“(i) make a written determination that describes the manner in which the tribal energy resource agreement has been violated;

“(ii) provide the Indian tribe with a written notice of the violations together with the written determination; and

“(iii) before taking any action described in subparagraph (C)(iii) or seeking any other remedy, provide the Indian tribe with a hearing and a reasonable opportunity to attain compliance with the tribal energy resource agreement.

“(E) An Indian tribe described in subparagraph (D) shall retain all rights to appeal as provided in regulations issued by the Secretary.

“(8) Not later than 1 year after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2005, the Secretary
shall issue regulations that implement the provisions of this subsection, including—

“(A) criteria to be used in determining the capacity of an Indian tribe described in paragraph (2)(B)(i), including the experience of the Indian tribe in managing natural resources and financial and administrative resources available for use by the Indian tribe in implementing the approved tribal energy resource agreement of the Indian tribe;

“(B) a process and requirements in accordance with which an Indian tribe may—

“(i) voluntarily rescind a tribal energy resource agreement approved by the Secretary under this subsection; and

“(ii) return to the Secretary the responsibility to approve any future leases, business agreements, and rights-of-way described in this subsection;

“(C) provisions setting forth the scope of, and procedures for, the periodic review and evaluation described in subparagraphs (D) and (E) of paragraph (2), including provisions for review of transactions, reports, site inspections,
and any other review activities the Secretary
determines to be appropriate; and

“(D) provisions defining final agency ac-
tions after exhaustion of administrative appeals
from determinations of the Secretary under
paragraph (7).

“(f) NO EFFECT ON OTHER LAW.—Nothing in this
section affects the application of—

“(1) any Federal environment law;

“(2) the Surface Mining Control and Reclama-
tion Act of 1977 (30 U.S.C. 1201 et seq.); or

“(3) except as otherwise provided in this title,
the Indian Mineral Development Act of 1982 (25
U.S.C. 2101 et seq.) and the National Environ-

“(g) AUTHORIZATION OF APPROPRIATIONS.—There
are authorized to be appropriated to the Secretary such
sums as are necessary for each of fiscal years 2006
through 2016 to implement the provisions of this section
and to make grants or provide other appropriate assist-
ance to Indian tribes to assist the Indian tribes in devel-
oping and implementing tribal energy resource agreements
in accordance with the provisions of this section.
SEC. 2605. INDIAN MINERAL DEVELOPMENT REVIEW.

“(a) IN GENERAL.—The Secretary shall conduct a review of all activities being conducted under the Indian Mineral Development Act of 1982 (25 U.S.C. 2101 et seq.) as of that date.

“(b) REPORT.—Not later than 1 year after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2005, the Secretary shall submit to Congress a report that includes—

“(1) the results of the review;

“(2) recommendations to ensure that Indian tribes have the opportunity to develop Indian energy resources; and

“(3) an analysis of the barriers to the development of energy resources on Indian land (including legal, fiscal, market, and other barriers), along with recommendations for the removal of those barriers.

SEC. 2606. FEDERAL POWER MARKETING ADMINISTRATIONS.

“(a) DEFINITIONS.—In this section:

“(1) The term ‘Administrator’ means the Administrator of the Bonneville Power Administration and the Administrator of the Western Area Power Administration.

“(2) The term ‘power marketing administration’ means—
“(A) the Bonneville Power Administration;

“(B) the Western Area Power Administration; and

“(C) any other power administration the power allocation of which is used by or for the benefit of an Indian tribe located in the service area of the administration.

“(b) ENCOURAGEMENT OF INDIAN TRIBAL ENERGY DEVELOPMENT.—Each Administrator shall encourage Indian tribal energy development by taking such actions as are appropriate, including administration of programs of the Bonneville Power Administration and the Western Area Power Administration, in accordance with this section.

“(c) ACTION BY THE ADMINISTRATOR.—In carrying out this section, and in accordance with existing law—

“(1) each Administrator shall consider the unique relationship that exists between the United States and Indian tribes;

“(2) power allocations from the Western Area Power Administration to Indian tribes may be used to meet firming and reserve needs of Indian-owned energy projects on Indian land;

“(3) the Administrator of the Western Area Power Administration may purchase non-federally
generated power from Indian tribes to meet the firming and reserve requirements of the Western Area Power Administration; and

“(4) each Administrator shall not pay more than the prevailing market price for an energy product nor obtain less than prevailing market terms and conditions.

“(d) ASSISTANCE FOR TRANSMISSION SYSTEM USE.—(1) An Administrator may provide technical assistance to Indian tribes seeking to use the high-voltage transmission system for delivery of electric power.

“(2) The costs of technical assistance provided under paragraph (1) shall be funded by the Secretary of Energy using nonreimbursable funds appropriated for that purpose, or by the applicable Indian tribes.

“(e) POWER ALLOCATION STUDY.—Not later than 2 years after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2005, the Secretary of Energy shall submit to Congress a report that—

“(1) describes the use by Indian tribes of Federal power allocations of the Western Area Power Administration (or power sold by the Southwestern Power Administration) and the Bonneville Power
Administration to or for the benefit of Indian tribes in service areas of those administrations; and

“(2) identifies—

“(A) the quantity of power allocated to, or used for the benefit of, Indian tribes by the Western Area Power Administration;

“(B) the quantity of power sold to Indian tribes by other power marketing administrations; and

“(C) barriers that impede tribal access to and use of Federal power, including an assessment of opportunities to remove those barriers and improve the ability of power marketing administrations to deliver Federal power.

“(f) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section $750,000, which shall remain available until expended and shall not be reimbursable.”.

(b) Conforming Amendment.—The table of contents for the Energy Policy Act of 1992 is amended by striking the items relating to title XXVI (other than the title heading) and inserting the following:

Sec. 2601. Definitions.
Sec. 2602. Indian tribal energy resource development.
Sec. 2603. Indian tribal energy resource regulation.
Sec. 2604. Leases, business agreements, and rights-of-way involving energy development or transmission.
Sec. 2605. Indian mineral development review.
Sec. 2606. Federal Power Marketing Administrations.”.
SEC. 504. CONSULTATION WITH INDIAN TRIBES.

In carrying out this title and the amendments made by this title, the Secretary of Energy and the Secretary shall, as appropriate and to the maximum extent practicable, involve and consult with Indian tribes.

SEC. 505. FOUR CORNERS TRANSMISSION LINE PROJECT.

The Dine Power Authority, an enterprise of the Navajo Nation, shall be eligible to receive grants and other assistance as authorized by section 217 of the Department of Energy Organization Act, as added by section 502 of this title, and section 2602 of the Energy Policy Act of 1992, as amended by this title, for activities associated with the development of a transmission line from the Four Corners Area to southern Nevada, including related power generation opportunities.

TITLE VI—NUCLEAR MATTERS
Subtitle A—Price-Anderson Act Amendments

SEC. 601. SHORT TITLE.

This subtitle may be cited as the “Price-Anderson Amendments Act of 2005”.

SEC. 602. EXTENSION OF INDEMNIFICATION AUTHORITY.

(a) INDEMNIFICATION OF NUCLEAR REGULATORY COMMISSION LICENSEES.—Section 170 e. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(c)) is amended—
(1) in the subsection heading, by striking “LICENSORS” and inserting “LICENSEES”; and

(2) by striking “December 31, 2003” each place it appears and inserting “December 31, 2025”.

(c) INDEMNIFICATION OF NONPROFIT EDUCATIONAL INSTITUTIONS.—Section 170 k. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(k)) is amended by striking “August 1, 2002” each place it appears and inserting “December 31, 2025”.

SEC. 603. MAXIMUM ASSESSMENT.

Section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) is amended—

(1) in the second proviso of the third sentence of subsection b.(1)—

(A) by striking “$63,000,000” and inserting “$95,800,000”; and

(B) by striking “$10,000,000 in any 1 year” and inserting “$15,000,000 in any 1 year
(subject to adjustment for inflation under subsection t.)”; and

(2) in subsection t.(1)—

(A) by inserting “total and annual” after “amount of the maximum”;

(B) by striking “the date of the enactment of the Price-Anderson Amendments Act of 1988” and inserting “August 20, 2003”; and

(C) in subparagraph (A), by striking “such date of enactment” and inserting “August 20, 2003”.

SEC. 604. DEPARTMENT OF ENERGY LIABILITY LIMIT.

(a) INDEMNIFICATION OF DEPARTMENT OF ENERGY CONTRACTORS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is amended by striking paragraph (2) and inserting the following:

“(2) In an agreement of indemnification entered into under paragraph (1), the Secretary—

“(A) may require the contractor to provide and maintain financial protection of such a type and in such amounts as the Secretary shall determine to be appropriate to cover public liability arising out of or in connection with the contractual activity; and

“(B) shall indemnify the persons indemnified against such liability above the amount of the finan-
cial protection required, in the amount of $10,000,000,000 (subject to adjustment for inflation under subsection t.), in the aggregate, for all persons indemnified in connection with the contract and for each nuclear incident, including such legal costs of the contractor as are approved by the Secretary.”.

(b) CONTRACT AMENDMENTS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is further amended by striking paragraph (3) and inserting the following—

“(3) All agreements of indemnification under which the Department of Energy (or its predecessor agencies) may be required to indemnify any person under this section shall be deemed to be amended, on the date of enactment of the Price-Anderson Amendments Act of 2005, to reflect the amount of indemnity for public liability and any applicable financial protection required of the contractor under this subsection.”.

(c) LIABILITY LIMIT.—Section 170 e.(1)(B) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(1)(B)) is amended—

(1) by striking “the maximum amount of financial protection required under subsection b. or”; and
(2) by striking “paragraph (3) of subsection d.,
whichever amount is more” and inserting “para-
graph (2) of subsection d.”.

SEC. 605. INCIDENTS OUTSIDE THE UNITED STATES.

(a) AMOUNT OF INDEMNIFICATION.—Section 170
d.(5) of the Atomic Energy Act of 1954 (42 U.S.C.
2210(d)(5)) is amended by striking “$100,000,000” and
inserting “$500,000,000”.

(b) LIABILITY LIMIT.—Section 170 e.(4) of the
Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(4)) is
amended by striking “$100,000,000” and inserting
“$500,000,000”.

SEC. 606. REPORTS.

Section 170 p. of the Atomic Energy Act of 1954 (42
U.S.C. 2210(p)) is amended by striking “August 1, 1998”
and inserting “December 31, 2021”.

SEC. 607. INFLATION ADJUSTMENT.

Section 170 t. of the Atomic Energy Act of 1954 (42
U.S.C. 2210(t)) is amended—

(1) by redesignating paragraph (2) as para-
graph (3); and

(2) by inserting after paragraph (1) the fol-
lowing:
“(2) The Secretary shall adjust the amount of indem-
nification provided under an agreement of indemnification
under subsection d. not less than once during each 5-year period following July 1, 2003, in accordance with the aggregate percentage change in the Consumer Price Index since—

“(A) that date, in the case of the first adjustment under this paragraph; or

“(B) the previous adjustment under this paragraph.”.

SEC. 608. TREATMENT OF MODULAR REACTORS.

Section 170 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(b)) is amended by adding at the end the following:

“(5)(A) For purposes of this section only, the Commission shall consider a combination of facilities described in subparagraph (B) to be a single facility having a rated capacity of 100,000 electrical kilowatts or more.

“(B) A combination of facilities referred to in subparagraph (A) is 2 or more facilities located at a single site, each of which has a rated capacity of 100,000 electrical kilowatts or more but not more than 300,000 electrical kilowatts, with a combined rated capacity of not more than 1,300,000 electrical kilowatts.”.
SEC. 609. APPLICABILITY.

The amendments made by sections 603, 604, and 605 do not apply to a nuclear incident that occurs before the date of the enactment of this Act.

SEC. 610. PROHIBITION ON ASSUMPTION BY UNITED STATES GOVERNMENT OF LIABILITY FOR CERTAIN FOREIGN INCIDENTS.

Section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) is amended by adding at the end the following new subsection:

''u. Prohibition on assumption of liability for certain foreign incidents.—Notwithstanding this section or any other provision of law, no officer of the United States or of any department, agency, or instrumentality of the United States Government may enter into any contract or other arrangement, or into any amendment or modification of a contract or other arrangement, the purpose or effect of which would be to directly or indirectly impose liability on the United States Government, or any department, agency, or instrumentality of the United States Government, or to otherwise directly or indirectly require an indemnity by the United States Government, for nuclear incidents occurring in connection with the design, construction, or operation of a production facility or utilization facility in any country whose government has been identified by the Secretary of State as engaged in
state sponsorship of terrorist activities (specifically including any country the government of which, as of September 11, 2001, had been determined by the Secretary of State under section 620A(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371(a)), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)) to have repeatedly provided support for acts of international terrorism). This subsection shall not apply to nuclear incidents occurring as a result of missions, carried out under the direction of the Secretary of Energy, the Secretary of Defense, or the Secretary of State, that are necessary to safely secure, store, transport, or remove nuclear materials for nuclear safety or non-proliferation purposes.”

SEC. 611. CIVIL PENALTIES.

(a) Repeal of automatic remission.—Section 234A b.(2) of the Atomic Energy Act of 1954 (42 U.S.C. 2282a(b)(2)) is amended by striking the last sentence.

(b) Limitation for not-for-profit institutions.—Subsection d. of section 234A of the Atomic Energy Act of 1954 (42 U.S.C. 2282a(d)) is amended to read as follows:

“d.(1) Notwithstanding subsection a., in the case of any not-for-profit contractor, subcontractor, or supplier,
the total amount of civil penalties paid under subsection a. may not exceed the total amount of fees paid within any 1-year period (as determined by the Secretary) under the contract under which the violation occurs.

“(2) For purposes of this section, the term ‘not-for-profit’ means that no part of the net earnings of the contractor, subcontractor, or supplier inures to the benefit of any natural person or for-profit artificial person.”.

(c) Effective Date.—The amendments made by this section shall not apply to any violation of the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) occurring under a contract entered into before the date of enactment of this section.

SEC. 612. FINANCIAL ACCOUNTABILITY.

(a) Amendment.—Section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) is amended by adding at the end the following new subsection:

“v. FINANCIAL ACCOUNTABILITY.—(1) Notwithstanding subsection d., the Attorney General may bring an action in the appropriate United States district court to recover from a contractor of the Secretary (or subcontractor or supplier of such contractor) amounts paid by the Federal Government under an agreement of indemnification under subsection d. for public liability resulting from conduct which constitutes intentional misconduct of
any corporate officer, manager, or superintendent of such contractor (or subcontractor or supplier of such contractor).

“(2) The Attorney General may recover under paragraph (1) an amount not to exceed the amount of the profit derived by the defendant from the contract.

“(3) No amount recovered from any contractor (or subcontractor or supplier of such contractor) under paragraph (1) may be reimbursed directly or indirectly by the Department of Energy.

“(4) Paragraph (1) shall not apply to any nonprofit entity conducting activities under contract for the Secretary.

“(5) No waiver of a defense required under this section shall prevent a defendant from asserting such defense in an action brought under this subsection.

“(6) The Secretary shall, by rule, define the terms ‘profit’ and ‘nonprofit entity’ for purposes of this subsection. Such rulemaking shall be completed not later than 180 days after the date of the enactment of this subsection.”.

(b) Effective Date.—The amendment made by this section shall not apply to any agreement of indem-
notification entered into under section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) before the date of the enactment of this Act.

Subtitle B—General Nuclear Matters

SEC. 621. LICENSES.

Section 103 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2133(c)) is amended by inserting “from the authorization to commence operations” after “forty years”.

SEC. 622. NRC TRAINING PROGRAM.

(a) In General.—In order to maintain the human resource investment and infrastructure of the United States in the nuclear sciences, health physics, and engineering fields, in accordance with the statutory authorities of the Nuclear Regulatory Commission relating to the civilian nuclear energy program, the Nuclear Regulatory Commission shall carry out a training and fellowship program to address shortages of individuals with critical nuclear safety regulatory skills.

(b) Authorization of Appropriations.—

(1) In General.—There are authorized to be appropriated to the Nuclear Regulatory Commission to carry out this section $1,000,000 for each of fiscal years 2005 through 2009.
(2) **Availability.**—Funds made available under paragraph (1) shall remain available until expended.

**SEC. 623. COST RECOVERY FROM GOVERNMENT AGENCIES.**

Section 161 w. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(w)) is amended—

(1) by striking “for or is issued” and all that follows through “1702” and inserting “to the Commission for, or is issued by the Commission, a license or certificate”;

(2) by striking “483a” and inserting “9701”;

and

(3) by striking “, of applicants for, or holders of, such licenses or certificates”.

**SEC. 624. ELIMINATION OF PENSION OFFSET.**

Section 161 of the Atomic Energy Act of 1954 (42 U.S.C. 2201) is amended by adding at the end the following:

“y. Exempt from the application of sections 8344 and 8468 of title 5, United States Code, an annuitant who was formerly an employee of the Commission who is hired by the Commission as a consultant, if the Commission finds that the annuitant has a skill that is critical to the performance of the duties of the Commission.”.
SEC. 625. ANTITRUST REVIEW.

Section 105 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2135(c)) is amended by adding at the end the following:

“(9) APPLICABILITY.—This subsection does not apply to an application for a license to construct or operate a utilization facility or production facility under section 103 or 104 b. that is filed on or after the date of enactment of this paragraph.”.

SEC. 626. DECOMMISSIONING.

Section 161 i. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(i)) is amended—

(1) by striking “and (3)” and inserting “(3)”;

and

(2) by inserting before the semicolon at the end the following: “, and (4) to ensure that sufficient funds will be available for the decommissioning of any production or utilization facility licensed under section 103 or 104 b., including standards and restrictions governing the control, maintenance, use, and disbursement by any former licensee under this Act that has control over any fund for the decommissioning of the facility”.
SEC. 627. LIMITATION ON LEGAL FEE REIMBURSEMENT.

Title II of the Energy Reorganization Act of 1974 (42 U.S.C. 5841 et seq.) is amended by adding at the end the following new section:

“LIMITATION ON LEGAL FEE REIMBURSEMENT

“Sec. 212. The Department of Energy shall not, except as required under a contract entered into before the date of enactment of this section, reimburse any contractor or subcontractor of the Department for any legal fees or expenses incurred with respect to a complaint subsequent to—

“(1) an adverse determination on the merits with respect to such complaint against the contractor or subcontractor by the Director of the Department of Energy’s Office of Hearings and Appeals pursuant to part 708 of title 10, Code of Federal Regulations, or by a Department of Labor Administrative Law Judge pursuant to section 211 of this Act; or

“(2) an adverse final judgment by any State or Federal court with respect to such complaint against the contractor or subcontractor for wrongful termination or retaliation due to the making of disclosures protected under chapter 12 of title 5, United States Code, section 211 of this Act, or any comparable State law,
unless the adverse determination or final judgment is reversed upon further administrative or judicial review.”

SEC. 629. REPORT ON FEASIBILITY OF DEVELOPING COMMERCIAL NUCLEAR ENERGY GENERATION FACILITIES AT EXISTING DEPARTMENT OF ENERGY SITES.

Not later than 1 year after the date of the enactment of this Act, the Secretary of Energy shall submit to Congress a report on the feasibility of developing commercial nuclear energy generation facilities at Department of Energy sites in existence on the date of enactment of this Act.

SEC. 630. URANIUM SALES.

(a) Sales, Transfers, and Services.—Section 3112 of the USEC Privatization Act (42 U.S.C. 2297h–10) is amended by striking subsections (d), (e), and (f) and inserting the following:

“(3) The Secretary may transfer to the Corporation, notwithstanding subsections (b)(2) and (d), natural uranium in amounts sufficient to fulfill the Department of Energy’s commitments under Article 4(B) of the Agreement between the Department and the Corporation dated June 17, 2002.

“(d) INVENTORY SALES.—(1) In addition to the transfers and sales authorized under subsections (b) and
(c) and under paragraph (5) of this subsection, the United States Government may transfer or sell uranium in any form subject to paragraphs (2), (3), and (4).

“(2) Except as provided in subsections (b) and (c) and paragraph (5) of this subsection, no sale or transfer of uranium shall be made under this subsection by the United States Government unless—

“(A) the President determines that the material is not necessary for national security needs and the sale or transfer has no adverse impact on implementation of existing government-to-government agreements;

“(B) the price paid to the appropriate Federal agency, if the transaction is a sale, will not be less than the fair market value of the material; and

“(C) the sale or transfer to commercial nuclear power end users is made pursuant to a contract of at least 3 years’ duration.

“(3) Except as provided in paragraph (5), the United States Government shall not make any transfer or sale of uranium in any form under this subsection that would cause the total amount of uranium transferred or sold pursuant to this subsection that is delivered for consumption by commercial nuclear power end users to exceed—
“(A) 3,000,000 pounds of U₃O₈ equivalent in fiscal year 2005, 2006, 2007, 2008, or 2009;

“(B) 5,000,000 pounds of U₃O₈ equivalent in fiscal year 2010 or 2011;

“(C) 7,000,000 pounds of U₃O₈ equivalent in fiscal year 2012; and

“(D) 10,000,000 pounds of U₃O₈ equivalent in fiscal year 2013 or any fiscal year thereafter.

“(4) Except for sales or transfers under paragraph (5), for the purposes of this subsection, the recovery of uranium from uranium bearing materials transferred or sold by the United States Government to the domestic uranium industry shall be the preferred method of making uranium available. The recovered uranium shall be counted against the annual maximum deliveries set forth in this section, when such uranium is sold to end users.

“(5) The United States Government may make the following sales and transfers:

“(A) Sales or transfers to a Federal agency if the material is transferred for the use of the receiving agency without any resale or transfer to another entity and the material does not meet commercial specifications.
“(B) Sales or transfers to any person for national security purposes, as determined by the Secretary.

“(C) Sales or transfers to any State or local agency or nonprofit, charitable, or educational institution for use other than the generation of electricity for commercial use.

“(D) Sales or transfers to the Department of Energy research reactor sales program.

“(E) Sales or transfers, at fair market value, for emergency purposes in the event of a disruption in supply to commercial nuclear power end users in the United States.

“(F) Sales or transfers, at fair market value, for use in a commercial reactor in the United States with nonstandard fuel requirements.

“(G) Sales or transfers provided for under law for use by the Tennessee Valley Authority in relation to the Department of Energy’s highly enriched uranium or tritium programs.

“(6) For purposes of this subsection, the term ‘United States Government’ does not include the Tennessee Valley Authority.
“(e) SAVINGS PROVISION.—Nothing in this sub-
chapter modifies the terms of the Russian HEU Agree-
ment.

“(f) SERVICES.—Notwithstanding any other provi-
sion of this section, if the Secretary determines that the
Corporation has failed, or may fail, to perform any obliga-
tion under the Agreement between the Department of En-
ergy and the Corporation dated June 17, 2002, and as
amended thereafter, which failure could result in termi-
nation of the Agreement, the Secretary shall notify Con-
gress, in such a manner that affords Congress an oppor-
tunity to comment, prior to a determination by the Sec-
retary whether termination, waiver, or modification of the
Agreement is required. The Secretary is authorized to take
such action as he determines necessary under the Agree-
ment to terminate, waive, or modify provisions of the
Agreement to achieve its purposes.”.

(b) REPORT.—Not later than 3 years after the date
of enactment of this Act, the Secretary of Energy shall
report to Congress on the implementation of this section.
The report shall include a discussion of available excess
uranium inventories; all sales or transfers made by the
United States Government; the impact of such sales or
transfers on the domestic uranium industry, the spot mar-
ket uranium price, and the national security interests of

•HR 6 IH
the United States; and any steps taken to remediate any adverse impacts of such sales or transfers.

SEC. 631. COOPERATIVE RESEARCH AND DEVELOPMENT AND SPECIAL DEMONSTRATION PROJECTS FOR THE URANIUM MINING INDUSTRY.

(a) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of Energy $10,000,000 for each of fiscal years 2006, 2007, and 2008 for—

(1) cooperative, cost-shared agreements between the Department of Energy and domestic uranium producers to identify, test, and develop improved in situ leaching mining technologies, including low-cost environmental restoration technologies that may be applied to sites after completion of in situ leaching operations; and

(2) funding for competitively selected demonstration projects with domestic uranium producers relating to—

(A) enhanced production with minimal environmental impacts;

(B) restoration of well fields; and

(C) decommissioning and decontamination activities.
(b) DOMESTIC URANIUM PRODUCER.—For purposes of this section, the term “domestic uranium producer” has the meaning given that term in section 1018(4) of the Energy Policy Act of 1992 (42 U.S.C. 2296b–7(4)), except that the term shall not include any producer that has not produced uranium from domestic reserves on or after July 30, 1998.

(c) LIMITATION.—No activities funded under this section may be carried out in the State of New Mexico.

SEC. 632. WHISTLEBLOWER PROTECTION.

(a) DEFINITION OF EMPLOYER.—Section 211(a)(2) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(a)(2)) is amended—

(1) in subparagraph (C), by striking “and” at the end;

(2) in subparagraph (D), by striking the period at the end and inserting “; and” and

(3) by adding at the end the following:

“(E) a contractor or subcontractor of the Commission.”.

(b) DE NOVO REVIEW.—Subsection (b) of such section 211 is amended by adding at the end the following new paragraph:

“(4) If the Secretary has not issued a final decision within 540 days after the filing of a complaint
under paragraph (1), and there is no showing that such delay is due to the bad faith of the person seeking relief under this paragraph, such person may bring an action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy.”.

SEC. 633. MEDICAL ISOTOPE PRODUCTION.

Section 134 of the Atomic Energy Act of 1954 (42 U.S.C. 2160d) is amended—

(1) in subsection a., by striking “a. The Commission” and inserting “a. IN GENERAL.—Except as provided in subsection b., the Commission”;

(2) by redesignating subsection b. as subsection c.; and

(3) by inserting after subsection a. the following:

“b. MEDICAL ISOTOPE PRODUCTION.—

“(1) DEFINITIONS.—In this subsection:

“(A) HIGHLY ENRICHED URANIUM.—The term ‘highly enriched uranium’ means uranium enriched to include concentration of U–235 above 20 percent.

“(B) MEDICAL ISOTOPE.—The term ‘medical isotope’ includes Molybdenum 99, Iodine
131, Xenon 133, and other radioactive materials used to produce a radiopharmaceutical for diagnostic, therapeutic procedures or for research and development.

“(C) Radiopharmaceutical.—The term ‘radiopharmaceutical’ means a radioactive isotope that—

“(i) contains byproduct material combined with chemical or biological material; and

“(ii) is designed to accumulate temporarily in a part of the body for therapeutic purposes or for enabling the production of a useful image for use in a diagnosis of a medical condition.

“(D) Recipient country.—The term ‘recipient country’ means Canada, Belgium, France, Germany, and the Netherlands.

“(2) Licenses.—The Commission may issue a license authorizing the export (including shipment to and use at intermediate and ultimate consignees specified in the license) to a recipient country of highly enriched uranium for medical isotope production if, in addition to any other requirements of this
Act (except subsection a.), the Commission deter-
mines that—

“(A) a recipient country that supplies an assurance letter to the United States Government in connection with the consideration by the Commission of the export license application has informed the United States Government that any intermediate consignees and the ultimate consignee specified in the application are required to use the highly enriched uranium solely to produce medical isotopes; and

“(B) the highly enriched uranium for medical isotope production will be irradiated only in a reactor in a recipient country that—

“(i) uses an alternative nuclear reactor fuel; or

“(ii) is the subject of an agreement with the United States Government to convert to an alternative nuclear reactor fuel when alternative nuclear reactor fuel can be used in the reactor.

“(3) REVIEW OF PHYSICAL PROTECTION REQUIREMENTS.—

“(A) IN GENERAL.—The Commission shall review the adequacy of physical protection re-
requirements that, as of the date of an application under paragraph (2), are applicable to the transportation and storage of highly enriched uranium for medical isotope production or control of residual material after irradiation and extraction of medical isotopes.

“(B) IMPOSITION OF ADDITIONAL REQUIREMENTS.—If the Commission determines that additional physical protection requirements are necessary (including a limit on the quantity of highly enriched uranium that may be contained in a single shipment), the Commission shall impose such requirements as license conditions or through other appropriate means.

“(4) FIRST REPORT TO CONGRESS.—

“(A) NAS STUDY.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study to determine—

“(i) the feasibility of procuring supplies of medical isotopes from commercial sources that do not use highly enriched uranium;
“(ii) the current and projected demand and availability of medical isotopes in regular current domestic use;

“(iii) the progress that is being made by the Department of Energy and others to eliminate all use of highly enriched uranium in reactor fuel, reactor targets, and medical isotope production facilities; and

“(iv) the potential cost differential in medical isotope production in the reactors and target processing facilities if the products were derived from production systems that do not involve fuels and targets with highly enriched uranium.

“(B) Feasibility.—For the purpose of this subsection, the use of low enriched uranium to produce medical isotopes shall be determined to be feasible if—

“(i) low enriched uranium targets have been developed and demonstrated for use in the reactors and target processing facilities that produce significant quantities of medical isotopes to serve United States needs for such isotopes;
“(ii) sufficient quantities of medical isotopes are available from low enriched uranium targets and fuel to meet United States domestic needs; and

“(iii) the average anticipated total cost increase from production of medical isotopes in such facilities without use of highly enriched uranium is less than 10 percent.

“(C) REPORT BY THE SECRETARY.—Not later than 5 years after the date of enactment of the Energy Policy Act of 2005, the Secretary shall submit to Congress a report that—

“(i) contains the findings of the National Academy of Sciences made in the study under subparagraph (A); and

“(ii) discloses the existence of any commitments from commercial producers to provide domestic requirements for medical isotopes without use of highly enriched uranium consistent with the feasibility criteria described in subparagraph (B) not later than the date that is 4 years after the date of submission of the report.
“(5) Second report to Congress.—If the study of the National Academy of Sciences determines under paragraph (4)(A)(i) that the procurement of supplies of medical isotopes from commercial sources that do not use highly enriched uranium is feasible, but the Secretary is unable to report the existence of commitments under paragraph (4)(C)(ii), not later than the date that is 6 years after the date of enactment of the Energy Policy Act of 2005, the Secretary shall submit to Congress a report that describes options for developing domestic supplies of medical isotopes in quantities that are adequate to meet domestic demand without the use of highly enriched uranium consistent with the cost increase described in paragraph (4)(B)(iii).

“(6) Certification.—At such time as commercial facilities that do not use highly enriched uranium are capable of meeting domestic requirements for medical isotopes, within the cost increase described in paragraph (4)(B)(iii) and without impairing the reliable supply of medical isotopes for domestic utilization, the Secretary shall submit to Congress a certification to that effect.

“(7) Sunset provision.—After the Secretary submits a certification under paragraph (6), the
Commission shall, by rule, terminate its review of export license applications under this subsection.”.

SEC. 634. FERNALD BYPRODUCT MATERIAL.

Title III of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10221 et seq.) is amended by adding at the end the following new section:

“FERNALD BYPRODUCT MATERIAL

“Sec. 307. Notwithstanding any other law, the material in the concrete silos at the Fernald uranium processing facility managed on the date of enactment of this section by the Department shall be considered byproduct material (as defined by section 11 e.(2) of the Atomic Energy Act of 1954 (42 U.S.C. 2014(e)(2))). The Department may dispose of the material in a facility regulated by the Commission or by an Agreement State. If the Department disposes of the material in such a facility, the Commission or the Agreement State shall regulate the material as byproduct material under that Act. This material shall remain subject to the jurisdiction of the Department until it is received at a commercial, Commission-licensed, or Agreement State-licensed facility, at which time the material shall be subject to the health and safety requirements of the Commission or the Agreement State with jurisdiction over the disposal site.”.
SEC. 635. SAFE DISPOSAL OF GREATER-THAN-CLASS C RADIOACTIVE WASTE.

Subtitle D of title I of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10171) is amended by adding at the end the following new section:

"SAFE DISPOSAL OF GREATER-THAN-CLASS C RADIOACTIVE WASTE

"SEC. 152. (a) DESIGNATION OF RESPONSIBILITY.—
The Secretary shall designate an Office within the Department to have the responsibility for activities needed to develop a new, or use an existing, facility for safely disposing of all low-level radioactive waste with concentrations of radionuclides that exceed the limits established by the Commission for Class C radioactive waste (referred to in this section as ‘GTCC waste’).

"(b) COMPREHENSIVE PLAN.—The Secretary shall develop a comprehensive plan for permanent disposal of GTCC waste which includes plans for a disposal facility. This plan shall be transmitted to Congress in a series of reports, including the following:

"(1) REPORT ON SHORT-TERM PLAN.—Not later than 180 days after the date of enactment of this section, the Secretary shall submit to Congress a plan describing the Secretary’s operational strategy for continued recovery and storage of GTCC waste until a permanent disposal facility is available.
“(2) **UPDATE OF 1987 REPORT.**—

“(A) **IN GENERAL.**—Not later than 1 year after the date of enactment of this section, the Secretary shall submit to Congress an update of the Secretary’s February 1987 report submitted to Congress that made comprehensive recommendations for the disposal of GTCC waste.

“(B) **CONTENTS.**—The update under this paragraph shall contain—

“(i) a detailed description and identification of the GTCC waste that is to be disposed;

“(ii) a description of current domestic and international programs, both Federal and commercial, for management and disposition of GTCC waste;

“(iii) an identification of the Federal and private options and costs for the safe disposal of GTCC waste;

“(iv) an identification of the options for ensuring that, wherever possible, generators and users of GTCC waste bear all reasonable costs of waste disposal;
“(v) an identification of any new statutory authority required for disposal of GTCC waste; and

“(vi) in coordination with the Environmental Protection Agency and the Commission, an identification of any new regulatory guidance needed for the disposal of GTCC waste.

“(3) Report on Cost and Schedule for Completion of Environmental Impact Statement and Record of Decision.—Not later than 180 days after the date of submission of the update required under paragraph (2), the Secretary shall submit to Congress a report containing an estimate of the cost and schedule to complete a draft and final environmental impact statement and to issue a record of decision for a permanent disposal facility, utilizing either a new or existing facility, for GTCC waste.”.

SEC. 636. PROHIBITION ON NUCLEAR EXPORTS TO COUNTRIES THAT SPONSOR TERRORISM.

(a) In General.—Section 129 of the Atomic Energy Act of 1954 (42 U.S.C. 2158) is amended—

(1) by inserting “a.” before “No nuclear materials and equipment”; and
(2) by adding at the end the following new sub-
section:

“b.(1) Notwithstanding any other provision of law,
including specifically section 121 of this Act, and except
as provided in paragraphs (2) and (3), no nuclear mate-
rials and equipment or sensitive nuclear technology, in-
cluding items and assistance authorized by section 57 b.
of this Act and regulated under part 810 of title 10, Code
of Federal Regulations, and nuclear-related items on the
Commerce Control List maintained under part 774 of title
15 of the Code of Federal Regulations, shall be exported
or reexported, or transferred or retransferred whether di-
rectly or indirectly, and no Federal agency shall issue any
license, approval, or authorization for the export or reex-
port, or transfer, or retransfer, whether directly or indi-
rectly, of these items or assistance (as defined in this para-
graph) to any country whose government has been identi-
fied by the Secretary of State as engaged in state sponsor-
ship of terrorist activities (specifically including any coun-
try the government of which has been determined by the
Secretary of State under section 620A(a) of the Foreign
Assistance Act of 1961 (22 U.S.C. 2371(a)), section
6(j)(1) of the Export Administration Act of 1979 (50
U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms Ex-
port Control Act (22 U.S.C. 2780(d)) to have repeatedly
provided support for acts of international terrorism).

“(2) This subsection shall not apply to exports, reex-
ports, transfers, or retransfers of radiation monitoring
technologies, surveillance equipment, seals, cameras, tam-
per-indication devices, nuclear detectors, monitoring sys-
tems, or equipment necessary to safely store, transport,
or remove hazardous materials, whether such items, serv-
ices, or information are regulated by the Department of
Energy, the Department of Commerce, or the Nuclear
Regulatory Commission, except to the extent that such
technologies, equipment, seals, cameras, devices, detectors,
or systems are available for use in the design or construc-
tion of nuclear reactors or nuclear weapons.

“(3) The President may waive the application of
paragraph (1) to a country if the President determines
and certifies to Congress that the waiver will not result
in any increased risk that the country receiving the waiver
will acquire nuclear weapons, nuclear reactors, or any ma-
terials or components of nuclear weapons and—

“(A) the government of such country has not
within the preceding 12-month period willfully aided
or abetted the international proliferation of nuclear
explosive devices to individuals or groups or willfully
aided and abetted an individual or groups in acquiring unsafeguarded nuclear materials;

“(B) in the judgment of the President, the government of such country has provided adequate, verifiable assurances that it will cease its support for acts of international terrorism;

“(C) the waiver of that paragraph is in the vital national security interest of the United States; or

“(D) such a waiver is essential to prevent or respond to a serious radiological hazard in the country receiving the waiver that may or does threaten public health and safety.”.

(b) Applicability to Exports Approved for Transfer but Not Transferred.—Subsection b. of section 129 of Atomic Energy Act of 1954, as added by subsection (a) of this section, shall apply with respect to exports that have been approved for transfer as of the date of the enactment of this Act but have not yet been transferred as of that date.

SEC. 638. NATIONAL URANIUM STOCKPILE.

The USEC Privatization Act (42 U.S.C. 2297h et seq.) is amended by adding at the end the following new section:
“SEC. 3118. NATIONAL URANIUM STOCKPILE.

“(a) Stockpile Creation.—The Secretary of Energy may create a national low-enriched uranium stockpile with the goals to—

“(1) enhance national energy security; and

“(2) reduce global proliferation threats.

“(b) Source of Material.—The Secretary shall obtain material for the stockpile from—

“(1) material derived from blend-down of Russian highly enriched uranium derived from weapons materials; and

“(2) domestically mined and enriched uranium.

“(c) Limitation on Sales or Transfers.—Sales or transfer of materials in the stockpile shall occur pursuant to section 3112.”.

SEC. 639. NUCLEAR REGULATORY COMMISSION MEETINGS.

If a quorum of the Nuclear Regulatory Commission gathers to discuss official Commission business the discussions shall be recorded, and the Commission shall notify the public of such discussions within 15 days after they occur. The Commission shall promptly make a transcript of the recording available to the public on request, except to the extent that public disclosure is exempted or prohibited by law. This section shall not apply to a meeting, within the meaning of that term under section 552b(a)(2) of title 5, United States Code.
SEC. 640. EMPLOYEE BENEFITS.

Section 3110 of the USEC Privatization Act (42 U.S.C. 2297h-8(a)) is amended by adding at the end the following new paragraph:

“(8) CONTINUITY OF BENEFITS.—Not later than 30 days after the date of enactment of this paragraph, the Secretary shall implement such actions as are necessary to ensure that any employee who—

“(A) is involved in providing infrastructure or environmental remediation services at the Portsmouth, Ohio, or the Paducah, Kentucky, Gaseous Diffusion Plant;

“(B) has been an employee of the Department of Energy’s predecessor management and integrating contractor (or its first or second tier subcontractors), or of the Corporation, at the Portsmouth, Ohio, or the Paducah, Kentucky, facility; and

“(C) was eligible as of April 1, 2005, to participate in or transfer into the Multiple Employer Pension Plan or the associated multiple employer retiree health care benefit plans, as defined in those plans, shall continue to be eligible to participate in or transfer into such pension or health care benefit plans.”.
Subtitle C—Additional Hydrogen Production Provisions

SEC. 651. HYDROGEN PRODUCTION PROGRAMS.

(a) Advanced Reactor Hydrogen Cogeneration Project.—

(1) Project establishment.— The Secretary is directed to establish an Advanced Reactor Hydrogen Cogeneration Project.

(2) Project definition.— The project shall consist of the research, development, design, construction, and operation of a hydrogen production cogeneration research facility that, relative to the current commercial reactors, enhances safety features, reduces waste production, enhances thermal efficiencies, increases proliferation resistance, and has the potential for improved economics and physical security in reactor siting. This facility shall be constructed so as to enable research and development on advanced reactors of the type selected and on alternative approaches for reactor-based production of hydrogen.

(3) Project management.—

(A) Management.—The project shall be managed within the Department by the Office of Nuclear Energy, Science, and Technology.
(B) Lead Laboratory.—The lead laboratory for the project, providing the site for the reactor construction, shall be the Idaho National Laboratory (in this subsection referred to as “INL”).

(C) Steering Committee.—The Secretary shall establish a national steering committee with membership from the national laboratories, universities, and industry to provide advice to the Secretary and the Director of the Office of Nuclear Energy, Science, and Technology on technical and program management aspects of the project.

(D) Collaboration.—Project activities shall be conducted at INL, other national laboratories, universities, domestic industry, and international partners.

(4) Project Requirements.—

(A) Research and Development.—

(i) In general.—The project shall include planning, research and development, design, and construction of an advanced, next-generation, nuclear energy system suitable for enabling further research and development on advanced reac-
tor technologies and alternative approaches for reactor-based generation of hydrogen.

(ii) Reactor Test Capabilities at INL.—The project shall utilize, where appropriate, extensive reactor test capabilities resident at INL.

(iii) Alternatives.—The project shall be designed to explore technical, environmental, and economic feasibility of alternative approaches for reactor-based hydrogen production.

(iv) Industrial Lead.—The industrial lead for the project shall be a company incorporated in the United States.

(B) International Collaboration.—

(i) In General.—The Secretary shall seek international cooperation, participation, and financial contribution in this project.

(ii) Assistance from International Partners.—The Secretary may contract for assistance from specialists or facilities from member countries of the Generation IV International Forum, the Russian Federation, or other international
partners where such specialists or facilities
provide access to cost-effective and relevant
skills or test capabilities.

(iii) GENERATION IV INTERNATIONAL
FORUM.—International activities shall be
coordinated with the Generation IV Inter-
national Forum.

(iv) GENERATION IV NUCLEAR EN-
ERGY SYSTEMS PROGRAM.—The Secretary
may combine this project with the Genera-
tion IV Nuclear Energy Systems Program.

(C) DEMONSTRATION.—The overall
project, which may involve demonstration of se-
lected project objectives in a partner nation,
must demonstrate both electricity and hydrogen
production and may provide flexibility, where
technically and economically feasible in the de-
sign and construction, to enable tests of alter-
native reactor core and cooling configurations.

(D) PARTNERSHIPS.—The Secretary shall
establish cost-shared partnerships with domestic
industry or international participants for the re-
search, development, design, construction, and
operation of the research facility, and pref-
erence in determining the final project structure
shall be given to an overall project which re-
tains United States leadership while maximizing
cost sharing opportunities and minimizing Fed-
eral funding responsibilities.

(E) TARGET DATE.—The Secretary shall
select technologies and develop the project to
provide initial testing of either hydrogen pro-
duction or electricity generation by 2011, or
provide a report to Congress explaining why
this date is not feasible.

(F) WAIVER OF CONSTRUCTION
tIMELINES.—The Secretary is authorized to
conduct the Advanced Reactor Hydrogen Co-
generation Project without the constraints of
DOE Order 413.3, relating to program and
project management for the acquisition of cap-
ital assets, as necessary to meet the specified
operational date.

(G) COMPETITION.—The Secretary may
fund up to 2 teams for up to 1 year to develop
detailed proposals for competitive evaluation
and selection of a single proposal and concept
for further progress. The Secretary shall define
the format of the competitive evaluation of pro-
posals.
(H) **USE OF FACILITIES.**—Research facilities in industry, national laboratories, or universities either within the United States or with cooperating international partners may be used to develop the enabling technologies for the research facility. Utilization of domestic university-based facilities shall be encouraged to provide educational opportunities for student development.

(I) **ROLE OF NUCLEAR REGULATORY COMMISSION.**—

(i) **IN GENERAL.**—The Nuclear Regulatory Commission shall have licensing and regulatory authority for any reactor authorized under this subsection, pursuant to section 202 of the Energy Reorganization Act of 1974 (42 U.S.C. 5842).

(ii) **RISK-BASED CRITERIA.**—The Secretary shall seek active participation of the Nuclear Regulatory Commission throughout the project to develop risk-based criteria for any future commercial development of a similar reactor architecture.

(J) **REPORT.**—The Secretary shall develop and transmit to Congress a comprehensive
project plan not later than 3 months after the
date of enactment of this Act. The project plan
shall be updated annually with each annual
budget submission.

(b) ADVANCED NUCLEAR REACTOR TECHNOLOGIES.—The Secretary shall—

(1) prepare a detailed roadmap for carrying out
the provisions in this subtitle related to advanced
nuclear reactor technologies and for implementing
the recommendations related to advanced nuclear re-
actor technologies that are included in the report
transmitted under subsection (d); and

(2) provide for the establishment of 5 projects
in geographic areas that are regionally and climati-
cally diverse to demonstrate the commercial produc-
tion of hydrogen at existing nuclear power plants,
including one demonstration project at a national
laboratory or institution of higher education using
an advanced gas-cooled reactor.

c) COLLOCATION WITH HYDROGEN PRODUCTION FACILITY.—Section 103 of the Atomic Energy Act of
1954 (42 U.S.C. 2011) is amended by adding at the end
the following new subsection:

“g. The Commission shall give priority to the licens-
ing of a utilization facility that is collocated with a hydro-
gen production facility. The Commission shall issue a final
decision approving or disapproving the issuance of a li-
cense to construct and operate a utilization facility not
later than the expiration of 3 years after the date of the
submission of such application, if the application ref-
ences a Commission-certified design and an early site
permit, unless the Commission determines that the appli-
cant has proposed material and substantial changes to the
design or the site design parameters.”.

(d) REPORT.—The Secretary shall transmit to the
Congress not later than 120 days after the date of enact-
ment of this Act a report containing detailed summaries
of the roadmaps prepared under subsection (b)(1), de-
scriptions of the Secretary’s progress in establishing the
projects and other programs required under this section,
and recommendations for promoting the availability of ad-
vanced nuclear reactor energy technologies for the produc-
tion of hydrogen.

(e) AUTHORIZATION OF APPROPRIATIONS.—For the
purpose of supporting research programs related to the
development of advanced nuclear reactor technologies
under this section, there are authorized to be appropriated
to the Secretary—

(1) $65,000,000 for fiscal year 2006;

(2) $74,750,000 for fiscal year 2007;
(3) $85,962,500 for fiscal year 2008;
(4) $98,856,875 for fiscal year 2009;
(5) $113,685,406 for fiscal year 2010;
(6) $130,738,217 for fiscal year 2011;
(7) $150,348,950 for fiscal year 2012;
(8) $172,901,292 for fiscal year 2013;
(9) $198,836,486 for fiscal year 2014; and
(10) $228,661,959 for fiscal year 2015.

SEC. 652. DEFINITIONS.

For purposes of this subtitle—

(1) the term “advanced nuclear reactor technologies” means—

(A) technologies related to advanced light water reactors that may be commercially available in the near-term, including mid-sized reactors with passive safety features, for the generation of electric power from nuclear fission and the production of hydrogen; and

(B) technologies related to other nuclear reactors that may require prototype demonstration prior to availability in the mid-term or long-term, including high-temperature, gas-cooled reactors and liquid metal reactors, for the generation of electric power from nuclear fission and the production of hydrogen;
(2) the term “institution of higher education” has the meaning given to that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)); and

(3) the term “Secretary” means the Secretary of Energy.

Subtitle D—Nuclear Security

SEC. 661. NUCLEAR FACILITY THREATS.

(a) STUDY.—The President, in consultation with the Nuclear Regulatory Commission (referred to in this subtitle as the “Commission”) and other appropriate Federal, State, and local agencies and private entities, shall conduct a study to identify the types of threats that pose an appreciable risk to the security of the various classes of facilities licensed by the Commission under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.). Such study shall take into account, but not be limited to—

(1) the events of September 11, 2001;

(2) an assessment of physical, cyber, biochemical, and other terrorist threats;

(3) the potential for attack on facilities by multiple coordinated teams of a large number of individuals;

(4) the potential for assistance in an attack from several persons employed at the facility;
(5) the potential for suicide attacks;
(6) the potential for water-based and air-based threats;
(7) the potential use of explosive devices of considerable size and other modern weaponry;
(8) the potential for attacks by persons with a sophisticated knowledge of facility operations;
(9) the potential for fires, especially fires of long duration;
(10) the potential for attacks on spent fuel shipments by multiple coordinated teams of a large number of individuals;
(11) the adequacy of planning to protect the public health and safety at and around nuclear facilities, as appropriate, in the event of a terrorist attack against a nuclear facility; and
(12) the potential for theft and diversion of nuclear materials from such facilities.

(b) **Summary and Classification Report.**—Not later than 180 days after the date of the enactment of this Act, the President shall transmit to Congress and the Commission a report—
(1) summarizing the types of threats identified under subsection (a); and
(2) classifying each type of threat identified under subsection (a), in accordance with existing laws and regulations, as either—

(A) involving attacks and destructive acts, including sabotage, directed against the facility by an enemy of the United States, whether a foreign government or other person, or otherwise falling under the responsibilities of the Federal Government; or

(B) involving the type of risks that Commission licensees should be responsible for guarding against.

(c) FEDERAL ACTION REPORT.—Not later than 90 days after the date on which a report is transmitted under subsection (b), the President shall transmit to Congress a report on actions taken, or to be taken, to address the types of threats identified under subsection (b)(2)(A), including identification of the Federal, State, and local agencies responsible for carrying out the obligations and authorities of the United States. Such report may include a classified annex, as appropriate.

(d) REGULATIONS.—Not later than 180 days after the date on which a report is transmitted under subsection (b), the Commission may revise, by rule, the design basis threats issued before the date of enactment of this section
as the Commission considers appropriate based on the summary and classification report.

(e) **Physical Security Program.**—The Commission shall establish an operational safeguards response evaluation program that ensures that the physical protection capability and operational safeguards response for sensitive nuclear facilities, as determined by the Commission consistent with the protection of public health and the common defense and security, shall be tested periodically through Commission approved or designed, observed, and evaluated force-on-force exercises to determine whether the ability to defeat the design basis threat is being maintained. For purposes of this subsection, the term “sensitive nuclear facilities” includes at a minimum commercial nuclear power plants and category I fuel cycle facilities.

(f) **Control of Information.**—Notwithstanding any other provision of law, the Commission may undertake any rulemaking under this subtitle in a manner that will fully protect safeguards and classified national security information.

(g) **Federal Security Coordinators.**—

(1) **Regional Offices.**—Not later than 18 months after the date of enactment of this Act, the Commission shall assign a Federal security coordi-
nator, under the employment of the Commission, to each region of the Commission.

(2) RESPONSIBILITIES.—The Federal security coordinator shall be responsible for—

(A) communicating with the Commission and other Federal, State, and local authorities concerning threats, including threats against such classes of facilities as the Commission determines to be appropriate;

(B) ensuring that such classes of facilities as the Commission determines to be appropriate maintain security consistent with the security plan in accordance with the appropriate threat level; and

(C) assisting in the coordination of security measures among the private security forces at such classes of facilities as the Commission determines to be appropriate and Federal, State, and local authorities, as appropriate.

(h) TRAINING PROGRAM.—The President shall establish a program to provide technical assistance and training to Federal agencies, the National Guard, and State and local law enforcement and emergency response agencies in responding to threats against a designated nuclear facility.
SEC. 662. FINGERPRINTING FOR CRIMINAL HISTORY

RECORD CHECKS.

(a) In General.—Subsection a. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(a)) is amended—

(1) by striking “a. The Nuclear” and all that follows through “section 147.” and inserting the following:

“a. IN GENERAL.—

“(1) REQUIREMENTS.—

“(A) IN GENERAL.—The Commission shall require each individual or entity—

“(i) that is licensed or certified to engage in an activity subject to regulation by the Commission;

“(ii) that has filed an application for a license or certificate to engage in an activity subject to regulation by the Commission; or

“(iii) that has notified the Commission, in writing, of an intent to file an application for licensing, certification, permitting, or approval of a product or activity subject to regulation by the Commission,

to fingerprint each individual described in subparagraph (B) before the individual is per-
mitted unescorted access or access, whichever is applicable, as described in subparagraph (B).

“(B) **INDIVIDUALS REQUIRED TO BE FINGERPRINTED.**—The Commission shall require to be fingerprinted each individual who—

“(i) is permitted unescorted access to—

“(I) a utilization facility; or

“(II) radioactive material or other property subject to regulation by the Commission that the Commission determines to be of such significance to the public health and safety or the common defense and security as to warrant fingerprinting and background checks; or

“(ii) is permitted access to safeguards information under section 147.”;

(2) by striking “All fingerprints obtained by a licensee or applicant as required in the preceding sentence” and inserting the following:

“(2) **SUBMISSION TO THE ATTORNEY GENERAL.**—All fingerprints obtained by an individual or entity as required in paragraph (1)”;}
(3) by striking “The costs of any identification and records check conducted pursuant to the preceding sentence shall be paid by the licensee or applicant.” and inserting the following:

“(3) Costs.—The costs of any identification and records check conducted pursuant to paragraph (1) shall be paid by the individual or entity required to conduct the fingerprinting under paragraph (1)(A).”; and

(4) by striking “Notwithstanding any other provision of law, the Attorney General may provide all the results of the search to the Commission, and, in accordance with regulations prescribed under this section, the Commission may provide such results to licensee or applicant submitting such fingerprints.” and inserting the following:

“(4) Provision to individual or entity required to conduct fingerprinting.—Notwithstanding any other provision of law, the Attorney General may provide all the results of the search to the Commission, and, in accordance with regulations prescribed under this section, the Commission may provide such results to the individual or entity required to conduct the fingerprinting under paragraph (1)(A).”.
(b) ADMINISTRATION.—Subsection c. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(c)) is amended—

(1) by striking “, subject to public notice and comment, regulations—” and inserting “requirements—”; and

(2) by striking, in paragraph (2)(B), “unescorted access to the facility of a licensee or applicant” and inserting “unescorted access to a utilization facility, radioactive material, or other property described in subsection a.(1)(B)”.

(c) BIOMETRIC METHODS.—Subsection d. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(d)) is redesignated as subsection e., and the following is inserted after subsection e.:

“d. USE OF OTHER BIOMETRIC METHODS.—The Commission may satisfy any requirement for a person to conduct fingerprinting under this section using any other biometric method for identification approved for use by the Attorney General, after the Commission has approved the alternative method by rule.”.
SEC. 663. USE OF FIREARMS BY SECURITY PERSONNEL OF LICENSEES AND CERTIFICATE HOLDERS OF THE COMMISSION.

Section 161 of the Atomic Energy Act of 1954 (42 U.S.C. 2201) is amended by adding at the end the following subsection:

“(z)(1) notwithstanding section 922(o), (v), and (w) of title 18, United States Code, or any similar provision of any State law or any similar rule or regulation of a State or any political subdivision of a State prohibiting the transfer or possession of a handgun, a rifle or shotgun, a short-barreled shotgun, a short-barreled rifle, a machinegun, a semi-automatic assault weapon, ammunition for the foregoing, or a large capacity ammunition feeding device, authorize security personnel of licensees and certificate holders of the Commission (including employees of contractors of licensees and certificate holders) to receive, possess, transport, import, and use 1 or more of those weapons, ammunition, or devices, if the Commission determines that—

“(A) such authorization is necessary to the discharge of the security personnel’s official duties; and

“(B) the security personnel—
“(i) are not otherwise prohibited from possessing or receiving a firearm under Federal or State laws pertaining to possession of firearms by certain categories of persons;

“(ii) have successfully completed requirements established through guidelines implementing this subsection for training in use of firearms and tactical maneuvers;

“(iii) are engaged in the protection of—

“(I) facilities owned or operated by a Commission licensee or certificate holder that are designated by the Commission; or

“(II) radioactive material or other property owned or possessed by a person that is a licensee or certificate holder of the Commission, or that is being transported to or from a facility owned or operated by such a licensee or certificate holder, and that has been determined by the Commission to be of significance to the com-
mon defense and security or public
health and safety; and
“(iv) are discharging their official du-
ties.
“(2) Such receipt, possession, transportation,
importation, or use shall be subject to—
“(A) chapter 44 of title 18, United States
Code, except for section 922(a)(4), (o), (v), and
(w);
“(B) chapter 53 of title 26, United States
Code, except for section 5844; and
“(C) a background check by the Attorney
General, based on fingerprints and including a
check of the system established under section
103(b) of the Brady Handgun Violence Preven-
tion Act (18 U.S.C. 922 note) to determine
whether the person applying for the authority is
prohibited from possessing or receiving a fire-
arm under Federal or State law.
“(3) This subsection shall become effective
upon the issuance of guidelines by the Commission,
with the approval of the Attorney General, to govern
the implementation of this subsection.
“(4) In this subsection, the terms ‘handgun’,
‘rifle’, ‘shotgun’, ‘firearm’, ‘ammunition’, ‘machine-
gun’, ‘semiautomatic assault weapon’, ‘large capacity ammunition feeding device’, ‘short-barreled shotgun’, and ‘short-barreled rifle’ shall have the meanings given those terms in section 921(a) of title 18, United States Code.”.

6 SEC. 664. UNAUTHORIZED INTRODUCTION OF DANGEROUS WEAPONS.

Section 229 a. of the Atomic Energy Act of 1954 (42 U.S.C. 2278a(a)) is amended in the first sentence by inserting “or subject to the licensing authority of the Commission or to certification by the Commission under this Act or any other Act” before the period at the end.

SEC. 665. SABOTAGE OF NUCLEAR FACILITIES OR FUEL.

(a) In General.—Section 236 a. of the Atomic Energy Act of 1954 (42 U.S.C. 2284(a)) is amended—

(1) in paragraph (2), by striking “storage facility” and inserting “storage, treatment, or disposal facility”;

(2) in paragraph (3)—

(A) by striking “such a utilization facility” and inserting “a utilization facility licensed under this Act”; and

(B) by striking “or” at the end;

(3) in paragraph (4)—
(A) by striking “facility licensed” and inserting “, uranium conversion, or nuclear fuel fabrication facility licensed or certified”; and

(B) by striking the comma at the end and inserting a semicolon; and

(4) by inserting after paragraph (4) the following:

“(5) any production, utilization, waste storage, waste treatment, waste disposal, uranium enrichment, uranium conversion, or nuclear fuel fabrication facility subject to licensing or certification under this Act during construction of the facility, if the destruction or damage caused or attempted to be caused could adversely affect public health and safety during the operation of the facility;

“(6) any primary facility or backup facility from which a radiological emergency preparedness alert and warning system is activated; or

“(7) any radioactive material or other property subject to regulation by the Nuclear Regulatory Commission that, before the date of the offense, the Nuclear Regulatory Commission determines, by order or regulation published in the Federal Register, is of significance to the public health and safety or to common defense and security,”.

•HR 6 IH
(b) PENALTIES.—Section 236 of the Atomic Energy
Act of 1954 (42 U.S.C. 2284) is amended by striking
“$10,000 or imprisoned for not more than 20 years, or
both, and, if death results to any person, shall be impris-
oned for any term of years or for life” both places it ap-
ppears and inserting “$1,000,000 or imprisoned for up to
life without parole”.

SEC. 666. SECURE TRANSFER OF NUCLEAR MATERIALS.

(a) AMENDMENT.—Chapter 14 of the Atomic Energy
Act of 1954 (42 U.S.C. 2201–2210b) is amended by add-
ing at the end the following new section:

“SEC. 170C. SECURE TRANSFER OF NUCLEAR MATERIALS.

“a. The Nuclear Regulatory Commission shall estab-
lish a system to ensure that materials described in sub-
section b., when transferred or received in the United
States by any party pursuant to an import or export li-
cense issued pursuant to this Act, are accompanied by a
manifest describing the type and amount of materials
being transferred or received. Each individual receiving or
accompanying the transfer of such materials shall be sub-
ject to a security background check conducted by appro-
priate Federal entities.

“b. Except as otherwise provided by the Commission
by regulation, the materials referred to in subsection a.
are byproduct materials, source materials, special nuclear
materials, high-level radioactive waste, spent nuclear fuel, transuranic waste, and low-level radioactive waste (as defined in section 2(16) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101(16))).”.

(b) REGULATIONS.—Not later than 1 year after the date of the enactment of this Act, and from time to time thereafter as it considers necessary, the Nuclear Regulatory Commission shall issue regulations identifying radioactive materials or classes of individuals that, consistent with the protection of public health and safety and the common defense and security, are appropriate exceptions to the requirements of section 170C of the Atomic Energy Act of 1954, as added by subsection (a) of this section.

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect upon the issuance of regulations under subsection (b), except that the background check requirement shall become effective on a date established by the Commission.

(d) EFFECT ON OTHER LAW.—Nothing in this section or the amendment made by this section shall waive, modify, or affect the application of chapter 51 of title 49, United States Code, part A of subtitle V of title 49, United States Code, part B of subtitle VI of title 49, United States Code, and title 23, United States Code.
(c) Table of Sections Amendment.—The table of sections for chapter 14 of the Atomic Energy Act of 1954 is amended by adding at the end the following new item:

"Sec. 170C. Secure transfer of nuclear materials."

SEC. 667. DEPARTMENT OF HOMELAND SECURITY CONSULTATION.

Before issuing a license for a utilization facility, the Nuclear Regulatory Commission shall consult with the Department of Homeland Security concerning the potential vulnerabilities of the location of the proposed facility to terrorist attack.

SEC. 668. AUTHORIZATION OF APPROPRIATIONS.

(a) In General.—There are authorized to be appropriated such sums as are necessary to carry out this subtitle and the amendments made by this subtitle.

(b) Nuclear Regulatory Commission User Fees and Annual Charges.—Section 6101 of the Omnibus Budget Reconciliation Act of 1990 (42 U.S.C. 2214) is amended—

(1) in subsection (a)—

(A) by striking "Except as provided in paragraph (3), the’’ and inserting "The’’ in paragraph (1); and

(B) by striking paragraph (3); and

(2) in subsection (c)—
(A) by striking “and” at the end of paragraph (2)(A)(i);

(B) by striking the period at the end of paragraph (2)(A)(ii) and inserting a semicolon;

(C) by adding at the end of paragraph (2)(A) the following new clauses:

“(iii) amounts appropriated to the Commission for the fiscal year for implementation of section 3116 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005; and

“(iv) amounts appropriated to the Commission for homeland security activities of the Commission for the fiscal year, except for the costs of fingerprinting and background checks required by section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169) and the costs of conducting security inspections.”; and

(D) by amending paragraph (2)(B)(v) to read as follows:

“(v) 90 percent for fiscal year 2005 and each fiscal year thereafter.”.
(c) REPEAL.—Section 7601 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (42 U.S.C. 2213) is repealed.

**TITLE VII—VEHICLES AND FUELS**

**Subtitle A—Existing Programs**

**SEC. 701. USE OF ALTERNATIVE FUELS BY DUAL-FUELED VEHICLES.**

Section 400AA(a)(3)(E) of the Energy Policy and Conservation Act (42 U.S.C. 6374(a)(3)(E)) is amended to read as follows:

“(E)(i) Dual fueled vehicles acquired pursuant to this section shall be operated on alternative fuels unless the Secretary determines that an agency qualifies for a waiver of such requirement for vehicles operated by the agency in a particular geographic area in which—

“(I) the alternative fuel otherwise required to be used in the vehicle is not reasonably available to retail purchasers of the fuel, as certified to the Secretary by the head of the agency; or

“(II) the cost of the alternative fuel otherwise required to be used in the vehicle is unreasonably more expensive compared to gasoline, as certified to the Secretary by the head of the agency.
“(ii) The Secretary shall monitor compliance with this subparagraph by all such fleets and shall report annually to Congress on the extent to which the requirements of this subparagraph are being achieved. The report shall include information on annual reductions achieved from the use of petroleum-based fuels and the problems, if any, encountered in acquiring alternative fuels.”.

SEC. 704. INCREMENTAL COST ALLOCATION.

Section 303(c) of the Energy Policy Act of 1992 (42 U.S.C. 13212(c)) is amended by striking “may” and inserting “shall”.

SEC. 705. LEASE CONDENSATES.

(a) LEASE CONDENSATE FUELS.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) is amended—

(1) in paragraph (2), by inserting “mixtures containing 50 percent or more by volume of lease condensate or fuels extracted from lease condensate;” after “liquefied petroleum gas;”;

(2) in paragraph (13), by striking “and” at the end;

(3) in paragraph (14)—

(A) by inserting “mixtures containing 50 percent or more by volume of lease condensate
or fuels extracted from lease condensate,” after “liquefied petroleum gas,”; and

(B) by striking the period and inserting “;

and”;

(4) by adding at the end the following:

“(15) the term ‘lease condensate’ means a mixture, primarily of pentanes and heavier hydrocarbons, that is recovered as a liquid from natural gas in lease separation facilities.”.

(b) LEASE CONDENSATE USE CREDITS.—

(1) IN GENERAL.—Title III of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.) is amended by adding at the end the following:

“SEC. 313. LEASE CONDENSATE USE CREDITS.

“(a) IN GENERAL.—Subject to subsection (d), the Secretary shall allocate 1 credit under this section to a fleet or covered person for each qualifying volume of the lease condensate component of fuel containing at least 50 percent lease condensate, or fuels extracted from lease condensate, after the date of enactment of this section for use by the fleet or covered person in vehicles owned or operated by the fleet or covered person that weigh more than 8,500 pounds gross vehicle weight rating.

“(b) REQUIREMENTS.—A credit allocated under this section—

•HR 6 IH
“(1) shall be subject to the same exceptions, authority, documentation, and use of credits that are specified for qualifying volumes of biodiesel in section 312; and

“(2) shall not be considered a credit under section 508.

“(c) Regulation.—

“(1) In general.—Subject to subsection (d), not later than January 1, 2006, after the collection of appropriate information and data that consider usage options, uses in other industries, products, or processes, potential volume capacities, costs, air emissions, and fuel efficiencies, the Secretary shall issue a regulation establishing requirements and procedures for the implementation of this section.

“(2) Qualifying volume.—The regulation shall include a determination of an appropriate qualifying volume for lease condensate, except that in no case shall the Secretary determine that the qualifying volume for lease condensate is less than 1,125 gallons.

“(d) Applicability.—This section applies unless the Secretary finds that the use of lease condensate as an alternative fuel would adversely affect public health or safety or ambient air quality or the environment.”.
(2) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy Act of 1992 (42 U.S.C. prec. 13201) is amended by adding at the end of the items relating to title III the following:

"Sec. 313. Lease condensate use credits."

(c) EMERGENCY EXEMPTION.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) is amended in paragraph (9)(E) by inserting before the semicolon at the end "", including vehicles directly used in the emergency repair of transmission lines and in the restoration of electricity service following power outages, as determined by the Secretary".

SEC. 706. REVIEW OF ENERGY POLICY ACT OF 1992 PROGRAMS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Secretary of Energy shall complete a study to determine the effect that titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.) have had on—

(1) the development of alternative fueled vehicle technology;

(2) the availability of that technology in the market; and

(3) the cost of alternative fueled vehicles.
(b) Topics.—As part of the study under subsection (a), the Secretary shall specifically identify—

(1) the number of alternative fueled vehicles acquired by fleets or covered persons required to acquire alternative fueled vehicles;

(2) the quantity, by type, of alternative fuel actually used in alternative fueled vehicles acquired by fleets or covered persons;

(3) the quantity of petroleum displaced by the use of alternative fuels in alternative fueled vehicles acquired by fleets or covered persons;

(4) the direct and indirect costs of compliance with requirements under titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.), including—

(A) vehicle acquisition requirements imposed on fleets or covered persons;

(B) administrative and recordkeeping expenses;

(C) fuel and fuel infrastructure costs;

(D) associated training and employee expenses; and

(E) any other factors or expenses the Secretary determines to be necessary to compile reliable estimates of the overall costs and benefits
of complying with programs under those titles
for fleets, covered persons, and the national
economy;

(5) the existence of obstacles preventing compli-
ance with vehicle acquisition requirements and in-
creased use of alternative fuel in alternative fueled
vehicles acquired by fleets or covered persons; and

(6) the projected impact of amendments to the

(c) REPORT.—Upon completion of the study under
this section, the Secretary shall submit to Congress a re-
port that describes the results of the study and includes
any recommendations of the Secretary for legislative or
administrative changes concerning the alternative fueled
vehicle requirements under titles III, IV and V of the En-

SEC. 707. REPORT CONCERNING COMPLIANCE WITH AL-
TERNATIVE FUELED VEHICLE PURCHASING

REQUIREMENTS.

Section 310(b)(1) of the Energy Policy Act of 1992
(42 U.S.C. 13218(b)(1)) is amended by striking “1 year
after the date of enactment of this subsection” and insert-
ing “February 15, 2006”.
Subtitle B—Hybrid Vehicles, Advanced Vehicles, and Fuel Cell Buses

PART 1—HYBRID VEHICLES

SEC. 711. HYBRID VEHICLES.

The Secretary of Energy shall accelerate efforts directed toward the improvement of batteries and other rechargeable energy storage systems, power electronics, hybrid systems integration, and other technologies for use in hybrid vehicles.

SEC. 712. HYBRID RETROFIT AND ELECTRIC CONVERSION PROGRAM.

(a) ESTABLISHMENT.—The Administrator of the Environmental Protection Agency, in consultation with the Secretary, shall establish a program for awarding grants on a competitive basis to entities for the installation of hybrid retrofit and electric conversion technologies for combustion engine vehicles.

(b) ELIGIBLE RECIPIENTS.—A grant shall be awarded under this section only—

(1) to a local or State governmental entity;

(2) to a for-profit or nonprofit corporation or other person; or
(3) to 1 or more contracting entities that service combustion engine vehicles for an entity described in paragraph (1) or (2).

(c) AWARDS.—

(1) IN GENERAL.—The Administrator shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of grants under this section.

(2) PREFERENCES.—In making awards of grants under this section, the Administrator shall give preference to proposals that—

(A) will achieve the greatest reductions in emissions per proposal or per vehicle; or

(B) involve the use of emissions control retrofit or conversion technology.

(d) CONDITIONS OF GRANT.—A grant shall be provided under this section on the conditions that—

(1) combustion engine vehicles on which hybrid retrofit or conversion technology are to be demonstrated—

(A) with the retrofit or conversion technology applied will achieve low-emission standards consistent with the Voluntary National Low Emission Vehicle Program for Light-Duty...
Vehicles and Light-Duty Trucks (40 CFR Part 86) without model year restrictions; and

(B) will be used for a minimum of 3 years;

(2) grant funds will be used for the purchase of hybrid retrofit or conversion technology, including State taxes and contract fees; and

(3) grant recipients will provide at least 15 percent of the total cost of the retrofit or conversion, including the purchase of hybrid retrofit or conversion technology and all necessary labor for installation of the retrofit or conversion.

e) **VERIFICATION.**—Not later than 90 days after the date of enactment of this Act, the Administrator shall publish in the Federal Register procedures to verify—

(1) the hybrid retrofit or conversion technology to be demonstrated; and

(2) that grants are administered in accordance with this section.

f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) $20,000,000 for fiscal year 2005;

(2) $35,000,000 for fiscal year 2006;

(3) $45,000,000 for fiscal year 2007; and
(4) such sums as are necessary for each of fiscal years 2008 and 2009.

PART 2—ADVANCED VEHICLES

SEC. 721. DEFINITIONS.

In this part:

(1) ALTERNATIVE FUELED VEHICLE.—

(A) IN GENERAL.—The term “alternative fueled vehicle” means a vehicle propelled solely on an alternative fuel (as defined in section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211)).

(B) EXCLUSION.—The term “alternative fueled vehicle” does not include a vehicle that the Secretary determines, by regulation, does not yield substantial environmental benefits over a vehicle operating solely on gasoline or diesel derived from fossil fuels.

(2) FUEL CELL VEHICLE.—The term “fuel cell vehicle” means a vehicle propelled by an electric motor powered by a fuel cell system that converts chemical energy into electricity by combining oxygen (from air) with hydrogen fuel that is stored on the vehicle or is produced onboard by reformation of a hydrocarbon fuel. Such fuel cell system may or may
not include the use of auxiliary energy storage sys-
tems to enhance vehicle performance.

(3) Hybrid Vehicle.—The term “hybrid vehi-

(4) Neighborhood Electric Vehicle.—The
term “neighborhood electric vehicle” means a motor
vehicle that—

(A) meets the definition of a low-speed ve-
hicle (as defined in part 571 of title 49, Code
of Federal Regulations);

(B) meets the definition of a zero-emission
vehicle (as defined in section 86.1702–99 of
title 40, Code of Federal Regulations);

(C) meets the requirements of Federal
Motor Vehicle Safety Standard No. 500; and

(D) has a maximum speed of not greater
than 25 miles per hour.

(5) Pilot Program.—The term “pilot pro-
gram” means the competitive grant program estab-
lished under section 722.

(6) Secretary.—The term “Secretary” means
the Secretary of Energy.
(7) **Ultra-low sulfur diesel vehicle.**—

The term “ultra-low sulfur diesel vehicle” means a vehicle manufactured in any of model years 2004 through 2006 powered by a heavy-duty diesel engine that—

(A) is fueled by diesel fuel that contains sulfur at not more than 15 parts per million; and

(B) emits not more than the lesser of—

(i) for vehicles manufactured in model years 2004 through 2006, 2.5 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; or

(ii) the quantity of emissions of nonmethane hydrocarbons, oxides of nitrogen, and particulate matter of the best-performing technology of ultra-low sulfur diesel vehicles of the same class and application that are commercially available.

**SEC. 722. PILOT PROGRAM.**

(a) **Establishment.**—The Secretary, in consultation with the Secretary of Transportation, shall establish a competitive grant pilot program, to be administered
through the Clean Cities Program of the Department of
Energy, to provide not more than 15 geographically dis-
erspersed project grants to State governments, local govern-
ments, or metropolitan transportation authorities to carry
out a project or projects for the purposes described in sub-
section (b).

(b) GRANT PURPOSES.—A grant under this section
may be used for the following purposes:

(1) The acquisition of alternative fueled vehicles
or fuel cell vehicles, including—

(A) passenger vehicles (including neighbor-
hood electric vehicles); and

(B) motorized 2-wheel bicycles, scooters, or
other vehicles for use by law enforcement per-
sonnel or other State or local government or
metropolitan transportation authority employ-
ees.

(2) The acquisition of alternative fueled vehi-
cles, hybrid vehicles, or fuel cell vehicles, including—

(A) buses used for public transportation or
transportation to and from schools;

(B) delivery vehicles for goods or services;

and

(C) ground support vehicles at public air-
ports (including vehicles to carry baggage or
push or pull airplanes toward or away from terminal gates).

(3) The acquisition of ultra-low sulfur diesel vehicles.

(4) Installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant, including fueling and other support equipment.

(5) Operation and maintenance of vehicles, infrastructure, and equipment acquired as part of a project funded by the grant.

(c) APPLICATIONS.—

(1) REQUIREMENTS.—

(A) IN GENERAL.—The Secretary shall issue requirements for applying for grants under the pilot program.

(B) MINIMUM REQUIREMENTS.—At a minimum, the Secretary shall require that an application for a grant—

(i) be submitted by the head of a State or local government or a metropolitan transportation authority, or any combination thereof, and a registered partici-
part in the Clean Cities Program of the Department of Energy; and

(ii) include—

(I) a description of the project proposed in the application, including how the project meets the requirements of this part;

(II) an estimate of the ridership or degree of use of the project;

(III) an estimate of the air pollution emissions reduced and fossil fuel displaced as a result of the project, and a plan to collect and disseminate environmental data, related to the project to be funded under the grant, over the life of the project;

(IV) a description of how the project will be sustainable without Federal assistance after the completion of the term of the grant;

(V) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project;
(VI) a description of which costs of the project will be supported by Federal assistance under this part; and

(VII) documentation to the satisfaction of the Secretary that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the project, and a commitment by the applicant to use such fuel in carrying out the project.

(2) PARTNERS.—An applicant under paragraph (1) may carry out a project under the pilot program in partnership with public and private entities.

(d) SELECTION CRITERIA.—In evaluating applications under the pilot program, the Secretary shall—

(1) consider each applicant’s previous experience with similar projects; and

(2) give priority consideration to applications that—

(A) are most likely to maximize protection of the environment;

(B) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likeli-
hood that the project will be maintained or ex-
expanded after Federal assistance under this part
is completed; and

(C) exceed the minimum requirements of
subsection (c)(1)(B)(ii).

(e) PILOT PROJECT REQUIREMENTS.—

(1) MAXIMUM AMOUNT.—The Secretary shall
not provide more than $20,000,000 in Federal as-
sistance under the pilot program to any applicant.

(2) COST SHARING.—The Secretary shall not
provide more than 50 percent of the cost, incurred
during the period of the grant, of any project under
the pilot program.

(3) MAXIMUM PERIOD OF GRANTS.—The Sec-
retary shall not fund any applicant under the pilot
program for more than 5 years.

(4) DEPLOYMENT AND DISTRIBUTION.—The
Secretary shall seek to the maximum extent prac-
ticable to ensure a broad geographic distribution of
project sites.

(5) TRANSFER OF INFORMATION AND KNOWL-
EDGE.—The Secretary shall establish mechanisms to
ensure that the information and knowledge gained
by participants in the pilot program are transferred
among the pilot program participants and to other
interested parties, including other applicants that submitted applications.

(f) Schedule.—

(1) Publication.—Not later than 90 days after the date of enactment of this Act, the Secretary shall publish in the Federal Register, Commerce Business Daily, and elsewhere as appropriate, a request for applications to undertake projects under the pilot program. Applications shall be due not later than 180 days after the date of publication of the notice.

(2) Selection.—Not later than 180 days after the date by which applications for grants are due, the Secretary shall select by competitive, peer reviewed proposal, all applications for projects to be awarded a grant under the pilot program.

(g) Limit on Funding.—The Secretary shall provide not less than 20 nor more than 25 percent of the grant funding made available under this section for the acquisition of ultra-low sulfur diesel vehicles.

SEC. 723. REPORTS TO CONGRESS.

(a) Initial Report.—Not later than 60 days after the date on which grants are awarded under this part, the Secretary shall submit to Congress a report containing—
(1) an identification of the grant recipients and a description of the projects to be funded;

(2) an identification of other applicants that submitted applications for the pilot program; and

(3) a description of the mechanisms used by the Secretary to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(b) EVALUATION.—Not later than 3 years after the date of enactment of this Act, and annually thereafter until the pilot program ends, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including—

(1) an assessment of the benefits to the environment derived from the projects included in the pilot program; and

(2) an estimate of the potential benefits to the environment to be derived from widespread application of alternative fueled vehicles and ultra-low sulfur diesel vehicles.
SEC. 724. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this part $200,000,000, to remain available until expended.

PART 3—FUEL CELL BUSES

SEC. 731. FUEL CELL TRANSIT BUS DEMONSTRATION.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish a transit bus demonstration program to make competitive, merit-based awards for 5-year projects to demonstrate not more than 25 fuel cell transit buses (and necessary infrastructure) in 5 geographically dispersed localities.

(b) PREFERENCE.—In selecting projects under this section, the Secretary of Energy shall give preference to projects that are most likely to mitigate congestion and improve air quality.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy to carry out this section $10,000,000 for each of fiscal years 2006 through 2010.

Subtitle C—Clean School Buses

SEC. 741. DEFINITIONS.

In this subtitle:
1 (1) ADMINISTRATOR.—The term “Administrator” means the Administrator of the Environmental Protection Agency.

2 (2) ALTERNATIVE FUEL.—The term “alternative fuel” means liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, propane, or methanol or ethanol at no less than 85 percent by volume.

3 (3) ALTERNATIVE FUEL SCHOOL BUS.—The term “alternative fuel school bus” means a school bus that meets all of the requirements of this subtitle and is operated solely on an alternative fuel.

4 (4) EMISSIONS CONTROL RETROFIT TECHNOLOGY.—The term “emissions control retrofit technology” means a particulate filter or other emissions control equipment that is verified or certified by the Administrator or the California Air Resources Board as an effective emission reduction technology when installed on an existing school bus.

5 (5) IDLING.—The term “idling” means operating an engine while remaining stationary for more than approximately 15 minutes, except that the term does not apply to routine stoppages associated with traffic movement or congestion.
(6) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(7) **ULTRA-LOW SULFUR DIESEL FUEL.**—The term “ultra-low sulfur diesel fuel” means diesel fuel that contains sulfur at not more than 15 parts per million.

(8) **ULTRA-LOW SULFUR DIESEL FUEL SCHOOL BUS.**—The term “ultra-low sulfur diesel fuel school bus” means a school bus that meets all of the requirements of this subtitle and is operated solely on ultra-low sulfur diesel fuel.

**SEC. 742. PROGRAM FOR REPLACEMENT OF CERTAIN SCHOOL BUSES WITH CLEAN SCHOOL BUSES.**

(a) **ESTABLISHMENT.**—The Administrator, in consultation with the Secretary and other appropriate Federal departments and agencies, shall establish a program for awarding grants on a competitive basis to eligible entities for the replacement of existing school buses manufactured before model year 1991 with alternative fuel school buses and ultra-low sulfur diesel fuel school buses.

(b) **REQUIREMENTS.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of enactment of this Act, the Administrator shall establish and publish in the Federal Register grant requirements on eligibility for assistance, and
on implementation of the program established under subsection (a), including instructions for the submission of grant applications and certification requirements to ensure compliance with this subtitle.

(2) APPLICATION DEADLINES.—The requirements established under paragraph (1) shall require submission of grant applications not later than—

(A) in the case of the first year of program implementation, the date that is 180 days after the publication of the requirements in the Federal Register; and

(B) in the case of each subsequent year, June 1 of the year.

(e) ELIGIBLE RECIPIENTS.—A grant shall be awarded under this section only—

(1) to 1 or more local or State governmental entities responsible for providing school bus service to 1 or more public school systems or responsible for the purchase of school buses;

(2) to 1 or more contracting entities that provide school bus service to 1 or more public school systems, if the grant application is submitted jointly with the 1 or more school systems to be served by the buses, except that the application may provide that buses purchased using funds awarded shall be
owned, operated, and maintained exclusively by the
1 or more contracting entities; or

(3) to a nonprofit school transportation associa-
1 tion representing private contracting entities, if the
2 association has notified and received approval from
3 the 1 or more school systems to be served by the
4 buses.

(d) AWARD DEADLINES.—

(1) IN GENERAL.—Subject to paragraph (2),
the Administrator shall award a grant made to a
qualified applicant for a fiscal year—

(A) in the case of the first fiscal year of
1 program implementation, not later than the
2 date that is 90 days after the application dead-
3 line established under subsection (b)(2); and

(B) in the case of each subsequent fiscal
4 year, not later than August 1 of the fiscal year.

(2) INSUFFICIENT NUMBER OF QUALIFIED
GRANT APPLICATIONS.—If the Administrator does
not receive a sufficient number of qualified grant ap-
lications to meet the requirements of subsection
(i)(1) for a fiscal year, the Administrator shall
award a grant made to a qualified applicant under
subsection (i)(2) not later than September 30 of the
fiscal year.
(c) Types of Grants.—

(1) In general.—A grant under this section shall be used for the replacement of school buses manufactured before model year 1991 with alternative fuel school buses and ultra-low sulfur diesel fuel school buses.

(2) No economic benefit.—Other than the receipt of the grant, a recipient of a grant under this section may not receive any economic benefit in connection with the receipt of the grant.

(3) Priority of grant applications.—The Administrator shall give priority to applicants that propose to replace school buses manufactured before model year 1977.

(f) Conditions of grant.—A grant provided under this section shall include the following conditions:

(1) School bus fleet.—All buses acquired with funds provided under the grant shall be operated as part of the school bus fleet for which the grant was made for a minimum of 5 years.

(2) Use of funds.—Funds provided under the grant may only be used—

(A) to pay the cost, except as provided in paragraph (3), of new alternative fuel school buses or ultra-low sulfur diesel fuel school
buses, including State taxes and contract fees associated with the acquisition of such buses; and

(B) to provide—

(i) up to 20 percent of the price of the alternative fuel school buses acquired, for necessary alternative fuel infrastructure if the infrastructure will only be available to the grant recipient; and

(ii) up to 25 percent of the price of the alternative fuel school buses acquired, for necessary alternative fuel infrastructure if the infrastructure will be available to the grant recipient and to other bus fleets.

(3) GRANT RECIPIENT FUNDS.—The grant recipient shall be required to provide at least—

(A) in the case of a grant recipient described in paragraph (1) or (3) of subsection (c), the lesser of—

(i) an amount equal to 15 percent of the total cost of each bus received; or

(ii) $15,000 per bus; and

(B) in the case of a grant recipient described in subsection (c)(2), the lesser of—
(i) an amount equal to 20 percent of
the total cost of each bus received; or

(ii) $20,000 per bus.

(4) ULTRA-LOW SULFUR DIESEL FUEL.—In the
case of a grant recipient receiving a grant for ultra-
low sulfur diesel fuel school buses, the grant recipi-
ent shall be required to provide documentation to
the satisfaction of the Administrator that diesel fuel
containing sulfur at not more than 15 parts per mil-
ion is available for carrying out the purposes of the
grant, and a commitment by the applicant to use
such fuel in carrying out the purposes of the grant.

(5) TIMING.—All alternative fuel school buses,
ultra-low sulfur diesel fuel school buses, or alter-
native fuel infrastructure acquired under a grant
awarded under this section shall be purchased and
placed in service as soon as practicable.

(g) BUSES.—

(1) IN GENERAL.—Except as provided in para-
graph (2), funding under a grant made under this
section for the acquisition of new alternative fuel
school buses or ultra-low sulfur diesel fuel school
buses shall only be used to acquire school buses—

(A) with a gross vehicle weight of greater
than 14,000 pounds;
(B) that are powered by a heavy duty engine;

(C) in the case of alternative fuel school buses manufactured in model years 2004 through 2006, that emit not more than 1.8 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(D) in the case of ultra-low sulfur diesel fuel school buses manufactured in model years 2004 through 2006, that emit not more than 2.5 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter.

(2) LIMITATIONS.—A bus shall not be acquired under this section that emits nonmethane hydrocarbons, oxides of nitrogen, or particulate matter at a rate greater than the best performing technology of the same class of ultra-low sulfur diesel fuel school buses commercially available at the time the grant is made.

(h) DEPLOYMENT AND DISTRIBUTION.—The Administrator shall—
(1) seek, to the maximum extent practicable, to achieve nationwide deployment of alternative fuel school buses and ultra-low sulfur diesel fuel school buses through the program under this section; and

(2) ensure a broad geographic distribution of grant awards, with a goal of no State receiving more than 10 percent of the grant funding made available under this section for a fiscal year.

(i) **Allocation of Funds.—**

(1) **In General.—** Subject to paragraph (2), of the amount of grant funding made available to carry out this section for any fiscal year, the Administrator shall use—

(A) 70 percent for the acquisition of alternative fuel school buses or supporting infrastructure; and

(B) 30 percent for the acquisition of ultra-low sulfur diesel fuel school buses.

(2) **Insufficient Number of Qualified Grant Applications.—** After the first fiscal year in which this program is in effect, if the Administrator does not receive a sufficient number of qualified grant applications to meet the requirements of subparagraph (A) or (B) of paragraph (1) for a fiscal year, effective beginning on August 1 of the fiscal year.
year, the Administrator shall make the remaining
funds available to other qualified grant applicants
under this section.

(j) Reduction of School Bus Idling.—Each
local educational agency (as defined in section 9101 of the
Elementary and Secondary Education Act of 1965 (20
U.S.C. 7801)) that receives Federal funds under the Ele-
mentary and Secondary Education Act of 1965 (20 U.S.C.
6301 et seq.) is encouraged to develop a policy, consistent
with the health, safety, and welfare of students and the
proper operation and maintenance of school buses, to re-
duce the incidence of unnecessary school bus idling at
schools when picking up and unloading students.

(k) Annual Report.—

(1) In general.—Not later than January 31
of each year, the Administrator shall transmit to
Congress a report evaluating implementation of the
programs under this section and section 743.

