

Hi Mr. Korleski, Director of the Ohio EPA,

I believe that climate change is the most pressing environmental and human rights issue facing the world today, and I know that coal-fired power plants are the single largest contributor to the problem. Your office has a lot of power in the permitting process for the AMPGS coal power plant, and I want to ask you today for your leadership on this issue.

The federal EPA has decided to regulate greenhouse gases, the AMPGS has recently been found through independent assessment to be up to 3 times as expensive as originally proposed, and the AMPGS is a serious justice issue as it forms the cornerstone of the highest concentration of coal plants in the country, all while other states have rejected proposed coal plants because of concerns about climate change and pending federal regulation. I want Ohio to be a leader, and I need your help.

**I ask of you, Mr. Korleski, to do your part:**

- 1) Reject the AMPGS permits, particularly the upcoming siting permit**
- 2) Separate the AMPGS water and NPDES permitting processes**

Sincerely,

Hi Mr. Korleski, Director of the Ohio EPA,

I believe that climate change is the most pressing environmental and human rights issue facing the world today, and I know that coal-fired power plants are the single largest contributor to the problem. Your office has a lot of power in the permitting process for the AMPGS coal power plant, and I want to ask you today for your leadership on this issue.

The federal EPA has decided to regulate greenhouse gases, the AMPGS has recently been found through independent assessment to be up to 3 times as expensive as originally proposed, and the AMPGS is a serious justice issue as it forms the cornerstone of the highest concentration of coal plants in the country, all while other states have rejected proposed coal plants because of concerns about climate change and pending federal regulation. I want Ohio to be a leader, and I need your help.

**I ask of you, Mr. Korleski, to do your part:**

- 1) Reject the AMPGS permits, particularly the upcoming siting permit**
- 2) Separate the AMPGS water and NPDES permitting processes**