(2) Components.—The reports shall include a
description of—

(A) the total number of grant applications
received;

(B) the number and types of alternative
fuel school buses, ultra-low sulfur diesel fuel
school buses, and retrofitted buses requested in
grant applications;

(C) grants awarded and the criteria used
to select the grant recipients;

(D) certified engine emission levels of all
buses purchased or retrofitted under the pro-
grams under this section and section 743;

(E) an evaluation of the in-use emission
level of buses purchased or retrofitted under the
programs under this section and section 743;
and

(F) any other information the Adminis-
trator considers appropriate.

(l) AUTHORIZATION OF APPROPRIATIONS.—There
are authorized to be appropriated to the Administrator to
carry out this section, to remain available until ex-
pended—

(1) $45,000,000 for fiscal year 2005;
(2) $65,000,000 for fiscal year 2006;
(3) $90,000,000 for fiscal year 2007; and
(4) such sums as are necessary for each of fis-
cal years 2008 and 2009.

SEC. 743. DIESEL RETROFIT PROGRAM.

(a) ESTABLISHMENT.—The Administrator, in con-
sultation with the Secretary, shall establish a program for
awarding grants on a competitive basis to entities for the
installation of retrofit technologies for diesel school buses.

(b) ELIGIBLE RECIPIENTS.—A grant shall be awarded under this section only—

(1) to a local or State governmental entity responsible for providing school bus service to 1 or more public school systems;

(2) to 1 or more contracting entities that provide school bus service to 1 or more public school systems, if the grant application is submitted jointly with the 1 or more school systems that the buses will serve, except that the application may provide that buses purchased using funds awarded shall be owned, operated, and maintained exclusively by the 1 or more contracting entities; or

(3) to a nonprofit school transportation association representing private contracting entities, if the association has notified and received approval from the 1 or more school systems to be served by the buses.

(c) AWARDS.—

(1) IN GENERAL.—The Administrator shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of grants under this section.
(2) PREFERENCES.—In making awards of grants under this section, the Administrator shall give preference to proposals that—

(A) will achieve the greatest reductions in emissions of nonmethane hydrocarbons, oxides of nitrogen, or particulate matter per proposal or per bus; or

(B) involve the use of emissions control retrofit technology on diesel school buses that operate solely on ultra-low sulfur diesel fuel.

(d) CONDITIONS OF GRANT.—A grant shall be provided under this section on the conditions that—

(1) buses on which retrofit emissions-control technology are to be demonstrated—

(A) will operate on ultra-low sulfur diesel fuel where such fuel is reasonably available or required for sale by State or local law or regulation;

(B) were manufactured in model year 1991 or later; and

(C) will be used for the transportation of school children to and from school for a minimum of 5 years;
(2) grant funds will be used for the purchase of emission control retrofit technology, including State taxes and contract fees; and

(3) grant recipients will provide at least 15 percent of the total cost of the retrofit, including the purchase of emission control retrofit technology and all necessary labor for installation of the retrofit.

(c) VERIFICATION.—Not later than 90 days after the date of enactment of this Act, the Administrator shall publish in the Federal Register procedures to verify—

(1) the retrofit emissions-control technology to be demonstrated;

(2) that buses powered by ultra-low sulfur diesel fuel on which retrofit emissions-control technology are to be demonstrated will operate on diesel fuel containing not more than 15 parts per million of sulfur; and

(3) that grants are administered in accordance with this section.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) $20,000,000 for fiscal year 2005;

(2) $35,000,000 for fiscal year 2006;
(3) $45,000,000 for fiscal year 2007; and
(4) such sums as are necessary for each of fis-
cal years 2008 and 2009.

SEC. 744. FUEL CELL SCHOOL BUSES.

(a) Establishment.—The Secretary shall establish
a program for entering into cooperative agreements—
(1) with private sector fuel cell bus developers
for the development of fuel cell-powered school
buses; and
(2) subsequently, with not less than 2 units of
local government using natural gas-powered school
buses and such private sector fuel cell bus developers
to demonstrate the use of fuel cell-powered school
buses.

(b) Cost Sharing.—The non-Federal contribution
for activities funded under this section shall be not less
than—
(1) 20 percent for fuel infrastructure develop-
ment activities; and
(2) 50 percent for demonstration activities and
for development activities not described in paragraph
(1).

(e) Reports to Congress.—Not later than 3 years
after the date of enactment of this Act, the Secretary shall
transmit to Congress a report that—
(1) evaluates the process of converting natural gas infrastructure to accommodate fuel cell-powered school buses; and

(2) assesses the results of the development and demonstration program under this section.

(d) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary to carry out this section $25,000,000 for the period of fiscal years 2005 through 2007.

Subtitle D—Miscellaneous

SEC. 751. RAILROAD EFFICIENCY.

(a) Establishment.—The Secretary of Energy shall, in cooperation with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, establish a cost-shared, public-private research partnership involving the Federal Government, railroad carriers, locomotive manufacturers and equipment suppliers, and the Association of American Railroads, to develop and demonstrate railroad locomotive technologies that increase fuel economy, reduce emissions, and lower costs of operation.

(b) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of Energy to carry out this section—

(1) $25,000,000 for fiscal year 2006;
(2) $35,000,000 for fiscal year 2007; and
(3) $50,000,000 for fiscal year 2008.

SEC. 752. MOBILE EMISSION REDUCTIONS TRADING AND CREDITING.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall submit to Congress a report on the experience of the Administrator with the trading of mobile source emission reduction credits for use by owners and operators of stationary source emission sources to meet emission offset requirements within a non-attainment area.

(b) CONTENTS.—The report shall describe—

(1) projects approved by the Administrator that include the trading of mobile source emission reduction credits for use by stationary sources in complying with offset requirements, including a description of—

(A) project and stationary sources location;

(B) volumes of emissions offset and traded;

(C) the sources of mobile emission reduction credits; and

(D) if available, the cost of the credits;
(2) the significant issues identified by the Administrator in consideration and approval of trading in the projects;

(3) the requirements for monitoring and assessing the air quality benefits of any approved project;

(4) the statutory authority on which the Administrator has based approval of the projects;

(5) an evaluation of how the resolution of issues in approved projects could be used in other projects; and

(6) any other issues that the Administrator considers relevant to the trading and generation of mobile source emission reduction credits for use by stationary sources or for other purposes.

SEC. 753. AVIATION FUEL CONSERVATION AND EMISSIONS.

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly initiate a study to identify—

(1) the impact of aircraft emissions on air quality in nonattainment areas; and

(2) ways to promote fuel conservation measures for aviation to—

(A) enhance fuel efficiency; and
(B) reduce emissions.

(b) Focus.—The study under subsection (a) shall focus on how air traffic management inefficiencies, such as aircraft idling at airports, result in unnecessary fuel burn and air emissions.

(c) Report.—Not later than 1 year after the date of the initiation of the study under subsection (a), the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly submit to the Committee on Energy and Commerce and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate a report that—

(1) describes the results of the study; and

(2) includes any recommendations on ways in which unnecessary fuel use and emissions affecting air quality may be reduced—

(A) without adversely affecting safety and security and increasing individual aircraft noise; and

(B) while taking into account all aircraft emissions and the impact of the emissions on human health.
SEC. 754. DIESEL FUELED VEHICLES.

(a) Definition of Tier 2 Emission Standards.—In this section, the term “tier 2 emission standards” means the motor vehicle emission standards that apply to passenger cars, light trucks, and larger passenger vehicles manufactured after the 2003 model year, as issued on February 10, 2000, by the Administrator of the Environmental Protection Agency under sections 202 and 211 of the Clean Air Act (42 U.S.C. 7521, 7545).

(b) Diesel Combustion and After-Treatment Technologies.—The Secretary of Energy shall accelerate efforts to improve diesel combustion and after-treatment technologies for use in diesel fueled motor vehicles.

(c) Goals.—The Secretary shall carry out subsection (b) with a view toward achieving the following goals:

(1) Developing and demonstrating diesel technologies that, not later than 2010, meet the following standards:

(A) Tier 2 emission standards.

(B) The heavy-duty emissions standards of 2007 that are applicable to heavy-duty vehicles under regulations issued by the Administrator of the Environmental Protection Agency as of the date of enactment of this Act.

(2) Developing the next generation of low-emission, high efficiency diesel engine technologies, in-
including homogeneous charge compression ignition technology.

**SEC. 756. REDUCTION OF ENGINE IDLING OF HEAVY-DUTY VEHICLES.**

(a) **DEFINITIONS.**—In this section:

1. **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Environmental Protection Agency.

2. **ADVANCED TRUCK STOP ELECTRIFICATION SYSTEM.**—The term “advanced truck stop electrification system” means a stationary system that delivers heat, air conditioning, electricity, and communications, and is capable of providing verifiable and auditable evidence of use of those services, to a heavy-duty vehicle and any occupants of the heavy-duty vehicle without relying on components mounted onboard the heavy-duty vehicle for delivery of those services.

3. **AUXILIARY POWER UNIT.**—The term “auxiliary power unit” means an integrated system that—

   (A) provides heat, air conditioning, engine warming, and electricity to the factory-installed components on a heavy-duty vehicle as if the main drive engine of the heavy-duty vehicle were running; and
(B) is certified by the Administrator under part 89 of title 40, Code of Federal Regulations (or any successor regulation), as meeting applicable emission standards.

(4) HEAVY-DUTY VEHICLE.—The term “heavy-duty vehicle” means a vehicle that—

(A) has a gross vehicle weight rating greater than 12,500 pounds; and

(B) is powered by a diesel engine.

(5) IDLE REDUCTION TECHNOLOGY.—The term “idle reduction technology” means an advanced truck stop electrification system, auxiliary power unit, or other device or system of devices that—

(A) is used to reduce long-duration idling of a heavy-duty vehicle; and

(B) allows for the main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle to be shut down.

(6) LONG-DURATION IDLING.—

(A) IN GENERAL.—The term “long-duration idling” means the operation of a main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle, for a period greater than 15 consecutive minutes, at a time at which the main drive engine is not engaged in gear.
(B) Exclusions.—The term “long-duration idling” does not include the operation of a main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle during a routine stoppage associated with traffic movement or congestion.

(b) Idle Reduction Technology Benefits, Programs, and Studies.—

(1) In general.—Not later than 90 days after the date of enactment of this Act, the Administrator shall—

(A)(i) commence a review of the mobile source air emission models of the Environmental Protection Agency used under the Clean Air Act (42 U.S.C. 7401 et seq.) to determine whether the models accurately reflect the emissions resulting from long-duration idling of heavy-duty vehicles and other vehicles and engines; and

(ii) update those models as the Administrator determines to be appropriate; and

(B)(i) commence a review of the emission reductions achieved by the use of idle reduction technology; and
(ii) complete such revisions of the regulations and guidance of the Environmental Protection Agency as the Administrator determines to be appropriate.

(2) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(A) complete the reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1); and

(B) prepare and make publicly available 1 or more reports on the results of the reviews.

(3) DISCRETIONARY INCLUSIONS.—The reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1) and the reports under paragraph (2)(B) may address the potential fuel savings resulting from use of idle reduction technology.

(4) IDLE REDUCTION DEPLOYMENT PROGRAM.—

(A) ESTABLISHMENT.—

(i) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation, shall establish a program to support deployment of idle reduction technology.
(ii) **Priority.**—The Administrator shall give priority to the deployment of idle reduction technology based on beneficial effects on air quality and ability to lessen the emission of criteria air pollutants.

(B) **Funding.**—

(i) **Authorization of Appropriations.**—There are authorized to be appropriated to the Administrator to carry out subparagraph (A) $19,500,000 for fiscal year 2006, $30,000,000 for fiscal year 2007, and $45,000,000 for fiscal year 2008.

(ii) **Cost Sharing.**—Subject to clause (iii), the Administrator shall require at least 50 percent of the costs directly and specifically related to any project under this section to be provided from non-Federal sources.

(iii) **Necessary and Appropriate Reductions.**—The Administrator may reduce the non-Federal requirement under clause (ii) if the Administrator determines that the reduction is necessary and appro-
priate to meet the objectives of this section.

(5) IDLING LOCATION STUDY.—

(A) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation, shall commence a study to analyze all locations at which heavy-duty vehicles stop for long-duration idling, including—

(i) truck stops;

(ii) rest areas;

(iii) border crossings;

(iv) ports;

(v) transfer facilities; and

(vi) private terminals.

(B) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(i) complete the study under subparagraph (A); and

(ii) prepare and make publicly available 1 or more reports of the results of the study.

(c) VEHICLE WEIGHT EXEMPTION.—Section 127(a) of title 23, United States Code, is amended—
(1) by designating the first through eleventh sentences as paragraphs (1) through (11), respectively; and

(2) by adding at the end the following:

“(12) HEAVY DUTY VEHICLES.—

“(A) IN GENERAL.—Subject to subparagraphs (B) and (C), in order to promote reduction of fuel use and emissions because of engine idling, the maximum gross vehicle weight limit and the axle weight limit for any heavy-duty vehicle equipped with an idle reduction technology shall be increased by a quantity necessary to compensate for the additional weight of the idle reduction system.

“(B) MAXIMUM WEIGHT INCREASE.—The weight increase under subparagraph (A) shall be not greater than 250 pounds.

“(C) PROOF.—On request by a regulatory agency or law enforcement agency, the vehicle operator shall provide proof (through demonstration or certification) that—

“(i) the idle reduction technology is fully functional at all times; and

“(ii) the 250-pound gross weight increase is not used for any purpose other
than the use of idle reduction technology described in subparagraph (A).”.

**SEC. 757. BIODIESEL ENGINE TESTING PROGRAM.**

(a) In General.—Not later that 180 days after the date of enactment of this Act, the Secretary shall initiate a partnership with diesel engine, diesel fuel injection system, and diesel vehicle manufacturers and diesel and biodiesel fuel providers, to include biodiesel testing in advanced diesel engine and fuel system technology.

(b) Scope.—The program shall provide for testing to determine the impact of biodiesel from different sources on current and future emission control technologies, with emphasis on—

(1) the impact of biodiesel on emissions warranty, in-use liability, and antitampering provisions;

(2) the impact of long-term use of biodiesel on engine operations;

(3) the options for optimizing these technologies for both emissions and performance when switching between biodiesel and diesel fuel; and

(4) the impact of using biodiesel in these fueling systems and engines when used as a blend with 2006 Environmental Protection Agency-mandated diesel fuel containing a maximum of 15-parts-per-million sulfur content.
(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall provide an interim report to Congress on the findings of the program, including a comprehensive analysis of impacts from biodiesel on engine operation for both existing and expected future diesel technologies, and recommendations for ensuring optimal emissions reductions and engine performance with biodiesel.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $5,000,000 for each of fiscal years 2006 through 2010 to carry out this section.

(e) DEFINITION.—For purposes of this section, the term “biodiesel” means a diesel fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545) and that meets the American Society for Testing and Materials D6751–02a Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels.

SEC. 758. HIGH OCCUPANCY VEHICLE EXCEPTION.

Notwithstanding section 102(a) of title 23, United States Code, a State may permit a vehicle with fewer than 2 occupants to operate in high occupancy vehicle lanes if the vehicle—
(1) is a dedicated vehicle (as defined in section 301 of the Energy Policy Act of 1992 (42 U.S. 13211)); or

(2) is a hybrid vehicle (as defined by the State for the purpose of this section).

SEC. 759. ULTRA-EFFICIENT ENGINE TECHNOLOGY FOR AIRCRAFT.

(a) ULTRA-EFFICIENT ENGINE TECHNOLOGY PARTNERSHIP.—The Secretary of Energy shall enter into a co-operative agreement with the National Aeronautics and Space Administration for the development of ultra-efficient engine technology for aircraft.

(b) PERFORMANCE OBJECTIVE.—The Secretary of Energy shall establish the following performance objectives for the program set forth in subsection (a):

(1) A fuel efficiency increase of 10 percent.

(2) A reduction in the impact of landing and takeoff nitrogen oxides emissions on local air quality of 70 percent.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy for carrying out this section $45,000,000 for each of the fiscal years 2006, 2007, 2008, 2009, and 2010.
Subtitle E—Automobile Efficiency

SEC. 771. AUTHORIZATION OF APPROPRIATIONS FOR IMPLEMENTATION AND ENFORCEMENT OF FUEL ECONOMY STANDARDS.

In addition to any other funds authorized by law, there are authorized to be appropriated to the National Highway Traffic Safety Administration to carry out its obligations with respect to average fuel economy standards $2,000,000 for each of fiscal years 2006 through 2010.

SEC. 772. REVISED CONSIDERATIONS FOR DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.

Section 32902(f) of title 49, United States Code, is amended to read as follows:

“(f) CONSIDERATIONS FOR DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—When deciding maximum feasible average fuel economy under this section, the Secretary of Transportation shall consider the following matters:

“(1) Technological feasibility.
“(2) Economic practicability.
“(4) The need of the United States to conserve energy.
“(5) The effects of fuel economy standards on passenger automobiles, nonpassenger automobiles, and occupant safety.

“(6) The effects of compliance with average fuel economy standards on levels of automobile industry employment in the United States.”.

SEC. 773. EXTENSION OF MAXIMUM FUEL ECONOMY INCREASE FOR ALTERNATIVE FUELED VEHICLES.

(a) MANUFACTURING INCENTIVES.—Section 32905 of title 49, United States Code, is amended—

(1) in each of subsections (b) and (d), by striking “1993–2004” and inserting “1993–2010”;

(2) in subsection (f), by striking “2001” and inserting “2007”; and

(3) in subsection (f)(1), by striking “2004” and inserting “2010”.

(b) MAXIMUM FUEL ECONOMY INCREASE.—Subsection (a)(1) of section 32906 of title 49, United States Code, is amended—

(1) in subparagraph (A), by striking “the model years 1993–2004” and inserting “model years 1993–2010”; and
(2) in subparagraph (B), by striking “the model years 2005–2008” and inserting “model years 2011–2014”.

SEC. 774. STUDY OF FEASIBILITY AND EFFECTS OF REDUCING USE OF FUEL FOR AUTOMOBILES.

(a) IN GENERAL.—Not later than 30 days after the date of the enactment of this Act, the Administrator of the National Highway Traffic Safety Administration shall initiate a study of the feasibility and effects of reducing by model year 2014, by a significant percentage, the amount of fuel consumed by automobiles.

(b) SUBJECTS OF STUDY.—The study under this section shall include—

(1) examination of, and recommendation of alternatives to, the policy under current Federal law of establishing average fuel economy standards for automobiles and requiring each automobile manufacturer to comply with average fuel economy standards that apply to the automobiles it manufactures;

(2) examination of how automobile manufacturers could contribute toward achieving the reduction referred to in subsection (a);

(3) examination of the potential of fuel cell technology in motor vehicles in order to determine the extent to which such technology may contribute
to achieving the reduction referred to in subsection (a); and
(4) examination of the effects of the reduction referred to in subsection (a) on—
   (A) gasoline supplies;
   (B) the automobile industry, including sales of automobiles manufactured in the United States;
   (C) motor vehicle safety; and
   (D) air quality.

(c) REPORT.—The Administrator shall submit to Congress a report on the findings, conclusion, and recommendations of the study under this section by not later than 1 year after the date of the enactment of this Act.

TITLE VIII—HYDROGEN

SEC. 801. DEFINITIONS.

In this title:

(1) ADVISORY COMMITTEE.—The term “Advisory Committee” means the Hydrogen Technical and Fuel Cell Advisory Committee established under section 805.

(2) DEPARTMENT.—The term “Department” means the Department of Energy.

(3) FUEL CELL.—The term “fuel cell” means a device that directly converts the chemical energy of
a fuel and an oxidant into electricity by an electro-
chemical process taking place at separate electrodes
in the device.

(4) INFRASTRUCTURE.—The term “infrastructure” means the equipment, systems, or facilities
used to produce, distribute, deliver, or store hydro-
gen.

(5) LIGHT DUTY VEHICLE.—The term “light
duty vehicle” means a car or truck classified by the
Department of Transportation as a Class I or IIA
vehicle.

(6) SECRETARY.—The term “Secretary” means
the Secretary of Energy.

SEC. 802. PLAN.

Not later than 6 months after the date of enactment
of this Act, the Secretary shall transmit to Congress a
coordinated plan for the programs described in this title
and any other programs of the Department that are di-
rectly related to fuel cells or hydrogen. The plan shall de-
scribe, at a minimum—

(1) the agenda for the next 5 years for the pro-
gams authorized under this title, including the
agenda for each activity enumerated in section
803(a);
(2) the types of entities that will carry out the activities under this title and what role each entity is expected to play;

(3) the milestones that will be used to evaluate the programs for the next 5 years;

(4) the most significant technical and nontechnical hurdles that stand in the way of achieving the goals described in section 803(b), and how the programs will address those hurdles; and

(5) the policy assumptions that are implicit in the plan, including any assumptions that would affect the sources of hydrogen or the marketability of hydrogen-related products.

SEC. 803. PROGRAMS.

(a) ACTIVITIES.—The Secretary, in partnership with the private sector, shall conduct programs to address—

(1) production of hydrogen from diverse energy sources, including—

(A) fossil fuels, which may include carbon capture and sequestration;

(B) hydrogen-carrier fuels (including ethanol and methanol);

(C) renewable energy resources, including biomass; and

(D) nuclear energy;
(2) use of hydrogen for commercial, industrial, and residential electric power generation;

(3) safe delivery of hydrogen or hydrogen-carrier fuels, including—

(A) transmission by pipeline and other distribution methods; and

(B) convenient and economic refueling of vehicles either at central refueling stations or through distributed on-site generation;

(4) advanced vehicle technologies, including—

(A) engine and emission control systems;

(B) energy storage, electric propulsion, and hybrid systems;

(C) automotive materials; and

(D) other advanced vehicle technologies;

(5) storage of hydrogen or hydrogen-carrier fuels, including development of materials for safe and economic storage in gaseous, liquid, or solid form at refueling facilities and onboard vehicles;

(6) development of safe, durable, affordable, and efficient fuel cells, including fuel-flexible fuel cell power systems, improved manufacturing processes, high-temperature membranes, cost-effective fuel processing for natural gas, fuel cell stack and system
reliability, low temperature operation, and cold start capability;

(7) development, after consultation with the private sector, of necessary codes and standards (including international codes and standards and voluntary consensus standards adopted in accordance with OMB Circular A–119) and safety practices for the production, distribution, storage, and use of hydrogen, hydrogen-carrier fuels, and related products;

(8) a public education program to develop improved knowledge and acceptability of hydrogen-based systems; and

(9) the ability of domestic automobile manufacturers to manufacture commercially available competitive hybrid vehicle technologies in the United States.

(b) PROGRAM GOALS.—

(1) VEHICLES.—For vehicles, the goals of the program are—

(A) to enable a commitment by automakers no later than year 2015 to offer safe, affordable, and technically viable hydrogen fuel cell vehicles in the mass consumer market; and

(B) to enable production, delivery, and acceptance by consumers of model year 2020 hy-
drogen fuel cell and other hydrogen-powered ve-
hicles that will have—

(i) a range of at least 300 miles;

(ii) improved performance and ease of
driving;

(iii) safety and performance com-
parable to vehicle technologies in the mar-
ket; and

(iv) when compared to light duty vehi-
cles in model year 2003—

(I) fuel economy that is substan-
tially higher;

(II) substantially lower emissions

of air pollutants; and

(III) equivalent or improved vehi-
cle fuel system crash integrity and oc-
cupant protection.

(2) HYDROGEN ENERGY AND ENERGY INFRA-
STRUCTURE.—For hydrogen energy and energy in-
frastucture, the goals of the program are to enable
a commitment not later than 2015 that will lead to
infrastructure by 2020 that will provide—

(A) safe and convenient refueling;

(B) improved overall efficiency;
(C) widespread availability of hydrogen from domestic energy sources through—

(i) production, with consideration of emissions levels;

(ii) delivery, including transmission by pipeline and other distribution methods for hydrogen; and

(iii) storage, including storage in surface transportation vehicles;

(D) hydrogen for fuel cells, internal combustion engines, and other energy conversion devices for portable, stationary, and transportation applications; and

(E) other technologies consistent with the Department’s plan.

(3) FUEL CELLS.—The goals for fuel cells and their portable, stationary, and transportation applications are to enable—

(A) safe, economical, and environmentally sound hydrogen fuel cells;

(B) fuel cells for light duty and other vehicles; and

(C) other technologies consistent with the Department’s plan.
(c) DEMONSTRATION.—In carrying out the programs under this section, the Secretary shall fund a limited number of demonstration projects, consistent with a determination of the maturity, cost-effectiveness, and environmental impacts of technologies supporting each project. In selecting projects under this subsection, the Secretary shall, to the extent practicable and in the public interest, select projects that—

(1) involve using hydrogen and related products at existing facilities or installations, such as existing office buildings, military bases, vehicle fleet centers, transit bus authorities, or units of the National Park System;

(2) depend on reliable power from hydrogen to carry out essential activities;

(3) lead to the replication of hydrogen technologies and draw such technologies into the marketplace;

(4) include vehicle, portable, and stationary demonstrations of fuel cell and hydrogen-based energy technologies;

(5) address the interdependency of demand for hydrogen fuel cell applications and hydrogen fuel infrastructure;
(6) raise awareness of hydrogen technology among the public;

(7) facilitate identification of an optimum technology among competing alternatives;

(8) address distributed generation using renewable sources; and

(9) address applications specific to rural or remote locations, including isolated villages and islands, the National Park System, and tribal entities.

The Secretary shall give preference to projects which address multiple elements contained in paragraphs (1) through (9).

(d) DEPLOYMENT.—In carrying out the programs under this section, the Secretary shall, in partnership with the private sector, conduct activities to facilitate the deployment of hydrogen energy and energy infrastructure, fuel cells, and advanced vehicle technologies.

(e) FUNDING.—

(1) IN GENERAL.—The Secretary shall carry out the programs under this section using a competitive, merit-based review process and consistent with the generally applicable Federal laws and regulations governing awards of financial assistance, contracts, or other agreements.
(2) RESEARCH CENTERS.—Activities under this section may be carried out by funding nationally recognized university-based or Federal laboratory research centers.

(f) COST SHARING.—

(1) RESEARCH AND DEVELOPMENT.—Except as otherwise provided in this title, for research and development programs carried out under this title the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this paragraph if the Secretary determines that the research and development is of a basic or fundamental nature or involves technical analyses or educational activities.

(2) DEMONSTRATION AND COMMERCIAL APPLICATION.—Except as otherwise provided in this title, the Secretary shall require at least 50 percent of the costs directly and specifically related to any demonstration or commercial application project under this title to be provided from non-Federal sources. The Secretary may reduce the non-Federal requirement under this paragraph if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in
the project and is necessary to meet the objectives of this title.

(3) CALCULATION OF AMOUNT.—In calculating the amount of the non-Federal commitment under paragraph (1) or (2), the Secretary may include personnel, services, equipment, and other resources.

(4) SIZE OF NON-FEDERAL SHARE.—The Secretary may consider the size of the non-Federal share in selecting projects.

(g) DISCLOSURE.—Section 623 of the Energy Policy Act of 1992 (42 U.S.C. 13293) relating to the protection of information shall apply to projects carried out through grants, cooperative agreements, or contracts under this title.

SEC. 804. INTERAGENCY TASK FORCE.

(a) ESTABLISHMENT.—Not later than 120 days after the date of enactment of this Act, the President shall establish an interagency task force chaired by the Secretary with representatives from each of the following:

(1) The Office of Science and Technology Policy within the Executive Office of the President.

(2) The Department of Transportation.

(3) The Department of Defense.
(4) The Department of Commerce (including
the National Institute of Standards and Tech-
nology).

(5) The Department of State.

(6) The Environmental Protection Agency.

(7) The National Aeronautics and Space Ad-
ministration.

(8) Other Federal agencies as the Secretary de-
determines appropriate.

(b) DUTIES.—

(1) PLANNING.—The interagency task force
shall work toward—

(A) a safe, economical, and environ-
mentally sound fuel infrastructure for hydrogen
and hydrogen-carrier fuels, including an infra-
structure that supports buses and other fleet
transportation;

(B) fuel cells in government and other ap-
plications, including portable, stationary, and
transportation applications;

(C) distributed power generation, including
the generation of combined heat, power, and
clean fuels including hydrogen;

(D) uniform hydrogen codes, standards,
and safety protocols; and
(E) vehicle hydrogen fuel system integrity safety performance.

(2) ACTIVITIES.—The interagency task force may organize workshops and conferences, may issue publications, and may create databases to carry out its duties. The interagency task force shall—

(A) foster the exchange of generic, nonproprietary information and technology among industry, academia, and government;

(B) develop and maintain an inventory and assessment of hydrogen, fuel cells, and other advanced technologies, including the commercial capability of each technology for the economic and environmentally safe production, distribution, delivery, storage, and use of hydrogen;

(C) integrate technical and other information made available as a result of the programs and activities under this title;

(D) promote the marketplace introduction of infrastructure for hydrogen fuel vehicles; and

(E) conduct an education program to provide hydrogen and fuel cell information to potential end-users.

(c) AGENCY COOPERATION.—The heads of all agencies, including those whose agencies are not represented
on the interagency task force, shall cooperate with and
furnish information to the interagency task force, the Ad-
visory Committee, and the Department.

SEC. 805. ADVISORY COMMITTEE.

(a) Establishment.—The Hydrogen Technical and
Fuel Cell Advisory Committee is established to advise the
Secretary on the programs and activities under this title.

(b) Membership.—

(1) Members.—The Advisory Committee shall
be comprised of not fewer than 12 nor more than 25
members. The members shall be appointed by the
Secretary to represent domestic industry, academia,
professional societies, government agencies, Federal
laboratories, previous advisory panels, and financial,
environmental, and other appropriate organizations
based on the Department’s assessment of the tech-
nical and other qualifications of committee members
and the needs of the Advisory Committee.

(2) Terms.—The term of a member of the Ad-
visory Committee shall not be more than 3 years.
The Secretary may appoint members of the Advisory
Committee in a manner that allows the terms of the
members serving at any time to expire at spaced in-
tervals so as to ensure continuity in the functioning
of the Advisory Committee. A member of the Advi-
sory Committee whose term is expiring may be re-appointed.

(3) CHAIRPERSON.—The Advisory Committee shall have a chairperson, who is elected by the members from among their number.

(c) REVIEW.—The Advisory Committee shall review and make recommendations to the Secretary on—

(1) the implementation of programs and activities under this title;

(2) the safety, economical, and environmental consequences of technologies for the production, distribution, delivery, storage, or use of hydrogen energy and fuel cells; and

(3) the plan under section 802.

(d) RESPONSE.—

(1) CONSIDERATION OF RECOMMENDATIONS.—The Secretary shall consider, but need not adopt, any recommendations of the Advisory Committee under subsection (c).

(2) BIENNIAL REPORT.—The Secretary shall transmit a biennial report to Congress describing any recommendations made by the Advisory Committee since the previous report. The report shall include a description of how the Secretary has implemented or plans to implement the recommendations,
or an explanation of the reasons that a recommendation will not be implemented. The report shall be transmitted along with the President’s budget proposal.

(e) SUPPORT.—The Secretary shall provide resources necessary in the judgment of the Secretary for the Advisory Committee to carry out its responsibilities under this title.

SEC. 806. EXTERNAL REVIEW.

(a) PLAN.—The Secretary shall enter into an arrangement with the National Academy of Sciences to review the plan prepared under section 802, which shall be completed not later than 6 months after the Academy receives the plan. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review’s recommendations or an explanation of the reasons that a recommendation will not be implemented.

(b) ADDITIONAL REVIEW.—The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy will review the programs under section 803 during the fourth year following the date of enactment of this Act. The Academy’s review shall include the research priorities and technical milestones, and evaluate the progress toward achieving them.
The review shall be completed not later than 5 years after the date of enactment of this Act. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review’s recommendations or an explanation for the reasons that a recommendation will not be implemented.

**SEC. 807. MISCELLANEOUS PROVISIONS.**

(a) **REPRESENTATION.**—The Secretary may represent the United States interests with respect to activities and programs under this title, in coordination with the Department of Transportation, the National Institute of Standards and Technology, and other relevant Federal agencies, before governments and nongovernmental organizations including—

(1) other Federal, State, regional, and local governments and their representatives;

(2) industry and its representatives, including members of the energy and transportation industries; and

(3) in consultation with the Department of State, foreign governments and their representatives including international organizations.

(b) **REGULATORY AUTHORITY.**—Nothing in this title shall be construed to alter the regulatory authority of the Department.
SEC. 808. SAVINGS CLAUSE.

Nothing in this title shall be construed to affect the authority of the Secretary of Transportation that may exist prior to the date of enactment of this Act with respect to—

(1) research into, and regulation of, hydrogen-powered vehicles fuel systems integrity, standards, and safety under subtitle VI of title 49, United States Code;

(2) regulation of hazardous materials transportation under chapter 51 of title 49, United States Code;

(3) regulation of pipeline safety under chapter 601 of title 49, United States Code;

(4) encouragement and promotion of research, development, and deployment activities relating to advanced vehicle technologies under section 5506 of title 49, United States Code;

(5) regulation of motor vehicle safety under chapter 301 of title 49, United States Code;

(6) automobile fuel economy under chapter 329 of title 49, United States Code; or

(7) representation of the interests of the United States with respect to the activities and programs under the authority of title 49, United States Code.
SEC. 809. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this title, in addition to any amounts made available for these purposes under other Acts—

(1) $546,000,000 for fiscal year 2006;
(2) $750,000,000 for fiscal year 2007;
(3) $850,000,000 for fiscal year 2008;
(4) $900,000,000 for fiscal year 2009; and
(5) $1,000,000,000 for fiscal year 2010.

SEC. 810. SOLAR AND WIND TECHNOLOGIES.

(a) Solar Energy Technologies.—The Secretary shall—

(1) prepare a detailed roadmap for carrying out the provisions in this subtitle related to solar energy technologies and for implementing the recommendations related to solar energy technologies that are included in the report transmitted under subsection (c);

(2) provide for the establishment of 5 projects in geographic areas that are regionally and climatically diverse to demonstrate the production of hydrogen at solar energy facilities, including one demonstration project at a national laboratory or institution of higher education;

(3) establish a research and development pro-
(A) to develop optimized concentrating solar power devices that may be used for the production of both electricity and hydrogen; and

(B) to evaluate the use of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power devices;

(4) coordinate with activities sponsored by the Department of Energy’s Office of Nuclear Energy, Science, and Technology on high-temperature materials, thermochemical cycles, and economic issues related to solar energy;

(5) provide for the construction and operation of new concentrating solar power devices or solar power cogeneration facilities that produce hydrogen either concurrently with, or independently of, the production of electricity;

(6) support existing facilities and research programs dedicated to the development and advancement of concentrating solar power devices; and

(7) establish a program—

(A) to research and develop methods that use electricity from photovoltaic devices for the onsite production of hydrogen, such that no intermediate transmission or distribution infra-
structure is required or used and future demand growth may be accommodated;

(B) to evaluate the economics of small-scale electrolysis for hydrogen production; and

(C) to research the potential of modular photovoltaic devices for the development of a hydrogen infrastructure, the security implications of a hydrogen infrastructure, and the benefits potentially derived from a hydrogen infrastructure.

(b) WIND ENERGY TECHNOLOGIES.—The Secretary shall—

(1) prepare a detailed roadmap for carrying out the provisions in this subtitle related to wind energy technologies and for implementing the recommendations related to wind energy technologies that are included in the report transmitted under subsection (c); and

(2) provide for the establishment of 5 projects in geographic areas that are regionally and climatically diverse to demonstrate the production of hydrogen at existing wind energy facilities, including one demonstration project at a national laboratory or institution of higher education.
(c) PROGRAM SUPPORT.—The Secretary shall support research programs at institutions of higher education for the development of solar energy technologies and wind energy technologies for the production of hydrogen. The research programs supported under this subsection shall—

(1) enhance fellowship and faculty assistance programs;
(2) provide support for fundamental research;
(3) encourage collaborative research among industry, national laboratories, and institutions of higher education;
(4) support communication and outreach; and
(5) to the greatest extent possible—

(A) be located in geographic areas that are regionally and climatically diverse; and
(B) be located at part B institutions, minority institutions, and institutions of higher education located in States participating in the Experimental Program to Stimulate Competitive Research of the Department of Energy.

(d) INSTITUTIONS OF HIGHER EDUCATION AND NATIONAL LABORATORY INTERACTIONS.—In conjunction with the programs supported under this section, the Secretary shall develop sabbatical, fellowship, and visiting sci-
entist programs to encourage national laboratories and institutions of higher education to share and exchange personnel.

(c) DEFINITIONS.—For purposes of this section—

(1) the term “concentrating solar power devices” means devices that concentrate the power of the sun by reflection or refraction to improve the efficiency of a photovoltaic or thermal generation process;

(2) the term “institution of higher education” has the meaning given to that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a));

(3) the term “minority institution” has the meaning given to that term in section 365 of the Higher Education Act of 1965 (20 U.S.C. 1067k);

(4) the term “part B institution” has the meaning given to that term in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061); and

(5) the term “photovoltaic devices” means devices that convert light directly into electricity through a solid-state, semiconductor process.
TITLE IX—RESEARCH AND DEVELOPMENT

SEC. 900. SHORT TITLE; DEFINITIONS.

(a) Short Title.—This title may be cited as the “Energy Research, Development, Demonstration, and Commercial Application Act of 2005”.

(b) Definitions.—For purposes of this title:

(1) Applied Programs.—The term “applied programs” means the research, development, demonstration, and commercial application programs of the Department concerning energy efficiency, renewable energy, nuclear energy, fossil energy, and electricity transmission and distribution.

(2) Biomass.—The term “biomass” means—

(A) any organic material grown for the purpose of being converted to energy;

(B) any organic byproduct of agriculture (including wastes from food production and processing) that can be converted into energy; or

(C) any waste material that can be converted to energy, is segregated from other waste materials, and is derived from—

(i) any of the following forest-related resources: mill residues, precommercial
thinnings, slash, brush, or otherwise non-
merchantable material; or

(ii) wood waste materials, including
waste pallets, crates, dunnage, manufac-
turing and construction wood wastes (other
than pressure-treated, chemically-treated,
or painted wood wastes), and landscape or
right-of-way tree trimmings, but not in-
cluding municipal solid waste, gas derived
from the biodegradation of municipal solid
waste, or paper that is commonly recycled.

(3) DEPARTMENT.—The term “Department”
means the Department of Energy.

(4) DEPARTMENTAL MISSION.—The term “de-
partmental mission” means any of the functions
vested in the Secretary of Energy by the Depart-
ment of Energy Organization Act (42 U.S.C. 7101
et seq.) or other law.

(5) INSTITUTION OF HIGHER EDUCATION.—The
term “institution of higher education” has the
meaning given that term in section 101(a) of the
Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(6) NATIONAL LABORATORY.—The term “Na-
tional Laboratory” means any of the following lab-
oratories owned by the Department:
(A) Ames Laboratory.

(B) Argonne National Laboratory.

(C) Brookhaven National Laboratory.

(D) Fermi National Accelerator Laboratory.

(E) Idaho National Laboratory.

(F) Lawrence Berkeley National Laboratory.

(G) Lawrence Livermore National Laboratory.

(H) Los Alamos National Laboratory.

(I) National Energy Technology Laboratory.

(J) National Renewable Energy Laboratory.

(K) Oak Ridge National Laboratory.

(L) Pacific Northwest National Laboratory.

(M) Princeton Plasma Physics Laboratory.

(N) Sandia National Laboratories.

(O) Savannah River National Laboratory.

(P) Stanford Linear Accelerator Center.

(Q) Thomas Jefferson National Accelerator Facility.
(7) RENEWABLE ENERGY.—The term “renewable energy” means energy from wind, sunlight, the flow of water, heat from the Earth, or biomass that can be converted into a usable form such as process heat, electricity, fuel, or space heat.

(8) SECRETARY.—The term “Secretary” means the Secretary of Energy.

(9) STATE.—The term “State” means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and any other commonwealth, territory, or possession of the United States.

(10) UNIVERSITY.—The term “university” has the meaning given the term “institution of higher education” in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(11) USER FACILITY.—The term “user facility” means a research and development facility supported, in whole or in part, by Departmental funds that is open, at a minimum, to all qualified United States researchers.
Subtitle A—Science Programs

SEC. 901. OFFICE OF SCIENCE PROGRAMS.

(a) In general.—The Secretary shall conduct, through the Office of Science, programs of research, development, demonstration, and commercial application in high energy physics, nuclear physics, biological and environmental research, basic energy sciences, advanced scientific computing research, and fusion energy sciences, including activities described in this subtitle. The programs shall include support for facilities and infrastructure, education, outreach, information, analysis, and coordination activities.

(b) Rare Isotope Accelerator.—

(1) Establishment.—The Secretary shall construct and operate a Rare Isotope Accelerator. The Secretary shall commence construction no later than September 30, 2008.

(2) Authorization of appropriations.—There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this subsection. The Secretary shall not spend more than $1,100,000,000 in Federal funds for all activities associated with the Rare Isotope Accelerator prior to operation.
SEC. 902. SYSTEMS BIOLOGY PROGRAM.

(a) Program.—

(1) Establishment.—The Secretary shall establish a research, development, and demonstration program in genetics, protein science, and computational biology to support the energy, national security, and environmental missions of the Department.

(2) Grants.—The program shall support individual researchers and multidisciplinary teams of researchers through competitive, merit-reviewed grants.

(3) Consultation.—In carrying out the program, the Secretary shall consult with other Federal agencies that conduct genetic and protein research.

(b) Goals.—The program shall have the goal of developing technologies and methods based on the biological functions of genomes, microbes, and plants that—

(1) can facilitate the production of fuels, including hydrogen;

(2) convert carbon dioxide to organic carbon;

(3) detoxify soils and water, including at Departmental facilities, contaminated with heavy metals and radiological materials; and

(4) address other Department missions as identified by the Secretary.

(e) Plan.—
(1) Development of Plan.—Not later than 1 year after the date of enactment of this Act, the Secretary shall prepare and transmit to Congress a research plan describing how the program authorized pursuant to this section will be undertaken to accomplish the program goals established in subsection (b).

(2) Review of Plan.—The Secretary shall contract with the National Academy of Sciences to review the research plan developed under this subsection. The Secretary shall transmit the review to Congress not later than 18 months after transmittal of the research plan under paragraph (1), along with the Secretary’s response to the recommendations contained in the review.

(d) User Facilities and Ancillary Equipment.—Within the funds authorized to be appropriated pursuant to this subtitle, the amounts specified under section 910(b)(1), (c)(1), (d)(1), (e)(1), and (f)(1) shall be available for projects to develop, plan, construct, acquire, or operate special equipment, instrumentation, or facilities, including user facilities, for researchers conducting research, development, demonstration, and commercial application in systems biology and proteomics and associated biological disciplines.
(c) Prohibition on Biomedical and Human Cell and Human Subject Research.—

(1) No biomedical research.—In carrying out the program under this section, the Secretary shall not conduct biomedical research.

(2) Limitations.—Nothing in this section shall authorize the Secretary to conduct any research or demonstrations—

(A) on human cells or human subjects; or

(B) designed to have direct application with respect to human cells or human subjects.

SEC. 903. CATALYSIS RESEARCH AND DEVELOPMENT PROGRAM.

(a) Establishment.—The Secretary shall conduct a program of research and development in catalysis science, including efforts to—

(1) enable molecular-level catalyst design by coupling experimental and computational approaches;

(2) enable nanoscale, high-throughput synthesis, assay, and characterization; and

(3) synthesize catalysts with specific site architectures.

(b) Program Activities.—In carrying out the program under this section, the Secretary shall—
(1) support both individual researchers and multidisciplinary teams of researchers to pioneer new approaches in catalytic design;

(2) develop, plan, construct, acquire, or operate special equipment or facilities, including user facilities;

(3) support technology transfer activities to benefit industry and other users of catalysis science and engineering; and

(4) coordinate research and development activities with industry and other Federal agencies.

SEC. 904. HYDROGEN.

The Secretary shall conduct a program of fundamental research and development in support of programs authorized in title VIII.

SEC. 905. ADVANCED SCIENTIFIC COMPUTING RESEARCH.

The Secretary shall conduct an advanced scientific computing research and development program, including in applied mathematics and the activities authorized by the Department of Energy High-End Computing Revitализation Act of 2004 (15 U.S.C. 5541 et seq.). The Secretary shall carry out this program with the goal of supporting departmental missions and providing the high-performance computational, networking, and workforce resources that are required for world leadership in science.
SEC. 906. FUSION ENERGY SCIENCES PROGRAM.

(a) DECLARATION OF POLICY.—It shall be the policy of the United States to conduct research, development, demonstration, and commercial application to provide for the scientific, engineering, and commercial infrastructure necessary to ensure that the United States is competitive with other nations in providing fusion energy for its own needs and the needs of other nations, including by demonstrating electric power or hydrogen production for the United States energy grid utilizing fusion energy at the earliest date possible.

(b) PLANNING.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall transmit to Congress a plan, with proposed cost estimates, budgets, and lists of potential international partners, for the implementation of the policy described in subsection (a). The plan shall ensure that—

(A) existing fusion research facilities are more fully utilized;

(B) fusion science, technology, theory, advanced computation, modeling, and simulation are strengthened;

(C) new magnetic and inertial fusion research and development facilities are selected...
based on scientific innovation, cost effectiveness, and their potential to advance the goal of practical fusion energy at the earliest date possible, and those that are selected are funded at a cost-effective rate;

(D) communication of scientific results and methods between the fusion energy science community and the broader scientific and technology communities is improved;

(E) inertial confinement fusion facilities are utilized to the extent practicable for the purpose of inertial fusion energy research and development; and

(F) attractive alternative inertial and magnetic fusion energy approaches are more fully explored.

(2) COSTS AND SCHEDULES.—Such plan shall also address the status of and, to the degree possible, costs and schedules for—

(A) the design and implementation of international or national facilities for the testing of fusion materials; and

(B) the design and implementation of international or national facilities for the testing and development of key fusion technologies.
(c) UNITED STATES PARTICIPATION IN ITER.—

(1) IN GENERAL.—The United States may participate in ITER only in accordance with this subsection.

(2) AGREEMENT.—

(A) IN GENERAL.—The Secretary is authorized to negotiate an agreement for United States participation in ITER.

(B) CONTENTS.—Any agreement for United States participation in ITER shall, at a minimum—

(i) clearly define the United States financial contribution to construction and operating costs, as well as any other costs associated with the project;

(ii) ensure that the share of ITER’s high-technology components manufactured in the United States is at least proportionate to the United States financial contribution to ITER;

(iii) ensure that the United States will not be financially responsible for cost overruns in components manufactured in other ITER participating countries;
(iv) guarantee the United States full access to all data generated by ITER;

(v) enable United States researchers to propose and carry out an equitable share of the experiments at ITER;

(vi) provide the United States with a role in all collective decisionmaking related to ITER; and

(vii) describe the process for discontinuing or decommissioning ITER and any United States role in that process.

(3) PLAN.—The Secretary, in consultation with the Fusion Energy Sciences Advisory Committee, shall develop a plan for the participation of United States scientists in ITER that shall include the United States research agenda for ITER, methods to evaluate whether ITER is promoting progress toward making fusion a reliable and affordable source of power, and a description of how work at ITER will relate to other elements of the United States fusion program. The Secretary shall request a review of the plan by the National Academy of Sciences.

(4) LIMITATION.—No Federal funds shall be expended for the construction of ITER until the Secretary has transmitted to Congress—
(A) the agreement negotiated pursuant to paragraph (2) and 120 days have elapsed since that transmission;

(B) a report describing the management structure of ITER and providing a fixed dollar estimate of the cost of United States participation in the construction of ITER, and 120 days have elapsed since that transmission;

(C) a report describing how United States participation in ITER will be funded without reducing funding for other programs in the Office of Science, including other fusion programs, and 60 days have elapsed since that transmission; and

(D) the plan required by paragraph (3) (but not the National Academy of Sciences review of that plan), and 60 days have elapsed since that transmission.

(5) ALTERNATIVE TO ITER.—If at any time during the negotiations on ITER, the Secretary determines that construction and operation of ITER is unlikely or infeasible, the Secretary shall send to Congress, as part of the budget request for the following year, a plan for implementing a domestic burning plasma experiment including costs and
schedules for such a plan. The Secretary shall refine such plan in full consultation with the Fusion Energy Sciences Advisory Committee and shall also transmit such plan to the National Academy of Sciences for review.

(6) DEFINITIONS.—In this subsection:

(A) CONSTRUCTION.— The term “construction” means the physical construction of the ITER facility, and the physical construction, purchase, or manufacture of equipment or components that are specifically designed for the ITER facility, but does not mean the design of the facility, equipment, or components.

(B) ITER.—The term “ITER” means the international burning plasma fusion research project in which the President announced United States participation on January 30, 2003, or any similar international project.

SEC. 907. SCIENCE AND TECHNOLOGY SCHOLARSHIP PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—

(1) IN GENERAL.—The Secretary is authorized to establish a Science and Technology Scholarship Program to award scholarships to individuals that is
designed to recruit and prepare students for careers in the Department.

(2) Competitive Process.—Individuals shall be selected to receive scholarships under this section through a competitive process primarily on the basis of academic merit, with consideration given to financial need and the goal of promoting the participation of individuals identified in section 33 or 34 of the Science and Engineering Equal Opportunities Act (42 U.S.C. 1885a or 1885b).

(3) Service Agreements.—To carry out the Program the Secretary shall enter into contractual agreements with individuals selected under paragraph (2) under which the individuals agree to serve as full-time employees of the Department, for the period described in subsection (f)(1), in positions needed by the Department and for which the individuals are qualified, in exchange for receiving a scholarship.

(b) Scholarship Eligibility.—In order to be eligible to participate in the Program, an individual must—

(1) be enrolled or accepted for enrollment as a full-time graduate student at an institution of higher education in an academic program or field of study
described in the list made available under subsection (d);

(2) be a United States citizen; and

(3) at the time of the initial scholarship award, not be a Federal employee as defined in section 2105 of title 5 of the United States Code.

(e) APPLICATION REQUIRED.—An individual seeking a scholarship under this section shall submit an application to the Secretary at such time, in such manner, and containing such information, agreements, or assurances as the Secretary may require.

(d) ELIGIBLE ACADEMIC PROGRAMS.—The Secretary shall make publicly available a list of academic programs and fields of study for which scholarships under the Program may be utilized, and shall update the list as necessary.

(e) SCHOLARSHIP REQUIREMENT.—

(1) IN GENERAL.—The Secretary may provide a scholarship under the Program for an academic year if the individual applying for the scholarship has submitted to the Secretary, as part of the application required under subsection (e), a proposed academic program leading to a degree in a program or field of study on the list made available under subsection (d).
(2) Duration of Eligibility.—An individual may not receive a scholarship under this section for more than 4 academic years, unless the Secretary grants a waiver.

(3) Scholarship Amount.—The dollar amount of a scholarship under this section for an academic year shall be determined under regulations issued by the Secretary, but shall in no case exceed the cost of attendance.

(4) Authorized Uses.—A scholarship provided under this section may be expended for tuition, fees, and other authorized expenses as established by the Secretary by regulation.

(5) Contracts Regarding Direct Payments to Institutions.—The Secretary may enter into a contractual agreement with an institution of higher education under which the amounts provided for a scholarship under this section for tuition, fees, and other authorized expenses are paid directly to the institution with respect to which the scholarship is provided.

(f) Period of Obligated Service.—

(1) Duration of Service.—The period of service for which an individual shall be obligated to serve as an employee of the Department is, except
as provided in subsection (h)(2), 24 months for each
academic year for which a scholarship under this
section is provided.

(2) Schedule for Service.—

(A) In General.—Except as provided in
subparagraph (B), obligated service under para-
graph (1) shall begin not later than 60 days
after the individual obtains the educational de-
gree for which the scholarship was provided.

(B) Deferral.—The Secretary may defer
the obligation of an individual to provide a pe-
riod of service under paragraph (1) if the Sec-
retary determines that such a deferral is appro-
priate. The Secretary shall prescribe the terms
and conditions under which a service obligation
may be deferred through regulation.

(g) Penalties for Breach of Scholarship
Agreement.—

(1) Failure to Complete Academic Train-
ing.—Scholarship recipients who fail to maintain a
high level of academic standing, as defined by the
Secretary by regulation, who are dismissed from
their educational institutions for disciplinary rea-
sons, or who voluntarily terminate academic training
before graduation from the educational program for
which the scholarship was awarded, shall be in
breach of their contractual agreement and, in lieu of
any service obligation arising under such agreement,
shall be liable to the United States for repayment
not later than 1 year after the date of default of all
scholarship funds paid to them and to the institution
of higher education on their behalf under the agree-
ment, except as provided in subsection (h)(2). The
repayment period may be extended by the Secretary
when determined to be necessary, as established by
regulation.

(2) Failure to begin or complete the
service obligation or meet the terms and
conditions of deferment.—A scholarship recipi-
ent who, for any reason, fails to begin or complete
a service obligation under this section after comple-
tion of academic training, or fails to comply with the
terms and conditions of deferment established by the
Secretary pursuant to subsection (f)(2)(B), shall be
in breach of the contractual agreement. When a re-
cipient breaches an agreement for the reasons stated
in the preceding sentence, the recipient shall be lia-
ble to the United States for an amount equal to—
(A) the total amount of scholarships received by such individual under this section; plus
(B) the interest on the amounts of such awards which would be payable if at the time the awards were received they were loans bearing interest at the maximum legal prevailing rate, as determined by the Treasurer of the United States,
multiplied by 3.

(h) WAIVER OR SUSPENSION OF OBLIGATION.—

(1) DEATH OF INDIVIDUAL.—Any obligation of an individual incurred under the Program (or a contractual agreement thereunder) for service or payment shall be canceled upon the death of the individual.

(2) IMPOSSIBILITY OR EXTREME HARDSHIP.—The Secretary shall by regulation provide for the partial or total waiver or suspension of any obligation of service or payment incurred by an individual under the Program (or a contractual agreement thereunder) whenever compliance by the individual is impossible or would involve extreme hardship to the individual, or if enforcement of such obligation with
respect to the individual would be contrary to the best interests of the Government.

(i) **DEFINITIONS.**—In this section the following definitions apply:

1. **COST OF ATTENDANCE.**—The term “cost of attendance” has the meaning given that term in section 472 of the Higher Education Act of 1965 (20 U.S.C. 1087ll).

2. **PROGRAM.**—The term “Program” means the Science and Technology Scholarship Program established under this section.

12 **SEC. 908. OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION.**

The Secretary shall maintain within the Department the Office of Scientific and Technical Information.

16 **SEC. 909. SCIENCE AND ENGINEERING PILOT PROGRAM.**

(a) **ESTABLISHMENT OF CONSORTIUM.**—Notwithstanding section 913, the Secretary shall award a grant to Oak Ridge Associated Universities to establish a university consortium to carry out a regional pilot program for enhancing scientific, technological, engineering, and mathematical literacy, creativity, and decisionmaking. The consortium shall include leading research universities, one or more universities that train substantial numbers of ele-
mentary and secondary school teachers, and, where appropriate, National Laboratories.

(b) Program Elements.—The program shall include—

(1) expanding strategic, formal partnerships among universities with strength in research, universities that train substantial numbers of elementary and secondary school teachers, and the private sector;

(2) combining Department expertise with one or more National Aeronautics and Space Administration Educator Resource Centers;

(3) developing programs to permit current and future teachers to participate in ongoing research projects at National Laboratories and research universities and to adapt lessons learned to the classroom;

(4) designing and implementing course work;

(5) designing and implementing a strategy for measuring and assessing progress under the program; and

(6) developing models for transferring knowledge gained under the pilot program to other institutions and areas of the country.
(c) REPORT.—Not later than 2 years after appropriations are first available for the program, the Secretary shall transmit to Congress a report outlining lessons learned and containing a plan for expanding the program nationwide. The Secretary may begin implementation of such plan for expansion of the program on October 1, 2008. The expansion of the program shall be subject to section 913.

SEC. 910. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—In addition to amounts authorized to be appropriated under the 21st Century Nanotechnology Research and Development Act (15 U.S.C. 7501 et seq.) and the Department of Energy High-End Computing Revitalization Act of 2004 (15 U.S.C. 5541 et seq.), the following sums are authorized to be appropriated to the Secretary for the purposes of carrying out this subtitle:

(1) For fiscal year 2006, $3,785,000,000.

(2) For fiscal year 2007, $4,153,000,000.

(3) For fiscal year 2008, $4,628,000,000.

(4) For fiscal year 2009, $5,300,000,000.

(5) For fiscal year 2010, $5,800,000,000.

(b) 2006 ALLOCATIONS.—From amounts authorized under subsection (a)(1), the following sums are authorized for fiscal year 2006:
(1) Systems biology.—For activities under section 902, $100,000,000.

(2) Scientific computing.—For activities under section 905, $252,000,000.

(3) Fusion energy sciences.—For activities under section 906, excluding activities under subsection (c) of that section, $335,000,000.

(4) Scholarship.—For the scholarship program described in section 907, $800,000.

(5) Office of scientific and technical information.—For activities under section 908, $7,000,000.

(6) Pilot program.—For activities under section 909, $4,000,000.

(c) 2007 allocations.—From amounts authorized under subsection (a)(2), the following sums are authorized for fiscal year 2007:

(1) Systems biology.—For activities under section 902, such sums as may be necessary.

(2) Scientific computing.—For activities under section 905, $270,000,000.

(3) Fusion energy sciences.—For activities under section 906, excluding activities under subsection (c) of that section, $349,000,000.
(4) **SCHOLARSHIP.**—For the scholarship program described in section 907, $1,600,000.

(5) **OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION.**—For activities under section 908, $7,500,000.

(6) **PILOT PROGRAM.**—For activities under section 909, $4,000,000.

(d) **2008 ALLOCATIONS.**—From amounts authorized under subsection (a)(3), the following sums are authorized for fiscal year 2008:

(1) **SYSTEMS BIOLOGY.**—For activities under section 902, such sums as may be necessary.

(2) **SCIENTIFIC COMPUTING.**—For activities under section 905, $350,000,000.

(3) **FUSION ENERGY SCIENCES.**—For activities under section 906, excluding activities under subsection (c) of that section, $362,000,000.

(4) **SCHOLARSHIP.**—For the scholarship program described in section 907, $2,000,000.

(5) **OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION.**—For activities under section 908, $8,000,000.

(6) **PILOT PROGRAM.**—For activities under section 909, $4,000,000.
(c) 2009 ALLOCATIONS.—From amounts authorized under subsection (a)(4), the following sums are authorized for fiscal year 2009:

(1) SYSTEMS BIOLOGY.—For activities under section 902, such sums as may be necessary.

(2) SCIENTIFIC COMPUTING.—For activities under section 905, $375,000,000.

(3) FUSION ENERGY SCIENCES.—For activities under section 906, excluding activities under subsection (c) of that section, $377,000,000.

(4) SCHOLARSHIP.—For the scholarship program described in section 907, $2,000,000.

(5) OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION.—For activities under section 908, $8,000,000.

(6) PILOT PROGRAM.—For activities under section 909, $8,000,000.

(f) 2010 ALLOCATIONS.—From amounts authorized under subsection (a)(5), the following sums are authorized for fiscal year 2010:

(1) SYSTEMS BIOLOGY.—For activities under section 902, such sums as may be necessary.

(2) SCIENTIFIC COMPUTING.—For activities under section 905, $400,000,000.
375

(3) Fusion energy sciences.—For activities under section 906, excluding activities under subsection (c) of that section, $393,000,000.

(4) Scholarship.—For the scholarship program described in section 907, $2,000,000.

(5) Office of scientific and technical information.—For activities under section 908, $8,500,000.

(6) Pilot program.—For activities under section 909, $8,000,000.

(g) ITER Construction.—From amounts authorized under subsection (a) and in addition to amounts authorized under subsections (b)(3), (c)(3), (d)(3), (e)(3), and (f)(3), there are authorized to be appropriated to the Secretary such sums as may be necessary for ITER construction, consistent with the limitations of section 906(c).

Subtitle B—Research Administration and Operations

Sec. 911. Cost Sharing.

(a) Research and Development.—Except as otherwise provided in this title, for research and development programs carried out under this title, the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement
under this subsection if the Secretary determines that the
research and development is of a basic or fundamental na-
ture.

(b) Demonstration and Commercial Application.—Except as otherwise provided in this title, the Sec-
retary shall require at least 50 percent of the costs related
to any demonstration or commercial application activities
under this title to be provided from non-Federal sources.
The Secretary may reduce the non-Federal requirement
under this subsection if the Secretary determines that the
reduction is necessary and appropriate considering the
technological risks involved in the project and is necessary
to meet the objectives of this title.

c) Calculation of Amount.—In calculating the
amount of the non-Federal commitment under subsection
(a) or (b), the Secretary may include personnel, services,
equipment, and other resources.

d) Size of Non-Federal Share.—The Secretary
may consider the amount of the non-Federal share in se-
lecting projects under this title.

SEC. 912. REPROGRAMMING.

(a) Distribution Report.—Not later than 60 days
after the date of enactment of an Act appropriating
amounts authorized under this title, the Secretary shall
transmit to Congress a report explaining how such
amounts will be distributed among the activities authorized by this title.

(b) Reprogramming Letter.—No amount authorized by this title shall be obligated or expended for a purpose inconsistent with the appropriations Act appropriating such amount, the report accompanying such appropriations Act, or a distribution report transmitted under subsection (a) if such obligation or expenditure would change an individual amount, as represented in such an Act, report, or distribution report, by more than 2 percent or $2,000,000, whichever is smaller, unless the Secretary has transmitted to Congress a letter of explanation and a period of 30 days has elapsed after Congress receives the letter.

(c) Computation.—The computation of the 30-day period described in subsection (b) shall exclude any day on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain.

SEC. 913. MERIT-BASED COMPETITION.

(a) Competitive Merit Review.—Awardees of funds authorized under this title shall be selected through open competitions. Funds shall be competitively awarded only after an impartial review of the scientific and technical merit of the proposals for such awards has been ear-
ried out by or for the Department on the basis of criteria outlined by the Secretary in the solicitation of proposals.

(b) COMPETITION.—Competitive awards under this title shall involve competitions open to all qualified entities within one or more of the following categories:

(1) Institutions of higher education.

(2) National Laboratories.

(3) Nonprofit and for-profit private entities.

(4) State and local governments.

(5) Consortia of entities described in paragraphs (1) through (4).

(c) CONGRESSIONAL NOTIFICATION.—The Secretary shall notify Congress within 30 days after awarding more than $500,000 through a competition described in subsection (b) that is limited to 1 of the categories described in paragraphs (1) through (4) of subsection (b).

(d) WAIVERS.—The Secretary may waive the requirement under subsection (a) requiring competition if the Secretary considers it necessary to more quickly advance research, development, demonstration, or commercial application activities. The Secretary shall notify Congress within 30 days when a waiver is granted under this subsection. The Secretary may not delegate the waiver authority under this subsection for awards over $500,000.
SEC. 914. EXTERNAL TECHNICAL REVIEW OF DEPARTMENTAL PROGRAMS.

(a) National Applied Energy Research and Development Advisory Committees.—

(1) In general.—The Secretary shall establish one or more advisory committees to review and advise the Department’s applied programs in the following areas:

(A) Energy efficiency.

(B) Renewable energy.

(C) Nuclear energy.

(D) Fossil energy.

(2) Existing Advisory Committees.—The Secretary may designate an existing advisory committee within the Department to fulfill the responsibilities of an advisory committee under this subsection.

(b) Office of Science Advisory Committees.—

(1) Use of existing committees.—Except as otherwise provided under the Federal Advisory Committee Act, the Secretary shall continue to use the scientific program advisory committees chartered under the Federal Advisory Committee Act (5 U.S.C. App.) by the Office of Science to oversee research and development programs under that Office.
(2) REPORT.—Before the Department issues any new guidance regarding the membership for Office of Science scientific program advisory committees, the Secretary shall transmit a report to the Congress outlining the reasons for the proposed changes, and 60 days must have elapsed after transmittal of the report before the Department may implement those changes.

(3) SCIENCE ADVISORY COMMITTEE.—

(A) ESTABLISHMENT.—There shall be a Science Advisory Committee for the Office of Science that includes the chairs of each of the advisory committees described in paragraph (1).

(B) RESPONSIBILITIES.—The Science Advisory Committee shall—

(i) advise the Director of the Office of Science on science issues;

(ii) advise the Director of the Office of Science with respect to the well-being and management of the National Laboratories and Department research facilities;

(iii) advise the Director of the Office of Science with respect to education and workforce training activities required for effective short-term and long-term basic
and applied research activities of the Office of Science; and

(iv) advise the Director of the Office of Science with respect to the well-being of the university research programs supported by the Office of Science.

(c) Membership.—Each member of an advisory committee appointed under this section shall have significant scientific, technical, or other appropriate expertise. The membership of each committee shall represent a wide range of expertise, including, to the extent practicable, members with expertise from outside the disciplines covered by the program, and a diverse set of interests.

(d) Meetings and Purposes.—Each advisory committee under this section shall meet at least semiannually to review and advise on the progress made by the respective research, development, demonstration, and commercial application program or programs. The advisory committee shall also review the measurable cost and performance-based goals for the applied programs, and the progress on meeting such goals.

(e) Review and Assessment.—Not later than 6 months after the date of enactment of this Act, the Secretary shall enter into arrangements with the National Academy of Sciences to conduct reviews and assessments
of the programs authorized by this title, the measurable
cost and performance-based goals for the applied pro-
grams, and the progress in meeting such goals. Such re-
views and assessments shall be completed and reports con-
taining the results of all such reviews and assessments
transmitted to the Congress not later than 2 years after
the date of enactment of this Act.

SEC. 915. COMPETITIVE AWARD OF MANAGEMENT CON-
TRACTS.

None of the funds authorized to be appropriated to
the Secretary by this title may be used to award a manage-
ment and operating contract for a National Laboratory
(excluding those named in subparagraphs (G), (H), (N),
(O) of section 900(b)(6)), unless such contract is competi-
tively awarded, or the Secretary grants, on a case-by-case
basis, a waiver. The Secretary may not delegate the au-
thority to grant such a waiver and shall submit to the Con-
gress a report notifying it of the waiver, and setting forth
the reasons for the waiver, at least 60 days prior to the
date of the award of such contract.

SEC. 916. NATIONAL LABORATORY DESIGNATION.

After the date of enactment of this Act the Secretary
shall not designate a facility that is not referred to in sec-
tion 900(b)(6) as a National Laboratory.
SEC. 917. REPORT ON EQUAL EMPLOYMENT OPPORTUNITY PRACTICES.

Not later than 12 months after the date of enactment of this Act, and biennially thereafter, the Secretary shall transmit to Congress a report on the equal employment opportunity practices at National Laboratories. Such report shall include—

(1) a thorough review of each laboratory contractor’s equal employment opportunity policies, including promotion to management and professional positions and pay raises;

(2) a statistical report on complaints and their disposition in the laboratories;

(3) a description of how equal employment opportunity practices at the laboratories are treated in the contract and in calculating award fees for each contractor;

(4) a summary of disciplinary actions and their disposition by either the Department or the relevant contractors for each laboratory;

(5) a summary of outreach efforts to attract women and minorities to the laboratories;

(6) a summary of efforts to retain women and minorities in the laboratories; and

(7) a summary of collaboration efforts with the Office of Federal Contract Compliance Programs to
improve equal employment opportunity practices at
the laboratories.

SEC. 918. USER FACILITY BEST PRACTICES PLAN.

The Secretary shall not allow any Department facility
to begin functioning as a user facility after the date of
enactment of this Act until the Secretary, for that facil-
ity—

(1) develops a plan to ensure that the facility
will—

(A) have a skilled staff to support a wide
range of users;

(B) have a fair method for allocating time
to users that provides for input from facility
management, user representatives, and outside
experts; and

(C) be operated in a safe and fiscally pru-
dent manner; and

(2) transmits such plan to Congress and 60
days have elapsed.

SEC. 919. SUPPORT FOR SCIENCE AND ENERGY INFRA-
STRUCTURE AND FACILITIES.

(a) STRATEGY.—The Secretary shall develop and im-
plement a strategy for infrastructure and facilities sup-
ported primarily from the Office of Science and the ap-
plied programs at each National Laboratory and Depart-
ment research facility. Such strategy shall provide cost-effective means for—

(1) maintaining existing facilities and infrastructure, as needed;

(2) closing unneeded facilities;

(3) making facility modifications; and

(4) building new facilities.

(b) REPORT.—

(1) REQUIREMENT.—The Secretary shall prepare and transmit to the Congress not later than June 1, 2007, a report summarizing the strategies developed under subsection (a).

(2) CONTENTS.—For each National Laboratory and Department research facility, for the facilities primarily used for science and energy research, such report shall contain—

(A) the current priority list of proposed facilities and infrastructure projects, including cost and schedule requirements;

(B) a current 10-year plan that demonstrates the reconfiguration of its facilities and infrastructure to meet its missions and to address its long-term operational costs and return on investment;
(C) the total current budget for all facilities and infrastructure funding; and

(D) the current status of each facility and infrastructure project compared to the original baseline cost, schedule, and scope.

SEC. 920. COORDINATION PLAN.

(a) IN GENERAL.—The Secretary shall develop a coordination plan to improve coordination and collaboration in research, development, demonstration, and commercial application activities across Department organizational boundaries.

(b) PLAN CONTENTS.—The plan shall describe—

(1) how the Secretary will ensure that the applied programs are coordinating their activities, including a description of specific research questions that cross organizational boundaries and of how the relevant applied programs are coordinating their efforts to answer those questions, and how such cross-cutting research questions will be identified in the future;

(2) how the Secretary will ensure that research that has been supported by the Office of Science is being or will be used by the applied programs, including a description of specific Office of Science-supported research that is relevant to the applied
programs and of how the applied programs have used or will use that research; and

(3) a description of how the Secretary will ensure that the research agenda of the Office of Science includes research questions of concern to the applied programs, including a description of specific research questions that the Office of Science will address to assist the applied programs.

(e) Plan Transmittal.—The Secretary shall transmit the coordination plan to Congress not later than 9 months after the date of enactment of this Act, and every 2 years thereafter shall transmit a revised coordination plan.

(d) Conference.—Not less than 6 months after the date of enactment of this Act, the Secretary shall convene a conference of program managers from the Office of Science and the applied programs to review ideas and explore possibilities for effective cross-program collaboration. The Secretary also shall invite participation relevant Federal agencies and other programs in the Federal Government conducting relevant research, and other stakeholders as appropriate.

SEC. 921. AVAILABILITY OF FUNDS.

Funds appropriated to the Secretary for activities authorized under this title shall remain available for three
years. Funds that are not obligated at the end of three years shall be returned to the Treasury.

**Subtitle C—Energy Efficiency**

**CHAPTER 1—VEHICLES, BUILDINGS, AND INDUSTRIES**

**SEC. 922. PROGRAMS.**

(a) **In General.**—The Secretary shall conduct programs of energy efficiency research, development, demonstration, and commercial application, including activities described in this chapter. Such programs shall be focused on the following objectives:

(1) Increasing the energy efficiency of vehicles, buildings, and industrial processes.

(2) Reducing the Nation’s demand for energy, especially energy from foreign sources.

(3) Reducing the cost of energy and making the economy more efficient and competitive.

(4) Improving the Nation’s energy security.

(5) Reducing the environmental impact of energy-related activities.

(b) **Goals.**—

(1) **Initial Goals.**—In accordance with the performance plan and report requirements in section 4 of the Government Performance Results Act of 1993, the Secretary shall transmit to the Congress,
along with the President’s annual budget request for fiscal year 2007, a report containing outcome measures with explicitly stated cost and performance baselines. The measures shall specify energy efficiency performance goals, with quantifiable 5-year cost and energy savings target levels, for vehicles, buildings, and industries, and any other such goals the Secretary considers appropriate.

(2) SUBSEQUENT TRANSMITTALS.—The Secretary shall transmit to the Congress, along with the President’s annual budget request for each fiscal year after 2007, a report containing—

   (A) a description, including quantitative analysis, of progress in achieving performance goals transmitted under paragraph (1), as compared to the baselines transmitted under paragraph (1); and

   (B) any amendments to such goals.

(c) PUBLIC INPUT.—The Secretary shall consider advice from industry, universities, and other interested parties through seeking comments in the Federal Register and other means before transmitting each report under subsection (b).
SEC. 923. VEHICLES.

(a) ADVANCED, COST-EFFECTIVE TECHNOLOGIES.—
The Secretary shall conduct a program of research, development, demonstration, and commercial application of advanced, cost-effective technologies to improve the energy efficiency and environmental performance of light-duty and heavy-duty vehicles, including—

(1) hybrid and electric propulsion systems, including plug-in hybrid systems;

(2) advanced engines, including combustion engines;

(3) advanced materials, including high strength, lightweight materials, such as nanostructured materials, composites, multimaterial parts, carbon fibers, and materials with high thermal conductivity;

(4) technologies for reduced drag and rolling resistance;

(5) whole-vehicle design optimization to reduce the weight of component parts and thus increase the fuel economy of the vehicle, including fiber optics to replace traditional wiring;

(6) thermoelectric devices that capture waste heat and convert thermal energy into electricity; and

(7) advanced drivetrains.

(b) LOW-COST HYDROGEN PROPULSION AND INFRASTRUCTURE.—The Secretary of Energy shall—
(1) establish a research, development, and demonstration program to determine the feasibility of using hydrogen propulsion in light-weight vehicles and the integration of the associated hydrogen production infrastructure using off-the-shelf components; and

(2) identify universities and institutions that—

(A) have expertise in researching and testing vehicles fueled by hydrogen, methane, and other fuels;

(B) have expertise in integrating off-the-shelf components to minimize cost; and

(C) within two years can test a vehicle based on an existing commercially available platform with a curb weight of not less than 2,000 pounds before modifications, that—

(i) operates solely on hydrogen gas;

(ii) can travel a minimum of 300 miles under normal road conditions; and

(iii) uses hydrogen produced from water using only solar energy.

SEC. 924. BUILDINGS.

(a) Program.—The Secretary shall conduct a program of research, development, demonstration, and commercial application of cost-effective technologies, for new
construction and retrofit, to improve the energy efficiency and environmental performance of commercial, industrial, institutional, and residential buildings. The program shall use a whole-buildings approach, integrating work on elements including—

(1) advanced controls, including occupancy sensors, daylighting controls, wireless technologies, automated responses to changes in the internal and external environment, and real time delivery of information on building system and component performance;

(2) building envelope, including windows, roofing systems and materials, and building-integrated photovoltaics;

(3) building systems components, including—
   (A) lighting;
   (B) appliances, including advanced technologies, such as stand-by load technologies, for office equipment, food service equipment, and laundry equipment; and
   (C) heating, ventilation, and cooling systems, including ground-source heat pumps and radiant heating; and

(4) onsite renewable energy generation.
(b) **Energy Efficient Building Pilot Grant Program.**—

(1) **In general.**—Not later than 6 months after the date of enactment of this Act, the Secretary shall establish a pilot program to award grants to businesses and organizations for new construction of energy efficient buildings, or major renovations of buildings that will result in energy efficient buildings, to demonstrate innovative energy efficiency technologies, especially those sponsored by the Department.

(2) **Awards.**—The Secretary shall award grants under this subsection competitively to those applicants whose proposals—

(A) best demonstrate—

(i) likelihood to meet or exceed the design standards referred to in paragraph (7);

(ii) likelihood to maximize cost-effective energy efficiency opportunities; and

(iii) advanced energy efficiency technologies; and

(B) are least likely to be realized without Federal assistance.
(3) AMOUNT OF GRANTS.—Grants under this subsection shall be for up to 50 percent of design and energy modeling costs, not to exceed $50,000 per building. No single grantee may be eligible for more than 3 grants per year under this program.

(4) GRANT PAYMENTS.—

(A) INITIAL PAYMENT.—The Secretary shall pay 50 percent of the total amount of the grant to grant recipients upon selection.

(B) REMAINDER OF PAYMENT.—The Secretary shall pay the remaining 50 percent of the grant only after independent certification of operational buildings for compliance with the standards for energy efficient buildings described in paragraph (7).

(C) FAILURE TO COMPLY.—The Secretary shall not provide the remainder of the payment unless the building is certified within 6 months after operation of the completed building to meet the requirements described in subparagraph (B), or in the case of major renovations the building is certified within 6 months of the completion of the renovations.

(5) REPORT TO CONGRESS.—Not later than 3 years after awarding the first grant under this sub-
section, the Secretary shall transmit to Congress a report containing—

(A) the total number and dollar amount of grants awarded under this subsection; and
(B) an estimate of aggregate cost and energy savings enabled by the pilot program under this subsection.

(6) ADMINISTRATIVE EXPENSES.—Administrative expenses for the program under this subsection shall not exceed 10 percent of appropriated funds.

(7) DEFINITION OF ENERGY EFFICIENT BUILDING.—For purposes of this subsection, the term “energy efficient building” means a building that is independently certified—

(A) to meet or exceed the applicable United States Green Building Council’s Leadership in Energy and Environmental Design standards for a silver, gold, or platinum rating; and
(B) to achieve a reduction in energy consumption of—

(i) at least 25 percent for new construction, compared to the energy standards set by the Federal Building Code (10 CFR part 434); and
(ii) at least 20 percent for major renovations, compared to energy consumption before renovations are begun.

(c) **Standardization Report and Program.**—

(1) **Report.**—The Secretary shall enter into an arrangement with the National Institute of Building Sciences to—

(A) conduct a comprehensive assessment of how well current voluntary consensus standards related to buildings match state-of-the-art knowledge on the design, construction, operation, repair, and renovation of high-performance buildings; and

(B) recommend steps for the Secretary to take to accelerate the development and promulgation of voluntary consensus standards for high-performance buildings that would address all major high-performance building attributes, including energy efficiency, sustainability, safety and security, life-cycle cost, and productivity.

(2) **Program.**—After receiving the report under paragraph (1), the Secretary shall establish a program of technical assistance and grants to support standards development organizations in—
(A) the revision of existing standards, to reflect current knowledge of high-performance buildings; and

(B) the development and promulgation of new standards in areas important to high-performance buildings where there is no existing standard or where an existing standard cannot easily be modified.

SEC. 925. INDUSTRIES.

(a) PROGRAM.—The Secretary shall conduct a program of research, development, demonstration, and commercial application of advanced technologies to improve the energy efficiency, environmental performance, and process efficiency of energy-intensive and waste-intensive industries. Such program shall be focused on industries whose total annual energy consumption amounts to more than 1.0 percent of the total nationwide annual energy consumption, according to the most recent data available to the Department. Research and development efforts under this section shall give a higher priority to broad-benefit efficiency technologies that have practical application across industry sectors.

(b) ELECTRIC MOTOR CONTROL TECHNOLOGY.—The program conducted under subsection (a) shall include research on, and development, demonstration, and com-
commercial application of, advanced control devices to improve
the energy efficiency of electric motors, including those
used in industrial processes, heating, ventilation, and cool-
ing.

SEC. 926. DEMONSTRATION AND COMMERCIAL APPLICATION.

(a) APPLIANCES AND TESTING.—The Secretary shall
conduct research and analysis to determine whether, given
Department-sponsored and other advances in energy effi-
ciency technologies, demonstration and commercial appli-
cation of innovative, cost-effective energy savings and pol-
lution reducing technologies could be used to improve ap-
pliances and test procedures used to measure appliance
efficiency.

(b) BUILDING ENERGY CODES.—The Secretary shall,
in coordination with government, nongovernment, and
commercial partners, conduct research and analyses of the
best cost-effective practices in the development and updat-
ing of building energy codes, including for manufactured
housing. Analyses shall focus on how to encourage energy
efficiency and adoption of newly developed energy produc-
tion and use equipment.

(e) ADVANCED ENERGY TECHNOLOGY TRANSFER
CENTERS.—
(1) **GRANTS.**—Not later than 18 months after the date of enactment of this Act, the Secretary shall make grants to nonprofit institutions, State and local governments, or universities (or consortia thereof), to establish a geographically dispersed network of Advanced Energy Technology Transfer Centers, to be located in areas the Secretary determines have the greatest need of the services of such Centers.

(2) **ACTIVITIES.**—

   (A) **IN GENERAL.**—Each Center shall operate a program to encourage demonstration and commercial application of advanced energy methods and technologies through education and outreach to building and industrial professionals, and to other individuals and organizations with an interest in efficient energy use.

   (B) **ADVISORY PANEL.**—Each Center shall establish an advisory panel to advise the Center on how best to accomplish the activities under subparagraph (A).

(3) **APPLICATION.**—A person seeking a grant under this subsection shall submit to the Secretary an application in such form and containing such information as the Secretary may require. The Sec-
retary may award a grant under this subsection to
an entity already in existence if the entity is other-
wise eligible under this subsection.

(4) SELECTION CRITERIA.—The Secretary shall
award grants under this subsection on the basis of
the following criteria, at a minimum:

(A) The ability of the applicant to carry
out the activities in paragraph (2).

(B) The extent to which the applicant will
coordinate the activities of the Center with
other entities, such as State and local govern-
ments, utilities, and educational and research
institutions.

(5) MATCHING FUNDS.—The Secretary shall re-
quire a non-Federal matching requirement of at
least 50 percent of the costs of establishing and op-
erating each Center.

(6) ADVISORY COMMITTEE.—The Secretary
shall establish an advisory committee to advise the
Secretary on the establishment of Centers under this
subsection. The advisory committee shall be com-
posed of individuals with expertise in the area of ad-
vanced energy methods and technologies, including
at least 1 representative from—

(A) State or local energy offices;
(B) energy professionals;

(C) trade or professional associations;

(D) architects, engineers, or construction professionals;

(E) manufacturers;

(F) the research community; and

(G) nonprofit energy or environmental organizations.

(7) DEFINITIONS.—For purposes of this subsection:

(A) ADVANCED ENERGY METHODS AND TECHNOLOGIES.—The term “advanced energy methods and technologies” means all methods and technologies that promote energy efficiency and conservation, including distributed generation technologies, and life-cycle analysis of energy use.

(B) CENTER.—The term “Center” means an Advanced Energy Technology Transfer Center established pursuant to this subsection.

(C) DISTRIBUTED GENERATION.—The term “distributed generation” means an electric power generation facility that is designed to serve retail electric consumers at or near the facility site.
(d) Report.—Not later than 2 years after the date of enactment of this Act, and once every 3 years thereafter, the Secretary shall transmit to Congress a report on the results of research and analysis under this section. In calculating cost-effectiveness for purposes of such reports, the Secretary shall include, at a minimum, the avoided cost of additional energy production, savings to the economy from lower peak energy prices and reduced price volatility, and the public and private benefits of reduced pollution.

SEC. 927. SECONDARY ELECTRIC VEHICLE BATTERY USE PROGRAM.

(a) Definitions.—For purposes of this section:

(1) Associated equipment.—The term “associated equipment” means equipment located where the batteries will be used that is necessary to enable the use of the energy stored in the batteries.

(2) Battery.—The term “battery” means an energy storage device that previously has been used to provide motive power in a vehicle powered in whole or in part by electricity.

(b) Program.—The Secretary shall establish and conduct a research, development, demonstration, and commercial application program for the secondary use of batteries if the Secretary finds that there are sufficient num-

•HR 6 IH
bers of such batteries to support the program. The pro-
gram shall be—

(1) designed to demonstrate the use of batteries
in secondary applications, including utility and com-
ercial power storage and power quality;

(2) structured to evaluate the performance, in-
cluding useful service life and costs, of such bat-
teries in field operations, and the necessary sup-
porting infrastructure, including reuse and disposal
of batteries; and

(3) coordinated with ongoing secondary battery
use programs at the National Laboratories and in
industry.

(e) SOLICITATION.—Not later than 180 days after
the date of enactment of this Act, if the Secretary finds
under subsection (b) that there are sufficient numbers of
batteries to support the program, the Secretary shall sol-
licit proposals to demonstrate the secondary use of bat-
teries and associated equipment and supporting infra-
structure in geographic locations throughout the United
States. The Secretary may make additional solicitations
for proposals if the Secretary determines that such solici-
tations are necessary to carry out this section.

(d) SELECTION OF PROPOSALS.—
(1) **IN GENERAL.**—The Secretary shall, not later than 90 days after the closing date established by the Secretary for receipt of proposals under subsection (c), select up to 5 proposals which may receive financial assistance under this section, subject to the availability of appropriations.

(2) **DIVERSITY; ENVIRONMENTAL EFFECT.**—In selecting proposals, the Secretary shall consider diversity of battery type, geographic and climatic diversity, and life-cycle environmental effects of the approaches.

(3) **LIMITATION.**—No 1 project selected under this section shall receive more than 25 percent of the funds authorized for the program under this section.

(4) **OPTIMIZATION OF FEDERAL RESOURCES.**—The Secretary shall consider the extent of involvement of State or local government and other persons in each demonstration project to optimize use of Federal resources.

(5) **OTHER CRITERIA.**—The Secretary may consider such other criteria as the Secretary considers appropriate.

(e) **CONDITIONS.**—The Secretary shall require that—
(1) relevant information be provided to the Department, the users of the batteries, the proposers, and the battery manufacturers;

(2) the proposer provide at least 50 percent of the costs associated with the proposal; and

(3) the proposer provide to the Secretary such information regarding the disposal of the batteries as the Secretary may require to ensure that the proposer disposes of the batteries in accordance with applicable law.

SEC. 928. NEXT GENERATION LIGHTING INITIATIVE.

(a) IN GENERAL.—The Secretary shall carry out a Next Generation Lighting Initiative in accordance with this section to support research, development, demonstration, and commercial application activities related to advanced solid-state lighting technologies based on white light emitting diodes.

(b) OBJECTIVES.—The objectives of the initiative shall be to develop advanced solid-state organic and inorganic lighting technologies based on white light emitting diodes that, compared to incandescent and fluorescent lighting technologies, are longer lasting; more energy-efficient; and cost-competitive, and have less environmental impact.
(c) **INDUSTRY ALLIANCE.**—The Secretary shall, not later than 3 months after the date of enactment of this section, competitively select an Industry Alliance to represent participants that are private, for-profit firms which, as a group, are broadly representative of United States solid state lighting research, development, infrastructure, and manufacturing expertise as a whole.

(d) **RESEARCH.**—

(1) **IN GENERAL.**—The Secretary shall carry out the research activities of the Next Generation Lighting Initiative through competitively awarded grants to researchers, including Industry Alliance participants, National Laboratories, and institutions of higher education.

(2) **ASSISTANCE FROM THE INDUSTRY ALLIANCE.**—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;

(B) assessment of the progress of the Initiative’s research activities; and

(C) assistance in annually updating solid-state lighting technology roadmaps.

(3) **AVAILABILITY OF INFORMATION AND ROADMAPS.**—The information and roadmaps under para-
graph (2) shall be available to the public and public response shall be solicited by the Secretary.

(e) DEVELOPMENT, DEMONSTRATION, AND COMMERCIAL APPLICATION.—The Secretary shall carry out a development, demonstration, and commercial application program for the Next Generation Lighting Initiative through competitively selected awards. The Secretary may give preference to participants of the Industry Alliance selected pursuant to subsection (e).

(f) INTELLECTUAL PROPERTY.—The Secretary may require, in accordance with the authorities provided in section 202(a)(ii) of title 35, United States Code, section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182), and section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908), that—

(1) for any new invention resulting from activities under subsection (d)—

(A) the Industry Alliance members that are active participants in research, development, and demonstration activities related to the advanced solid-state lighting technologies that are the subject of this section shall be granted first option to negotiate with the invention owner nonexclusive licenses and royalties for uses of the invention related to solid-state lighting on
terms that are reasonable under the circumstances; and

(B)(i) for 1 year after a United States patent is issued for the invention, the patent holder shall not negotiate any license or royalty with any entity that is not a participant in the Industry Alliance described in subparagraph (A); and

(ii) during the year described in clause (i), the invention owner shall negotiate nonexclusive licenses and royalties in good faith with any interested participant in the Industry Alliance described in subparagraph (A); and

(2) such other terms as the Secretary determines are required to promote accelerated commercialization of inventions made under the Initiative.

(g) NATIONAL ACADEMY REVIEW.—The Secretary shall enter into an arrangement with the National Acad- 
emy of Sciences to conduct periodic reviews of the Next Generation Lighting Initiative. The Academy shall review the research priorities, technical milestones, and plans for technology transfer and progress towards achieving them. The Secretary shall consider the results of such reviews in evaluating the information obtained under subsection (d)(2).
(h) DEFINITIONS.—As used in this section:

(1) ADVANCED SOLID-STATE LIGHTING.—The term “advanced solid-state lighting” means a semiconducting device package and delivery system that produces white light using externally applied voltage.

(2) RESEARCH.—The term “research” includes research on the technologies, materials, and manufacturing processes required for white light emitting diodes.

(3) INDUSTRY ALLIANCE.—The term “Industry Alliance” means an entity selected by the Secretary under subsection (e).

(4) WHITE LIGHT EMITTING DIODE.—The term “white light emitting diode” means a semiconducting package, utilizing either organic or inorganic materials, that produces white light using externally applied voltage.

SEC. 929. DEFINITIONS.

For the purposes of this chapter—

(1) the term “cost-effective” means resulting in a simple payback of costs in 10 years or less; and

(2) the term “whole-buildings approach” includes, on a life-cycle basis, the energy use, cost of
operations, and ease of repair or upgrade of a build-
ing.

SEC. 930. AUTHORIZATION OF APPROPRIATIONS.

The following sums are authorized to be appropriated to the Secretary for the purposes of carrying out this chapter:

(1) For fiscal year 2006, $620,000,000, includ-
ing—

(A) $200,000,000 for carrying out the ve-
hicles program under section 923;

(B) $100,000,000 for carrying out the buildings program under section 924, of which $10,000,000 shall be for the grant program under section 924(b);

(C) $100,000,000 for carrying out the ind-
dustries program under section 925(a);

(D) $2,000,000 for carrying out the elec-
tric motor control technology program under section 925(b);

(E) $10,000,000 for carrying out demo-
stration and commercial applications activi-
ties under section 926;

(F) $4,000,000 for carrying out the sec-
ondary electric vehicle battery use program under section 927; and
(G) $20,000,000 for carrying out the Next Generation Lighting Initiative under section 928.

(2) For fiscal year 2007, $700,000,000, including—

(A) $240,000,000 for carrying out the vehicles program under section 923;

(B) $130,000,000 for carrying out the buildings program under section 924, of which $10,000,000 shall be for the grant program under section 924(b);

(C) $115,000,000 for carrying out the industries program under section 925(a);

(D) $2,000,000 for carrying out the electric motor control technology program under section 925(b);

(E) $10,000,000 for carrying out demonstration and commercial applications activities under section 926;

(F) $7,000,000 for carrying out the secondary electric vehicle battery use program under section 927; and

(G) $30,000,000 for carrying out the Next Generation Lighting Initiative under section 928.
(3) For fiscal year 2008, $800,000,000, including—

(A) $270,000,000 for carrying out the vehicles program under section 923;

(B) $160,000,000 for carrying out the buildings program under section 924, of which $10,000,000 shall be for the grant program under section 924(b);

(C) $140,000,000 for carrying out the industries program under section 925(a);

(D) $2,000,000 for carrying out the electric motor control technology program under section 925(b);

(E) $10,000,000 for carrying out demonstration and commercial applications activities under section 926;

(F) $7,000,000 for carrying out the secondary electric vehicle battery use program under section 927; and

(G) $50,000,000 for carrying out the Next Generation Lighting Initiative under section 928.

(4) For fiscal year 2009, $925,000,000, including—
(A) $310,000,000 for carrying out the vehicles program under section 923;

(B) $200,000,000 for carrying out the buildings program under section 924, of which $10,000,000 shall be for the grant program under section 924(b);

(C) $170,000,000 for carrying out the industries program under section 925(a);

(D) $10,000,000 for carrying out demonstration and commercial applications activities under section 926;

(E) $7,000,000 for carrying out the secondary electric vehicle battery use program under section 927; and

(F) $50,000,000 for carrying out the Next Generation Lighting Initiative under section 928.

(5) For fiscal year 2010, $1,000,000,000, including—

(A) $340,000,000 for carrying out the vehicles program under section 923;

(B) $240,000,000 for carrying out the buildings program under section 924, of which $10,000,000 shall be for the grant program under section 924(b);
(C) $190,000,000 for carrying out the industries program under section 925(a);

(D) $10,000,000 for carrying out demonstration and commercial applications activities under section 926;

(E) $7,000,000 for carrying out the secondary electric vehicle battery use program under section 927; and

(F) $50,000,000 for carrying out the Next Generation Lighting Initiative under section 928.

SEC. 931. LIMITATION ON USE OF FUNDS.

None of the funds authorized to be appropriated under this chapter may be used for—

(1) the issuance and implementation of energy efficiency regulations;

(2) the Weatherization Assistance Program under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.);

(3) the State Energy Program under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or

CHAPTER 2—DISTRIBUTED ENERGY AND
ELECTRIC ENERGY SYSTEMS

SEC. 932. DISTRIBUTED ENERGY.

(a) In General.—The Secretary shall conduct pro-
grams of distributed energy resources and systems reli-
ability and efficiency research, development, demonstra-
tion, and commercial application to improve the reliability
and efficiency of distributed energy resources and systems,
including activities described in this chapter. The pro-
grams shall address advanced energy technologies and sys-
tems and advanced grid reliability technologies. The pro-
grams shall include the integration of—

(1) renewable energy resources;
(2) fuel cells;
(3) combined heat and power systems;
(4) microturbines;
(5) advanced natural gas turbines;
(6) advanced internal combustion engine gen-
erators;
(7) energy storage devices;
(8) interconnection standards, protocols, and
equipment;
(9) ancillary equipment for dispatch and con-
trol; and
(10) any other energy technologies, as appropriate.

(b) Micro-Cogeneration Energy Technology.—The Secretary shall make competitive, merit-based grants to consortia for the development of micro-cogeneration energy technology. The consortia shall explore—

(1) the use of small-scale combined heat and power in residential heating appliances; or

(2) the use of excess power to operate other appliances within the residence and supply excess generated power to the power grid.

(c) Goals.—

(1) Initial Goals.—In accordance with the performance plan and report requirements in section 4 of the Government Performance Results Act of 1993, the Secretary shall transmit to the Congress, along with the President’s annual budget request for fiscal year 2007, a report containing outcome measures with explicitly stated cost and performance baselines. The measures shall specify performance goals, with quantifiable 5-year cost and energy savings target levels, for distributed energy resources and systems, and any other such goals the Secretary considers appropriate.
(2) SUBSEQUENT TRANSMITTALS.—The Secretary shall transmit to the Congress, along with the President’s annual budget request for each fiscal year after 2007, a report containing—

(A) a description, including quantitative analysis, of progress in achieving performance goals transmitted under paragraph (1), as compared to the baselines transmitted under paragraph (1); and

(B) any amendments to such goals.

SEC. 933. ELECTRICITY TRANSMISSION AND DISTRIBUTION AND ENERGY ASSURANCE.

(a) PROGRAM.—The Secretary shall conduct a research, development, demonstration, and commercial application program on advanced control devices to improve the energy efficiency and reliability of the electric transmission and distribution systems and to protect the Nation against severe energy supply disruptions. This program shall address, at a minimum—

(1) advanced energy delivery and storage technologies, materials, and systems, including new transmission technologies, such as flexible alternating current transmission systems, composite conductor materials, and other technologies that en-
hance reliability, operational flexibility, or power-carrying capability;

(2) advanced grid reliability and efficiency technology development;

(3) technologies contributing to significant load reductions;

(4) advanced metering, load management, and control technologies;

(5) technologies to enhance existing grid components;

(6) the development and use of high-temperature superconductors to—

(A) enhance the reliability, operational flexibility, or power-carrying capability of electric transmission or distribution systems; or

(B) increase the efficiency of electric energy generation, transmission, distribution, or storage systems;

(7) integration of power systems, including systems to deliver high-quality electric power, electric power reliability, and combined heat and power;

(8) supply of electricity to the power grid by small-scale, distributed, and residential-based power generators;
(9) the development and use of advanced grid
design, operation, and planning tools;

(10) any other infrastructure technologies, as
appropriate; and

(11) technology transfer and education.

(b) GOALS.—

(1) INITIAL GOALS.—In accordance with the
performance plan and report requirements in section
4 of the Government Performance Results Act of
1993, the Secretary shall transmit to the Congress,
along with the President’s annual budget request for
fiscal year 2007, a report containing outcome meas-
ures with explicitly stated cost and performance
baselines. The measures shall specify performance
goals, with quantifiable 5-year cost and energy sav-
ings target levels, for electricity transmission and
distribution and energy assurance, and any other
such goals the Secretary considers appropriate.

(2) SUBSEQUENT TRANSMITTALS.—The Sec-
retary shall transmit to the Congress, along with the
President’s annual budget request for each fiscal
year after 2007, a report containing—

(A) a description, including quantitative
analysis, of progress in achieving performance
goals transmitted under paragraph (1), as com-
pared to the baselines transmitted under para-
graph (1); and

(B) any amendments to such goals.

c) HIGH VOLTAGE TRANSMISSION LINES.—As part
of the program described in subsection (a), the Secretary
shall award a grant to a university research program to
design and test, in consultation with the Tennessee Valley
Authority, state-of-the-art optimization techniques for
power flow through existing high voltage transmission
lines.

SEC. 933A. ADVANCED PORTABLE POWER DEVICES.

(a) PROGRAM.—The Secretary shall—

(1) establish a research, development, and dem-
onstration program to develop working models of
small scale portable power devices; and

(2) to the fullest extent practicable, identify and
utilize the resources of universities that have shown
expertise with respect to advanced portable power
devices for either civilian or military use.

(b) ORGANIZATION.—The universities identified and
utilized under subsection (a)(2) are authorized to establish
an organization to promote small scale portable power de-

(c) DEFINITION.—For purposes of this section, the
term “small scale portable power device” means a field
deployable portable mechanical or electromechanical device that can be used for applications such as communications, computation, mobility enhancement, weapons systems, optical devices, cooling, sensors, medical devices and active biological agent detection systems.

SEC. 934. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for the purposes of carrying out this chapter:

(1) For fiscal year 2006, $220,000,000.
(2) For fiscal year 2007, $240,000,000.
(3) For fiscal year 2008, $250,000,000.
(4) For fiscal year 2009, $265,000,000.
(5) For fiscal year 2010, $275,000,000.

(b) MICRO-COGENERATION ENERGY TECHNOLOGY.—From the amounts authorized under subsection (a), $20,000,000 for each of fiscal years 2006 and 2007 are authorized for activities under section 932(b).

(c) ELECTRICITY TRANSMISSION AND DISTRIBUTION AND ENERGY ASSURANCE.—From the amounts authorized under subsection (a), the following sums are authorized for activities under section 933:

(1) For fiscal year 2006, $130,000,000, of which $2,000,000 shall be for the program under section 933(c).
(2) For fiscal year 2007, $140,000,000.
(3) For fiscal year 2008, $150,000,000.
(4) For fiscal year 2009, $160,000,000.
(5) For fiscal year 2010, $165,000,000.

Subtitle D—Renewable Energy

SEC. 935. FINDINGS.

Congress makes the following findings:

(1) Renewable energy is a growth industry around the world. However, the United States has not been investing as heavily as other countries, and is losing market share.

(2) Since 1996, the United States has lost significant market share in the solar industry, dropping from 44 percent of the world market to 13 percent in 2003.

(3) In 2003, Japan spent more than $200,000,000 on solar research, development, demonstration, and commercial application and other incentives, and Germany provided more than $750,000,000 in low cost financing for solar photovoltaic projects. This compares to United States Government spending of $139,000,000 in 2003 for research, development, demonstration, and commercial application and other incentives.
(4) Germany and Japan each had domestic photovoltaic industries that employed more than 10,000 people in 2003, while in the same year the United States photovoltaic industry employed only 2,000 people.

(5) The United States is becoming increasingly dependent on imported energy.

(6) The high cost of fossil fuels is hurting the United States economy.

(7) Small reductions in peak demand can result in very large reductions in price, according to energy market experts.

(8) Although the United States has only 2 percent of the world’s oil reserves and 3 percent of the world’s natural gas reserves, our Nation’s renewable energy resources are vast and largely untapped.

(9) Renewable energy can reduce the demand for imported energy, reducing costs and decreasing the variability of energy prices.

(10) By using domestic renewable energy resources, the United States can reduce the amount of money sent into unstable regions of the world and keep it in the United States.

(11) By supporting renewable energy research and development, and funding demonstration and
commercial application programs for renewable energy, the United States can create an export industry and improve the balance of trade.

(12) Renewable energy can significantly reduce the environmental impacts of energy production.

SEC. 936. DEFINITIONS.

For purposes of this subtitle:

(1) **BIOBASED PRODUCT.**—The term “biobased product” means a product determined by the Secretary to be a commercial or industrial product (other than food or feed) that is—

(A) composed, in whole or in significant part, of—

(i) biological products;

(ii) renewable domestic agricultural materials (including plant, animal, and marine materials); or

(iii) forestry materials; and

(B) produced in connection with the conversion of biomass to energy or fuel.

(2) **CELLULOSIC BIOMASS.**—The term “cellulosic biomass” means a crop containing lignocellulose or hemicellulose, including barley grain, grapeseed, forest thinnings, rice bran, rice hulls, rice straw, soybean matter, sugarcane bagasse,
and any crop grown specifically for the purpose of producing cellulosic feedstocks.

SEC. 937. PROGRAMS.

(a) IN GENERAL.—The Secretary shall conduct programs of renewable energy research, development, demonstration, and commercial application, including activities described in this subtitle. Such programs shall be focused on the following objectives:

(1) Increasing the conversion efficiency of all forms of renewable energy through improved technologies.

(2) Decreasing the cost of renewable energy generation and delivery.

(3) Promoting the diversity of the energy supply.

(4) Decreasing the Nation’s dependence on foreign energy supplies.

(5) Improving United States energy security.

(6) Decreasing the environmental impact of energy-related activities.

(7) Increasing the export of renewable generation equipment from the United States.

(b) GOALS.—

(1) INITIAL GOALS.—In accordance with the performance plan and report requirements in section
of the Government Performance Results Act of 1993, the Secretary shall transmit to the Congress, along with the President’s annual budget request for fiscal year 2007, a report containing outcome measures with explicitly stated cost and performance baselines. The measures shall specify renewable energy performance goals, with quantifiable 5-year cost and energy savings target levels, for wind power, photovoltaics, solar thermal systems (including concentrating and solar hot water), geothermal energy, biomass-based systems, biofuels, and hydropower, and any other such goals the Secretary considers appropriate.

(2) Subsequent Transmittals.—The Secretary shall transmit to the Congress, along with the President’s annual budget request for each fiscal year after 2007, a report containing—

(A) a description, including quantitative analysis, of progress in achieving performance goals transmitted under paragraph (1), as compared to the baselines transmitted under paragraph (1); and

(B) any amendments to such goals.

c) Public Input.—The Secretary shall consider advice from industry, universities, and other interested par-
ties through seeking comments in the Federal Register and other means before transmitting each report under subsection (b).

SEC. 938. SOLAR.

(a) PROGRAM.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for solar energy, including—

(1) photovoltaics;

(2) solar hot water and solar space heating; and

(3) concentrating solar power.

(b) BUILDING INTEGRATION.—For photovoltaics, solar hot water, and space heating, the Secretary shall conduct research, development, demonstration, and commercial application to support the development of products that can be easily integrated into new and existing buildings.

(c) MANUFACTURE.—The Secretary shall conduct research, development, demonstration, and commercial application of manufacturing techniques that can produce low-cost, high-quality solar systems.

SEC. 939. BIOENERGY PROGRAMS.

(a) PROGRAM.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for cellulosic biomass, including—

(1) biomass conversion to heat and electricity;
(2) biomass conversion to liquid fuels;
(3) biobased products;
(4) integrated biorefineries that may produce heat, electricity, liquid fuels, and biobased products;
(5) cross-cutting activities on feedstocks and enzymes; and
(6) life-cycle economic analysis.

(b) BIOFUELS AND BIOPRODUCTS.—The objectives of the biofuels and bioprocess programs under paragraphs (2), (3), and (4) of subsection (a), and of the biorefinery demonstration program under subsection (c), shall be to develop, in partnership with industry—

(1) advanced biochemical and thermochemical conversion technologies capable of making high-value biobased chemical feedstocks and products, to substitute for petroleum-based feedstocks and products, biofuels that are price-competitive with gasoline or diesel in either internal combustion engines or fuel cell-powered vehicles, and biobased products from a variety of feedstocks, including grains, cellulosic biomass, and agricultural byproducts; and
(2) advanced biotechnology processes capable of making biofuels and biobased products, with empha-
sis on development of biorefinery technologies, in-
cluding enzyme-based processing technologies.

(c) BIOMASS INTEGRATED REFINERY DEMONSTR-
ATION.—

(1) IN GENERAL.—The Secretary shall conduct
a program to demonstrate the commercial applica-
tion of at least 5 integrated biorefineries. The Sec-
retary shall ensure geographical distribution of bio-
refinery demonstrations under this subsection. The
Secretary shall not provide more than $100,000,000
under this subsection for any single biorefinery dem-
onstration. The Secretary shall award the biorefinery
demonstrations so as to encourage—

(A) the demonstration of a wide variety of
cellulosic biomass feedstocks;

(B) the commercial application of biomass
technologies for a variety of uses, including—

(i) liquid transportation fuels;

(ii) high-value biobased chemicals;

(iii) substitutes for petroleum-based

feedstocks and products; and

(iv) energy in the form of electricity

or useful heat; and

(C) the demonstration of the collection and
treatment of a variety of biomass feedstocks.
(2) PROPOSALS.—Not later than 6 months after the date of enactment of this Act, the Secretary shall solicit proposals for demonstration of advanced biorefineries. The Secretary shall select only proposals that—

(A) demonstrate that the project will be able to operate profitably without direct Federal subsidy after initial construction costs are paid; and

(B) enable the biorefinery to be easily replicated.

(d) UNIVERSITY BIODIESEL PROGRAM.—The Secretary shall establish a demonstration program to determine the feasibility of the operation of diesel electric power generators, using biodiesel fuels, with ratings as high as B100 at a university electric generation facility. The program shall examine—

(1) heat rates of diesel fuels with large quantities of cellulosic content;

(2) the reliability of operation of various fuel blends;

(3) performance in cold or freezing weather;

(4) stability of fuel after extended storage; and

(5) other criteria, as determined by the Secretary.
(e) GRANTS.—Of the funds authorized to be appropriated for activities authorized under this section, not less than $5,000,000 for each fiscal year shall be made available for grants to Historically Black Colleges and Universities, Tribal Colleges, and Hispanic-Serving Institutions.

SEC. 940. WIND.

(a) PROGRAM.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for wind energy, including—

(1) low speed wind energy;

(2) offshore wind energy;

(3) testing and verification; and

(4) distributed wind energy generation.

(b) FACILITY.—The Secretary shall construct and operate a research and testing facility capable of testing the largest wind turbines that are expected to be manufactured in the next 15 years. The Secretary shall consider the need for testing offshore turbine designs in siting the facility. All private users of the facility shall be required to pay the Department all costs associated with their use of the facility, including capital costs prorated at normal business amortization rates.

(c) REGIONAL FIELD VERIFICATION PROGRAM.—Of the funds authorized to be appropriated for activities authorized under this section, not less than $4,000,000 for
each fiscal year shall be made available for the Regional Field Verification Program of the Department.

SEC. 941. GEOTHERMAL.

The Secretary shall conduct a program of research, development, demonstration, and commercial application for geothermal energy. The program shall focus on developing improved technologies for reducing the costs of geothermal energy installations, including technologies for—

(1) improving detection of geothermal resources;

(2) decreasing drilling costs;

(3) decreasing maintenance costs through improved materials;

(4) increasing the potential for other revenue sources, such as mineral production; and

(5) increasing the understanding of reservoir life cycle and management.

SEC. 942. PHOTOVOLTAIC DEMONSTRATION PROGRAM.

(a) In General.—The Secretary shall establish a program of grants to States to demonstrate advanced photovoltaic technology.

(b) Requirements.—(1) To receive funding under the program under this section, a State must submit a proposal that demonstrates, to the satisfaction of the Sec-
(2) If a State has received funding under this section for the preceding year, the State must demonstrate, to the satisfaction of the Secretary, that it complied with the requirements of subsection (f) in carrying out the program during that preceding year, and that it will do so in the future.

(3) Except as provided in subsection (c), each State submitting a qualifying proposal shall receive funding under the program based on the proportion of United States population in the State according to the 2000 census. In each fiscal year, the portion of funds attributable under this paragraph to States that have not submitted qualifying proposals in the time and manner specified by the Secretary shall be distributed pro rata to the States that have submitted qualifying proposals in the specified time and manner.

(c) COMPETITION.—If more than $80,000,000 is available for the program under this section for any fiscal year, the Secretary shall allocate 75 percent of the funds available according to subsection (b), and shall award the remaining 25 percent on a competitive basis to the States with the proposals the Secretary considers most likely to
encourage the widespread adoption of photovoltaic technologies.

(d) PROPOSALS.—Not later than 6 months after the date of enactment of this Act, and in each subsequent fiscal year for the life of the program, the Secretary shall solicit proposals from the States to participate in the program under this section.

(e) COMPETITIVE CRITERIA.—In awarding funds in a competitive allocation under subsection (c), the Secretary shall consider—

(1) the likelihood of a proposal to encourage the demonstration of, or lower the costs of, advanced photovoltaic technologies; and

(2) the extent to which a proposal is likely to—

(A) maximize the amount of photovoltaics demonstrated;

(B) maximize the proportion of non-Federal cost share; and

(C) limit State administrative costs.

(f) STATE PROGRAM.—A program operated by a State with funding under this section shall provide competitive awards for the demonstration of advanced photovoltaic technologies. Each State program shall—

(1) require a contribution of at least 60 percent per award from non-Federal sources, which may in-
clude any combination of State, local, and private funds, except that at least 10 percent of the funding must be supplied by the State;

(2) limit awards for any single project to a maximum of $1,000,000;

(3) prohibit any nongovernmental recipient from receiving more than $1,000,000 per year;

(4) endeavor to fund recipients in the commercial, industrial, institutional, governmental, and residential sectors;

(5) limit State administrative costs to no more than 10 percent of the grant;

(6) report annually to the Department on—

(A) the amount of funds disbursed;

(B) the amount of photovoltaics purchased;

and

(C) the results of the monitoring under paragraph (7);

(7) provide for measurement and verification of the output of a representative sample of the photovoltaics systems demonstrated throughout the average working life of the systems, or at least 20 years; and

(8) require that applicant buildings must have received an independent energy efficiency audit dur-
ing the 6-month period preceding the filing of the
application.

(g) **UNEXPENDED FUNDS.**—If a State fails to expend
any funds received under subsection (b) or (c) within 3
years of receipt, such remaining funds shall be returned
to the Treasury.

(h) **REPORTS.**—The Secretary shall report to Con-
gress 5 years after funds are first distributed to the States
under this section—

1. the amount of photovoltaics demonstrated;
2. the number of projects undertaken;
3. the administrative costs of the program;
4. the amount of funds that each State has
   not received because of a failure to submit a quali-
   fying proposal, as described in subsection (b)(3);
5. the results of the monitoring under sub-
   section (f)(7); and
6. the total amount of funds distributed, in-
   cluding a breakdown by State.

**SEC. 943. ADDITIONAL PROGRAMS.**

(a) **IN GENERAL.**—The Secretary may conduct re-
search, development, demonstration, and commercial ap-
plication programs of—

1. ocean energy, including wave energy;
2. kinetic hydro turbines; and
(3) the combined use of renewable energy technologies with one another and with other energy technologies.

(b) Marine Renewable Energy Study.—

(1) Study.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study on—

(A) the feasibility of various methods of renewable generation of energy from the ocean, including energy from waves, tides, currents, and thermal gradients; and

(B) the research, development, demonstration, and commercial application activities required to make marine renewable energy generation competitive with other forms of electricity generation.

(2) Transmittal.—Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit the study to Congress along with the Secretary’s recommendations for implementing the results of the study.

(c) Renewable Energy in Public Buildings.—

(1) Demonstration and Technology Transfer Program.—The Secretary shall establish a program for the demonstration of innovative tech-
nologies for solar and other renewable energy sources in buildings owned or operated by a State or local government, and for the dissemination of information resulting from such demonstration to interested parties.

(2) LIMIT ON FEDERAL FUNDING.—The Secretary shall provide under this subsection no more than 40 percent of the incremental costs of the solar or other renewable energy source project funded.

(3) REQUIREMENT.—As part of the application for awards under this subsection, the Secretary shall require all applicants—

(A) to demonstrate a continuing commitment to the use of solar and other renewable energy sources in buildings they own or operate; and

(B) to state how they expect any award to further their transition to the significant use of renewable energy.

SEC. 944. ANALYSIS AND EVALUATION.

(a) IN GENERAL.—The Secretary shall conduct analysis and evaluation in support of the renewable energy programs under this subtitle. These activities shall be used to guide budget and program decisions, and shall include—
economic and technical analysis of renewable energy potential, including resource assessment;

(2) analysis of past program performance, both in terms of technical advances and in market introduction of renewable energy; and

(3) any other analysis or evaluation that the Secretary considers appropriate.

(b) FUNDING.—The Secretary may designate up to 1 percent of the funds appropriated for carrying out this subtitle for analysis and evaluation activities under this section.

SEC. 945. AUTHORIZATION OF APPROPRIATIONS.

The following sums are authorized to be appropriated to the Secretary for the purposes of carrying out this subtitle:

(1) For fiscal year 2006, $465,000,000, of which—

(A) $100,000,000 shall be for carrying out the solar program under section 938;

(B) $200,000,000 shall be for carrying out the bioenergy program under section 939, including $100,000,000 for the biorefinery demonstration program under section 939(e);

(C) $55,000,000 shall be for carrying out the wind program under section 940, including
$10,000,000 for the facility described in section 940(b);

(D) $30,000,000 shall be for carrying out the geothermal program under section 941; and

(E) $50,000,000 shall be for carrying out the photovoltaic demonstration program under section 942.

(2) For fiscal year 2007, $605,000,000, of which—

(A) $140,000,000 shall be for carrying out the solar program under section 938;

(B) $245,000,000 shall be for carrying out the bioenergy program under section 939, including $125,000,000 for the biorefinery demonstration program under section 939(c);

(C) $60,000,000 shall be for carrying out the wind program under section 940, including $15,000,000 for the facility described in section 940(b);

(D) $30,000,000 shall be for carrying out the geothermal program under section 941; and

(E) $100,000,000 shall be for carrying out the photovoltaic demonstration program under section 942.
(3) For fiscal year 2008, $775,000,000, of which—

(A) $200,000,000 shall be for carrying out the solar program under section 938;

(B) $310,000,000 shall be for carrying out the bioenergy program under section 939, including $150,000,000 for the biorefinery demonstration program under section 939(c);

(C) $65,000,000 shall be for carrying out the wind program under section 940, including $10,000,000 for the facility described in section 940(b);

(D) $30,000,000 shall be for carrying out the geothermal program under section 941; and

(E) $150,000,000 shall be for carrying out the photovoltaic demonstration program under section 942.

(4) For fiscal year 2009, $940,000,000, of which—

(A) $250,000,000 shall be for carrying out the solar program under section 938;

(B) $355,000,000 shall be for carrying out the bioenergy program under section 939, including $175,000,000 for the biorefinery demonstration program under section 939(c);
(C) $65,000,000 shall be for carrying out the wind program under section 940, including $5,000,000 for the facility described in section 940(b);

(D) $30,000,000 shall be for carrying out the geothermal program under section 941; and

(E) $200,000,000 shall be for carrying out the photovoltaic demonstration program under section 942.

(5) For fiscal year 2010, $1,125,000,000, of which—

(A) $300,000,000 shall be for carrying out the solar program under section 938;

(B) $400,000,000 shall be for carrying out the bioenergy program under section 939, including $200,000,000 for the biorefinery demonstration program under section 939(c);

(C) $65,000,000 shall be for carrying out the wind program under section 940, including $1,000,000 for the facility described in section 940(b);

(D) $30,000,000 shall be for carrying out the geothermal program under section 941; and
(E) $300,000,000 shall be for carrying out
the photovoltaic demonstration program under
section 942.

Subtitle E—Nuclear Energy
Programs

SEC. 946. DEFINITION.

In this subtitle, the term “junior faculty” means a
faculty member who was awarded a doctorate less than
10 years before receipt of an award from the grant pro-
gram described in section 949(b)(2).

SEC. 947. PROGRAMS.

(a) IN GENERAL.—The Secretary shall conduct pro-
grams of civilian nuclear energy research, development,
demonstration, and commercial application, including ac-
tivities described in this subtitle. Programs under this sub-
title shall be focused on—

(1) enhancing nuclear power’s viability as part
of the United States energy portfolio;

(2) providing the technical means to reduce the
likelihood of nuclear proliferation;

(3) maintaining a cadre of nuclear scientists
and engineers;

(4) maintaining National Laboratory and uni-
versity nuclear programs, including their infrastruc-
ture;
(5) supporting both individual researchers and multidisciplinary teams of researchers to pioneer new approaches in nuclear energy, science, and technology;

(6) developing, planning, constructing, acquiring, and operating special equipment and facilities for the use of researchers;

(7) supporting technology transfer and other appropriate activities to assist the nuclear energy industry, and other users of nuclear science and engineering, including activities addressing reliability, availability, productivity, component aging, safety, and security of nuclear power plants; and

(8) reducing the environmental impact of nuclear energy-related activities.

(b) GOALS.—

(1) INITIAL GOALS.—In accordance with the performance plan and report requirements in section 4 of the Government Performance Results Act of 1993, the Secretary shall transmit to the Congress, along with the President’s annual budget request for fiscal year 2007, a report containing outcome measures with explicitly stated cost and performance baselines. The measures shall specify performance goals, with quantifiable 5-year cost improvement and
reliability, availability, productivity, and component aging target levels for a wide range of nuclear energy technologies, and any other such goals the Secretary considers appropriate.

(2) **SUBSEQUENT TRANSMITTALS.**—The Secretary shall transmit to the Congress, along with the President’s annual budget request for each fiscal year after 2007, a report containing—

(A) a description, including quantitative analysis, of progress in achieving performance goals transmitted under paragraph (1), as compared to the baselines transmitted under paragraph (1); and

(B) any amendments to such goals.

(c) **PUBLIC INPUT.**—The Secretary shall consider advice from industry, universities, and other interested parties through seeking comments in the Federal Register and other means before transmitting each report under subsection (b).

**CHAPTER 1—NUCLEAR ENERGY RESEARCH PROGRAMS**

**SEC. 948. ADVANCED FUEL RECYCLING PROGRAM.**

(a) **IN GENERAL.**—The Secretary shall conduct an advanced fuel recycling technology research, development, demonstration, and commercial application program to
evaluate fuel recycling or transmutation technologies
which are proliferation-resistant and minimize environ-
mental and public health and safety impacts, as an alter-
native to aqueous reprocessing technologies deployed as of
the date of enactment of this Act, in support of evaluation
of alternative national strategies for spent nuclear fuel and
advanced reactor concepts. The program shall be subject
to annual review by the Secretary’s Nuclear Energy Re-
search Advisory Committee or other independent entity,
as appropriate.

(b) INTERNATIONAL COOPERATION.—The Secretary
shall seek opportunities to engage international partners
with expertise in advanced fuel recycling technologies
where such partnerships may help achieve program goals.

SEC. 949. UNIVERSITY NUCLEAR SCIENCE AND ENGINEER-
ING SUPPORT.

(a) IN GENERAL.—The Secretary shall conduct a
program to invest in human resources and infrastructure
in the nuclear sciences and related fields, including health
physics, nuclear engineering, and radiochemistry, con-
sistent with Departmental missions related to civilian nu-
clear research, development, demonstration, and commer-
cial application.

(b) REQUIREMENTS.—In carrying out the program
under this section, the Secretary shall—
(1) conduct a graduate and undergraduate fellowship program to attract new and talented students, which may include fellowships for students to spend time at National Laboratories in the areas of nuclear science, engineering, and health physics with a member of the National Laboratory staff acting as a mentor;

(2) conduct a junior faculty research initiation grant program to assist universities in recruiting and retaining new faculty in the nuclear sciences and engineering by awarding grants to junior faculty for research on issues related to nuclear energy engineering and science;

(3) support fundamental nuclear sciences, engineering, and health physics research through a nuclear engineering education and research program;

(4) encourage collaborative nuclear research among industry, National Laboratories, and universities; and

(5) support communication and outreach related to nuclear science, engineering, and health physics.

(e) Strengthening University Research and Training Reactors and Associated Infrastructure
TURE.—In carrying out the program under this section, the Secretary may support—

(1) converting research reactors from high-enrichment fuels to low-enrichment fuels and upgrading operational instrumentation;

(2) consortia of universities to broaden access to university research reactors;

(3) student training programs, in collaboration with the United States nuclear industry, in relicensing and upgrading reactors, including through the provision of technical assistance; and

(4) reactor improvements as part of a focused effort that emphasizes research, training, and education, including through the Innovations in Nuclear Infrastructure and Education Program or any similar program.

(d) OPERATIONS AND MAINTENANCE.—Funding for a project provided under this section may be used for a portion of the operating and maintenance costs of a research reactor at a university used in the project.

SEC. 950. UNIVERSITY-NATIONAL LABORATORY INTERACTIONS.

The Secretary shall conduct—

(1) a fellowship program for professors at universities to spend sabbaticals at National Labora-
tories in the areas of nuclear science and technology;

and

(2) a visiting scientist program in which Na-
tional Laboratory staff can spend time in academic
nuclear science and engineering departments.

SEC. 951. NUCLEAR POWER 2010 PROGRAM.

The Secretary shall carry out a Nuclear Power 2010
Program, consistent with recommendations in the October
2001 report entitled “A Roadmap to Deploy New Nuclear
Power Plants in the United States by 2010” issued by
the Nuclear Energy Research Advisory Committee of the
Department. The Program shall include—

(1) the expertise and capabilities of industry,
universities, and National Laboratories in evaluation
of advanced nuclear fuel cycles and fuels testing;

(2) a variety of reactor designs suitable for both
developed and developing nations;

(3) participation of international collaborators
in research, development, and design efforts as ap-
propriate; and

(4) university and industry participation.

SEC. 952. GENERATION IV NUCLEAR ENERGY SYSTEMS INI-
TIATIVE.

The Secretary shall carry out a Generation IV Nu-
clear Energy Systems Initiative to develop an overall tech-
nology plan and to support research, development, demonstra-
onstration, and commercial application necessary to make an informed technical decision about the most promising candidates for the eventual commercial application of advanced fission reactor technology for the generation of electricity. The Initiative shall examine advanced proliferation-resistant and passively safe reactor designs, including designs that—

(1) are economically competitive with other electric power generation plants;

(2) have higher efficiency, lower cost, and improved safety compared to reactors in operation on the date of enactment of this Act;

(3) use fuels that are proliferation-resistant and have substantially reduced production of high-level waste per unit of output; and

(4) use improved instrumentation.

SEC. 953. CIVILIAN INFRASTRUCTURE AND FACILITIES.

The Secretary shall operate and maintain infrastructure and facilities to support the nuclear energy research, development, demonstration, and commercial application programs, including radiological facilities management, isotope production, and facilities management.
SEC. 954. NUCLEAR ENERGY RESEARCH AND DEVELOPMENT INFRASTRUCTURE PLAN.

In carrying out section 919, the Secretary shall—

(1) develop an inventory of nuclear science and engineering facilities, equipment, expertise, and other assets at all of the National Laboratories;

(2) develop a prioritized list of nuclear science and engineering plant and equipment improvements needed at each of the National Laboratories;

(3) consider the available facilities and expertise at all National Laboratories and emphasize investments which complement rather than duplicate capabilities; and

(4) develop a timeline and a proposed budget for the completion of deferred maintenance on plant and equipment,

with the goal of ensuring that Department programs under this subtitle will be generally recognized to be among the best in the world.

SEC. 955. IDAHO NATIONAL LABORATORY FACILITIES PLAN.

(a) PLAN.—The Secretary shall develop a comprehensive plan for the facilities at the Idaho National Laboratory, especially taking into account the resources available at other National Laboratories. In developing the plan, the Secretary shall—
(1) evaluate the facilities planning processes utilized by other physical science and engineering research and development institutions, both in the United States and abroad, that are generally recognized as being among the best in the world, and consider how those processes might be adapted toward developing such facilities plan;

(2) avoid duplicating, moving, or transferring nuclear science and engineering facilities, equipment, expertise, and other assets that currently exist at other National Laboratories;

(3) consider the establishment of a national transuranic analytic chemistry laboratory as a user facility at the Idaho National Laboratory;

(4) include a plan to develop, if feasible, the Advanced Test Reactor and Test Reactor Area into a user facility that is more readily accessible to academic and industrial researchers;

(5) consider the establishment of a fast neutron source as a user facility;

(6) consider the establishment of new “hot cells” and the configuration of “hot cells” most likely to advance research, development, demonstration, and commercial application in nuclear science and engineering, especially in the context of the condition
and availability of these facilities elsewhere in the
National Laboratories; and

(7) include a timeline and a proposed budget
for the completion of deferred maintenance on plant
and equipment.

(b) TRANSMITTAL TO CONGRESS.—Not later than
one year after the date of enactment of this Act, the Sec-
retary shall transmit such plan to Congress.

SEC. 956. AUTHORIZATION OF APPROPRIATIONS.

(a) PROGRAM AUTHORIZATION.—The following sums
are authorized to be appropriated to the Secretary for the
purposes of carrying out this chapter:

(1) $407,000,000 for fiscal year 2006.
(2) $427,000,000 for fiscal year 2007.
(3) $449,000,000 for fiscal year 2008.
(4) $471,000,000 for fiscal year 2009.
(5) $495,000,000 for fiscal year 2010.

(b) UNIVERSITY SUPPORT.—Of the funds authorized
under subsection (a), the following sums are authorized
to be appropriated to carry out section 949:

(1) $35,200,000 for fiscal year 2006.
(2) $44,350,000 for fiscal year 2007.
(3) $49,200,000 for fiscal year 2008.
(4) $55,000,000 for fiscal year 2009.
(5) $60,000,000 for fiscal year 2010.
CHAPTER 2—NEXT GENERATION NUCLEAR PLANT PROGRAM

SEC. 957. DEFINITIONS.

For purposes of this chapter:

(1) CONSTRUCTION.—The term “construction” means the physical construction of the demonstration plant, and the physical construction, purchase, or manufacture of equipment or components that are specifically designed for the demonstration plant, but does not mean the design of the facility, equipment, or components.

(2) DEMONSTRATION PLANT.—The term “demonstration plant” means an advanced fission reactor power plant constructed and operated in accordance with this chapter.

(3) OPERATION.—The term “operation” means the operation of the demonstration plant, including general maintenance and provision of power, heating and cooling, and other building services that are specifically for the demonstration plant, but does not mean operations that support other activities co-located with the demonstration plant.

SEC. 958. NEXT GENERATION NUCLEAR POWER PLANT.

(a) IN GENERAL.—The Secretary shall conduct a program of research, development, demonstration, and
commercial application of advanced nuclear fission reactor technology. The objective of this program shall be to demonstrate the technical and economic feasibility of an advanced nuclear fission reactor power plant design for the commercial production of electricity.

(b) RESEARCH AND DEVELOPMENT.—The program shall include research, development, design, planning, and all other necessary activities to support the construction and operation of the demonstration plant.

(c) SUBSYSTEM DEMONSTRATIONS.—The Secretary shall support demonstration of enabling technologies and subsystems and other research, development, demonstration, and commercial application activities necessary to support the activities in this chapter.

(d) CONSTRUCTION AND OPERATION.—The program shall culminate in the construction and operation of the demonstration plant based on a design selected by the Secretary in accordance with procedures described in the plan required by section 960(c). The demonstration plant shall be located and constructed within the United States and shall be operational, and capable of demonstrating the commercial production of electricity, by December 31, 2015.

(e) LIMITATION.—No funds shall be expended for the construction or operation of the demonstration plant until
90 days have elapsed after the transmission of the plan described in section 960(e).

SEC. 959. ADVISORY COMMITTEE.

The Secretary shall appoint a Next Generation Nuclear Power Plant Subcommittee of the Nuclear Energy Research Advisory Council to provide advice to the Secretary on technical matters and program management for the duration of the program and construction project under this chapter.

SEC. 960. PROGRAM REQUIREMENTS.

(a) PARTNERSHIPS.—In carrying out the program under this chapter, the Secretary shall make use of partnerships with industry for the research, development, design, construction, and operation of the demonstration plant. In establishing such partnerships, the Secretary shall give preference to companies for which the principal base of operations is located in the United States.

(b) INTERNATIONAL COLLABORATION.—(1) The Secretary shall seek international cooperation, participation, and financial contribution in this program, including assistance from specialists or facilities from member countries of the Generation IV International Forum, the Russian Federation, or other international partners where such specialists or facilities provide access to cost-effective and relevant skills or test capabilities.
(2) International activities shall be carried out in consultation with the Generation IV International Forum.

(3) The program may include demonstration of selected program objectives in a partner nation.

(c) PROGRAM PLAN.—Not later than one year after the date of enactment of this Act, the Secretary shall transmit to Congress a comprehensive program plan. The program plan shall—

(1) describe the plan for development, selection, management, ownership, operation, and decommissioning of the demonstration plant;

(2) identify program milestones and a timeline for achieving these milestones;

(3) provide for development of risk-based criteria for any future commercial development of a reactor architecture based on that of the demonstration plant;

(4) include a projected budget required to meet the milestones; and

(5) include an explanation of any major program decisions that deviate from program advice given to the Secretary by the advisory committee established under section 959.
SEC. 961. AUTHORIZATION OF APPROPRIATIONS.

(a) Research, Development, and Design Programs.—The following sums are authorized to be appropriated to the Secretary for the purposes of carrying out this chapter except for the demonstration plant activities described in subsection (b):

(1) For fiscal year 2006, $150,000,000.
(2) For fiscal year 2007, $150,000,000.
(3) For fiscal year 2008, $150,000,000.
(4) For fiscal year 2009, $150,000,000.
(5) For fiscal year 2010, $150,000,000.

(b) Reactor Construction.—There are authorized to be appropriated to the Secretary such sums as may be necessary for operation and construction of the demonstration plant under this chapter. The Secretary shall not spend more than $500,000,000 for demonstration plant reactor construction activities under this chapter.

Subtitle F—Fossil Energy

CHAPTER 1—RESEARCH PROGRAMS

SEC. 962. ENHANCED FOSSIL ENERGY RESEARCH AND DEVELOPMENT PROGRAMS.

(a) In General.—The Secretary shall, in conjunction with industry, conduct fossil energy research, development, demonstration, and commercial applications programs, including activities under this chapter, with the goal of improving the efficiency, effectiveness, and envi-
ronmental performance of fossil energy production, up-
grading, conversion, and consumption. Such programs
shall be focused on—

(1) increasing the conversion efficiency of all
forms of fossil energy through improved tech-
nologies;

(2) decreasing the cost of all fossil energy pro-
duction, generation, and delivery;

(3) promoting diversity of energy supply;

(4) decreasing the Nation’s dependence on for-
eign energy supplies;

(5) improving United States energy security;

(6) decreasing the environmental impact of en-
ergy-related activities; and

(7) increasing the export of fossil energy-related
equipment, technology, and services from the United
States.

(b) GOALS.—

(1) INITIAL GOALS.—In accordance with the
performance plan and report requirements in section
4 of the Government Performance Results Act of
1993, the Secretary shall transmit to the Congress,
along with the President’s annual budget request for
fiscal year 2007, a report containing outcome meas-
ures with explicitly stated cost and performance
baselines. The measures shall specify production or efficiency performance goals, with quantifiable 5-year cost and energy savings target levels, for fossil energy, and any other such goals the Secretary considers appropriate.

(2) Subsequent Transmittals.—The Secretary shall transmit to the Congress, along with the President’s annual budget request for each fiscal year after 2007, a report containing—

(A) a description, including quantitative analysis, of progress in achieving performance goals transmitted under paragraph (1), as compared to the baselines transmitted under paragraph (1); and

(B) any amendments to such goals.

(e) Covered Activities.—The Secretary shall ensure that the goals stated in subsection (b) are illustrative of the outcomes necessary to promote acceptance of the programs’ efforts in the marketplace, but at a minimum shall encompass the following areas:

(1) Coal gasifiers.

(2) Turbine generators, including both natural gas and syngas fueled.
(3) Oxygen separation devices, hydrogen separation devices, and carbon dioxide separation technologies.

(4) Coal gas and post-combustion emission cleanup and disposal equipment, including carbon dioxide capture and disposal equipment.

(5) Average per-foot drilling costs for oil and gas, segregated by appropriate drilling regimes, including onshore versus offshore and depth categories.

(6) Production of liquid fuels from nontraditional feedstocks, including syngas, biomass, methane, and combinations thereof.

(7) Environmental discharge per barrel of oil or oil-equivalent production, including reinjected waste.

(8) Surface disturbance on both a per-well and per-barrel of oil or oil-equivalent production basis.

(d) PUBLIC INPUT.—The Secretary shall consider advice from industry, universities, and other interested parties through seeking comments in the Federal Register and other means before transmitting each report under subsection (b).

SEC. 963. FOSSIL RESEARCH AND DEVELOPMENT.

(a) OBJECTIVES.—The Secretary shall conduct a program of fossil research, development, demonstration, and
commercial application, whose objective shall be to reduce
emissions from fossil fuel use by developing technologies,
including precombustion technologies, by 2015 with the
capability of—

(1) dramatically increasing electricity generating efficiencies of coal and natural gas;

(2) improving combined heat and power thermal efficiencies;

(3) improving fuels utilization efficiency of production of liquid transportation fuels from coal;

(4) achieving near-zero emissions of mercury and of emissions that form fine particles, smog, and acid rain;

(5) reducing carbon dioxide emissions by at least 40 percent through efficiency improvements and by 100 percent with sequestration; and

(6) improved reliability, efficiency, reductions of air pollutant emissions, and reductions in solid waste disposal requirements.

(b) COAL-BASED PROJECTS.—The coal-based projects authorized under this section shall be consistent with the objective stated in subsection (a). The program shall emphasize carbon capture and sequestration technologies and gasification technologies, including gasification combined cycle, gasification fuel cells, gasification
coproduction, hybrid gasification/combustion, or other
technologies with the potential to address the capabilities
described in paragraphs (4) and (5) of subsection (a).

SEC. 964. OIL AND GAS RESEARCH AND DEVELOPMENT.

The Secretary shall conduct a program of oil and gas
research, development, demonstration, and commercial ap-
plication, whose objective shall be to advance the science
and technology available to domestic petroleum producers,
particularly independent operators, to minimize the eco-
nomic dislocation caused by the decline of domestic sup-
plies of oil and natural gas resources by focusing research
on—

(1) assisting small domestic producers of oil
and gas to develop new and improved technologies to
discover and extract additional supplies;

(2) developing technologies to extract methane
hydrates in an environmentally sound manner;

(3) improving the ability of the domestic indus-
try to extract hydrocarbons from known reservoirs
and classes of reservoirs; and

(4) reducing the cost, and improving the effi-
ciency and environmental performance, of oil and
gas exploration and extraction activities, focusing es-
pecially on unconventional sources such as tar sands,
heavy oil, and shale oil.
SEC. 965. TRANSPORTATION FUELS.

The Secretary shall conduct a program of transportation fuels research, development, demonstration, and commercial application, whose objective shall be to increase the price elasticity of oil supply and demand by focusing research on—

(1) reducing the cost of producing transportation fuels from coal and natural gas; and

(2) indirect liquefaction of coal and biomass.

SEC. 966. FUEL CELLS.

(a) PROGRAM.—The Secretary shall conduct a program of research, development, demonstration, and commercial application of fuel cells for low-cost, high-efficiency, fuel-flexible, modular power systems.

(b) DEMONSTRATION.—The program under this section shall include demonstration of fuel cell proton exchange membrane technology for commercial, residential, and transportation applications, and distributed generation systems, utilizing improved manufacturing production and processes.

SEC. 967. CARBON DIOXIDE CAPTURE RESEARCH AND DEVELOPMENT.

(a) PROGRAM.—The Secretary of Energy shall support a 10-year program of research and development aimed at developing carbon dioxide capture technologies
for pulverized coal combustion units. The program shall focus on—

(1) developing add-on carbon dioxide capture technologies, such as adsorption and absorption techniques and chemical processes, to remove carbon dioxide from flue gas, producing concentrated streams of carbon dioxide potentially amenable to sequestration;

(2) combustion technologies that would directly produce concentrated streams of carbon dioxide potentially amenable to sequestration; and

(3) increasing the efficiency of the overall combustion system in order to reduce the amount of carbon dioxide emissions released from the system per megawatt generated.

(b) CARBON SEQUESTRATION.—In conjunction with the program under subsection (a), the Secretary shall continue pursuing a robust carbon sequestration program with the private sector, through regional carbon sequestration partnerships.

SEC. 968. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for the purposes of carrying out this chapter:

(1) For fiscal year 2006, $583,000,000.
(2) For fiscal year 2007, $611,000,000.

(3) For fiscal year 2008, $626,000,000.

(4) For fiscal year 2009, $641,000,000.

(5) For fiscal year 2010, $657,000,000.

(b) ALLOCATION.—From amounts authorized under subsection (a), there are authorized to be appropriated for carrying out the program under section 967—

(1) $20,000,000 for fiscal year 2006;

(2) $25,000,000 for fiscal year 2007;

(3) $30,000,000 for fiscal year 2008;

(4) $35,000,000 for fiscal year 2009; and

(5) $40,000,000 for fiscal year 2010.

CHAPTER 2—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES

SEC. 969. PROGRAM AUTHORITY.

(a) IN GENERAL.—The Secretary shall carry out a program under this chapter of research, development, demonstration, and commercial application of technologies for ultra-deepwater and unconventional natural gas and other petroleum resource exploration and production, including addressing the technology challenges for small producers, safe operations, and environmental mitigation (including reduction of greenhouse gas emissions and sequestration of carbon).
(b) Program Elements.—The program under this chapter shall address the following areas, including improving safety and minimizing environmental impacts of activities within each area:

1. Ultra-deepwater architecture and technology, including drilling to formations in the Outer Continental Shelf to depths greater than 15,000 feet.

2. Unconventional natural gas and other petroleum resource exploration and production technology.

3. The technology challenges of small producers.

4. Complementary research performed by the National Energy Technology Laboratory for the United States Department of Energy.

(c) Limitation on Location of Field Activities.—Field activities under the program under this chapter shall be carried out only—

1. in—

   A. areas in the territorial waters of the United States not under any Outer Continental Shelf moratorium as of September 30, 2002;

   B. areas onshore in the United States on public land administered by the Secretary of the
Interior available for oil and gas leasing, where consistent with applicable law and land use plans; and

(C) areas onshore in the United States on State or private land, subject to applicable law; and

(2) with the approval of the appropriate Federal or State land management agency or private land owner.

(d) **Activities at the National Energy Technology Laboratory.**—The Secretary, through the National Energy Technology Laboratory, shall carry out a program of research and other activities complementary to and supportive of the research programs under subsection (b).

(e) **Consultation with Secretary of the Interior.**—In carrying out this part, the Secretary shall consult regularly with the Secretary of the Interior.

**Sec. 970. Ultra-Deepwater and Unconventional Onshore Natural Gas and Other Petroleum Research and Development Program.**

(a) In General.—The Secretary shall carry out the activities under section 969, to maximize the value of natural gas and other petroleum resources of the United
States, by increasing the supply of such resources, through 
reducing the cost and increasing the efficiency of explo-
ration for and production of such resources, while impro-
ing safety and minimizing environmental impacts.

(b) ROLE OF THE SECRETARY.—The Secretary shall 
have ultimate responsibility for, and oversight of, all as-
pects of the program under this section.

(c) ROLE OF THE PROGRAM CONSORTIUM.—

(1) IN GENERAL.—The Secretary shall contract 
with a consortium to—

(A) manage awards pursuant to subsection 
(f)(3);

(B) issue project solicitations upon ap-
proval of the Secretary;

(C) make project awards upon approval of 
the Secretary;

(D) disburse funds awarded under sub-
section (f) as directed by the Secretary in ac-
cordance with the annual plan under subsection 
(e); and

(E) carry out other activities assigned to 
the program consortium by this section.

(2) LIMITATION.—The Secretary may not as-
sign any activities to the program consortium except 
as specifically authorized under this section.
(3) Conflict of interest.—

(A) Procedures.—The Secretary shall establish procedures—

(i) to ensure that each board member, officer, or employee of the program consortium who is in a decisionmaking capacity under subsection (f)(3) shall disclose to the Secretary any financial interests in, or financial relationships with, applicants for or recipients of awards under this section, including those of his or her spouse or minor child, unless such relationships or interests would be considered to be remote or inconsequential; and

(ii) to require any board member, officer, or employee with a financial relationship or interest disclosed under clause (i) to recuse himself or herself from any oversight under subsection (f)(4) with respect to such applicant or recipient.

(B) Failure to comply.—The Secretary may disqualify an application or revoke an award under this section if a board member, officer, or employee has failed to comply with procedures required under subparagraph (A)(ii).
(d) Selection of the Program Consortium.—

(1) In general.—The Secretary shall select the program consortium through an open, competitive process.

(2) Members.—The program consortium may include corporations, trade associations, institutions of higher education, National Laboratories, or other research institutions. After submitting a proposal under paragraph (4), the program consortium may not add members without the consent of the Secretary.

(3) Tax status.—The program consortium shall be an entity that is exempt from tax under section 501(c)(3) of the Internal Revenue Code of 1986 on the date of enactment of this Act.

(4) Schedule.—Not later than 90 days after the date of enactment of this Act, the Secretary shall solicit proposals from eligible consortia to perform the duties in subsection (c)(1), which shall be submitted not later than 180 days after the date of enactment of this Act. The Secretary shall select the program consortium not later than 270 days after such date of enactment.
(5) APPLICATION.—Applicants shall submit a proposal including such information as the Secretary may require. At a minimum, each proposal shall—

(A) list all members of the consortium;

(B) fully describe the structure of the consortium, including any provisions relating to intellectual property; and

(C) describe how the applicant would carry out the activities of the program consortium under this section.

(6) ELIGIBILITY.—To be eligible to be selected as the program consortium, an applicant must be an entity whose members have collectively demonstrated capabilities and experience in planning and managing research, development, demonstration, and commercial application programs for ultra-deepwater and unconventional natural gas or other petroleum exploration or production.

(7) FOCUS AREAS FOR AWARDS.—

(A) ULTRA-DEEPWATER RESOURCES.—Awards from allocations under section 976(d)(1) shall focus on the development and demonstration of individual exploration and production technologies as well as integrated
systems technologies including new architectures for production in ultra-deepwater.

(B) UNCONVENTIONAL RESOURCES.—Awards from allocations under section 976(d)(2) shall focus on areas including advanced coalbed methane, deep drilling, natural gas production from tight sands, natural gas production from gas shales, stranded gas, innovative exploration and production techniques, enhanced recovery techniques, and environmental mitigation of unconventional natural gas and other petroleum resources exploration and production.

(C) SMALL PRODUCERS.—Awards from allocations under section 976(d)(3) shall be made to consortia consisting of small producers or organized primarily for the benefit of small producers, and shall focus on areas including complex geology involving rapid changes in the type and quality of the oil and gas reservoirs across the reservoir; low reservoir pressure; unconventional natural gas reservoirs in coalbeds, deep reservoirs, tight sands, or shales; and unconventional oil reservoirs in tar sands and oil shales.
(8) CRITERION.—The Secretary shall consider the amount of the fee an applicant proposes to receive under subsection (g) in selecting a consortium under this section.

(e) ANNUAL PLAN.—

(1) IN GENERAL.—The program under this section shall be carried out pursuant to an annual plan prepared by the Secretary in accordance with paragraph (2).

(2) DEVELOPMENT.—

(A) SOLICITATION OF RECOMMENDATIONS.—Before drafting an annual plan under this subsection, the Secretary shall solicit specific written recommendations from the program consortium for each element to be addressed in the plan, including those described in paragraph (4). The program consortium shall submit its recommendations in the form of a draft annual plan.

(B) SUBMISSION OF RECOMMENDATIONS; OTHER COMMENT.—The Secretary shall submit the recommendations of the program consortium under subparagraph (A) to the Ultra-Deepwater Advisory Committee established under section 972(a) and to the Unconventional
Resources Technology Advisory Committee established under section 972(b), and such Advisory Committees shall provide to the Secretary written comments by a date determined by the Secretary. The Secretary may also solicit comments from any other experts.

(C) Consultation.—The Secretary shall consult regularly with the program consortium throughout the preparation of the annual plan.

(3) Publication.—The Secretary shall transmit to Congress and publish in the Federal Register the annual plan, along with any written comments received under paragraph (2)(A) and (B).

(4) Contents.—The annual plan shall describe the ongoing and prospective activities of the program under this section and shall include—

(A) a list of any solicitations for awards to carry out research, development, demonstration, or commercial application activities, including the topics for such work, who would be eligible to apply, selection criteria, and the duration of awards; and

(B) a description of the activities expected of the program consortium to carry out subsection (f)(3).
(5) Estimates of increased royalty receipts.—The Secretary, in consultation with the Secretary of the Interior, shall provide an annual report to Congress with the President’s budget on the estimated cumulative increase in Federal royalty receipts (if any) resulting from the implementation of this part. The initial report under this paragraph shall be submitted in the first President’s budget following the completion of the first annual plan required under this subsection.

(f) Awards.—

(1) In general.—Upon approval of the Secretary the program consortium shall make awards to carry out research, development, demonstration, and commercial application activities under the program under this section. The program consortium shall not be eligible to receive such awards, but members of the program consortium may receive such awards.

(2) Proposals.—Upon approval of the Secretary the program consortium shall solicit proposals for awards under this subsection in such manner and at such time as the Secretary may prescribe, in consultation with the program consortium.

(3) Oversight.—
(A) **IN GENERAL.**—The program consortium shall oversee the implementation of awards under this subsection, consistent with the annual plan under subsection (e), including disbursing funds and monitoring activities carried out under such awards for compliance with the terms and conditions of the awards.

(B) **EFFECT.**—Nothing in subparagraph (A) shall limit the authority or responsibility of the Secretary to oversee awards, or limit the authority of the Secretary to review or revoke awards.

(g) **ADMINISTRATIVE COSTS.**—

(1) **IN GENERAL.**—To compensate the program consortium for carrying out its activities under this section, the Secretary shall provide to the program consortium funds sufficient to administer the program. This compensation may include a management fee consistent with Department of Energy contracting practices and procedures.

(2) **ADVANCE.**—The Secretary shall advance funds to the program consortium upon selection of the consortium, which shall be deducted from amounts to be provided under paragraph (1).
(h) Audit.—The Secretary shall retain an independent, commercial auditor to determine the extent to which funds provided to the program consortium, and funds provided under awards made under subsection (f), have been expended in a manner consistent with the purposes and requirements of this part. The auditor shall transmit a report annually to the Secretary, who shall transmit the report to Congress, along with a plan to remedy any deficiencies cited in the report.

(i) Activities by the United States Geological Survey.—The Secretary of the Interior, through the United States Geological Survey, shall, where appropriate, carry out programs of long-term research to complement the programs under this section.

SEC. 971. ADDITIONAL REQUIREMENTS FOR AWARDS.

(a) Demonstration Projects.—An application for an award under this chapter for a demonstration project shall describe with specificity the intended commercial use of the technology to be demonstrated.

(b) Flexibility in Locating Demonstration Projects.—Subject to the limitation in section 969(c), a demonstration project under this chapter relating to an ultra-deepwater technology or an ultra-deepwater architecture may be conducted in deepwater depths.
(c) INTELLECTUAL PROPERTY AGREEMENTS.—If an award under this chapter is made to a consortium (other than the program consortium), the consortium shall provide to the Secretary a signed contract agreed to by all members of the consortium describing the rights of each member to intellectual property used or developed under the award.

(d) TECHNOLOGY TRANSFER.—2.5 percent of the amount of each award made under this chapter shall be designated for technology transfer and outreach activities under this chapter.

(e) COST SHARING REDUCTION FOR INDEPENDENT PRODUCERS.—In applying the cost sharing requirements under section 911 to an award under this chapter the Secretary may reduce or eliminate the non-Federal requirement if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project.

SEC. 972. ADVISORY COMMITTEES.

(a) ULTRA-DEEPWATER ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Ultra-Deepwater Advisory Committee.
(2) Membership.—The advisory committee under this subsection shall be composed of members appointed by the Secretary including—

(A) individuals with extensive research experience or operational knowledge of offshore natural gas and other petroleum exploration and production;

(B) individuals broadly representative of the affected interests in ultra-deepwater natural gas and other petroleum production, including interests in environmental protection and safe operations;

(C) no individuals who are Federal employees; and

(D) no individuals who are board members, officers, or employees of the program consortium.

(3) Duties.—The advisory committee under this subsection shall—

(A) advise the Secretary on the development and implementation of programs under this chapter related to ultra-deepwater natural gas and other petroleum resources; and

(B) carry out section 970(e)(2)(B).
(4) COMPENSATION.—A member of the advisory committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(b) UNCONVENTIONAL RESOURCES TECHNOLOGY ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Unconventional Resources Technology Advisory Committee.

(2) MEMBERSHIP.—The advisory committee under this subsection shall be composed of members appointed by the Secretary including—

(A) a majority of members who are employees or representatives of independent producers of natural gas and other petroleum, including small producers;

(B) individuals with extensive research experience or operational knowledge of unconventional natural gas and other petroleum resource exploration and production;
(C) individuals broadly representative of the affected interests in unconventional natural gas and other petroleum resource exploration and production, including interests in environmental protection and safe operations;

(D) no individuals who are Federal employees; and

(E) no individuals who are board members, officers, or employees of the program consortium.

(3) DUTIES.—The advisory committee under this subsection shall—

(A) advise the Secretary on the development and implementation of activities under this chapter related to unconventional natural gas and other petroleum resources; and

(B) carry out section 970(e)(2)(B).

(4) COMPENSATION.—A member of the advisory committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(c) PROHIBITION.—No advisory committee established under this section shall make recommendations on
funding awards to particular consortia or other entities, or for specific projects.

SEC. 973. LIMITS ON PARTICIPATION.

An entity shall be eligible to receive an award under this chapter only if the Secretary finds—

(1) that the entity’s participation in the program under this chapter would be in the economic interest of the United States; and

(2) that either—

(A) the entity is a United States-owned entity organized under the laws of the United States; or

(B) the entity is organized under the laws of the United States and has a parent entity organized under the laws of a country that affords—

(i) to United States-owned entities opportunities, comparable to those afforded to any other entity, to participate in any cooperative research venture similar to those authorized under this part;

(ii) to United States-owned entities local investment opportunities comparable to those afforded to any other entity; and
(iii) adequate and effective protection
for the intellectual property rights of
United States-owned entities.

SEC. 974. SUNSET.

The authority provided by this chapter shall termi-
nate on September 30, 2014.

SEC. 975. DEFINITIONS.

In this part:

(1) DEEPWATER.—The term “deepwater”
means a water depth that is greater than 200 but
less than 1,500 meters.

(2) INDEPENDENT PRODUCER OF OIL OR
GAS.—

(A) IN GENERAL.—The term “independent
producer of oil or gas” means any person that
produces oil or gas other than a person to
whom subsection (c) of section 613A of the In-
ternal Revenue Code of 1986 does not apply by
reason of paragraph (2) (relating to certain re-
tailers) or paragraph (4) (relating to certain re-
finers) of section 613A(d) of such Code.

(B) RULES FOR APPLYING PARAGRAPHS (2)
AND (4) OF SECTION 613A(d).—For purposes of
subparagraph (A), paragraphs (2) and (4) of
section 613A(d) of the Internal Revenue Code
of 1986 shall be applied by substituting “calendar year” for “taxable year” each place it appears in such paragraphs.

(3) **Program Consortium.**—The term “program consortium” means the consortium selected under section 970(d).

(4) **Remote or Inconsequential.**—The term “remote or inconsequential” has the meaning given that term in regulations issued by the Office of Government Ethics under section 208(b)(2) of title 18, United States Code.

(5) **Small Producer.**—The term “small producer” means an entity organized under the laws of the United States with production levels of less than 1,000 barrels per day of oil equivalent.

(6) **Ultra-Deepwater.**—The term “ultra-deepwater” means a water depth that is equal to or greater than 1,500 meters.

(7) **Ultra-Deepwater Architecture.**—The term “ultra-deepwater architecture” means the integration of technologies for the exploration for, or production of, natural gas or other petroleum resources located at ultra-deepwater depths.

(8) **Ultra-Deepwater Technology.**—The term “ultra-deepwater technology” means a discrete
technology that is specially suited to address 1 or
more challenges associated with the exploration for,
or production of, natural gas or other petroleum re-
sources located at ultra-deepwater depths.

(9) **UNCONVENTIONAL NATURAL GAS AND**
**OTHER PETROLEUM RESOURCE.**—The term “uncon-
ventional natural gas and other petroleum resource”
means natural gas and other petroleum resource lo-
cated onshore in an economically inaccessible geo-
logical formation, including resources of small pro-
ducers.

**SEC. 976. FUNDING.**

(a) **IN GENERAL.**—

(1) **OIL AND GAS LEASE INCOME.**—For each of
fiscal years 2005 through 2014, from any excess
Federal royalties derived from Federal onshore and
offshore oil and gas leases issued under the Outer
Continental Shelf Lands Act and the Mineral Leas-
ing Act which are deposited in the Treasury, and
after prior distributions as described in subsection
(c) have been made, all excess Federal royalties up
to $200,000,000 shall be deposited into the Ultra-
Deepwater and Unconventional Natural Gas and
Other Petroleum Research Fund (in this section re-
ferred to as the Fund).
(2) DEFINITIONS.—For purposes of paragraph

(1)—

(A) excess Federal royalty receipts are the amount calculated on the basis of the difference between the prevailing market prices upon which the royalty payment was made and 110 percent of the projected market prices for that fiscal year, as contained in the economic assumptions underlying the Concurrent Resolution on the Budget, under section 301 of the Congressional Budget and Impoundment Control Act or 1974; and

(B) the term “royalties” excludes proceeds from the sale of royalty production taken in kind and royalty production that is transferred under section 27(a)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1353(a)(3)).

(b) OBLIGATIONAL AUTHORITY.—Monies in the Fund shall be available to the Secretary for obligation under this chapter without fiscal year limitation, to remain available until expended.

(c) PRIOR DISTRIBUTIONS.—The distributions described in subsection (a) are those required by law—
(1) to States and to the Reclamation Fund under the Mineral Leasing Act (30 U.S.C. 191(a)); and

(2) to other funds receiving monies from Federal oil and gas leasing programs, including—

(A) any recipients pursuant to section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g));

(B) the Land and Water Conservation Fund, pursuant to section 2(c) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601–5(c));

(C) the Historic Preservation Fund, pursuant to section 108 of the National Historic Preservation Act (16 U.S.C. 470h); and

(D) the Secure Energy Reinvestment Fund.

(d) ALLOCATION.—Amounts obligated from the Fund under subsection (a)(1) in each fiscal year shall be allocated as follows:

(1) 35 percent shall be for activities under section 969(b)(1).

(2) 32.5 percent shall be for activities under section 969(b)(2).
(3) 7.5 percent shall be for activities under section 969(b)(3).

(4) 25 percent shall be for complementary research under section 969(b)(4) and other activities under section 969(b) to include program direction funds, overall program oversight, contract management, and the establishment and operation of a technical committee to ensure that in-house research activities funded under subsection 969(b)(4) are technically complementary to, and not duplicative of, research conducted under section 969(b)(1), (2), and (3).

(e) FUND.—There is hereby established in the Treasury of the United States a separate fund to be known as the “Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund”.

Subtitle G—Improved Coordination and Management of Civilian Science and Technology Programs

SEC. 978. IMPROVED COORDINATION AND MANAGEMENT OF CIVILIAN SCIENCE AND TECHNOLOGY PROGRAMS.

(a) RECONFIGURATION OF POSITION OF DIRECTOR OF THE OFFICE OF SCIENCE.—Section 209 of the Depart-
ment of Energy Organization Act (42 U.S.C. 7139) is amended to read as follows:

“OFFICE OF SCIENCE

“SEC. 209. (a) There shall be within the Department an Office of Science, to be headed by an Assistant Secretary of Science, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5, United States Code.

“(b) The Assistant Secretary of Science shall be in addition to the Assistant Secretaries provided for under section 203 of this Act.

“(c) It shall be the duty and responsibility of the Assistant Secretary of Science to carry out the fundamental science and engineering research functions of the Department, including the responsibility for policy and management of such research, as well as other functions vested in the Secretary which he may assign to the Assistant Secretary.”.

(b) ADDITIONAL ASSISTANT SECRETARY POSITION TO ENABLE IMPROVED MANAGEMENT OF NUCLEAR ENERGY ISSUES.—(1) Section 203(a) of the Department of Energy Organization Act (42 U.S.C. 7133(a)) is amended by striking “There shall be in the Department six Assistant Secretaries” and inserting “Except as provided in sec-
tion 209, there shall be in the Department seven Assistant
Secretaries’.

(2) It is the sense of the Congress that the leadership
for departmental missions in nuclear energy should be at
the Assistant Secretary level.

(c) TECHNICAL AND CONFORMING AMENDMENTS.—
(1) Section 5315 of title 5, United States Code, is amend-
ed by—

(A) striking “Director, Office of Science, De-
partment of Energy.”; and

(B) striking “Assistant Secretaries of Energy
(6)” and inserting “Assistant Secretaries of Energy
(8)”.

(2) The table of contents for the Department of En-
ergy Organization Act (42 U.S.C. 7101 note) is amend-
ed—

(A) by striking “Section 209” and inserting
“Sec. 209”;

(B) by striking “213.” and inserting “Sec.
213.”;

(C) by striking “214.” and inserting “Sec.
214.”;

(D) by striking “215.” and inserting “Sec.
215.”; and
(E) by striking “216.” and inserting “Sec. 216.”

TITLE X—DEPARTMENT OF ENERGY MANAGEMENT

SEC. 1002. OTHER TRANSACTIONS AUTHORITY.

Section 646 of the Department of Energy Organization Act (42 U.S.C. 7256) is amended by adding at the end the following:

“(g)(1) In addition to other authorities granted to the Secretary under law, the Secretary may exercise the same authority (subject to the same restrictions and conditions) with respect to such research and projects as the Secretary of Defense may exercise under section 2371 of title 10, United States Code, except for subsections (b) and (f) of such section 2371. Such other transactions shall not be subject to the provisions of section 9 of the Federal Non-nuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908) or section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182).

“(2)(A) The Secretary may, under the authority of paragraph (1), carry out prototype projects in accordance with the requirements and conditions provided for carrying out prototype projects under section 845 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 10 U.S.C. 2371 note), including
that, to the maximum extent practicable, competitive pro-
cedures shall be used when entering into agreements to
carry out projects under subsection (a) of that section and
that the period of authority to carry out projects under
such subsection (a) terminates as provided in subsection
(g) of that section.

“(B) In applying the requirements and conditions of
section 845 of the National Defense Authorization Act for
Fiscal Year 1994 under this subsection—

“(i) subsection (c) of that section shall apply
with respect to prototype projects carried out under
this paragraph; and

“(ii) the Director of the Office of Management
and Budget shall perform the functions of the Sec-
retary of Defense under subsection (d) of that sec-
tion.

“(C) The Secretary may exercise authority under this
subsection for a project only if authorized by the Director
of the Office of Management and Budget to use the au-
 thority for such project.

“(D) The annual report of the head of an executive
agency that is required under subsection (h) of section
2371 of title 10, United States Code, as applied to the
head of the executive agency by subsection (a), shall be
submitted to Congress.
“(3) Not later than 90 days after the date of enactment of this subsection, the Secretary, in consultation with the Director of the Office of Management and Budget, shall prescribe guidelines for using other transactions authorized by paragraph (1). Such guidelines shall be published in the Federal Register for public comment under rulemaking procedures of the Department.

“(4) The authority of the Secretary under this subsection may be delegated only to an officer of the Department who is appointed by the President by and with the advice and consent of the Senate and may not be delegated to any other person.

“(5)(A) Not later than September 31, 2006, the Comptroller General of the United States shall report to Congress on the Department’s use of the authorities granted under this section, including the ability to attract nontraditional government contractors and whether additional safeguards are needed with respect to the use of such authorities.

“(B) In this section, the term ‘nontraditional Government contractor’ has the same meaning as the term ‘nontraditional defense contractor’ as defined in section 845(e) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 10 U.S.C. 2371 note).”.
SEC. 1003. UNIVERSITY COLLABORATION.

Not later than 2 years after the date of enactment of this Act, the Secretary of Energy shall transmit to the Congress a report that examines the feasibility of promoting collaborations between major universities and other colleges and universities in grants, contracts, and cooperative agreements made by the Secretary for energy projects. For purposes of this section, major universities are schools listed by the Carnegie Foundation as Doctoral Research Extensive Universities. The Secretary shall also consider providing incentives to increase the inclusion of small institutions of higher education, including minority-serving institutions, in energy grants, contracts, and cooperative agreements.

SEC. 1004. SENSE OF CONGRESS.

It is the sense of the Congress that—

(1) the Secretary of Energy should develop and implement more stringent procurement and inventory controls, including controls on the purchase card program, to prevent waste, fraud, and abuse of taxpayer funds by employees and contractors of the Department of Energy; and

(2) the Department’s Inspector General should continue to closely review purchase card purchases and other procurement and inventory practices at the Department.
TITLE XII—ELECTRICITY

SEC. 1201. SHORT TITLE.

This title may be cited as the “Electric Reliability Act of 2005”.

Subtitle A—Reliability Standards

SEC. 1211. ELECTRIC RELIABILITY STANDARDS.

(a) IN GENERAL.—Part II of the Federal Power Act (16 U.S.C 824 et seq.) is amended by adding at the end the following:

“SEC. 215. ELECTRIC RELIABILITY.

“(a) DEFINITIONS.—For purposes of this section:

“(1) The term ‘bulk-power system’ means—

“(A) facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof); and

“(B) electric energy from generation facilities needed to maintain transmission system reliability.

The term does not include facilities used in the local distribution of electric energy.

“(2) The terms ‘Electric Reliability Organization’ and ‘ERO’ mean the organization certified by the Commission under subsection (c) the purpose of which is to establish and enforce reliability stand-
ards for the bulk-power system, subject to Commission review.

“(3) The term ‘reliability standard’ means a requirement, approved by the Commission under this section, to provide for reliable operation of the bulk-power system. The term includes requirements for the operation of existing bulk-power system facilities, including cybersecurity protection, and the design of planned additions or modifications to such facilities to the extent necessary to provide for reliable operation of the bulk-power system, but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity.

“(4) The term ‘reliable operation’ means operating the elements of the bulk-power system within equipment and electric system thermal, voltage, and stability limits so that instability, uncontrolled separation, or cascading failures of such system will not occur as a result of a sudden disturbance, including a cybersecurity incident, or unanticipated failure of system elements.

“(5) The term ‘Interconnection’ means a geographic area in which the operation of bulk-power system components is synchronized such that the

•HR 6 IH
failure of 1 or more of such components may ad-
versely affect the ability of the operators of other
components within the system to maintain reliable
operation of the facilities within their control.

“(6) The term ‘transmission organization’
means a Regional Transmission Organization, Inde-
pendent System Operator, independent transmission
provider, or other transmission organization finally
approved by the Commission for the operation of
transmission facilities.

“(7) The term ‘regional entity’ means an entity
having enforcement authority pursuant to subsection
(e)(4).

“(8) The term ‘cybersecurity incident’ means a
malicious act or suspicious event that disrupts, or
was an attempt to disrupt, the operation of those
programmable electronic devices and communication
networks including hardware, software and data that
are essential to the reliable operation of the bulk
power system.

“(b) JURISDICTION AND APPLICABILITY.—(1) The
Commission shall have jurisdiction, within the United
States, over the ERO certified by the Commission under
subsection (c), any regional entities, and all users, owners
and operators of the bulk-power system, including but not
limited to the entities described in section 201(f), for purposes of approving reliability standards established under this section and enforcing compliance with this section. All users, owners and operators of the bulk-power system shall comply with reliability standards that take effect under this section.

“(2) The Commission shall issue a final rule to implement the requirements of this section not later than 180 days after the date of enactment of this section.

“(c) CERTIFICATION.—Following the issuance of a Commission rule under subsection (b)(2), any person may submit an application to the Commission for certification as the Electric Reliability Organization. The Commission may certify 1 such ERO if the Commission determines that such ERO—

“(1) has the ability to develop and enforce, subject to subsection (e)(2), reliability standards that provide for an adequate level of reliability of the bulk-power system; and

“(2) has established rules that—

“(A) assure its independence of the users and owners and operators of the bulk-power system, while assuring fair stakeholder representation in the selection of its directors and
balanced decisionmaking in any ERO commit-
mittee or subordinate organizational structure;

“(B) allocate equitably reasonable dues, 
fees, and other charges among end users for all 
activities under this section;

“(C) provide fair and impartial procedures 
for enforcement of reliability standards through 
the imposition of penalties in accordance with 
subsection (e) (including limitations on activi-
ties, functions, or operations, or other appro-
priate sanctions);

“(D) provide for reasonable notice and op-
portunity for public comment, due process, 
openness, and balance of interests in developing 
reliability standards and otherwise exercising its 
duties; and

“(E) provide for taking, after certification, 
appropriate steps to gain recognition in Canada 
and Mexico.

The total amount of all dues, fees, and other charges 
collected by the ERO in each of the fiscal years 
2006 through 2015 and allocated under subpara-
graph (B) shall not exceed $50,000,000.

“(d) RELIABILITY STANDARDS.—(1) The Electric 
Reliability Organization shall file each reliability standard
or modification to a reliability standard that it proposes
to be made effective under this section with the Commis-
sion.

“(2) The Commission may approve, by rule or order,
a proposed reliability standard or modification to a reli-
ability standard if it determines that the standard is just,
reasonable, not unduly discriminatory or preferential, and
in the public interest. The Commission shall give due
weight to the technical expertise of the Electric Reliability
Organization with respect to the content of a proposed
standard or modification to a reliability standard and to
the technical expertise of a regional entity organized on
an Interconnection-wide basis with respect to a reliability
standard to be applicable within that Interconnection, but
shall not defer with respect to the effect of a standard
on competition. A proposed standard or modification shall
take effect upon approval by the Commission.

“(3) The Electric Reliability Organization shall
rebuttably presume that a proposal from a regional entity
organized on an Interconnection-wide basis for a reliability
standard or modification to a reliability standard to be ap-
plicable on an Interconnection-wide basis is just, reason-
able, and not unduly discriminatory or preferential, and
in the public interest.
“(4) The Commission shall remand to the Electric Reliability Organization for further consideration a proposed reliability standard or a modification to a reliability standard that the Commission disapproves in whole or in part.

“(5) The Commission, upon its own motion or upon complaint, may order the Electric Reliability Organization to submit to the Commission a proposed reliability standard or a modification to a reliability standard that addresses a specific matter if the Commission considers such a new or modified reliability standard appropriate to carry out this section.

“(6) The final rule adopted under subsection (b)(2) shall include fair processes for the identification and timely resolution of any conflict between a reliability standard and any function, rule, order, tariff, rate schedule, or agreement accepted, approved, or ordered by the Commission applicable to a transmission organization. Such transmission organization shall continue to comply with such function, rule, order, tariff, rate schedule or agreement accepted approved, or ordered by the Commission until—

“(A) the Commission finds a conflict exists between a reliability standard and any such provision;

“(B) the Commission orders a change to such provision pursuant to section 206 of this part; and
“(C) the ordered change becomes effective under this part.

If the Commission determines that a reliability standard needs to be changed as a result of such a conflict, it shall order the ERO to develop and file with the Commission a modified reliability standard under paragraph (4) or (5) of this subsection.

“(e) ENFORCEMENT.—(1) The ERO may impose, subject to paragraph (2), a penalty on a user or owner or operator of the bulk-power system for a violation of a reliability standard approved by the Commission under subsection (d) if the ERO, after notice and an opportunity for a hearing—

“(A) finds that the user or owner or operator has violated a reliability standard approved by the Commission under subsection (d); and

“(B) files notice and the record of the proceeding with the Commission.

“(2) A penalty imposed under paragraph (1) may take effect not earlier than the 31st day after the ERO files with the Commission notice of the penalty and the record of proceedings. Such penalty shall be subject to review by the Commission, on its own motion or upon application by the user, owner or operator that is the subject of the penalty filed within 30 days after the date such
notice is filed with the Commission. Application to the
Commission for review, or the initiation of review by the
Commission on its own motion, shall not operate as a stay
of such penalty unless the Commission otherwise orders
upon its own motion or upon application by the user,
owner or operator that is the subject of such penalty. In
any proceeding to review a penalty imposed under para-
graph (1), the Commission, after notice and opportunity
for hearing (which hearing may consist solely of the record
before the ERO and opportunity for the presentation of
supporting reasons to affirm, modify, or set aside the pen-
alty), shall by order affirm, set aside, reinstate, or modify
the penalty, and, if appropriate, remand to the ERO for
further proceedings. The Commission shall implement ex-
pedited procedures for such hearings.

“(3) On its own motion or upon complaint, the Com-
mission may order compliance with a reliability standard
and may impose a penalty against a user or owner or oper-
ator of the bulk-power system if the Commission finds,
after notice and opportunity for a hearing, that the user
or owner or operator of the bulk-power system has en-
gaged or is about to engage in any acts or practices that
constitute or will constitute a violation of a reliability
standard.
“(4) The Commission shall issue regulations authorizing the ERO to enter into an agreement to delegate authority to a regional entity for the purpose of proposing reliability standards to the ERO and enforcing reliability standards under paragraph (1) if—

“(A) the regional entity is governed by—

“(i) an independent board;

“(ii) a balanced stakeholder board; or

“(iii) a combination independent and balanced stakeholder board.

“(B) the regional entity otherwise satisfies the provisions of subsection (c)(1) and (2); and

“(C) the agreement promotes effective and efficient administration of bulk-power system reliability.

The Commission may modify such delegation. The ERO and the Commission shall rebuttably presume that a proposal for delegation to a regional entity organized on an interconnection-wide basis promotes effective and efficient administration of bulk-power system reliability and should be approved. Such regulation may provide that the Commission may assign the ERO’s authority to enforce reliability standards under paragraph (1) directly to a regional entity consistent with the requirements of this paragraph.
“(5) The Commission may take such action as is necessary or appropriate against the ERO or a regional entity to ensure compliance with a reliability standard or any Commission order affecting the ERO or a regional entity.

“(6) Any penalty imposed under this section shall bear a reasonable relation to the seriousness of the violation and shall take into consideration the efforts of such user, owner, or operator to remedy the violation in a timely manner.

“(f) CHANGES IN ELECTRIC RELIABILITY ORGANIZATION RULES.—The Electric Reliability Organization shall file with the Commission for approval any proposed rule or proposed rule change, accompanied by an explanation of its basis and purpose. The Commission, upon its own motion or complaint, may propose a change to the rules of the ERO. A proposed rule or proposed rule change shall take effect upon a finding by the Commission, after notice and opportunity for comment, that the change is just, reasonable, not unduly discriminatory or preferential, is in the public interest, and satisfies the requirements of subsection (c).

“(g) RELIABILITY REPORTS.—The ERO shall conduct periodic assessments of the reliability and adequacy of the bulk-power system in North America.
“(h) Coordination With Canada and Mexico.—
The President is urged to negotiate international agree-
ments with the governments of Canada and Mexico to pro-
vide for effective compliance with reliability standards and
the effectiveness of the ERO in the United States and
Canada or Mexico.

“(i) Savings Provisions.—(1) The ERO shall have
authority to develop and enforce compliance with reli-
ability standards for only the bulk-power system.

“(2) This section does not authorize the ERO or the
Commission to order the construction of additional gen-
eration or transmission capacity or to set and enforce com-
pliance with standards for adequacy or safety of electric
facilities or services.

“(3) Nothing in this section shall be construed to pre-
empt any authority of any State to take action to ensure
the safety, adequacy, and reliability of electric service
within that State, as long as such action is not incon-
sistent with any reliability standard, except that the State
of New York may establish rules that result in greater
reliability within that State, as long as such action does
not result in lesser reliability outside the State than that
provided by the reliability standards.

“(4) Within 90 days of the application of the Electric
Reliability Organization or other affected party, and after
notice and opportunity for comment, the Commission shall
issue a final order determining whether a State action is
inconsistent with a reliability standard, taking into consid-
ernation any recommendation of the ERO.

“(5) The Commission, after consultation with the
ERO and the State taking action, may stay the effective-
ness of any State action, pending the Commission’s
issuance of a final order.

“(j) REGIONAL ADVISORY BODIES.—The Commis-
sion shall establish a regional advisory body on the petition
of at least ⅔ of the States within a region that have more
than ½ of their electric load served within the region. A
regional advisory body shall be composed of 1 member
from each participating State in the region, appointed by
the Governor of each State, and may include representa-
tives of agencies, States, and provinces outside the United
States. A regional advisory body may provide advice to the
Electric Reliability Organization, a regional entity, or the
Commission regarding the governance of an existing or
proposed regional entity within the same region, whether
a standard proposed to apply within the region is just,
reasonable, not unduly discriminatory or preferential, and
in the public interest, whether fees proposed to be assessed
within the region are just, reasonable, not unduly discrimi-
natory or preferential, and in the public interest and any
other responsibilities requested by the Commission. The
Commission may give deference to the advice of any such
regional advisory body if that body is organized on an
Interconnection-wide basis.

“(k) ALASKA AND HAWAII.—The provisions of this
section do not apply to Alaska or Hawaii.”.

(b) STATUS OF ERO.—The Electric Reliability Orga-
nization certified by the Federal Energy Regulatory Com-
mission under section 215(c) of the Federal Power Act
and any regional entity delegated enforcement authority
pursuant to section 215(e)(4) of that Act are not depart-
ments, agencies, or instrumentalities of the United States
Government.

(c) LIMITATION ON ANNUAL APPROPRIATIONS.—
There is authorized to be appropriated not more than
$50,000,000 per year for fiscal years 2006 through 2015
for all activities under the amendment made by subsection
(a).

Subtitle B—Transmission
Infrastructure Modernization

SEC. 1221. SITING OF INTERSTATE ELECTRIC TRANS-
MISSION FACILITIES.

(a) AMENDMENT OF FEDERAL POWER ACT.—Part
II of the Federal Power Act is amended by adding at the
end the following:
“SEC. 216. SITING OF INTERSTATE ELECTRIC TRANSMISSION FACILITIES.

“(a) DESIGNATION OF NATIONAL INTEREST ELECTRIC TRANSMISSION CORRIDORS.—

“(1) TRANSMISSION CONGESTION STUDY.—Within 1 year after the enactment of this section, and every 3 years thereafter, the Secretary of Energy, in consultation with affected States, shall conduct a study of electric transmission congestion. After considering alternatives and recommendations from interested parties, including an opportunity for comment from affected States, the Secretary shall issue a report, based on such study, which may designate any geographic area experiencing electric energy transmission capacity constraints or congestion that adversely affects consumers as a national interest electric transmission corridor. The Secretary shall conduct the study and issue the report in consultation with any appropriate regional entity referenced in section 215 of this Act.

“(2) CONSIDERATIONS.—In determining whether to designate a national interest electric transmission corridor referred to in paragraph (1) under this section, the Secretary may consider whether—

“(A) the economic vitality and development of the corridor, or the end markets served by
the corridor, may be constrained by lack of adequate or reasonably priced electricity;

“(B)(i) economic growth in the corridor, or the end markets served by the corridor, may be jeopardized by reliance on limited sources of energy; and

“(ii) a diversification of supply is warranted;

“(C) the energy independence of the United States would be served by the designation;

“(D) the designation would be in the interest of national energy policy; and

“(E) the designation would enhance national defense and homeland security.

“(b) CONSTRUCTION PERMIT.—Except as provided in subsection (i), the Commission is authorized, after notice and an opportunity for hearing, to issue a permit or permits for the construction or modification of electric transmission facilities in a national interest electric transmission corridor designated by the Secretary under subsection (a) if the Commission finds that—

“(1)(A) a State in which the transmission facilities are to be constructed or modified is without authority to—
“(i) approve the siting of the facilities; or

“(ii) consider the interstate benefits expected to be achieved by the proposed construction or modification of transmission facilities in the State;

“(B) the applicant for a permit is a transmitting utility under this Act but does not qualify to apply for a permit or siting approval for the proposed project in a State because the applicant does not serve end-use customers in the State; or

“(C) a State commission or other entity that has authority to approve the siting of the facilities has—

“(i) withheld approval for more than 1 year after the filing of an application pursuant to applicable law seeking approval or 1 year after the designation of the relevant national interest electric transmission corridor, whichever is later; or

“(ii) conditioned its approval in such a manner that the proposed construction or modification will not significantly reduce transmission congestion in interstate commerce or is not economically feasible;
“(2) the facilities to be authorized by the permit will be used for the transmission of electric energy in interstate commerce;

“(3) the proposed construction or modification is consistent with the public interest;

“(4) the proposed construction or modification will significantly reduce transmission congestion in interstate commerce and protects or benefits consumers; and

“(5) the proposed construction or modification is consistent with sound national energy policy and will enhance energy independence.

“(c) PERMIT APPLICATIONS.—Permit applications under subsection (b) shall be made in writing to the Commission. The Commission shall issue rules setting forth the form of the application, the information to be contained in the application, and the manner of service of notice of the permit application upon interested persons.

“(d) COMMENTS.—In any proceeding before the Commission under subsection (b), the Commission shall afford each State in which a transmission facility covered by the permit is or will be located, each affected Federal agency and Indian tribe, private property owners, and other interested persons, a reasonable opportunity to
present their views and recommendations with respect to the need for and impact of a facility covered by the permit.

“(e) RIGHTS-OF-WAY.—In the case of a permit under subsection (b) for electric transmission facilities to be located on property other than property owned by the United States or a State, if the permit holder cannot acquire by contract, or is unable to agree with the owner of the property to the compensation to be paid for, the necessary right-of-way to construct or modify such transmission facilities, the permit holder may acquire the right-of-way by the exercise of the right of eminent domain in the district court of the United States for the district in which the property concerned is located, or in the appropriate court of the State in which the property is located. The practice and procedure in any action or proceeding for that purpose in the district court of the United States shall conform as nearly as may be with the practice and procedure in similar action or proceeding in the courts of the State where the property is situated.

“(f) STATE LAW.—Nothing in this section shall preclude any person from constructing or modifying any transmission facility pursuant to State law.

“(g) COMPENSATION.—Any exercise of eminent domain authority pursuant to this section shall be considered a taking of private property for which just compensation
is due. Just compensation shall be an amount equal to
the full fair market value of the property taken on the
date of the exercise of eminent domain authority, except
that the compensation shall exceed fair market value if
necessary to make the landowner whole for decreases in
the value of any portion of the land not subject to eminent
domain. Any parcel of land acquired by eminent domain
under this subsection shall be transferred back to the
owner from whom it was acquired (or his heirs or assigns)
if the land is not used for the construction or modification
of electric transmission facilities within a reasonable pe-
riod of time after the acquisition. Other than construction,
modification, operation, or maintenance of electric trans-
mission facilities and related facilities, property acquired
under subsection (e) may not be used for any purpose (in-
cluding use for any heritage area, recreational trail, or
park) without the consent of the owner of the parcel from
whom the property was acquired (or the owner’s heirs or
assigns).

“(h) COORDINATION OF FEDERAL AUTHORIZATIONS
FOR TRANSMISSION AND DISTRIBUTION FACILITIES.—

“(1) LEAD AGENCY.—If an applicant, or pro-
spective applicant, for a Federal authorization re-
lated to an electric transmission or distribution facil-
ity so requests, the Department of Energy (DOE)
shall act as the lead agency for purposes of coordinating all applicable Federal authorizations and related environmental reviews of the facility. For purposes of this subsection, the term ‘Federal authorization’ means any authorization required under Federal law in order to site a transmission or distribution facility, including but not limited to such permits, special use authorizations, certifications, opinions, or other approvals as may be required, whether issued by a Federal or a State agency. To the maximum extent practicable under applicable Federal law, the Secretary of Energy shall coordinate this Federal authorization and review process with any Indian tribes, multi-State entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the facility, to ensure timely and efficient review and permit decisions.

“(2) AUTHORITY TO SET DEADLINES.—As lead agency, the Department of Energy, in consultation with agencies responsible for Federal authorizations and, as appropriate, with Indian tribes, multi-State entities, and State agencies that are willing to coordinate their own separate permitting and environmental reviews with the Federal authorization and
environmental reviews, shall establish prompt and
binding intermediate milestones and ultimate dead-
lines for the review of, and Federal authorization de-
cisions relating to, the proposed facility. The Sec-
retary of Energy shall ensure that once an applica-
tion has been submitted with such data as the Sec-
retary considers necessary, all permit decisions and
related environmental reviews under all applicable
Federal laws shall be completed within 1 year or, if
a requirement of another provision of Federal law
makes this impossible, as soon thereafter as is prac-
ticable. The Secretary of Energy also shall provide
an expeditious pre-application mechanism for pro-
spective applicants to confer with the agencies in-
volved to have each such agency determine and com-
municate to the prospective applicant within 60 days
of when the prospective applicant submits a request
for such information concerning—

“(A) the likelihood of approval for a poten-
tial facility; and

“(B) key issues of concern to the agencies
and public.

“(3) CONSOLIDATED ENVIRONMENTAL REVIEW
AND RECORD OF DECISION.—As lead agency head,
the Secretary of Energy, in consultation with the af-
fected agencies, shall prepare a single environmental
review document, which shall be used as the basis
for all decisions on the proposed project under Fed-
eral law. The document may be an environmental as-
essment or environmental impact statement under
the National Environmental Policy Act of 1969 if
warranted, or such other form of analysis as may be
warranted. The Secretary of Energy and the heads
of other agencies shall streamline the review and
permitting of transmission and distribution facilities
within corridors designated under section 503 of the
Federal Land Policy and Management Act (43
U.S.C. 1763) by fully taking into account prior anal-
yses and decisions relating to the corridors. Such
document shall include consideration by the relevant
agencies of any applicable criteria or other matters
as required under applicable laws.

“(4) APPEALS.—In the event that any agency
has denied a Federal authorization required for a
transmission or distribution facility, or has failed to
act by the deadline established by the Secretary pur-
suant to this section for deciding whether to issue
the authorization, the applicant or any State in
which the facility would be located may file an ap-
peal with the Secretary, who shall, in consultation
with the affected agency, review the denial or take action on the pending application. Based on the overall record and in consultation with the affected agency, the Secretary may then either issue the necessary authorization with any appropriate conditions, or deny the application. The Secretary shall issue a decision within 90 days of the filing of the appeal. In making a decision under this paragraph, the Secretary shall comply with applicable requirements of Federal law, including any requirements of the Endangered Species Act, the Clean Water Act, the National Forest Management Act, the National Environmental Policy Act of 1969, and the Federal Land Policy and Management Act.

“(5) Conforming Regulations and Memoranda of Understanding.—Not later than 18 months after the date of enactment of this section, the Secretary of Energy shall issue any regulations necessary to implement this subsection. Not later than 1 year after the date of enactment of this section, the Secretary and the heads of all Federal agencies with authority to issue Federal authorizations shall enter into Memoranda of Understanding to ensure the timely and coordinated review and permitting of electricity transmission and distribution
facilities. The head of each Federal agency with au-

thority to issue a Federal authorization shall des-

ignate a senior official responsible for, and dedicate

sufficient other staff and resources to ensure, full

implementation of the DOE regulations and any

Memoranda. Interested Indian tribes, multi-State

entities, and State agencies may enter such Memo-

randa of Understanding.

“(6) DURATION AND RENEWAL.—Each Federal

land use authorization for an electricity transmission

or distribution facility shall be issued—

“(A) for a duration, as determined by the

Secretary of Energy, commensurate with the

anticipated use of the facility, and

“(B) with appropriate authority to manage

the right-of-way for reliability and environ-

mental protection.

Upon the expiration of any such authorization (in-
cluding an authorization issued prior to enactment
of this section), the authorization shall be reviewed
for renewal taking fully into account reliance on
such electricity infrastructure, recognizing its impor-
tance for public health, safety and economic welfare
and as a legitimate use of Federal lands.
“(7) MAINTAINING AND ENHANCING THE TRANSMISSION INFRASTRUCTURE.—In exercising the responsibilities under this section, the Secretary of Energy shall consult regularly with the Federal Energy Regulatory Commission (FERC), FERC-approved electric reliability organizations (including related regional entities), and FERC-approved Regional Transmission Organizations and Independent System Operators.

“(i) INTERSTATE COMPACTS.—The consent of Congress is hereby given for 3 or more contiguous States to enter into an interstate compact, subject to approval by Congress, establishing regional transmission siting agencies to facilitate siting of future electric energy transmission facilities within such States and to carry out the electric energy transmission siting responsibilities of such States. The Secretary of Energy may provide technical assistance to regional transmission siting agencies established under this subsection. Such regional transmission siting agencies shall have the authority to review, certify, and permit siting of transmission facilities, including facilities in national interest electric transmission corridors (other than facilities on property owned by the United States). The Commission shall have no authority to issue a permit for the construction or modification of electric
transmission facilities within a State that is a party to
a compact, unless the members of a compact are in dis-
agreement and the Secretary makes, after notice and an
opportunity for a hearing, the finding described in sub-
section (b)(1)(C).

“(j) SAVINGS CLAUSE.—Nothing in this section shall
be construed to affect any requirement of the environ-
mental laws of the United States, including, but not lim-
ited to, the National Environmental Policy Act of 1969.
Subsection (h)(4) of this section shall not apply to any
Congressionally-designated components of the National
Wilderness Preservation System, the National Wild and
Scenic Rivers System, or the National Park system (in-
cluding National Monuments therein).

“(k) ERCOT.—This section shall not apply within
the area referred to in section 212(k)(2)(A).”.

(b) REPORTS TO CONGRESS ON CORRIDORS AND
RIGHTS OF WAY ON FEDERAL LANDS.—The Secretary of
the Interior, the Secretary of Energy, the Secretary of Ag-
riculture, and the Chairman of the Council on Environ-
mental Quality shall, within 90 days of the date of enact-
ment of this subsection, submit a joint report to Congress
identifying each of the following:

(1) All existing designated transmission and
distribution corridors on Federal land and the status
of work related to proposed transmission and distribution corridor designations under Title V of the Federal Land Policy and Management Act (43 U.S.C. 1761 et seq.), the schedule for completing such work, any impediments to completing the work, and steps that Congress could take to expedite the process.

(2) The number of pending applications to locate transmission and distribution facilities on Federal lands, key information relating to each such facility, how long each application has been pending, the schedule for issuing a timely decision as to each facility, and progress in incorporating existing and new such rights-of-way into relevant land use and resource management plans or their equivalent.

(3) The number of existing transmission and distribution rights-of-way on Federal lands that will come up for renewal within the following 5, 10, and 15 year periods, and a description of how the Secretaries plan to manage such renewals.

SEC. 1222. THIRD-PARTY FINANCE.

(a) EXISTING FACILITIES.—The Secretary of Energy (hereinafter in this section referred to as the “Secretary”), acting through the Administrator of the Western Area Power Administration (hereinafter in this section referred
to as “WAPA”), or through the Administrator of the Southwestern Power Administration (hereinafter in this section referred to as “SWPA”), or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, an electric power transmission facility and related facilities (“Project”) needed to upgrade existing transmission facilities owned by SWPA or WAPA if the Secretary of Energy, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in a national interest electric transmission corridor designated under section 216(a) of the Federal Power Act and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Regional Transmission Organization or Independent System Operator (as de-
fined in the Federal Power Act), if any, or ap-
proved regional reliability organization; and

(B) efficient and reliable operation of the
transmission grid; and

(3) would be operated in conformance with pru-
dent utility practice.

(b) NEW FACILITIES.—The Secretary, acting
through WAPA or SWPA, or both, may design, develop,
construct, operate, maintain, or own, or participate with
other entities in designing, developing, constructing, oper-
ating, maintaining, or owning, a new electric power trans-
mission facility and related facilities (“Project”) located
within any State in which WAPA or SWPA operates if
the Secretary, in consultation with the applicable Adminis-
trator, determines that the proposed Project—

(1)(A) is located in an area designated under
section 216(a) of the Federal Power Act and will re-
duce congestion of electric transmission in interstate
commerce; or

(B) is necessary to accommodate an actual or
projected increase in demand for electric trans-
mission capacity;

(2) is consistent with—

(A) transmission needs identified, in a
transmission expansion plan or otherwise, by
the appropriate Regional Transmission Organization or Independent System Operator, if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid;

(3) will be operated in conformance with prudent utility practice;

(4) will be operated by, or in conformance with the rules of, the appropriate (A) Regional Transmission Organization or Independent System Operator, if any, or (B) if such an organization does not exist, regional reliability organization; and

(5) will not duplicate the functions of existing transmission facilities or proposed facilities which are the subject of ongoing or approved siting and related permitting proceedings.

(c) OTHER FUNDS.—

(1) IN GENERAL.—In carrying out a Project under subsection (a) or (b), the Secretary may accept and use funds contributed by another entity for the purpose of carrying out the Project.

(2) AVAILABILITY.—The contributed funds shall be available for expenditure for the purpose of carrying out the Project—
(A) without fiscal year limitation; and

(B) as if the funds had been appropriated specifically for that Project.

(3) ALLOCATION OF COSTS.—In carrying out a Project under subsection (a) or (b), any costs of the Project not paid for by contributions from another entity shall be collected through rates charged to customers using the new transmission capability provided by the Project and allocated equitably among these project beneficiaries using the new transmission capability.

(d) RELATIONSHIP TO OTHER LAWS.—Nothing in this section affects any requirement of—

(1) any Federal environmental law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) any Federal or State law relating to the siting of energy facilities; or

(3) any existing authorizing statutes.

(e) SAVINGS CLAUSE.—Nothing in this section shall constrain or restrict an Administrator in the utilization of other authority delegated to the Administrator of WAPA or SWPA.

(f) SECRETARIAL DETERMINATIONS.—Any determination made pursuant to subsections (a) or (b) shall
be based on findings by the Secretary using the best available data.

(g) MAXIMUM FUNDING AMOUNT.—The Secretary shall not accept and use more than $100,000,000 under subsection (c)(1) for the period encompassing fiscal years 2006 through 2015.

SEC. 1223. TRANSMISSION SYSTEM MONITORING.

Within 6 months after the date of enactment of this Act, the Secretary of Energy and the Federal Energy Regulatory Commission shall study and report to Congress on the steps which must be taken to establish a system to make available to all transmission system owners and Regional Transmission Organizations (as defined in the Federal Power Act) within the Eastern and Western Interconnections real-time information on the functional status of all transmission lines within such Interconnections. In such study, the Commission shall assess technical means for implementing such transmission information system and identify the steps the Commission or Congress must take to require the implementation of such system.

SEC. 1224. ADVANCED TRANSMISSION TECHNOLOGIES.

(a) AUTHORITY.—The Federal Energy Regulatory Commission, in the exercise of its authorities under the Federal Power Act and the Public Utility Regulatory Poli-
cies Act of 1978, shall encourage the deployment of advanced transmission technologies.

(b) DEFINITION.—For the purposes of this section, the term “advanced transmission technologies” means technologies that increase the capacity, efficiency, or reliability of existing or new transmission facilities, including, but not limited to—

(1) high-temperature lines (including superconducting cables);

(2) underground cables;

(3) advanced conductor technology (including advanced composite conductors, high-temperature low-sag conductors, and fiber optic temperature sensing conductors);

(4) high-capacity ceramic electric wire, connectors, and insulators;

(5) optimized transmission line configurations (including multiple phased transmission lines);

(6) modular equipment;

(7) wireless power transmission;

(8) ultra-high voltage lines;

(9) high-voltage DC technology;

(10) flexible AC transmission systems;
(11) energy storage devices (including pumped hydro, compressed air, superconducting magnetic energy storage, flywheels, and batteries);
(12) controllable load;
(13) distributed generation (including PV, fuel cells, microturbines);
(14) enhanced power device monitoring;
(15) direct system state sensors;
(16) fiber optic technologies;
(17) power electronics and related software (including real time monitoring and analytical software); and
(18) any other technologies the Commission considers appropriate.

(c) OBSOLETE OR IMPRACTICABLE TECHNOLOGIES.—The Commission is authorized to cease encouraging the deployment of any technology described in this section on a finding that such technology has been rendered obsolete or otherwise impracticable to deploy.

SEC. 1225. ELECTRIC TRANSMISSION AND DISTRIBUTION PROGRAMS.

(a) ELECTRIC TRANSMISSION AND DISTRIBUTION PROGRAM.—The Secretary of Energy (hereinafter in this section referred to as the “Secretary”) acting through the Director of the Office of Electric Transmission and Dis-
tribution shall establish a comprehensive research, development, demonstration and commercial application program to promote improved reliability and efficiency of electrical transmission and distribution systems. This program shall include—

(1) advanced energy delivery and storage technologies, materials, and systems, including new transmission technologies, such as flexible alternating current transmission systems, composite conductor materials and other technologies that enhance reliability, operational flexibility, or power-carrying capability;

(2) advanced grid reliability and efficiency technology development;

(3) technologies contributing to significant load reductions;

(4) advanced metering, load management, and control technologies;

(5) technologies to enhance existing grid components;

(6) the development and use of high-temperature superconductors to—

(A) enhance the reliability, operational flexibility, or power-carrying capability of electric transmission or distribution systems; or
(B) increase the efficiency of electric energy generation, transmission, distribution, or storage systems;

(7) integration of power systems, including systems to deliver high-quality electric power, electric power reliability, and combined heat and power;

(8) supply of electricity to the power grid by small scale, distributed and residential-based power generators;

(9) the development and use of advanced grid design, operation and planning tools;

(10) any other infrastructure technologies, as appropriate; and

(11) technology transfer and education.

(b) PROGRAM PLAN.—Not later than 1 year after the date of the enactment of this legislation, the Secretary, in consultation with other appropriate Federal agencies, shall prepare and transmit to Congress a 5-year program plan to guide activities under this section. In preparing the program plan, the Secretary may consult with utilities, energy services providers, manufacturers, institutions of higher education, other appropriate State and local agencies, environmental organizations, professional and technical societies, and any other persons the Secretary considers appropriate.
(c) IMPLEMENTATION.—The Secretary shall consider implementing this program using a consortium of industry, university and national laboratory participants.

(d) REPORT.—Not later than 2 years after the transmittal of the plan under subsection (b), the Secretary shall transmit a report to Congress describing the progress made under this section and identifying any additional resources needed to continue the development and commercial application of transmission and distribution infrastructure technologies.

(e) POWER DELIVERY RESEARCH INITIATIVE.—

(1) IN GENERAL.—The Secretary shall establish a research, development, demonstration, and commercial application initiative specifically focused on power delivery utilizing components incorporating high temperature superconductivity.

(2) GOALS.—The goals of this initiative shall be to—

(A) establish facilities to develop high temperature superconductivity power applications in partnership with manufacturers and utilities;

(B) provide technical leadership for establishing reliability for high temperature superconductivity power applications including suitable modeling and analysis;
(C) facilitate commercial transition toward
direct current power transmission, storage, and
use for high power systems utilizing high tem-
perature superconductivity; and

(D) facilitate the integration of very low
impedance high temperature superconducting
wires and cables in existing electric networks to
improve system performance, power flow control
and reliability.

(3) REQUIREMENTS.—The initiative shall in-
clude—

(A) feasibility analysis, planning, research,
and design to construct demonstrations of
superconducting links in high power, direct cur-
rent and controllable alternating current trans-
mission systems;

(B) public-private partnerships to dem-
onstrate deployment of high temperature super-
conducting cable into testbeds simulating a re-
alistic transmission grid and under varying
transmission conditions, including actual grid
insertions; and

(C) testbeds developed in cooperation with
national laboratories, industries, and univer-
sities to demonstrate these technologies, pre-
pare the technologies for commercial introduction, and address cost or performance roadblocks to successful commercial use.

(4) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this subsection, there are authorized to be appropriated—

(A) for fiscal year 2006, $15,000,000;

(B) for fiscal year 2007, $20,000,000;

(C) for fiscal year 2008, $30,000,000;

(D) for fiscal year 2009, $35,000,000; and

(E) for fiscal year 2010, $40,000,000.

SEC. 1226. ADVANCED POWER SYSTEM TECHNOLOGY INCENTIVE PROGRAM.

(a) PROGRAM.—The Secretary of Energy is authorized to establish an Advanced Power System Technology Incentive Program to support the deployment of certain advanced power system technologies and to improve and protect certain critical governmental, industrial, and commercial processes. Funds provided under this section shall be used by the Secretary to make incentive payments to eligible owners or operators of advanced power system technologies to increase power generation through enhanced operational, economic, and environmental performance. Payments under this section may only be made upon
receipt by the Secretary of an incentive payment application establishing an applicant as either—

(1) a qualifying advanced power system technology facility; or

(2) a qualifying security and assured power facility.

(b) INCENTIVES.—Subject to availability of funds, a payment of 1.8 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying advanced power system technology facility under this section for electricity generated at such facility. An additional 0.7 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying security and assured power facility for electricity generated at such facility. Any facility qualifying under this section shall be eligible for an incentive payment for up to, but not more than, the first 10,000,000 kilowatt-hours produced in any fiscal year.

(c) ELIGIBILITY.—For purposes of this section:

(1) QUALIFYING ADVANCED POWER SYSTEM TECHNOLOGY FACILITY.—The term “qualifying advanced power system technology facility” means a facility using an advanced fuel cell, turbine, or hybrid power system or power storage system to generate or store electric energy.
(2) QUALIFYING SECURITY AND ASSURED POWER FACILITY.—The term “qualifying security and assured power facility” means a qualifying advanced power system technology facility determined by the Secretary of Energy, in consultation with the Secretary of Homeland Security, to be in critical need of secure, reliable, rapidly available, high-quality power for critical governmental, industrial, or commercial applications.

(d) AUTHORIZATION.—There are authorized to be appropriated to the Secretary of Energy for the purposes of this section, $10,000,000 for each of the fiscal years 2006 through 2012.

SEC. 1227. OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.

(a) CREATION OF AN OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.—Title II of the Department of Energy Organization Act (42 U.S.C. 7131 et seq.) (as amended by section 502(a) of this Act) is amended by inserting the following after section 217, as added by title V of this Act:

“SEC. 218. OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.

“(a) ESTABLISHMENT.—There is established within the Department an Office of Electric Transmission and
Distribution. This Office shall be headed by a Director, subject to the authority of the Secretary. The Director shall be appointed by the Secretary. The Director shall be compensated at the annual rate prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code.

“(b) DIRECTOR.—The Director shall—

“(1) coordinate and develop a comprehensive, multi-year strategy to improve the Nation’s electricity transmission and distribution;

“(2) implement or, where appropriate, coordinate the implementation of, the recommendations made in the Secretary’s May 2002 National Transmission Grid Study;

“(3) oversee research, development, and demonstration to support Federal energy policy related to electricity transmission and distribution;

“(4) grant authorizations for electricity import and export pursuant to section 202(c), (d), (e), and (f) of the Federal Power Act (16 U.S.C. 824a);

“(5) perform other functions, assigned by the Secretary, related to electricity transmission and distribution; and

“(6) develop programs for workforce training in power and transmission engineering.”.
(b) **CONFORMING AMENDMENTS.**—(1) The table of contents of the Department of Energy Organization Act (42 U.S.C. 7101 note) is amended by inserting after the item relating to section 217 the following new item:

“Sec. 218. Office of Electric Transmission and Distribution.”.

(2) Section 5315 of title 5, United States Code, is amended by inserting after the item relating to “Inspector General, Department of Energy.” the following:

“Director, Office of Electric Transmission and Distribution, Department of Energy.”.

**Subtitle C—Transmission Operation Improvements**

**SEC. 1231. OPEN NONDISCRIMINATORY ACCESS.**

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by inserting after section 211 the following new section:

“**SEC. 211A. OPEN ACCESS BY UNREGULATED TRANSMITTING UTILITIES.**

“(a) **TRANSMISSION SERVICES.**—Subject to section 212(h), the Commission may, by rule or order, require an unregulated transmitting utility to provide transmission services—

“(1) at rates that are comparable to those that the unregulated transmitting utility charges itself; and
“(2) on terms and conditions (not relating to rates) that are comparable to those under which such unregulated transmitting utility provides transmission services to itself and that are not unduly discriminatory or preferential.

“(b) EXEMPTION.—The Commission shall exempt from any rule or order under this section any unregulated transmitting utility that—

“(1) sells no more than 4,000,000 megawatt hours of electricity per year; or

“(2) does not own or operate any transmission facilities that are necessary for operating an interconnected transmission system (or any portion thereof); or

“(3) meets other criteria the Commission determines to be in the public interest.

“(c) LOCAL DISTRIBUTION FACILITIES.—The requirements of subsection (a) shall not apply to facilities used in local distribution.

“(d) EXEMPTION TERMINATION.—Whenever the Commission, after an evidentiary hearing held upon a complaint and after giving consideration to reliability standards established under section 215, finds on the basis of a preponderance of the evidence that any exemption granted pursuant to subsection (b) unreasonably im-
pairs the continued reliability of an interconnected transmission system, it shall revoke the exemption granted to that transmitting utility.

“(e) Application to Unregulated Transmitting Utilities.—The rate changing procedures applicable to public utilities under subsections (c) and (d) of section 205 are applicable to unregulated transmitting utilities for purposes of this section.

“(f) Remand.—In exercising its authority under paragraph (1) of subsection (a), the Commission may remand transmission rates to an unregulated transmitting utility for review and revision where necessary to meet the requirements of subsection (a).

“(g) Other Requests.—The provision of transmission services under subsection (a) does not preclude a request for transmission services under section 211.

“(h) Limitation.—The Commission may not require a State or municipality to take action under this section that would violate a private activity bond rule for purposes of section 141 of the Internal Revenue Code of 1986 (26 U.S.C. 141).

“(i) Transfer of Control of Transmitting Facilities.—Nothing in this section authorizes the Commission to require an unregulated transmitting utility to transfer control or operational control of its transmitting
facilities to an RTO or any other Commission-approved independent transmission organization designated to provide nondiscriminatory transmission access.

“(j) DEFINITION.—For purposes of this section, the term ‘unregulated transmitting utility’ means an entity that—

“(1) owns or operates facilities used for the transmission of electric energy in interstate commerce; and

“(2) is an entity described in section 201(f).”.

SEC. 1232. SENSE OF CONGRESS ON REGIONAL TRANSMISSION ORGANIZATIONS.

It is the sense of Congress that, in order to promote fair, open access to electric transmission service, benefit retail consumers, facilitate wholesale competition, improve efficiencies in transmission grid management, promote grid reliability, remove opportunities for unduly discriminatory or preferential transmission practices, and provide for the efficient development of transmission infrastructure needed to meet the growing demands of competitive wholesale power markets, all transmitting utilities in interstate commerce should voluntarily become members of Regional Transmission Organizations as defined in section 3 of the Federal Power Act.
SEC. 1233. REGIONAL TRANSMISSION ORGANIZATION APPLICATIONS PROGRESS REPORT.

Not later than 120 days after the date of enactment of this section, the Federal Energy Regulatory Commission shall submit to Congress a report containing each of the following:

(1) A list of all regional transmission organization applications filed at the Commission pursuant to subpart F of part 35 of title 18, Code of Federal Regulations (in this section referred to as “Order No. 2000”), including an identification of each public utility and other entity included within the proposed membership of the regional transmission organization.

(2) A brief description of the status of each pending regional transmission organization application, including a precise explanation of how each fails to comply with the minimal requirements of Order No. 2000 and what steps need to be taken to bring each application into such compliance.

(3) For any application that has not been finally approved by the Commission, a detailed description of every aspect of the application that the Commission has determined does not conform to the requirements of Order No. 2000.
544

(4) For any application that has not been fin-

ally approved by the Commission, an explanation

by the Commission of why the items described pur-

suant to paragraph (3) constitute material non-

compliance with the requirements of the Commis-

sion’s Order No. 2000 sufficient to justify denial of

approval by the Commission.

(5) For all regional transmission organization

applications filed pursuant to the Commission’s

Order No. 2000, whether finally approved or not—

(A) a discussion of that regional trans-

mission organization’s efforts to minimize rate

seams between itself and—

(i) other regional transmission organi-

zations; and

(ii) entities not participating in a re-

gional transmission organization;

(B) a discussion of the impact of such

seams on consumers and wholesale competition;

and

(C) a discussion of minimizing cost-shifting

on consumers.

SEC. 1234. FEDERAL UTILITY PARTICIPATION IN REGIONAL

TRANSMISSION ORGANIZATIONS.

(a) DEFINITIONS.—For purposes of this section—
(1) Appropriately Federal Regulatory Authority.—The term “appropriate Federal regulatory authority” means—

(A) with respect to a Federal power marketing agency (as defined in the Federal Power Act), the Secretary of Energy, except that the Secretary may designate the Administrator of a Federal power marketing agency to act as the appropriate Federal regulatory authority with respect to the transmission system of that Federal power marketing agency; and

(B) with respect to the Tennessee Valley Authority, the Board of Directors of the Tennessee Valley Authority.

(2) Federal Utility.—The term “Federal utility” means a Federal power marketing agency or the Tennessee Valley Authority.

(3) Transmission System.—The term “transmission system” means electric transmission facilities owned, leased, or contracted for by the United States and operated by a Federal utility.

(b) Transfer.—The appropriate Federal regulatory authority is authorized to enter into a contract, agreement or other arrangement transferring control and use of all or part of the Federal utility’s transmission system to an
RTO or ISO (as defined in the Federal Power Act), approved by the Federal Energy Regulatory Commission. Such contract, agreement or arrangement shall include—

(1) performance standards for operation and use of the transmission system that the head of the Federal utility determines necessary or appropriate, including standards that assure recovery of all the Federal utility’s costs and expenses related to the transmission facilities that are the subject of the contract, agreement or other arrangement; consistency with existing contracts and third-party financing arrangements; and consistency with said Federal utility’s statutory authorities, obligations, and limitations;

(2) provisions for monitoring and oversight by the Federal utility of the RTO’s or ISO’s fulfillment of the terms and conditions of the contract, agreement or other arrangement, including a provision for the resolution of disputes through arbitration or other means with the regional transmission organization or with other participants, notwithstanding the obligations and limitations of any other law regarding arbitration; and

(3) a provision that allows the Federal utility to withdraw from the RTO or ISO and terminate the
contract, agreement or other arrangement in accordance with its terms.

Neither this section, actions taken pursuant to it, nor any other transaction of a Federal utility using an RTO or ISO shall confer upon the Federal Energy Regulatory Commission jurisdiction or authority over the Federal utility’s electric generation assets, electric capacity or energy that the Federal utility is authorized by law to market, or the Federal utility’s power sales activities.

(c) EXISTING STATUTORY AND OTHER OBLIGATIONS.—

(1) SYSTEM OPERATION REQUIREMENTS.—No statutory provision requiring or authorizing a Federal utility to transmit electric power or to construct, operate or maintain its transmission system shall be construed to prohibit a transfer of control and use of its transmission system pursuant to, and subject to all requirements of subsection (b).

(2) OTHER OBLIGATIONS.—This subsection shall not be construed to—

(A) suspend, or exempt any Federal utility from, any provision of existing Federal law, including but not limited to any requirement or direction relating to the use of the Federal utility’s transmission system, environmental protec-
tion, fish and wildlife protection, flood control,
navigation, water delivery, or recreation; or

(B) authorize abrogation of any contract
or treaty obligation.

(3) REPEAL.—Section 311 of title III of Appen-
dix B of the Act of October 27, 2000 (P.L. 106–
377, section 1(a)(2); 114 Stat. 1441, 1441A–80; 16
U.S.C. 824n) is repealed.

SEC. 1235. STANDARD MARKET DESIGN.

(a) REMAND.—The Commission’s proposed rule-
making entitled “Remedying Undue Discrimination
through Open Access Transmission Service and Standard
Electricity Market Design” (Docket No. RM01–12–000)
(“SMD NOPR”) is remanded to the Commission for re-
consideration. No final rule mandating a standard elec-
tricity market design pursuant to the proposed rule-
making, including any rule or order of general applica-
bility within the scope of the proposed rulemaking, may
be issued before October 31, 2006, or take effect before
December 31, 2006. Any final rule issued by the Commis-
sion pursuant to the proposed rulemaking shall be pre-
ceded by a second notice of proposed rulemaking issued
after the date of enactment of this Act and an opportunity
for public comment.
(b) SAVINGS Clause.—This section shall not be con-
strued to modify or diminish any authority or obligation
the Commission has under this Act, the Federal Power
Act, or other applicable law, including, but not limited to,
any authority to—

(1) issue any rule or order (of general or par-
ticular applicability) pursuant to any such authority
or obligation; or

(2) act on a filing or filings by 1 or more transmit-
mittng utilities for the voluntary formation of a Re-
gional Transmission Organization or Independent
System Operator (as defined in the Federal Power
Act) (and related market structures or rules) or vol-
untary modification of an existing Regional Trans-
mission Organization or Independent System Oper-
ator (and related market structures or rules).

SEC. 1236. NATIVE LOAD SERVICE OBLIGATION.

Part II of the Federal Power Act (16 U.S.C. 824 et
seq.) is amended by adding at the end the following:

"SEC. 217. NATIVE LOAD SERVICE OBLIGATION.

"(a) MEETING Service Obligations.—(1) Any
load-serving entity that, as of the date of enactment of
this section—

"(A) owns generation facilities, markets the
output of Federal generation facilities, or holds
rights under 1 or more wholesale contracts to pur-
chase electric energy, for the purpose of meeting a
service obligation, and

“(B) by reason of ownership of transmission fa-
cilities, or 1 or more contracts or service agreements
for firm transmission service, holds firm trans-
mission rights for delivery of the output of such gen-
eration facilities or such purchased energy to meet
such service obligation,

is entitled to use such firm transmission rights, or, equiva-
lent tradable or financial transmission rights, in order to
deliver such output or purchased energy, or the output of
other generating facilities or purchased energy to the ex-
tent deliverable using such rights, to the extent required
to meet its service obligation.

“(2) To the extent that all or a portion of the service
obligation covered by such firm transmission rights or
equivalent tradable or financial transmission rights is
transferred to another load-serving entity, the successor
load-serving entity shall be entitled to use the firm trans-
mission rights or equivalent tradable or financial trans-
mission rights associated with the transferred service obli-
gation. Subsequent transfers to another load-serving enti-
ty, or back to the original load-serving entity, shall be enti-
tled to the same rights.
“(3) The Commission shall exercise its authority under this Act in a manner that facilitates the planning and expansion of transmission facilities to meet the reasonable needs of load-serving entities to satisfy their service obligations, and enables load-serving entities to secure firm transmission rights (or equivalent tradable or financial rights) on a long term basis for long term power supply arrangements made, or planned, to meet such needs.

“(b) Allocation of Transmission Rights.—Nothing in subsections (a)(1) and (a)(2) of this section shall affect any existing or future methodology employed by an RTO or ISO for allocating or auctioning transmission rights if such RTO or ISO was authorized by the Commission to allocate or auction financial transmission rights on its system as of January 1, 2005, and the Commission determines that any future allocation or auction is just, reasonable and not unduly discriminatory or preferential, provided, however, that if such an RTO or ISO never allocated financial transmission rights on its system that pertained to a period before January 1, 2005, with respect to any application by such RTO or ISO that would change its methodology the Commission shall exercise its authority in a manner consistent with the Act and the policies expressed in subsections (a)(1) and (a)(2) as applied to firm transmission rights held by a load serving
entity as of January 1, 2005, to the extent the associated
generation ownership or power purchase arrangements re-
main in effect.

“(c) Certain Transmission Rights.—The Com-
mission may exercise authority under this Act to make
transmission rights not used to meet an obligation covered
by subsection (a) available to other entities in a manner
determined by the Commission to be just, reasonable, and
not unduly discriminatory or preferential.

“(d) Obligation to Build.—Nothing in this Act
shall relieve a load-serving entity from any obligation
under State or local law to build transmission or distribu-
tion facilities adequate to meet its service obligations.

“(e) Contracts.—Nothing in this section shall pro-
vide a basis for abrogating any contract or service agree-
ment for firm transmission service or rights in effect as
of the date of the enactment of this subsection. If an ISO
in the Western Interconnection had allocated financial
transmission rights prior to the date of enactment of this
section but had not done so with respect to one or more
load-serving entities’ firm transmission rights held under
contracts to which the preceding sentence applies (or held
by reason of ownership of transmission facilities), such
load-serving entities may not be required, without their
consent, to convert such firm transmission rights to
tradable or financial rights, except where the load-serving entity has voluntarily joined the ISO as a participating transmission owner (or its successor) in accordance with the ISO tariff.

“(f) Water Pumping Facilities.—The Commission shall ensure that any entity described in section 201(f) that owns transmission facilities used predominately to support its own water pumping facilities shall have, with respect to such facilities, protections for transmission service comparable to those provided to load-serving entities pursuant to this section.

“(g) FERC Rulemaking on Long-Term Transmission Rights in Organized Markets.—Within one year after the date of enactment of this section and after notice and an opportunity for comment, the Commission shall by rule or order implement subsection (a)(3) in Commission-approved RTOs and ISOs with organized electricity markets.

“(h) ERCOT.—This section shall not apply within the area referred to in section 212(k)(2)(A).

“(i) Jurisdiction.—This section does not authorize the Commission to take any action not otherwise within its jurisdiction.

“(j) Effect of Exercising Rights.—An entity that lawfully exercises rights granted under subsection (a)
shall not be considered by such action as engaging in undue discrimination or preference under this Act.

“(k) TVA AREA.—For purposes of subsection (a)(1)(B), a load-serving entity that is located within the service area of the Tennessee Valley Authority and that has a firm wholesale power supply contract with the Tennessee Valley Authority shall be deemed to hold firm transmission rights for the transmission of such power.

“(l) DEFINITIONS.—For purposes of this section:

“(1) The term ‘distribution utility’ means an electric utility that has a service obligation to end-users or to a State utility or electric cooperative that, directly or indirectly, through 1 or more additional State utilities or electric cooperatives, provides electric service to end-users.

“(2) The term ‘load-serving entity’ means a distribution utility or an electric utility that has a service obligation.

“(3) The term ‘service obligation’ means a requirement applicable to, or the exercise of authority granted to, an electric utility under Federal, State or local law or under long-term contracts to provide electric service to end-users or to a distribution utility.
“(4) The term ‘State utility’ means a State or any political subdivision of a State, or any agency, authority, or instrumentality of any 1 or more of the foregoing, or a corporation which is wholly owned, directly or indirectly, by any 1 or more of the foregoing, competent to carry on the business of developing, transmitting, utilizing or distributing power’’.

SEC. 1237. STUDY ON THE BENEFITS OF ECONOMIC DISPATCH.

(a) STUDY.—The Secretary of Energy, in coordination and consultation with the States, shall conduct a study on—

(1) the procedures currently used by electric utilities to perform economic dispatch;

(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and

(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each state if economic dispatch procedures were revised to improve the ability of non-utility generation resources to offer their output for inclusion in economic dispatch.
Section 1241. Transmission Infrastructure Investment.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 218. TRANSMISSION INFRASTRUCTURE INVESTMENT.

(a) Rulemaking Requirement.—Within 1 year after the enactment of this section, the Commission shall establish, by rule, incentive-based (including, but not limited to performance-based) rate treatments for the transmission of electric energy in interstate commerce by public utilities for the purpose of benefiting consumers by ensur-
ing reliability and reducing the cost of delivered power by reducing transmission congestion. Such rule shall—

“(1) promote reliable and economically efficient transmission and generation of electricity by promoting capital investment in the enlargement, improvement, maintenance and operation of facilities for the transmission of electric energy in interstate commerce;

“(2) provide a return on equity that attracts new investment in transmission facilities (including related transmission technologies);

“(3) encourage deployment of transmission technologies and other measures to increase the capacity and efficiency of existing transmission facilities and improve the operation of such facilities; and

“(4) allow recovery of all prudently incurred costs necessary to comply with mandatory reliability standards issued pursuant to section 215 of this Act.

The Commission may, from time to time, revise such rule.

“(b) ADDITIONAL INCENTIVES FOR RTO PARTICIPA-
TION.—In the rule issued under this section, the Commission shall, to the extent within its jurisdiction, provide for incentives to each transmitting utility or electric utility that joins a Regional Transmission Organization or Inde-
pendent System Operator. Incentives provided by the Commission pursuant to such rule shall include—

“(1) recovery of all prudently incurred costs to develop and participate in any proposed or approved RTO, ISO, or independent transmission company;

“(2) recovery of all costs previously approved by a State commission which exercised jurisdiction over the transmission facilities prior to the utility’s participation in the RTO or ISO, including costs necessary to honor preexisting transmission service contracts, in a manner which does not reduce the revenues the utility receives for transmission services for a reasonable transition period after the utility joins the RTO or ISO;

“(3) recovery as an expense in rates of the costs prudently incurred to conduct transmission planning and reliability activities, including the costs of participating in RTO, ISO and other regional planning activities and design, study and other precertification costs involved in seeking permits and approvals for proposed transmission facilities;

“(4) a current return in rates for construction work in progress for transmission facilities and full recovery of prudently incurred costs for constructing transmission facilities;
“(5) formula transmission rates; and
“(6) a maximum 15 year accelerated depreciation on new transmission facilities for rate treatment purposes.
The Commission shall ensure that any costs recoverable pursuant to this subsection may be recovered by such utility through the transmission rates charged by such utility or through the transmission rates charged by the RTO or ISO that provides transmission service to such utility.
“(c) JUST AND REASONABLE RATES.—All rates approved under the rules adopted pursuant to this section, including any revisions to such rules, are subject to the requirement of sections 205 and 206 that all rates, charges, terms, and conditions be just and reasonable and not unduly discriminatory or preferential.”.

Subtitle E—Amendments to PURPA
SEC. 1251. NET METERING AND ADDITIONAL STANDARDS.
(a) ADOPTION OF STANDARDS.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:
“(11) NET METERING.—Each electric utility shall make available upon request net metering service to any electric consumer that the electric utility serves. For purposes of this paragraph, the term
‘net metering service’ means service to an electric consumer under which electric energy generated by that electric consumer from an eligible on-site generating facility and delivered to the local distribution facilities may be used to offset electric energy provided by the electric utility to the electric consumer during the applicable billing period.

“(12) **Fuel Sources.**—Each electric utility shall develop a plan to minimize dependence on 1 fuel source and to ensure that the electric energy it sells to consumers is generated using a diverse range of fuels and technologies, including renewable technologies.

“(13) **Fossil Fuel Generation Efficiency.**—Each electric utility shall develop and implement a 10-year plan to increase the efficiency of its fossil fuel generation.”.

(b) **Compliance.**—

(1) **Time Limitations.**—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

“(3)(A) Not later than 2 years after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking
authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to each standard established by paragraphs (11) through (13) of section 111(d).

“(B) Not later than 3 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has rate-making authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by paragraphs (11) through (13) of section 111(d).”.

(2) Failure to Comply.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following:

“In the case of each standard established by paragraphs (11) through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraphs (11) through (13).”.

(3) Prior State Actions.—

(A) In General.—Section 112 of the Public Utility Regulatory Policies Act of 1978
(16 U.S.C. 2622) is amended by adding at the end the following:

“(d) Prior State Actions.—Subsections (b) and (c) of this section shall not apply to the standards established by paragraphs (11) through (13) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

“(1) the State has implemented for such utility the standard concerned (or a comparable standard);

“(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

“(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.”.

(B) Cross Reference.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: “In the case of each standard established by paragraphs (11) through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be
a reference to the date of enactment of such paragraphs (11) through (13).”.

SEC. 1252. SMART METERING.

(a) In General.—Section 111(d) of the Public Utilities Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

“(14) TIME-BASED METERING AND COMMUNICATIONS.—

“(A) Not later than 18 months after the date of enactment of this paragraph, each electric utility shall offer each of its customer classes, and provide individual customers upon customer request, a time-based rate schedule under which the rate charged by the electric utility varies during different time periods and reflects the variance, if any, in the utility’s costs of generating and purchasing electricity at the whole-sale level. The time-based rate schedule shall enable the electric consumer to manage energy use and cost through advanced metering and communications technology.

“(B) The types of time-based rate schedules that may be offered under the schedule referred to in subparagraph (A) include, among others—
“(i) time-of-use pricing whereby electricity prices are set for a specific time period on an advance or forward basis, typically not changing more often than twice a year, based on the utility’s cost of generating and/or purchasing such electricity at the wholesale level for the benefit of the consumer. Prices paid for energy consumed during these periods shall be pre-established and known to consumers in advance of such consumption, allowing them to vary their demand and usage in response to such prices and manage their energy costs by shifting usage to a lower cost period or reducing their consumption overall;

“(ii) critical peak pricing whereby time-of-use prices are in effect except for certain peak days, when prices may reflect the costs of generating and/or purchasing electricity at the wholesale level and when consumers may receive additional discounts for reducing peak period energy consumption;

“(iii) real-time pricing whereby electricity prices are set for a specific time pe-
period on an advanced or forward basis, reflecting the utility’s cost of generating and/or purchasing electricity at the wholesale level, and may change as often as hourly; and

“(iv) credits for consumers with large loads who enter into pre-established peak load reduction agreements that reduce a utility’s planned capacity obligations.

“(C) Each electric utility subject to subparagraph (A) shall provide each customer requesting a time-based rate with a time-based meter capable of enabling the utility and customer to offer and receive such rate, respectively.

“(D) For purposes of implementing this paragraph, any reference contained in this section to the date of enactment of the Public Utility Regulatory Policies Act of 1978 shall be deemed to be a reference to the date of enactment of this paragraph.

“(E) In a State that permits third-party marketers to sell electric energy to retail electric consumers, such consumers shall be entitled to receive the same time-based metering and
communications device and service as a retail
electric consumer of the electric utility.

“(F) Notwithstanding subsections (b) and
(c) of section 112, each State regulatory au-
thority shall, not later than 18 months after the
date of enactment of this paragraph conduct an
investigation in accordance with section 115(i)
and issue a decision whether it is appropriate to
implement the standards set out in subpara-
graphs (A) and (C).”.

(b) State Investigation of Demand Response
and Time-Based Metering.—Section 115 of the Public
is amended as follows:

(1) By inserting in subsection (b) after the
phrase “the standard for time-of-day rates estab-
lished by section 111(d)(3)” the following: “and the
standard for time-based metering and communica-
tions established by section 111(d)(14)”.

(2) By inserting in subsection (b) after the
phrase “are likely to exceed the metering” the fol-
lowing: “and communications”.

(3) By adding the at the end the following:
“(i) Time-Based Metering and Communica-
tions.—In making a determination with respect to the
standard established by section 111(d)(14), the investigation requirement of section 111(d)(14)(F) shall be as follows: Each State regulatory authority shall conduct an investigation and issue a decision whether or not it is appropriate for electric utilities to provide and install time-based meters and communications devices for each of their customers which enable such customers to participate in time-based pricing rate schedules and other demand response programs.”.

(c) Federal Assistance on Demand Response.—Section 132(a) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642(a)) is amended by striking “and” at the end of paragraph (3), striking the period at the end of paragraph (4) and inserting “; and”, and by adding the following at the end thereof:

“(5) technologies, techniques, and rate-making methods related to advanced metering and communications and the use of these technologies, techniques and methods in demand response programs.”.

(d) Federal Guidance.—Section 132 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642) is amended by adding the following at the end thereof:

“(d) Demand Response.—The Secretary shall be responsible for—

•HR 6 IH
“(1) educating consumers on the availability, advantages, and benefits of advanced metering and communications technologies, including the funding of demonstration or pilot projects;

“(2) working with States, utilities, other energy providers and advanced metering and communications experts to identify and address barriers to the adoption of demand response programs; and

“(3) not later than 180 days after the date of enactment of the Energy Policy Act of 2005, providing Congress with a report that identifies and quantifies the national benefits of demand response and makes a recommendation on achieving specific levels of such benefits by January 1, 2007.”.

(e) DEMAND RESPONSE AND REGIONAL COORDINATION.—

(1) IN GENERAL.—It is the policy of the United States to encourage States to coordinate, on a regional basis, State energy policies to provide reliable and affordable demand response services to the public.

(2) TECHNICAL ASSISTANCE.—The Secretary of Energy shall provide technical assistance to States and regional organizations formed by 2 or more States to assist them in—
(A) identifying the areas with the greatest demand response potential;

(B) identifying and resolving problems in transmission and distribution networks, including through the use of demand response;

(C) developing plans and programs to use demand response to respond to peak demand or emergency needs; and

(D) identifying specific measures consumers can take to participate in these demand response programs.

(3) REPORT.—Not later than 1 year after the date of enactment of the Energy Policy Act of 2005, the Commission shall prepare and publish an annual report, by appropriate region, that assesses demand response resources, including those available from all consumer classes, and which identifies and reviews—

(A) saturation and penetration rate of advanced meters and communications technologies, devices and systems;

(B) existing demand response programs and time-based rate programs;

(C) the annual resource contribution of demand resources;
(D) the potential for demand response as a quantifiable, reliable resource for regional planning purposes;

(E) steps taken to ensure that, in regional transmission planning and operations, demand resources are provided equitable treatment as a quantifiable, reliable resource relative to the resource obligations of any load-serving entity, transmission provider, or transmitting party; and

(F) regulatory barriers to improved customer participation in demand response, peak reduction and critical period pricing programs.

(f) Federal Encouragement of Demand Response Devices.—It is the policy of the United States that time-based pricing and other forms of demand response, whereby electricity customers are provided with electricity price signals and the ability to benefit by responding to them, shall be encouraged, the deployment of such technology and devices that enable electricity customers to participate in such pricing and demand response systems shall be facilitated, and unnecessary barriers to demand response participation in energy, capacity and ancillary service markets shall be eliminated. It is further the policy of the United States that the benefits of such
demand response that accrue to those not deploying such technology and devices, but who are part of the same regional electricity entity, shall be recognized.

(g) Time Limitations.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

“(4)(A) Not later than 1 year after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to the standard established by paragraph (14) of section 111(d).

“(B) Not later than 2 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to the standard established by paragraph (14) of section 111(d).”.

(h) Failure to Comply.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following:
“In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).”.

(i) PRIOR STATE ACTIONS REGARDING SMART METERING STANDARDS.—

(1) IN GENERAL.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

“(e) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (14) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

“(1) the State has implemented for such utility the standard concerned (or a comparable standard); “

“(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility within the previous 3 years; or “

“(3) the State legislature has voted on the implementation of such standard (or a comparable
standard) for such utility within the previous 3 years.”.

(2) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: “In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).”.

SEC. 1253. COGENERATION AND SMALL POWER PRODUCTION PURCHASE AND SALE REQUIREMENTS.

(a) TERMINATION OF MANDATORY PURCHASE AND SALE REQUIREMENTS.—Section 210 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 824a–3) is amended by adding at the end the following:

“(m) TERMINATION OF MANDATORY PURCHASE AND SALE REQUIREMENTS.—

“(1) OBLIGATION TO PURCHASE.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to purchase electric energy from a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that the qualifying cogeneration
facility or qualifying small power production facility has nondiscriminatory access to—

“(A)(i) independently administered, auction-based day ahead and real time wholesale markets for the sale of electric energy; and (ii) wholesale markets for long-term sales of capacity and electric energy; or

“(B)(i) transmission and interconnection services that are provided by a Commission-approved regional transmission entity and administered pursuant to an open access transmission tariff that affords nondiscriminatory treatment to all customers; and (ii) competitive wholesale markets that provide a meaningful opportunity to sell capacity, including long-term and short-term sales, and electric energy, including long-term, short-term and real-time sales, to buyers other than the utility to which the qualifying facility is interconnected. In determining whether a meaningful opportunity to sell exists, the Commission shall consider, among other factors, evidence of transactions within the relevant market; or

“(C) wholesale markets for the sale of capacity and electric energy that are, at a min-
imum, of comparable competitive quality as markets described in subparagraphs (A) and (B).

“(2) Revised Purchase and Sale Obligation for New Facilities.—(A) After the date of enactment of this subsection, no electric utility shall be required pursuant to this section to enter into a new contract or obligation to purchase from or sell electric energy to a facility that is not an existing qualifying cogeneration facility unless the facility meets the criteria for qualifying cogeneration facilities established by the Commission pursuant to the rulemaking required by subsection (n).

“(B) For the purposes of this paragraph, the term ‘existing qualifying cogeneration facility’ means a facility that—

“(i) was a qualifying cogeneration facility on the date of enactment of subsection (m); or

“(ii) had filed with the Commission a notice of self-certification, self recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by subsection (n).
“(3) COMMISSION REVIEW.—Any electric utility may file an application with the Commission for relief from the mandatory purchase obligation pursuant to this subsection on a service territory-wide basis. Such application shall set forth the factual basis upon which relief is requested and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection have been met. After notice, including sufficient notice to potentially affected qualifying cogeneration facilities and qualifying small power production facilities, and an opportunity for comment, the Commission shall make a final determination within 90 days of such application regarding whether the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) have been met.

“(4) REINSTATEMENT OF OBLIGATION TO PURCHASE.—At any time after the Commission makes a finding under paragraph (3) relieving an electric utility of its obligation to purchase electric energy, a qualifying cogeneration facility, a qualifying small power production facility, a State agency, or any other affected person may apply to the Commission for an order reinstating the electric utility’s obligation to purchase electric energy under this section.
Such application shall set forth the factual basis upon which the application is based and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection are no longer met. After notice, including sufficient notice to potentially affected utilities, and opportunity for comment, the Commission shall issue an order within 90 days of such application reinstating the electric utility’s obligation to purchase electric energy under this section if the Commission finds that the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) which relieved the obligation to purchase, are no longer met.

“(5) OBLIGATION TO SELL.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to sell electric energy to a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that—

“(A) competing retail electric suppliers are willing and able to sell and deliver electric energy to the qualifying cogeneration facility or qualifying small power production facility; and
“(B) the electric utility is not required by
State law to sell electric energy in its service
territory.

“(6) NO EFFECT ON EXISTING RIGHTS AND
remedies.—Nothing in this subsection affects the
rights or remedies of any party under any contract
or obligation, in effect or pending approval before
the appropriate State regulatory authority or non-
regulated electric utility on the date of enactment of
this subsection, to purchase electric energy or capac-
ity from or to sell electric energy or capacity to a
qualifying cogeneration facility or qualifying small
power production facility under this Act (including
the right to recover costs of purchasing electric en-
ergy or capacity).

“(7) RECOVERY OF COSTS.—(A) The Commis-
sion shall issue and enforce such regulations as are
necessary to ensure that an electric utility that pur-
chases electric energy or capacity from a qualifying
cogeneration facility or qualifying small power pro-
duction facility in accordance with any legally en-
forceable obligation entered into or imposed under
this section recovers all prudently incurred costs as-
sociated with the purchase.
“(B) A regulation under subparagraph (A) shall be enforceable in accordance with the provisions of law applicable to enforcement of regulations under the Federal Power Act (16 U.S.C. 791a et seq.).

“(n) Rulemaking for New Qualifying Facilities.—(1)(A) Not later than 180 days after the date of enactment of this section, the Commission shall issue a rule revising the criteria in 18 C.F.R. 292.205 for new qualifying cogeneration facilities seeking to sell electric energy pursuant to section 210 of this Act to ensure—

“(i) that the thermal energy output of a new qualifying cogeneration facility is used in a productive and beneficial manner;

“(ii) the electrical, thermal, and chemical output of the cogeneration facility is used fundamentally for industrial, commercial, or institutional purposes and is not intended fundamentally for sale to an electric utility, taking into account technological, efficiency, economic, and variable thermal energy requirements, as well as State laws applicable to sales of electric energy from a qualifying facility to its host facility; and

“(iii) continuing progress in the development of efficient electric energy generating technology.
“(B) The rule issued pursuant to paragraph (1)(A) of this subsection shall be applicable only to facilities that seek to sell electric energy pursuant to section 210 of this Act. For all other purposes, except as specifically provided in subsection (m)(2)(A), qualifying facility status shall be determined in accordance with the rules and regulations of this Act.

“(2) Notwithstanding rule revisions under paragraph (1), the Commission’s criteria for qualifying cogeneration facilities in effect prior to the date on which the Commission issues the final rule required by paragraph (1) shall continue to apply to any cogeneration facility that—

“(A) was a qualifying cogeneration facility on the date of enactment of subsection (m), or

“(B) had filed with the Commission a notice of self-certification, self-recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by paragraph (1).”.

(b) Elimination of Ownership Limitations.—

(1) Qualifying Small Power Production Facility.—Section 3(17)(C) of the Federal Power Act (16 U.S.C. 796(17)(C)) is amended to read as follows:
“(C) ‘qualifying small power production facility’ means a small power production facility that the Commission determines, by rule, meets such requirements (including requirements respecting fuel use, fuel efficiency, and reliability) as the Commission may, by rule, prescribe;”.

(2) QUALIFYING COGENERATION FACILITY.—Section 3(18)(B) of the Federal Power Act (16 U.S.C. 796(18)(B)) is amended to read as follows:

“(B) ‘qualifying cogeneration facility’ means a cogeneration facility that the Commission determines, by rule, meets such requirements (including requirements respecting minimum size, fuel use, and fuel efficiency) as the Commission may, by rule, prescribe;”.

SEC. 1254. INTERCONNECTION.

(a) ADOPTION OF STANDARDS.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621 (d) ) is amended by adding at the end the following:

“(16) INTERCONNECTION.—Each electric utility shall make available, upon request, interconnection service to any electric consumer that the electric utility serves. For purposes of this paragraph, the term ‘interconnection service’ means service to an
electric consumer under which an on-site generating facility on the consumer’s premises shall be connected to the local distribution facilities. Interconnection services shall be offered based upon the standards developed by the Institute of Electrical and Electronics Engineers: IEEE Standard 1547 for Intertieing Distributed Resources with Electric Power Systems, as they may be amended from time to time. In addition, agreements and procedures shall be established whereby the services are offered shall promote current best practices of interconnection for distributed generation, including but not limited to practices stipulated in model codes adopted by associations of state regulatory agencies. All such agreements and procedures shall be just and reasonable, and not unduly discriminatory or preferential.”.

(b) COMPLIANCE.—

(1) TIME LIMITATIONS.—Section 112 (b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

“(3)(A) Not later than one year after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which
it has ratemaking authority) and each nonregulated utility shall commence the consideration referred to in section 111, or set a hearing date for consideration, with respect to the standard established by paragraph (16) of section 111(d).

“(B) Not later than two years after the date of the enactment of the this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by paragraph (16) of section 111(d).”.

(2) Failure to Comply.—Section 112 (d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622 (c)) is amended by adding at the end the following: “In the case of the standard established by paragraph (16), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of paragraph (16).”.

(3) Prior State Actions.—

(A) In general.—Section 112 of the Public Utility Regulatory Policies Act of 1978
(16 U.S.C. 2622) is amended by adding at the end the following:

“(d) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standards established by paragraphs (16) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

“(1) the State has implemented for such utility the standard concerned (or a comparable standard); 

“(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or 

“(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.”.

(B) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: “In the case of each standard established by paragraph (16) of section 111(d), the reference contained in this subsection to the date of enactment of the Act shall be deemed to be a reference to the date of enactment of paragraph (16).”.
Subtitle F—Repeal of PUHCA

SEC. 1261. SHORT TITLE.

This subtitle may be cited as the “Public Utility Holding Company Act of 2005”.

SEC. 1262. DEFINITIONS.

For purposes of this subtitle:

(1) AFFILIATE.—The term “affiliate” of a company means any company, 5 percent or more of the outstanding voting securities of which are owned, controlled, or held with power to vote, directly or indirectly, by such company.

(2) ASSOCIATE COMPANY.—The term “associate company” of a company means any company in the same holding company system with such company.

(3) COMMISSION.—The term “Commission” means the Federal Energy Regulatory Commission.

(4) COMPANY.—The term “company” means a corporation, partnership, association, joint stock company, business trust, or any organized group of persons, whether incorporated or not, or a receiver, trustee, or other liquidating agent of any of the foregoing.

(5) ELECTRIC UTILITY COMPANY.—The term “electric utility company” means any company that owns or operates facilities used for the generation,
transmission, or distribution of electric energy for sale.

(6) EXEMPT WHOLESALE GENERATOR AND FOREIGN UTILITY COMPANY.—The terms “exempt wholesale generator” and “foreign utility company” have the same meanings as in sections 32 and 33, respectively, of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79z–5a, 79z–5b), as those sections existed on the day before the effective date of this subtitle.

(7) GAS UTILITY COMPANY.—The term “gas utility company” means any company that owns or operates facilities used for distribution at retail (other than the distribution only in enclosed portable containers or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power.

(8) HOLDING COMPANY.—The term “holding company” means—

(A) any company that directly or indirectly owns, controls, or holds, with power to vote, 10 percent or more of the outstanding voting securities of a public-utility company or of a holding company of any public-utility company; and
(B) any person, determined by the Commission, after notice and opportunity for hearing, to exercise directly or indirectly (either alone or pursuant to an arrangement or understanding with 1 or more persons) such a controlling influence over the management or policies of any public-utility company or holding company as to make it necessary or appropriate for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon holding companies.

(9) HOLDING COMPANY SYSTEM.—The term "holding company system" means a holding company, together with its subsidiary companies.

(10) JURISDICTIONAL RATES.—The term "jurisdictional rates" means rates accepted or established by the Commission for the transmission of electric energy in interstate commerce, the sale of electric energy at wholesale in interstate commerce, the transportation of natural gas in interstate commerce, and the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use.
(11) **NATURAL GAS COMPANY.**—The term “natural gas company” means a person engaged in the transportation of natural gas in interstate commerce or the sale of such gas in interstate commerce for resale.

(12) **PERSON.**—The term “person” means an individual or company.

(13) **PUBLIC UTILITY.**—The term “public utility” means any person who owns or operates facilities used for transmission of electric energy in interstate commerce or sales of electric energy at wholesale in interstate commerce.

(14) **PUBLIC-UTILITY COMPANY.**—The term “public-utility company” means an electric utility company or a gas utility company.

(15) **STATE COMMISSION.**—The term “State commission” means any commission, board, agency, or officer, by whatever name designated, of a State, municipality, or other political subdivision of a State that, under the laws of such State, has jurisdiction to regulate public utility companies.

(16) **SUBSIDIARY COMPANY.**—The term “subsidiary company” of a holding company means—

(A) any company, 10 percent or more of the outstanding voting securities of which are
directly or indirectly owned, controlled, or held
with power to vote, by such holding company;
and

(B) any person, the management or poli-
cies of which the Commission, after notice and
opportunity for hearing, determines to be sub-
ject to a controlling influence, directly or indi-
rectly, by such holding company (either alone or
pursuant to an arrangement or understanding
with 1 or more other persons) so as to make it
necessary for the rate protection of utility cus-
tomers with respect to rates that such person
be subject to the obligations, duties, and liabil-
ities imposed by this subtitle upon subsidiary
companies of holding companies.

(17) VOTING SECURITY.—The term “voting se-
curity” means any security presently entitling the
owner or holder thereof to vote in the direction or
management of the affairs of a company.

SEC. 1263. REPEAL OF THE PUBLIC UTILITY HOLDING COM-
PANY ACT OF 1935.

The Public Utility Holding Company Act of 1935 (15
U.S.C. 79 et seq.) is repealed.
SEC. 1264. FEDERAL ACCESS TO BOOKS AND RECORDS.

(a) In General.—Each holding company and each associate company thereof shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(b) Affiliate Companies.—Each affiliate of a holding company or of any subsidiary company of a holding company shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records with respect to any transaction with another affiliate, as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(c) Holding Company Systems.—The Commission may examine the books, accounts, memoranda, and other records of any company in a holding company system, or any affiliate thereof, as the Commission determines are relevant to costs incurred by a public utility or natural gas company within such holding company system and
necessary or appropriate for the protection of utility cus-
tomers with respect to jurisdictional rates.

(d) CONFIDENTIALITY.—No member, officer, or em-
ployee of the Commission shall divulge any fact or infor-
mation that may come to his or her knowledge during the
course of examination of books, accounts, memoranda, or
other records as provided in this section, except as may
be directed by the Commission or by a court of competent
jurisdiction.

SEC. 1265. STATE ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Upon the written request of a
State commission having jurisdiction to regulate a public-
utility company in a holding company system, the holding
company or any associate company or affiliate thereof,
other than such public-utility company, wherever located,
shall produce for inspection books, accounts, memoranda,
and other records that—

(1) have been identified in reasonable detail in
a proceeding before the State commission;

(2) the State commission determines are rel-
evant to costs incurred by such public-utility com-
pany; and

(3) are necessary for the effective discharge of
the responsibilities of the State commission with re-
spect to such proceeding.
(b) LIMITATION.—Subsection (a) does not apply to any person that is a holding company solely by reason of ownership of 1 or more qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.).

(c) CONFIDENTIALITY OF INFORMATION.—The production of books, accounts, memoranda, and other records under subsection (a) shall be subject to such terms and conditions as may be necessary and appropriate to safeguard against unwarranted disclosure to the public of any trade secrets or sensitive commercial information.

(d) EFFECT ON STATE LAW.—Nothing in this section shall preempt applicable State law concerning the provision of books, accounts, memoranda, and other records, or in any way limit the rights of any State to obtain books, accounts, memoranda, and other records under any other Federal law, contract, or otherwise.

(e) COURT JURISDICTION.—Any United States district court located in the State in which the State commission referred to in subsection (a) is located shall have jurisdiction to enforce compliance with this section.

SEC. 1266. EXEMPTION AUTHORITY.

(a) RULEMAKING.—Not later than 90 days after the effective date of this subtitle, the Commission shall issue a final rule to exempt from the requirements of section
(a) **COMMISSION AUTHORITY UNAFFECTED.**—Nothing in this subtitle shall limit the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) to require that jurisdictional rates are just and reasonable,
including the ability to deny or approve the pass through
of costs, the prevention of cross-subsidization, and the
issuance of such rules and regulations as are necessary
or appropriate for the protection of utility consumers.

(b) Recovery of Costs.—Nothing in this subtitle
shall preclude the Commission or a State commission from
exercising its jurisdiction under otherwise applicable law
to determine whether a public-utility company, public util-
ity, or natural gas company may recover in rates any costs
of an activity performed by an associate company, or any
costs of goods or services acquired by such public-utility
company from an associate company.

SEC. 1268. APPLICABILITY.

Except as otherwise specifically provided in this sub-
title, no provision of this subtitle shall apply to, or be
deemed to include—

(1) the United States;
(2) a State or any political subdivision of a
State;
(3) any foreign governmental authority not op-
erating in the United States;
(4) any agency, authority, or instrumentality of
any entity referred to in paragraph (1), (2), or (3); or
SEC. 1269. EFFECT ON OTHER REGULATIONS.

Nothing in this subtitle precludes the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to protect utility customers.

SEC. 1270. ENFORCEMENT.

The Commission shall have the same powers as set forth in sections 306 through 317 of the Federal Power Act (16 U.S.C. 825e–825p) to enforce the provisions of this subtitle.

SEC. 1271. SAVINGS PROVISIONS.

(a) IN GENERAL.—Nothing in this subtitle, or otherwise in the Public Utility Holding Company Act of 1935, or rules, regulations, or orders thereunder, prohibits a person from engaging in or continuing to engage in activities or transactions in which it is legally engaged or authorized to engage on the date of enactment of this Act, if that person continues to comply with the terms (other than an expiration date or termination date) of any such authorization, whether by rule or by order.

(b) EFFECT ON OTHER COMMISSION AUTHORITY.—Nothing in this subtitle limits the authority of the Com-
SEC. 1272. IMPLEMENTATION.

Not later than 12 months after the date of enactment of this subtitle, the Commission shall—

(1) issue such regulations as may be necessary or appropriate to implement this subtitle (other than section 1265, relating to State access to books and records); and

(2) submit to Congress detailed recommendations on technical and conforming amendments to Federal law necessary to carry out this subtitle and the amendments made by this subtitle.

SEC. 1273. TRANSFER OF RESOURCES.

All books and records that relate primarily to the functions transferred to the Commission under this subtitle shall be transferred from the Securities and Exchange Commission to the Commission.

SEC. 1274. EFFECTIVE DATE.

(a) In General.—Except for section 1272 (relating to implementation), this subtitle shall take effect 12 months after the date of enactment of this subtitle.

(b) Compliance With Certain Rules.—If the Commission approves and makes effective any final rule-making modifying the standards of conduct governing en-
tities that own, operate, or control facilities for trans-
mission of electricity in interstate commerce or transpor-
tation of natural gas in interstate commerce prior to the
effective date of this subtitle, any action taken by a public-
utility company or utility holding company to comply with
the requirements of such rulemaking shall not subject
such public-utility company or utility holding company to
any regulatory requirement applicable to a holding com-
pany under the Public Utility Holding Company Act of

SEC. 1275. SERVICE ALLOCATION.

(a) FERC Review.—In the case of non-power goods
or administrative or management services provided by an
associate company organized specifically for the purpose
of providing such goods or services to any public utility
in the same holding company system, at the election of
the system or a State commission having jurisdiction over
the public utility, the Commission, after the effective date
of this subtitle, shall review and authorize the allocation
of the costs for such goods or services to the extent rel-
evant to that associate company in order to assure that
each allocation is appropriate for the protection of inves-
tors and consumers of such public utility.

(b) Cost Allocation.—Nothing in this section shall
preclude the Commission or a State commission from exer-
cising its jurisdiction under other applicable law with re-
pect to the review or authorization of any costs allocated
to a public utility in a holding company system located
in the affected State as a result of the acquisition of non-
power goods or administrative and management services
by such public utility from an associate company orga-
nized specifically for that purpose.

(c) Rules.—Not later than 6 months after the date
of enactment of this Act, the Commission shall issue rules
(which rules shall be effective no earlier than the effective
date of this subtitle) to exempt from the requirements of
this section any company in a holding company system
whose public utility operations are confined substantially
to a single State and any other class of transactions that
the Commission finds is not relevant to the jurisdictional
rates of a public utility.

(d) Public Utility.—As used in this section, the
term “public utility” has the meaning given that term in
section 201(e) of the Federal Power Act.

SEC. 1276. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such funds
as may be necessary to carry out this subtitle.
SEC. 1277. CONFORMING AMENDMENTS TO THE FEDERAL POWER ACT.

(a) CONFLICT OF JURISDICTION.—Section 318 of the Federal Power Act (16 U.S.C. 825q) is repealed.

(b) DEFINITIONS.—(1) Section 201(g)(5) of the Federal Power Act (16 U.S.C. 824(g)(5)) is amended by striking “1935” and inserting “2005”.

(2) Section 214 of the Federal Power Act (16 U.S.C. 824m) is amended by striking “1935” and inserting “2005”.

Subtitle G—Market Transparency, Enforcement, and Consumer Protection

SEC. 1281. MARKET TRANSPARENCY RULES.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 220. MARKET TRANSPARENCY RULES.

“(a) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Commission shall issue rules establishing an electronic information system to provide the Commission and the public with access to such information as is necessary or appropriate to facilitate price transparency and participation in markets subject to the Commission’s jurisdiction under this Act. Such systems shall provide information about the availability and market price of wholesale electric energy and
transmission services to the Commission, State commissions, buyers and sellers of wholesale electric energy, users of transmission services, and the public on a timely basis. The Commission shall have authority to obtain such information from any electric utility or transmitting utility, including any entity described in section 201(f).

“(b) EXEMPTIONS.—The Commission shall exempt from disclosure information it determines would, if disclosed, be detrimental to the operation of an effective market or jeopardize system security. This section shall not apply to transactions for the purchase or sale of wholesale electric energy or transmission services within the area described in section 212(k)(2)(A). In determining the information to be made available under this section and time to make such information available, the Commission shall seek to ensure that consumers and competitive markets are protected from the adverse effects of potential collusion or other anti-competitive behaviors that can be facilitated by untimely public disclosure of transaction-specific information.

“(c) COMMODITY FUTURES TRADING COMMISSION.—This section shall not affect the exclusive jurisdiction of the Commodity Futures Trading Commission with respect to accounts, agreements, contracts, or transactions
in commodities under the Commodity Exchange Act (7 U.S.C. 1 et seq.).

“(d) SAVINGS PROVISION.—In exercising its authority under this section, the Commission shall not—

“(1) compete with, or displace from the market place, any price publisher; or

“(2) regulate price publishers or impose any requirements on the publication of information.”.

SEC. 1282. MARKET MANIPULATION.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 221. PROHIBITION ON FILING FALSE INFORMATION.

“No person or other entity (including an entity described in section 201(f)) shall willfully and knowingly report any information relating to the price of electricity sold at wholesale or availability of transmission capacity, which information the person or any other entity knew to be false at the time of the reporting, to a Federal agency with intent to fraudulently affect the data being compiled by such Federal agency.

SEC. 222. PROHIBITION ON ROUND TRIP TRADING.

“(a) PROHIBITION.—No person or other entity (including an entity described in section 201(f)) shall willfully and knowingly enter into any contract or other arrange-
ment to execute a ‘round trip trade’ for the purchase or
sale of electric energy at wholesale.

“(b) DEFINITION.—For the purposes of this section, the term ‘round trip trade’ means a transaction, or com-

bination of transactions, in which a person or any other
entity—

“(1) enters into a contract or other arrange-
ment to purchase from, or sell to, any other person
or other entity electric energy at wholesale;

“(2) simultaneously with entering into the con-
tract or arrangement described in paragraph (1), ar-
ranges a financially offsetting trade with such other
person or entity for the same such electric energy, at
the same location, price, quantity and terms so
that, collectively, the purchase and sale transactions
in themselves result in no financial gain or loss; and

“(3) enters into the contract or arrangement
with a specific intent to fraudulently affect reported
revenues, trading volumes, or prices.”.

SEC. 1283. ENFORCEMENT.

(a) COMPLAINTS.—Section 306 of the Federal Power
Act (16 U.S.C. 825e) is amended as follows:

(1) By inserting “electric utility,” after “Any
person,”.
(2) By inserting “, transmitting utility,” after “licensee” each place it appears.

(b) REVIEW OF COMMISSION ORDERS.—Section 313(a) of the Federal Power Act (16 U.S.C. 8251) is amended by inserting “electric utility,” after “person,” in the first 2 places it appears and by striking “any person unless such person” and inserting “any entity unless such entity”.

(e) INVESTIGATIONS.—Section 307(a) of the Federal Power Act (16 U.S.C. 825f(a)) is amended as follows:

(1) By inserting “, electric utility, transmitting utility, or other entity” after “person” each time it appears.

(2) By striking the period at the end of the first sentence and inserting the following: “or in obtaining information about the sale of electric energy at wholesale in interstate commerce and the transmission of electric energy in interstate commerce.”.

(d) CRIMINAL PENALTIES.—Section 316 of the Federal Power Act (16 U.S.C. 825o) is amended—

(1) in subsection (a), by striking “$5,000” and inserting “$1,000,000”, and by striking “two years” and inserting “5 years”;

(2) in subsection (b), by striking “$500” and inserting “$25,000”; and
(3) by striking subsection (e).

(e) CIVIL PENALTIES.—Section 316A of the Federal Power Act (16 U.S.C. 825o–1) is amended as follows:

(1) In subsections (a) and (b), by striking “section 211, 212, 213, or 214” each place it appears and inserting “Part II”.

(2) In subsection (b), by striking “$10,000” and inserting “$1,000,000”.

SEC. 1284. REFUND EFFECTIVE DATE.

Section 206(b) of the Federal Power Act (16 U.S.C. 824e(b)) is amended as follows:

(1) By striking “the date 60 days after the filing of such complaint nor later than 5 months after the expiration of such 60-day period” in the second sentence and inserting “the date of the filing of such complaint nor later than 5 months after the filing of such complaint”.

(2) By striking “60 days after” in the third sentence and inserting “of”.

(3) By striking “expiration of such 60-day period” in the third sentence and inserting “publication date”.

(4) By striking the fifth sentence and inserting the following: “If no final decision is rendered by the conclusion of the 180-day period commencing upon
initiation of a proceeding pursuant to this section, the Commission shall state the reasons why it has failed to do so and shall state its best estimate as to when it reasonably expects to make such decision.”.

SEC. 1285. REFUND AUTHORITY.

Section 206 of the Federal Power Act (16 U.S.C. 824e) is amended by adding the following new subsection at the end thereof:

“(e)(1) Except as provided in paragraph (2), if an entity described in section 201(f) voluntarily makes a short-term sale of electric energy and the sale violates Commission rules in effect at the time of the sale, such entity shall be subject to the Commission’s refund authority under this section with respect to such violation.

“(2) This section shall not apply to—

“(A) any entity that sells less than 8,000,000 megawatt hours of electricity per year; or

“(B) any electric cooperative.

“(3) For purposes of this subsection, the term ‘short-term sale’ means an agreement for the sale of electric energy at wholesale in interstate commerce that is for a period of 31 days or less (excluding monthly contracts subject to automatic renewal).
“(4) The Commission shall have refund authority under subsection (e)(1) with respect to a voluntary short-term sale of electric energy by the Bonneville Power Administration (in this section ‘Bonneville’) only if the sale is at an unjust and unreasonable rate and, in that event, may order a refund only for short-term sales made by Bonneville at rates that are higher than the highest just and reasonable rate charged by any other entity for a short-term sale of electric energy in the same geographic market for the same, or most nearly comparable, period as the sale by Bonneville.

“(5) With respect to any Federal power marketing agency or the Tennessee Valley Authority, the Commission shall not assert or exercise any regulatory authority or powers under subsection (e)(1) other than the ordering of refunds to achieve a just and reasonable rate.”.

SEC. 1286. SANCTITY OF CONTRACT.

(a) IN GENERAL.—The Federal Energy Regulatory Commission (in this section, “the Commission”) shall have no authority to abrogate or modify any provision of an executed contract or executed contract amendment described in subsection (b) that has been entered into or taken effect, except upon a finding that failure to take such action would be contrary to the public interest.
(b) LIMITATION.—Except as provided in subsection (c), this section shall apply only to a contract or contract amendment—

(1) executed on or after the date of enactment of this Act; and

(2) entered into—

(A) for the purchase or sale of electric energy under section 205 of the Federal Power Act (16 U.S.C. 824d) where the seller has been authorized by the Commission to charge market-based rates; or

(B) under section 4 of the Natural Gas Act (15 U.S.C. 717c) where the natural gas company has been authorized by the Commission to charge market-based rates for the service described in the contract.

(c) EXCLUSION.—This section shall not apply to an executed contract or executed contract amendment that expressly provides for a standard of review other than the public interest standard.

(d) SAVINGS PROVISION.—With respect to contracts to which this section does not apply, nothing in this section alters existing law regarding the applicable standard of review for a contract subject to the jurisdiction of the Commission.
SEC. 1287. CONSUMER PRIVACY AND UNFAIR TRADE PRACTICES.

(a) Privacy.—The Federal Trade Commission may issue rules protecting the privacy of electric consumers from the disclosure of consumer information obtained in connection with the sale or delivery of electric energy to electric consumers.

(b) Slamming.—The Federal Trade Commission may issue rules prohibiting the change of selection of an electric utility except with the informed consent of the electric consumer or if approved by the appropriate State regulatory authority.

(c) Cramming.—The Federal Trade Commission may issue rules prohibiting the sale of goods and services to an electric consumer unless expressly authorized by law or the electric consumer.

(d) Rulemaking.—The Federal Trade Commission shall proceed in accordance with section 553 of title 5, United States Code, when prescribing a rule under this section.

(e) State Authority.—If the Federal Trade Commission determines that a State’s regulations provide equivalent or greater protection than the provisions of this section, such State regulations shall apply in that State in lieu of the regulations issued by the Commission under this section.
(f) Definitions.—For purposes of this section:

(1) State regulatory authority.—The term “State regulatory authority” has the meaning given that term in section 3(21) of the Federal Power Act (16 U.S.C. 796(21)).

(2) Electric consumer and electric utility.—The terms “electric consumer” and “electric utility” have the meanings given those terms in section 3 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602).

Subtitle H—Merger Reform

Sec. 1291. Merger Review Reform and Accountability.

(a) Merger Review Reform.—Within 180 days after the date of enactment of this Act, the Secretary of Energy, in consultation with the Federal Energy Regulatory Commission and the Attorney General of the United States, shall prepare, and transmit to Congress each of the following:

(1) A study of the extent to which the authorities vested in the Federal Energy Regulatory Commission under section 203 of the Federal Power Act are duplicative of authorities vested in—

(A) other agencies of Federal and State Government; and
(B) the Federal Energy Regulatory Commission, including under sections 205 and 206 of the Federal Power Act.

(2) Recommendations on reforms to the Federal Power Act that would eliminate any unnecessary duplication in the exercise of regulatory authority or unnecessary delays in the approval (or disapproval) of applications for the sale, lease, or other disposition of public utility facilities.

(b) Merger Review Accountability.—Not later than 1 year after the date of enactment of this Act and annually thereafter, with respect to all orders issued within the preceding year that impose a condition on a sale, lease, or other disposition of public utility facilities under section 203(b) of the Federal Power Act, the Federal Energy Regulatory Commission shall transmit a report to Congress explaining each of the following:

(1) The condition imposed.

(2) Whether the Commission could have imposed such condition by exercising its authority under any provision of the Federal Power Act other than under section 203(b).

(3) If the Commission could not have imposed such condition other than under section 203(b), why
the Commission determined that such condition was consistent with the public interest.

SEC. 1292. ELECTRIC UTILITY MERGERS.

(a) AMENDMENT.—Section 203(a) of the Federal Power Act (16 U.S.C. 824b(a)) is amended to read as follows:

“(a)(1) No public utility shall, without first having secured an order of the Commission authorizing it to do so—

“(A) sell, lease, or otherwise dispose of the whole of its facilities subject to the jurisdiction of the Commission, or any part thereof of a value in excess of $10,000,000;

“(B) merge or consolidate, directly or indirectly, such facilities or any part thereof with those of any other person, by any means whatsoever; or

“(C) purchase, acquire, or take any security with a value in excess of $10,000,000 of any other public utility.

“(2) No holding company in a holding company system that includes a public utility shall purchase, acquire, or take any security with a value in excess of $10,000,000 of, or, by any means whatsoever, directly or indirectly, merge or consolidate with, a public utility or a holding company in a holding company system that includes a
public utility with a value in excess of $10,000,000 without first having secured an order of the Commission authorizing it to do so.

“(3) Upon receipt of an application for such approval the Commission shall give reasonable notice in writing to the Governor and State commission of each of the States in which the physical property affected, or any part thereof, is situated, and to such other persons as it may deem advisable.

“(4) After notice and opportunity for hearing, the Commission shall approve the proposed disposition, consolidation, acquisition, or change in control, if it finds that the proposed transaction will be consistent with the public interest. In evaluating whether a transaction will be consistent with the public interest, the Commission shall consider whether the proposed transaction—

“(A) will adequately protect consumer interests;

“(B) will be consistent with competitive wholesale markets;

“(C) will impair the financial integrity of any public utility that is a party to the transaction or an associate company of any party to the transaction; and

“(D) satisfies such other criteria as the Commission considers consistent with the public interest.
“(5) The Commission shall, by rule, adopt procedures for the expeditious consideration of applications for the approval of dispositions, consolidations, or acquisitions under this section. Such rules shall identify classes of transactions, or specify criteria for transactions, that normally meet the standards established in paragraph (4). The Commission shall provide expedited review for such transactions. The Commission shall grant or deny any other application for approval of a transaction not later than 180 days after the application is filed. If the Commission does not act within 180 days, such application shall be deemed granted unless the Commission finds, based on good cause, that further consideration is required to determine whether the proposed transaction meets the standards of paragraph (4) and issues an order tolling the time for acting on the application for not more than 180 days, at the end of which additional period the Commission shall grant or deny the application.

“(6) For purposes of this subsection, the terms ‘associate company’, ‘holding company’, and ‘holding company system’ have the meaning given those terms in the Public Utility Holding Company Act of 2005.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect 12 months after the date of enactment of this section.
Subtitle I—Definitions

SEC. 1295. DEFINITIONS.

(a) Electric Utility.—Section 3(22) of the Federal Power Act (16 U.S.C. 796(22)) is amended to read as follows:

“(22) Electric utility.—The term ‘electric utility’ means any person or Federal or State agency (including any entity described in section 201(f)) that sells electric energy; such term includes the Tennessee Valley Authority and each Federal power marketing administration.”.

(b) Transmitting Utility.—Section 3(23) of the Federal Power Act (16 U.S.C. 796(23)) is amended to read as follows:

“(23) Transmitting utility.—The term ‘transmitting utility’ means an entity, including any entity described in section 201(f), that owns, operates, or controls facilities used for the transmission of electric energy—

“(A) in interstate commerce; or

“(B) for the sale of electric energy at wholesale.”.

(c) Additional Definitions.—Section 3 of the Federal Power Act (16 U.S.C. 796) is amended by adding at the end the following:
“(26) ELECTRIC COOPERATIVE.—The term ‘electric cooperative’ means a cooperatively owned electric utility.

“(27) RTO.—The term ‘Regional Transmission Organization’ or ‘RTO’ means an entity of sufficient regional scope approved by the Commission to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce and to ensure nondiscriminatory access to such facilities.

“(28) ISO.—The term ‘Independent System Operator’ or ‘ISO’ means an entity approved by the Commission to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce and to ensure nondiscriminatory access to such facilities.”.

(d) COMMISSION.—For the purposes of this title, the term “Commission” means the Federal Energy Regulatory Commission.

(e) APPLICABILITY.—Section 201(f) of the Federal Power Act (16 U.S.C. 824(f)) is amended by adding after “political subdivision of a state,” the following: “an electric cooperative that has financing under the Rural Electrification Act of 1936 (7 U.S.C. 901 et seq.) or that sells
less than 4,000,000 megawatt hours of electricity per year,”.

Subtitle J—Technical and Conforming Amendments

SEC. 1297. CONFORMING AMENDMENTS.

The Federal Power Act is amended as follows:

(1) Section 201(b)(2) of such Act (16 U.S.C. 824(b)(2)) is amended as follows:

(A) In the first sentence by striking “210, 211, and 212” and inserting “203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222”.

(B) In the second sentence by striking “210 or 211” and inserting “203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222”.

(C) Section 201(b)(2) of such Act is amended by striking “The” in the first place it appears and inserting “Notwithstanding section 201(f), the” and in the second sentence after “any order” by inserting “or rule”.

(2) Section 201(e) of such Act is amended by striking “210, 211, or 212” and inserting “206(e), 206(f), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222”.
(3) Section 206 of such Act (16 U.S.C. 824e) is amended as follows:

(A) In subsection (b), in the seventh sentence, by striking “the public utility to make”.

(B) In the first sentence of subsection (a), by striking “hearing had” and inserting “hearing held”.

(4) Section 211(c) of such Act (16 U.S.C. 824j(c)) is amended by—

(A) striking “(2)”;

(B) striking “(A)” and inserting “(1)”;

(C) striking “(B)” and inserting “(2)”;

and

(D) striking “termination of modification” and inserting “termination or modification”.

(5) Section 211(d)(1) of such Act (16 U.S.C. 824j(d)(1)) is amended by striking “electric utility” the second time it appears and inserting “transmitting utility”.

(6) Section 315 (c) of such Act (16 U.S.C. 825n(c)) is amended by striking “subsection” and inserting “section”.

•HR 6 IH
Subtitle K—Economic Dispatch

SEC. 1298. ECONOMIC DISPATCH.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 223. JOINT BOARD ON ECONOMIC DISPATCH.

“(a) IN GENERAL.—The Commission shall convene a joint board pursuant to section 209 of this Act to study the issue of security constrained economic dispatch for a market region.

“(b) MEMBERSHIP.—The Commission shall request each State to nominate a representative for such joint board.

“(c) POWERS.—The board’s sole authority shall be to consider issues relevant to what constitutes ‘security constrained economic dispatch’ and how such a mode of operating an electric energy system affects or enhances the reliability and affordability of service to customers.

“(d) REPORT TO THE CONGRESS.—The board shall issue a report on these matters within one year of enactment of this section, including any consensus recommendations for statutory or regulatory reform.”.

•HR 6 IH
TITLE XIII—ENERGY TAX INCENTIVES

SEC. 1300. SHORT TITLE; ETC.

(a) SHORT TITLE.—This title may be cited as the “Enhanced Energy Infrastructure and Technology Tax Act of 2005”.

(b) AMENDMENT OF 1986 CODE.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

Subtitle A—Energy Infrastructure Tax Incentives

SEC. 1301. NATURAL GAS GATHERING LINES TREATED AS 7-YEAR PROPERTY.

(a) IN GENERAL.—Subparagraph (C) of section 168(e)(3) (relating to classification of certain property) is amended by striking “and” at the end of clause (iii), by redesignating clause (iv) as clause (v), and by inserting after clause (iii) the following new clause:

“(iv) any natural gas gathering line, and”.

•HR 6 IH
(b) NATURAL GAS GATHERING LINE.—Subsection (i) of section 168 is amended by inserting after paragraph (16) the following new paragraph:

“(17) NATURAL GAS GATHERING LINE.—The term ‘natural gas gathering line’ means—

“(A) the pipe, equipment, and appurtenances determined to be a gathering line by the Federal Energy Regulatory Commission, and

“(B) the pipe, equipment, and appurtenances used to deliver natural gas from the wellhead or a commonpoint to the point at which such gas first reaches—

“(i) a gas processing plant,

“(ii) an interconnection with a transmission pipeline for which a certificate as an interstate transmission pipeline has been issued by the Federal Energy Regulatory Commission,

“(iii) an interconnection with an intrastate transmission pipeline, or

“(iv) a direct interconnection with a local distribution company, a gas storage facility, or an industrial consumer.”.
(c) **ALTERNATIVE SYSTEM.**—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (C)(iii) the following:

“(C) (iv) ................................................................. 14”.

(d) **ALTERNATIVE MINIMUM TAX EXCEPTION.**—Subparagraph (B) of section 56(a)(1) is amended by inserting before the period the following: “, or in section 168(e)(3)(C)(iv)”.

(e) **EFFECTIVE DATE.**—The amendments made by this section shall apply to property placed in service after April 11, 2005.

**SEC. 1302. NATURAL GAS DISTRIBUTION LINES TREATED AS 15-YEAR PROPERTY.**

(a) **IN GENERAL.**—Subparagraph (E) of section 168(e)(3) (relating to classification of certain property) is amended by striking “and” at the end of clause (v), by striking the period at the end of clause (vi) and inserting “, and”, and by adding at the end the following new clause:

“(vii) any natural gas distribution line.”.

(b) **ALTERNATIVE SYSTEM.**—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (E)(vi) the following:

“(E) (vii) ................................................................................................... 35”.

**HR 6 IH**
(c) Effective Date.—The amendments made by this section shall apply to property placed in service after April 11, 2005.

SEC. 1303. ELECTRIC TRANSMISSION PROPERTY TREATED AS 15-YEAR PROPERTY.

(a) In General.—Subparagraph (E) of section 168(e)(3) (relating to classification of certain property), as amended by section 1302 of this title, is amended by striking “and” at the end of clause (vi), by striking the period at the end of clause (vii) and inserting “, and”, and by adding at the end the following new clause:

“(viii) any section 1245 property (as defined in section 1245(a)(3)) used in the transmission at 69 or more kilovolts of electricity for sale and the original use of which commences with the taxpayer after April 11, 2005.”.

(b) Alternative System.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (E)(vii) the following:

“(E) (viii) .................................................................................................. 30”.

(c) Effective Date.—The amendments made by this section shall apply to property placed in service after April 11, 2005.
SEC. 1304. EXPANSION OF AMORTIZATION FOR CERTAIN
ATMOSPHERIC POLLUTION CONTROL FACILITIES IN CONNECTION WITH PLANTS FIRST PLACED IN SERVICE AFTER 1975.

(a) Eligibility of Post-1975 Pollution Control Facilities.—Subsection (d) of section 169 (relating to definitions) is amended by adding at the end the following:

“(5) Special rule relating to certain atmospheric pollution control facilities.—In the case of any atmospheric pollution control facility which is placed in service after April 11, 2005, and used in connection with an electric generation plant or other property which is primarily coal fired, paragraph (1) shall be applied without regard to the phrase ‘in operation before January 1, 1976’.”.

(b) Treatment as New Identifiable Treatment Facility.—Subparagraph (B) of section 169(d)(4) is amended to read as follows:

“(B) Certain facilities placed in operation after April 11, 2005.—In the case of any facility described in paragraph (1) solely by reason of paragraph (5), subparagraph (A) shall be applied by substituting ‘April 11, 2005’ for ‘December 31, 1968’ each place it appears therein.”.
(c) Technical Amendment.—Section 169(d)(3) is amended by striking “Health, Education, and Welfare” and inserting “Health and Human Services”.

(d) Effective Date.—The amendments made by this section shall apply to facilities placed in service after April 11, 2005.

SEC. 1305. Modification of Credit for Producing Fuel from a Nonconventional Source.

(a) Treatment as Business Credit.—

(1) Credit moved to subpart relating to business related credits.—The Internal Revenue Code of 1986 is amended by redesignating section 29 as section 45J and by moving section 45J (as so redesignated) from subpart B of part IV of subchapter A of chapter 1 to the end of subpart D of part IV of subchapter A of chapter 1.

(2) Credit treated as business credit.—Section 38(b) is amended by striking “plus” at the end of paragraph (18), by striking the period at the end of paragraph (19) and inserting “, plus”, and by adding at the end the following:

“(20) the nonconventional source production credit determined under section 45J(a).”.

(3) Conforming amendments.—
(A) Section 30(b)(3)(A) is amended by striking “sections 27 and 29” and inserting “section 27”.

(B) Sections 43(b)(2), 45I(b)(2)(C)(i), and 613A(c)(6)(C) are each amended by striking “section 29(d)(2)(C)” and inserting “section 45J(d)(2)(C)”.

(C) Section 45(c)(9) is amended—

(i) by striking “section 29” and inserting “section 45J”, and

(ii) by inserting “(or under section 29, as in effect on the day before the date of enactment of the Enhanced Energy Infrastructure and Technology Tax Act of 2005, for any prior taxable year)” before the period at the end thereof.

(D) Section 45I is amended—

(i) in subsection (c)(2)(A) by striking “section 29(d)(5))” and inserting “section 45J(d)(5))”, and

(ii) in subsection (d)(3) by striking “section 29” both places it appears and inserting “section 45J”.

(E) Section 45J(a), as redesignated by paragraph (1), is amended by striking “There
shall be allowed as a credit against the tax im-
posed by this chapter for the taxable year” and
inserting “For purposes of section 38, if the
taxpayer elects to have this section apply, the
nonconventional source production credit deter-
dined under this section for the taxable year
is”.

(F) Section 45J(b), as so redesignated, is
amended by striking paragraph (6).

(G) Section 53(d)(1)(B)(iii) is amended by
striking “under section 29” and all that follows
through “or not allowed”.

(H) Section 55(e)(3) is amended by strik-
ing “29(b)(6),”.

(I) Subsection (a) of section 772 is amend-
ed by inserting “and” at the end of paragraph
(9), by striking paragraph (10), and by redesig-
nating paragraph (11) as paragraph (10).

(J) Paragraph (5) of section 772(d) is
amended by striking “the foreign tax credit,
and the credit allowable under section 29” and
inserting “and the foreign tax credit”.

(K) The table of sections for subpart B of
part IV of subchapter A of chapter 1 is amend-
ed by striking the item relating to section 29.
(L) The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 45I the following new item:

“Sec. 45J. Credit for producing fuel from a nonconventional source.”.

(b) Amendments Conforming to the Repeal of the Natural Gas Policy Act of 1978.—

(1) In general.—Section 29(c)(2)(A) (before redesignation under subsection (a)) is amended—

(A) by inserting “(as in effect before the repeal of such section)” after “1978”, and

(B) by striking subsection (e) and redesignating subsections (f) and (g) as subsections (e) and (f), respectively.

(2) Conforming Amendments.—Section 29(g)(1)(before redesignation under subsection (a) and paragraph (1) of this subsection) is amended—

(A) in subparagraph (A) by striking “subsection (f)(1)(B)” and inserting “subsection (e)(1)(B)”, and

(B) in subparagraph (B) by striking “subsection (f)” and inserting “subsection (e)”.

(e) Effective Dates.—

(1) In general.—Except as provided in paragraph (2), the amendments made by this section shall apply to credits determined under the Internal

(2) SUBSECTION (b).—The amendments made by subsection (b) shall take effect on the date of the enactment of this Act.

SEC. 1306. MODIFICATIONS TO SPECIAL RULES FOR NUCLEAR DECOMMISSIONING COSTS.

(a) REPEAL OF LIMITATION ON DEPOSITS INTO FUND BASED ON COST OF SERVICE; CONTRIBUTIONS AFTER FUNDING PERIOD.—Subsection (b) of section 468A (relating to special rules for nuclear decommissioning costs) is amended to read as follows:

“(b) LIMITATION ON AMOUNTS PAID INTO FUND.—The amount which a taxpayer may pay into the Fund for any taxable year shall not exceed the ruling amount applicable to such taxable year.”.

(b) TREATMENT OF CERTAIN DECOMMISSIONING COSTS.—

(1) IN GENERAL.—Section 468A is amended by redesignating subsections (f) and (g) as subsections (g) and (h), respectively, and by inserting after subsection (e) the following new subsection:

“(f) TRANSFERS INTO QUALIFIED FUNDS.—

“(1) IN GENERAL.—Notwithstanding subsection (b), any taxpayer maintaining a Fund to which this
section applies with respect to a nuclear power plant
may transfer into such Fund not more than an
amount equal to the present value of the portion of
the total nuclear decommissioning costs with respect
to such nuclear power plant previously excluded for
such nuclear power plant under subsection (d)(2)(A)
as in effect immediately before the date of the enact-
ment of the Enhanced Energy Infrastructure and

“(2) DEDUCTION FOR AMOUNTS TRANS-
FERRED.—

“(A) IN GENERAL.—Except as provided in
subsection (a) for any transfer permitted by
this subsection shall be allowed ratably over the
remaining estimated useful life (within the
meaning of subsection (d)(2)(A)) of the nuclear
power plant beginning with the taxable year
during which the transfer is made.

“(B) DENIAL OF DEDUCTION FOR PRE-
VIOUSLY DEDUCTED AMOUNTS.—No deduction
shall be allowed for any transfer under this sub-
section of an amount for which a deduction was
previously allowed to the taxpayer (or a prede-
cessor) or a corresponding amount was not in-
cluded in gross income of the taxpayer (or a predecessor). For purposes of the preceding sentence, a ratable portion of each transfer shall be treated as being from previously deducted or excluded amounts to the extent thereof.

“(C) Transfers of qualified funds.—

If—

“(i) any transfer permitted by this subsection is made to any Fund to which this section applies, and

“(ii) such Fund is transferred thereafter,

any deduction under this subsection for taxable years ending after the date that such Fund is transferred shall be allowed to the transferor for the taxable year which includes such date.

“(D) Special rules.—

“(i) Gain or loss not recognized on transfers to fund.—No gain or loss shall be recognized on any transfer described in paragraph (1).

“(ii) Transfers of appreciated property to fund.—If appreciated property is transferred in a transfer described
in paragraph (1), the amount of the deduction shall not exceed the adjusted basis of such property.

“(3) NEW RULING AMOUNT REQUIRED.—Paragraph (1) shall not apply to any transfer unless the taxpayer requests from the Secretary a new schedule of ruling amounts in connection with such transfer.

“(4) NO BASIS IN QUALIFIED FUNDS.—Notwithstanding any other provision of law, the taxpayer’s basis in any Fund to which this section applies shall not be increased by reason of any transfer permitted by this subsection.”.

(2) NEW RULING AMOUNT TO TAKE INTO ACCOUNT TOTAL COSTS.—Subparagraph (A) of section 468A(d)(2) (defining ruling amount) is amended to read as follows:

“(A) fund the total nuclear decommissioning costs with respect to such power plant over the estimated useful life of such power plant, and”.

(c) TECHNICAL AMENDMENTS.—Section 468A(e)(2) (relating to taxation of Fund) is amended—

(1) by striking “rate set forth in subparagraph (B)” in subparagraph (A) and inserting “rate of 20 percent”,

•HR 6 IH
(2) by striking subparagraph (B), and
(3) by redesignating subparagraphs (C) and (D) as subparagraphs (B) and (C), respectively.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2005.

SEC. 1307. ARBITRAGE RULES NOT TO APPLY TO PREPAYMENTS FOR NATURAL GAS.

(a) IN GENERAL.—Subsection (b) of section 148 (relating to higher yielding investments) is amended by adding at the end the following new paragraph:

“(4) SAFE HARBOR FOR PREPAID NATURAL GAS.—

“(A) IN GENERAL.—The term ‘investment-type property’ does not include a prepayment under a qualified natural gas supply contract.

“(B) QUALIFIED NATURAL GAS SUPPLY CONTRACT.—For purposes of this paragraph, the term ‘qualified natural gas supply contract’ means any contract to acquire natural gas for resale by a utility owned by a governmental unit if the amount of gas permitted to be acquired under the contract by the utility during any year does not exceed the sum of—
“(i) the annual average amount during the testing period of natural gas purchased (other than for resale) by customers of such utility who are located within the service area of such utility, and

“(ii) the amount of natural gas to be used to transport the prepaid natural gas to the utility during such year.

“(C) NATURAL GAS USED TO GENERATE ELECTRICITY.—Natural gas used to generate electricity shall be taken into account in determining the average under subparagraph (B)(i)—

“(i) only if the electricity is generated by a utility owned by a governmental unit, and

“(ii) only to the extent that the electricity is sold (other than for resale) to customers of such utility who are located within the service area of such utility.

“(D) ADJUSTMENTS FOR CHANGES IN CUSTOMER BASE.—

“(i) NEW BUSINESS CUSTOMERS.—

If—
“(I) after the close of the testing period and before the date of issuance of the issue, the utility owned by a governmental unit enters into a contract to supply natural gas (other than for resale) for a business use at a property within the service area of such utility, and

“(II) the utility did not supply natural gas to such property during the testing period or the ratable amount of natural gas to be supplied under the contract is significantly greater than the ratable amount of gas supplied to such property during the testing period,

then a contract shall not fail to be treated as a qualified natural gas supply contract by reason of supplying the additional natural gas under the contract referred to in subclause (I).

“(ii) LOST CUSTOMERS.—The average under subparagraph (B)(i) shall not exceed the annual amount of natural gas reasonably expected to be purchased (other than
for resale) by persons who are located
within the service area of such utility and
who, as of the date of issuance of the
issue, are customers of such utility.

“(E) RULING REQUESTS.—The Secretary
may increase the average under subparagraph
(B)(i) for any period if the utility owned by the
governmental unit establishes to the satisfaction
of the Secretary that, based on objective evi-
dence of growth in natural gas consumption or
population, such average would otherwise be in-
sufficient for such period.

“(F) ADJUSTMENT FOR NATURAL GAS
OTHERWISE ON HAND.—

“(i) IN GENERAL.—The amount oth-
erwise permitted to be acquired under the
contract for any period shall be reduced
by—

“(I) the applicable share of nat-
ural gas held by the utility on the
date of issuance of the issue, and

“(II) the natural gas (not taken
into account under subclause (I))
which the utility has a right to ac-
quire during such period (determined
as of the date of issuance of the
issue).

“(ii) APPLICABLE SHARE.—For pur-
poses of the clause (i), the term ‘applicable
share’ means, with respect to any period,
the natural gas allocable to such period if
the gas were allocated ratably over the pe-
riod to which the prepayment relates.

“(G) INTENTIONAL ACTS.—Subparagraph
(A) shall cease to apply to any issue if the util-
ity owned by the governmental unit engages in
any intentional act to render the volume of nat-
ural gas acquired by such prepayment to be in
excess of the sum of—

“(i) the amount of natural gas needed
(other than for resale) by customers of
such utility who are located within the
service area of such utility, and

“(ii) the amount of natural gas used
to transport such natural gas to the utility.

“(H) TESTING PERIOD.—For purposes of
this paragraph, the term ‘testing period’ means,
with respect to an issue, the most recent 5 cal-
endar years ending before the date of issuance
of the issue.
“(I) Service area.—For purposes of this paragraph, the service area of a utility owned by a governmental unit shall be comprised of—

“(i) any area throughout which such utility provided at all times during the testing period—

“(I) in the case of a natural gas utility, natural gas transmission or distribution services, and

“(II) in the case of an electric utility, electricity distribution services,

“(ii) any area within a county contiguous to the area described in clause (i) in which retail customers of such utility are located if such area is not also served by another utility providing natural gas or electricity services, as the case may be, and

“(iii) any area recognized as the service area of such utility under State or Federal law.”.

(b) Private Loan Financing Test Not to Apply to Prepayments for Natural Gas.—Paragraph (2) of section 141(c) (providing exceptions to the private loan financing test) is amended by striking “or” at the end of subparagraph (A), by striking the period at the end of
subparagraph (B) and inserting “, or”, and by adding at the end the following new subparagraph:

“(C) is a qualified natural gas supply contract (as defined in section 148(b)(4)).”.

(c) Exception for Qualified Electric and Natural Gas Supply Contracts.—Section 141(d) is amended by adding at the end the following new paragraph:

“(7) Exception for Qualified Electric and Natural Gas Supply Contracts.—The term ‘nongovernmental output property’ shall not include any contract for the prepayment of electricity or natural gas which is not investment property under section 148(b)(2)).”.

(d) Effective Date.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

SEC. 1308. DETERMINATION OF SMALL REFINER EXCEPTION TO OIL DEPLETION DEDUCTION.

(a) In General.—Paragraph (4) of section 613A(d) (relating to limitations on application of subsection (c)) is amended to read as follows:

“(4) Certain Refiners Excluded.—If the taxpayer or 1 or more related persons engages in the refining of crude oil, subsection (c) shall not apply
to the taxpayer for a taxable year if the average daily refinery runs of the taxpayer and such persons for the taxable year exceed 75,000 barrels. For purposes of this paragraph, the average daily refinery runs for any taxable year shall be determined by dividing the aggregate refinery runs for the taxable year by the number of days in the taxable year.”.

(b) Effective Date.—The amendment made by this section shall apply to taxable years ending after the date of the enactment of this Act.

Subtitle B—Miscellaneous Energy Tax Incentives

SEC. 1311. CREDIT FOR RESIDENTIAL ENERGY EFFICIENT PROPERTY.

(a) In General.—Subpart A of part IV of subchapter A of chapter 1 (relating to nonrefundable personal credits) is amended by inserting after section 25B the following new section:

“SEC. 25C. RESIDENTIAL ENERGY EFFICIENT PROPERTY.

“(a) Allowance of Credit.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—
“(1) 15 percent of the qualified solar water heating property expenditures made by the taxpayer during such year,

“(2) 15 percent of the qualified photovoltaic property expenditures made by the taxpayer during such year, and

“(3) 15 percent of the qualified fuel cell property expenditures made by the taxpayer during such year.

“(b) LIMITATIONS.—

“(1) MAXIMUM CREDIT.—

“(A) IN GENERAL.—The credit allowed under subsection (a) shall not exceed—

“(i) $2,000 for solar water heating property described in subsection (c)(1),

“(ii) $2,000 for photovoltaic property described in subsection (c)(2), and

“(iii) $500 for each 0.5 kilowatt of capacity of property described in subsection (c)(3).

“(B) PRIOR EXPENDITURES BY TAXPAYER ON SAME RESIDENCE TAKEN INTO ACCOUNT.—

In determining the amount of the credit allowed to a taxpayer with respect to any dwelling unit under this section, the dollar amounts under
clauses (i) and (ii) of subparagraph (A) with respect to each type of property described in such clauses shall be reduced by the credit allowed to the taxpayer under this section with respect to such type of property for all preceding taxable years with respect to such dwelling unit.

“(2) PROPERTY STANDARDS.—No credit shall be allowed under this section for an item of property unless—

“(A) the original use of such property commences with the taxpayer,

“(B) such property can be reasonably expected to remain in use for at least 5 years,

“(C) such property is installed on or in connection with a dwelling unit located in the United States and used as a residence by the taxpayer,

“(D) in the case of solar water heating property, such property is certified for performance by the non-profit Solar Rating and Certification Corporation or a comparable entity endorsed by the government of the State in which such property is installed, and

“(E) in the case of fuel cell property, such property meets the performance and quality
standards (if any) which have been prescribed by the Secretary by regulations (after consultation with the Secretary of Energy).

“(c) DEFINITIONS.—For purposes of this section—

“(1) QUALIFIED SOLAR WATER HEATING PROPERTY EXPENDITURE.—The term ‘qualified solar water heating property expenditure’ means an expenditure for property which uses solar energy to heat water for use in a dwelling unit.

“(2) QUALIFIED PHOTOVOLTAIC PROPERTY EXPENDITURE.—The term ‘qualified photovoltaic property expenditure’ means an expenditure for property which uses solar energy to generate electricity for use in a dwelling unit and which is not described in paragraph (1).

“(3) QUALIFIED FUEL CELL PROPERTY EXPENDITURE.—The term ‘qualified fuel cell property expenditure’ means an expenditure for any qualified fuel cell property (as defined in section 48(b)(1)).

“(d) SPECIAL RULES.—For purposes of this section—

“(1) SOLAR PANELS.—No expenditure relating to a solar panel or other property installed as a roof (or portion thereof) shall fail to be treated as property described in paragraph (1) or (2) of subsection
(c) solely because it constitutes a structural compo-
nent of the structure on which it is installed.

“(2) Swimming pools, etc., used as storage medium.—Expenditures which are properly al-
locable to a swimming pool, hot tub, or any other energy storage medium which has a function other than the function of such storage shall not be taken into account for purposes of this section.

“(3) Dollar amounts in case of joint occupancy.—In the case of any dwelling unit which is jointly occupied and used during any calendar year as a residence by 2 or more individuals, the fol-
lowing rules shall apply:

“(A) The amount of the credit allowable under subsection (a) by reason of expenditures made during such calendar year by any of such individuals with respect to such dwelling unit shall be determined by treating all of such indi-
viduals as 1 taxpayer whose taxable year is such calendar year.

“(B) There shall be allowable, with respect to such expenditures to each of such individ-
uals, a credit under subsection (a) for the taxable year in which such calendar year ends in an amount which bears the same ratio to the
amount determined under subparagraph (A) as the amount of such expenditures made by such individual during such calendar year bears to the aggregate of such expenditures made by all of such individuals during such calendar year.

“(C) Subparagraphs (A) and (B) shall be applied separately with respect to expenditures described in paragraphs (1), (2), and (3) of subsection (e).

“(4) Tenant-stockholder in cooperative housing corporation.—In the case of an individual who is a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in such section), such individual shall be treated as having made the individual’s tenant-stockholder’s proportionate share (as defined in section 216(b)(3)) of any expenditures of such corporation.

“(5) Condominiums.—

“(A) In general.—In the case of an individual who is a member of a condominium management association with respect to a condominium which the individual owns, such individual shall be treated as having made the individual’s proportionate share of any expenditures of such association.
“(B) CONDOMINIUM MANAGEMENT ASSOCIATION.—For purposes of this paragraph, the term ‘condominium management association’ means an organization which meets the requirements of paragraph (1) of section 528(c) (other than subparagraph (E) thereof) with respect to a condominium project substantially all of the units of which are used as residences.

“(6) ALLOCATION IN CERTAIN CASES.—If less than 80 percent of the use of an item is for nonbusiness purposes, only that portion of the expenditures for such item which is properly allocable to use for nonbusiness purposes shall be taken into account.

“(7) WHEN EXPENDITURE MADE; AMOUNT OF EXPENDITURE.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), an expenditure with respect to an item shall be treated as made when the original installation of the item is completed.

“(B) EXPENDITURES PART OF BUILDING CONSTRUCTION.—In the case of an expenditure in connection with the construction or reconstruction of a structure, such expenditure shall be treated as made when the original use of the
constructed or reconstructed structure by the taxpayer begins.

“(C) AMOUNT.—The amount of any expenditure shall be the cost thereof.

“(8) PROPERTY FINANCED BY SUBSIDIZED ENERGY FINANCING.—For purposes of determining the amount of expenditures made by any individual with respect to any dwelling unit, there shall not be taken into account expenditures which are made from subsidized energy financing (as defined in section 48(a)(4)(C)).

“(e) BASIS ADJUSTMENTS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

“(f) TERMINATION.—The credit allowed under this section shall not apply to taxable years beginning after December 31, 2007.”.

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a) is amended by striking “and” at the end of paragraph (30), by striking the period at the end of paragraph (31) and inserting “,
and”, and by adding at the end the following new paragraph:

“(32) to the extent provided in section 25C(e), in the case of amounts with respect to which a credit has been allowed under section 25C.”.

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 25B the following new item:

“Sec. 25C. Residential energy efficient property.”.

(c) Effective Date.—The amendments made by this section shall apply to expenditures made after the date of the enactment of this Act.

SEC. 1312. CREDIT FOR BUSINESS INSTALLATION OF QUALIFIED FUEL CELLS.

(a) In General.—Section 48(a)(3)(A) (defining energy property) is amended by striking “or” at the end of clause (i), by adding “or” at the end of clause (ii), and by inserting after clause (ii) the following new clause:

“(iii) qualified fuel cell property.”.

(b) Energy Percentage.—Subparagraph (A) of section 48(a)(2) (relating to energy percentage) is amended to read as follows:

“(A) In General.—The energy percentage is—
“(i) in the case of qualified fuel cell property, 15 percent, and

“(ii) in the case of any other energy property, 10 percent.”.

(c) QUALIFIED FUEL CELL PROPERTY.—Section 48 (relating to energy credit) is amended—

(1) by redesignating subsection (b) as paragraph (5) of subsection (a),

(2) by striking “subsection (a)” in paragraph (5) of subsection (a), as redesignated by paragraph (1), and inserting “this subsection”, and

(3) by adding at the end the following new subsection:

“(b) QUALIFIED FUEL CELL PROPERTY.—For purposes of subsection (a)(3)(A)(iii)—

“(1) IN GENERAL.—The term ‘qualified fuel cell property’ means a fuel cell power plant which—

“(A) generates at least 0.5 kilowatt of electricity using an electrochemical process, and

“(B) has an electricity-only generation efficiency greater than 30 percent.

“(2) LIMITATION.—The energy credit with respect to any qualified fuel cell property shall not exceed an amount equal to $500 for each 0.5 kilowatt of capacity of such property.
‘(3) FUEL CELL POWER PLANT.—The term ‘fuel cell power plant’ means an integrated system, comprised of a fuel cell stack assembly and associated balance of plant components, which converts a fuel into electricity using electrochemical means.

‘(4) TERMINATION.—The term ‘qualified fuel cell property’ shall not include any property placed in service after December 31, 2007.”.

(d) CONFORMING AMENDMENT.—Section 48(a)(1) is amended by inserting “except as provided in subsection (b)(2),” before “the energy” the first place it appears.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after April 11, 2005, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1313. REDUCED MOTOR FUEL EXCISE TAX ON CERTAIN MIXTURES OF DIESEL FUEL.

(a) IN GENERAL.—Paragraph (2) of section 4081(a) is amended by adding at the end the following:

“(D) DIESEL-WATER FUEL EMULSION.—In the case of diesel-water fuel emulsion at least 16.9 percent of which is water and with respect to which the emulsion additive is registered by
a United States manufacturer with the Environmental Protection Agency pursuant to section 211 of the Clean Air Act (as in effect on March 31, 2003), subparagraph (A)(iii) shall be applied by substituting ‘19.7 cents’ for ‘24.3 cents’.”.

(b) Special Rules for Diesel-Water Fuel Emulsions.—

(1) Refunds for Tax-Paid Purchases.—Section 6427 is amended by redesignating subsections (m) through (p) as subsections (n) through (q), respectively, and by inserting after subsection (l) the following new subsection:

“(m) Diesel Fuel Used to Produce Emulsion.—

“(1) In General.—Except as provided in subsection (k), if any diesel fuel on which tax was imposed by section 4081 at the regular tax rate is used by any person in producing an emulsion described in section 4081(a)(2)(D) which is sold or used in such person’s trade or business, the Secretary shall pay (without interest) to such person an amount equal to the excess of the regular tax rate over the incentive tax rate with respect to such fuel.
“(2) DEFINITIONS.—For purposes of paragraph
(1)—

“(A) REGULAR TAX RATE.—The term ‘regular tax rate’ means the aggregate rate of tax imposed by section 4081 determined without regard to section 4081(a)(2)(D).

“(B) INCENTIVE TAX RATE.—The term ‘incentive tax rate’ means the aggregate rate of tax imposed by section 4081 determined with regard to section 4081(a)(2)(D).”.

(2) LATER SEPARATION OF FUEL.—Section 4081 (relating to imposition of tax) is amended by inserting after subsection (b) the following new subsection:

“(c) LATER SEPARATION OF FUEL FROM DIESEL-WATER FUEL EMULSION.—If any person separates the taxable fuel from a diesel-water fuel emulsion on which tax was imposed under subsection (a) at a rate determined under subsection (a)(2)(D) (or with respect to which a credit or payment was allowed or made by reason of section 6427), such person shall be treated as the refiner of such taxable fuel. The amount of tax imposed on any removal of such fuel by such person shall be reduced by the amount of tax imposed (and not credited or refunded) on any prior removal or entry of such fuel.”.
(c) Effective Date.—The amendments made by this section shall take effect on January 1, 2006.

SEC. 1314. AMORTIZATION OF DELAY RENTAL PAYMENTS.

(a) In General.—Section 167 (relating to depreciation) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

“(h) Amortization of Delay Rental Payments for Domestic Oil and Gas Wells.—

“(1) In General.—Any delay rental payment paid or incurred in connection with the development of oil or gas wells within the United States (as defined in section 638) shall be allowed as a deduction ratably over the 24-month period beginning on the date that such payment was paid or incurred.

“(2) Half-Year Convention.—For purposes of paragraph (1), any payment paid or incurred during the taxable year shall be treated as paid or incurred on the mid-point of such taxable year.

“(3) Exclusive Method.—Except as provided in this subsection, no depreciation or amortization deduction shall be allowed with respect to such payments.

“(4) Treatment Upon Abandonment.—If any property to which a delay rental payment relates
is retired or abandoned during the 24-month period described in paragraph (1), no deduction shall be allowed on account of such retirement or abandonment and the amortization deduction under this subsection shall continue with respect to such payment.

“(5) Delay Rental Payments.—For purposes of this subsection, the term ‘delay rental payment’ means an amount paid for the privilege of deferring development of an oil or gas well under an oil or gas lease.”.

(b) Effective Date.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

SEC. 1315. AMORTIZATION OF GEOLOGICAL AND GEO-

PHYSICAL EXPENDITURES.

(a) In General.—Section 167 (relating to depreciation), as amended by section 1314 of this title, is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

“(i) Amortization of Geological and Geo-

physical Expenditures.—

“(1) In General.—Any geological and geo-

physical expenses paid or incurred in connection with the exploration for, or development of, oil or
gas within the United States (as defined in section 638) shall be allowed as a deduction ratably over the 24-month period beginning on the date that such expense was paid or incurred.

“(2) SPECIAL RULES.—For purposes of this subsection, rules similar to the rules of paragraphs (2), (3), and (4) of subsection (h) shall apply.”.

(b) CONFORMING AMENDMENT.—Section 263A(c)(3) is amended by inserting “167(h), 167(i),” after “under section”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

SEC. 1316. ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to other credits) is amended by adding at the end the following:

“SEC. 30B. ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE CREDIT.

“(a) ALLOWANCE OF CREDIT.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of the credit amounts determined under subsection (b) with re-
spect to each qualified advanced lean burn technology
motor vehicle placed in service by the taxpayer during the
taxable year.

“(b) CREDIT AMOUNT.—For purposes of subsection
(a)—

“(1) FUEL EFFICIENCY.—The credit amount
with respect to any vehicle shall be—

“(A) $500, if the city fuel economy of such
vehicle is at least 125 percent but less than 150
percent of the 2000 model year city fuel econ-
omy for a vehicle in the same inertia weight
class,

“(B) $1,000, if the city fuel economy of
such vehicle is at least 150 percent but less
than 175 percent of the 2000 model year city
fuel economy for a vehicle in the same inertia
weight class,

“(C) $1,500, if the city fuel economy of
such vehicle is at least 175 percent but less
than 200 percent of the 2000 model year city
fuel economy for a vehicle in the same inertia
weight class,

“(D) $2,000, if the city fuel economy of
such vehicle is at least 200 percent but less
than 225 percent of the 2000 model year city
fuel economy for a vehicle in the same inertia weight class,

“(E) $2,500, if the city fuel economy of such vehicle is at least 225 percent but less than 250 percent of the 2000 model year city fuel economy for a vehicle in the same inertia weight class, and

“(F) $3,000, if the city fuel economy of such vehicle is at least 250 percent of the 2000 model year city fuel economy for a vehicle in the same inertia weight class.

“(2) CONSERVATION.—The credit amount determined under paragraph (1) with respect to any vehicle shall be increased by—

“(A) $250, if the lifetime fuel savings of such vehicle is at least 1,500 gallons of motor fuel but less than 2,500 gallons of motor fuel, and

“(B) $500, if the lifetime fuel savings of such vehicle is at least 2,500 gallons of motor fuel.

“(c) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—
“(1) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over
“(2) the sum of the credits allowable under subpart A and sections 27 and 30A for the taxable year.
“(d) DEFINITIONS.—For purposes of this section—
“(1) QUALIFIED ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE.—The term ‘qualified advanced lean burn technology motor vehicle’ means a motor vehicle—
“(A) the original use of which commences with the taxpayer,
“(B) powered by an internal combustion engine that—
“(i) is designed to operate primarily using more air than is necessary for complete combustion of the fuel, and
“(ii) incorporates direct injection,
“(C) that only uses diesel fuel (as defined in section 4083(a)(3)),
“(D) the city fuel economy of which is at least 125 percent of the 2000 model year city fuel economy for a vehicle in the same inertia weight class, and
“(E) that has received a certificate that such vehicle meets or exceeds the Bin 8 Tier II emission level established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act.

“(2) LIFETIME FUEL SAVINGS.—The term ‘lifetime fuel savings’ means, with respect to a qualified advanced lean burn technology motor vehicle, an amount equal to the excess (if any) of—

“(A) 120,000 divided by the 2000 model year city fuel economy for the vehicle inertia weight class, over

“(B) 120,000 divided by the city fuel economy for such vehicle.

“(3) 2000 MODEL YEAR CITY FUEL ECONOMY.—The 2000 model year city fuel economy with respect to a vehicle shall be determined in accordance with the following tables:

“(A) In the case of a passenger automobile:

<table>
<thead>
<tr>
<th>Vehicle inertia weight</th>
<th>The 2000 model year city fuel economy is:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,500 or 1,750 lbs</td>
<td>43.7 mpg</td>
</tr>
<tr>
<td>2,000 lbs</td>
<td>38.3 mpg</td>
</tr>
<tr>
<td>2,250 lbs</td>
<td>34.1 mpg</td>
</tr>
<tr>
<td>2,500 lbs</td>

“(4) MOTOR VEHICLE.—The term ‘motor vehicle’ has the meaning given such term by section 30(e)(2).

“(5) CITY FUEL ECONOMY.—City fuel economy with respect to any vehicle shall be measured in accordance with testing and calculation procedures established by the Administrator of the Environmental Protection Agency by regulations in effect on April 11, 2005.

“(6) OTHER TERMS.—The terms ‘passenger automobile’, ‘light truck’, and ‘manufacturer’ shall have the meanings given such terms in regulations prescribed by the Administrator of the Environ-
mental Protection Agency for purposes of the admin-
istration of title II of the Clean Air Act (42 U.S.C.
7521 et seq.).

“(e) CARRYFORWARD ALLOWED.—

“(1) IN GENERAL.—If the credit amount allow-
able under subsection (a) for a taxable year exceeds
the amount of the limitation under subsection (c) for
such taxable year (referred to as the ‘unused credit
year’ in this paragraph), such excess shall be allowed
as a credit carryforward for each of the 20 taxable
years following the unused credit year.

“(2) RULES.—Rules similar to the rules of sec-
tion 39 shall apply with respect to the credit
carryforward under paragraph (1).

“(f) SPECIAL RULES.—For purposes of this sec-
tion—

“(1) REDUCTION IN BASIS.—The basis of any
property for which a credit is allowable under sub-
section (a) shall be reduced by the amount of such
credit (determined without regard to subsection (c)).

“(2) NO DOUBLE BENEFIT.—The amount of
any deduction or credit allowable under this chapter
(other than the credit allowable under subsection
(a)), with respect to any vehicle shall be reduced by
the amount of credit allowed under subsection (a)
(determined without regard to subsection (c)) for such vehicle for the taxable year.

“(3) Property used by tax-exempt entity.—In the case of a vehicle whose use is described in paragraph (3) or (4) of section 50(b) and which is not subject to a lease, the person who sold such vehicle to the person or entity using such vehicle shall be treated as the taxpayer that placed such vehicle in service, but only if such person clearly discloses to such person or entity in a document the amount of any credit allowable under subsection (a) with respect to such vehicle (determined without regard to subsection (c)).

“(4) Property used outside United States, etc., not qualified.—No credit shall be allowable under subsection (a) with respect to any property referred to in section 50(b)(1) or with respect to the portion of the cost of any property taken into account under section 179.

“(5) Election not to take credit.—No credit shall be allowed under subsection (a) for any vehicle if the taxpayer elects not to have this section apply to such vehicle.

“(6) Interaction with air quality and motor vehicle safety standards.—Unless oth-
erwise provided in this section, a motor vehicle shall not be considered eligible for a credit under this sec-
tion unless such vehicle is in compliance with—

“(A) the applicable provisions of the Clean Air Act for the applicable make and model year of the vehicle (or applicable air quality provi-
sions of State law in the case of a State which has adopted such provision under a waiver under section 209(b) of the Clean Air Act), and

“(B) the motor vehicle safety provisions of sections 30101 through 30169 of title 49, United States Code.

“(g) REGULATIONS.—

“(1) IN GENERAL.—The Secretary shall pro-
mulgate such regulations as necessary to carry out this section, including regulations to prevent the avoidance of the purposes of this section through disposal of any motor vehicle or leasing of any motor vehicle for a lease period of less than the economic life of such vehicle.

“(2) DETERMINATION OF MOTOR VEHICLE ELI-
GIBILITY.—The Secretary, in coordination with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, shall pre-
scribe such regulations as necessary to determine
whether a motor vehicle meets the requirements to
be eligible for a credit under this section.

“(h) TERMINATION.—This section shall not apply to
any property placed in service after December 31, 2007.”.

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a), as amended by section
1311 of this title, is amended by striking “and” at
the end of paragraph (31), by striking the period at
the end of paragraph (32) and inserting “, and”,
and by adding at the end the following:

“(33) to the extent provided in section
30B(f)(1).”.

(2) Section 6501(m) is amended by inserting
“30B(f)(6),” after “30(d)(4),”.

(3) The table of sections for subpart B of part
IV of subchapter A of chapter 1 is amended by in-
serting after the item relating to section 30A the fol-
lowing:

“Sec. 30B. Advanced lean burn technology motor vehicle credit.”.

(c) EFFECTIVE DATE.—The amendments made by
this section shall apply to property placed in service after
the date of the enactment of this Act in taxable years end-
ing after such date.
SEC. 1317. CREDIT FOR ENERGY EFFICIENCY IMPROVEMENTS TO EXISTING HOMES.

(a) In General.—Subpart A of part IV of subchapter A of chapter 1 (relating to nonrefundable personal credits), as amended by section 1311, is amended by inserting after section 25C the following new section:

“SEC. 25D. ENERGY EFFICIENCY IMPROVEMENTS TO EXISTING HOMES.

“(a) Allowance of Credit.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 20 percent of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements installed during such taxable year.

“(b) Limitations.—

“(1) Maximum Credit.—The credit allowed by this section with respect to a dwelling unit shall not exceed $2,000.

“(2) Prior Credit Amounts for Taxpayer on Same Dwelling Taken Into Account.—If a credit was allowed to the taxpayer under subsection (a) with respect to a dwelling unit in 1 or more prior taxable years, the amount of the credit otherwise allowable for the taxable year with respect to that dwelling unit shall be reduced by the sum of the credits allowed under subsection (a) to the taxpayer.
with respect to the dwelling unit for all prior taxable years.

“(c) Qualified Energy Efficiency Improvements.—For purposes of this section, the term ‘qualified energy efficiency improvements’ means any energy efficient building envelope component which meets the prescriptive criteria for such component established by the 2000 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of the Enhanced Energy Infrastructure and Technology Tax Act of 2005 (or, in the case of a metal roof with appropriate pigmented coatings which meet the Energy Star program requirements), if—

“(1) such component is installed in or on a dwelling unit located in the United States and owned and used by the taxpayer as the taxpayer’s principal residence (within the meaning of section 121),

“(2) the original use of such component commences with the taxpayer, and

“(3) such component reasonably can be expected to remain in use for at least 5 years.

If the aggregate cost of such components with respect to any dwelling unit exceeds $1,000, such components shall be treated as qualified energy efficiency improvements.
only if such components are also certified in accordance
with subsection (d) as meeting such prescriptive criteria.

“(d) CERTIFICATION.—The certification described in
subsection (c) shall be—

“(1) determined on the basis of the technical
specifications or applicable ratings (including prod-
uct labeling requirements) for the measurement of
energy efficiency (based upon energy use or building
envelope component performance) for the energy ef-
ficient building envelope component,

“(2) provided by a local building regulatory au-
thority, a utility, a manufactured home production
inspection primary inspection agency (IPIA), or an
accredited home energy rating system provider who
is accredited by or otherwise authorized to use ap-
proved energy performance measurement methods by
the Residential Energy Services Network
(RESNET), and

“(3) made in writing in a manner which speci-
fies in readily verifiable fashion the energy efficient
building envelope components installed and their re-
spective energy efficiency levels.

“(e) DEFINITIONS AND SPECIAL RULES.—For pur-
poses of this section—
“(1) Building envelope component.—The term ‘building envelope component’ means—

“(A) any insulation material or system which is specifically and primarily designed to reduce the heat loss or gain of a dwelling unit when installed in or on such dwelling unit,

“(B) exterior windows (including skylights),

“(C) exterior doors, and

“(D) any metal roof installed on a dwelling unit, but only if such roof has appropriate pigmented coatings which are specifically and primarily designed to reduce the heat gain of such dwelling unit.

“(2) Manufactured homes included.—The term ‘dwelling unit’ includes a manufactured home which conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations).

“(3) Application of rules.—Rules similar to the rules under paragraphs (3), (4), and (5) of section 25C(d) shall apply.

“(f) Basis adjustment.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the
basis of such property which would (but for this sub-
section) result from such expenditure shall be reduced by
the amount of the credit so allowed.

“(g) APPLICATION OF SECTION.—This section shall
apply to qualified energy efficiency improvements installed
after the date of the enactment of the Enhanced Energy
Infrastructure and Technology Tax Act of 2005, and be-
fore January 1, 2008.”.

(b) CONFORMING AMENDMENTS.—

(1) Subsection (a) of section 1016, as amended
by section 1316 of this title, is amended by striking
“and” at the end of paragraph (32), by striking the
period at the end of paragraph (33) and inserting “,
and”, and by adding at the end the following new
paragraph:

“(34) to the extent provided in section 25D(f),
in the case of amounts with respect to which a credit
has been allowed under section 25D.”.

(2) The table of sections for subpart A of part
IV of subchapter A of chapter 1, as amended by sec-
tion 1311, is amended by inserting after the item re-
lating to section 25C the following new item:

“Sec. 25D. Energy efficiency improvements to existing homes.”.

(e) EFFECTIVE DATE.—The amendments made by
this section shall apply to improvements installed after the
date of the enactment of this Act in taxable years ending
after such date.

Subtitle C—Alternative Minimum
Tax Relief

SEC. 1321. NEW NONREFUNDABLE PERSONAL CREDITS AL-
LOWED AGAINST REGULAR AND MINIMUM
TAXES.

(a) IN GENERAL.—

(1) SECTION 25C.—Section 25C(b), as added by
section 1311 of this title, is amended by adding at
the end the following new paragraph:

“(3) LIMITATION BASED ON AMOUNT OF
TAX.—The credit allowed under subsection (a) for
the taxable year shall not exceed the excess of—

“(A) the sum of the regular tax liability
(as defined in section 26(b)) plus the tax im-
posed by section 55, over

“(B) the sum of the credits allowable
under this subpart (other than this section) and
section 27 for the taxable year.”.

(2) SECTION 25D.—Section 25D(b), as added
by section 1317 of this title, is amended by adding
at the end the following new paragraph:
“(3) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

“(A) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

“(B) the sum of the credits allowable under this subpart (other than this section) and section 27 for the taxable year.”.

(b) CONFORMING AMENDMENTS.—

(1) Section 23(b)(4)(B) is amended by inserting “and sections 25C and 25D” after “this section”.

(2) Section 24(b)(3)(B) is amended by striking “and 25B” and inserting “, 25B, 25C, and 25D”.

(3) Section 25(e)(1)(C) is amended by inserting “25C, and 25D” after “25B,”.

(4) Section 25B(g)(2) is amended by striking “section 23” and inserting “sections 23, 25C, and 25D”.

(5) Section 26(a)(1) is amended by striking “and 25B” and inserting “25B, 25C, and 25D”.

(6) Section 904(i) is amended by striking “and 25B” and inserting “25B, 25C, and 25D”.

(7) Section 1400C(d) is amended by striking “and 25B” and inserting “25B, 25C, and 25D”.

•HR 6 IH
(c) Effective Date.—The amendments made by this section shall apply to taxable years beginning after December 31, 2005.

SEC. 1322. CERTAIN BUSINESS ENERGY CREDITS ALLOWED AGAINST REGULAR AND MINIMUM TAXES.

(a) In General.—Subparagraph (B) of section 38(c)(4) (relating to specified credits) is amended by redesignating clause (ii) as clause (iv) and by striking clause (i) and inserting the following new clauses:

“(i) the credits determined under sections 40, 45H, and 45I,

“(ii) so much of the credit determined under section 46 as is attributable to section 48(a)(3)(A)(iii),

“(iii) for taxable years beginning after December 31, 2005, and before January 1, 2008, the credit determined under section 43, and”.

(b) Effective Dates.—

(1) In General.—Except as provided by paragraph (2), the amendment made by subsection (a) shall apply to credits determined under the Internal Revenue Code of 1986 for taxable years beginning after December 31, 2005.
(2) FUEL CELLS.—Clause (ii) of section 38(c)(4)(B) of the Internal Revenue Code of 1986, as amended by subsection (a) of this section, shall apply to credits determined under the Internal Revenue Code of 1986 for taxable years ending after April 11, 2005.

**TITLE XIV—MISCELLANEOUS**

Subtitle C—Other Provisions

**SEC. 1441. CONTINUATION OF TRANSMISSION SECURITY ORDER.**

Department of Energy Order No. 202–03–2, issued by the Secretary of Energy on August 28, 2003, shall remain in effect unless rescinded by Federal statute.

**SEC. 1442. REVIEW OF AGENCY DETERMINATIONS.**

Section 7 of the Natural Gas Act (15 U.S.C. 717f) is amended by adding at the end the following:

“(i)(1) The United States Court of Appeals for the District of Columbia Circuit shall have original and exclusive jurisdiction over any civil action—

“(A) for review of any order or action of any Federal or State administrative agency or officer to issue, condition, or deny any permit, license, concur-

rence, or approval issued under authority of any Federal law, other than the Coastal Zone Manage-

ment Act of 1972 (16 U.S.C. 1451 et seq.), required
for the construction of a natural gas pipeline for
which a certificate of public convenience and neces-
sity is issued by the Commission under this section;
“(B) alleging unreasonable delay by any Fed-
eral or State administrative agency or officer in en-
tering an order or taking other action described in
subparagraph (A); or
“(C) challenging any decision made or action
taken under this subsection.
“(2)(A) If the Court finds that the order, action, or
failure to act is not consistent with the public convenience
and necessity (as determined by the Commission under
this section), or would prevent the construction and oper-
ation of natural gas facilities authorized by the certificate
of public convenience and necessity, the permit, license,
concurrence, or approval that is the subject of the order,
action, or failure to act shall be deemed to have been
issued subject to any conditions set forth in the reviewed
order or action that the Court finds to be consistent with
the public convenience and necessity.
“(B) For purposes of paragraph (1)(B), the failure
of an agency or officer to issue any such permit, license,
concurrence, or approval within the later of 1 year after
the date of filing of an application for the permit, license,
concurrence, or approval or 60 days after the date of
issuance of the certificate of public convenience and necessity under this section, shall be considered to be unreasonable delay unless the Court, for good cause shown, determines otherwise.

“(C) The Court shall set any action brought under paragraph (1) for expedited consideration.”.

SEC. 1443. ATTAINMENT DATES FOR DOWNWIND OZONE NONATTAINMENT AREAS.

Section 181 of the Clean Air Act (42 U.S.C. 7511) is amended by adding the following new subsection at the end thereof:

“(d) EXTENDED ATTAINMENT DATE FOR CERTAIN DOWNWIND AREAS.—

“(1) DEFINITIONS.—(A) The term ‘upwind area’ means an area that—

“(i) significantly contributes to nonattainment in another area, hereinafter referred to as a ‘downwind area’; and

“(ii) is either—

“(I) a nonattainment area with a later attainment date than the downwind area,

or

“(II) an area in another State that the Administrator has found to be significantly contributing to nonattainment in
the downwind area in violation of section 110(a)(2)(D) and for which the Administrator has established requirements through notice and comment rulemaking to eliminate the emissions causing such significant contribution.

“(B) The term ‘current classification’ means the classification of a downwind area under this section at the time of the determination under paragraph (2).

“(2) EXTENSION.—If the Administrator—

“(A) determines that any area is a downwind area with respect to a particular national ambient air quality standard for ozone; and

“(B) approves a plan revision for such area as provided in paragraph (3) prior to a reclassification under subsection (b)(2)(A),

the Administrator, in lieu of such reclassification, shall extend the attainment date for such downwind area for such standard in accordance with paragraph (5).

“(3) REQUIRED APPROVAL.—In order to extend the attainment date for a downwind area under this subsection, the Administrator must approve a revi-
sion of the applicable implementation plan for the
downwind area for such standard that—

“(A) complies with all requirements of this
Act applicable under the current classification
of the downwind area, including any require-
ments applicable to the area under section
172(c) for such standard; and

“(B) includes any additional measures
needed to demonstrate attainment by the ex-
tended attainment date provided under this
subsection.

“(4) PRIOR RECLASSIFICATION DETERMINA-
TION.—If, no more than 18 months prior to the date
of enactment of this subsection, the Administrator
made a reclassification determination under sub-
section (b)(2)(A) for any downwind area, and the
Administrator approves the plan revision referred to
in paragraph (3) for such area within 12 months
after the date of enactment of this subsection, the
reclassification shall be withdrawn and the attain-
ment date extended in accordance with paragraph
(5) upon such approval. The Administrator shall
also withdraw a reclassification determination under
subsection (b)(2)(A) made after the date of enact-
ment of this subsection and extend the attainment
date in accordance with paragraph (5) if the Admin-
istrator approves the plan revision referred to in 
paragraph (3) within 12 months of the date the re-
classification determination under subsection 
(b)(2)(A) is issued. In such instances the ‘current 
classification’ used for evaluating the revision of the 
applicable implementation plan under paragraph (3) 
shall be the classification of the downwind area 
under this section immediately prior to such reclassi-
fication.

“(5) EXTENDED DATE.—The attainment date 
extended under this subsection shall provide for at-
tainment of such national ambient air quality stand-
ard for ozone in the downwind area as expeditiously 
as practicable but no later than the date on which 
the last reductions in pollution transport necessary 
for attainment in the downwind area are required to 
be achieved by the upwind area or areas.”.

SEC. 1444. ENERGY PRODUCTION INCENTIVES.

(a) IN GENERAL.—A State may provide to any enti-

ty—

(1) a credit against any tax or fee owed to the 
State under a State law, or

(2) any other tax incentive,
determined by the State to be appropriate, in the amount
calculated under and in accordance with a formula deter-
mined by the State, for production described in subsection
(b) in the State by the entity that receives such credit or
such incentive.

(b) Eligible Entities.—Subsection (a) shall apply
with respect to the production in the State of—

(1) electricity from coal mined in the State and
used in a facility, if such production meets all appli-
cable Federal and State laws and if such facility
uses scrubbers or other forms of clean coal tech-
nology,

(2) electricity from a renewable source such as
wind, solar, or biomass, or

(3) ethanol.

(e) Effect on Interstate Commerce.—Any ac-
tion taken by a State in accordance with this section with
respect to a tax or fee payable, or incentive applicable,
for any period beginning after the date of the enactment
of this Act shall—

(1) be considered to be a reasonable regulation
of commerce; and

(2) not be considered to impose an undue bur-
den on interstate commerce or to otherwise impair,
restrain, or discriminate, against interstate com-
merce.

SEC. 1446. REGULATION OF CERTAIN OIL USED IN TRANS-
FORMERS.

Notwithstanding any other provision of law, or rule
promulgated by the Environmental Protection Agency,
vegetable oil made from soybeans and used in electric
transformers as thermal insulation shall not be regulated
as an oil as defined under section 2(a)(1)(A) of the Edible
Oil Regulatory Reform Act (33 U.S.C. 2720(a)(1)(A)).

SEC. 1447. RISK ASSESSMENTS.

Subtitle B of title XXX of the Energy Policy Act of
1992 is amended by adding at the end the following new
section:

“SEC. 3022. RISK ASSESSMENT.

“Federal agencies conducting assessments of risks to
human health and the environment from energy tech-
nology, production, transport, transmission, distribution,
storage, use, or conservation activities shall use sound and
objective scientific practices in assessing such risks, shall
consider the best available science (including peer reviewed
studies), and shall include a description of the weight of
the scientific evidence concerning such risks.”.
SEC. 1448. OXYGEN-FUEL.

(a) PROGRAM.—The Secretary of Energy shall establish a program on oxygen-fuel systems. If feasible, the program shall include renovation of at least one existing large unit and one existing small unit, and construction of one new large unit and one new small unit. Cost sharing shall not be required.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section—

(1) $100,000,000 for fiscal year 2006;

(2) $100,000,000 for fiscal year 2007; and

(3) $100,000,000 for fiscal year 2008.

(c) DEFINITIONS.—For purposes of this section—

(1) the term “large unit” means a unit with a generating capacity of 100 megawatts or more;

(2) the term “oxygen-fuel systems” means systems that utilize fuel efficiency benefits of oil, gas, coal, and biomass combustion using substantially pure oxygen, with high flame temperatures and the exclusion of air from the boiler, in industrial or electric utility steam generating units; and

(3) the term “small unit” means a unit with a generating capacity in the 10–50 megawatt range.
SEC. 1449. PETROCHEMICAL AND OIL REFINERY FACILITY

HEALTH ASSESSMENT.

(a) Establishment.—The Secretary of Energy shall conduct a study of direct and significant health impacts to persons resulting from living in proximity to petrochemical and oil refinery facilities. The Secretary shall consult with the Director of the National Cancer Institute and other Federal Government bodies with expertise in the field it deems appropriate in the design of such study. The study shall be conducted according to sound and objective scientific practices and present the weight of the scientific evidence. The Secretary shall obtain scientific peer review of the draft study.

(b) Report to Congress.—The Secretary shall transmit the results of the study to Congress within 6 months of the enactment of this section.

(c) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary for activities under this section such sums as are necessary for the completion of the study.

SEC. 1450. UNITED STATES-ISRAEL COOPERATION.

(a) Findings.—The Congress finds that—

(1) on February 1, 1996, United States Secretary of Energy Hazel R. O’Leary and Israeli Minister of Energy and Infrastructure Gonen Segev signed the Agreement between the Department of
Energy of the United States of America and the
Ministry of Energy and Infrastructure of Israel Con-
cerning Energy Cooperation, to establish a frame-
work for collaboration between the United States
and Israel in energy research and development ac-
tivities;
(2) the Agreement entered into force in Feb-
uary 2000;
(3) in February 2005, the Agreement was auto-
matically renewed for one additional 5-year period
pursuant to Article X of the Agreement; and
(4) under the Agreement, the United States
and Israel may cooperate in energy research and de-
development in a variety of alternative and advanced
energy sectors.
(b) REPORT TO CONGRESS.—(1) The Secretary of
Energy shall report to the Committee on Energy and
Commerce of the House of Representatives and the Com-
mittee on Energy and Natural Resources of the Senate
on—
(A) how the United States and Israel have co-
operated on energy research and development activi-
ties under the Agreement;
(B) projects initiated pursuant to the Agree-
ment; and
(C) plans for future cooperation and joint projects under the Agreement.

(2) The report shall be submitted no later than three months after the date of enactment of this Act.

(c) SENSE OF CONGRESS.—It is the sense of the Congress that energy cooperation between the Governments of the United States and Israel is mutually beneficial in the development of energy technology.

SEC. 1451. CARBON-BASED FUEL CELL DEVELOPMENT.

(a) GRANT AUTHORITY.—The Secretary of Energy is authorized to make a single grant to a qualified institution to design and fabricate a 5-kilowatt prototype coal-based fuel cell with the following performance objectives:

(1) A current density of 600 milliamps per square centimeter at a cell voltage of 0.8 volts.

(2) An operating temperature range not to exceed 900 degrees celsius.

(b) QUALIFIED INSTITUTION.—For the purposes of subsection (a), a qualified institution is a research-intensive institution of higher education with demonstrated expertise in the development of carbon-based fuel cells allowing the direct use of high sulfur content coal as fuel, and which has produced a laboratory-scale carbon-based fuel cell with a proven current density of 100 milliamps per square centimeter at a voltage of 0.6 volts.
(c) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of Energy for carrying out this section $850,000 for fiscal year 2006.

TITLE XV—ETHANOL AND MOTOR FUELS
Subtitle A—General Provisions

SEC. 1501. RENEWABLE CONTENT OF MOTOR VEHICLE FUEL.

(a) IN GENERAL.—Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended—

(1) by redesignating subsection (o) as subsection (q); and

(2) by inserting after subsection (n) the following:

“(o) RENEWABLE FUEL PROGRAM.—

“(1) DEFINITIONS.—In this section:

“(A) ETHANOL.—(i) The term ‘cellulosic biomass ethanol’ means ethanol derived from any lignocellulosic or hemicellulosic matter that is available on a renewable or recurring basis, including—

“(I) dedicated energy crops and trees;

“(II) wood and wood residues;

“(III) plants;
“(IV) grasses;
“(V) agricultural residues; and
“(VI) fibers.
“(ii) The term ‘waste derived ethanol’ means ethanol derived from—
“(I) animal wastes, including poultry fats and poultry wastes, and other waste materials; or
“(II) municipal solid waste.
“(B) RENEWABLE FUEL.—
“(i) IN GENERAL.—The term ‘renewable fuel’ means motor vehicle fuel that—
“(I)(aa) is produced from grain, starch, oilseeds, or other biomass; or
“(bb) is natural gas produced from a biogas source, including a landfill, sewage waste treatment plant, feedlot, or other place where decaying organic material is found; and
“(II) is used to replace or reduce the quantity of fossil fuel present in a fuel mixture used to operate a motor vehicle.
“(ii) INCLUSION.—The term ‘renewable fuel’ includes cellulosic biomass eth-
anol, waste derived ethanol, and biodiesel (as defined in section 312(f) of the Energy Policy Act of 1992 (42 U.S.C. 13220(f)) and any blending components derived from renewable fuel (provided that only the renewable fuel portion of any such blending component shall be considered part of the applicable volume under the renewable fuel program established by this subsection).

“(C) SMALL REFINERY.—The term ‘small refinery’ means a refinery for which average aggregate daily crude oil throughput for the calendar year (as determined by dividing the aggregate throughput for the calendar year by the number of days in the calendar year) does not exceed 75,000 barrels.

“(2) RENEWABLE FUEL PROGRAM.—

“(A) IN GENERAL.—Not later than 1 year after the enactment of this subsection, the Administrator shall promulgate regulations ensuring that motor vehicle fuel sold or dispensed to consumers in the contiguous United States, on an annual average basis, contains the applicable volume of renewable fuel as specified in subparagraph (B). Regardless of the date of pro-
mulgation, such regulations shall contain com-
pliance provisions for refiners, blenders, and
importers, as appropriate, to ensure that the re-
quirements of this section are met, but shall not
restrict where renewable fuel can be used, or
impose any per-gallon obligation for the use of
renewable fuel. If the Administrator does not
promulgate such regulations, the applicable per-
centage referred to in paragraph (4), on a vol-
ume percentage of gasoline basis, shall be 2.2
in 2005.

“(B) APPLICABLE VOLUME.—

“(i) CALENDAR YEARS 2005 THROUGH
2012.—For the purpose of subparagraph
(A), the applicable volume for any of cal-
endar years 2005 through 2012 shall be
determined in accordance with the fol-
lowing table:

<table>
<thead>
<tr>
<th>Calendar year</th>
<th>Applicable volume of renewable fuel (in billions of gallons)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2005</td>
<td>3.1</td>
</tr>
<tr>
<td>2006</td>
<td>3.3</td>
</tr>
<tr>
<td>2007</td>
<td>3.5</td>
</tr>
<tr>
<td>2008</td>
<td>3.8</td>
</tr>
<tr>
<td>2009</td>
<td>4.1</td>
</tr>
<tr>
<td>2010</td>
<td>4.4</td>
</tr>
<tr>
<td>2011</td>
<td>4.7</td>
</tr>
<tr>
<td>2012</td>
<td>5.0</td>
</tr>
</tbody>
</table>

“(ii) CALENDAR YEAR 2013 AND THEREAFTER.—For the purpose of sub-
paragraph (A), the applicable volume for calendar year 2013 and each calendar year thereafter shall be equal to the product obtained by multiplying—

“(I) the number of gallons of gasoline that the Administrator estimates will be sold or introduced into commerce in the calendar year; and

“(II) the ratio that—

“(aa) 5.0 billion gallons of renewable fuels; bears to

“(bb) the number of gallons of gasoline sold or introduced into commerce in calendar year 2012.

“(3) NON-CONTIGUOUS STATE OPT-IN.—Upon the petition of a non-contiguous State, the Administrator may allow the renewable fuel program established by subtitle A of title XV of the Energy Policy Act of 2005 to apply in such non-contiguous State at the same time or any time after the Administrator promulgates regulations under paragraph (2). The Administrator may promulgate or revise regulations under paragraph (2), establish applicable percentages under paragraph (4), provide for the gen-
eration of credits under paragraph (6), and take such other actions as may be necessary to allow for the application of the renewable fuels program in a non-contiguous State.

“(4) Applicable percentages.—

“(A) Provision of estimate of volumes of gasoline sales.—Not later than October 31 of each of calendar years 2005 through 2011, the Administrator of the Energy Information Administration shall provide to the Administrator of the Environmental Protection Agency an estimate of the volumes of gasoline that will be sold or introduced into commerce in the United States during the following calendar year.

“(B) Determination of applicable percentages.—

“(i) In general.—Not later than November 30 of each of the calendar years 2005 through 2011, based on the estimate provided under subparagraph (A), the Administrator shall determine and publish in the Federal Register, with respect to the following calendar year, the renewable fuel
obligation that ensures that the requirements of paragraph (2) are met.

“(ii) REQUIRED ELEMENTS.—The renewable fuel obligation determined for a calendar year under clause (i) shall—

“(I) be applicable to refiners, blenders, and importers, as appropriate;

“(II) be expressed in terms of a volume percentage of gasoline sold or introduced into commerce; and

“(III) subject to subparagraph (C)(i), consist of a single applicable percentage that applies to all categories of persons specified in subclause (I).

“(C) ADJUSTMENTS.—In determining the applicable percentage for a calendar year, the Administrator shall make adjustments—

“(i) to prevent the imposition of redundant obligations to any person specified in subparagraph (B)(ii)(I); and

“(ii) to account for the use of renewable fuel during the previous calendar year
by small refineries that are exempt under paragraph (11).

“(5) EQUIVALENCY.—For the purpose of paragraph (2), 1 gallon of either cellulosic biomass ethanol or waste derived ethanol—

“(A) shall be considered to be the equivalent of 1.5 gallon of renewable fuel; or

“(B) if the cellulosic biomass ethanol or waste derived ethanol is derived from agricultural residue or wood residue or is an agricultural byproduct (as that term is used in section 919 of the Energy Policy Act of 2005), shall be considered to be the equivalent of 2.5 gallons of renewable fuel.

“(6) CREDIT PROGRAM.—

“(A) IN GENERAL.—The regulations promulgated to carry out this subsection shall provide for the generation of an appropriate amount of credits by any person that refines, blends, or imports gasoline that contains a quantity of renewable fuel that is greater than the quantity required under paragraph (2). Such regulations shall provide for the generation of an appropriate amount of credits for biodiesel fuel. If a small refinery notifies the
Administrator that it waives the exemption provided paragraph (11), the regulations shall provide for the generation of credits by the small refinery beginning in the year following such notification.

“(B) USE OF CREDITS.—A person that generates credits under subparagraph (A) may use the credits, or transfer all or a portion of the credits to another person, for the purpose of complying with paragraph (2).

“(C) LIFE OF CREDITS.—A credit generated under this paragraph shall be valid to show compliance—

“(i) in the calendar year in which the credit was generated or the next calendar year; or

“(ii) in the calendar year in which the credit was generated or next two consecutive calendar years if the Administrator promulgates regulations under paragraph (7).

“(D) INABILITY TO PURCHASE SUFFICIENT CREDITS.—The regulations promulgated to carry out this subsection shall include provisions allowing any person that is unable to gen-
erate or purchase sufficient credits to meet the requirements under paragraph (2) to carry forward a renewable fuel deficit provided that, in the calendar year following the year in which the renewable fuel deficit is created, such person shall achieve compliance with the renewable fuel requirement under paragraph (2), and shall generate or purchase additional renewable fuel credits to offset the renewable fuel deficit of the previous year.

“(7) **SEASONAL VARIATIONS IN RENEWABLE FUEL USE.**—

“(A) **STUDY.**—For each of the calendar years 2005 through 2012, the Administrator of the Energy Information Administration shall conduct a study of renewable fuels blending to determine whether there are excessive seasonal variations in the use of renewable fuels.

“(B) **REGULATION OF EXCESSIVE SEASONAL VARIATIONS.**—If, for any calendar year, the Administrator of the Energy Information Administration, based on the study under subparagraph (A), makes the determinations specified in subparagraph (C), the Administrator shall promulgate regulations to ensure that 35
percent or more of the quantity of renewable
fuels necessary to meet the requirement of
paragraph (2) is used during each of the peri-
ods specified in subparagraph (D) of each sub-
sequent calendar year.

“(C) Determinations.—The determina-
tions referred to in subparagraph (B) are
that—

“(i) less than 35 percent of the quan-
tity of renewable fuels necessary to meet
the requirement of paragraph (2) has been
used during one of the periods specified in
subparagraph (D) of the calendar year;

“(ii) a pattern of excessive seasonal
variation described in clause (i) will con-
tinue in subsequent calendar years; and

“(iii) promulgating regulations or
other requirements to impose a 35 percent
or more seasonal use of renewable fuels
will not prevent or interfere with the at-
tainment of national ambient air quality
standards or significantly increase the
price of motor fuels to the consumer.

“(D) Periods.—The two periods referred
to in this paragraph are—
“(i) April through September; and
“(ii) January through March and October through December.

“(E) EXCLUSIONS.—Renewable fuels blended or consumed in 2005 in a State which has received a waiver under section 209(b) shall not be included in the study in subparagraph (A).

“(8) WAIVERS.—

“(A) IN GENERAL.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, may waive the requirement of paragraph (2) in whole or in part on petition by one or more States by reducing the national quantity of renewable fuel required under this subsection—

“(i) based on a determination by the Administrator, after public notice and opportunity for comment, that implementation of the requirement would severely harm the economy or environment of a State, a region, or the United States; or

“(ii) based on a determination by the Administrator, after public notice and opportunity for comment, that there is an in-
adequate domestic supply or distribution capacity to meet the requirement.

“(B) Petitions for waivers.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall approve or disapprove a State petition for a waiver of the requirement of paragraph (2) within 90 days after the date on which the petition is received by the Administrator.

“(C) Termination of waivers.—A waiver granted under subparagraph (A) shall terminate after 1 year, but may be renewed by the Administrator after consultation with the Secretary of Agriculture and the Secretary of Energy.

“(9) Study and waiver for initial year of program.—Not later than 180 days after the enactment of this subsection, the Secretary of Energy shall complete for the Administrator a study assessing whether the renewable fuels requirement under paragraph (2) will likely result in significant adverse consumer impacts in 2005, on a national, regional, or State basis. Such study shall evaluate renewable fuel supplies and prices, blendstock supplies, and supply and distribution system capabilities. Based
on such study, the Secretary shall make specific recom-

ommendations to the Administrator regarding waiv-
er of the requirements of paragraph (2), in whole or in part, to avoid any such adverse impacts. Within 270 days after the enactment of this subsection, the Administrator shall, consistent with the recom-
ommendations of the Secretary, waive, in whole or in part, the renewable fuels requirement under para-
graph (2) by reducing the national quantity of re-
newable fuel required under this subsection in 2005. This paragraph shall not be interpreted as limiting the Administrator’s authority to waive the require-
ments of paragraph (2) in whole, or in part, under paragraph (8) or paragraph (10), pertaining to waivers.

“(10) ASSESSMENT AND WAIVER.—The Admin-
istrator, in consultation with the Secretary of En-
ergy and the Secretary of Agriculture, shall evaluate the requirement of paragraph (2) and determine, prior to January 1, 2007, and prior to January 1 of any subsequent year in which the applicable vol-
ume of renewable fuel is increased under paragraph (2)(B), whether the requirement of paragraph (2), including the applicable volume of renewable fuel contained in paragraph (2)(B) should remain in ef-
fect, in whole or in part, during 2007 or any year or years subsequent to 2007. In evaluating the requirement of paragraph (2) and in making any determination under this section, the Administrator shall consider the best available information and data collected by accepted methods or best available means regarding—

“(A) the capacity of renewable fuel producers to supply an adequate amount of renewable fuel at competitive prices to fulfill the requirement of paragraph (2);

“(B) the potential of the requirement of paragraph (2) to significantly raise the price of gasoline, food (excluding the net price impact on the requirement in paragraph (2) on commodities used in the production of ethanol), or heating oil for consumers in any significant area or region of the country above the price that would otherwise apply to such commodities in the absence of such requirement;

“(C) the potential of the requirement of paragraph (2) to interfere with the supply of fuel in any significant gasoline market or region of the country, including interference with the efficient operation of refiners, blenders, import-
ers, wholesale suppliers, and retail vendors of
gasoline, and other motor fuels; and

“(D) the potential of the requirement of
paragraph (2) to cause or promote exceedances
of Federal, State, or local air quality standards.

If the Administrator determines, by clear and con-
vincing information, after public notice and the op-
portunity for comment, that the requirement of
paragraph (2) would have significant and meaning-
ful adverse impact on the supply of fuel and related
infrastructure or on the economy, public health, or
environment of any significant area or region of the
country, the Administrator may waive, in whole or
in part, the requirement of paragraph (2) in any one
year for which the determination is made for that
area or region of the country, except that any such
waiver shall not have the effect of reducing the ap-
pllicable volume of renewable fuel specified in para-
graph (2)(B) with respect to any year for which the
determination is made. In determining economic im-
pact under this paragraph, the Administrator shall
not consider the reduced revenues available from the
Highway Trust Fund (section 9503 of the Internal
Revenue Code of 1986) as a result of the use of eth-
anol.
“(11) **Small refineries.**—

“(A) **In general.**—The requirement of paragraph (2) shall not apply to small refineries until the first calendar year beginning more than 5 years after the first year set forth in the table in paragraph (2)(B)(i). Not later than December 31, 2007, the Secretary of Energy shall complete for the Administrator a study to determine whether the requirement of paragraph (2) would impose a disproportionate economic hardship on small refineries. For any small refinery that the Secretary of Energy determines would experience a disproportionate economic hardship, the Administrator shall extend the small refinery exemption for such small refinery for no less than two additional years.

“(B) **Economic hardship.**—

“(i) **Extension of exemption.**—A small refinery may at any time petition the Administrator for an extension of the exemption from the requirement of paragraph (2) for the reason of disproportionate economic hardship. In evaluating a hardship petition, the Administrator, in consultation with the Secretary of Energy,
shall consider the findings of the study in addition to other economic factors.

“(ii) **Deadline for Action on Petitions.**—The Administrator shall act on any petition submitted by a small refinery for a hardship exemption not later than 90 days after the receipt of the petition.

“(C) **Credit Program.**—If a small refinery notifies the Administrator that it waives the exemption provided by this Act, the regulations shall provide for the generation of credits by the small refinery beginning in the year following such notification.

“(D) **Opt-in for Small Refiners.**—A small refinery shall be subject to the requirements of this section if it notifies the Administrator that it waives the exemption under subparagraph (A).

“(12) **Ethanol Market Concentration Analysis.**—

“(A) **Analysis.**—

“(i) **In General.**—Not later than 180 days after the date of enactment of this subsection, and annually thereafter, the Federal Trade Commission shall per-
form a market concentration analysis of
the ethanol production industry using the
Herfindahl-Hirschman Index to determine
whether there is sufficient competition
among industry participants to avoid price
setting and other anticompetitive behavior.

“(ii) SCORING.—For the purpose of
scoring under clause (i) using the
Herfindahl-Hirschman Index, all mar-
keting arrangements among industry par-
ticipants shall be considered.

“(B) REPORT.—Not later than December
1, 2005, and annually thereafter, the Federal
Trade Commission shall submit to Congress
and the Administrator a report on the results
of the market concentration analysis performed
under subparagraph (A)(i).”.

(b) PENALTIES AND ENFORCEMENT.—Section
211(d) of the Clean Air Act (42 U.S.C. 7545(d)) is
amended as follows:

(1) In paragraph (1)—

(A) in the first sentence, by striking “or
(n)” each place it appears and inserting “(n),
or (o)”; and
(B) in the second sentence, by striking “or (m)” and inserting “(m), or (o)”.

(2) In the first sentence of paragraph (2), by striking “and (n)” each place it appears and inserting “(n), and (o)”. 

(c) SURVEY OF RENEWABLE FUEL MARKET.—

(1) SURVEY AND REPORT.—Not later than December 1, 2006, and annually thereafter, the Administrator of the Environmental Protection Agency (in consultation with the Secretary of Energy acting through the Administrator of the Energy Information Administration) shall—

(A) conduct, with respect to each conventional gasoline use area and each reformulated gasoline use area in each State, a survey to determine the market shares of—

(i) conventional gasoline containing ethanol;

(ii) reformulated gasoline containing ethanol;

(iii) conventional gasoline containing renewable fuel; and

(iv) reformulated gasoline containing renewable fuel; and
(B) submit to Congress, and make publicly available, a report on the results of the survey under subparagraph (A).

(2) RECORDKEEPING AND REPORTING REQUIREMENTS.—The Administrator of the Environmental Protection Agency (hereinafter in this subsection referred to as the “Administrator”) may require any refiner, blender, or importer to keep such records and make such reports as are necessary to ensure that the survey conducted under paragraph (1) is accurate. The Administrator, to avoid duplicative requirements, shall rely, to the extent practicable, on existing reporting and recordkeeping requirements and other information available to the Administrator including gasoline distribution patterns that include multistate use areas.

(3) APPLICABLE LAW.—Activities carried out under this subsection shall be conducted in a manner designed to protect confidentiality of individual responses.

SEC. 1502. FUELS SAFE HARBOR.

(a) IN GENERAL.—Notwithstanding any other provision of Federal or State law, no renewable fuel, as defined by section 211(o)(1) of the Clean Air Act, or methyl tertiary butyl ether (hereafter in this section referred to as
“MTBE”), used or intended to be used as a motor vehicle fuel, nor any motor vehicle fuel containing such renewable fuel or MTBE, shall be deemed a defective product by virtue of the fact that it is, or contains, such a renewable fuel or MTBE, if it does not violate a control or prohibition imposed by the Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the “Administrator”) under section 211 of such Act, and the manufacturer is in compliance with all requests for information under subsection (b) of such section 211 of such Act. If the safe harbor provided by this section does not apply, the existence of a claim of defective product shall be determined under otherwise applicable law. Nothing in this subsection shall be construed to affect the liability of any person for environmental remediation costs, drinking water contamination, negligence for spills or other reasonably foreseeable events, public or private nuisance, trespass, breach of warranty, breach of contract, or any other liability other than liability based upon a claim of defective product.

(b) EFFECTIVE DATE.—This section shall be effective as of September 5, 2003, and shall apply with respect to all claims filed on or after that date.

SEC. 1503. FINDINGS AND MTBE TRANSITION ASSISTANCE.

(a) FINDINGS.—Congress finds that—
since 1979, methyl tertiary butyl ether (hereinafter in this section referred to as “MTBE”)
has been used nationwide at low levels in gasoline to replace lead as an octane booster or anti-knocking agent;

(2) Public Law 101–549 (commonly known as the “Clean Air Act Amendments of 1990”) (42 U.S.C. 7401 et seq.) established a fuel oxygenate standard under which reformulated gasoline must contain at least 2 percent oxygen by weight;

(3) at the time of the adoption of the fuel oxygen standard, Congress was aware that significant use of MTBE would result from the adoption of that standard, and that the use of MTBE would likely be important to the cost-effective implementation of that program;

(4) Congress was aware that gasoline and its component additives can and do leak from storage tanks;

(5) the fuel industry responded to the fuel oxygenate standard established by Public Law 101–549 by making substantial investments in—

(A) MTBE production capacity; and

(B) systems to deliver MTBE-containing gasoline to the marketplace;
(6) having previously required oxygenates like MTBE for air quality purposes, Congress has—

(A) reconsidered the relative value of MTBE in gasoline;

(B) decided to establish a date certain for action by the Environmental Protection Agency to prohibit the use of MTBE in gasoline; and

(C) decided to provide for the elimination of the oxygenate requirement for reformulated gasoline and to provide for a renewable fuels content requirement for motor fuel; and

(7) it is appropriate for Congress to provide some limited transition assistance—

(A) to merchant producers of MTBE who produced MTBE in response to a market created by the oxygenate requirement contained in the Clean Air Act; and

(B) for the purpose of mitigating any fuel supply problems that may result from the elimination of the oxygenate requirement for reformulated gasoline and from the decision to establish a date certain for action by the Environmental Protection Agency to prohibit the use of MTBE in gasoline.
(b) Purposes.—The purpose of this section is to provide assistance to merchant producers of MTBE in making the transition from producing MTBE to producing other fuel additives.

(c) MTBE Merchant Producer Conversion Assistance.—Section 211(c) of the Clean Air Act (42 U.S.C. 7545(c)) is amended by adding at the end the following:

“(5) MTBE Merchant Producer Conversion Assistance.—

“(A) In general.—

“(i) Grants.—The Secretary of Energy, in consultation with the Administrator, may make grants to merchant producers of methyl tertiary butyl ether (hereinafter in this subsection referred to as ‘MTBE’) in the United States to assist the producers in the conversion of eligible production facilities described in subparagraph (C) to the production of iso-octane, iso-octene, alkylates, or renewable fuels.

“(ii) Determination.—The Administrator, in consultation with the Secretary of Energy, may determine that transition assistance for the production of iso-octane,
iso-octene, alkylates, or renewable fuels is inconsistent with the provisions of sub-
paragraph (B) and, on that basis, may deny applications for grants authorized by this paragraph.

“(B) FURTHER GRANTS.—The Secretary of Energy, in consultation with the Adminis-
trator, may also further make grants to mer-
chant producers of MTBE in the United States to assist the producers in the conversion of eli-
gible production facilities described in subpara-
graph (C) to the production of such other fuel additives (unless the Administrator determines that such fuel additives may reasonably be an-
ticipated to endanger public health or the envi-
ronment) that, consistent with this subsection—

“(i) have been registered and have been tested or are being tested in accord-
ance with the requirements of this section;

and

“(ii) will contribute to replacing gaso-
line volumes lost as a result of amend-
ments made to subsection (k) of this sec-
tion by section 1504(a) and 1506 of the
“(C) E LIGIBLE PRODUCTION FACILITIES.—A production facility shall be eligible to receive a grant under this paragraph if the production facility—

“(i) is located in the United States; and

“(ii) produced MTBE for consumption before April 1, 2003 and ceased production at any time after the date of enactment of this paragraph.

“(D) A UTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this paragraph $250,000,000 for each of fiscal years 2005 through 2012, to remain available until expended.”.

SEC. 1504. USE OF MTBE.

(a) IN GENERAL.—Subject to subsections (e) and (f), not later than December 31, 2014, the use of methyl tertiary butyl ether (hereinafter in this section referred to as “MTBE”) in motor vehicle fuel in any State other than a State described in subsection (c) is prohibited.

(b) REGULATIONS.—The Administrator of the Environmental Protection Agency (hereafter referred to in this
section as the “Administrator”) shall promulgate regulations to effect the prohibition in subsection (a).

(c) STATES THAT AUTHORIZE USE.—A State described in this subsection is a State in which the Governor of the State submits a notification to the Administrator authorizing the use of MTBE in motor vehicle fuel sold or used in the State.

(d) PUBLICATION OF NOTICE.—The Administrator shall publish in the Federal Register each notice submitted by a State under subsection (c).

(e) TRACE QUANTITIES.—In carrying out subsection (a), the Administrator may allow trace quantities of MTBE, not to exceed 0.5 percent by volume, to be present in motor vehicle fuel in cases that the Administrator determines to be appropriate.

(f) LIMITATION.—The Administrator, under authority of subsection (a), shall not prohibit or control the production of MTBE for export from the United States or for any other use other than for use in motor vehicle fuel.

(g) EFFECT ON STATE LAW.—The amendments made by this title have no effect regarding any available authority of States to limit the use of methyl tertiary butyl ether in motor vehicle fuel.
SEC. 1505. NATIONAL ACADEMY OF SCIENCES REVIEW AND

PRESIDENTIAL DETERMINATION.

(a) NAS Review.—Not later than May 31, 2013, the Secretary shall enter into an arrangement with the National Academy of Sciences to review the use of methyl tertiary butyl ether (hereafter referred to in this section as "MTBE") in fuel and fuel additives. The review shall only use the best available scientific information and data collected by accepted methods or the best available means. The review shall examine the use of MTBE in fuel and fuel additives, significant beneficial and detrimental effects of this use on environmental quality or public health or welfare including the costs and benefits of such effects, likely effects of controls or prohibitions on MTBE regarding fuel availability and price, and other appropriate and reasonable actions that are available to protect the environment or public health or welfare from any detrimental effects of the use of MTBE in fuel or fuel additives. The review shall be peer-reviewed prior to publication and all supporting data and analytical models shall be available to the public. The review shall be completed no later than May 31, 2014.

(b) Presidential Determination.—No later than June 30, 2014, the President may make a determination that restrictions on the use of MTBE to be implemented pursuant to section 1504 shall not take place and that
the legal authority contained in section 1504 to prohibit
the use of MTBE in motor vehicle fuel shall become null
and void.

SEC. 1506. ELIMINATION OF OXYGEN CONTENT REQUIRE-
MENT FOR REFORMULATED GASOLINE.

(a) Elimination.—

(1) In general.—Section 211(k) of the Clean
Air Act (42 U.S.C. 7545(k)) is amended as follows:
(A) In paragraph (2)—

(i) in the second sentence of subpara-
graph (A), by striking “(including the oxy-
gen content requirement contained in sub-
paragraph (B))”;

(ii) by striking subparagraph (B); and

(iii) by redesignating subparagraphs
(C) and (D) as subparagraphs (B) and
(C), respectively.

(B) In paragraph (3)(A), by striking
clause (v).

(C) In paragraph (7)—

(i) in subparagraph (A)—

(I) by striking clause (i); and

(II) by redesignating clauses (ii)
and (iii) as clauses (i) and (ii), respec-
tively; and
(ii) in subparagraph (C)—

(I) by striking clause (ii).  

(II) by redesignating clause (iii) as clause (ii).  

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) take effect 270 days after the date of enactment of this Act, except that such amendments shall take effect upon such date of enactment in any State that has received a waiver under section 209(b) of the Clean Air Act. 

(b) MAINTENANCE OF TOXIC AIR POLLUTANT EMISSION REDUCTIONS.—Section 211(k)(1) of the Clean Air Act (42 U.S.C. 7545(k)(1)) is amended as follows:  

(1) By striking “Within 1 year after the enactment of the Clean Air Act Amendments of 1990,” and inserting the following:  

“(A) IN GENERAL.—Not later than November 15, 1991,”.  

(2) By adding at the end the following:  

“(B) MAINTENANCE OF TOXIC AIR POLLUTANT EMISSIONS REDUCTIONS FROM REFORMULATED GASOLINE.—  

“(i) DEFINITIONS.—In this subparagraph the term ‘PADD’ means a Petroleum Administration for Defense District.
“(ii) Regulations regarding emissions of toxic air pollutants.—Not later than 270 days after the date of enactment of this subparagraph the Administrator shall establish, for each refinery or importer, standards for toxic air pollutants from use of the reformulated gasoline produced or distributed by the refinery or importer that maintain the reduction of the average annual aggregate emissions of toxic air pollutants for reformulated gasoline produced or distributed by the refinery or importer during calendar years 1999 and 2000, determined on the basis of data collected by the Administrator with respect to the refinery or importer.

“(iii) Standards applicable to specific refineries or importers.—

“(I) Applicability of standards.—For any calendar year, the standards applicable to a refinery or importer under clause (ii) shall apply to the quantity of gasoline produced or distributed by the refinery or importer in the calendar year only to the...
extent that the quantity is less than
or equal to the average annual quan-
tity of reformulated gasoline produced
or distributed by the refinery or im-
porter during calendar years 1999
and 2000.

“(II) APPLICABILITY OF OTHER
STANDARDS.—For any calendar year,
the quantity of gasoline produced or
distributed by a refinery or importer
that is in excess of the quantity sub-
ject to subclause (I) shall be subject
to standards for toxic air pollutants
promulgated under subparagraph (A)
and paragraph (3)(B).

“(iv) CREDIT PROGRAM.—The Admin-
istrator shall provide for the granting and
use of credits for emissions of toxic air pol-
lutants in the same manner as provided in
paragraph (7).

“(v) REGIONAL PROTECTION OF
TOXICS REDUCTION BASELINES.—
“(I) IN GENERAL.—Not later
than 60 days after the date of enact-
ment of this subparagraph, and not
later than April 1 of each calendar year that begins after that date of enactment, the Administrator shall publish in the Federal Register a report that specifies, with respect to the previous calendar year—

“(aa) the quantity of reformulated gasoline produced that is in excess of the average annual quantity of reformulated gasoline produced in 1999 and 2000; and

“(bb) the reduction of the average annual aggregate emissions of toxic air pollutants in each PADD, based on retail survey data or data from other appropriate sources.

“(II) EFFECT OF FAILURE TO MAINTAIN AGGREGATE TOXICS REDUCTIONS.—If, in any calendar year, the reduction of the average annual aggregate emissions of toxic air pollutants in a PADD fails to meet or exceed the reduction of the average annual aggregate emissions of toxic
air pollutants in the PADD in calendar years 1999 and 2000, the Administrator, not later than 90 days after the date of publication of the report for the calendar year under subclause (I), shall—

“(aa) identify, to the maximum extent practicable, the reasons for the failure, including the sources, volumes, and characteristics of reformulated gasoline that contributed to the failure; and

“(bb) promulgate revisions to the regulations promulgated under clause (ii), to take effect not earlier than 180 days but not later than 270 days after the date of promulgation, to provide that, notwithstanding clause (iii)(II), all reformulated gasoline produced or distributed at each refinery or importer shall meet the standards applicable under clause (ii) not later than April 1
of the year following the report
in subclause (II) and for subse-
quent years.

“(vi) Regulations to control
hazardous air pollutants from
motor vehicles and motor vehicle
fuels.—Not later than July 1, 2005, the
Administrator shall promulgate final regu-
lations to control hazardous air pollutants
from motor vehicles and motor vehicle
fuels, as provided for in section 80.1045 of
title 40, Code of Federal Regulations (as
in effect on the date of enactment of this
subparagraph).”.

(c) Consolidation in Reformulated Gasoline
Regulations.—Not later than 180 days after the date
of enactment of this Act, the Administrator of the Envi-
ronmental Protection Agency shall revise the reformulated
gasoline regulations under subpart D of part 80 of title
40, Code of Federal Regulations, to consolidate the regula-
tions applicable to VOC-Control Regions 1 and 2 under
section 80.41 of that title by eliminating the less stringent
requirements applicable to gasoline designated for VOC-
Control Region 2 and instead applying the more stringent
requirements applicable to gasoline designated for VOC-Control Region 1.

(d) SAVINGS CLAUSE.—Nothing in this section is intended to affect or prejudice either any legal claims or actions with respect to regulations promulgated by the Administrator of the Environmental Protection Agency (hereinafter in this subsection referred to as the “Administrator”) prior to the date of enactment of this Act regarding emissions of toxic air pollutants from motor vehicles or the adjustment of standards applicable to a specific refinery or importer made under such prior regulations and the Administrator may apply such adjustments to the standards applicable to such refinery or importer under clause (iii)(I) of section 211(k)(1)(B) of the Clean Air Act, except that—

(1) the Administrator shall revise such adjustments to be based only on calendar years 1999–2000; and

(2) for adjustments based on toxic air pollutant emissions from reformulated gasoline significantly below the national annual average emissions of toxic air pollutants from all reformulated gasoline, the Administrator may revise such adjustments to take account of the scope of Federal or State prohibitions on the use of methyl tertiary butyl ether imposed...
after the date of the enactment of this paragraph, except that any such adjustment shall require such refiner or importer, to the greatest extent practicable, to maintain the reduction achieved during calendar years 1999–2000 in the average annual aggregate emissions of toxic air pollutants from reformulated gasoline produced or distributed by the refinery or importer; Provided, that any such adjustment shall not be made at a level below the average percentage of reductions of emissions of toxic air pollutants for reformulated gasoline supplied to PADD I during calendar years 1999–2000.

SEC. 1507. ANALYSES OF MOTOR VEHICLE FUEL CHANGES.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by inserting after subsection (o) the following:

“(p) ANALYSES OF MOTOR VEHICLE FUEL CHANGES AND EMISSIONS MODEL.—

“(1) Anti-backsliding analysis.—

“(A) Draft analysis.—Not later than 4 years after the date of enactment of this subsection, the Administrator shall publish for public comment a draft analysis of the changes in emissions of air pollutants and air quality due to the use of motor vehicle fuel and fuel additives resulting from implementation of the

“(B) FINAL ANALYSIS.—After providing a reasonable opportunity for comment but not later than 5 years after the date of enactment of this paragraph, the Administrator shall publish the analysis in final form.

“(2) EMISSIONS MODEL.—For the purposes of this subsection, as soon as the necessary data are available, the Administrator shall develop and finalize an emissions model that reasonably reflects the effects of gasoline characteristics or components on emissions from vehicles in the motor vehicle fleet during calendar year 2005.”.

SEC. 1508. DATA COLLECTION.

Section 205 of the Department of Energy Organization Act (42 U.S.C. 7135) is amended by adding at the end the following:

“(m) RENEWABLE FUELS SURVEY.—(1) In order to improve the ability to evaluate the effectiveness of the Nation’s renewable fuels mandate, the Administrator shall conduct and publish the results of a survey of renewable fuels demand in the motor vehicle fuels market in the United States monthly, and in a manner designed to protect the confidentiality of individual responses. In con-
ducting the survey, the Administrator shall collect information both on a national and regional basis, including each of the following:

“(A) The quantity of renewable fuels produced.
“(B) The quantity of renewable fuels blended.
“(C) The quantity of renewable fuels imported.
“(D) The quantity of renewable fuels demanded.
“(E) Market price data.
“(F) Such other analyses or evaluations as the Administrator finds is necessary to achieve the purposes of this section.

“(2) The Administrator shall also collect or estimate information both on a national and regional basis, pursuant to subparagraphs (A) through (F) of paragraph (1), for the 5 years prior to implementation of this subsection.

“(3) This subsection does not affect the authority of the Administrator to collect data under section 52 of the Federal Energy Administration Act of 1974 (15 U.S.C. 790a).”.

SEC. 1509. REDUCING THE PROLIFERATION OF STATE FUEL CONTROLS.

(a) EPA APPROVAL OF STATE PLANS WITH FUEL CONTROLS.—Section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)(C)) is amended by adding at the
end the following: “The Administrator shall not approve
a control or prohibition respecting the use of a fuel or fuel
additive under this subparagraph unless the Adminis-
trator, after consultation with the Secretary of Energy,
publishes in the Federal Register a finding that, in the
Administrator’s judgment, such control or prohibition will
not cause fuel supply or distribution interruptions or have
a significant adverse impact on fuel producibility in the
affected area or contiguous areas.”.

(b) Study.—The Administrator of the Environ-
mental Protection Agency (hereinafter in this subsection
referred to as the “Administrator”), in cooperation with
the Secretary of Energy, shall undertake a study of the
projected effects on air quality, the proliferation of fuel
blends, fuel availability, and fuel costs of providing a pref-
ERENCE FOR EACH OF THE FOLLOWING:

(A) Reformulated gasoline referred to in sub-
section (k) of section 211 of the Clean Air Act.

(B) A low RVP gasoline blend that has been
certified by the Administrator as having a Reid
Vapor Pressure of 7.0 pounds per square inch (psi).

(C) A low RVP gasoline blend that has been
certified by the Administrator as having a Reid
Vapor Pressure of 7.8 pounds per square inch (psi).
In carrying out such study, the Administrator shall obtain comments from affected parties. The Administrator shall submit the results of such study to the Congress not later than 18 months after the date of enactment of this Act, together with any recommended legislative changes.

SEC. 1510. FUEL SYSTEM REQUIREMENTS HARMONIZATION STUDY.

(a) Study.—

(1) In general.—The Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the “Administrator”) and the Secretary of Energy shall jointly conduct a study of Federal, State, and local requirements concerning motor vehicle fuels, including—

(A) requirements relating to reformulated gasoline, volatility (measured in Reid vapor pressure), oxygenated fuel, and diesel fuel; and

(B) other requirements that vary from State to State, region to region, or locality to locality.

(2) Required elements.—The study shall assess—

(A) the effect of the variety of requirements described in paragraph (1) on the supply, quality, and price of motor vehicle fuels avail-
able to consumers in various States and local-
ities;

(B) the effect of the requirements de-
scribed in paragraph (1) on achievement of—

(i) national, regional, and local air
quality standards and goals; and

(ii) related environmental and public
health protection standards and goals;

(C) the effect of Federal, State, and local
motor vehicle fuel regulations, including mul-
tiple motor vehicle fuel requirements, on—

(i) domestic refineries;

(ii) the fuel distribution system; and

(iii) industry investment in new capac-
ity;

(D) the effect of the requirements de-
scribed in paragraph (1) on emissions from ve-
hicles, refineries, and fuel handling facilities;

(E) the feasibility of developing national or
regional motor vehicle fuel slates for the 48
contiguous States that, while improving air
quality at the national, regional and local levels
consistent with the attainment of national am-
bient air quality standards, could—
(i) enhance flexibility in the fuel distribution infrastructure and improve fuel fungibility;

(ii) reduce price volatility and costs to consumers and producers;

(iii) provide increased liquidity to the gasoline market; and

(iv) enhance fuel quality, consistency, and supply;

(F) the feasibility of providing incentives to promote cleaner burning motor vehicle fuel;

and

(G) the extent to which improvements in air quality and any increases or decreases in the price of motor fuel can be projected to result from the Environmental Protection Agency’s Tier II requirements for conventional gasoline and vehicle emission systems, the reformulated gasoline program, the renewable content requirements established by this subtitle, State programs regarding gasoline volatility, and any other requirements imposed by States or localities affecting the composition of motor fuel.

(b) Report.—
(1) In general.—Not later than December 31, 2007, the Administrator and the Secretary of Energy shall submit to Congress a report on the results of the study conducted under subsection (a).

(2) Recommendations.—

(A) In general.—The report under this subsection shall contain recommendations for legislative and administrative actions that may be taken—

(i) to improve air quality;

(ii) to reduce costs to consumers and producers; and

(iii) to increase supply liquidity.

(B) Required considerations.—The recommendations under subparagraph (A) shall take into account the need to provide advance notice of required modifications to refinery and fuel distribution systems in order to ensure an adequate supply of motor vehicle fuel in all States.

(3) Consultation.—In developing the report under this subsection, the Administrator and the Secretary of Energy shall consult with—

(A) the Governors of the States;

(B) automobile manufacturers;
(C) motor vehicle fuel producers and distributors; and

(D) the public.

SEC. 1511. COMMERCIAL BYPRODUCTS FROM MUNICIPAL SOLID WASTE AND CELLULOSIC BIOMASS LOAN GUARANTEE PROGRAM.

(a) Definition of Municipal Solid Waste.—In this section, the term “municipal solid waste” has the meaning given the term “solid waste” in section 1004 of the Solid Waste Disposal Act (42 U.S.C. 6903).

(b) Establishment of Program.—The Secretary of Energy (hereinafter in this section referred to as the “Secretary”) shall establish a program to provide guarantees of loans by private institutions for the construction of facilities for the processing and conversion of municipal solid waste and cellulosic biomass into fuel ethanol and other commercial byproducts.

(c) Requirements.—The Secretary may provide a loan guarantee under subsection (b) to an applicant if—

(1) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in subsection (b);

(2) the prospective earning power of the applicant and the character and value of the security
pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(3) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(d) CRITERIA.—In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(1) meet all applicable Federal and State permitting requirements;

(2) are most likely to be successful; and

(3) are located in local markets that have the greatest need for the facility because of—

(A) the limited availability of land for waste disposal;

(B) the availability of sufficient quantities of cellulosic biomass; or

(C) a high level of demand for fuel ethanol or other commercial byproducts of the facility.

(e) MATURITY.—A loan guaranteed under subsection (b) shall have a maturity of not more than 20 years.
(f) TERMS AND CONDITIONS.—The loan agreement for a loan guaranteed under subsection (b) shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary.

(g) ASSURANCE OF REPAYMENT.—The Secretary shall require that an applicant for a loan guarantee under subsection (b) provide an assurance of repayment in the form of a performance bond, insurance, collateral, or other means acceptable to the Secretary in an amount equal to not less than 20 percent of the amount of the loan.

(h) GUARANTEE FEE.—The recipient of a loan guarantee under subsection (b) shall pay the Secretary an amount determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(i) FULL FAITH AND CREDIT.—The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest. The validity of the guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(j) REPORTS.—Until each guaranteed loan under this section has been repaid in full, the Secretary shall annu-
ally submit to Congress a report on the activities of the
Secretary under this section.

(k) AUTHORIZATION OF APPROPRIATIONS.—There
are authorized to be appropriated such sums as are nec-
essary to carry out this section.

(l) TERMINATION OF AUTHORITY.—The authority of
the Secretary to issue a loan guarantee under subsection
(b) terminates on the date that is 10 years after the date
of enactment of this Act.

SEC. 1512. CELLULOSIC BIOMASS AND WASTE-DERIVED
ETHANOL CONVERSION ASSISTANCE.

Section 211 of the Clean Air Act (42 U.S.C. 7545)
is amended by adding at the end the following:

“(r) CELLULOSIC BIOMASS AND WASTE-DERIVED
ETHANOL CONVERSION ASSISTANCE.—

“(1) IN GENERAL.—The Secretary of Energy
may provide grants to merchant producers of cel-
lulosic biomass ethanol and waste-derived ethanol in
the United States to assist the producers in building
eligible production facilities described in paragraph
(2) for the production of ethanol.

“(2) ELIGIBLE PRODUCTION FACILITIES.—A
production facility shall be eligible to receive a grant
under this subsection if the production facility—

“(A) is located in the United States; and
“(B) uses cellulosic biomass or waste-derived feedstocks derived from agricultural residues, wood residues, municipal solid waste, or agricultural byproducts as that term is used in section 919 of the Energy Policy Act of 2005.

“(3) Authorization of Appropriations.— There are authorized to be appropriated the following amounts to carry out this subsection:

“(A) $100,000,000 for fiscal year 2005.

“(B) $250,000,000 for fiscal year 2006.

“(C) $400,000,000 for fiscal year 2007.”.

SEC. 1513. BLENDING OF COMPLIANT REFORMULATED GASOLINES.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by adding at the end the following:

“(s) BLENDING OF COMPLIANT REFORMULATED GASOLINES.—

“(1) IN GENERAL.—Notwithstanding subsections (h) and (k) and subject to the limitations in paragraph (2) of this subsection, it shall not be a violation of this subtitle for a gasoline retailer, during any month of the year, to blend at a retail location batches of ethanol-blended and non-ethanol-blended reformulated gasoline, provided that—
“(A) each batch of gasoline to be blended has been individually certified as in compliance with subsections (h) and (k) prior to being blended;

“(B) the retailer notifies the Administrator prior to such blending, and identifies the exact location of the retail station and the specific tank in which such blending will take place;

“(C) the retailer retains and, as requested by the Administrator or the Administrator’s designee, makes available for inspection such certifications accounting for all gasoline at the retail outlet; and

“(D) the retailer does not, between June 1 and September 15 of each year, blend a batch of VOC-controlled, or ‘summer’, gasoline with a batch of non-VOC-controlled, or ‘winter’, gasoline (as these terms are defined under subsections (h) and (k)).

“(2) LIMITATIONS.—

“(A) FREQUENCY LIMITATION.—A retailer shall only be permitted to blend batches of compliant reformulated gasoline under this subsection a maximum of two blending periods between May 1 and September 15 of each calendar year.
“(B) DURATION OF BLENDING PERIOD.—Each blending period authorized under subparagraph (A) shall extend for a period of no more than 10 consecutive calendar days.

“(3) SURVEYS.—A sample of gasoline taken from a retail location that has blended gasoline within the past 30 days and is in compliance with subparagraphs (A), (B), (C), and (D) of paragraph (1) shall not be used in a VOC survey mandated by 40 C.F.R. Part 80.

“(4) STATE IMPLEMENTATION PLANS.—A State shall be held harmless and shall not be required to revise its State implementation plan under section 110 to account for the emissions from blended gasoline authorized under paragraph (1).

“(5) PRESERVATION OF STATE LAW.—Nothing in this subsection shall—

“(A) preempt existing State laws or regulations regulating the blending of compliant gasolines; or

“(B) prohibit a State from adopting such restrictions in the future.

“(6) REGULATIONS.—The Administrator shall promulgate, after notice and comment, regulations
implementing this subsection within one year after
the date of enactment of this subsection.

“(7) EFFECTIVE DATE.—This subsection shall
become effective 15 months after the date of its en-
actment and shall apply to blended batches of reform-
ulated gasoline on or after that date, regardless of
whether the implementing regulations required by
paragraph (6) have been promulgated by the Admin-
istrator by that date.

“(8) LIABILITY.—No person other than the
person responsible for blending under this subsection
shall be subject to an enforcement action or pen-
alties under subsection (d) solely arising from the
blending of compliant reformulated gasolines by the
retailers.

“(9) FORMULATION OF GASOLINE.—This sub-
section does not grant authority to the Adminis-
trator or any State (or any subdivision thereof) to
require reformulation of gasoline at the refinery to
adjust for potential or actual emissions increases due
to the blending authorized by this subsection.”.
Subtitle B—Underground Storage Tank Compliance

SEC. 1521. SHORT TITLE.

This subtitle may be cited as the “Underground Storage Tank Compliance Act of 2005”.

SEC. 1522. LEAKING UNDERGROUND STORAGE TANKS.

(a) IN GENERAL.—Section 9004 of the Solid Waste Disposal Act (42 U.S.C. 6991c) is amended by adding at the end the following:

“(f) TRUST FUND DISTRIBUTION.—

“(1) IN GENERAL.—

“(A) AMOUNT AND PERMITTED USES OF DISTRIBUTION.—The Administrator shall distribute to States not less than 80 percent of the funds from the Trust Fund that are made available to the Administrator under section 9014(2)(A) for each fiscal year for use in paying the reasonable costs, incurred under a cooperative agreement with any State for—

“(i) corrective actions taken by the State under section 9003(h)(7)(A);

“(ii) necessary administrative expenses, as determined by the Administrator, that are directly related to State
fund or State assurance programs under subsection (e)(1); or

“(iii) enforcement, by a State or a local government, of State or local regulations pertaining to underground storage tanks regulated under this subtitle.

“(B) USE OF FUNDS FOR ENFORCEMENT.—In addition to the uses of funds authorized under subparagraph (A), the Administrator may use funds from the Trust Fund that are not distributed to States under subparagraph (A) for enforcement of any regulation promulgated by the Administrator under this subtitle.

“(C) PROHIBITED USES.—Funds provided to a State by the Administrator under subparagraph (A) shall not be used by the State to provide financial assistance to an owner or operator to meet any requirement relating to underground storage tanks under subparts B, C, D, H, and G of part 280 of title 40, Code of Federal Regulations (as in effect on the date of enactment of this subsection).

“(2) ALLOCATION.—
“(A) Process.—Subject to subparagraphs (B) and (C), in the case of a State with which the Administrator has entered into a cooperative agreement under section 9003(h)(7)(A), the Administrator shall distribute funds from the Trust Fund to the State using an allocation process developed by the Administrator.

“(B) Diversion of State funds.—The Administrator shall not distribute funds under subparagraph (A)(iii) of subsection (f)(1) to any State that has diverted funds from a State fund or State assurance program for purposes other than those related to the regulation of underground storage tanks covered by this subtitle, with the exception of those transfers that had been completed earlier than the date of enactment of this subsection.

“(C) Revisions to process.—The Administrator may revise the allocation process referred to in subparagraph (A) after—

“(i) consulting with State agencies responsible for overseeing corrective action for releases from underground storage tanks; and
“(ii) taking into consideration, at a minimum, each of the following:

“(I) The number of confirmed releases from federally regulated leaking underground storage tanks in the States.

“(II) The number of federally regulated underground storage tanks in the States.

“(III) The performance of the States in implementing and enforcing the program.

“(IV) The financial needs of the States.

“(V) The ability of the States to use the funds referred to in subparagraph (A) in any year.

“(3) DISTRIBUTIONS TO STATE AGENCIES.—Distributions from the Trust Fund under this subsection shall be made directly to a State agency that—

“(A) enters into a cooperative agreement referred to in paragraph (2)(A); or

“(B) is enforcing a State program approved under this section.”.
(b) Withdrawal of Approval of State Funds.—Section 9004(e) of the Solid Waste Disposal Act (42 U.S.C. 6991c(e)) is amended by inserting the following new paragraph at the end thereof:

“(6) Withdrawal of Approval.—After an opportunity for good faith, collaborative efforts to correct financial deficiencies with a State fund, the Administrator may withdraw approval of any State fund or State assurance program to be used as a financial responsibility mechanism without withdrawing approval of a State underground storage tank program under section 9004(a).”.

(c) Ability to Pay.—Section 9003(h)(6) of the Solid Waste Disposal Act (42 U.S.C. 6591a(h)(6)) is amended by adding the following new subparagraph at the end thereof:

“(E) Inability or Limited Ability to Pay.—

“(i) In General.—In determining the level of recovery effort, or amount that should be recovered, the Administrator (or the State pursuant to paragraph (7)) shall consider the owner or operator’s ability to pay. An inability or limited ability to pay corrective action costs must be dem-
onstrated to the Administrator (or the State pursuant to paragraph (7)) by the owner or operator.

“(ii) CONSIDERATIONS.—In determining whether or not a demonstration is made under clause (i), the Administrator (or the State pursuant to paragraph (7)) shall take into consideration the ability of the owner or operator to pay corrective action costs and still maintain its basic business operations, including consideration of the overall financial condition of the owner or operator and demonstrable constraints on the ability of the owner or operator to raise revenues.

“(iii) INFORMATION.—An owner or operator requesting consideration under this subparagraph shall promptly provide the Administrator (or the State pursuant to paragraph (7)) with all relevant information needed to determine the ability of the owner or operator to pay corrective action costs.

“(iv) ALTERNATIVE PAYMENT METHODS.—The Administrator (or the State
pursuant to paragraph (7)) shall consider alternative payment methods as may be necessary or appropriate if the Administrator (or the State pursuant to paragraph (7)) determines that an owner or operator cannot pay all or a portion of the costs in a lump sum payment.

“(iii) **Misrepresentation.**—If an owner or operator provides false information or otherwise misrepresents their financial situation under clause (ii), the Administrator (or the State pursuant to paragraph (7)) shall seek full recovery of the costs of all such actions pursuant to the provisions of subparagraph (A) without consideration of the factors in subparagraph (B).”.

SEC. 1523. INSPECTION OF UNDERGROUND STORAGE TANKS.

(a) **Inspection Requirements.**—Section 9005 of the Solid Waste Disposal Act (42 U.S.C. 6991d) is amended by inserting the following new subsection at the end thereof:

“(c) **Inspection Requirements.**—...
“(1) UNINSPECTED TANKS.—In the case of underground storage tanks regulated under this subtitle that have not undergone an inspection since December 22, 1998, not later than 2 years after the date of enactment of this subsection, the Administrator or a State that receives funding under this subtitle, as appropriate, shall conduct on-site inspections of all such tanks to determine compliance with this subtitle and the regulations under this subtitle (40 C.F.R. 280) or a requirement or standard of a State program developed under section 9004.

“(2) PERIODIC INSPECTIONS.—After completion of all inspections required under paragraph (1), the Administrator or a State that receives funding under this subtitle, as appropriate, shall conduct on-site inspections of each underground storage tank regulated under this subtitle at least once every 3 years to determine compliance with this subtitle and the regulations under this subtitle (40 C.F.R. 280) or a requirement or standard of a State program developed under section 9004. The Administrator may extend for up to one additional year the first 3-year inspection interval under this paragraph if the State demonstrates that it has insufficient resources to
complete all such inspections within the first 3-year period.

“(3) Inspection Authority.—Nothing in this section shall be construed to diminish the Administrator’s or a State’s authorities under section 9005(a).”.

(b) Study of Alternative Inspection Programs.—The Administrator of the Environmental Protection Agency, in coordination with a State, shall gather information on compliance assurance programs that could serve as an alternative to the inspection programs under section 9005(c) of the Solid Waste Disposal Act (42 U.S.C. 6991d(c)) and shall, within 4 years after the date of enactment of this Act, submit a report to the Congress containing the results of such study.

SEC. 1524. OPERATOR TRAINING.

(a) In General.—Section 9010 of the Solid Waste Disposal Act (42 U.S.C. 6991i) is amended to read as follows:

“SEC. 9010. OPERATOR TRAINING.

“(a) Guidelines.—

“(1) In General.—Not later than 2 years after the date of enactment of the Underground Storage Tank Compliance Act of 2005, in consultation and cooperation with States and after public no-
tice and opportunity for comment, the Administrator shall publish guidelines that specify training requirements for—

“(A) persons having primary responsibility for on-site operation and maintenance of underground storage tank systems;

“(B) persons having daily on-site responsibility for the operation and maintenance of underground storage tanks systems; and

“(C) daily, on-site employees having primary responsibility for addressing emergencies presented by a spill or release from an underground storage tank system.

“(2) CONSIDERATIONS.—The guidelines described in paragraph (1) shall take into account—

“(A) State training programs in existence as of the date of publication of the guidelines;

“(B) training programs that are being employed by tank owners and tank operators as of the date of enactment of the Underground Storage Tank Compliance Act of 2005;

“(C) the high turnover rate of tank operators and other personnel;

“(D) the frequency of improvement in underground storage tank equipment technology;
“(E) the nature of the businesses in which the tank operators are engaged;

“(F) the substantial differences in the scope and length of training needed for the different classes of persons described in subparagraphs (A), (B), and (C) of paragraph (1); and

“(G) such other factors as the Administrator determines to be necessary to carry out this section.

“(b) STATE PROGRAMS.—

“(1) IN GENERAL.—Not later than 2 years after the date on which the Administrator publishes the guidelines under subsection (a)(1), each State that receives funding under this subtitle shall develop State-specific training requirements that are consistent with the guidelines developed under subsection (a)(1).

“(2) REQUIREMENTS.—State requirements described in paragraph (1) shall—

“(A) be consistent with subsection (a);

“(B) be developed in cooperation with tank owners and tank operators;

“(C) take into consideration training programs implemented by tank owners and tank
operators as of the date of enactment of this
section; and

“(D) be appropriately communicated to
tank owners and operators.

“(3) Financial incentive.—The Adminis-
trator may award to a State that develops and im-
plements requirements described in paragraph (1),
in addition to any funds that the State is entitled to
receive under this subtitle, not more than $200,000,
to be used to carry out the requirements.

“(e) Training.—All persons that are subject to the
operator training requirements of subsection (a) shall—

“(1) meet the training requirements developed
under subsection (b); and

“(2) repeat the applicable requirements devel-
oped under subsection (b), if the tank for which they
have primary daily on-site management responsibil-
ities is determined to be out of compliance with—

“(A) a requirement or standard promul-
gated by the Administrator under section 9003;
or

“(B) a requirement or standard of a State
program approved under section 9004.”.

(b) State Program Requirement.—Section
9004(a) of the Solid Waste Disposal Act (42 U.S.C.
6991c(a)) is amended by striking “and” at the end of paragraph (7), by striking the period at the end of paragraph (8) and inserting “; and”, and by adding the following new paragraph at the end thereof:

“(9) State-specific training requirements as required by section 9010.”.

(c) ENFORCEMENT.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e) is amended as follows:

(1) By striking “or” at the end of subparagraph (B).

(2) By adding the following new subparagraph after subparagraph (C):

“(D) the training requirements established by States pursuant to section 9010 (relating to operator training); or”.

(d) TABLE OF CONTENTS.—The item relating to section 9010 in table of contents for the Solid Waste Disposal Act is amended to read as follows:

“Sec. 9010. Operator training.”.

SEC. 1525. REMEDIATION FROM OXYGENATED FUEL ADDITIVES.

Section 9003(h) of the Solid Waste Disposal Act (42 U.S.C. 6991b(h)) is amended as follows:

(1) In paragraph (7)(A)—
(A) by striking “paragraphs (1) and (2) of this subsection” and inserting “paragraphs (1), (2), and (12)” ; and

(B) by striking “and including the authorities of paragraphs (4), (6), and (8) of this subsection” and inserting “and the authority under sections 9011 and 9012 and paragraphs (4), (6), and (8),”.

(2) By adding at the end the following:

“(12) REMEDIATION OF OXYGENATED FUEL CONTAMINATION.—

“(A) IN GENERAL.—The Administrator and the States may use funds made available under section 9014(2)(B) to carry out corrective actions with respect to a release of a fuel containing an oxygenated fuel additive that presents a threat to human health or welfare or the environment.

“(B) APPLICABLE AUTHORITY.—The Administrator or a State shall carry out subparagraph (A) in accordance with paragraph (2), and in the case of a State, in accordance with a cooperative agreement entered into by the Administrator and the State under paragraph (7).”
SEC. 1526. RELEASE PREVENTION, COMPLIANCE, AND ENFORCEMENT.

(a) Release Prevention and Compliance.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

"SEC. 9011. USE OF FUNDS FOR RELEASE PREVENTION AND COMPLIANCE.

"Funds made available under section 9014(2)(D) from the Trust Fund may be used to conduct inspections, issue orders, or bring actions under this subtitle—

"(1) by a State, in accordance with a grant or cooperative agreement with the Administrator, of State regulations pertaining to underground storage tanks regulated under this subtitle; and

"(2) by the Administrator, for tanks regulated under this subtitle (including under a State program approved under section 9004)."

(b) Government-Owned Tanks.—Section 9003 of the Solid Waste Disposal Act (42 U.S.C. 6991b) is amended by adding at the end the following:

"(i) Government-Owned Tanks.—

"(1) State Compliance Report.—(A) Not later than 2 years after the date of enactment of this subsection, each State that receives funding under this subtitle shall submit to the Administrator a State compliance report that—
“(i) lists the location and owner of each underground storage tank described in subparagraph (B) in the State that, as of the date of submission of the report, is not in compliance with section 9003; and

“(ii) specifies the date of the last inspection and describes the actions that have been and will be taken to ensure compliance of the underground storage tank listed under clause (i) with this subtitle.

“(B) An underground storage tank described in this subparagraph is an underground storage tank that is—

“(i) regulated under this subtitle; and

“(ii) owned or operated by the Federal, State, or local government.

“(C) The Administrator shall make each report, received under subparagraph (A), available to the public through an appropriate media.

“(2) Financial Incentive.—The Administrator may award to a State that develops a report described in paragraph (1), in addition to any other funds that the State is entitled to receive under this subtitle, not more than $50,000, to be used to carry out the report.
“(3) NOT A SAFE HARBOR.—This subsection does not relieve any person from any obligation or requirement under this subtitle.”.

(c) PUBLIC RECORD.—Section 9002 of the Solid Waste Disposal Act (42 U.S.C. 6991a) is amended by adding at the end the following:

“(d) PUBLIC RECORD.—

“(1) IN GENERAL.—The Administrator shall require each State that receives Federal funds to carry out this subtitle to maintain, update at least annually, and make available to the public, in such manner and form as the Administrator shall prescribe (after consultation with States), a record of underground storage tanks regulated under this subtitle.

“(2) CONSIDERATIONS.—To the maximum extent practicable, the public record of a State, respectively, shall include, for each year—

“(A) the number, sources, and causes of underground storage tank releases in the State;

“(B) the record of compliance by underground storage tanks in the State with—

“(i) this subtitle; or

“(ii) an applicable State program approved under section 9004; and
“(C) data on the number of underground storage tank equipment failures in the State.”.

(d) INCENTIVE FOR PERFORMANCE.—Section 9006 of the Solid Waste Disposal Act (42 U.S.C. 6991e) is amended by adding at the end the following:

“(e) INCENTIVE FOR PERFORMANCE.—Both of the following may be taken into account in determining the terms of a civil penalty under subsection (d):

“(1) The compliance history of an owner or operator in accordance with this subtitle or a program approved under section 9004.

“(2) Any other factor the Administrator considers appropriate.”.

(e) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

“Sec. 9011. Use of funds for release prevention and compliance.”.

SEC. 1527. DELIVERY PROHIBITION.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

“SEC. 9012. DELIVERY PROHIBITION.

“(a) REQUIREMENTS.—

“(1) PROHIBITION OF DELIVERY OR DEPOSIT.—Beginning 2 years after the date of enactment of this section, it shall be unlawful to deliver
to, deposit into, or accept a regulated substance into an underground storage tank at a facility which has been identified by the Administrator or a State implementing agency to be ineligible for fuel delivery or deposit.

“(2) GUIDANCE.—Within 1 year after the date of enactment of this section, the Administrator and States that receive funding under this subtitle shall, in consultation with the underground storage tank owner and product delivery industries, for territory for which they are the primary implementing agencies, publish guidelines detailing the specific processes and procedures they will use to implement the provisions of this section. The processes and procedures include, at a minimum—

“(A) the criteria for determining which underground storage tank facilities are ineligible for delivery or deposit;

“(B) the mechanisms for identifying which facilities are ineligible for delivery or deposit to the underground storage tank owning and fuel delivery industries;

“(C) the process for reclassifying ineligible facilities as eligible for delivery or deposit; and
“(D) a delineation of, or a process for determining, the specified geographic areas subject to paragraph (4).

“(3) Delivery Prohibition Notice.—

“(A) Roster.—The Administrator and each State implementing agency that receives funding under this subtitle shall establish within 24 months after the date of enactment of this section a Delivery Prohibition Roster listing underground storage tanks under the Administrator’s or the State’s jurisdiction that are determined to be ineligible for delivery or deposit pursuant to paragraph (2).

“(B) Notification.—The Administrator and each State, as appropriate, shall make readily known, to underground storage tank owners and operators and to product delivery industries, the underground storage tanks listed on a Delivery Prohibition Roster by:

“(i) posting such Rosters, including the physical location and street address of each listed underground storage tank, on official web sites and, if the Administrator or the State so chooses, other electronic means;
“(ii) updating these Rosters periodically; and

“(iii) installing a tamper-proof tag, seal, or other device blocking the fill pipes of such underground storage tanks to prevent the delivery of product into such underground storage tanks.

“(C) ROSTER UPDATES.—The Administrator and the State shall update the Delivery Prohibition Rosters as appropriate, but not less than once a month on the first day of the month.

“(D) TAMPERING WITH DEVICE.—

“(i) PROHIBITION.—It shall be unlawful for any person, other than an authorized representative of the Administrator or a State, as appropriate, to remove, tamper with, destroy, or damage a device installed by the Administrator or a State, as appropriate, under subparagraph (B)(iii) of this subsection.

“(ii) CIVIL PENALTIES.—Any person violating clause (i) of this subparagraph shall be subject to a civil penalty not to exceed $10,000 for each violation.
“(4) LIMITATION.—

“(A) RURAL AND REMOTE AREAS.—Subject to subparagraph (B), the Administrator or a State shall not include an underground storage tank on a Delivery Prohibition Roster under paragraph (3) if an urgent threat to public health, as determined by the Administrator, does not exist and if such a delivery prohibition would jeopardize the availability of, or access to, fuel in any rural and remote areas.

“(B) APPLICABILITY OF LIMITATION.—The limitation under subparagraph (A) shall apply only during the 180-day period following the date of a determination by the Administrator or the appropriate State that exercising the authority of paragraph (3) is limited by subparagraph (A).

“(b) EFFECT ON STATE AUTHORITY.—Nothing in this section shall affect the authority of a State to prohibit the delivery of a regulated substance to an underground storage tank.

“(c) DEFENSE TO VIOLATION.—A person shall not be in violation of subsection (a)(1) if the underground storage tank into which a regulated substance is delivered is not listed on the Administrator’s or the appropriate
State’s Prohibited Delivery Roster 7 calendar days prior to the delivery being made.”.

(b) ENFORCEMENT.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e(d)(2)) is amended as follows:

(1) By adding the following new subparagraph after subparagraph (D):

“(E) the delivery prohibition requirement established by section 9012,.”.

(2) By adding the following new sentence at the end thereof: “Any person making or accepting a delivery or deposit of a regulated substance to an underground storage tank at an ineligible facility in violation of section 9012 shall also be subject to the same civil penalty for each day of such violation.”.

(c) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

“Sec. 9012. Delivery prohibition.”.

SEC. 1528. FEDERAL FACILITIES.

Section 9007 of the Solid Waste Disposal Act (42 U.S.C. 6991f) is amended to read as follows:

“SEC. 9007. FEDERAL FACILITIES.

“(a) IN GENERAL.—Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government (1) having jurisdiction over any underground storage tank or underground
storage tank system, or (2) engaged in any activity resulting, or which may result, in the installation, operation, management, or closure of any underground storage tank, release response activities related thereto, or in the delivery, acceptance, or deposit of any regulated substance to an underground storage tank or underground storage tank system shall be subject to, and comply with, all Federal, State, interstate, and local requirements, both substantive and procedural (including any requirement for permits or reporting or any provisions for injunctive relief and such sanctions as may be imposed by a court to enforce such relief), respecting underground storage tanks in the same manner, and to the same extent, as any person is subject to such requirements, including the payment of reasonable service charges. The Federal, State, interstate, and local substantive and procedural requirements referred to in this subsection include, but are not limited to, all administrative orders and all civil and administrative penalties and fines, regardless of whether such penalties or fines are punitive or coercive in nature or are imposed for isolated, intermittent, or continuing violations. The United States hereby expressly waives any immunity otherwise applicable to the United States with respect to any such substantive or procedural requirement (including, but not limited to, any injunctive relief, administrative order or
civil or administrative penalty or fine referred to in the preceding sentence, or reasonable service charge). The reasonable service charges referred to in this subsection include, but are not limited to, fees or charges assessed in connection with the processing and issuance of permits, renewal of permits, amendments to permits, review of plans, studies, and other documents, and inspection and monitoring of facilities, as well as any other nondiscriminatory charges that are assessed in connection with a Federal, State, interstate, or local underground storage tank regulatory program. Neither the United States, nor any agent, employee, or officer thereof, shall be immune or exempt from any process or sanction of any State or Federal Court with respect to the enforcement of any such injunctive relief. No agent, employee, or officer of the United States shall be personally liable for any civil penalty under any Federal, State, interstate, or local law concerning underground storage tanks with respect to any act or omission within the scope of the official duties of the agent, employee, or officer. An agent, employee, or officer of the United States shall be subject to any criminal sanction (including, but not limited to, any fine or imprisonment) under any Federal or State law concerning underground storage tanks, but no department, agency, or instrumentality of the executive, legislative, or judicial
branch of the Federal Government shall be subject to any such sanction. The President may exempt any underground storage tank of any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption.

“(b) Review of and Report on Federal Underground Storage Tanks.—

“(1) Review.—Not later than 12 months after the date of enactment of the Underground Storage Tank Compliance Act of 2005, each Federal agency that owns or operates 1 or more underground storage tanks, or that manages land on which 1 or more
underground storage tanks are located, shall submit to the Administrator, the Committee on Energy and Commerce of the United States House of Representatives, and the Committee on the Environment and Public Works of the United States Senate a compliance strategy report that—

“(A) lists the location and owner of each underground storage tank described in this paragraph;

“(B) lists all tanks that are not in compliance with this subtitle that are owned or operated by the Federal agency;

“(C) specifies the date of the last inspection by a State or Federal inspector of each underground storage tank owned or operated by the agency;

“(D) lists each violation of this subtitle respecting any underground storage tank owned or operated by the agency;

“(E) describes the operator training that has been provided to the operator and other persons having primary daily on-site management responsibility for the operation and maintenance of underground storage tanks owned or operated by the agency; and
“(F) describes the actions that have been and will be taken to ensure compliance for each underground storage tank identified under sub-paragraph (B).

“(2) NOT A SAFE HARBOR.—This subsection does not relieve any person from any obligation or requirement under this subtitle.”.

SEC. 1529. TANKS ON TRIBAL LANDS.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding the following at the end thereof:

“SEC. 9013. TANKS ON TRIBAL LANDS.

“(a) STRATEGY.—The Administrator, in coordination with Indian tribes, shall, not later than 1 year after the date of enactment of this section, develop and implement a strategy—

“(1) giving priority to releases that present the greatest threat to human health or the environment, to take necessary corrective action in response to releases from leaking underground storage tanks located wholly within the boundaries of—

“(A) an Indian reservation; or

“(B) any other area under the jurisdiction of an Indian tribe; and
“(2) to implement and enforce requirements concerning underground storage tanks located wholly within the boundaries of—

“(A) an Indian reservation; or

“(B) any other area under the jurisdiction of an Indian tribe.

“(b) REPORT.—Not later than 2 years after the date of enactment of this section, the Administrator shall submit to Congress a report that summarizes the status of implementation and enforcement of this subtitle in areas located wholly within—

“(1) the boundaries of Indian reservations; and

“(2) any other areas under the jurisdiction of an Indian tribe.

The Administrator shall make the report under this subsection available to the public.

“(c) NOT A SAFE HARBOR.—This section does not relieve any person from any obligation or requirement under this subtitle.

“(d) STATE AUTHORITY.—Nothing in this section applies to any underground storage tank that is located in an area under the jurisdiction of a State, or that is subject to regulation by a State, as of the date of enactment of this section.”.
(b) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

"Sec. 9013. Tanks on Tribal lands."

SEC. 1530. ADDITIONAL MEASURES TO PROTECT GROUND-WATER.

(a) In General.—Section 9003 of the Solid Waste Disposal Act (42 U.S.C. 6991b) is amended by adding the following new subsection at the end:

"(i) ADDITIONAL MEASURES TO PROTECT GROUND-WATER FROM CONTAMINATION.—The Administrator shall require each State that receives funding under this subtitle to require one of the following:

"(1) TANK AND PIPING SECONDARY CONTAINMENT.—(A) Each new underground storage tank, or piping connected to any such new tank, installed after the effective date of this subsection, or any existing underground storage tank, or existing piping connected to such existing tank, that is replaced after the effective date of this subsection, shall be secondarily contained and monitored for leaks if the new or replaced underground storage tank or piping is within 1,000 feet of any existing community water system or any existing potable drinking water well.

"(B) In the case of a new underground storage tank system consisting of one or more underground
storage tanks and connected by piping, subparagraph (A) shall apply to all underground storage tanks and connected pipes comprising such system.

“(C) In the case of a replacement of an existing underground storage tank or existing piping connected to the underground storage tank, subparagraph (A) shall apply only to the specific underground storage tank or piping being replaced, not to other underground storage tanks and connected pipes comprising such system.

“(D) Each installation of a new motor fuel dispenser system, after the effective date of this subsection, shall include under-dispenser spill containment if the new dispenser is within 1,000 feet of any existing community water system or any existing potable drinking water well.

“(E) This paragraph shall not apply to repairs to an underground storage tank, piping, or dispenser that are meant to restore a tank, pipe, or dispenser to operating condition

“(F) As used in this subsection:

“(i) The term ‘secondarily contained’ means a release detection and prevention system that meets the requirements of 40 CFR
280.43(g), but shall not include under-dispenser spill containment or control systems.

“(ii) The term ‘underground storage tank’ has the meaning given to it in section 9001, except that such term does not include tank combinations or more than a single underground pipe connected to a tank.

“(iii) The term ‘installation of a new motor fuel dispenser system’ means the installation of a new motor fuel dispenser and the equipment necessary to connect the dispenser to the underground storage tank system, but does not mean the installation of a motor fuel dispenser installed separately from the equipment need to connect the dispenser to the underground storage tank system.

“(G) The Administrator may issue regulations or guidelines implementing the requirements of this subsection.

“(2) EVIDENCE OF FINANCIAL RESPONSIBILITY AND CERTIFICATION.—

“(A) MANUFACTURER AND INSTALLER FINANCIAL RESPONSIBILITY.—A person that manufactures an underground storage tank or piping for an underground storage tank system
or that installs an underground storage tank system is required to maintain evidence of financial responsibility under section 9003(d) in order to provide for the costs of corrective actions directly related to releases caused by improper manufacture or installation unless the person can demonstrate themselves to be already covered as an owner or operator of an underground storage tank under section 9003.

“(B) INSTALLER CERTIFICATION.—The Administrator and each State that receives funding under this subtitle, as appropriate, shall require that a person that installs an underground storage tank system is—

“(i) certified or licensed by the tank and piping manufacturer;

“(ii) certified or licensed by the Administrator or a State, as appropriate;

“(iii) has their underground storage tank system installation certified by a registered professional engineer with education and experience in underground storage tank system installation;

“(iv) has had their installation of the underground storage tank inspected and
approved by the Administrator or the State, as appropriate;

“(v) compliant with a code of practice developed by a nationally recognized association or independent testing laboratory and in accordance with the manufacturers instructions; or

“(vi) compliant with another method that is determined by the Administrator or a State, as appropriate, to be no less protective of human health and the environment.”.

(b) EFFECTIVE DATE.—This subsection shall take effect 18 months after the date of enactment of this subsection

(c) PROMULGATION OF REGULATIONS OR GUIDELINES.—The Administrator shall issue regulations or guidelines implementing the requirements of this subsection, including guidance to differentiate between the terms “repair” and “replace” for the purposes of section 9003(i)(1) of the Solid Waste Disposal Act.

(d) PENALTIES.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e(d)(2)) is amended as follows:

(1) By striking “or” at the end of subparagraph (B).
(2) By inserting ‘‘; or’’ at the end of subpara-
graph (C).

(3) By adding the following new subparagraph
after subparagraph (C):

“(D) the requirements established in sec-
tion 9003(i),’’.

SEC. 1531. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—Subtitle I of the Solid Waste Dis-
posal Act (42 U.S.C. 6991 et seq.) is amended by adding
at the end the following:

“SEC. 9014. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated to the Ad-
ministrator the following amounts:

“(1) To carry out subtitle I (except sections
9003(h), 9005(c), 9011 and 9012) $50,000,000 for
each of fiscal years 2005 through 2009.

“(2) From the Trust Fund, notwithstanding
section 9508(c)(1) of the Internal Revenue Code of
1986:

“(A) to carry out section 9003(h) (except
section 9003(h)(12)) $200,000,000 for each of
fiscal years 2005 through 2009;

“(B) to carry out section 9003(h)(12),
$200,000,000 for each of fiscal years 2005
through 2009;
“(C) to carry out sections 9004(f) and 9005(c) $100,000,000 for each of fiscal years 2005 through 2009; and

“(D) to carry out sections 9011 and 9012 $55,000,000 for each of fiscal years 2005 through 2009.”.

(b) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

“Sec. 9014. Authorization of appropriations.”.

SEC. 1532. CONFORMING AMENDMENTS.

(a) IN GENERAL.—Section 9001 of the Solid Waste Disposal Act (42 U.S.C. 6991) is amended as follows:

(1) By striking “For the purposes of this sub-
title—” and inserting “In this subtitle:”.

(2) By redesignating paragraphs (1), (2), (3),
(4), (5), (6), (7), and (8) as paragraphs (10), (7),
(4), (3), (8), (5), (2), and (6), respectively.

(3) By inserting before paragraph (2) (as redes-
ignated by paragraph (2) of this subsection) the fol-
lowing:

“(1) INDIAN TRIBE.—

“(A) IN GENERAL.—The term ‘Indian tribe’ means any Indian tribe, band, nation, or other organized group or community that is rec-
ognized as being eligible for special programs
and services provided by the United States to Indians because of their status as Indians.

“(B) INCLUSIONS.—The term ‘Indian tribe’ includes an Alaska Native village, as defined in or established under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.); and”.

(4) By inserting after paragraph (8) (as redesignated by paragraph (2) of this subsection) the following:

“(9) TRUST FUND.—The term ‘Trust Fund’ means the Leaking Underground Storage Tank Trust Fund established by section 9508 of the Internal Revenue Code of 1986.”.

(b) CONFORMING AMENDMENTS.—The Solid Waste Disposal Act (42 U.S.C. 6901 and following) is amended as follows:

(1) Section 9003(f) (42 U.S.C. 6991b(f)) is amended—

(A) in paragraph (1), by striking “9001(2)(B)” and inserting “9001(7)(B)”; and

(B) in paragraphs (2) and (3), by striking “9001(2)(A)” each place it appears and inserting “9001(7)(A)”.

•HR 6 IH
(2) Section 9003(h) (42 U.S.C. 6991b(h)) is amended in paragraphs (1), (2)(C), (7)(A), and (11) by striking “Leaking Underground Storage Tank Trust Fund” each place it appears and inserting “Trust Fund”.

(3) Section 9009 (42 U.S.C. 6991h) is amended—

(A) in subsection (a), by striking “9001(2)(B)” and inserting “9001(7)(B)”; and

(B) in subsection (d), by striking “section 9001(1) (A) and (B)” and inserting “subparagraphs (A) and (B) of section 9001(10)”.

SEC. 1533. TECHNICAL AMENDMENTS.

The Solid Waste Disposal Act is amended as follows:

(1) Section 9001(4)(A) (42 U.S.C. 6991(4)(A)) is amended by striking “sustances” and inserting “substances”.

(2) Section 9003(f)(1) (42 U.S.C. 6991b(f)(1)) is amended by striking “subsection (c) and (d) of this section” and inserting “subsections (c) and (d)”.

(3) Section 9004(a) (42 U.S.C. 6991e(a)) is amended by striking “in 9001(2) (A) or (B) or both” and inserting “in subparagraph (A) or (B) of section 9001(7)”.
(4) Section 9005 (42 U.S.C. 6991d) is amend-
ed—

(A) in subsection (a), by striking “study
taking” and inserting “study, taking”; 

(B) in subsection (b)(1), by striking
“relevent” and inserting “relevant”; and

(C) in subsection (b)(4), by striking
“Environmental” and inserting “Environ-
mental”.

Subtitle C—Boutique Fuels

SEC. 1541. REDUCING THE PROLIFERATION OF BOUTIQUE
FUELS.

(a) Temporary Waivers During Supply Emer-
genies.—Section 211(e)(4)(C) of the Clean Air Act (42
U.S.C. 7545(e)(4)(C)) is amended by inserting “(i)” after
“(C)” and by adding the following new clauses at the end
thereof:

“(ii) The Administrator may temporarily waive a con-
trol or prohibition respecting the use of a fuel or fuel addi-
tive required or regulated by the Administrator pursuant
to subsection (c), (h), (i), (k), or (m) of this section or
prescribed in an applicable implementation plan under sec-
tion 110 approved by the Administrator under clause (i)
of this subparagraph if, after consultation with, and con-
currence by, the Secretary of Energy, the Administrator determines that—

“(I) extreme and unusual fuel or fuel additive supply circumstances exist in a State or region of the Nation which prevent the distribution of an adequate supply of the fuel or fuel additive to consumers;

“(II) such extreme and unusual fuel and fuel additive supply circumstances are the result of a natural disaster, an Act of God, a pipeline or refinery equipment failure, or another event that could not reasonably have been foreseen or prevented and not the lack of prudent planning on the part of the suppliers of the fuel or fuel additive to such State or region; and

“(III) it is in the public interest to grant the waiver (for example, when a waiver is necessary to meet projected temporary shortfalls in the supply of the fuel or fuel additive in a State or region of the Nation which cannot otherwise be compensated for).

“(iii) If the Administrator makes the determinations required under clause (ii), such a temporary extreme and unusual fuel and fuel additive supply circumstances waiver shall be permitted only if—
“(I) the waiver applies to the smallest geographic area necessary to address the extreme and unusual fuel and fuel additive supply circumstances;

“(II) the waiver is effective for a period of 20 calendar days or, if the Administrator determines that a shorter waiver period is adequate, for the shortest practicable time period necessary to permit the correction of the extreme and unusual fuel and fuel additive supply circumstances and to mitigate impact on air quality;

“(III) the waiver permits a transitional period, the exact duration of which shall be determined by the Administrator, after the termination of the temporary waiver to permit wholesalers and retailers to blend down their wholesale and retail inventory;

“(IV) the waiver applies to all persons in the motor fuel distribution system; and

“(V) the Administrator has given public notice to all parties in the motor fuel distribution system, and local and State regulators, in the State or region to be covered by the waiver.

The term ‘motor fuel distribution system’ as used in this clause shall be defined by the Administrator through rule-making.
“(iv) Within 180 days of the date of enactment of this clause, the Administrator shall promulgate regulations to implement clauses (ii) and (iii).

“(v) Nothing in this subparagraph shall—

“(I) limit or otherwise affect the application of any other waiver authority of the Administrator pursuant to this section or pursuant to a regulation promulgated pursuant to this section; and

“(II) subject any State or person to an enforcement action, penalties, or liability solely arising from actions taken pursuant to the issuance of a waiver under this subparagraph.”.

(b) LIMIT ON NUMBER OF BOUTIQUE FUELS.—Section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)), as amended by subsection (a), is further amended by adding at the end the following:

“(v)(I) The Administrator shall have no authority, when considering a State implementation plan or a State implementation plan revision, to approve under this paragraph any fuel included in such plan or revision if the effect of such approval increases the total number of fuels approved under this paragraph as of September 1, 2004, in all State implementation plans.

“(II) The Administrator, in consultation with the Secretary of Energy, shall determine the total number of
fuels approved under this paragraph as of September 1, 2004, in all State implementation plans and shall publish a list of such fuels, including the states and Petroleum Administration for Defense District in which they are used, in the Federal Register for public review and comment no later than 90 days after enactment.

“(III) The Administrator shall remove a fuel from the list published under subclause (II) if a fuel ceases to be included in a State implementation plan or if a fuel in a State implementation plan is identical to a Federal fuel formulation implemented by the Administrator, but the Administrator shall not reduce the total number of fuels authorized under the list published under subclause (II).

“(IV) Subclause (I) shall not limit the Administrator’s authority to approve a control or prohibition respecting any new fuel under this paragraph in a State implementation plan or revision to a State implementation plan if such new fuel:

“(aa) completely replaces a fuel on the list published under subclause (II); or

“(bb) does not increase the total number of fuels on the list published under subclause (II) as of September 1, 2004.

In the event that the total number of fuels on the list published under subclause (II) at the time of the Administrator-
tor’s consideration of a control or prohibition respecting a new fuel is lower than the total number of fuels on such list as of September 1, 2004, the Administrator may approve a control or prohibition respecting a new fuel under this subclause if the Administrator, after consultation with the Secretary of Energy, publishes in the Federal Register after notice and comment a finding that, in the Administrator’s judgment, such control or prohibition respecting a new fuel will not cause fuel supply or distribution interruptions or have a significant adverse impact on fuel producibility in the affected area or contiguous areas.

“(V) The Administrator shall have no authority under this paragraph, when considering any particular State’s implementation plan or a revision to that State’s implementation plan, to approve any fuel unless that fuel was, as of the date of such consideration, approved in at least one State implementation plan in the applicable Petroleum Administration for Defense District. However, the Administrator may approve as part of a State implementation plan or State implementation plan revision a fuel with a summertime Reid Vapor Pressure of 7.0 psi. In no event shall such approval by the Administrator cause an increase in the total number of fuels on the list published under subclause (II).
“(VI) Nothing in this clause shall be construed to have any effect regarding any available authority of States to require the use of any fuel additive registered in accordance with subsection (b), including any fuel additive registered in accordance with subsection (b) after the enactment of this subclause.”.

(e) Study and Report to Congress on Boutique Fuels.—

(1) Joint Study.—The Administrator of the Environmental Protection Agency and the Secretary of Energy shall undertake a study of the effects on air quality, on the number of fuel blends, on fuel availability, on fuel fungibility, and on fuel costs of the State plan provisions adopted pursuant to section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)(C)).

(2) Focus of Study.—The primary focus of the study required under paragraph (1) shall be to determine how to develop a Federal fuels system that maximizes motor fuel fungibility and supply, preserves air quality standards, and reduces motor fuel price volatility that results from the proliferation of boutique fuels, and to recommend to Congress such legislative changes as are necessary to implement such a system. The study should include
the impacts on overall energy supply, distribution, and use as a result of the legislative changes recommended.

(3) Responsibility of Administrator.—In carrying out the study required by this section, the Administrator shall coordinate obtaining comments from affected parties interested in the air quality impact assessment portion of the study. The Administrator shall use sound and objective science practices, shall consider the best available science, and shall consider and include a description of the weight of the scientific evidence.

(4) Responsibility of Secretary.—In carrying out the study required by this section, the Secretary shall coordinate obtaining comments from affected parties interested in the fuel availability, number of fuel blends, fuel fungibility and fuel costs portion of the study.

(5) Report to Congress.—The Administrator and the Secretary jointly shall submit the results of the study required by this section in a report to the Congress not later than 12 months after the date of the enactment of this Act, together with any recommended regulatory and legislative changes. Such report shall be submitted to the Committee on En-
energy and Commerce of the House of Representatives and the Committee on Environment and Public Works of the Senate.

(6) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated jointly to the Administrator and the Secretary $500,000 for the completion of the study required under this subsection.

(d) DEFINITIONS.—In this section:

(1) The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) The term “Secretary” means the Secretary of Energy.

(3) The term “fuel” means gasoline, diesel fuel, and any other liquid petroleum product commercially known as gasoline and diesel fuel for use in highway and nonroad motor vehicles.

(4) The term “a control or prohibition respecting a new fuel” means a control or prohibition on the formulation, composition, or emissions characteristics of a fuel that would require the increase or decrease of a constituent in gasoline or diesel fuel.
TITLE XVI—STUDIES

SEC. 1601. STUDY ON INVENTORY OF PETROLEUM AND NATURAL GAS STORAGE.

(a) DEFINITION.—For purposes of this section “petroleum” means crude oil, motor gasoline, jet fuel, distillates, and propane.

(b) STUDY.—The Secretary of Energy shall conduct a study on petroleum and natural gas storage capacity and operational inventory levels, nationwide and by major geographical regions.

(c) CONTENTS.—The study shall address—

(1) historical normal ranges for petroleum and natural gas inventory levels;

(2) historical and projected storage capacity trends;

(3) estimated operation inventory levels below which outages, delivery slowdown, rationing, interruptions in service, or other indicators of shortage begin to appear;

(4) explanations for inventory levels dropping below normal ranges; and

(5) the ability of industry to meet United States demand for petroleum and natural gas without shortages or price spikes, when inventory levels are below normal ranges.
(d) Report to Congress.—Not later than 1 year after the date of enactment of this Act, the Secretary of Energy shall submit a report to Congress on the results of the study, including findings and any recommendations for preventing future supply shortages.

SEC. 1605. STUDY OF ENERGY EFFICIENCY STANDARDS.

The Secretary of Energy shall contract with the National Academy of Sciences for a study, to be completed within 1 year after the date of enactment of this Act, to examine whether the goals of energy efficiency standards are best served by measurement of energy consumed, and efficiency improvements, at the actual site of energy consumption, or through the full fuel cycle, beginning at the source of energy production. The Secretary shall submit the report to Congress.

SEC. 1606. TELECOMMUTING STUDY.

(a) Study Required.—The Secretary, in consultation with the Commission, the Director of the Office of Personnel Management, the Administrator of General Services, and the Administrator of NTIA, shall conduct a study of the energy conservation implications of the widespread adoption of telecommuting by Federal employees in the United States.

(b) Required Subjects of Study.—The study required by subsection (a) shall analyze the following sub-
jects in relation to the energy saving potential of telecommuting by Federal employees:

(1) Reductions of energy use and energy costs in commuting and regular office heating, cooling, and other operations.

(2) Other energy reductions accomplished by telecommuting.

(3) Existing regulatory barriers that hamper telecommuting, including barriers to broadband telecommunications services deployment.

(4) Collateral benefits to the environment, family life, and other values.

(c) REPORT REQUIRED.—The Secretary shall submit to the President and Congress a report on the study required by this section not later than 6 months after the date of enactment of this Act. Such report shall include a description of the results of the analysis of each of the subject described in subsection (b).

(d) DEFINITIONS.—As used in this section:

(1) SECRETARY.—The term “Secretary” means the Secretary of Energy.

(2) COMMISSION.—The term “Commission” means the Federal Communications Commission.
(3) NTIA.—The term “NTIA” means the National Telecommunications and Information Administration of the Department of Commerce.

(4) TELECOMMUTING.—The term “telecommuting” means the performance of work functions using communications technologies, thereby eliminating or substantially reducing the need to commute to and from traditional worksites.

(5) FEDERAL EMPLOYEE.—The term “Federal employee” has the meaning provided the term “employee” by section 2105 of title 5, United States Code.

SEC. 1607. LIHEAP REPORT.

Not later than 1 year after the date of enactment of this Act, the Secretary of Health and Human Services shall transmit to Congress a report on how the Low-Income Home Energy Assistance Program could be used more effectively to prevent loss of life from extreme temperatures. In preparing such report, the Secretary shall consult with appropriate officials in all 50 States and the District of Columbia.

SEC. 1608. OIL BYPASS FILTRATION TECHNOLOGY.

The Secretary of Energy and the Administrator of the Environmental Protection Agency shall—
(1) conduct a joint study of the benefits of oil bypass filtration technology in reducing demand for oil and protecting the environment;

(2) examine the feasibility of using oil bypass filtration technology in Federal motor vehicle fleets; and

(3) include in such study, prior to any determination of the feasibility of using oil bypass filtration technology, the evaluation of products and various manufacturers.

SEC. 1609. TOTAL INTEGRATED THERMAL SYSTEMS.

The Secretary of Energy shall—

(1) conduct a study of the benefits of total integrated thermal systems in reducing demand for oil and protecting the environment; and

(2) examine the feasibility of using total integrated thermal systems in Department of Defense and other Federal motor vehicle fleets.

SEC. 1610. UNIVERSITY COLLABORATION.

Not later than 2 years after the date of enactment of this Act, the Secretary of Energy shall transmit to Congress a report that examines the feasibility of promoting collaborations between large institutions of higher education and small institutions of higher education through grants, contracts, and cooperative agreements made by the
Secretary for energy projects. The Secretary shall also consider providing incentives for the inclusion of small institutions of higher education, including minority-serving institutions, in energy research grants, contracts, and cooperative agreements.

SEC. 1611. RELIABILITY AND CONSUMER PROTECTION ASSESSMENT.

Not later than 5 years after the date of enactment of this Act, and each 5 years thereafter, the Federal Energy Regulatory Commission shall assess the effects of the exemption of electric cooperatives and government-owned utilities from Commission regulation under section 201(f) of the Federal Power Act. The assessment shall include any effects on—

1. reliability of interstate electric transmission networks;
2. benefit to consumers, and efficiency, of competitive wholesale electricity markets;
3. just and reasonable rates for electricity consumers; and
4. the ability of the Commission to protect electricity consumers.

If the Commission finds that the 201(f) exemption results in adverse effects on consumers or electric reliability, the Commission shall make appropriate recommendations to
Congress pursuant to section 311 of the Federal Power Act.

**SEC. 1612. REPORT ON ENERGY INTEGRATION WITH LATIN AMERICA.**

The Secretary of Energy shall submit an annual report to the Committee on Energy and Commerce of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate concerning the status of energy export development in Latin America and efforts by the Secretary and other departments and agencies of the United States to promote energy integration with Latin America. The report shall contain a detailed analysis of the status of energy export development in Mexico and a description of all significant efforts by the Secretary and other departments and agencies to promote a constructive relationship with Mexico regarding the development of that nation’s energy capacity. In particular this report shall outline efforts the Secretary and other departments and agencies have made to ensure that regulatory approval and oversight of United States/Mexico border projects that result in the expansion of Mexican energy capacity are effectively coordinated across departments and with the Mexican government.
SEC. 1613. LOW-VOLUME GAS RESERVOIR STUDY.

(a) STUDY.—The Secretary of Energy shall make a grant to an organization of oil and gas producing States, specifically those containing significant numbers of marginal oil and natural gas wells, for conducting an annual study of low-volume natural gas reservoirs. Such organization shall work with the State geologist of each State being studied.

(b) CONTENTS.—The studies under this section shall—

(1) determine the status and location of marginal wells and gas reservoirs;

(2) gather the production information of these marginal wells and reservoirs;

(3) estimate the remaining producible reserves based on variable pipeline pressures;

(4) locate low-pressure gathering facilities and pipelines;

(5) recommend incentives which will enable the continued production of these resources;

(6) produce maps and literature to disseminate to States to promote conservation of natural gas reserves; and

(7) evaluate the amount of natural gas that is being wasted through the practice of venting or flar-
ing of natural gas produced in association with crude oil well production.

(c) **DATA ANALYSIS.**—Data development and analysis under this section shall be performed by an institution of higher education with GIS capabilities. If the organization receiving the grant under subsection (a) does not have GIS capabilities, such organization shall contract with one or more entities with—

(1) technological capabilities and resources to perform advanced image processing, GIS programming, and data analysis; and

(2) the ability to—

(A) process remotely sensed imagery with high spatial resolution;

(B) deploy global positioning systems;

(C) process and synthesize existing, variable-format gas well, pipeline, gathering facility, and reservoir data;

(D) create and query GIS databases with infrastructure location and attribute information;

(E) write computer programs to customize relevant GIS software;
(F) generate maps, charts, and graphs which summarize findings from data research for presentation to different audiences; and

(G) deliver data in a variety of formats, including Internet Map Server for query and display, desktop computer display, and access through handheld personal digital assistants.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy for carrying out this section—

(1) $1,500,000 for fiscal year 2006; and

(2) $450,000 for each of the fiscal years 2007 through 2010.

(e) DEFINITIONS.—For purposes of this section, the term “GIS” means geographic information systems technology that facilitates the organization and management of data with a geographic component.

TITLE XVII—RENEWABLE ENERGY

SEC. 1701. GRANTS TO IMPROVE THE COMMERCIAL VALUE OF FOREST BIOMASS FOR ELECTRIC ENERGY, USEFUL HEAT, TRANSPORTATION FUELS, PETROLEUM-BASED PRODUCT SUBSTITUTES, AND OTHER COMMERCIAL PURPOSES.

(a) FINDINGS.—Congress finds the following:
(1) Thousands of communities in the United States, many located near Federal lands, are at risk to wildfire. Approximately 190,000,000 acres of land managed by the Secretary of Agriculture and the Secretary of the Interior are at risk of catastrophic fire in the near future. The accumulation of heavy forest fuel loads continues to increase as a result of disease, insect infestations, and drought, further raising the risk of fire each year.

(2) In addition, more than 70,000,000 acres across all land ownerships are at risk to higher than normal mortality over the next 15 years from insect infestation and disease. High levels of tree mortality from insects and disease result in increased fire risk, loss of old growth, degraded watershed conditions, and changes in species diversity and productivity, as well as diminished fish and wildlife habitat and decreased timber values.

(3) Preventive treatments such as removing fuel loading, ladder fuels, and hazard trees, planting proper species mix and restoring and protecting early successional habitat, and other specific restoration treatments designed to reduce the susceptibility of forest land, woodland, and rangeland to insect outbreaks, disease, and catastrophic fire present the
greatest opportunity for long-term forest health by creating a mosaic of species-mix and age distribution. Such prevention treatments are widely acknowledged to be more successful and cost effective than suppression treatments in the case of insects, disease, and fire.

(4) The byproducts of preventive treatment (wood, brush, thinnings, chips, slash, and other hazardous fuels) removed from forest lands, woodlands and rangelands represent an abundant supply of biomass for biomass-to-energy facilities and raw material for business. There are currently few markets for the extraordinary volumes of byproducts being generated as a result of the necessary large-scale preventive treatment activities.

(5) The United States should—

(A) promote economic and entrepreneurial opportunities in using byproducts removed through preventive treatment activities related to hazardous fuels reduction, disease, and insect infestation; and

(B) develop and expand markets for traditionally underused wood and biomass as an outlet for byproducts of preventive treatment activities.
(b) Definitions.—In this section:

(1) Biomass.—The term “biomass” means trees and woody plants, including limbs, tops, needles, and other woody parts, and byproducts of preventive treatment, such as wood, brush, thinnings, chips, and slash, that are removed—

(A) to reduce hazardous fuels; or

(B) to reduce the risk of or to contain disease or insect infestation.

(2) Indian tribe.—The term “Indian tribe” has the meaning given the term in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)).

(3) Person.—The term “person” includes—

(A) an individual;

(B) a community (as determined by the Secretary concerned);

(C) an Indian tribe;

(D) a small business, micro-business, or a corporation that is incorporated in the United States; and

(E) a nonprofit organization.

(4) Preferred community.—The term “preferred community” means—
(A) any town, township, municipality, or other similar unit of local government (as determined by the Secretary concerned) that—

   (i) has a population of not more than 50,000 individuals; and

   (ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation; or

(B) any county that—

   (i) is not contained within a metropolitan statistical area; and

   (ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation.

(5) SECRETARY CONCERNED.—The term “Secretary concerned” means the Secretary of Agriculture or the Secretary of the Interior.
(c) Biomass Commercial Use Grant Program.—

(1) In general.—The Secretary concerned may make grants to any person that owns or operates a facility that uses biomass as a raw material to produce electric energy, sensible heat, transportation fuels, or substitutes for petroleum-based products to offset the costs incurred to purchase biomass for use by such facility.

(2) Grant amounts.—A grant under this subsection may not exceed $20 per green ton of biomass delivered.

(3) Monitoring of grant recipient activities.—As a condition of a grant under this subsection, the grant recipient shall keep such records as the Secretary concerned may require to fully and correctly disclose the use of the grant funds and all transactions involved in the purchase of biomass. Upon notice by a representative of the Secretary concerned, the grant recipient shall afford the representative reasonable access to the facility that purchases or uses biomass and an opportunity to examine the inventory and records of the facility.

(d) Improved Biomass Use Grant Program.—

(1) In general.—The Secretary concerned may make grants to persons to offset the cost of
projects to develop or research opportunities to improve the use of, or add value to, biomass. In making such grants, the Secretary concerned shall give preference to persons in preferred communities.

(2) SELECTION.—The Secretary concerned shall select a grant recipient under paragraph (1) after giving consideration to the anticipated public benefits of the project, including the potential to develop thermal or electric energy resources or affordable energy, opportunities for the creation or expansion of small businesses and micro-businesses, and the potential for new job creation.

(3) GRANT AMOUNT.—A grant under this subsection may not exceed $500,000.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $50,000,000 for each of the fiscal years 2006 through 2016 to carry out this section.

(f) REPORT.—Not later than October 1, 2010, the Secretary of Agriculture, in consultation with the Secretary of the Interior, shall submit to the Committee on Energy and Natural Resources and the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Resources, the Committee on Energy and Commerce, and the Committee on Agriculture of the
House of Representatives a report describing the results of the grant programs authorized by this section. The report shall include the following:

(1) An identification of the size, type, and the use of biomass by persons that receive grants under this section.

(2) The distance between the land from which the biomass was removed and the facility that used the biomass.

(3) The economic impacts, particularly new job creation, resulting from the grants to and operation of the eligible operations.

SEC. 1702. ENVIRONMENTAL REVIEW FOR RENEWABLE ENERGY PROJECTS.

(a) Compliance With NEPA for Renewable Energy Projects.—Notwithstanding any other law, in preparing an environmental assessment or environmental impact statement required under section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) with respect to any action authorizing a renewable energy project under the jurisdiction of a Federal agency—

(1) no Federal agency is required to identify alternative project locations or actions other than the proposed action and the no action alternative; and
(2) no Federal agency is required to analyze the environmental effects of alternative locations or actions other than those submitted by the project proponent.

(b) Consideration of Alternatives.—In any environmental assessment or environmental impact statement referred to in subsection (a), the Federal agency shall only identify and analyze the environmental effects and potential mitigation measures of—

(1) the proposed action; and

(2) the no action alternative.

(c) Public Comment.—In preparing an environmental assessment or environmental impact statement referred to in subsection (a), the Federal agency shall only consider public comments that specifically address the preferred action and that are filed within 20 days after publication of a draft environmental assessment or draft environmental impact statement. Notwithstanding any other law, compliance with this subsection is deemed to satisfy section 102(2) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)) and the applicable regulations and administrative guidelines with respect to proposed renewable energy projects.
(d) **RENEWABLE ENERGY PROJECT DEFINED.**—For purposes of this section, the term “renewable energy project”—

(1) means any proposal to utilize an energy source other than nuclear power, coal, oil, or natural gas; and

(2) includes the use of wind, solar, geothermal, biomass, or tidal forces to generate energy.

**SEC. 1703. SENSE OF CONGRESS REGARDING GENERATION CAPACITY OF ELECTRICITY FROM RENEWABLE ENERGY RESOURCES ON PUBLIC LANDS.**

It is the sense of the Congress that the Secretary of the Interior should, before the end of the 10-year period beginning on the date of enactment of this Act, seek to have approved non-hydropower renewable energy projects located on the public lands with a generation capacity of at least 10,000 megawatts of electricity.

**TITLE XVIII—GEOTHERMAL ENERGY**

**SEC. 1801. SHORT TITLE.**

This title may be cited as the “John Rishel Geothermal Steam Act Amendments of 2005”.
SEC. 1802. COMPETITIVE LEASE SALE REQUIREMENTS.

Section 4 of the Geothermal Steam Act of 1970 (30 U.S.C. 1003) is amended to read as follows:

“SEC. 4. LEASING PROCEDURES.

“(a) NOMINATIONS.—The Secretary shall accept nominations of lands available for leasing at any time from qualified companies and individuals under this Act.

“(b) COMPETITIVE LEASE SALE REQUIRED.—The Secretary shall hold a competitive lease sale at least once every 2 years for lands in a State which has nominations pending under subsection (a) if such lands are otherwise available for leasing. Lands that are subject to a mining claim for which a plan of operations has been approved by the relevant Federal land management agency are not available for competitive leasing.

“(c) NONCOMPETITIVE LEASING.—

“(1) REQUIREMENT.—The Secretary shall make available for a period of 2 years for non-competitive leasing any tract for which a competitive lease sale is held, but for which the Secretary does not receive any bids in a competitive lease sale.

“(2) STATES WITHOUT NOMINATIONS.—In any State for which there are no nominations received under subsection (a) and having a total acreage under lease or the subject of an application for lease of less than 10,000 acres, the Secretary may des-
ignate lands available for 2 years for noncompetitive leasing.

“(d) LEASES SOLD AS A BLOCK.—If information is available to the Secretary indicating a geothermal resource that could be produced as 1 unit can reasonably be expected to underlie more than 1 parcel to be offered in a competitive lease sale, the parcels for such a resource may be offered for bidding as a block in the competitive lease sale.

“(e) AREA SUBJECT TO LEASE FOR GEOTHERMAL RESOURCES.—A geothermal lease for the use of geothermal resources shall embrace not more than the amount of acreage determined by the Secretary to be appropriate.”.

SEC. 1803. DIRECT USE.

(a) FEES FOR DIRECT USE.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is amended—

(1) in paragraph (c) by redesignating subparagraphs (1) and (2) as subparagraphs (A) and (B);

(2) by redesignating paragraphs (a) through (d) in order as paragraphs (1) through (4);

(3) by inserting “(a) IN GENERAL.—” after “Sec. 5.”; and

(4) by adding at the end the following:

•HR 6 IH
“(b) FEES FOR DIRECT USE.—

“(1) IN GENERAL.—Notwithstanding subsection (a)(1), with respect to the direct use of geothermal resources for purposes other than the commercial generation of electricity, the Secretary of the Interior shall establish a schedule of fees and collect fees pursuant to such a schedule in lieu of royalties. Notwithstanding section 102(a)(9) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701(a)(9)), the schedule of fees shall be based upon comparable non-Federal fees charged for direct use of geothermal resources within the State concerned. For direct use by a State or local government for public purposes, the fee charged shall be nominal. Leases in existence on the date of enactment of this subsection shall be modified in order to reflect the provisions of this subsection.

“(2) FINAL REGULATION.—In issuing any final regulation establishing a schedule of fees under this subsection, the Secretary shall seek—

“(A) to provide lessees with a simplified administrative system;

“(B) to encourage development of this underutilized energy resource on the Federal estate; and
“(C) to contribute to sustainable economic
development opportunities for host commu-
nities.”.

(b) LEASING FOR DIRECT USE.—Section 4 of the
Geothermal Steam Act of 1970 (30 U.S.C. 1003) is fur-
ther amended by adding at the end the following:

“(f) LEASING FOR DIRECT USE OF GEOTHERMAL
RESOURCES.—Lands leased under this Act exclusively for
direct use of geothermal resources shall be leased to any
qualified applicant who first applies for such a lease under
regulations issued by the Secretary, if—

“(1) the Secretary publishes a notice of the
lands proposed for leasing 60 days before the date
of the issuance of the lease; and

“(2) the Secretary does not receive in the 60-
day period beginning on the date of such publication
any nomination to include the lands concerned in the
next competitive lease sale.

“(g) AREA SUBJECT TO LEASE FOR DIRECT USE.—
A geothermal lease for the direct use of geothermal re-
sources shall embrace not more than the amount of acre-
age determined by the Secretary to be reasonably nec-
essary for such proposed utilization.”.

(c) EXISTING LEASES WITH A DIRECT USE FACIL-
ity.—
(1) Application to Convert.—Any lessee under a lease under the Geothermal Steam Act of 1970 that was issued before the date of enactment of this Act may apply to the Secretary of the Interior, by not later than 18 months after the date of enactment of this Act, to convert such lease to a lease for direct utilization of geothermal resources in accordance with the amendments made by this section.

(2) Conversion.—The Secretary shall approve such an application and convert such a lease to a lease in accordance with the amendments by not later than 180 days after receipt of such application, unless the Secretary determines that the applicant is not a qualified applicant with respect to the lease.

(3) Application of New Lease Terms.—The schedule of fees established under the amendment made by subsection (a)(4) shall apply with respect to payments under a lease converted under this subsection that are due and owing to the United States on or after July 16, 2003.

SEC. 1804. ROYALTIES AND NEAR-TERM PRODUCTION INCENTIVES.

(a) Royalty.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended—
(1) in subsection (a) by striking paragraph (1) and inserting the following:

“(1) a royalty on electricity produced using geothermal resources, other than direct use of geothermal resources, that shall be—

“(A) not less than 1 percent and not more than 2.5 percent of the gross proceeds from the sale of electricity produced from such resources during the first 10 years of production under the lease; and

“(B) not less than 2 and not more than 5 percent of the gross proceeds from the sale of electricity produced from such resources during each year after such 10-year period;”;

(2) by adding at the end the following:

“(c) Final Regulation Establishing Royalty Rates.—In issuing any final regulation establishing royalty rates under this section, the Secretary shall seek—

“(1) to provide lessees a simplified administrative system;

“(2) to encourage new development;

“(3) to achieve the same long-term level of royalty revenues to States and counties as the regulation in effect on the date of enactment of this subsection; and
“(4) to reflect any change in profitability of operations for which royalties will be paid due to the requirements imposed by Federal agencies, including delays.

“(d) CREDITS FOR IN-KIND PAYMENTS OF ELECTRICITY.—The Secretary may provide to a lessee a credit against royalties owed under this Act, in an amount equal to the value of electricity provided under contract to a State or county government that is entitled to a portion of such royalties under section 20 of this Act, section 35 of the Mineral Leasing Act (30 U.S.C. 191), or section 6 of the Mineral Leasing Act for Acquired Lands (30 U.S.C. 355), if—

“(1) the Secretary has approved in advance the contract between the lessee and the State or county government for such in-kind payments;

“(2) the contract establishes a specific methodology to determine the value of such credits; and

“(3) the maximum credit will be equal to the royalty value owed to the State or county that is a party to the contract and the electricity received will serve as the royalty payment from the Federal Government to that entity.’’.

(b) DISPOSAL OF MONEYS FROM SALES, BONUSES, ROYALTIES, AND RENTS.—Section 20 of the Geothermal
Steam Act of 1970 (30 U.S.C. 1019) is amended to read as follows:

"SEC. 20. DISPOSAL OF MONEYS FROM SALES, BONUSES, RENTALS, AND ROYALTIES.

“(a) IN GENERAL.—Except with respect to lands in the State of Alaska, all monies received by the United States from sales, bonuses, rentals, and royalties under this Act shall be paid into the Treasury of the United States. Of amounts deposited under this subsection, subject to the provisions of section 35 of the Mineral Leasing Act (30 U.S.C. 191(b)) and section 5(a)(2) of this Act—

“(1) 50 percent shall be paid to the State within the boundaries of which the leased lands or geothermal resources are or were located; and

“(2) 25 percent shall be paid to the County within the boundaries of which the leased lands or geothermal resources are or were located.

“(b) USE OF PAYMENTS.—Amounts paid to a State or county under subsection (a) shall be used consistent with the terms of section 35 of the Mineral Leasing Act (30 U.S.C. 191).”.

(c) NEAR-TERM PRODUCTION INCENTIVE FOR EXISTING LEASES.—

(1) IN GENERAL.—Notwithstanding section 5(a) of the Geothermal Steam Act of 1970, the roy-
alty required to be paid shall be 50 percent of the
amount of the royalty otherwise required, on any
lease issued before the date of enactment of this Act
that does not convert to new royalty terms under
subsection (e)—

(A) with respect to commercial production

of energy from a facility that begins such pro-
duction in the 6-year period beginning on the
date of enactment of this Act; or

(B) on qualified expansion geothermal en-

ergy.

(2) 4-YEAR APPLICATION.—Paragraph (1) ap-
plies only to new commercial production of energy
from a facility in the first 4 years of such produc-
tion.

(d) Definition of Qualified Expansion Geo-

thermal Energy.—In this section, the term “qualified
expansion geothermal energy” means geothermal energy
produced from a generation facility for which—

(1) the production is increased by more than 10

percent as a result of expansion of the facility car-
ried out in the 6-year period beginning on the date
of enactment of this Act; and

(2) such production increase is greater than 10

percent of the average production by the facility dur-
ing the 5-year period preceding the expansion of the
facility (as such average is adjusted to reflect any
trend, in changes in production during that period).

(c) Royalty Under Existing Leases.—

(1) In general.—Any lessee under a lease
issued under the Geothermal Steam Act of 1970 be-
fore the date of enactment of this Act may modify
the terms of the lease relating to payment of royal-
ties to comply with the amendment made by sub-
section (a), by applying to the Secretary of the Inte-
rior by not later than 18 months after the date of
enactment of this Act.

(2) Application of modification.—Such
modification shall apply to any use of geothermal re-
sources to which the amendment applies that occurs
after the date of that application.

(3) Consultation.—The Secretary—

(A) shall consult with the State and local
governments affected by any proposed changes
in lease royalty terms under this subsection;
and

(B) may establish royalty based on a gross
proceeds percentage within the range specified
in the amendment made by subsection (a)(1)
and with the concurrence of the lessee and the State.

SEC. 1805. EXPEDITING ADMINISTRATIVE ACTION FOR GEOTHERMAL LEASING.

(a) TREATMENT OF GEOTHERMAL LEASING WITH RESPECT TO FEDERAL LAND MANAGEMENT PLAN REQUIREMENTS.—Section 15 of the Geothermal Steam Act of 1970 (30 U.S.C. 1014) is amended by adding at the end the following:

“(d) TREATMENT OF GEOTHERMAL LEASING UNDER FEDERAL LAND MANAGEMENT PLANS.—Geothermal leasing and development of Federal lands in accordance with this Act is deemed to be consistent with the management of National Forest System lands under section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604) and public lands under section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712). Land and resource management plans and land use plans in effect under such sections on the date of the enactment of this subsection are deemed to be adequate to proceed with the issuance of leases under this Act.”.

(b) LEASE APPLICATIONS PENDING ON JANUARY 1, 2005.—
(1) PRIORITY.—It shall be a priority for the Secretary of the Interior, and for the Secretary of Agriculture with respect to National Forest Systems lands, to ensure timely completion of administrative actions necessary to process applications for geothermal leasing pending on January 1, 2005.

(2) APPLICABLE LAW.—An application referred to in paragraph (1), and any lease issued pursuant to such an application—

(A) except as provided in subparagraph (B), shall be subject to this section as in effect on January 1, 2005; or

(B) at the election of the applicant, shall be subject to this section as in effect on the effective date of this paragraph.

SEC. 1806. COORDINATION OF GEOTHERMAL LEASING AND PERMITTING ON FEDERAL LANDS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Secretary of the Interior and the Secretary of Agriculture shall enter into and submit to Congress a memorandum of understanding in accordance with this section, the Geothermal Steam Act of 1970 (as amended by this Act), and other applicable laws, regarding coordination of leasing and permitting for
geothermal development of public lands and National Forest System lands under their respective jurisdictions.

(b) LEASE AND PERMIT APPLICATIONS.—The memorandum of understanding shall—

(1) establish an administrative procedure for processing geothermal lease applications, including lines of authority, steps in application processing, and time limits for application procession;

(2) establish a 5-year program for geothermal leasing of lands in the National Forest System, and a process for updating that program every 5 years; and

(3) establish a program for reducing the backlog of geothermal lease application pending on January 1, 2005, by 90 percent within the 5-year period beginning on the date of enactment of this Act, including, as necessary, by—

(A) issuing leases, rejecting lease applications for failure to comply with the provisions of the regulations under which they were filed, or determining that an original applicant (or the applicant’s assigns, heirs, or estate) is no longer interested in pursuing the lease application;
(B) making diligent efforts to directly contact the lease applicants (including their heirs, assigns, or estates); and

(C) ensuring that no lease application is rejected except in compliance with all requirements regarding diligent direct contact.

(e) Data Retrieval System.—The memorandum of understanding shall establish a joint data retrieval system that is capable of tracking lease and permit applications and providing to the applicant information as to their status within the Departments of the Interior and Agriculture, including an estimate of the time required for administrative action.

SEC. 1807. REVIEW AND REPORT TO CONGRESS.

The Secretary of the Interior shall promptly review and report to Congress not later than 3 years after the date of enactment of this Act regarding the status of all withdrawals from leasing under the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) of Federal lands, specifying for each such area whether the basis for such withdrawal still applies.
SEC. 1808. REIMBURSEMENT FOR COSTS OF NEPA ANALYSES, DOCUMENTATION, AND STUDIES.

(a) IN GENERAL.—The Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) is amended by adding at the end the following:

"SEC. 30. REIMBURSEMENT FOR COSTS OF CERTAIN ANALYSES, DOCUMENTATION, AND STUDIES.

"(a) IN GENERAL.—The Secretary of the Interior shall issue regulations under which the Secretary shall reimburse a person that is a lessee, operator, operating rights owner, or applicant for any lease under this Act for reasonable amounts paid by the person for preparation for the Secretary by a contractor or other person selected by the Secretary of any project-level analysis, documentation, or related study required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the lease.

"(b) CONDITIONS.—The Secretary may provide reimbursement under subsection (a) only if—

"(1) adequate funding to enable the Secretary to timely prepare the analysis, documentation, or related study is not appropriated;

"(2) the person paid the costs voluntarily;

"(3) the person maintains records of its costs in accordance with regulations issued by the Secretary;
“(4) the reimbursement is in the form of a reduction in the Federal share of the royalty required to be paid for the lease for which the analysis, documentation, or related study is conducted, and is agreed to by the Secretary and the person reimbursed prior to commencing the analysis, documentation, or related study; and

“(5) the agreement required under paragraph (4) contains provisions—

“(A) reducing royalties owed on lease production based on market prices;

“(B) stipulating an automatic termination of the royalty reduction upon recovery of documented costs; and

“(C) providing a process by which the lessee may seek reimbursement for circumstances in which production from the specified lease is not possible.”.

(b) Application.—The amendment made by this section shall apply with respect to an analysis, documentation, or a related study conducted on or after the date of enactment of this Act for any lease entered into before, on, or after the date of enactment of this Act.

(c) Deadline for Regulations.—The Secretary shall issue regulations implementing the amendment made
by this section by not later than 1 year after the date of enactment of this Act.

SEC. 1809. ASSESSMENT OF GEOTHERMAL ENERGY POTENTIAL.

The Secretary of Interior, acting through the Director of the United States Geological Survey and in cooperation with the States, shall update the 1978 Assessment of Geothermal Resources, and submit that updated assessment to Congress—

(1) not later than 3 years after the date of enactment of this Act; and

(2) thereafter as the availability of data and developments in technology warrant.

SEC. 1810. COOPERATIVE OR UNIT PLANS.

Section 18 of the Geothermal Steam Act of 1970 (30 U.S.C. 1017) is amended to read as follows:

“SEC. 18. UNIT AND COMMUNITIZATION AGREEMENTS.

“(a) ADOPTION OF UNITS BY LESSEES.—

“(1) IN GENERAL.—For the purpose of more properly conserving the natural resources of any geothermal reservoir, field, or like area, or any part thereof (whether or not any part of the geothermal field, or like area, is then subject to any Unit Agreement (cooperative plan of development or operation)), lessees thereof and their representatives may
unite with each other, or jointly or separately with others, in collectively adopting and operating under a Unit Agreement for such field, or like area, or any part thereof including direct use resources, if determined and certified by the Secretary to be necessary or advisable in the public interest. A majority interest of lessees under any single lease shall have the authority to commit that lease to a Unit Agreement. The Secretary of the Interior may also initiate the formation of a Unit Agreement, if such action is in the public interest.

“(2) Modification of lease requirements by Secretary.—The Secretary may, in the discretion of the Secretary, and with the consent of the holders of leases involved, establish, alter, change, or revoke rates of operations (including drilling, operations, production, and other requirements) of such leases and make conditions with reference to such leases, with the consent of the lessees, in connection with the creation and operation of any such Unit Agreement as the Secretary may deem necessary or proper to secure the proper protection of the public interest. Leases with unlike lease terms or royalty rates do not need to be modified to be in the same unit.
“(b) Requirement of Plans Under New Leases.—The Secretary—

“(1) may provide that geothermal leases issued under this Act shall contain a provision requiring the lessee to operate under such a reasonable Unit Agreement; and

“(2) may prescribe such an Agreement under which such lessee shall operate, which shall adequately protect the rights of all parties in interest, including the United States.

“(c) Modification of Rate of Prospecting, Development, and Production.—The Secretary may require that any Agreement authorized by this section that applies to lands owned by the United States contain a provision under which authority is vested in the Secretary, or any person, committee, or State or Federal officer or agency as may be designated in the Agreement to alter or modify from time to time the rate of prospecting and development and the quantity and rate of production under such an Agreement.

“(d) Exclusion From Determination of Holding or Control.—Any lands that are subject to any Agreement approved or prescribed by the Secretary under this section shall not be considered in determining holdings or control under any provision of this Act.
“(e) Pooling of Certain Lands.—If separate tracts of lands cannot be independently developed and operated to use geothermal resources pursuant to any section of this Act—

“(1) such lands, or a portion thereof, may be pooled with other lands, whether or not owned by the United States, for purposes of development and operation under a Communitization Agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the production unit, if such pooling is determined by the Secretary to be in the public interest; and

“(2) operation or production pursuant to such an Agreement shall be treated as operation or production with respect to each tract of land that is subject to the agreement.

“(f) Unit Agreement Review.—No more than 5 years after approval of any cooperative or Unit Agreement and at least every 5 years thereafter, the Secretary shall review each such Agreement and, after notice and opportunity for comment, eliminate from inclusion in such Agreement any lands that the Secretary determines are not reasonably necessary for Unit operations under the Agreement. Such elimination shall be based on scientific evidence, and shall occur only if it is determined by the
Secretary to be for the purpose of conserving and properly managing the geothermal resource. Any land so eliminated shall be eligible for an extension under subsection (g) of section 6 if it meets the requirements for such an extension.

“(g) DRILLING OR DEVELOPMENT CONTRACTS.—
The Secretary may, on such conditions as the Secretary may prescribe, approve drilling or development contracts made by 1 or more lessees of geothermal leases, with 1 or more persons, associations, or corporations if, in the discretion of the Secretary, the conservation of natural resources or the public convenience or necessity may require or the interests of the United States may be best served thereby. All leases operated under such approved drilling or development contracts, and interests thereunder, shall be excepted in determining holdings or control under section 7.

“(h) COORDINATION WITH STATE GOVERNMENTS.—
The Secretary shall coordinate unitization and pooling activities with the appropriate State agencies and shall ensure that State leases included in any unitization or pooling arrangement are treated equally with Federal leases.”.
SEC. 1811. ROYALTY ON BYPRODUCTS.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended in subsection (a) by striking paragraph (2) and inserting the following:

“(2) a royalty on any byproduct that is a mineral named in the first section of the Mineral Leasing Act (30 U.S.C. 181), and that is derived from production under the lease, at the rate of the royalty that applies under that Act to production of such mineral under a lease under that Act;”.

SEC. 1812. REPEAL OF AUTHORITIES OF SECRETARY TO RE-

ADJUST TERMS, CONDITIONS, RENTALS, AND ROYALTIES.

Section 8 of the Geothermal Steam Act of 1970 (30 U.S.C. 1007) is amended by repealing subsection (b), and by redesignating subsection (c) as subsection (b).

SEC. 1813. CREDITING OF RENTAL TOWARD ROYALTY.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended—

(1) in subsection (a)(2) by inserting “and” after the semicolon at the end;

(2) in subsection (a)(3) by striking “; and” and inserting a period;

(3) by striking paragraph (4) of subsection (a);

and

(4) by adding at the end the following:
“(e) CREDITING OF RENTAL TOWARD ROYALTY.—

Any annual rental under this section that is paid with respect to a lease before the first day of the year for which the annual rental is owed shall be credited to the amount of royalty that is required to be paid under the lease for that year.”.

SEC. 1814. LEASE DURATION AND WORK COMMITMENT REQUIREMENTS.

Section 6 of the Geothermal Steam Act of 1970 (30 U.S.C. 1005) is amended—

(1) by striking so much as precedes subsection (c), and striking subsections (e), (g), (h), (i), and (j);

(2) by redesignating subsections (c), (d), and (f) in order as subsections (g), (h), and (i); and

(3) by inserting before subsection (g), as so redesignated, the following:

“SEC. 6. LEASE TERM AND WORK COMMITMENT REQUIREMENTS.

“(a) IN GENERAL.—

“(1) PRIMARY TERM.—A geothermal lease shall be for a primary term of 10 years.

“(2) INITIAL EXTENSION.—The Secretary shall extend the primary term of a geothermal lease for
5 years if, for each year after the fifth year of the lease—

“(A) the Secretary determined under subsection (c) that the lessee satisfied the work commitment requirements that applied to the lease for that year; or

“(B) the lessee paid in accordance with subsection (d) the value of any work that was not completed in accordance with those requirements.

“(3) ADDITIONAL EXTENSION.—The Secretary shall extend the primary term of a geothermal lease (after an initial extension under paragraph (2)) for an additional 5 years if, for each year of the initial extension under paragraph (2), the Secretary determined under subsection (c) that the lessee satisfied the work commitment requirements that applied to the lease for that year.

“(b) REQUIREMENT TO SATISFY ANNUAL WORK COMMITMENT REQUIREMENT.—

“(1) IN GENERAL.—The lessee for a geothermal lease shall, for each year after the fifth year of the lease, satisfy work commitment requirements prescribed by the Secretary that apply to the lease for that year.
“(2) Prescription of Work Commitment Requirements.—The Secretary shall issue regulations prescribing minimum equivalent dollar value work commitment requirements for geothermal leases, that—

“(A) require that a lessee, in each year after the fifth year of the primary term of a geothermal lease, diligently work to achieve commercial utilization of geothermal resources under the lease;

“(B) describe work that qualifies to meet these requirements and factors, such as force majeure events, that suspend or modify the work commitment obligation;

“(C) carry forward and apply to work commitment requirements for a year, work completed in any year in the preceding 3-year period that was in excess of the work required to be performed in that preceding year;

“(D) establish transition rules for leases issued before the date of the enactment of this subsection, including terms under which a lease that is near the end of its term on the date of enactment of this subsection may be extended for up to 2 years—
“(i) to allow achievement of production under the lease; or

“(ii) to allow the lease to be included in a producing unit; and

“(E) establish an annual payment that, at the option of the lessee, may be exercised in lieu of meeting any work requirement for a limited number of years that the Secretary determines will not impair achieving diligent development of the geothermal resource.

“(3) GEOTHERMAL LEASE OVERLYING MINING CLAIM.—

“(A) EXEMPTION.—The lessee for a geothermal lease of an area overlying an area subject to a mining claim for which a plan of operations has been approved by the relevant Federal land management agency is exempt from annual work requirements established under this Act, if development of the geothermal resource subject to the lease would interfere with the mining operations under such claim.

“(B) TERMINATION OF EXEMPTION.—An exemption under this paragraph expires upon the termination of the mining operations.
“(4) **Termination of application of requirements.**—Work commitment requirements prescribed under this subsection shall not apply to a geothermal lease after the date on which the geothermal resource is utilized under the lease in commercial quantities.

“(c) **Determination of whether requirements satisfied.**—The Secretary shall, by not later than 90 days after the end of each year for which work commitment requirements under subsection (b) apply to a geothermal lease—

“(1) determine whether the lessee has satisfied the requirements that apply for that year;

“(2) notify the lessee of that determination; and

“(3) in the case of a notification that the lessee did not satisfy work commitment requirements for the year, include in the notification—

“(A) a description of the specific work that was not completed by the lessee in accordance with the requirements; and

“(B) the amount of the dollar value of such work that was not completed, reduced by the amount of expenditures made for work completed in a prior year that is carried forward pursuant to subsection (b)(2)(D).
“(d) Payment of Value of Uncompleted Work.—

“(1) In general.—If the Secretary notifies a lessee that the lessee failed to satisfy work commitment requirements under subsection (b), the lessee shall pay to the Secretary, by not later than the end of the 60-day period beginning on the date of the notification, the dollar value of work that was not completed by the lessee, in the amount stated in the notification (as reduced under subsection (c)(3)(B)).

“(2) Failure to pay value of uncompleted work.—If a lessee fails to pay such amount to the Secretary before the end of that period, the lease shall terminate upon the expiration of the period.

“(e) Continuation During Commercial Utilization.—

“(1) In general.—If a geothermal resource that is subject to a geothermal lease is utilized in commercial quantities within the primary term of the lease under subsection (a) (including any extension of the lease under subsection (a)), such lease shall continue until the date on which the geothermal resource is no longer utilized in commercial quantities.
“(2) Continuation of associated leases.—If a geothermal lease is for an area in which there is injected fluid or steam from a nearby geothermal resource for the purpose of maintaining commercial utilization of a geothermal resource, such lease shall continue until such commercial utilization is terminated.

“(f) Conversion of geothermal lease to mineral lease.—A lessee under a lease for a geothermal resource that has been utilized for commercial production of electricity, has been determined by the Secretary to be incapable of any further commercial utilization, and is producing any valuable byproduct in payable quantities may, within 6 months after such determination—

“(1) convert the lease to a mineral lease under the Mineral Leasing Act (30 U.S.C. 181 et seq.) or under the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351 et seq.), if the lands that are subject to the lease can be leased under that Act for the production of such byproduct; or

“(2) convert the lease to a mining claim under the general mining laws, if the byproduct is a locatable mineral.”.
SEC. 1815. ADVANCED ROYALTIES REQUIRED FOR SUSPENSION OF PRODUCTION.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended by adding at the end the following:

“(f) ADVANCED ROYALTIES REQUIRED FOR SUSPENSION OF PRODUCTION.—

“(1) CONTINUATION OF LEASE FOLLOWING CESSATION OF PRODUCTION.—If, at any time after commercial production under a geothermal lease is achieved, production ceases for any cause the lease shall remain in full force and effect—

“(A) during the 1-year period beginning on the date production ceases; and

“(B) after such period if, and so long as, the lessee commences and continues diligently and in good faith until such production is resumed the steps, operations, or procedures necessary to cause a resumption of such production.

“(2) ADVANCE ROYALTIES FOLLOWING SUSPENSION OF PRODUCTION.—If production of heat or energy under a geothermal lease is suspended after the date of any such production for which royalty is required under subsection (a) and the terms of paragraph (1) are not met, the Secretary shall require
the lessee, until the end of such suspension, to pay royalty in advance at the monthly pro rata rate of the average annual rate at which such royalty was paid each year in the 5-year-period preceding the date of suspension.

“(3) LIMITATION ON APPLICATION.—Paragraph (2) shall not apply if the suspension is required or otherwise caused by the Secretary, the Secretary of a military department, a State or local government, or a force majeure.”.

SEC. 1816. ANNUAL RENTAL.

(a) ANNUAL RENTAL RATE.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended in subsection (a) in paragraph (3) by striking “$1 per acre or fraction thereof for each year of the lease” and all that follows through the end of the paragraph and inserting “$1 per acre or fraction thereof for each year of the lease through the tenth year in the case of a lease awarded in a noncompetitive lease sale; or $2 per acre or fraction thereof for the first year, $3 per acre or fraction thereof for each of the second through tenth years, in the case of a lease awarded in a competitive lease sale; and $5 per acre or fraction thereof for each year after the 10th year thereof for all leases.”.
(b) Termination of Lease for Failure to Pay Rental.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended by adding at the end the following:

“(g) Termination of Lease for Failure to Pay Rental.—

“(1) In General.—The Secretary shall terminate any geothermal lease with respect to which rental is not paid in accordance with this Act and the terms of the lease under which the rental is required, upon the expiration of the 45-day period beginning on the date of the failure to pay such rental.

“(2) Notification.—The Secretary shall promptly notify a lessee that has not paid rental required under the lease that the lease will be terminated at the end of the period referred to in paragraph (1).

“(3) Reinstatement.—A geothermal lease that would otherwise terminate under paragraph (1) shall not terminate under that paragraph if the lessee pays to the Secretary, before the end of the period referred to in paragraph (1), the amount of rental due plus a late fee equal to 10 percent of such amount.”.
SEC. 1817. DEPOSIT AND USE OF GEOTHERMAL LEASE REVENUES FOR 5 FISCAL YEARS.

(a) Deposit of Geothermal Resources Leases.—Notwithstanding any other provision of law, amounts received by the United States in the first 5 fiscal years beginning after the date of enactment of this Act as rentals, royalties, and other payments required under leases under the Geothermal Steam Act of 1970, excluding funds required to be paid to State and county governments, shall be deposited into a separate account in the Treasury.

(b) Use of Deposits.—Subject to appropriations, the Secretary may use amounts deposited under subsection (a) to implement the Geothermal Steam Act of 1970 and this Act.

SEC. 1818. REPEAL OF ACREAGE LIMITATIONS.

Section 7 of the Geothermal Steam Act of 1970 (30 U.S.C. 1006) is repealed.

SEC. 1819. TECHNICAL AMENDMENTS.

The Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) is further amended as follows:

(1) By striking “geothermal steam and associated geothermal resources” each place it appears and inserting “geothermal resources”.

(2) Section 2(e) (30 U.S.C. 1001(e)) is amended to read as follows:
“(e) ‘direct use’ means utilization of geothermal resources for commercial, residential, agricultural, public facilities, off-grid generation of electricity, or other energy needs other than the commercial production of electricity; and’’.

(3) Section 21 (30 U.S.C. 1020) is amended by striking “(a) Within one hundred” and all that follows through “(b) Geothermal” and inserting “Geothermal”.

(4) The first section (30 U.S.C. 1001 note) is amended by striking “That this” and inserting the following:

“SEC. 1. SHORT TITLE.

“This”.

(5) Section 2 (30 U.S.C. 1001) is amended by striking “Sec. 2. As” and inserting the following:

“SEC. 2. DEFINITIONS.

“As”.

(6) Section 3 (30 U.S.C. 1002) is amended by striking “Sec. 3. Subject” and inserting the following:

“SEC. 3. LANDS SUBJECT TO GEOTHERMAL LEASING.

“Subject”.

(7) Section 5 (30 U.S.C. 1004) is further amended by striking “Sec. 5.”, and by inserting im-
mediately before and above subsection (a) the following:

“SEC. 5. RENTS AND ROYALTIES.”.

(8) Section 8 (30 U.S.C. 1007) is amended by striking “Sec. 8. (a) The” and inserting the following:

“SEC. 8. READJUSTMENT OF LEASE TERMS AND CONDITIONS.

“(a) The”.

(9) Section 9 (30 U.S.C. 1008) is amended by striking “Sec. 9. If” and inserting the following:

“SEC. 9. BYPRODUCTS.

“If”.

(10) Section 10 (30 U.S.C. 1009) is amended by striking “Sec. 10. The” and inserting the following:

“SEC. 10. RELINQUISHMENT OF GEOTHERMAL RIGHTS.

“The”.

(11) Section 11 (30 U.S.C. 1010) is amended by striking “Sec. 11. The” and inserting the following:

“SEC. 11. SUSPENSION OF OPERATIONS AND PRODUCTION.

“The”.
(12) Section 12 (30 U.S.C. 1011) is amended by striking “Sec. 12. Leases” and inserting the following:

“SEC. 12. TERMINATION OF LEASES.

“Leases”.

(13) Section 13 (30 U.S.C. 1012) is amended by striking “Sec. 13. The” and inserting the following:

“SEC. 13. WAIVER, SUSPENSION, OR REDUCTION OF RENTAL OR ROYALTY.

“The”.

(14) Section 14 (30 U.S.C. 1013) is amended by striking “Sec. 14. Subject” and inserting the following:

“SEC. 14. SURFACE LAND USE.

“Subject”.

(15) Section 15 (30 U.S.C. 1014) is amended by striking “Sec. 15. (a) Geothermal” and inserting the following:

“SEC. 15. LANDS SUBJECT TO GEOTHERMAL LEASING.

“(a) Geothermal”.

(16) Section 16 (30 U.S.C. 1015) is amended by striking “Sec. 16. Leases” and inserting the following:
"SEC. 16. REQUIREMENT FOR LESSEES.

"Leases".

(17) Section 17 (30 U.S.C. 1016) is amended by striking "Sec. 17. Administration" and inserting the following:

"SEC. 17. ADMINISTRATION.

"Administration".

(18) Section 19 (30 U.S.C. 1018) is amended by striking "Sec. 19. Upon" and inserting the following:

"SEC. 19. DATA FROM FEDERAL AGENCIES.

"Upon".

(19) Section 21 (30 U.S.C. 1020) is further amended by striking "Sec. 21.", and by inserting immediately before and above the remainder of that section the following:

"SEC. 21. PUBLICATION IN FEDERAL REGISTER; RESERVATION OF MINERAL RIGHTS.".

(20) Section 22 (30 U.S.C. 1021) is amended by striking "Sec. 22. Nothing" and inserting the following:

"SEC. 22. FEDERAL EXEMPTION FROM STATE WATER LAWS.

"Nothing".

(21) Section 23 (30 U.S.C. 1022) is amended by striking "Sec. 23. (a) All" and inserting the following:
“SEC. 23. PREVENTION OF WASTE; EXCLUSIVITY.

“(a) All”.

(22) Section 24 (30 U.S.C. 1023) is amended by striking “Sec. 24. The” and inserting the following:

“SEC. 24. RULES AND REGULATIONS.

“The”.

(23) Section 25 (30 U.S.C. 1024) is amended by striking “Sec. 25. As” and inserting the following:

“SEC. 25. INCLUSION OF GEOTHERMAL LEASING UNDER CERTAIN OTHER LAWS.

“As”.

(24) Section 26 is amended by striking “Sec. 26. The” and inserting the following:

“SEC. 26. AMENDMENT.

“The”.

(25) Section 27 (30 U.S.C. 1025) is amended by striking “Sec. 27. The” and inserting the following:

“SEC. 27. FEDERAL RESERVATION OF CERTAIN MINERAL RIGHTS.

“The”.

(26) Section 28 (30 U.S.C. 1026) is amended by striking “Sec. 28. (a)(1) The” and inserting the following:
“SEC. 28. SIGNIFICANT THERMAL FEATURES.

“(a)(1) The”.

(27) Section 29 (30 U.S.C. 1027) is amended by striking “Sec. 29. The” and inserting the following:

“SEC. 29. LAND SUBJECT TO PROHIBITION ON LEASING.

“The”.

SEC. 1820. INTERMOUNTAIN WEST GEOTHERMAL CONSORTIUM.

(a) Participation Authorized.—The Secretary of Energy, acting through the Idaho National Laboratory, may participate in a consortium described in subsection (b) to address science and science policy issues surrounding the expanded discovery and use of geothermal energy, including from geothermal resources on public lands.

(b) Members.—The consortium referred to in subsection (a) shall—

(1) be known as the “Intermountain West Geothermal Consortium”;

(2) be a regional consortium of institutions and government agencies that focuses on building collaborative efforts among the universities in the State of Idaho, other regional universities, State agencies, and the Idaho National Laboratory;
(3) include Boise State University, the University of Idaho (including the Idaho Water Resources Research Institute), the Oregon Institute of Technology, the Desert Research Institute with the University and Community College System of Nevada, and the Energy and Geoscience Institute at the University of Utah;

(4) be hosted and managed by Boise State University; and

(5) have a director appointed by Boise State University, and associate directors appointed by each participating institution.

(c) FINANCIAL ASSISTANCE.—The Secretary of Energy, acting through the Idaho National Laboratory and subject to the availability of appropriations, will provide financial assistance to Boise State University for expenditure under contracts with members of the consortium to carry out the activities of the consortium.

TITLE XIX—HYDROPOWER

SEC. 1901. INCREASED HYDROELECTRIC GENERATION AT EXISTING FEDERAL FACILITIES.

(a) IN GENERAL.—The Secretary of the Interior, the Secretary of Energy, and the Secretary of the Army shall jointly conduct a study of the potential for increasing elec-
electric power production capability at federally owned or operated water regulation, storage, and conveyance facilities.

(b) CONTENT.—The study under this section shall include identification and description in detail of each facility that is capable, with or without modification, of producing additional hydroelectric power, including estimation of the existing potential for the facility to generate hydroelectric power.

(c) REPORT.—The Secretaries shall submit to the Committees on Energy and Commerce, Resources, and Transportation and Infrastructure of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the findings, conclusions, and recommendations of the study under this section by not later than 18 months after the date of the enactment of this Act. The report shall include each of the following:

(1) The identifications, descriptions, and estimations referred to in subsection (b).

(2) A description of activities currently conducted or considered, or that could be considered, to produce additional hydroelectric power from each identified facility.
844

(3) A summary of prior actions taken by the Secretaries to produce additional hydroelectric power from each identified facility.

(4) The costs to install, upgrade, or modify equipment or take other actions to produce additional hydroelectric power from each identified facility and the level of Federal power customer involvement in the determination of such costs.

(5) The benefits that would be achieved by such installation, upgrade, modification, or other action, including quantified estimates of any additional energy or capacity from each facility identified under subsection (b).

(6) A description of actions that are planned, underway, or might reasonably be considered to increase hydroelectric power production by replacing turbine runners, by performing generator upgrades or rewinds, or construction of pumped storage facilities.

(7) The impact of increased hydroelectric power production on irrigation, water supply, fish, wildlife, Indian tribes, river health, water quality, navigation, recreation, fishing, and flood control.

(8) Any additional recommendations to increase hydroelectric power production from, and reduce
costs and improve efficiency at, federally owned or
operated water regulation, storage, and conveyance
facilities.

SEC. 1902. SHIFT OF PROJECT LOADS TO OFF-PEAK PERI-
ODS.

(a) In General.—The Secretary of the Interior
shall—

(1) review electric power consumption by Bu-
reau of Reclamation facilities for water pumping
purposes; and

(2) make such adjustments in such pumping as
possible to minimize the amount of electric power
consumed for such pumping during periods of peak
electric power consumption, including by performing
as much of such pumping as possible during off-
peak hours at night.

(b) Consent of Affected Irrigation Customers
Required.—The Secretary may not under this section
make any adjustment in pumping at a facility without the
consent of each person that has contracted with the
United States for delivery of water from the facility for
use for irrigation and that would be affected by such ad-
justment.

(c) Existing Obligations not Affected.—This
section shall not be construed to affect any existing obliga-

•HR 6 IH
tion of the Secretary to provide electric power, water, or other benefits from Bureau of Reclamation facilities, including recreational releases.

SEC. 1903. REPORT IDENTIFYING AND DESCRIBING THE STATUS OF POTENTIAL HYDROPOWER FACILITIES.

(a) REPORT REQUIREMENT.—Not later than 90 days after the date of enactment of this Act, the Secretary of the Interior, acting through the Bureau of Reclamation, shall submit to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report identifying and describing the status of potential hydropower facilities included in water surface storage studies undertaken by the Secretary for projects that have not been completed or authorized for construction.

(b) REPORT CONTENTS.—The report shall include the following:

(1) Identification of all surface storage studies authorized by Congress since the enactment of the Reclamation Project Act of 1939 (43 U.S.C. 485 et seq.).

(2) The purposes of each project included within each study identified under paragraph (1).
(3) The status of each study identified under paragraph (1), including for each study—
   
   (A) whether the study is completed or, if not completed, still authorized;
   
   (B) the level of analyses conducted at the feasibility and reconnaissance levels of review;
   
   (C) identifiable environmental impacts of each project included in the study, including to fish and wildlife, water quality, and recreation;
   
   (D) projected water yield from each such project;
   
   (E) beneficiaries of each such project;
   
   (F) the amount authorized and expended;
   
   (G) projected funding needs and timelines for completing the study (if applicable);
   
   (H) anticipated costs of each such project;
   
   and
   
   (I) other factors that might interfere with construction of any such project.
   
(4) An identification of potential hydroelectric facilities that might be developed pursuant to each study identified under paragraph (1).

(5) Applicable costs and benefits associated with potential hydroelectric production pursuant to each study.
TITLE XX—OIL AND GAS—RESOURCES

Subtitle A—Production Incentives

SEC. 2001. DEFINITION OF SECRETARY.

In this subtitle, the term “Secretary” means the Secretary of the Interior.

SEC. 2002. PROGRAM ON OIL AND GAS ROYALTIES IN-KIND.

(a) APPLICABILITY OF SECTION.—Notwithstanding any other provision of law, this section applies to all royalty in-kind accepted by the Secretary on or after the date of enactment of this Act under any Federal oil or gas lease or permit under section 36 of the Mineral Leasing Act (30 U.S.C. 192), section 27 of the Outer Continental Shelf Lands Act (43 U.S.C. 1353), or any other Federal law governing leasing of Federal land for oil and gas development.

(b) TERMS AND CONDITIONS.—All royalty accruing to the United States shall, on the demand of the Secretary, be paid in oil or gas. If the Secretary makes such a demand, the following provisions apply to such payment:

(1) SATISFACTION OF ROYALTY OBLIGATION.—Delivery by, or on behalf of, the lessee of the royalty amount and quality due under the lease satisfies the lessee’s royalty obligation for the amount delivered, except that transportation and processing reimburse-
ments paid to, or deductions claimed by, the lessee shall be subject to review and audit.

(2) MARKETABLE CONDITION.—

(A) IN GENERAL.—Royalty production shall be placed in marketable condition by the lessee at no cost to the United States.

(B) DEFINITION OF MARKETABLE CONDITION.—In this paragraph, the term “in marketable condition” means sufficiently free from impurities and otherwise in a condition that the royalty production will be accepted by a purchaser under a sales contract typical of the field or area in which the royalty production was produced.

(3) DISPOSITION BY THE SECRETARY.—The Secretary may—

(A) sell or otherwise dispose of any royalty production taken in-kind (other than oil or gas transferred under section 27(a)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1353(a)(3))) for not less than the market price; and

(B) transport or process (or both) any royalty production taken in-kind.
(4) Retention by the Secretary.—The Secretary may, notwithstanding section 3302 of title 31, United States Code, retain and use a portion of the revenues from the sale of oil and gas taken in-kind that otherwise would be deposited to miscellaneous receipts, without regard to fiscal year limitation, or may use oil or gas received as royalty taken in-kind (in this paragraph referred to as “royalty production”) to pay the cost of—

(A) transporting the royalty production;

(B) processing the royalty production;

(C) disposing of the royalty production; or

(D) any combination of transporting, processing, and disposing of the royalty production.

(5) Limitation.—

(A) In general.—Except as provided in subparagraph (B), the Secretary may not use revenues from the sale of oil and gas taken in-kind to pay for personnel, travel, or other administrative costs of the Federal Government.

(B) Exception.—Notwithstanding subparagraph (A), the Secretary may use a portion of the revenues from the sale of oil taken in-kind, without fiscal year limitation, to pay sala-
ries and other administrative costs directly related to the royalty-in-kind program.

(c) Reimbursement of Cost.—If the lessee, pursuant to an agreement with the United States or as provided in the lease, processes the royalty gas or delivers the royalty oil or gas at a point not on or adjacent to the lease area, the Secretary shall—

(1) reimburse the lessee for the reasonable costs of transportation (not including gathering) from the lease to the point of delivery or for processing costs; or

(2) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.

(d) Benefit to the United States Required.—The Secretary may receive oil or gas royalties in-kind only if the Secretary determines that receiving royalties in-kind provides benefits to the United States that are greater than or equal to the benefits that are likely to have been received had royalties been taken in-value.

(e) Reports.—

(1) In general.—Not later than September 30, 2005, the Secretary shall submit to Congress a report that addresses—
(A) actions taken to develop businesses processes and automated systems to fully sup-
port the royalty-in-kind capability to be used in tandem with the royalty-in-value approach in managing Federal oil and gas revenue; and

(B) future royalty-in-kind businesses opera-
tion plans and objectives.

(2) REPORTS ON OIL OR GAS ROYALTIES TAKEN IN-KIND.—For each of fiscal years 2005 through 2014 in which the United States takes oil or gas royalties in-kind from production in any State or from the outer Continental Shelf, excluding royalties taken in-kind and sold to refineries under subsection (h), the Secretary shall submit to Congress a report that describes—

(A) the methodology or methodologies used by the Secretary to determine compliance with subsection (d), including the performance standard for comparing amounts received by the United States derived from royalties in-kind to amounts likely to have been received had royalties been taken in-value;

(B) an explanation of the evaluation that led the Secretary to take royalties in-kind from
a lease or group of leases, including the expected revenue effect of taking royalties in-kind;

(C) actual amounts received by the United States derived from taking royalties in-kind and costs and savings incurred by the United States associated with taking royalties in-kind, including, but not limited to, administrative savings and any new or increased administrative costs;

and

(D) an evaluation of other relevant public benefits or detriments associated with taking royalties in-kind.

(f) Deduction of Expenses.—

(1) In General.—Before making payments under section 35 of the Mineral Leasing Act (30 U.S.C. 191) or section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)) of revenues derived from the sale of royalty production taken in-kind from a lease, the Secretary shall deduct amounts paid or deducted under subsections (b)(4) and (c) and deposit the amount of the deductions in the miscellaneous receipts of the United States Treasury.

(2) Accounting for Deductions.—When the Secretary allows the lessee to deduct transportation
or processing costs under subsection (c), the Secretary may not reduce any payments to recipients of revenues derived from any other Federal oil and gas lease as a consequence of that deduction.

(g) Consultation with States.—The Secretary—

(1) shall consult with a State before conducting a royalty in-kind program under this subtitle within the State, and may delegate management of any portion of the Federal royalty in-kind program to the State except as otherwise prohibited by Federal law; and

(2) shall consult annually with any State from which Federal oil or gas royalty is being taken in-kind to ensure, to the maximum extent practicable, that the royalty in-kind program provides revenues to the State greater than or equal to those likely to have been received had royalties been taken in-value.

(h) Small Refineries.—

(1) Preference.—If the Secretary finds that sufficient supplies of crude oil are not available in the open market to refineries that do not have their own source of supply for crude oil, the Secretary may grant preference to such refineries in the sale of any royalty oil accruing or reserved to the United
States under Federal oil and gas leases issued under any mineral leasing law, for processing or use in such refineries at private sale at not less than the market price.

(2) Proration Among Refineries in Production Area.—In disposing of oil under this subsection, the Secretary of Energy may, at the discretion of the Secretary, prorate the oil among refineries described in paragraph (1) in the area in which the oil is produced.

(i) Disposition to Federal Agencies.—

(1) Onshore Royalty.—Any royalty oil or gas taken by the Secretary in-kind from onshore oil and gas leases may be sold at not less than the market price to any Federal agency.

(2) Offshore Royalty.—Any royalty oil or gas taken in-kind from a Federal oil or gas lease on the outer Continental Shelf may be disposed of only under section 27 of the Outer Continental Shelf Lands Act (43 U.S.C. 1353).

(j) Federal Low-Income Energy Assistance Programs.—

(1) Preference.—In disposing of royalty oil or gas taken in-kind under this section, the Secretary may grant a preference to any person, includ-
ing any Federal or State agency, for the purpose of
providing additional resources to any Federal low-in-
come energy assistance program.

(2) REPORT.—Not later than 3 years after the
date of enactment of this Act, the Secretary shall
transmit a report to Congress, assessing the effec-
tiveness of granting preferences specified in para-
graph (1) and providing a specific recommendation
on the continuation of authority to grant pref-
rences.

SEC. 2003. MARGINAL PROPERTY PRODUCTION INCEN-
TIVES.

(a) DEFINITION OF MARGINAL PROPERTY.—Until
such time as the Secretary issues regulations under sub-
section (e) that prescribe a different definition, in this sec-
tion the term “marginal property” means an onshore unit,
communitization agreement, or lease not within a unit or
communitization agreement, that produces on average the
combined equivalent of less than 15 barrels of oil per well
per day or 90 million British thermal units of gas per well
per day calculated based on the average over the 3 most
recent production months, including only wells that
produce on more than half of the days during those 3 pro-
duction months.
(b) Conditions for Reduction of Royalty Rate.—Until such time as the Secretary issues regulations under subsection (e) that prescribe different thresholds or standards, the Secretary shall reduce the royalty rate on—

(1) oil production from marginal properties as prescribed in subsection (e) when the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, is, on average, less than $15 per barrel for 90 consecutive trading days; and

(2) gas production from marginal properties as prescribed in subsection (e) when the spot price of natural gas delivered at Henry Hub, Louisiana, is, on average, less than $2.00 per million British thermal units for 90 consecutive trading days.

(c) Reduced Royalty Rate.—

(1) In General.—When a marginal property meets the conditions specified in subsection (b), the royalty rate shall be the lesser of—

(A) 5 percent; or

(B) the applicable rate under any other statutory or regulatory royalty relief provision that applies to the affected production.

(2) Period of Effectiveness.—The reduced royalty rate under this subsection shall be effective
beginning on the first day of the production month following the date on which the applicable condition specified in subsection (b) is met.

(d) **Termination of Reduced Royalty Rate.**—

A royalty rate prescribed in subsection (d)(1)(A) shall terminate—

(1) with respect to oil production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, on average, exceeds $15 per barrel for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property; and

(2) with respect to gas production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of natural gas delivered at Henry Hub, Louisiana, on average, exceeds $2.00 per million British thermal units for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property.
(e) Regulations Prescribing Different Relief.—

(1) Discretionary regulations.—The Secretary may by regulation prescribe different parameters, standards, and requirements for, and a different degree or extent of, royalty relief for marginal properties in lieu of those prescribed in subsections (a) through (d).

(2) Mandatory regulations.—Not later than 18 months after the date of enactment of this Act, the Secretary shall by regulation—

(A) prescribe standards and requirements for, and the extent of royalty relief for, marginal properties for oil and gas leases on the outer Continental Shelf; and

(B) define what constitutes a marginal property on the outer Continental Shelf for purposes of this section.

(3) Considerations.—In promulgating regulations under this subsection, the Secretary may consider—

(A) oil and gas prices and market trends;

(B) production costs;

(C) abandonment costs;
(D) Federal and State tax provisions and the effects of those provisions on production economics;

(E) other royalty relief programs;

(F) regional differences in average wellhead prices;

(G) national energy security issues; and

(H) other relevant matters.

(f) SAVINGS PROVISION.—Nothing in this section prevents a lessee from receiving royalty relief or a royalty reduction pursuant to any other law (including a regulation) that provides more relief than the amounts provided by this section.

SEC. 2004. INCENTIVES FOR NATURAL GAS PRODUCTION FROM DEEP WELLS IN THE SHALLOW WATERS OF THE GULF OF MEXICO.

(a) Royalty Incentive Regulations for Ultra Deep Gas Wells.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations granting royalty
relief suspension volumes of not less than
35,000,000,000 cubic feet with respect to the pro-
duction of natural gas from ultra deep wells on
leases issued in shallow waters less than 400 meters
deep located in the Gulf of Mexico wholly west of 87
degrees, 30 minutes west longitude. Regulations
issued under this subsection shall be retroactive to
the date that the notice of proposed rulemaking is
published in the Federal Register.

(2) **Definition of Ultra Deep Well.**—In
this subsection, the term “ultra deep well” means a
well drilled with a perforated interval, the top of
which is at least 20,000 feet true vertical depth
below the datum at mean sea level.

(b) **Royalty Incentive Regulations for Deep
Gas Wells.**—Not later than 180 days after the date of
enactment of this Act, in addition to any other regulations
that may provide royalty incentives for natural gas pro-
duced from deep wells on oil and gas leases issued pursu-
ant to the Outer Continental Shelf Lands Act (43 U.S.C.
1331 et seq.), the Secretary shall issue regulations grant-
ing royalty relief suspension volumes with respect to the
production of natural gas from deep wells on leases issued
in waters more than 200 meters but less than 400 meters
deep located in the Gulf of Mexico wholly west of 87 de-
grees, 30 minutes west longitude. The suspension volumes for deep wells within 200 to 400 meters of water depth shall be calculated using the same methodology used to calculate the suspension volumes for deep wells in the shallower waters of the Gulf of Mexico, and in no case shall the suspension volumes for deep wells within 200 to 400 meters of water depth be lower than those for deep wells in shallower waters. Regulations issued under this subsection shall be retroactive to the date that the notice of proposed rulemaking is published in the Federal Register.

(c) LIMITATION.—The Secretary may place limitations on the suspension of royalty relief granted based on market price.

SEC. 2005. ROYALTY RELIEF FOR DEEP WATER PRODUCTION.

(a) IN GENERAL.—For all tracts located in water depths of greater than 400 meters in the Western and Central Planning Area of the Gulf of Mexico, including the portion of the Eastern Planning Area of the Gulf of Mexico encompassing whole lease blocks lying west of 87 degrees, 30 minutes West longitude, any oil or gas lease sale under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) occurring within 5 years after the date of enactment of this Act shall use the bidding system
authorized in section 8(a)(1)(H) of the Outer Continental
Shelf Lands Act (43 U.S.C. 1337(a)(1)(H)), except that
the suspension of royalties shall be set at a volume of not
less than—

(1) 5,000,000 barrels of oil equivalent for each
lease in water depths of 400 to 800 meters;
(2) 9,000,000 barrels of oil equivalent for each
lease in water depths of 800 to 1,600 meters;
(3) 12,000,000 barrels of oil equivalent for each
lease in water depths of 1,600 to 2,000 meters; and
(4) 16,000,000 barrels of oil equivalent for each
lease in water depths greater than 2,000 meters.
(b) LIMITATION.—The Secretary may place limita-
tions on the suspension of royalty relief granted based on
market price.

SEC. 2006. ALASKA OFFSHORE ROYALTY SUSPENSION.
Section 8(a)(3)(B) of the Outer Continental Shelf
Lands Act (43 U.S.C. 1337(a)(3)(B)) is amended by in-
serting “and in the Planning Areas offshore Alaska” after
“West longitude”.

SEC. 2007. OIL AND GAS LEASING IN THE NATIONAL PETRO-
LEUM RESERVE IN ALASKA.
(a) TRANSFER OF AUTHORITY.—
(1) REDESIGNATION.—The Naval Petroleum
Reserves Production Act of 1976 (42 U.S.C. 6501
et seq.) is amended by redesignating section 107 (42 U.S.C. 6507) as section 108.

(2) TRANSFER.—The matter under the heading “EXPLORATION OF NATIONAL PETROLEUM RESERVE IN ALASKA” under the heading “ENERGY AND MINERALS” of title I of Public Law 96–514 (42 U.S.C. 6508) is—

(A) transferred to the Naval Petroleum Reserves Production Act of 1976 (42 U.S.C. 6501 et seq.);

(B) designated as section 107 of that Act; and

(C) moved so as to appear after section 106 of that Act (42 U.S.C. 6506).

(b) COMPETITIVE LEASING.—Section 107 of the Naval Petroleum Reserves Production Act of 1976 (as amended by subsection (a) of this section) is amended—

(1) by striking the heading and all that follows through “Provided, That (1) activities” and inserting the following:

“SEC. 107. COMPETITIVE LEASING OF OIL AND GAS.

“(a) In General.—Notwithstanding any other provision of law and pursuant to regulations issued by the Secretary, the Secretary shall conduct an expeditious program of competitive leasing of oil and gas in the National
Petroleum Reserve in Alaska (referred to in this section as the ‘Reserve’).

“(b) MITIGATION OF ADVERSE EFFECTS.—Activities”;

(2) by striking “Alaska (the Reserve); (2) the” and inserting

“Alaska.

“(c) LAND USE PLANNING; BLM WILDERNESS STUDY.—The”;

(3) by striking “Reserve; (3) the” and inserting

“Reserve.

“(d) FIRST LEASE SALE.—The”;

(4) by striking “4332); (4) the” and inserting

“4321 et seq.).

“(e) WITHDRAWALS.—The”;

(5) by striking “herein; (5) bidding” and inserting

“under this section.

“(f) BIDDING SYSTEMS.—Bidding”;

(6) by striking “629); (6) lease” and inserting

“629).

“(g) GEOLOGICAL STRUCTURES.—Lease”;

(7) by striking “structures; (7) the” and inserting

“structures.
“(h) Size of Lease Tracts.—The”;

(8) by striking “Secretary; (8)” and all that fol-

lows through “Drilling, production,” and inserting

“Secretary.

“(i) Terms.—

“(1) In general.—Each lease shall be—

“(A) issued for an initial period of not more than 10 years; and

“(B) renewed for successive 10-year terms if—

“(i) oil or gas is produced from the lease in paying quantities;

“(ii) oil or gas is capable of being pro-

duced in paying quantities; or

“(iii) drilling or reworking operations,

as approved by the Secretary, are con-

ducted on the leased land.

“(2) Renewal of Nonproducing Leases.—
The Secretary shall renew for an additional 10-year term a lease that does not meet the requirements of paragraph (1)(B) if the lessee submits to the Sec-

retary an application for renewal not later than 60 days before the expiration of the primary lease and—
“(A) the lessee certifies, and the Secretary agrees, that hydrocarbon resources were discovered on 1 or more wells drilled on the leased land in such quantities that a prudent operator would hold the lease for potential future development;

“(B) the lessee—

“(i) pays the Secretary a renewal fee of $100 per acre of leased land; and

“(ii) provides evidence, and the Secretary agrees that, the lessee has diligently pursued exploration that warrants continuation with the intent of continued exploration or future development of the leased land; or

“(C) all or part of the lease—

“(i) is part of a unit agreement covering a lease described in subparagraph (A) or (B); and

“(ii) has not been previously contracted out of the unit.

“(3) APPLICABILITY.—This subsection applies to a lease that—
“(A) is entered into before, on, or after the date of enactment of the Energy Policy Act of 2005; and

“(B) is effective on or after the date of enactment of that Act.

“(j) UNIT AGREEMENTS.—

“(1) IN GENERAL.—For the purpose of conservation of the natural resources of all or part of any oil or gas pool, field, reservoir, or like area, lessees (including representatives) of the pool, field, reservoir, or like area may unite with each other, or jointly or separately with others, in collectively adopting and operating under a unit agreement for all or part of the pool, field, reservoir, or like area (whether or not any other part of the oil or gas pool, field, reservoir, or like area is already subject to any cooperative or unit plan of development or operation), if the Secretary determines the action to be necessary or advisable in the public interest.

“(2) PARTICIPATION BY STATE OF ALASKA.—
The Secretary shall ensure that the State of Alaska is provided the opportunity for active participation concerning creation and management of units formed or expanded under this subsection that in-
clude acreage in which the State of Alaska has an interest in the mineral estate.

“(3) Participation by Regional Corporations.—The Secretary shall ensure that any Regional Corporation (as defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602)) is provided the opportunity for active participation concerning creation and management of units that include acreage in which the Regional Corporation has an interest in the mineral estate.

“(4) Production Allocation Methodology.—The Secretary may use a production allocation methodology for each participating area within a unit created for land in the Reserve, State of Alaska land, or Regional Corporation land shall, when appropriate, be based on the characteristics of each specific oil or gas pool, field, reservoir, or like area to take into account reservoir heterogeneity and a real variation in reservoir producibility across diverse leasehold interests.

“(5) Benefit of Operations.—Drilling, production,”;

(9) by striking “When separate” and inserting the following:

“(6) Pooling.—If separate”;
(10) by inserting "(in consultation with the
owners of the other land)" after "determined by the
Secretary of the Interior";

(11) by striking "thereto; (10) to" and all that
follows through "the terms provided therein." and
inserting

"to the agreement.

“(k) **EXPLORATION INCENTIVES.**—

“(1) **IN GENERAL.**—

“(A) **WAIVER, SUSPENSION, OR REDUCTION.**—To encourage the greatest ultimate re-
covery of oil or gas or in the interest of con-
servation, the Secretary may waive, suspend, or
reduce the rental fees or minimum royalty, or
reduce the royalty on an entire leasehold (in-
cluding on any lease operated pursuant to a
unit agreement), if (after consultation with the
State of Alaska and the North Slope Borough
of Alaska and the concurrence of any Regional
Corporation for leases that include lands avail-
able for acquisition by the Regional Corporation
under the provisions of section 1431(o) of the
Alaska National Interest Lands Conservation
Act (16 U.S.C. 3101 et seq.)) the Secretary de-
termines that the waiver, suspension, or reduc-

tion is in the public interest.

“(B) APPLICABILITY.—This paragraph ap-
plies to a lease that—

“(i) is entered into before, on, or after
the date of enactment of the Energy Policy
Act of 2005; and

“(ii) is effective on or after the date
of enactment of that Act.”;

(12) by striking “The Secretary is authorized
to” and inserting the following:

“(2) SUSPENSION OF OPERATIONS AND PRO-
duction.—The Secretary may”;

(13) by striking “In the event” and inserting
the following:

“(3) SUSPENSION OF PAYMENTS.—If”;

(14) by striking “thereto; and (11) all” and in-
serting

“(l) RECEIPTS.—All”;

(15) by redesignating clauses (A), (B), and (C)
as clauses (1), (2), and (3), respectively;

(16) by striking “Any agency” and inserting
the following:

“(m) EXPLORATIONS.—Any agency”;

•HR 6 IH
(17) by striking “Any action” and inserting the following:

“(n) ENVIRONMENTAL IMPACT STATEMENTS.—

“(1) JUDICIAL REVIEW.—Any action”;

(18) by striking “The detailed” and inserting the following:

“(2) INITIAL LEASE SALES.—The detailed”;

(19) by striking “of the Naval Petroleum Reserves Production Act of 1976 (90 Stat. 304; 42 U.S.C. 6504)”; and

(20) by adding at the end the following:

“(o) WAIVER OF ADMINISTRATION FOR CONVEYED LANDS.—Notwithstanding section 14(g) of the Alaska Native Claims Settlement Act (43 U.S.C. 1613(g)) or any other provision of law—

“(1) the Secretary of the Interior shall waive administration of any oil and gas lease insofar as such lease covers any land in the National Petroleum Reserve in Alaska in which the subsurface estate is conveyed to the Arctic Slope Regional Corporation; and

“(2) if any such conveyance of such subsurface estate does not cover all the land embraced within any such oil and gas lease—
“(A) the person who owns the subsurface estate in any particular portion of the land covered by such lease shall be entitled to all of the revenues reserved under such lease as to such portion, including, without limitation, all the royalty payable with respect to oil or gas produced from or allocated to such particular portion of the land covered by such lease; and

“(B) the Secretary of the Interior shall segregate such lease into 2 leases, 1 of which shall cover only the subsurface estate conveyed to the Arctic Slope Regional Corporation, and operations, production, or other circumstances (other than payment of rentals or royalties) that satisfy obligations of the lessee under, or maintain, either of the segregated leases shall likewise satisfy obligations of the lessee under, or maintain, the other segregated lease to the same extent as if such segregated leases remained a part of the original unsegregated lease.”.

SEC. 2008. ORPHANED, ABANDONED, OR IDLED WELLS ON FEDERAL LAND.

(a) IN GENERAL.—The Secretary, in cooperation with the Secretary of Agriculture, shall establish a pro-
gram not later than 1 year after the date of enactment of this Act to remediate, reclaim, and close orphaned, abandoned, or idled oil and gas wells located on land administered by the land management agencies within the Department of the Interior and the Department of Agriculture.

(b) ACTIVITIES.—The program under subsection (a) shall—

(1) include a means of ranking orphaned, abandoned, or idled wells sites for priority in remediation, reclamation, and closure, based on public health and safety, potential environmental harm, and other land use priorities;

(2) provide for identification and recovery of the costs of remediation, reclamation, and closure from persons or other entities currently providing a bond or other financial assurance required under State or Federal law for an oil or gas well that is orphaned, abandoned, or idled; and

(3) provide for recovery from the persons or entities identified under paragraph (2), or their sureties or guarantors, of the costs of remediation, reclamation, and closure of such wells.
(c) Cooperation and Consultations.—In carrying out the program under subsection (a), the Secretary shall—

(1) work cooperatively with the Secretary of Agriculture and the States within which Federal land is located; and

(2) consult with the Secretary of Energy and the Interstate Oil and Gas Compact Commission.

(d) Plan.—Not later than 1 year after the date of enactment of this Act, the Secretary, in cooperation with the Secretary of Agriculture, shall submit to Congress a plan for carrying out the program under subsection (a).

(e) Idled Well.—For the purposes of this section, a well is idled if—

(1) the well has been nonoperational for at least 7 years; and

(2) there is no anticipated beneficial use for the well.

(f) Technical Assistance Program for Non-Federal Land.—

(1) In General.—The Secretary of Energy shall establish a program to provide technical and financial assistance to oil and gas producing States to facilitate State efforts over a 10-year period to ensure a practical and economical remedy for environ-
mental problems caused by orphaned or abandoned
oil and gas exploration or production well sites on
State or private land.

(2) ASSISTANCE.—The Secretary of Energy
shall work with the States, through the Interstate
Oil and Gas Compact Commission, to assist the
States in quantifying and mitigating environmental
risks of onshore orphaned or abandoned oil or gas
wells on State and private land.

(3) ACTIVITIES.—The program under para-
graph (1) shall include—

(A) mechanisms to facilitate identification,
if feasible, of the persons currently providing a
bond or other form of financial assurance re-
quired under State or Federal law for an oil or
gas well that is orphaned or abandoned;

(B) criteria for ranking orphaned or aban-
doned well sites based on factors such as public
health and safety, potential environmental
harm, and other land use priorities;

(C) information and training programs on
best practices for remediation of different types
of sites; and

(D) funding of State mitigation efforts on
a cost-shared basis.
(g) **Federal Reimbursement for Orphaned Well Reclamation Pilot Program.**—

(1) **Reimbursement for Remediating, Reclaiming, and Closing Wells on Land Subject to a New Lease.**—The Secretary shall carry out a pilot program under which, in issuing a new oil and gas lease on federally owned land on which 1 or more orphaned wells are located, the Secretary—

(A) may require, but not as a condition of the lease, that the lessee remediate, reclaim, and close in accordance with standards established by the Secretary, all orphaned wells on the land leased; and

(B) shall develop a program to reimburse a lessee, through a royalty credit against the Federal share of royalties owed or other means, for the reasonable actual costs of remediating, reclaiming, and closing the orphaned well pursuant to that requirement.

(2) **Reimbursement for Reclaiming Orphaned Wells on Other Land.**—In carrying out this subsection, the Secretary—

(A) may authorize any lessee under an oil and gas lease on federally owned land to re-
claim in accordance with the Secretary’s standards—

(i) an orphaned well on unleased federally owned land; or

(ii) an orphaned well located on an existing lease on federally owned land for the reclamation of which the lessee is not legally responsible; and

(B) shall develop a program to provide reimbursement of 115 percent of the reasonable actual costs of remediating, reclaiming, and closing the orphaned well, through credits against the Federal share of royalties or other means.

(3) Effect of Remediation, Reclamation, or Closure of Well Pursuant to an Approved Remediation Plan.—

(A) Definition of Remediating Party.—In this paragraph the term “remediating party” means a person who remediates, reclaims, or closes an abandoned, orphaned, or idled well pursuant to this subsection.

(B) General Rule.—A remediating party who remediates, reclaims, or closes an abandoned, orphaned, or idled well in accordance
with a detailed written remediation plan approved by the Secretary under this subsection, shall be immune from civil liability under Federal environmental laws, for—

(i) pre-existing environmental conditions at or associated with the well, unless the remediating party owns or operates, in the past owned or operated, or is related to a person that owns or operates or in the past owned or operated, the well or the land on which the well is located; or

(ii) any remaining releases of pollutants from the well during or after completion of the remediation, reclamation, or closure of the well, unless the remediating party causes increased pollution as a result of activities that are not in accordance with the approved remediation plan.

(C) LIMITATIONS.—Nothing in this section shall limit in any way the liability of a remediating party for injury, damage, or pollution resulting from the remediating party’s acts or omissions that are not in accordance with the approved remediation plan, are reckless or will-
ful, constitute gross negligence or wanton mis-
conduct, or are unlawful.

(4) REGULATIONS.—The Secretary may issue
such regulations as are appropriate to carry out this
subsection.

(h) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be
appropriated to carry out this section $25,000,000
for each of fiscal years 2006 through 2010.

(2) USE.—Of the amounts authorized under
paragraph (1), $5,000,000 are authorized for each
fiscal year for activities under subsection (f).

SEC. 2009. COMBINED HYDROCARBON LEASING.

(a) SPECIAL PROVISIONS REGARDING LEASING.—
Section 17(b)(2) of the Mineral Leasing Act (30 U.S.C.
226(b)(2)) is amended—

(1) by inserting “(A)” after “(2)”; and

(2) by adding at the end the following:

“(B) For any area that contains any combination of
tar sand and oil or gas (or both), the Secretary may issue
under this Act, separately—

“(i) a lease for exploration for and extraction of
tar sand; and

“(ii) a lease for exploration for and development
of oil and gas.
“(C) A lease issued for tar sand shall be issued using
the same bidding process, annual rental, and posting pe-
riod as a lease issued for oil and gas, except that the min-
imum acceptable bid required for a lease issued for tar
sand shall be $2 per acre.

“(D) The Secretary may waive, suspend, or alter any
requirement under section 26 that a permittee under a
permit authorizing prospecting for tar sand must exercise
due diligence, to promote any resource covered by a com-
bined hydrocarbon lease.”.

(b) Conforming Amendment.—Section
17(b)(1)(B) of the Mineral Leasing Act (30 U.S.C.
226(b)(1)(B)) is amended in the second sentence by in-
serting “, subject to paragraph (2)(B),” after “Sec-
retary”.

(e) Regulations.—Not later than 45 days after the
date of enactment of this Act, the Secretary shall issue
final regulations to implement this section.

SEC. 2010. ALTERNATE ENERGY-RELATED USES ON THE
OUTER CONTINENTAL SHELF.

(a) Amendment to Outer Continental Shelf
Lands Act.—Section 8 of the Outer Continental Shelf
Lands Act (43 U.S.C. 1337) is amended by adding at the
end the following:
“(p) Leases, Easements, or Rights-of-Way for Energy and Related Purposes.—

“(1) In general.—The Secretary, in consultation with the Secretary of the Department in which the Coast Guard is operating and other relevant departments and agencies of the Federal Government, may grant a lease, easement, or right-of-way on the outer Continental Shelf for activities not otherwise authorized in this Act, the Deepwater Port Act of 1974 (33 U.S.C. 1501 et seq.), the Ocean Thermal Energy Conversion Act of 1980 (42 U.S.C. 9101 et seq.), or other applicable law, if those activities—

“(A) support exploration, development, production, transportation, or storage of oil, natural gas, or other minerals;

“(B) produce or support production, transportation, or transmission of energy from sources other than oil and gas; or

“(C) use, for energy-related or marine-related purposes, facilities currently or previously used for activities authorized under this Act.

“(2) Payments.—The Secretary shall establish reasonable forms of payments for any easement or right-of-way granted under this subsection. Such payments shall not be assessed on the basis of
throughput or production. The Secretary may establish fees, rentals, bonus, or other payments by rule or by agreement with the party to which the lease, easement, or right-of-way is granted. If a lease, easement, right-of-way, license, or permit under this subsection covers a specific tract of, or regards a facility located on, the outer Continental Shelf and is not an easement or right-of-way for transmission or transportation of energy, minerals, or other natural resources, the Secretary shall pay 50 percent of any amount received from the holder of the lease, easement, right-of-way, license, or permit to the State off the shore of which the geographic center of the area covered by the lease, easement, right-of-way, license, permit, or facility is located, in accordance with Federal law determining the seaward lateral boundaries of the coastal States.

“(3) Consultation.—Before exercising authority under this subsection, the Secretary shall consult with the Secretary of Defense and other appropriate agencies concerning issues related to national security and navigational obstruction.

“(4) Competitive or noncompetitive basis.—
“(A) IN GENERAL.—The Secretary may issue a lease, easement, or right-of-way for energy and related purposes as described in paragraph (1) on a competitive or noncompetitive basis.

“(B) CONSIDERATIONS.—In determining whether a lease, easement, or right-of-way shall be granted competitively or noncompetitively, the Secretary shall consider such factors as—

“(i) prevention of waste and conservation of natural resources;

“(ii) the economic viability of an energy project;

“(iii) protection of the environment;

“(iv) the national interest and national security;

“(v) human safety;

“(vi) protection of correlative rights; and

“(vii) potential return for the lease, easement, or right-of-way.

“(5) REGULATIONS.—Not later than 270 days after the date of enactment of the Energy Policy Act of 2005, the Secretary, in consultation with the Secretary of the Department in which the Coast Guard...
is operating and other relevant agencies of the Federal Government and affected States, shall issue any necessary regulations to ensure safety, protection of the environment, prevention of waste, and conservation of the natural resources of the outer Continental Shelf, protection of national security interests, and protection of correlative rights in the outer Continental Shelf.

“(6) SECURITY.—The Secretary shall require the holder of a lease, easement, or right-of-way granted under this subsection to furnish a surety bond or other form of security, as prescribed by the Secretary, and to comply with such other requirements as the Secretary considers necessary to protect the interests of the United States.

“(7) EFFECT OF SUBSECTION.—Nothing in this subsection displaces, supersedes, limits, or modifies the jurisdiction, responsibility, or authority of any Federal or State agency under any other Federal law.

“(8) APPLICABILITY.—This subsection does not apply to any area on the outer Continental Shelf designated as a National Marine Sanctuary.”.

(b) CONFORMING AMENDMENT.—Section 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1337) is
amended by striking the section heading and inserting the following: “LEASES, EASEMENTS, AND RIGHTS-OF-WAY ON THE OUTER CONTINENTAL SHELF.—”.

(c) SAVINGS PROVISION.—Nothing in the amendment made by subsection (a) requires, with respect to any project—

(1) for which offshore test facilities have been constructed before the date of enactment of this Act;

or

(2) for which a request for proposals has been issued by a public authority,

any resubmittal of documents previously submitted or any reauthorization of actions previously authorized.

SEC. 2011. PRESERVATION OF GEOLOGICAL AND GEO-

PHYSICAL DATA.

(a) SHORT TITLE.—This section may be cited as the “National Geological and Geophysical Data Preservation Program Act of 2005”.

(b) PROGRAM.—The Secretary shall carry out a Na-
tional Geological and Geophysical Data Preservation Pro-
gram in accordance with this section—

(1) to archive geologic, geophysical, and engi-
neering data, maps, well logs, and samples;

(2) to provide a national catalog of such archi-
val material; and
(3) to provide technical and financial assistance related to the archival material.

(c) PLAN.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a plan for the implementation of the Program.

(d) DATA ARCHIVE SYSTEM.—

(1) ESTABLISHMENT.—The Secretary shall establish, as a component of the Program, a data archive system to provide for the storage, preservation, and archiving of subsurface, surface, geological, geophysical, and engineering data and samples. The Secretary, in consultation with the Advisory Committee, shall develop guidelines relating to the data archive system, including the types of data and samples to be preserved.

(2) SYSTEM COMPONENTS.—The system shall be comprised of State agencies that elect to be part of the system and agencies within the Department of the Interior that maintain geological and geophysical data and samples that are designated by the Secretary in accordance with this subsection. The Program shall provide for the storage of data and samples through data repositories operated by such agencies.
(3) **Limitation of Designation.**—The Secretary may not designate a State agency as a component of the data archive system unless that agency is the agency that acts as the geological survey in the State.

(4) **Data from Federal Land.**—The data archive system shall provide for the archiving of relevant subsurface data and samples obtained from Federal land—

(A) in the most appropriate repository designated under paragraph (2), with preference being given to archiving data in the State in which the data were collected; and

(B) consistent with all applicable law and requirements relating to confidentiality and proprietary data.

(e) **National Catalog.**—

(1) **In General.**—As soon as practicable after the date of enactment of this Act, the Secretary shall develop and maintain, as a component of the Program, a national catalog that identifies—

(A) data and samples available in the data archive system established under subsection (d);

(B) the repository for particular material in the system; and
(C) the means of accessing the material.

(2) **Availability.**—The Secretary shall make the national catalog accessible to the public on the site of the Survey on the Internet, consistent with all applicable requirements related to confidentiality and proprietary data.

(f) **Advisory Committee.**—

(1) **In general.**—The Advisory Committee shall advise the Secretary on planning and implementation of the Program.

(2) **New duties.**—In addition to its duties under the National Geologic Mapping Act of 1992 (43 U.S.C. 31a et seq.), the Advisory Committee shall perform the following duties:

(A) Advise the Secretary on developing guidelines and procedures for providing assistance for facilities under subsection (g)(1).

(B) Review and critique the draft implementation plan prepared by the Secretary under subsection (e).

(C) Identify useful studies of data archived under the Program that will advance understanding of the Nation’s energy and mineral resources, geologic hazards, and engineering geology.
(D) Review the progress of the Program in archiving significant data and preventing the loss of such data, and the scientific progress of the studies funded under the Program.

(E) Include in the annual report to the Secretary required under section 5(b)(3) of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d(b)(3)) an evaluation of the progress of the Program toward fulfilling the purposes of the Program under subsection (b).

(g) **Financial Assistance.**—

(1) **Archive Facilities.**—Subject to the availability of appropriations, the Secretary shall provide financial assistance to a State agency that is designated under subsection (d)(2) for providing facilities to archive energy material.

(2) **Studies.**—Subject to the availability of appropriations, the Secretary shall provide financial assistance to any State agency designated under subsection (d)(2) for studies and technical assistance activities that enhance understanding, interpretation, and use of materials archived in the data archive system established under subsection (d).

(3) **Federal Share.**—The Federal share of the cost of an activity carried out with assistance
under this subsection shall be not more than 50 percent of the total cost of the activity.

(4) **PRIVATE CONTRIBUTIONS.**—The Secretary shall apply to the non-Federal share of the cost of an activity carried out with assistance under this subsection the value of private contributions of property and services used for that activity.

(h) **REPORT.**—The Secretary shall include in each report under section 8 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31g)—

(1) a description of the status of the Program;

(2) an evaluation of the progress achieved in developing the Program during the period covered by the report; and

(3) any recommendations for legislative or other action the Secretary considers necessary and appropriate to fulfill the purposes of the Program under subsection (b).

(i) **MAINTENANCE OF STATE EFFORT.**—It is the intent of Congress that the States not use this section as an opportunity to reduce State resources applied to the activities that are the subject of the Program.

(j) **DEFINITIONS.**—In this section:

(1) **ADVISORY COMMITTEE.**—The term “Advisory Committee” means the advisory committee es-
established under section 5 of the National Geologic

(2) PROGRAM.—The term “Program” means
the National Geological and Geophysical Data Pres-
servation Program carried out under this section.

(3) SECRETARY.—The term “Secretary” means
the Secretary of the Interior, acting through the Di-
rector of the United States Geological Survey.

(4) SURVEY.—The term “Survey” means the
United States Geological Survey.

(k) AUTHORIZATION OF APPROPRIATIONS.—There
are authorized to be appropriated to carry out this section
$30,000,000 for each of fiscal years 2006 through 2010.

SEC. 2012. OIL AND GAS LEASE ACREAGE LIMITATIONS.
Section 27(d)(1) of the Mineral Leasing Act (30
U.S.C. 184(d)(1)) is amended by inserting after “acreage
held in special tar sand areas” the following: “, and acre-
age under any lease any portion of which has been com-
mitted to a federally approved unit or cooperative plan or
communitization agreement or for which royalty (inclu-
ding compensatory royalty or royalty in-kind) was paid in
the preceding calendar year,”.
SEC. 2013. DEADLINE FOR DECISION ON APPEALS OF CONSISTENCY DETERMINATION UNDER THE COASTAL ZONE MANAGEMENT ACT OF 1972.

(a) In general.—Section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465) is amended to read as follows:

"APPEALS TO THE SECRETARY

"SEC. 319. (a) Notice.—The Secretary shall publish an initial notice in the Federal Register not later than 30 days after the date of the filing of any appeal to the Secretary of a consistency determination under section 307.

"(b) Closure of record.—

"(1) In general.—Not later than the end of the 120-day period beginning on the date of publication of an initial notice under subsection (a), the Secretary shall receive no more filings on the appeal and the administrative record regarding the appeal shall be closed.

"(2) Notice.—Upon the closure of the administrative record, the Secretary shall immediately publish a notice that the administrative record has been closed.

"(c) Deadline for decision.—The Secretary shall issue a decision in any appeal filed under section 307 not later than 120 days after the closure of the administrative record.

•HR 6 IH
“(d) APPLICATION.—This section applies to appeals initiated by the Secretary and appeals filed by an applicant.”.

(b) APPLICATION.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendment made by subsection (a) shall apply with respect to any appeal initiated or filed before, on, or after the date of enactment of this Act.

(2) LIMITATION.—Subsection (a) of section 319 of the Coastal Zone Management Act of 1972 (as amended by subsection (a)) shall not apply with respect to an appeal initiated or filed before the date of enactment of this Act.

(c) CLOSURE OF RECORD FOR APPEAL FILED BEFORE DATE OF ENACTMENT.—Notwithstanding section 319(b)(1) of the Coastal Zone Management Act of 1972 (as amended by this section), in the case of an appeal of a consistency determination under section 307 of that Act initiated or filed before the date of enactment of this Act, the Secretary of Commerce shall receive no more filings on the appeal and the administrative record regarding the appeal shall be closed not later than 120 days after the date of enactment of this Act.
SEC. 2014. REIMBURSEMENT FOR COSTS OF NEPA ANALYSES, DOCUMENTATION, AND STUDIES.

(a) IN GENERAL.—The Mineral Leasing Act is amended by inserting after section 37 (30 U.S.C. 193) the following:

"REIMBURSEMENT FOR COSTS OF CERTAIN ANALYSES, DOCUMENTATION, AND STUDIES

SEC. 38. (a) IN GENERAL.—The Secretary of the Interior shall issue regulations under which the Secretary shall reimburse a person that is a lessee, operator, operating rights owner, or applicant for any lease under this Act for reasonable amounts paid by the person for preparation for the Secretary by a contractor or other person selected by the Secretary of any project-level analysis, documentation, or related study required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the lease.

"(b) CONDITIONS.—The Secretary may provide reimbursement under subsection (a) only if—

"(1) adequate funding to enable the Secretary to timely prepare the analysis, documentation, or related study is not appropriated;

"(2) the person paid the costs voluntarily;

"(3) the person maintains records of its costs in accordance with regulations issued by the Secretary;"
“(4) the reimbursement is in the form of a reduction in the Federal share of the royalty required to be paid for the lease for which the analysis, documentation, or related study is conducted, and is agreed to by the Secretary and the person reimbursed prior to commencing the analysis, documentation, or related study; and

“(5) the agreement required under paragraph (4) contains provisions—

“(A) reducing royalties owed on lease production based on market prices;

“(B) stipulating an automatic termination of the royalty reduction upon recovery of documented costs; and

“(C) providing a process by which the lessee may seek reimbursement for circumstances in which production from the specified lease is not possible.”.

(b) Application.—The amendment made by this section shall apply with respect to an analysis, documentation, or a related study conducted on or after the date of enactment of this Act for any lease entered into before, on, or after the date of enactment of this Act.

(c) Deadline for Regulations.—The Secretary shall issue regulations implementing the amendment made
by this section by not later than 1 year after the date
of enactment of this Act.

SEC. 2015. GAS HYDRATE PRODUCTION INCENTIVE.

(a) PURPOSE.—The purpose of this section is to pro-
mote natural gas production from the abundant natural
gas hydrate resources on the outer Continental Shelf and
Federal lands in Alaska by providing royalty incentives.

(b) SUSPENSION OF ROYALTIES.—

(1) IN GENERAL.—The Secretary of the Inte-
rior shall grant royalty relief in accordance with this
section for natural gas produced from gas hydrate
resources under any lease that is an eligible lease
under paragraph (2).

(2) ELIGIBLE LEASES.—A lease shall be an eli-
gible lease for purposes of this section if—

(A) it is issued under the Outer Conti-
nental Shelf Lands Act (43 U.S.C. 1331 et
seq.), or is an oil and gas lease issued for on-
shore Federal lands in Alaska;

(B) it is issued prior to January 1, 2016;

and

(C) production under the lease of natural
gas from the gas hydrate resources commences
prior to January 1, 2018.
(3) AMOUNT OF RELIEF.—The Secretary shall grant royalty relief under this section as a suspension volume of at least 50 billion cubic feet of natural gas produced from gas hydrate resources per 9 square mile leased tract. Such relief shall be in addition to any other royalty relief under any other provision applicable to the lease that does not specifically grant a gas hydrate production incentive. The minimum suspension volume under this section for leased tracts that are smaller or larger than nine square miles shall be adjusted on a proportional basis.

(4) LIMITATION.—The Secretary may place limitations on the suspension of royalty relief granted based on market price.

(e) APPLICATION.—This section shall apply to any eligible lease issued before, on, or after the date of enactment of this Act.

(d) RULEMAKINGS.—The Secretary shall complete any rulemakings implementing this section within 1 year after the date of enactment of this Act.

(e) GAS HYDRATE RESOURCES DEFINED.—In this section, the term “gas hydrate resources” includes both the natural gas content of gas hydrates within the hydrate

•HR 6 IH
stability zone and free natural gas trapped by and beneath the hydrate stability zone.

SEC. 2016. ONSHORE DEEP GAS PRODUCTION INCENTIVE.

(a) PURPOSE.—The purpose of this section is to promote natural gas production from the abundant onshore deep gas resources on Federal lands by providing royalty incentives.

(b) SUSPENSION OF ROYALTIES.—

(1) IN GENERAL.—The Secretary shall grant royalty relief in accordance with this section for natural gas produced from deep wells spudded after the date of enactment of this Act under any onshore Federal oil and gas lease.

(2) AMOUNT OF RELIEF.—The Secretary shall grant royalty relief under this section as a suspension volume determined by the Secretary in an amount necessary to maximize production of natural gas volumes. The maximum suspension volume shall be 50 billion cubic feet of natural gas per lease. Such royalty suspension volume shall be applied beginning with the first dollar of royalty obligation for production on or after the date of enactment of this Act.
(3) LIMITATION.—The Secretary may place limitations on the suspension of royalty relief granted based on market price.

(c) APPLICATION.—This section shall apply to any onshore Federal oil and gas lease issued before, on, or after the date of enactment of this Act.

(d) RULEMAKINGS.—

(1) REQUIREMENT.—The Secretary shall complete any rulemakings implementing this section within 1 year after the date of enactment of this Act.

(2) DEFINITION OF DEEP WELL.—Such regulations shall include a definition of the term “deep well” for purposes of this section.

SEC. 2017. ENHANCED OIL AND NATURAL GAS PRODUCTION INCENTIVE.

(a) FINDINGS.—Congress finds the following:

(1) Approximately two-thirds of the original oil in place in the United States remains unproduced.

(2) Enhanced oil and natural gas production from the sequestering of carbon dioxide and other appropriate gases has the potential to increase oil and natural gas production in the United States by 2 million barrels of oil equivalent per day, or more.
(3) Collection of carbon dioxide and other appropriate gases from industrial facilities could provide a significant source of these gases that could be permanently sequestered into oil and natural gas fields.

(4) Such collection could be made economic by providing production incentives to oil and natural gas lessees.

(5) Providing production incentives for enhanced oil and natural gas production would promote significant advances in emissions control and capture technology.

(6) Capturing and productively using industrial emissions of carbon dioxide would help reduce the carbon intensity of the economy.

(7) Enhanced production of oil and natural gas lessens the potential for environmental impacts when compared with development of new oil and natural gas fields because the infrastructure, such as wells, pipelines, and platforms, is generally already in place.

(b) PURPOSE.—The purpose of this section is—

(1) to promote the capturing, transportation, and injection of produced carbon dioxide, natural
carbon dioxide, and other appropriate gases for sequestration into oil and gas fields; and

(2) to promote oil and natural gas production from the abundant resources on the outer Continental Shelf and onshore Federal lands by enhancing recovery of oil or natural gas (or both).

(c) SUSPENSION OF ROYALTIES.—

(1) IN GENERAL.—The Secretary of the Interior shall grant a royalty relief in accordance with this section for production of oil or natural gas (or both) from lands subject to an eligible lease into which the lessee injects carbon dioxide, or other appropriate gas or other matter approved by the Secretary, for the purpose of enhancing recovery of oil or natural gas (or both) from the eligible lease.

(2) ELIGIBLE LEASES.—A lease shall be an eligible lease for purposes of this section if it is a lease for production of oil or gas (or both) from Federal outer Continental Shelf or onshore lands that the Secretary determines may contain a volume of oil or natural gas that would not likely be produced without royalty relief under this subsection.

(3) AMOUNT OF RELIEF.—The Secretary shall grant royalty relief under this section as a suspension volume determined by the Secretary in an
amount necessary to maximize production of oil and
natural gas volumes. The maximum suspension vol-
ume shall be 50 billion cubic feet of natural gas, or
equivalent oil volume on a Btu basis, or a combina-
tion thereof, per eligible lease.

(4) LIMITATION.—The Secretary may place lim-
itations on the suspension of royalty relief granted
based on market price.

(d) APPLICATION.—This section shall apply to any
eligible lease issued before, on, or after the date of enact-
ment of this Act.

(e) RULEMAKINGS.—The Secretary shall complete
any rulemakings implementing this provision within 1 year
after the date of enactment of this Act.

SEC. 2018. OIL SHALE.

(a) FINDING.—Congress finds that oil shale re-
sources located within the United States—

(1) total almost 2 trillion barrels of oil in place;
and

(2) are a strategically important domestic re-
source that should be developed on an accelerated
basis to reduce our growing reliance on politically
and economically unstable sources of foreign oil im-
ports.
(b) REQUIREMENT TO DEVELOP OIL SHALE LEASING PROGRAM.—The Secretary of the Interior shall develop a Federal commercial oil shale leasing program as soon as practicable and publish a final regulation implementing such program by not later than December 31, 2006.

(c) COMMENCEMENT OF LEASE SALES.—The Secretary shall hold the first oil shale lease sale under such program within 180 days after publishing the final regulation.

(d) REPORT.—Within 90 days after the date of enactment of this Act, the Secretary shall report to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on—

(1) the interim actions necessary to—

(A) develop the program under subsection (b);

(B) promulgate the final regulation under subsection (b); and

(C) conduct the first lease sale under the program under subsection (b); and

(2) a schedule for completing such actions.

(e) OIL SHALE LAND EXCHANGES.—
(1) REQUIREMENT.—The Secretary shall identify and pursue to completion oil shale land exchanges, on a value-for-value basis, that will allow qualified oil shale developers to have early access to currently owned Federal oil shale lands and to commence commercial oil shale development.

SEC. 2019. USE OF INFORMATION ABOUT OIL AND GAS PUBLIC CHALLENGES.

(a) FINDINGS.—Congress finds the following:

(1) The Government Accountability Office (in this section referred to as the “GAO”), in report GAO–05–124, found that the Bureau of Land Management does not systematically gather and use nationwide information on public challenges to manage its oil and gas program.

(2) The GAO found that this failure prevents the Director of the Bureau from assessing the impact of public challenges on the workload of the Bureau of Land Management State offices and elimi-
nates the ability of the Director to make appropriate staffing and funding resource allocation decisions.

(b) REQUIREMENT.—The Secretary of the Interior and the Secretary of Agriculture shall systematically collect and use nationwide information on public challenges to manage the oil and gas programs of the bureaus within their departments. The Secretaries shall gather such information at the planning, leasing, exploration, and development stages, and shall maintain such information electronically with current data.

Subtitle B—Access to Federal Land

SEC. 2021. OFFICE OF FEDERAL ENERGY PROJECT COORDINATION.

(a) Establishment.—The President shall establish the Office of Federal Energy Project Coordination (referred to in this section as the “Office”) within the Executive Office of the President in the same manner and with the same mission as the White House Energy Projects Task Force established by Executive Order No. 13212 (42 U.S.C. 13201 note).

(b) Staffing.—The Office shall be staffed by functional experts from relevant Federal agencies on a non-reimbursable basis to carry out the mission of the Office.

(c) Report.—The Office shall transmit an annual report to Congress that describes the activities put in place
to coordinate and expedite Federal decisions on energy projects. The report shall list accomplishments in improving the Federal decisionmaking process and shall include any additional recommendations or systemic changes needed to establish a more effective and efficient Federal permitting process.

SEC. 2022. FEDERAL ONSHORE OIL AND GAS LEASING AND PERMITTING PRACTICES.

(a) Review of Onshore Oil and Gas Leasing Practices.—

(1) In general.—The Secretary of the Interior, in consultation with the Secretary of Agriculture with respect to National Forest System lands under the jurisdiction of the Department of Agriculture, shall perform an internal review of current Federal onshore oil and gas leasing and permitting practices.

(2) Inclusions.—The review shall include the process for—

(A) accepting or rejecting offers to lease;

(B) administrative appeals of decisions or orders of officers or employees of the Bureau of Land Management with respect to a Federal oil or gas lease;
(C) considering surface use plans of operation, including the timeframes in which the plans are considered, and any recommendations for improving and expediting the process; and

(D) identifying stipulations to address site-specific concerns and conditions, including those stipulations relating to the environment and resource use conflicts.

(b) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall transmit a report to Congress that describes—

(1) actions taken under section 3 of Executive Order No. 13212 (42 U.S.C. 13201 note); and

(2) actions taken or any plans to improve the Federal onshore oil and gas leasing program.

SEC. 2023. MANAGEMENT OF FEDERAL OIL AND GAS LEASING PROGRAMS.

(a) TIMELY ACTION ON LEASES AND PERMITS.—To ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing, the Secretary of the Interior (in this section referred to as the “Secretary”) shall—
(1) ensure expeditious compliance with section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C));

(2) improve consultation and coordination with the States and the public; and

(3) improve the collection, storage, and retrieval of information relating to the leasing activities.

(b) Best Management Practices.—

(1) In general.—Not later than 18 months after the date of enactment of this Act, the Secretary shall develop and implement best management practices to—

(A) improve the administration of the onshore oil and gas leasing program under the Mineral Leasing Act (30 U.S.C. 181 et seq.);

and

(B) ensure timely action on oil and gas leases and applications for permits to drill on lands otherwise available for leasing.

(2) Considerations.—In developing the best management practices under paragraph (1), the Secretary shall consider any recommendations from the review under section 2022.

(3) Regulations.—Not later than 180 days after the development of best management practices
under paragraph (1), the Secretary shall publish, for public comment, proposed regulations that set forth specific timeframes for processing leases and applications in accordance with the practices, including deadlines for—

(A) approving or disapproving resource management plans and related documents, lease applications, and surface use plans; and

(B) related administrative appeals.

(c) IMPROVED ENFORCEMENT.—The Secretary shall improve inspection and enforcement of oil and gas activities, including enforcement of terms and conditions in permits to drill.

(d) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts authorized to be appropriated to carry out section 17 of the Mineral Leasing Act (30 U.S.C. 226), there are authorized to be appropriated to the Secretary for each of fiscal years 2006 through 2009—

(1) $40,000,000 to carry out subsections (a) and (b); and

(2) $20,000,000 to carry out subsection (c).

SEC. 2024. CONSULTATION REGARDING OIL AND GAS LEASING ON PUBLIC LAND.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior
and the Secretary of Agriculture shall enter into a memorandum of understanding regarding oil and gas leasing on—

(1) public lands under the jurisdiction of the Secretary of the Interior; and

(2) National Forest System lands under the jurisdiction of the Secretary of Agriculture.

(b) CONTENTS.—The memorandum of understanding shall include provisions that—

(1) establish administrative procedures and lines of authority that ensure timely processing of oil and gas lease applications, surface use plans of operation, and applications for permits to drill, including steps for processing surface use plans and applications for permits to drill consistent with the timelines established by the amendment made by section 2028;

(2) eliminate duplication of effort by providing for coordination of planning and environmental compliance efforts; and

(3) ensure that lease stipulations are—

(A) applied consistently;

(B) coordinated between agencies; and
(C) only as restrictive as necessary to protect the resource for which the stipulations are applied.

(c) **DATA RETRIEVAL SYSTEM.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish a joint data retrieval system that is capable of—

(A) tracking applications and formal requests made in accordance with procedures of the Federal onshore oil and gas leasing program; and

(B) providing information regarding the status of the applications and requests within the Department of the Interior and the Department of Agriculture.

(2) **RESOURCE MAPPING.**—Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish a joint Geographic Information System mapping system for use in—

(A) tracking surface resource values to aid in resource management; and
(B) processing surface use plans of operation and applications for permits to drill.

SEC. 2025. ESTIMATES OF OIL AND GAS RESOURCES UNDERLYING ONSHORE FEDERAL LAND.

(a) ASSESSMENT.—Section 604 of the Energy Act of 2000 (42 U.S.C. 6217) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking “reserve”; and

(ii) by striking “and” after the semi-colon; and

(B) by striking paragraph (2) and inserting the following:

“(2) the extent and nature of any restrictions or impediments to the development of the resources, including—

“(A) impediments to the timely granting of leases;

“(B) post-lease restrictions, impediments, or delays on development for conditions of approval, applications for permits to drill, or processing of environmental permits; and

“(C) permits or restrictions associated with transporting the resources for entry into commerce; and
“(3) the quantity of resources not produced or introduced into commerce because of the restrictions.”;

(2) in subsection (b)—

(A) by striking “reserve” and inserting “resource”; and

(B) by striking “publically” and inserting “publicly”; and

(3) by striking subsection (d) and inserting the following:

“(d) ASSESSMENTS.—Using the inventory, the Secretary of Energy shall make periodic assessments of economically recoverable resources accounting for a range of parameters such as current costs, commodity prices, technology, and regulations.”.

(b) METHODOLOGY.—The Secretary of the Interior shall use the same assessment methodology across all geological provinces, areas, and regions in preparing and issuing national geological assessments to ensure accurate comparisons of geological resources.
SEC. 2026. COMPLIANCE WITH EXECUTIVE ORDER 13211; ACTIONS CONCERNING REGULATIONS THAT SIGNIFICANTLY AFFECT ENERGY SUPPLY, DISTRIBUTION, OR USE.

(a) REQUIREMENT.—The head of each Federal agency shall require that before the Federal agency takes any action that could have a significant adverse effect on the supply of domestic energy resources from Federal public land, the Federal agency taking the action shall comply with Executive Order No. 13211 (42 U.S.C. 13201 note).

(b) GUIDANCE.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall publish guidance for purposes of this section describing what constitutes a significant adverse effect on the supply of domestic energy resources under Executive Order No. 13211 (42 U.S.C. 13201 note).

(c) MEMORANDUM OF UNDERSTANDING.—The Secretary of the Interior and the Secretary of Agriculture shall include in the memorandum of understanding under section 2024 provisions for implementing subsection (a) of this section.

SEC. 2027. PILOT PROJECT TO IMPROVE FEDERAL PERMIT COORDINATION.

(a) ESTABLISHMENT.—The Secretary of the Interior (in this section referred to as the "Secretary") shall estab-
lish a Federal Permit Streamlining Pilot Project (in this
section referred to as the “Pilot Project”).

(b) MEMORANDUM OF UNDERSTANDING.—

(1) IN GENERAL.—Not later than 90 days after
the date of enactment of this Act, the Secretary
shall enter into a memorandum of understanding
with the Secretary of Agriculture, the Administrator
of the Environmental Protection Agency, and the
Chief of Engineers of the Army Corps of Engineers
for purposes of this section.

(2) STATE PARTICIPATION.—The Secretary
may request that the Governors of Wyoming, Mon-
tana, Colorado, Utah, and New Mexico be signato-
ries to the memorandum of understanding.

(c) DESIGNATION OF QUALIFIED STAFF.—

(1) IN GENERAL.—Not later than 30 days after
the date of the signing of the memorandum of un-
derstanding under subsection (b), all Federal signa-
tory parties shall assign to each of the field offices
identified in subsection (d), on a nonreimbursable
basis, an employee who has expertise in the regu-
laratory issues relating to the office in which the em-
ployee is employed, including, as applicable, par-
ticular expertise in—
(A) the consultations and the preparation of biological opinions under section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1536);

(B) permits under section 404 of Federal Water Pollution Control Act (33 U.S.C. 1344);

(C) regulatory matters under the Clean Air Act (42 U.S.C. 7401 et seq.);

(D) planning under the National Forest Management Act of 1976 (16 U.S.C. 472a et seq.); and

(E) the preparation of analyses under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) Duties.—Each employee assigned under paragraph (1) shall—

(A) not later than 90 days after the date of assignment, report to the Bureau of Land Management Field Managers in the office to which the employee is assigned;

(B) be responsible for all issues relating to the jurisdiction of the home office or agency of the employee; and
(C) participate as part of the team of personnel working on proposed energy projects, planning, and environmental analyses.

(d) Field Offices.—The following Bureau of Land Management Field Offices shall serve as the Pilot Project offices:

(1) Rawlins, Wyoming.
(2) Buffalo, Wyoming.
(3) Miles City, Montana
(4) Farmington, New Mexico.
(5) Carlsbad, New Mexico.
(6) Glenwood Springs, Colorado.
(7) Vernal, Utah.

(e) Reports.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report that—

(1) outlines the results of the Pilot Project to date; and

(2) makes a recommendation to the President regarding whether the Pilot Project should be implemented throughout the United States.

(f) Additional Personnel.—The Secretary shall assign to each field office identified in subsection (d) any additional personnel that are necessary to ensure the effective implementation of—
(1) the Pilot Project; and

(2) other programs administered by the field offices, including inspection and enforcement relating to energy development on Federal land, in accordance with the multiple use mandate of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq).

(g) SAVINGS PROVISION.—Nothing in this section affects—

(1) the operation of any Federal or State law; or

(2) any delegation of authority made by the head of a Federal agency whose employees are participating in the Pilot Project.

SEC. 2028. DEADLINE FOR CONSIDERATION OF APPLICATIONS FOR PERMITS.

Section 17 of the Mineral Leasing Act (30 U.S.C. 226) is amended by adding at the end the following:

“(p) Deadlines for Consideration of Applications for Permits.—

“(1) In general.—Not later than 10 days after the date on which the Secretary receives an application for any permit to drill, the Secretary shall—
“(A) notify the applicant that the application is complete; or

“(B) notify the applicant that information is missing and specify any information that is required to be submitted for the application to be complete.

“(2) ISSUANCE OR DEFERRAL.—Not later than 30 days after the applicant for a permit has submitted a complete application, the Secretary shall—

“(A) issue the permit; or

“(B)(i) defer decision on the permit; and

“(ii) provide to the applicant a notice that specifies any steps that the applicant could take for the permit to be issued.

“(3) REQUIREMENTS FOR DEFERRED APPLICATIONS.—

“(A) IN GENERAL.—If the Secretary provides notice under paragraph (2)(B)(ii), the applicant shall have a period of 2 years from the date of receipt of the notice in which to complete all requirements specified by the Secretary, including providing information needed for compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).
“(B) Issuance of Decision on Permit.—If the applicant completes the requirements within the period specified in subparagraph (A), the Secretary shall issue a decision on the permit not later than 10 days after the date of completion of the requirements described in subparagraph (A).

“(C) Denial of Permit.—If the applicant does not complete the requirements within the period specified in subparagraph (A), the Secretary shall deny the permit.

“(q) Report.—On a quarterly basis, each field office of the Bureau of Land Management and the Forest Service shall transmit to the Secretary of the Interior or the Secretary of Agriculture, respectively, a report that—

“(1) specifies the number of applications for permits to drill received by the field office in the period covered by the report; and

“(2) describes how each of the applications was disposed of by the field office in accordance with subsection (p).”
SEC. 2029. CLARIFICATION OF FAIR MARKET RENTAL VALUE DETERMINATIONS FOR PUBLIC LAND AND FOREST SERVICE RIGHTS-OF-WAY.

(a) Linear Rights-of-Way Under Federal Land Policy and Management Act of 1976.—Section 504 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764) is amended by adding at the end the following:

“(k) Determination of Fair Market Value of Linear Rights-of-Way.—

“(1) In general.—Effective beginning on the date of the issuance of the rules required by paragraph (2), for purposes of subsection (g), the Secretary concerned shall determine the fair market value for the use of land encumbered by a linear right-of-way granted, issued, or renewed under this title using the valuation method described in paragraphs (2), (3), and (4).

“(2) Revisions.—Not later than 1 year after the date of enactment of this subsection—

“(A) the Secretary of the Interior shall amend section 2803.1–2 of title 43, Code of Federal Regulations, as in effect on the date of enactment of this subsection, to revise the per acre rental fee zone value schedule by State,
county, and type of linear right-of-way use to
reflect current values of land in each zone; and

“(B) the Secretary of Agriculture shall
make the same revision for linear rights-of-way
granted, issued, or renewed under this title on
National Forest System land.

“(3) UPDATES.—The Secretary concerned shall
annually update the schedule revised under para-
graph (2) by multiplying the current year’s rental
per acre by the annual change, second quarter to
second quarter (June 30 to June 30) in the Gross
National Product Implicit Price Deflator Index pub-
lished in the Survey of Current Business of the De-
partment of Commerce, Bureau of Economic Anal-
ysis.

“(4) REVIEW.—If the cumulative change in the
index referred to in paragraph (3) exceeds 30 per-
cent, or the change in the 3-year average of the 1-
year Treasury interest rate used to determine per
acre rental fee zone values exceeds plus or minus 50
percent, the Secretary concerned shall conduct a re-
view of the zones and rental per acre figures to de-
determine whether the value of Federal land has dif-
ered sufficiently from the index referred to in para-
graph (3) to warrant a revision in the base zones
and rental per acre figures. If, as a result of the re-
view, the Secretary concerned determines that such
a revision is warranted, the Secretary concerned
shall revise the base zones and rental per acre fig-
ures accordingly. Any revision of base zones and
rental per acre figure shall only affect lease rental
rates at inception or renewal.”.

(b) Rights-of-Way Under Mineral Leasing
Act.—Section 28(l) of the Mineral Leasing Act (30
U.S.C. 185(l)) is amended by inserting before the period
at the end the following: “using the valuation method de-
scribed in section 2803.1–2 of title 43, Code of Federal
Regulations, as revised in accordance with section 504(k)
of the Federal Land Policy and Management Act of 1976
(43 U.S.C. 1764(k))”.

SEC. 2030. Energy Facility Rights-of-Way and Cor-
ridors on Federal Land.

(a) Report to Congress.—

(1) In general.—Not later than 1 year after
the date of enactment of this Act, the Secretary of
Agriculture and the Secretary of the Interior, in con-
sultation with the Secretary of Commerce, the Sec-
retary of Defense, the Secretary of Energy, and the
Federal Energy Regulatory Commission, shall sub-
mit to Congress a joint report—
(A) that addresses—

(i) the location of existing rights-of-way and designated and de facto corridors for oil, gas, and hydrogen pipelines and electric transmission and distribution facilities on Federal land; and

(ii) opportunities for additional oil, gas, and hydrogen pipeline and electric transmission capacity within those rights-of-way and corridors; and

(B) that includes a plan for making available, on request, to the appropriate Federal, State, and local agencies, tribal governments, and other persons involved in the siting of oil, gas, and hydrogen pipelines and electricity transmission facilities Geographic Information System-based information regarding the location of the existing rights-of-way and corridors and any planned rights-of-way and corridors.

(2) Consultations and Considerations.—

In preparing the report, the Secretary of the Interior and the Secretary of Agriculture shall consult with—

(A) other agencies of Federal, State, tribal, or local units of government, as appropriate;
(B) persons involved in the siting of oil, gas, and hydrogen pipelines and electric transmission facilities; and

(C) other interested members of the public.

(3) LIMITATION.—The Secretary of the Interior and the Secretary of Agriculture shall limit the distribution of the report and Geographic Information System-based information referred to in paragraph (1) as necessary for national and infrastructure security reasons, if either Secretary determines that the information may be withheld from public disclosure under a national security or other exception under section 552(b) of title 5, United States Code.

(b) CORRIDOR DESIGNATIONS.—

(1) 11 CONTIGUOUS WESTERN STATES.—Not later than 2 years after the date of enactment of this Act, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall jointly—

(A) designate, under title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) and other applicable Fed-
eral laws, corridors for oil, gas, and hydrogen
pipelines and electricity transmission and facili-
ties on Federal land in the eleven contiguous
Western States (as defined in section 103 of
the Federal Land Policy and Management Act
of 1976 (43 U.S.C. 1702));

(B) perform any environmental reviews
that may be required to complete the designa-
tions of corridors for the facilities on Federal
land in the eleven contiguous Western States;
and

(C) incorporate the designated corridors
into—

(i) the relevant departmental and
agency land use and resource management
plans; or

(ii) equivalent plans.

(2) OTHER STATES.—Not later than 4 years
after the date of enactment of this Act, the Sec-
retary of Agriculture, the Secretary of Commerce,
the Secretary of Defense, the Secretary of Energy,
and the Secretary of the Interior, in consultation
with the Federal Energy Regulatory Commission
and the affected utility industries, shall jointly—
(A) identify corridors for oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities on Federal land in the States other than those described in paragraph (1); and

(B) schedule prompt action to identify, designate, and incorporate the corridors into the land use plan.

(3) ONGOING RESPONSIBILITIES.—The Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, with respect to lands under their respective jurisdictions, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall establish procedures that—

(A) ensure that additional corridors for oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities on Federal land are promptly identified and designated; and

(B) expedite applications to construct or modify oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities within the corridors, taking into account
prior analyses and environmental reviews undertaken during the designation of corridors.

(c) CONSIDERATIONS.—In carrying out this section, the Secretaries shall take into account the need for upgraded and new electricity transmission and distribution facilities to—

(1) improve reliability;

(2) relieve congestion; and

(3) enhance the capability of the national grid to deliver electricity.

(d) DEFINITION OF CORRIDOR.—

(1) IN GENERAL.—In this section and title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.), the term “corridor” means—

(A) a linear strip of land—

(i) with a width determined with consideration given to technological, environmental, and topographical factors; and

(ii) that contains, or may in the future contain, 1 or more utility, communication, or transportation facilities;

(B) a land use designation that is established—

(i) by law;
(ii) by Secretarial Order;

(iii) through the land use planning process; or

(iv) by other management decision;

and

(C) a designation made for the purpose of establishing the preferred location of compatible linear facilities and land uses.

(2) Specifications of Corridor.—On designation of a corridor under this section, the center-line, width, and compatible uses of a corridor shall be specified.

SEC. 2031. CONSULTATION REGARDING ENERGY RIGHTS-OF-WAY ON PUBLIC LAND.

(a) Memorandum of Understanding.—

(1) In General.—Not later than 6 months after the date of enactment of this Act, the Secretary of Energy, in consultation with the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Defense with respect to lands under their respective jurisdictions, shall enter into a memorandum of understanding to coordinate all applicable Federal authorizations and environmental reviews relating to a proposed or existing utility facility. To the maximum extent practicable under ap-
applicable law, the Secretary of Energy shall, to ensure
timely review and permit decisions, coordinate such
authorizations and reviews with any Indian tribes,
multi-State entities, and State agencies that are re-
sponsible for conducting any separate permitting
and environmental reviews of the affected utility fa-
cility.

(2) CONTENTS.—The memorandum of under-
standing shall include provisions that—

(A) establish—

(i) a unified right-of-way application

form; and

(ii) an administrative procedure for

processing right-of-way applications, in-
cluding lines of authority, steps in applica-
tion processing, and timeframes for appli-
cation processing;

(B) provide for coordination of planning
relating to the granting of the rights-of-way;

(C) provide for an agreement among the
affected Federal agencies to prepare a single
environmental review document to be used as
the basis for all Federal authorization decisions;
(D) provide for coordination of use of right-of-way stipulations to achieve consistency.

(b) NATURAL GAS PIPELINES.—

(1) IN GENERAL.—With respect to permitting activities for interstate natural gas pipelines, the May 2002 document entitled “Interagency Agreement On Early Coordination Of Required Environmental And Historic Preservation Reviews Conducted In Conjunction With The Issuance Of Authorizations To Construct And Operate Interstate Natural Gas Pipelines Certificated By The Federal Energy Regulatory Commission” shall constitute compliance with subsection (a).

(2) REPORT.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, and every 2 years thereafter, agencies that are signatories to the document referred to in paragraph (1) shall transmit to Congress a report on how the agencies under the jurisdiction of the Secretaries are incorporating and implementing the provisions of the document referred to in paragraph (1).

(B) CONTENTS.—The report shall address—
(i) efforts to implement the provisions of the document referred to in paragraph (1);
(ii) whether the efforts have had a streamlining effect;
(iii) further improvements to the permitting process of the agency; and
(iv) recommendations for inclusion of State and tribal governments in a coordinated permitting process.

(c) DEFINITION OF UTILITY FACILITY.—In this section, the term “utility facility” means any privately, publicly, or cooperatively owned line, facility, or system—
(1) for the transportation of—
(A) oil, natural gas, synthetic liquid fuel, or gaseous fuel;
(B) any refined product produced from oil, natural gas, synthetic liquid fuel, or gaseous fuel; or
(C) products in support of the production of material referred to in subparagraph (A) or (B);
(2) for storage and terminal facilities in connection with the production of material referred to in paragraph (1); or
(3) for the generation, transmission, and distribution of electric energy.

SEC. 2032. ELECTRICITY TRANSMISSION LINE RIGHT-OF-WAY, CLEVELAND NATIONAL FOREST AND ADJACENT PUBLIC LAND, CALIFORNIA.

(a) ISSUANCE.—

(1) IN GENERAL.—Not later than 60 days after the completion of the environmental reviews under subsection (e), the Secretary of the Interior and the Secretary of Agriculture shall issue all necessary grants, easements, permits, plan amendments, and other approvals to allow for the siting and construction of a high-voltage electricity transmission line right-of-way running approximately north to south through the Trabuco Ranger District of the Cleveland National Forest in the State of California and adjacent lands under the jurisdiction of the Bureau of Land Management and the Forest Service.

(2) INCLUSIONS.—The right-of-way approvals under paragraph (1) shall provide all necessary Federal authorization from the Secretary of the Interior and the Secretary of Agriculture for the routing, construction, operation, and maintenance of a 500-kilovolt transmission line capable of meeting the long-term electricity transmission needs of the region.
between the existing Valley-Serrano transmission line to the north and the Telega-Escondido transmission line to the south, and for connecting to future generating capacity that may be developed in the region.

(b) PROTECTION OF WILDERNESS AREAS.—The Secretary of the Interior and the Secretary of Agriculture shall not allow any portion of a transmission line right-of-way corridor identified in subsection (a) to enter any identified wilderness area in existence as of the date of enactment of this Act.

(c) ENVIRONMENTAL AND ADMINISTRATIVE REVIEWS.—

(1) DEPARTMENT OF INTERIOR OR LOCAL AGENCY.—The Secretary of the Interior, acting through the Director of the Bureau of Land Management, shall be the lead Federal agency with overall responsibility to ensure completion of required environmental and other reviews of the approvals to be issued under subsection (a).

(2) NATIONAL FOREST SYSTEM LAND.—For the portions of the corridor on National Forest System lands, the Secretary of Agriculture shall complete all required environmental reviews and administrative
actions in coordination with the Secretary of the Interior.

(3) EXPEDITIOUS COMPLETION.—The reviews required for issuance of the approvals under subsection (a) shall be completed not later than 1 year after the date of enactment of this Act.

(d) OTHER TERMS AND CONDITIONS.—The transmission line right-of-way shall be subject to such terms and conditions as the Secretary of the Interior and the Secretary of Agriculture consider necessary, based on the environmental reviews under subsection (c), to protect the value of historic, cultural, and natural resources under the jurisdiction of the Secretary of the Interior or the Secretary of Agriculture.

(e) PREFERENCE AMONG PROPOSALS.—The Secretary of the Interior and the Secretary of Agriculture shall give a preference to any application or preapplication proposal for a transmission line right-of-way referred to in subsection (a) that was submitted before December 31, 2002, over all other applications and proposals for the same or a similar right-of-way submitted on or after that date.
SEC. 2033. SENSE OF CONGRESS REGARDING DEVELOPMENT OF MINERALS UNDER PADRE ISLAND NATIONAL SEASHORE.

(a) FINDINGS.—Congress finds the following:

(1) Pursuant to Public Law 87–712 (16 U.S.C. 459d et seq.; popularly known as the “Federal Enabling Act”) and various deeds and actions under that Act, the United States is the owner of only the surface estate of certain lands constituting the Padre Island National Seashore.

(2) Ownership of the oil, gas, and other minerals in the subsurface estate of the lands constituting the Padre Island National Seashore was never acquired by the United States, and ownership of those interests is held by the State of Texas and private parties.

(3) Public Law 87–712 (16 U.S.C. 459d et seq.)—

(A) expressly contemplated that the United States would recognize the ownership and future development of the oil, gas, and other minerals in the subsurface estate of the lands constituting the Padre Island National Seashore by the owners and their mineral lessees; and
(B) recognized that approval of the State of Texas was required to create Padre Island National Seashore.

(4) Approval was given for the creation of Padre Island National Seashore by the State of Texas through Tex. Rev. Civ. Stat. Ann. Art. 6077(t) (Vernon 1970), which expressly recognized that development of the oil, gas, and other minerals in the subsurface of the lands constituting Padre Island National Seashore would be conducted with full rights of ingress and egress under the laws of the State of Texas.

(b) SENSE OF CONGRESS.—It is the sense of Congress that with regard to Federal law, any regulation of the development of oil, gas, or other minerals in the subsurface of the lands constituting Padre Island National Seashore should be made as if those lands retained the status that the lands had on September 27, 1962.

SEC. 2034. LIVINGSTON PARISH MINERAL RIGHTS TRANSFER.

(a) AMENDMENTS.—Section 102 of Public Law 102–562 (106 Stat. 4234) is amended—

(1) by striking “(a) IN GENERAL.—”;

(2) by striking “and subject to the reservation in subsection (b),”; and
(3) by striking subsection (b).

(b) IMPLEMENTATION OF AMENDMENT.—The Secretary of the Interior shall execute the legal instruments necessary to effectuate the amendment made by subsection (a)(3).

Subtitle C—Naval Petroleum Reserves

SEC. 2041. TRANSFER OF ADMINISTRATIVE JURISDICTION AND ENVIRONMENTAL REMEDIATION, NAVAL PETROLEUM RESERVE NUMBERED 2, KERN COUNTY, CALIFORNIA.

(a) ADMINISTRATION JURISDICTION TRANSFER TO SECRETARY OF THE INTERIOR.—Effective on the date of the enactment of this Act, administrative jurisdiction and control over all public domain lands included within Naval Petroleum Reserve Numbered 2 located in Kern County, California, (other than the lands specified in subsection (b)) are transferred from the Secretary of Energy to the Secretary of the Interior for management, subject to subsection (c), in accordance with the general land laws.

(b) EXCLUSION OF CERTAIN RESERVE LANDS.—The transfer of administrative jurisdiction made by subsection (a) does not include the following lands:

(1) That portion of Naval Petroleum Reserve Numbered 2 authorized for disposal under section

(2) That portion of the surface estate of Naval Petroleum Reserve Numbered 2 conveyed to the City of Taft, California, by section 2042 of this Act.

(e) PURPOSE OF TRANSFER.—Notwithstanding any other provision of law, the principle purpose of the lands subject to transfer under subsection (a) is the production of hydrocarbon resources, and the Secretary of the Interior shall manage the lands in a fashion consistent with this purpose. In managing the lands, the Secretary of the Interior shall regulate operations only to prevent unnecessary degradation and to provide for ultimate economic recovery of the resources.

(d) CONFORMING AMENDMENT.—Section 3403 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 10 U.S.C 7420 note) is amended by striking subsection (b).

SEC. 2042. LAND CONVEYANCE, PORTION OF NAVAL PETROLEUM RESERVE NUMBERED 2, TO CITY OF TAFT, CALIFORNIA.

(a) CONVEYANCE.—Effective on the date of the enactment of this Act, there is conveyed to the City of Taft, California (in this section referred to as the “City”), all
surface right, title, and interest of the United States in and to a parcel of real property consisting of approximately 167 acres located in the N1/2 of section 18, township 32 south, range 24 east, Mount Diablo meridian, more fully described as Parcels 1 and 2 according to the Record of Survey filed on July 1, 1974, in Book 11 of Record Surveys at page 68, County of Kern, State of California.

(b) CONSIDERATION.—The conveyance under subsection (a) is made without the payment of consideration by the City.

(c) TREATMENT OF EXISTING RIGHTS.—The conveyance under subsection (a) is subject to valid existing rights, including Federal oil and gas lease SAC—019577.

(d) TREATMENT OF MINERALS.—All coal, oil, gas, and other minerals within the lands conveyed under subsection (a) are reserved to the United States, except that the United States and its lessees, licensees, permittees, or assignees shall have no right of surface use or occupancy of the lands. Nothing in this subsection shall be construed to require the United States or its lessees, licensees, permittees, or assignees to support the surface of the conveyed lands.

(e) INDEMNIFY AND HOLD HARMLESS.—The City shall indemnify, defend, and hold harmless the United
States for, from, and against, and the City shall assume all responsibility for, any and all liability of any kind or nature, including all loss, cost, expense, or damage, arising from the City’s use or occupancy of, or operations on, the land conveyed under subsection (a), whether such use or occupancy of, or operations on, occurred before or occur after the date of the enactment of this Act.

(f) Instrument of Conveyance.—Not later than one year after the date of the enactment of this Act, the Secretary of Energy shall execute, file, and cause to be recorded in the appropriate office a deed or other appropriate instrument documenting the conveyance made by this section.

SEC. 2043. REVOCATION OF LAND WITHDRAWAL.

Effective on the date of the enactment of this Act, the Executive Order of December 13, 1912, which created Naval Petroleum Reserve Numbered 2, is revoked in its entirety.

SEC. 2044. EFFECT OF TRANSFER AND CONVEYANCE.

Nothing in this Act shall be construed——

(1) to impose on the Secretary of Energy any new liability or responsibility that the Secretary of Energy did not bear before the date of the enactment of this Act; or
to increase the level of responsibility of the Secretary of Energy with respect to any responsibility borne by the Secretary of Energy before that date.

Subtitle D—Miscellaneous Provisions

SEC. 2051. SPLIT-ESTATE FEDERAL OIL AND GAS LEASING AND DEVELOPMENT PRACTICES.

(a) Review.—In consultation with affected private surface owners, oil and gas industry, and other interested parties, the Secretary of the Interior shall undertake a review of the current policies and practices with respect to management of Federal subsurface oil and gas development activities and their effects on the privately owned surface. This review shall include—

(1) a comparison of the rights and responsibilities under existing mineral and land law for the owner of a Federal mineral lease, the private surface owners and the Department;

(2) a comparison of the surface owner consent provisions in section 714 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1304) concerning surface mining of Federal coal deposits and the surface owner consent provisions for oil and gas development.
gas development, including coalbed methane produc-
tion; and

(3) recommendations for administrative or legis-
islative action necessary to facilitate reasonable ac-
cess for Federal oil and gas activities while address-
ing surface owner concerns and minimizing impacts
to private surface.

(b) REPORT.—The Secretary of the Interior shall re-
port the results of such review to Congress not later than
180 days after the date of enactment of this Act.

SEC. 2052. ROYALTY PAYMENTS UNDER LEASES UNDER
THE OUTER CONTINENTAL SHELF LANDS
ACT.

(a) ROYALTY RELIEF.—

(1) IN GENERAL.—For purposes of providing
compensation for lessees and a State for which
amounts are authorized by section 6004(c) of the Oil
Pollution Act of 1990 (Public Law 101–380), a les-
see may withhold from payment any royalty due and
owing to the United States under any leases under
the Outer Continental Shelf Lands Act (43 U.S.C.
1301 et seq.) for offshore oil or gas production from
a covered lease tract if, on or before the date that
the payment is due and payable to the United
States, the lessee makes a payment to the State of 44 cents for every $1 of royalty withheld.

(2) **TREATMENT OF AMOUNTS.**—Any royalty withheld by a lessee in accordance with this section (including any portion thereof that is paid to the State under paragraph (1)) shall be treated as paid for purposes of satisfaction of the royalty obligations of the lessee to the United States.

(3) **CERTIFICATION OF WITHHELD AMOUNTS.**—The Secretary of the Treasury shall—

(A) determine the amount of royalty withheld by a lessee under this section; and

(B) promptly publish a certification when the total amount of royalty withheld by the lessee under this section is equal to—

(i) the dollar amount stated at page 47 of Senate Report number 101–534, which is designated therein as the total drainage claim for the West Delta field; plus

(ii) interest as described at page 47 of that Report.

(b) **PERIOD OF ROYALTY RELIEF.**—Subsection (a) shall apply to royalty amounts that are due and payable in the period beginning on January 1, 2006, and ending
on the date on which the Secretary of the Treasury pub-
lishes a certification under subsection (a)(4)(B).

(c) DEFINITIONS.—As used in this section:

(1) COVERED LEASE TRACT.—The term “cov-
ered lease tract” means a leased tract (or portion of
a leased tract)—

(A) lying seaward of the zone defined and
governed by section 8(g) of the Outer Conti-
nental Shelf Lands Act (43 U.S.C. 1337(g)); or

(B) lying within such zone but to which
such section does not apply.

(2) LESSEE.—The term “lessee”—

(A) means a person or entity that, on the
date of the enactment of the Oil Pollution Act
of 1990, was a lessee referred to in section
6004(c) of that Act (as in effect on that date
of the enactment), but did not hold lease rights
in Federal offshore lease OCS–G–5669; and

(B) includes successors and affiliates of a
person or entity described in subparagraph (A).

SEC. 2053. DOMESTIC OFFSHORE ENERGY REINVESTMENT.

The Outer Continental Shelf Lands Act (43 U.S.C.
1331 et seq.) is amended by adding at the end the fol-
lowing:
“SEC. 32. DOMESTIC OFFSHORE ENERGY REINVESTMENT PROGRAM.

“(a) DEFINITIONS.—In this section:

“(1) COASTAL ENERGY STATE.—The term ‘Coastal Energy State’ means a Coastal State off the coastline of which, within the seaward lateral boundary as determined under section 4, outer Continental Shelf bonus bids or royalties are generated.

“(2) COASTAL POLITICAL SUBDIVISION.—The term ‘coastal political subdivision’ means a county, parish, or other equivalent subdivision of a Coastal Energy State, all or part of which lies within the boundaries of the coastal zone of the State, as identified in the State’s approved coastal zone management program under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.) on the date of the enactment of this section.

“(3) COASTAL POPULATION.—The term ‘coastal population’ means the population of a coastal political subdivision, as determined by the most recent official data of the Census Bureau.

“(4) COASTLINE.—The term ‘coastline’ has the same meaning as the term ‘coast line’ in subsection 2(c) of the Submerged Lands Act (43 U.S.C. 1301(c)).
“(5) Fund.—The term ‘Fund’ means the Secure Energy Reinvestment Fund established by this section.

“(6) Leased Tract.—The term ‘leased tract’ means a tract maintained under section 6 or leased under section 8 for the purpose of drilling for, developing, and producing oil and natural gas resources.

“(7) Qualified Outer Continental Shelf Revenues.—The term ‘qualified outer Continental Shelf revenues’ means all amounts received by the United States on or after October 1, 2005, from each leased tract or portion of a leased tract lying seaward of the zone defined and governed by section 8(g), or lying within such zone but to which section 8(g) does not apply, including bonus bids, rents, royalties (including payments for royalties taken in kind and sold), net profit share payments, and related interest.

“(8) Secretary.—The term ‘Secretary’ means the Secretary of the Interior.

“(b) Secure Energy Reinvestment Fund.—

“(1) Establishment.—There is established in the Treasury of the United States a separate account which shall be known as the ‘Secure Energy
Reinvestment Fund’. The Fund shall consist of amounts deposited under paragraph (2).

“(2) DEPOSITS.—For each of fiscal years 2006 through 2015, the Secretary of the Treasury shall deposit into the Fund, subject to appropriations, the following:

“(A) Notwithstanding section 9, all qualified outer Continental Shelf revenues attributable to royalties received by the United States in the fiscal year that are in excess of the following amount:

“(i) $7,000,000,000 in the case of royalties received in fiscal year 2006.
“(ii) $7,100,000,000 in the case of royalties received in fiscal year 2007.
“(iii) $7,300,000,000 in the case of royalties received in fiscal year 2008.
“(iv) $6,900,000,000 in the case of royalties received in fiscal year 2009.
“(v) $7,200,000,000 in the case of royalties received in fiscal year 2010.
“(vi) $7,250,000,000 in the case of royalties received in fiscal year 2011.
“(vii) $8,125,000,000 in the case of royalties received in fiscal year 2012.
“(viii) $8,100,000,000 in the case of royalties received in fiscal year 2013.

“(ix) $9,000,000,000 in the case of royalties received in fiscal year 2014.

“(x) $7,500,000,000 in the case of royalties received in fiscal year 2015.

“(B) Notwithstanding section 9, all qualified outer Continental shelf revenues attributable to bonus bids received by the United States in each of the fiscal years 2006 through 2015 that are in excess of $880,000,000.

“(C) Notwithstanding section 9, in addition to amounts deposited under subparagraphs (A) and (B), $35,000,000 of amounts received by the United States each fiscal year as royalties for oil or gas production on the outer Continental Shelf.

“(D) All interest earned under paragraph (4).

In no event shall deposits under subparagraphs (A) through (C) total more than $50,000,000 per fiscal year.

“(3) Deposits after fiscal year 2015.—For each fiscal year after fiscal year 2015, the Secretary
of the Treasury shall deposit into the Fund the fol-

owing:

“(A) 25 percent of qualified outer Conti-

nental Shelf revenues received by the United

States in the preceding fiscal year.

“(B) All interest earned under paragraph

(4).

“(4) INVESTMENT.—The Secretary of the

Treasury shall invest moneys in the Fund (including

interest) in public debt securities with maturities

suitable to the needs of the Fund, as determined by

the Secretary of the Treasury, and bearing interest

at rates determined by the Secretary of the Treas-

ury, taking into consideration current market yields

on outstanding marketable obligations of the United

States of comparable maturity. Such invested mon-

ey shall remain invested until needed to meet re-

quirements for disbursement under this section.

“(c) USE OF SECURE ENERGY REINVESTMENT

FUND.—

“(1) IN GENERAL.—(A) The Secretary shall use

amounts in the Fund remaining after the application

of subsection (d) to pay to each Coastal Energy

State, and to coastal political subdivisions of such

State, the amount allocated to the State or coastal
political subdivision, respectively, under this sub-
section.

“(B) The Secretary shall make payments under
this paragraph in December of 2006, and of each
year thereafter, from revenues received by the
United States in the preceding fiscal year.

“(2) ALLOCATION.—The Secretary shall allo-
cate amounts deposited into the Fund in a fiscal
year, and other amounts determined by the Sec-
etary to be available, among Coastal Energy States,
and to coastal political subdivisions of such States,
as follows:

“(A)(i) The allocation for each Coastal En-
ergy State shall be calculated based on the ratio
of qualified outer Continental Shelf revenues
generated off the coastline of the Coastal En-
ergy State to the qualified outer Continental
Shelf revenues generated off the coastlines of
all Coastal Energy States for the preceding fis-
cal year.

“(ii) For purposes of this subparagraph,
qualified outer Continental Shelf revenues shall
be considered to be generated off the coastline
of a Coastal Energy State if the geographic
center of the lease tract from which the reve-
nues are generated is located within the area formed by the extension of the State’s seaward lateral boundaries.

“(B) 35 percent of each Coastal Energy State’s allocable share as determined under subparagraph (A) shall be allocated among and paid directly to the coastal political subdivisions of the State by the Secretary based on the following formula:

“(i) 25 percent shall be allocated based on the ratio of each coastal political subdivision’s coastal population to the coastal population of all coastal political subdivisions of the Coastal Energy State.

“(ii) 25 percent shall be allocated based on the ratio of each coastal political subdivision’s coastline miles to the coastline miles of all coastal political subdivisions of the State. In the case of a coastal political subdivision without a coastline, the coastline of the political subdivision for purposes of this clause shall be one-third the average length of the coastline of the other coastal political subdivisions of the State.
“(iii) 50 percent shall be allocated based on a formula that allocates 75 percent of the funds based on such coastal political subdivision’s relative distance from any leased tract used to calculate that State’s allocation and 25 percent of the funds based on the relative level of outer Continental Shelf oil and gas activities in a coastal political subdivision to the level of outer Continental Shelf oil and gas activities in all coastal political subdivisions in such State, as determined by the Secretary.

“(d) Administrative Expenses.—Of amounts in the Fund each fiscal year, the Secretary may use up to one-half of one percent for the administrative costs of implementing this section.

“(e) Disposition of Funds.—A Coastal Energy State or coastal political subdivision may use funds provided to such entity under this section for any payment that is eligible to be made with funds provided to States under section 35 of the Mineral Leasing Act (30 U.S.C. 191).”.
SEC. 2054. REPURCHASE OF LEASES THAT ARE NOT ALLOWED TO BE EXPLORED OR DEVELOPED.

(a) Authority to Repurchase and Cancel Certain Leases.—Notwithstanding any other provisions of law, any Federal oil and gas, geothermal, coal, oil shale, or tar sands lease, whether onshore or offshore, issued by the Secretary, or units of such leases if unitized, that by operation of law, including but not limited to denial of a permit request, (1) is not allowed to be explored in the lawful manner requested by the lessee, or (2) if explored resulting in a commercial discovery is not allowed to be developed or produced in the lawful manner requested by the lessee, shall, upon the written request of the lessee and a finding by the Secretary that such lease qualifies, be authorized for repurchase and cancelled by the Secretary. If a permit, approval, or appeal has been expressly denied and the proposal of the lessee is found by the Secretary not to have been in compliance with law, the lessee shall not be entitled to have the lease repurchased and cancelled. However, if the lessee alleges that the Government has failed to act on a proposal of the lessee within the applicable period of time, the Secretary shall make no inquiry or determination as to whether the contents of the request complied with the law, and the Secretary shall restrict the Secretary’s findings to whether or not the Government failed to act within the applicable period of time.
The Secretary shall make all decisions under this section within 180 days of request. The area covered by any repurchased and cancelled lease shall remain available for future leasing unless otherwise prohibited by law. For purposes of this section, failure to act within a regulatory or statutory time-frame, whether advisory or mandatory, or if none, within a reasonable period of time not to exceed 180 days, on a permit request, administrative appeal, or other request for approval, shall be considered to meet the operation of law requirements of this section. Further, conditions of approval attached to permit approvals shall meet the operation of law requirement of this section if such conditions are not mandated by statute or regulation and not agreed to by the lessee. A lessee shall not be required to exhaust administrative remedies regarding a permit request, administrative appeal, or other required request for approval for the purposes of this section.

(b) Determination of a Commercial Discovery.—The Secretary shall make any required determination of the existence of a commercial resource discovery. For oil and gas, a commercial discovery is a discovery in paying quantities. The Secretary shall be guided in such a determination by precedent, and by written advice, including input from the lessee.
(c) Compensation.—Upon authorization by the Secretary of the repurchase of a lease under this section, a lessee shall be compensated in the amount of the total of lease acquisition costs, rentals, seismic acquisition costs, archeological and environmental studies, drilling costs, and other reasonable expenses on the lease, including expenses incurred in the repurchase process, to the extent that the lessee has not previously been compensated by the United States for such expenses. The lessee shall not be compensated for general overhead expenses, employee salaries, or interest. If the lessee is an assignee, the lessee may not claim the expenses of his assignor. Compensation shall be in the form of a check or electronic transfer from the Department of the Treasury from funds deposited into miscellaneous receipts under the authority of the same Act that authorized the issuance of the lease being repurchased. If the Secretary fails to make the repurchase authorization decision under subsection (a) within the required 180 days and the lease is ultimately repurchased, the compensation due to the lessee shall increase by 25 percent, plus 1 percent for every seven days that the decision is delayed beyond the required 180 days.

(d) Delegation of Authority and Finality of Decisions.—The Secretary may delegate authority granted by this section only to individuals who have been ap-
pointed by the President, by and with the advice and consent of the Senate. A decision under this section by the Secretary, or delegated official, shall be considered the final agency decision.

(e) REGULATIONS.—The Secretary shall issue reasonable regulations implementing this section not later than 1 year after date of enactment of this Act.

(f) SECRETARY.—For purposes of this section, the term “Secretary” means the Secretary of the Interior.

(g) NO PREJUDICE.—This section shall not be interpreted to prejudice any other rights that the lessee would have in the absence of this section.

TITLE XXI—COAL

SEC. 2101. SHORT TITLE.

This title may be cited as the “Coal Leasing Amendments Act of 2005”.

SEC. 2102. LEASE MODIFICATIONS FOR CONTIGUOUS COAL LANDS OR COAL DEPOSITS.

Section 3 of the Mineral Leasing Act (30 U.S.C. 203) is amended in the first sentence by striking “such lease,” and all that follows through the end of the sentence and inserting “such lease.”.

SEC. 2103. APPROVAL OF LOGICAL MINING UNITS.

Section 2(d)(2) of the Mineral Leasing Act (30 U.S.C. 202a(2)) is amended—
(1) by inserting “(A)” after “(2)”; and

(2) by adding at the end the following:

“(B) The Secretary may establish a period of more
than 40 years if the Secretary determines that the longer
period—

“(i) will ensure the maximum economic recovery
of a coal deposit; or

“(ii) the longer period is in the interest of the
orderly, efficient, or economic development of a coal
resource.”.

SEC. 2104. PAYMENT OF ADVANCE ROYALTIES UNDER COAL
LEASES.

(a) IN GENERAL.—Section 7(b) of the Mineral Leas-
ing Act (30 U.S.C. 207(b)) is amended to read as follows:

“(b)(1) Each lease shall be subjected to the condition
of diligent development and continued operation of the
mine or mines, except where operations under the lease
are interrupted by strikes, the elements, or casualties not
attributable to the lessee.

“(2)(A) The Secretary of the Interior, upon deter-
miming that the public interest will be served thereby, may
suspend the condition of continued operation upon the
payment of advance royalties.

“(B) Such advance royalties shall be computed—

“(i) based on—
“(I) the average price in the spot market for sales of comparable coal from the same region during the last month of each applicable continued operation year; or

“(II) in the absence of a spot market for comparable coal from the same region, by using a comparable method established by the Secretary of the Interior to capture the commercial value of coal; and

“(ii) based on commercial quantities, as defined by regulation by the Secretary of the Interior.

“(C) The aggregate number of years during the initial and any extended term of any lease for which advance royalties may be accepted in lieu of the condition of continued operation shall not exceed 20.

“(3) The amount of any production royalty paid for any year shall be reduced (but not below zero) by the amount of any advance royalties paid under such lease to the extent that such advance royalties have not been used to reduce production royalties for a prior year.

“(4) This subsection shall be applicable to any lease or logical mining unit in existence on the date of the enactment of this paragraph or issued or approved after such date.
“(5) Nothing in this subsection shall be construed to affect the requirement contained in the second sentence of subsection (a) relating to commencement of production at the end of 10 years.”.

(b) Authority to Waive, Suspend, or Reduce Advance Royalties.—Section 39 of the Mineral Leasing Act (30 U.S.C. 209) is amended by striking the last sentence.

SEC. 2105. ELIMINATION OF DEADLINE FOR SUBMISSION OF COAL LEASE OPERATION AND RECLAMATION PLAN.

Section 7(c) of the Mineral Leasing Act (30 U.S.C. 207(c)) is amended by striking “and not later than three years after a lease is issued,”.

SEC. 2106. AMENDMENT RELATING TO FINANCIAL ASSURANCES WITH RESPECT TO BONUS BIDS.

Section 2(a) of the Mineral Leasing Act (30 U.S.C. 201(a)) is amended by adding at the end the following:

“(4)(A) The Secretary shall not require a surety bond or any other financial assurance to guarantee payment of deferred bonus bid installments with respect to any coal lease issued on a cash bonus bid to a lessee or successor in interest having a history of a timely payment of noncontested coal royalties and advanced coal royalties in lieu
of production (where applicable) and bonus bid installment payments.

“(B) The Secretary may waive any requirement that a lessee provide a surety bond or other financial assurance for a coal lease issued before the date of the enactment of the Energy Policy Act of 2005 only if the Secretary determines that the lessee has a history of making timely payments referred to in subparagraph (A).

“(5) Notwithstanding any other provision of law, if the lessee under a coal lease fails to pay any installment of a deferred cash bonus bid within 10 days after the Secretary provides written notice that payment of the installment is past due—

“(A) the lease shall automatically terminate; and

“(B) any bonus payments already made to the United States with respect to the lease shall not be returned to the lessee or credited in any future lease sale.”.

SEC. 2107. INVENTORY REQUIREMENT.

(a) Review of Assessments.—

(1) In general.—The Secretary of the Interior, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall review
coal assessments and other available data to identify—

(A) public lands with coal resources;

(B) the extent and nature of any restrictions or impediments to the development of coal resources on public lands identified under paragraph (1); and

(C) with respect to areas of such lands for which sufficient data exists, resources of compliant coal and supercompliant coal.

(2) DEFINITIONS.—For purposes of this subsection—

(A) the term “compliant coal” means coal that contains not less than 1.0 and not more than 1.2 pounds of sulfur dioxide per million Btu; and

(B) the term “supercompliant coal” means coal that contains less than 1.0 pounds of sulfur dioxide per million Btu.

(b) COMPLETION AND UPDATING OF THE INVENTORY.—The Secretary—

(1) shall complete the inventory under subsection (a) by not later than 2 years after the date of enactment of this Act; and
(2) shall update the inventory as the availability of data and developments in technology warrant.

(c) REPORT.—The Secretary shall submit to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate and make publicly available—

(1) a report containing the inventory under this section, by not later than 2 years after the effective date of this section; and

(2) each update of such inventory.

SEC. 2108. APPLICATION OF AMENDMENTS.

The amendments made by this title apply with respect to any coal lease issued before, on, or after the date of the enactment of this Act.

SEC. 2109. RESOLUTION OF FEDERAL RESOURCE DEVELOPMENT CONFLICTS IN THE POWDER RIVER BASIN.

The Secretary of the Interior shall—

(1) undertake a review of existing authorities to resolve conflicts between the development of Federal coal and the development of Federal and non-Federal coalbed methane in the Powder River Basin in Wyoming and Montana; and

(2) not later than 6 months after the date of enactment of this Act, report to Congress on alter-
natives to resolve these conflicts and an identification of a preferred alternative with specific legislative language, if any, required to implement the preferred alternative.

**TITLE XXII—ARCTIC COASTAL PLAIN DOMESTIC ENERGY**

**SEC. 2201. SHORT TITLE.**

This title may be cited as the “Arctic Coastal Plain Domestic Energy Security Act of 2005”.

**SEC. 2202. DEFINITIONS.**

In this title:

(1) **COASTAL PLAIN.**—The term “Coastal Plain” means that area identified as such in the map entitled “Arctic National Wildlife Refuge”, dated August 1980, as referenced in section 1002(b) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3142(b)(1)), comprising approximately 1,549,000 acres, and as described in appendix I to part 37 of title 50, Code of Federal Regulations.

(2) **SECRETARY.**—The term “Secretary”, except as otherwise provided, means the Secretary of the Interior or the Secretary’s designee.
SEC. 2203. LEASING PROGRAM FOR LANDS WITHIN THE

COASTAL PLAIN.

(a) IN GENERAL.—The Secretary shall take such ac-
tions as are necessary—

(1) to establish and implement, in accordance
with this Act and acting through the Director of the
Bureau of Land Management in consultation with
the Director of the United States Fish and Wildlife
Service, a competitive oil and gas leasing program
under the Mineral Leasing Act (30 U.S.C. 181 et
seq.) that will result in an environmentally sound
program for the exploration, development, and pro-
duction of the oil and gas resources of the Coastal
Plain; and

(2) to administer the provisions of this title
through regulations, lease terms, conditions, restric-
tions, prohibitions, stipulations, and other provisions
that ensure the oil and gas exploration, development,
and production activities on the Coastal Plain will
result in no significant adverse effect on fish and
wildlife, their habitat, subsistence resources, and the
environment, and including, in furtherance of this
goal, by requiring the application of the best com-
mercially available technology for oil and gas explo-
ration, development, and production to all explo-
ration, development, and production operations
under this title in a manner that ensures the receipt
of fair market value by the public for the mineral re-
resources to be leased.

(b) Repeal.—

(1) Repeal.—Section 1003 of the Alaska Na-
tional Interest Lands Conservation Act (16 U.S.C.
3143) is repealed.

(2) Clerical Amendment.—The table of con-
tents in section 1 of such Act is amended by striking
the item relating to section 1003.

(c) Compliance With Requirements Under Cer-
tain Other Laws.—

(1) Compatibility.—For purposes of the Na-
tional Wildlife Refuge System Administration Act of
1966, the oil and gas leasing program and activities
authorized by this section in the Coastal Plain are
deemed to be compatible with the purposes for which
the Arctic National Wildlife Refuge was established,
and that no further findings or decisions are re-
quired to implement this determination.

(2) Adequacy of the Department of the
Interior’s Legislative Environmental Impact
Statement.—The “Final Legislative Environ-
mental Impact Statement” (April 1987) on the
Coastal Plain prepared pursuant to section 1002 of
the Alaska National Interest Lands Conservation Act (16 U.S.C. 3142) and section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is deemed to satisfy the requirements under the National Environmental Policy Act of 1969 that apply with respect to prelease activities, including actions authorized to be taken by the Secretary to develop and promulgate the regulations for the establishment of a leasing program authorized by this title before the conduct of the first lease sale.

(3) COMPLIANCE WITH NEPA FOR OTHER ACTIONS.—Before conducting the first lease sale under this title, the Secretary shall prepare an environmental impact statement under the National Environmental Policy Act of 1969 with respect to the actions authorized by this title that are not referred to in paragraph (2). Notwithstanding any other law, the Secretary is not required to identify nonleasing alternative courses of action or to analyze the environmental effects of such courses of action. The Secretary shall only identify a preferred action for such leasing and a single leasing alternative, and analyze the environmental effects and potential mitigation measures for those two alternatives. The identification of the preferred action and related analysis for
the first lease sale under this title shall be completed
within 18 months after the date of enactment of this
Act. The Secretary shall only consider public com-
ments that specifically address the Secretary’s pre-
ferred action and that are filed within 20 days after
publication of an environmental analysis. Notwith-
standing any other law, compliance with this para-
graph is deemed to satisfy all requirements for the
analysis and consideration of the environmental ef-
fects of proposed leasing under this title.

(d) RELATIONSHIP TO STATE AND LOCAL AUTHORITY.—Nothing in this title shall be considered to expand
or limit State and local regulatory authority.

(e) SPECIAL AREAS.—

(1) IN GENERAL.—The Secretary, after con-
sultation with the State of Alaska, the city of
Kaktovik, and the North Slope Borough, may des-
ignate up to a total of 45,000 acres of the Coastal
Plain as a Special Area if the Secretary determines
that the Special Area is of such unique character
and interest so as to require special management
and regulatory protection. The Secretary shall des-
ignate as such a Special Area the Sadlerochit Spring
area, comprising approximately 4,000 acres as de-
picted on the map referred to in section 2202(1).
(2) MANAGEMENT.—Each such Special Area shall be managed so as to protect and preserve the area’s unique and diverse character including its fish, wildlife, and subsistence resource values.

(3) EXCLUSION FROM LEASING OR SURFACE OCCUPANCY.—The Secretary may exclude any Special Area from leasing. If the Secretary leases a Special Area, or any part thereof, for purposes of oil and gas exploration, development, production, and related activities, there shall be no surface occupancy of the lands comprising the Special Area.

(4) DIRECTIONAL DRILLING.—Notwithstanding the other provisions of this subsection, the Secretary may lease all or a portion of a Special Area under terms that permit the use of horizontal drilling technology from sites on leases located outside the area.

(f) LIMITATION ON CLOSED AREAS.—The Secretary’s sole authority to close lands within the Coastal Plain to oil and gas leasing and to exploration, development, and production is that set forth in this title.

(g) REGULATIONS.—

(1) IN GENERAL.—The Secretary shall prescribe such regulations as may be necessary to carry out this title, including rules and regulations relating to protection of the fish and wildlife, their habitat,
subsistence resources, and environment of the Coastal Plain, by no later than 15 months after the date of enactment of this Act.

(2) Revision of regulations.—The Secretary shall periodically review and, if appropriate, revise the rules and regulations issued under subsection (a) to reflect any significant biological, environmental, or engineering data that come to the Secretary’s attention.

SEC. 2204. LEASE SALES.

(a) In general.—Lands may be leased pursuant to this title to any person qualified to obtain a lease for deposits of oil and gas under the Mineral Leasing Act (30 U.S.C. 181 et seq.).

(b) Procedures.—The Secretary shall, by regulation, establish procedures for—

(1) receipt and consideration of sealed nominations for any area in the Coastal Plain for inclusion in, or exclusion (as provided in subsection (c)) from, a lease sale;

(2) the holding of lease sales after such nomination process; and

(3) public notice of and comment on designation of areas to be included in, or excluded from, a lease sale.
(c) **LEASE SALE BIDS.**—Bidding for leases under this title shall be by sealed competitive cash bonus bids.

(d) **ACREAGE MINIMUM IN FIRST SALE.**—In the first lease sale under this title, the Secretary shall offer for lease those tracts the Secretary considers to have the greatest potential for the discovery of hydrocarbons, taking into consideration nominations received pursuant to subsection (b)(1), but in no case less than 200,000 acres.

(e) **TIMING OF LEASE SALES.**—The Secretary shall—

1. conduct the first lease sale under this title within 22 months after the date of the enactment of this Act; and
2. conduct additional sales so long as sufficient interest in development exists to warrant, in the Secretary’s judgment, the conduct of such sales.

**SEC. 2205. GRANT OF LEASES BY THE SECRETARY.**

(a) **IN GENERAL.**—The Secretary may grant to the highest responsible qualified bidder in a lease sale conducted pursuant to section 2204 any lands to be leased on the Coastal Plain upon payment by the lessee of such bonus as may be accepted by the Secretary.

(b) **SUBSEQUENT TRANSFERS.**—No lease issued under this title may be sold, exchanged, assigned, sublet, or otherwise transferred except with the approval of the
Secretary. Prior to any such approval the Secretary shall consult with, and give due consideration to the views of, the Attorney General.

SEC. 2206. LEASE TERMS AND CONDITIONS.

(a) IN GENERAL.—An oil or gas lease issued pursuant to this title shall—

(1) provide for the payment of a royalty of not less than $12 1/2 percent in amount or value of the production removed or sold from the lease, as determined by the Secretary under the regulations applicable to other Federal oil and gas leases;

(2) provide that the Secretary may close, on a seasonal basis, portions of the Coastal Plain to exploratory drilling activities as necessary to protect caribou calving areas and other species of fish and wildlife;

(3) require that the lessee of lands within the Coastal Plain shall be fully responsible and liable for the reclamation of lands within the Coastal Plain and any other Federal lands that are adversely affected in connection with exploration, development, production, or transportation activities conducted under the lease and within the Coastal Plain by the lessee or by any of the subcontractors or agents of the lessee;
(4) provide that the lessee may not delegate or convey, by contract or otherwise, the reclamation responsibility and liability to another person without the express written approval of the Secretary;

(5) provide that the standard of reclamation for lands required to be reclaimed under this title shall be, as nearly as practicable, a condition capable of supporting the uses which the lands were capable of supporting prior to any exploration, development, or production activities, or upon application by the lessee, to a higher or better use as approved by the Secretary;

(6) contain terms and conditions relating to protection of fish and wildlife, their habitat, and the environment as required pursuant to section 2203(a)(2);

(7) provide that the lessee, its agents, and its contractors use best efforts to provide a fair share, as determined by the level of obligation previously agreed to in the 1974 agreement implementing section 29 of the Federal Agreement and Grant of Right of Way for the Operation of the Trans-Alaska Pipeline, of employment and contracting for Alaska Natives and Alaska Native Corporations from throughout the State;
(8) prohibit the export of oil produced under the lease; and

(9) contain such other provisions as the Secretary determines necessary to ensure compliance with the provisions of this title and the regulations issued under this title.

(b) Project Labor Agreements.—The Secretary, as a term and condition of each lease under this title and in recognizing the Government’s proprietary interest in labor stability and in the ability of construction labor and management to meet the particular needs and conditions of projects to be developed under the leases issued pursuant to this title and the special concerns of the parties to such leases, shall require that the lessee and its agents and contractors negotiate to obtain a project labor agreement for the employment of laborers and mechanics on production, maintenance, and construction under the lease.

SEC. 2207. COASTAL PLAIN ENVIRONMENTAL PROTECTION.

(a) No Significant Adverse Effect Standard to Govern Authorized Coastal Plain Activities.—The Secretary shall, consistent with the requirements of section 2203, administer the provisions of this title through regulations, lease terms, conditions, restrictions, prohibitions, stipulations, and other provisions that—
(1) ensure the oil and gas exploration, development, and production activities on the Coastal Plain will result in no significant adverse effect on fish and wildlife, their habitat, and the environment;

(2) require the application of the best commercially available technology for oil and gas exploration, development, and production on all new exploration, development, and production operations; and

(3) ensure that the maximum amount of surface acreage covered by production and support facilities, including airstrips and any areas covered by gravel berms or piers for support of pipelines, does not exceed 2,000 acres on the Coastal Plain.

(b) SITE-SPECIFIC ASSESSMENT AND MITIGATION.—The Secretary shall also require, with respect to any proposed drilling and related activities, that—

(1) a site-specific analysis be made of the probable effects, if any, that the drilling or related activities will have on fish and wildlife, their habitat, and the environment;

(2) a plan be implemented to avoid, minimize, and mitigate (in that order and to the extent practicable) any significant adverse effect identified under paragraph (1); and
(3) the development of the plan shall occur after consultation with the agency or agencies having jurisdiction over matters mitigated by the plan.

c) Regulations to Protect Coastal Plain Fish and Wildlife Resources, Subsistence Users, and the Environment.—Before implementing the leasing program authorized by this title, the Secretary shall prepare and promulgate regulations, lease terms, conditions, restrictions, prohibitions, stipulations, and other measures designed to ensure that the activities undertaken on the Coastal Plain under this title are conducted in a manner consistent with the purposes and environmental requirements of this title.

d) Compliance With Federal and State Environmental Laws and Other Requirements.—The proposed regulations, lease terms, conditions, restrictions, prohibitions, and stipulations for the leasing program under this title shall require compliance with all applicable provisions of Federal and State environmental law and shall also require the following:

(1) Standards at least as effective as the safety and environmental mitigation measures set forth in items 1 through 29 at pages 167 through 169 of the “Final Legislative Environmental Impact Statement” (April 1987) on the Coastal Plain.
(2) Seasonal limitations on exploration, development, and related activities, where necessary, to avoid significant adverse effects during periods of concentrated fish and wildlife breeding, denning, nesting, spawning, and migration.

(3) That exploration activities, except for surface geological studies, be limited to the period between approximately November 1 and May 1 each year and that exploration activities shall be supported, if necessary, by ice roads, winter trails with adequate snow cover, ice pads, ice airstrips, and air transport methods, except that such exploration activities may occur at other times, if the Secretary finds that such exploration will have no significant adverse effect on the fish and wildlife, their habitat, and the environment of the Coastal Plain.

(4) Design safety and construction standards for all pipelines and any access and service roads, that—

(A) minimize, to the maximum extent possible, adverse effects upon the passage of migratory species such as caribou; and

(B) minimize adverse effects upon the flow of surface water by requiring the use of culverts, bridges, and other structural devices.
(5) Prohibitions on general public access and use on all pipeline access and service roads.

(6) Stringent reclamation and rehabilitation requirements, consistent with the standards set forth in this title, requiring the removal from the Coastal Plain of all oil and gas development and production facilities, structures, and equipment upon completion of oil and gas production operations, except that the Secretary may exempt from the requirements of this paragraph those facilities, structures, or equipment that the Secretary determines would assist in the management of the Arctic National Wildlife Refuge and that are donated to the United States for that purpose.

(7) Appropriate prohibitions or restrictions on access by all modes of transportation.

(8) Appropriate prohibitions or restrictions on sand and gravel extraction.

(9) Consolidation of facility siting.

(10) Appropriate prohibitions or restrictions on use of explosives.

(11) Avoidance, to the extent practicable, of springs, streams, and river system; the protection of natural surface drainage patterns, wetlands, and riparian habitats; and the regulation of methods or
techniques for developing or transporting adequate
supplies of water for exploratory drilling.

(12) Avoidance or reduction of air traffic-re-
lated disturbance to fish and wildlife.

(13) Treatment and disposal of hazardous and
toxic wastes, solid wastes, reserve pit fluids, drilling
muds and cuttings, and domestic wastewater, including
an annual waste management report, a haz-
ardous materials tracking system, and a prohibition
on chlorinated solvents, in accordance with applica-
table Federal and State environmental law.

(14) Fuel storage and oil spill contingency plan-
ing.

(15) Research, monitoring, and reporting re-
quirements.

(16) Field crew environmental briefings.

(17) Avoidance of significant adverse effects
upon subsistence hunting, fishing, and trapping by
subsistence users.

(18) Compliance with applicable air and water
quality standards.

(19) Appropriate seasonal and safety zone des-
ignations around well sites, within which subsistence
hunting and trapping shall be limited.
(20) Reasonable stipulations for protection of cultural and archeological resources.

(21) All other protective environmental stipulations, restrictions, terms, and conditions deemed necessary by the Secretary.

(e) CONSIDERATIONS.—In preparing and promulgating regulations, lease terms, conditions, restrictions, prohibitions, and stipulations under this section, the Secretary shall consider the following:

(2) The environmental protection standards that governed the initial Coastal Plain seismic exploration program under parts 37.31 to 37.33 of title 50, Code of Federal Regulations.

(3) The land use stipulations for exploratory drilling on the KIC-ASRC private lands that are set forth in Appendix 2 of the August 9, 1983, agreement between Arctic Slope Regional Corporation and the United States.

(f) FACILITY CONSOLIDATION PLANNING.—
(1) IN GENERAL.—The Secretary shall, after providing for public notice and comment, prepare and update periodically a plan to govern, guide, and direct the siting and construction of facilities for the exploration, development, production, and transportation of Coastal Plain oil and gas resources.

(2) OBJECTIVES.—The plan shall have the following objectives:

(A) Avoiding unnecessary duplication of facilities and activities.

(B) Encouraging consolidation of common facilities and activities.

(C) Locating or confining facilities and activities to areas that will minimize impact on fish and wildlife, their habitat, and the environment.

(D) Utilizing existing facilities wherever practicable.

(E) Enhancing compatibility between wildlife values and development activities.

(g) ACCESS TO PUBLIC LANDS.—The Secretary shall—

(1) manage public lands in the Coastal Plain subject to subsections (a) and (b) of section 811 of
the Alaska National Interest Lands Conservation
Act (16 U.S.C. 3121); and

(2) ensure that local residents shall have rea-
sonable access to public lands in the Coastal Plain
for traditional uses.

SEC. 2208. EXPEDITED JUDICIAL REVIEW.

(a) FILING OF COMPLAINT.—

(1) DEADLINE.—Subject to paragraph (2), any
complaint seeking judicial review of any provision of
this title or any action of the Secretary under this
title shall be filed in any appropriate district court
of the United States—

(A) except as provided in subparagraph
(B), within the 90-day period beginning on the
date of the action being challenged; or

(B) in the case of a complaint based solely
on grounds arising after such period, within 90
days after the complainant knew or reasonably
should have known of the grounds for the com-
plaint.

(2) VENUE.—Any complaint seeking judicial re-
view of an action of the Secretary under this title
may be filed only in the United States Court of Ap-
peals for the District of Columbia.
(3) **LIMITATION ON SCOPE OF CERTAIN REVIEW.**—Judicial review of a Secretarial decision to conduct a lease sale under this title, including the environmental analysis thereof, shall be limited to whether the Secretary has complied with the terms of this title and shall be based upon the administrative record of that decision. The Secretary’s identification of a preferred course of action to enable leasing to proceed and the Secretary’s analysis of environmental effects under this title shall be presumed to be correct unless shown otherwise by clear and convincing evidence to the contrary.

(b) **LIMITATION ON OTHER REVIEW.**—Actions of the Secretary with respect to which review could have been obtained under this section shall not be subject to judicial review in any civil or criminal proceeding for enforcement.

**SEC. 2209. FEDERAL AND STATE DISTRIBUTION OF REVENUES.**

(a) **IN GENERAL.**—Notwithstanding any other provision of law, of the amount of adjusted bonus, rental, and royalty revenues from oil and gas leasing and operations authorized under this title—

(1) 50 percent shall be paid to the State of Alaska; and
(2) except as provided in section 2212(d) the balance shall be deposited into the Treasury as miscellaneous receipts.

(b) Payments to Alaska.—Payments to the State of Alaska under this section shall be made semiannually.

(c) Use of Bonus Payments for Low-Income Home Energy Assistance.—Amounts that are received by the United States as bonuses for leases under this title and deposited into the Treasury under subsection (a)(2) may be appropriated to the Secretary of the Health and Human Services, in addition to amounts otherwise available, to provide assistance under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.).

SEC. 2210. RIGHTS-OF-WAY ACROSS THE COASTAL PLAIN.

(a) Exemption.—Title XI of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3161 et seq.) shall not apply to the issuance by the Secretary under section 28 of the Mineral Leasing Act (30 U.S.C. 185) of rights-of-way and easements across the Coastal Plain for the transportation of oil and gas.

(b) Terms and Conditions.—The Secretary shall include in any right-of-way or easement referred to in subsection (a) such terms and conditions as may be necessary to ensure that transportation of oil and gas does not result in a significant adverse effect on the fish and wildlife, sub-
sistence resources, their habitat, and the environment of
the Coastal Plain, including requirements that facilities be
sited or designed so as to avoid unnecessary duplication
of roads and pipelines.

(c) REGULATIONS.—The Secretary shall include in
regulations under section 2203(g) provisions granting
rights-of-way and easements described in subsection (a)
of this section.

SEC. 2211. CONVEYANCE.

In order to maximize Federal revenues by removing
clouds on title to lands and clarifying land ownership pat-
terns within the Coastal Plain, the Secretary, notwith-
standing the provisions of section 1302(h)(2) of the Alas-
3192(h)(2)), shall convey—

(1) to the Kaktovik Inupiat Corporation the
surface estate of the lands described in paragraph 1
of Public Land Order 6959, to the extent necessary
to fulfill the Corporation’s entitlement under section
12 of the Alaska Native Claims Settlement Act (43
U.S.C. 1611) in accordance with the terms and con-
ditions of the Agreement between the Department of
the Interior, the United States Fish and Wildlife
Service, the Bureau of Land Management, and the
Kaktovik Inupiat Corporation effective January 22, 1993; and

(2) to the Arctic Slope Regional Corporation the remaining subsurface estate to which it is enti-
tled pursuant to the August 9, 1983, agreement be-
tween the Arctic Slope Regional Corporation and the United States of America.

SEC. 2212. LOCAL GOVERNMENT IMPACT AID AND COMMU-
NITY SERVICE ASSISTANCE.

(a) Financial Assistance Authorized.—

(1) In general.—The Secretary may use amounts available from the Coastal Plain Local Gov-
ernment Impact Aid Assistance Fund established by subsection (d) to provide timely financial assistance to entities that are eligible under paragraph (2) and that are directly impacted by the exploration for or production of oil and gas on the Coastal Plain under this title.

(2) Eligible Entities.—The North Slope Borough, Kaktovik, and other boroughs, municipal subdivisions, villages, and any other community or-
organized under Alaska State law shall be eligible for financial assistance under this section.

(b) Use of Assistance.—Financial assistance under this section may be used only for—
(1) planning for mitigation of the potential effects of oil and gas exploration and development on environmental, social, cultural, recreational and subsistence values;

(2) implementing mitigation plans and maintaining mitigation projects;

(3) developing, carrying out, and maintaining projects and programs that provide new or expanded public facilities and services to address needs and problems associated with such effects, including firefighting, police, water, waste treatment, medivac, and medical services; and

(4) establishment of a coordination office, by the North Slope Borough, in the City of Kaktovik, which shall—

(A) coordinate with and advise developers on local conditions, impact, and history of the areas utilized for development; and

(B) provide to the Committee on Resources of the Senate and the Committee on Energy and Resources of the Senate an annual report on the status of coordination between developers and the communities affected by development.

(e) Application.—
(1) **IN GENERAL.**—Any community that is eligible for assistance under this section may submit an application for such assistance to the Secretary, in such form and under such procedures as the Secretary may prescribe by regulation.

(2) **NORTH SLOPE BOROUGH COMMUNITIES.**—A community located in the North Slope Borough may apply for assistance under this section either directly to the Secretary or through the North Slope Borough.

(3) **APPLICATION ASSISTANCE.**—The Secretary shall work closely with and assist the North Slope Borough and other communities eligible for assistance under this section in developing and submitting applications for assistance under this section.

(d) **ESTABLISHMENT OF FUND.**—

(1) **IN GENERAL.**—There is established in the Treasury the Coastal Plain Local Government Impact Aid Assistance Fund.

(2) **USE.**—Amounts in the fund may be used only for providing financial assistance under this section.

(3) **DEPOSITS.**—Subject to paragraph (4), there shall be deposited into the fund amounts received by the United States as revenues derived from rents,
bonuses, and royalties under on leases and lease sales authorized under this title.

(4) LIMITATION ON DEPOSITS.—The total amount in the fund may not exceed $11,000,000.

(5) INVESTMENT OF BALANCES.—The Secretary of the Treasury shall invest amounts in the fund in interest bearing government securities.

(e) AUTHORIZATION OF APPROPRIATIONS.—To provide financial assistance under this section there is authorized to be appropriated to the Secretary from the Coastal Plain Local Government Impact Aid Assistance Fund $5,000,000 for each fiscal year.

**TITLE XXIII—SET AMERICA FREE (SAFE)**

**SEC. 2301. SHORT TITLE.**

This title may be cited as the “Set America Free Act of 2005” or the “SAFE Act”.

**SEC. 2302. FINDINGS.**

Congress finds the following:

(1) The three contiguous North American countries of Canada, Mexico, and the United States share many economic, environmental, and security interests, including being among each others’ largest trading partners, similar interests in clean air and clean water, concern about infiltration of terrorists
from nations that host terrorist organizations, and
interdependent economic systems.

(2) North American energy self-sufficiency is
consistent with the shared interests of the three con-
tiguous North American countries and should be
achieved through methods that recognize and respect
the sovereignty of each of the three contiguous
North American countries.

(3) The Energy Information Administration
(EIA), in its April 2004 International Energy Out-
look, projects that world energy consumption will in-
crease by 54 percent from 2001 to 2025 and that
world oil consumption will rise from 77 million bar-
rels per day (Mmbbl/d) in 2001 to 121 Mmbbl/d in
2025.

(4) In the same report, EIA projects that, with-
out a change in governmental policy, the United
States oil consumption will rise by 44.4 percent from
19.6 Mmbbl/d (7.15 billion barrels per year (Bbbl/
y)) in 2001 to 28.3 Mmbbl/d (10.33 Bbbl/y) in
2025, and that the oil consumption of the three con-
tiguous North American countries of Canada, Mex-
ico, and the United States (in this title referred to
as the “three contiguous North American coun-
tries”) will rise by 47.2 percent from 23.5 Mmbbl/
d (8.58 Bbbl/y) in 2001 (30.5 percent of world consumption) to 34.6 Mmbbl/d (12.6 Bbbl/y) in 2025 (28.6 percent of world consumption).

(5) EIA projects that, without a change in governmental policy, oil production in the three contiguous North American countries will rise by 18.8 percent from 15.4 Mmbbl/d (5.6 Bbbl/y) in 2001 (19.4 percent of world production) to 18.3 Mmbbl/d (6.7 Bbbl/y) in 2025 (14.5 percent of world production).

(6) EIA projects that, without a change in governmental policy, the three contiguous North American countries contain 492.7 Bbbls of oil resources (16.8 percent of total world oil resources) (not including unconventional oil resources such as United States oil shale or the overwhelming majority of Canadian oil sands) at the base case oil price, which represents sufficient oil to fully supply the needs of the three contiguous North American countries for 57.4 years based on 2001 oil consumption and 39.1 years based on projected 2025 oil consumption, resulting in an average of approximately 48 years of full supply.

(7) In the same report, EIA projects that, without a change in governmental policy, the United States natural gas consumption will rise by 38.9
percent from 22.6 trillion cubic feet per year (Tcf/y) in 2001 to 31.4 Tcf/y in 2025, and that the natural gas consumption of the three contiguous North American countries will rise by 48.0 percent from 26.9 Tcf/y in 2001 (29.3 percent of world consumption) to 39.8 Tcf/y in 2025 (26.3 percent of world consumption).

(8) EIA projects that, without a change in governmental policy, natural gas production in the three contiguous North American countries will rise by 21.7 percent from 27.6 Tcf/y in 2001 (30.3 percent of world production) to 33.6 Tcf/y in 2025 (22.3 percent of world production), not including Alaskan gas through the natural gas pipeline, gas from gas hydrates, nor expanded coal gasification. The United States Geological Survey estimates that natural gas hydrate resources in-place total 169,000 Tcf in Alaska and its surrounding waters, and approximately 150,000 Tcf off the lower-48 Atlantic, Pacific, and Gulf of Mexico coastlines.

(9) The terrorist attacks in the United States on September 11, 2001, and the subsequent expansion of terrorist organizations in regions outside of North America in areas that are major suppliers of oil, and potential suppliers of liquified natural gas,
to the United States have significantly increased the national security and homeland security risks to the United States of relying upon oil and natural gas supply sources located outside of the three contiguous North American countries. The United States imports 60 percent of our oil supplies—the highest in history. After Canada and Mexico, the largest oil suppliers to the United States are Saudi Arabia, Venezuela, Nigeria, Iraq, and Algeria all of which suffer from significant instability.

(10) According to published scientific, technical, and economic reports, the three contiguous North American countries have the resource base and technical ability to increase production of oil by at least 15 Mmbbl/d by 2025 and 20 Mmbbl/d by 2030 even before increases in coal liquification, biofuels, gas-to-liquids, and other methods of creating liquid substitutes for crude oil and crude oil products.

(11) This increase in North American oil production would be derived from a variety of resources including, among others—

(A) the United States oil shale resource base (2 trillion barrels of oil in place out of 2.6 trillion in the world) believed to be capable of
eventually producing 10 Mmbbl/d for more than 100 years;

(B) the Canadian Alberta oil sands resource base (1.7 trillion barrels of oil in place), also believed to be capable of eventually producing 10 Mmbbl/d for more than 100 years;

(C) the United States heavy oil resource base (80 billion barrels of oil in place);

(D) the remaining 400 billion barrels of conventional oil in place in the United States of which 60 billion barrels are potentially producible with advanced CO2 enhanced oil recovery technology;

(E) the United States oil sands resource base of 54 billion barrels of oil in place;

(F) the Arctic National Wildlife Refuge Coastal Plain area (ANWR) with a mean technically recoverable resource of more than 10 billion barrels of oil;

(G) the National Petroleum Reserve-Alaska (NPR-A) with a mean technically recoverable resource of 9.3 billion barrels of oil;

(H) the 12–18 billion barrels of oil likely to be producible in the Canadian Atlantic offshore;
(I) the extensive resources of the Canadian Arctic onshore and offshore;

(J) the extensive resources in the Alaskan Arctic offshore and the outer Continental Shelf offshore the lower-48 United States;

(K) other extensive oil resources in Canada and the United States; and

(L) the extensive oil resources of Mexico.

(12) In addition to being the “Saudi Arabia” of oil shale with at least 75 percent of the world's oil shale resource base, the United States is also the “Saudi Arabia” of coal. The EIA estimates that total economically recoverable reserves of coal around the world are 1,083 billion short tons—enough to last approximately 210 years at current consumption levels. EIA estimates that the economically recoverable coal reserves of the United States, at 25 percent of total world reserves, are the largest in the world. Total United States coal resources are vastly larger than the 270 billion short tons of economically recoverable reserves, and with new technology much more could economically be made available to supply our energy needs. World consumption of coal in 2001 was 5.26 billion short tons and is projected to grow to 7.57 billion short tons in 2025.
70 percent of the increased world consumption is projected to be attributable to China and India. United States consumption of coal in 2001 was 1.06 billion short tons and is projected to grow to 1.57 billion short tons in 2025.

(13) Growth in world oil consumption has been outstripping growth in world production of conventional oil resources for several primary reasons, including that conventional oil production in most oil producing countries has peaked and is now declining, and developing nations such as China and India are greatly accelerating their consumption of crude oil.

(14) The recent increases in world oil prices are caused by the faster growth in demand over supply and this trend is likely to continue because the remaining conventional oil is more difficult and expensive to find and produce, and frequently not reasonably available.

(15) The National Intelligence Council, an advisor to the Central Intelligence Agency, found in its report, “Mapping the Global Future,” NIC 2004–13, December 2004, that “Continued limited access of the international oil companies to major fields could restrain this investment necessary for supply
to meet demand, however, and many of the areas—the Caspian Sea, Venezuela, West Africa, and South China Sea—that are being counted on to provide increased output involve substantial political or economic risk. Traditional suppliers in the Middle East are also increasingly unstable. Thus sharper demand-driven competition for resources, perhaps accompanied by a major disruption of oil supplies, is among the key uncertainties. China and India, which lack adequate domestic energy resources, will have to ensure continued access to outside suppliers; thus, the need for energy will be a major factor in shaping their foreign and defense policies, including expanding naval power”.

(16) Because the price of crude oil is set on a world market basis, the excess of world demand over supply will continue to drive up oil prices to levels potentially several times those of today unless all nations capable of producing significant quantities of incremental oil respond by ensuring such production is developed and available for consumption on an expedited basis.

(17) The eventual, long-term solution is to drastically reduce the world’s reliance on oil as the primary fuel for transportation (40 percent of the
United States consumption of oil is to power light motor vehicles).

(18) North America, while maximizing the production of oil, must use the next 40 years as a transition period to a more sustainable energy model.

(19) The United States also has large renewable energy resource potential including wind, geothermal, solar, biomass, ocean thermal, waves and currents, and hydroelectric. The EIA’s July 2004 report, “Renewable Energy Trends 2003”, found that renewable energy provided 6 percent of the Nation’s energy supply in 2003. The largest renewable energy source was biomass with 47 percent of the renewables total energy output, followed closely by hydroelectric with 45 percent, then geothermal with 5 percent, wind with 2 percent, and solar with 1 percent. Technology is rapidly advancing, positioning renewable energy to provide an increasing share of our energy supply in the residential, commercial, industrial, transportation, and electric power sectors. The United States public lands and waters comprise 2.25 billion acres, large portions of which may be available to rapidly expand this clean and renewable alternative to fossil energy resources. These lands
should be reviewed for their potential contribution to our Nation’s domestic energy security.

(20) The United States has the strongest environmental safeguards in the world, and our standards, science, and technology have proven that the United States can produce energy in an environmentally benign manner, particularly when compared with the lesser environmental standards in most foreign oil producing countries.

(21) The 1999 Clinton Administration report, “Environmental Benefits of Advanced Oil and Gas Exploration and Production Technology,” highlights the technological achievements of the United States oil and gas industry. The report noted, “public awareness of the significant and impressive environmental benefits from new exploration and production (E&P) technology advances remains limited . . . . We believe it is important to tell this remarkable story of environmental progress in E&P technology. Greater awareness of the industry’s achievements in environmental protection will provide the context for effective policy, and for informed decision making by both the private and public sectors.”.

(22) Many Americans believe the myth that spills from oil and natural gas exploration and pro-
duction are the leading cause of oil pollution in the oceans and the Nation’s rivers and streams. The reality is that, to the contrary, in 2002 the National Academy of Sciences found that offshore oil and natural gas exploration and production account for a total of only 2 percent of the oil in the North American marine environment; natural sources such as oil seeps account for 63 percent of such oil; industrial and municipal discharges, including urban runoff, account for 22 percent of such oil; atmospheric pollution accounts for 8 percent of such oil; marine transportation accounts for 3 percent of such oil; and recreational vessels account for 2 percent of such oil.

(23) Various national security organizations and experts have warned the United States of the escalating risks to our national security of relying on transoceanic oil imports from unstable regions of the world for a significant part of our oil supplies, and they have urged the Nation to reduce its dependence on oil.

(24) Polls consistently have found that a majority of individuals in the United States strongly support reducing our reliance on foreign energy sources.
A recent report on “Energy and National Security” issued by Sandia National Laboratories, SAND2003–3287, September 2003, found that our national security is threatened by our continued reliance on vast quantities of oil from unstable foreign sources. The report found that supply disruptions, caused by terrorists or otherwise, could immediately remove many millions of barrels of oil per day from the world supply, and noted that the EIA has estimated that for every one million bbl/d of oil supply disrupted, world oil prices might increase $3–$5 per barrel. Sandia found six solution options, including—

(A) maintenance of strategic reserves;

(B) support of foreign government regimes likely to maintain production;

(C) military deterrence, protection, or intervention to secure production sources and facilities;

(D) diversification of production sources;

(E) reduction of oil intensity through conservation or through more efficient energy use; and

(F) development and deployment of alternatives to oil (or gas).
Sandia noted “that none of these measures seems likely to emerge from business-as-usual market processes. Thus implementation of these measures will usually require public policy decisions. In the case of the first three, they would be foreign and military policy decisions; in the case of the latter three, they would be legal, regulatory, or governmental subsidy decisions.” Sandia mentioned oil shale and tar sands as potential diversified sources of oil supplies, and hydrogen, coal, renewables, nuclear fission, and methane hydrates as alternatives to oil.

(26) President Clinton concluded, on February 16, 1995, under section 232 of the Trade Expansion Act of 1962, that “. . . the nation’s growing reliance on imports of crude oil and refined petroleum products threaten the nation’s security because they increase U.S. vulnerability to oil supply interruptions.”. In 1994 crude oil imports were 7.051 million barrels per day. On March 24, 2000, President Clinton, upon further review under section 232, found, “I have reviewed and approved the findings of your investigative report . . . that imports of crude oil threaten to impair the national security.”. Between the two statements by President Clinton, United
States crude oil imports increased 21.6 percent to 8.581 million barrels per day in 1999.

(27) Economists have found that while OPEC is an important source of oil price increases, the United States government is also partly to blame because overly burdensome government regulations on domestic energy exploration, production, and sales have supported OPEC’s monopoly power and restricted competition from American energy companies, in addition to making expansive highly prospective areas off-limits to leasing and production.

(28) In addition to jeopardizing our national and energy security, importing the majority of our oil also injures our economic security. The United States imported approximately 4.7 billion barrels of oil in 2004, of which 1.4 billion barrels were from Canada and Mexico. Imported energy creates very few jobs in the United States and makes only a very minor contribution to our Gross Domestic Product (GDP). If we substitute North American production for the remaining 3.3 billion barrels of imports per year, at $40 per barrel the new production would sell for $132 billion. A widely used commercial economics model projects that GDP would increase by $336 billion, creating 1,667,160 jobs, each with an
average total annual compensation of $50,356. Further, such activity is projected to generate approximately $22 billion in indirect business taxes, including sales, excise, and severance taxes. At a one-eighth royalty, total royalty payments to mineral rights owners would approximate $16.5 billion per year. Further, our imported energy represents more than 25 percent of our international trade deficit. American production could eliminate two-thirds of the 25 percent, strengthening our economy.

SEC. 2303. PURPOSE.

The purpose of this title is to establish a United States commission to make recommendations for a coordinated and comprehensive North American energy policy that will achieve energy self-sufficiency by 2025 within the three contiguous North American nation area of Canada, Mexico, and the United States.

SEC. 2304. UNITED STATES COMMISSION ON NORTH AMERICAN ENERGY FREEDOM.

(a) ESTABLISHMENT.—There is hereby established the United States Commission on North American Energy Freedom (in this title referred to as the “Commission”). The Federal Advisory Committee Act (5 U.S.C. App.), except sections 3, 7, and 12, does not apply to the Commission.
(b) Membership.—

(1) Appointment.—The Commission shall be composed of 16 members appointed by the President from among individuals described in paragraph (2) who are knowledgeable on energy issues, including oil and gas exploration and production, crude oil refining, oil and gas pipelines, electricity production and transmission, coal, unconventional hydrocarbon resources, fuel cells, motor vehicle power systems, nuclear energy, renewable energy, biofuels, energy efficiency, and energy conservation. The membership of the Commission shall be balanced by area of expertise to the extent consistent with maintaining the highest level of expertise on the Commission. Members of the Commission may be citizens of Canada, Mexico, or the United States, and the President shall ensure that citizens of all three nations are appointed to the Commission.

(2) Nominations.—The President shall appoint the members of the Commission within 60 days after the effective date of this Act, including individuals nominated as follows:

(A) 4 members shall be appointed from amongst individuals independently determined
by the President to be qualified for appoint-

ment.

(B) 4 members shall be appointed from a
list of 8 individuals who shall be nominated by
the majority leader of the Senate in consulta-
tion with the chairman of the Committee on
Energy and Natural Resources of the Senate.

(C) 4 members shall be appointed from a
list of 8 individuals who shall be nominated by
the Speaker of the House of Representatives in
consultation with the chairmen of the Commit-
tees on Energy and Commerce and Resources
of the House of Representatives.

(D) 2 members shall be appointed from a
list of 4 individuals who shall be nominated by
the minority leader of the Senate in consulta-
tion with the ranking Member of the Committee
on Energy and Natural Resources of the Sen-
ate.

(E) 2 members shall be appointed from a
list of 4 individuals who shall be nominated by
the minority leader of the House in consultation
with the ranking Members of the Committees
on Energy and Commerce and Resources of the
House of Representatives.
(3) CHAIRMAN.—The chairman of the Commission shall be selected by the President. The chairman of the Commission shall be responsible for—

(A) the assignment of duties and responsibilities among staff personnel and their continuing supervision; and

(B) the use and expenditure of funds available to the Commission.

(4) VACANCIES.—Any vacancy on the Commission shall be filled in the same manner as the original incumbent was appointed.

(c) RESOURCES.—In carrying out its functions under this section, the Commission—

(1) is authorized to secure directly from any Federal agency or department any information it deems necessary to carry out its functions under this Act, and each such agency or department is authorized to cooperate with the Commission and, to the extent permitted by law, to furnish such information (other than information described in section 552(b)(1)(A) of title 5, United States Code) to the Commission, upon the request of the Commission;

(2) may enter into contracts, subject to the availability of appropriations for contracting, and employ such staff experts and consultants as may be
necessary to carry out the duties of the Commission, as provided by section 3109 of title 5, United States Code; and

(3) shall establish a multidisciplinary science and technical advisory panel of experts in the field of energy to assist the Commission in preparing its report, including ensuring that the scientific and technical information considered by the Commission is based on the best scientific and technical information available.

(d) STAFFING.—The chairman of the Commission may, without regard to the civil service laws and regulations, appoint and terminate an executive director and such other additional personnel as may be necessary for the Commission to perform its duties. The executive director shall be compensated at a rate not to exceed the rate payable for Level IV of the Executive Schedule under chapter 5136 of title 5, United States Code. The chairman shall select staff from among qualified citizens of Canada, Mexico, and the United States of America.

(e) MEETINGS.—

(1) ADMINISTRATION.—All meetings of the Commission shall be open to the public, except that a meeting or any portion of it may be closed to the public if it concerns matters or information de-
scribed in section 552b(e) of title 5, United States Code. Interested persons shall be permitted to appear at open meetings and present oral or written statements on the subject matter of the meeting. The Commission may administer oaths or affirmations to any person appearing before it.

(2) NOTICE; MINUTES; PUBLIC AVAILABILITY OF DOCUMENTS.—

(A) NOTICE.—All open meetings of the Commission shall be preceded by timely public notice in the Federal Register of the time, place, and subject of the meeting.

(B) MINUTES.—Minutes of each meeting shall be kept and shall contain a record of the people present, a description of the discussion that occurred, and copies of all statements filed. Subject to section 552 of title 5, United States Code, the minutes and records of all meetings and other documents that were made available to or prepared for the Commission shall be available for public inspection and copying at a single location in the offices of the Commission.

(3) INITIAL MEETING.—The Commission shall hold its first meeting within 30 days after all 16 members have been appointed.
(f) **REPORT.**—Within 12 months after the effective date of this Act, the Commission shall submit to Congress and the President a final report of its findings and recommendations regarding North American energy freedom.

(g) **ADMINISTRATIVE PROCEDURE FOR REPORT AND REVIEW.**—Chapter 5 and chapter 7 of title 5, United States Code, do not apply to the preparation, review, or submission of the report required by subsection (f).

(h) **TERMINATION.**—The Commission shall cease to exist 90 days after the date on which it submits its final report.

(i) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this chapter a total of $10,000,000 for the 2 fiscal-year period beginning with fiscal year 2005, such sums to remain available until expended.

**SEC. 2305. NORTH AMERICAN ENERGY FREEDOM POLICY.**

Within 90 days after receiving and considering the report and recommendations of the Commission under section 2304, the President shall submit to Congress a statement of proposals to implement or respond to the Commission’s recommendations for a coordinated, comprehensive, and long-range national policy to achieve North American energy freedom by 2025.
TITLE XXV—GRAND CANYON HYDROGEN-POWERED TRANSPORTATION DEMONSTRATION

SEC. 2501. SHORT TITLE.

This title may be cited as the “Grand Canyon Hydrogen-Powered Transportation Demonstration Act of 2005”.

SEC. 2502. DEFINITIONS.

For purposes of this title, the term—

(1) “Departments” means the Department of Energy jointly with the Department of the Interior; and

(2) “Secretaries” means the Secretary of Energy jointly with the Secretary of the Interior.

SEC. 2503. FINDINGS.

The Congress finds that—

(1) there is a need for a research and development program to support and foster the development, demonstration, and deployment of emerging hydrogen-based transportation technologies suitable for use in sensitive resource areas;

(2) partnerships between the Department of Energy, the Department of the Interior, Native American Tribes, and United States industry to develop hydrogen-based energy technologies can provide significant benefits to our Nation, including en-
hancing our environmental stewardship, reducing our dependence on foreign oil, increasing our energy security, as well as creating jobs for United States workers and improving the competitive position of the United States in the global economy; and

(3) when technologically and economically feasible, the implementation of clean, silent or nearly silent, hydrogen-based transportation technologies would further resource stewardship and experiential goals in sensitive resource areas including units of the National Park System, such as Grand Canyon National Park.

SEC. 2504. RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROGRAM.

(a) IN GENERAL.—The Secretaries shall jointly establish and carry out a research and development program, in partnership with the private sector, relating to hydrogen-based transportation technologies suitable for operations in sensitive resource areas such as national parks. The Secretaries, in partnership with the private sector, shall conduct a demonstration of hydrogen-based public transportation technology at Grand Canyon National Park within three years after the date of enactment of this Act. At his discretion, the Secretary of Energy may choose to extend existing Department of Energy hydrogen-
related vehicle research and development programs in order to meet the objectives and requirements of this title. The Secretaries shall provide preference to tribal entities in the establishment of the research and development program.

(b) OBJECTIVE.—The objective of the program shall be to research, develop, and demonstrate, in cooperation with affected and related industries, a hydrogen-based alternative public transportation system suitable for operations within Grand Canyon National Park, that meets the following standards:

   (1) Silent or near-silent operation.
   (2) Low, ultra low, or zero emission of pollutants.
   (3) Reliability.
   (4) Safe conveyance of passengers and operator.

(c) PARTNERSHIP.—In order to accomplish the objective set forth in subsection (b), the Secretaries shall establish a partnership among the Departments, manufacturers, other affected or related industries, Native American Tribes, and the National Park Service shuttle operators and tour operators authorized to provide services in Grand Canyon National Park.
SEC. 2505. REPORTS TO CONGRESS.

One year after the date of enactment of this Act, and annually thereafter for the duration of the program, the Secretaries shall submit a report to the Committees on Appropriations, Resources, and Energy and Commerce of the House of Representatives and the Committees on Appropriations and Energy and Natural Resources of the Senate describing the ongoing activities of the Secretaries and the Departments relating to the program authorized under this title and, to the extent practicable, the activities planned for the coming fiscal year.

SEC. 2506. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretaries to carry out this title, in addition to any amounts made available for these or related purposes under other Acts, $400,000 per year for three consecutive fiscal years beginning with the full fiscal year following the date of enactment of this Act.

TITLE XXVI—ADDITIONAL PROVISIONS

SEC. 2601. LIMITATION ON REQUIRED REVIEW UNDER NEPA.

(a) LIMITATION ON REVIEW.—Action by the Secretary of the Interior in managing the public lands with respect to any of the activities described in subsection (b) shall not be subject to review under section 102(2)(C) the
National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), if the activity is conducted for the purpose of exploration or development of a domestic Federal energy source.

(b) Activities Described.—The activities referred to in subsection (a) are the following:

(1) Geophysical exploration that does not require road building.

(2) Individual surface disturbances of less than 5 acres.

(3) Drilling an oil or gas well at a location or well pad site at which drilling has occurred previously.

(4) Drilling an oil or gas well within a developed field for which an approved land use plan or any environmental document prepared pursuant to the National Environmental Policy Act of 1969 analyzed such drilling as a reasonably foreseeable activity.

(5) Disposal of water produced from an oil or gas well, if the disposal is in compliance with a permit issued under the Federal Water Pollution Control Act.

(6) Placement of a pipeline in an approved right-of-way corridor.
(7) Maintenance of a minor activity, other than any construction or major renovation of a building or facility.

SEC. 2602. ENHANCING ENERGY EFFICIENCY IN MANAGEMENT OF FEDERAL LANDS.

(a) SENSE OF THE CONGRESS.—It is the sense of the Congress that Federal agencies should enhance the use of energy efficient technologies in the management of natural resources.

(b) ENERGY EFFICIENT BUILDINGS.—To the extent practicable, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture shall seek to incorporate energy efficient technologies in public and administrative buildings associated with management of the National Park System, National Wildlife Refuge System, National Forest System, National Marine Sanctuary System, and other public lands and resources managed by the Secretaries.

(c) ENERGY EFFICIENT VEHICLES.—To the extent practicable, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture shall seek to use energy efficient motor vehicles, including vehicles equipped with biodiesel or hybrid engine technologies, in the management of the National Park System, National Wildlife Refuge System, National Forest System, National Marine Sanctuary System, and other public lands and resources managed by the Secretaries.
Marine Sanctuaries System, and other public lands and resources managed by the Secretaries.
